- repetition priming; identification-production hypothesis; age differences; production priming; identification priming; stimulus identification; classification processes; semantic classification, 15977
- respiratory disturbance; performance iq; academic achievement; disordered breathing; group comparisons; math achievement; immediate recall; sleep disordered breathing, 4862
- retrieval processes; retrieval effort; retrieval orientation; electrophysiological indices; event related potentials, 30711
- retrieval selectivity; self-referent information; self-protection; mnemonic neglect, 27542
- retrieved intentions; interruptions; memory performance; prospective memory; delay length, 30727
- retroactive interference; storage processes; retention test; memory; cognitive development, 13186
- retrograde amnesia; anterior communicating artery aneurysms; retrograde memory; rupture; surgical repair; temporal amnesia, 20030
- revelation effect; recognition judgment; response bias; memory sensitivity, 33880
- Revised Memory and Behavior Problems Checklist; psychometrics; factor structure; factor analysis; family caregivers; dementia; validity; gender differences; racial differences, 6320
- revised methodology; metacognitive monitoring; metamemory; judgments of learning; pre-judgment recall and monitoring; data collection; data analysis, 15330
- schema; recognition memory scores; virtual environments; stored memory retrieval; dynamic memory model; virtual reality paradigms; memory processes, 21370
- schizophrenia patients; memory tasks; cognitive remediation; reaction time task; cognitive performance; enhancement therapy, 29280
- schizophrenic patients; serotonin precursor; neuropsychology; cognitive abilities; memory; L-tryptophan; neuroleptic drugs; interactions, 2187
- scientific presentations; child psychotherapy; adolescent psychotherapy; procedural memory; neuroscience; trauma; psychoanalysis; death instinct; Post Traumatic Stress Disorder, 32415
- scopolamine-induced memory impairment; Z-a-jone; oil-macerated garlic products; dose-dependent; water maze, 34187
- scopolamine; memory impairment; rats; oxidative stress; brain; retrieval memory; malondialdehyde; glutathione peroxidase; glutathione; superoxide dismutase; Hypericum perforatum, 7177
- screen memory; symptom; dream; analytic process; transference neurosis; genetic origin; human mind, 20227
- secrecy; suggestibility; memory; children; secrets, 22049
- selective impairment; fornix-transected rats; sham-operated rats; nonspatial memory; odor-guided task; relational memory; hippocampus, 9842
- self-perceptions; worry; memory; cognition; cognitive functioning; subjective memory; objective memory, 3371
- self-choice effect; response choice; relational processing; multiple-cue; retrieval cues; recall, 21394
- self-complexity; negative moods; positive memories; mood-incongruent recall; mood regulation; knowledge structure, 24515
- self-defeating personality; child rearing behaviour; parents; memories, 25766
- self-evaluation; directed forgetting; encoding strategy change; memory performance; recall, 21390
- self-rated ability; confidence judgments; eyewitness memory; general knowledge, 18395
- semantic attributes; unrecollected words; semantic differential; evaluation; potency; activity; partial recall; memory retrieval; forgetting; know vs remember; attribute & item recall, 421
- semantic context; memory; verbs; nouns, 33806
- semantic integration; syntactic planning; language production; serial stack based systems; parallel activation based systems; memory shifting, 28020
- semantic interference deficits; mild Alzheimer's disease; mild cognitive impairment; dementia, 11269
- semantic knowledge; mild cognitive impairment; Alzheimers disease; memory impairment; dementia; famous face recognition, 35280
- September 11; cognitive impacts; social impacts; emotional impacts; memory; reception context; flashbulb memory; group differences; news, 28398
- September 11; terrorist attacks; Alzheimers disease; mild cognitive impairment; memory; emotions; healthy older adults; emotional response, 19953
- septohippocampal acetylcholine; learning; memory; cholinergic activity, 15559
- serial position and picture-superiority effects; group recall; information distribution and form; unshared information, 34615
- serotonergic neurotransmission; pharmacological treatments; retention; rats; retrieval processes; passive avoidance; memory reactivation; serotonin 1A agonist 8-OH-DPAT, 13071
- serotonin depletion; brain serotonin; catecholamine depletion; memory; dopamine; learning; amino acid, 21847
- sex differences; recall trial; undergraduate students; memory performance; memory estimates; pictures; words; estimation; metacognition, 24500
- sexual behavior; memory recall; time lag; self report validity; condom use; alcohol use; substance use, 13380
- signal detection analysis; audio redundancy effects; video redundancy effects; television news video; media memory; recognition memory; news stories, 33853
- signal detection theory; remember know paradigm; sensitivity estimates; confidence judgments; remember rates, 15325
- simultaneous task learning; memory inhibition; delayed recall; simultaneous acquisition effect, 24484
- singing ability; brain; cognitive neuropsychology; music processing; singing performance; brain-damaged patients; language processing; memory, 35317
- skilled memory; time transformation; rock climbers; skill level; flow states; memory, 20970
- sleep onset; mismatch negativity; auditory event-related potentials; sensory memory; non-REM sleep; deviant related negativity; stimulus presentation, 15673
- social anxiety; memory; face identity recognition; emotional expression recognition, 1515
- social interaction; memory effects; protagonists statements; nonverbal behaviors; communication; mental representations; behavior recognition, 27488
- social recognition; rats; nicotinic receptors; acetylcholinesterase inhibitors; learning; memory; scopolamine, 21920
- social relationships; cardiovascular reactivity; recall, 30944
- source attribution; semantic categories; trace strength; memory origins; quantitative cues; qualitative cues; diagnosis, 30712
- source memory; content memory; unilateral frontal cortex excision; temporal lobe excision; information encoding, 23008
- source memory; item memory; visual feedback; enactments; action phrases, 27545
- sources of variability; systematic error; mice; timing behavior; temporal memory, 6676
- spacing effects; free recall; contextual change; repetition, 24519
- spacing strategies; spacing effect; long term learning; meta-cognitive control strategy, 18405
- spatial discrimination learning; temporal lobe; fornix transection; macaque monkeys; spatial stimuli; spatial memory; animal learning; retrieval; food reward locations, 12815
- spatial information; unfamiliar environment; position; perspective; memory, 419
- spatial learning; memory; birds; cognition, 33960
- spatial learning; memory; social-nonsocial behaviors; Spontaneously Hypertensive rats; Wistar-Kyoto rats; Sprague-Dawley rats; rodent strains, 18661
- spatial memories; allocentric updating; egocentric updating; spatial reference directions; locomotion; memory, 9669
- spatial representation; hippocampus; neocortex; entorhinal cortex; neural activity; memory, 34021
- speed-accuracy tradeoff; recognition accuracy; recognition memory; incidental learning conditions; recollection process, 27531
- speed; memory ability; age factor; scores; performance; WAIS-III Digit Symbol; WMS-III; Wechsler Adult Intelligence Scale; Wechsler Memory Scale; adult lifespan; age-related decline, 33579
- stereotypes; automotive model; directed forgetting; recall; forget cues; remember cues; category primes; explicit memory; implicit memory; words, 407
- stereotypic inhibition; stereotypic traits; forgetting; memory; identity; personality characteristics, 7631
- strategy shift affordance; strategy choice; young adults; older adults; skill acquisition; scanning-based processing; memory-based processing; age differences, 33879
- strategy; cognitive skill learning; memory-based performance; practice; item response; parallel strategy execution; retrieval; algorithm, 9676
- suboptimal presentation; facial expressions; memory; respiratory sinus arrhythmia; priming effects; emotion; attention; facial electromyography; video messages; recognition memory; orbicularis oculi, 24368
- sum-difference theory; remembering; knowing; remember-know paradigm; recognition memory; signal detection model; receiver operating characteristic curves; item recognition, 27566
- susceptibility; resilience; memory aging stereotypes; education; age; memory performance; young adults; middle-aged adults; older adults; influence; counterstereotype; age differences on a memory task, 28415
- symptom validity tests; Computerized Assessment of Response Bias; Test of Memory Malingering; Word Memory Test; test assessment; failure rates; non-head injury; disability claimants, 27336
- symptoms; memory; schizophrenia; Frith's model of willed action; stimulus-driven action systems; willed-driven action systems, 25682
- synaptic activity; caenorhabditis elegans; thermotactic memory; ambient temperature; neural circuit; thermotactic behavior; temperature memory, 12959
- synthetic peptide ligand; neural cell adhesion molecule; NCAM; exploratory behavior; memory; rodents; avoidance; impaired learning; C3; rats; mice; neuronal plasticity; neuronal development, 727
- target-stimulus reminder; reminder cue; object recognition; novel object; memory; rats, 3470
- television reruns; culture; society; cross generational information; social continuity; collective memory; television viewing, 15899
- temporal grouping; auditory spatial serial memory; serial recall; white noise, 33872
- temporal lobe epilepsy; hippocampus; immediate memory performance; delayed memory performance; temporal lobe; volume, 8250
- temporal memory; item memory; recognition memory performance; memory for context; adult age differences; free recall, 906
- temporal processing deficits; high-functioning children with autism; complex functions; temporal patterns; perception; attention; memory; emotions; social interactions; language, 32014
- terrorist attacks; false memory; flashbulb memory; September 11 attacks; President Bush, 21373
- terrorist attacks; recall; flashbulb memory; Alzheimers disease; information encoding; information storage, 26176
- test modality; source monitoring; event-related potentials; source memory, 422
- Test of Memory Malingering; forensic psychiatric setting; validity; dissimulation of cognitive impairment; competency to stand trial, 3206
- Test of Memory Malingering; forensic assessment; malingering; memory, 9305
- The Test of Memory Malingering; normative data; cognitively intact; cognitively impaired; elderly patients; dementia; psychometric validation, 21160
- theta oscillations; alpha oscillations; memory performance; evoked oscillations; event-related potential; oscillatory phase; P1-N1 complex, 21733
- threat; coping dispositions; memory representation; encoding; ambiguous stimuli; affective reactions; anxiety influences; repressive discontinuity hypothesis, 15290
- time course; memory facilitating effect; bicuculline; hippocampus; entorhinal cortex; posterior parietal cortex; rats, 27918
- time estimation; time perception; memory; age differences; childhood development; temporal generalization, 10196
- time perception; routine; time estimation; remembered duration; routine activities; duration judgments, 3305
- timing; repeated suggestive interviewing; misinformation; recall; eyewitness memory, 30728
- topiramate; memory performance; intracarotid amobarbital test; mesial temporal lobe epilepsy; antiepileptic drugs, 23256
- training conditions; retention interval; artificial grammar; conscious mental model; memories; learning, 30709
- trait anxiety; trait depression; worry; memory bias, 31595

- transfer appropriate monitoring; metamemory; judgments of learning; test conditions; processing similarity; cued recall vs recognition memory test, 437
- transitivity; flexibility; conjunctive representations; hippocampus; odor discrimination; rats; memory storage system; response, 18620
- trauma films; intrusive memories; concurrent tasks; dual representation; mood; dissociation; heart rate; visuospatial pattern tapping; encoding conditions; verbal distraction; recognition measures, 12642
- trauma; tragic events; memories; loss; Kent State tragedy; May 1970, 10567
- traumatic amnesia; dissociation; repressed memory; traumatic experiences, 25504
- traumatic amnesia; dissociation; repressed memory; traumatic experiences, 25528
- traumatic amnesia; dissociation; repressed memory; traumatic experiences, 25529
- traumatic amnesia; dissociation; repressed memory; traumatic experiences, 25539
- traumatic brain injury; children's memory; memory functioning; test of memory; recall items; head trauma; Test of Memory and Learning, 9449
- traumatic brain injury; day-to-day memory functioning; pediatric injury; memory loss; explicit memory; prospective memory; implicit memory, 32193
- traumatic events; traumatic experiences; memory development; infantile amnesia, 13171
- traumatic memories; posttraumatic stress disorder; traumatic stress responses; malingering; cognitive models; assessment; treatment, 34894
- trihexphenidyl hydrochloride; psychomotor performance; memory consolidation; elderly participants; anticholinergic drug; memory functioning, 21898
- tryptophan; drug abstinence; MDMA; ecstasy; memory function; serotonin, 9971
- tyrosine kinases; synaptic plasticity; memory formation; invertebrates; long term memory induction; signaling cascades; vertebrates, 6974
- undergraduate students; executive functioning; attentional control; dissociative amnesia; pathological memory, 33790
- United States Postal Service; USPS; commemorative programs; Celebrate the Century; collective memory; postal stamps; postmodernity; political heterogeneity; iconography; consumer democracy, 3118
- ventral medial prefrontal cortex; emotional perseveration; memory; extinction training; fear conditioning; rats; brain lesions, 6808
- verbal fluency tests; schizophrenia; defective memory; executive functioning; psychomotor speed, 28749
- verbal memory; hormone replacement therapy; breast cancer; psychological morbidity; cognitive functioning, 14271
- verbal Selective Reminding Test; test reliability; normative data; cognitive functioning; Spanish-speaking population, 21082
- verbal short-term memory; visuospatial working memory; fluid intelligence; working memory; latent-variable approach; spatial reasoning; domain-specific storage; executive-attention, 21378
- verbalization; lineup face recognition; interpolated inspection; face memory; distractor, 21381
- visual mental imagery; imagery-related visuospatial activity; memory retrieval strategy; imagery content; frontal cortex; visual cortex, 30851
- visual search; individual differences; symbol-digit substitution test; feature encoding; memory, 9564
- vitamin A deficiency; radial maze discrimination learning; relational memory; hippocampus; retinoid receptors; neurogranin; retinoids; memory deficit; adult mice; brain retinoid signalling, 3629
- vocabulary memory; college students; majors; nonlinear relations; knowledge domains, 33848
- vocational rehabilitation program; neuropsychological tests; verbal intelligence; memory function; problem solving; cognitive efficiency; Multiple Sclerosis, 18148
- von Restorff effect; amnesia; novelty; recognition memory; medial temporal lobe, 13964
- wakefulness; sleep; learning; EEG power spectra; memory processing; behavioral responses; avoidance task; retention; rats, 15659
- Warrington Recognition Memory Test for Faces; interpretive strategy; diagnostic utility; temporal lobe epilepsy; psychometric properties; right temporal lobe; intelligence, 21161
- Wechsler Memory Scale-3rd Edition performance; epilepsy patients; temporal lobeectomy; memory, 18153
- Wernicke's syndrome; galantamine; Korsakoff psychosis; amnesia; memory; acetylcholinesterase; attention, 28869
- witness testimony; memory; juror misperceptions, 33434
- Women's Health Initiative Memory Study; postmenopausal hormone therapy; estrogen; progesterin; dementia; equine estrogens; medroxyprogesterone acetate, 29385
- Word Memory Test; children; performance; age; verbal intelligence; reading skills; grade level; disorders, 191
- word-length effect; recall; long word; short words, 9713
- working memory process; dopamine receptor agonist; agonal; visual recognition; delayed visual differentiation; delayed spatial selection tasks; cognitive processes; monkeys; long-term memory, 9829
- working memory span; situation model processing; comprehension; memory processing; working memory capacity, 24511
- working memory; Corsi block task; articulatory suppression; matrix tapping; impaired memory performance, 18408
- zuclopenthixol; memory retrieval; rats; inhibitory avoidance; noradrenergic & serotonergic mechanisms; thioxanthene dopaminergic antagonist; acetylcholinesterase enzyme; hippocampus; neurotransmitters, 738

Volume 91 SUBJECT INDEX

Memory Disorders—Serials

major depression; declarative memory; antidepressive treatment; cognitive impairment; recovery; memory disorder, 31728

memory deficits; retrieval processes; amyotrophic lateral sclerosis; memory impairment, 22973

memory disorders; radial arm; prefrontal cortical areas; receptor autoradiography; cardiovascular disease; central nervous system; cholinergic function; memory performance; cholinergic marker, 21594

memory impairment; axonal atrophy; synaptic loss; protopanaxadiol; saponins; cognitive disorder; Alzheimers disease; ginsenoside; mouse model, 24713

memory impairment; chronic fatigue syndrome; psychiatric comorbidity; recall; recognition; acquisition; storage; retrieval, 11144

memory impairment; learning impairment; methyl-phenyl-tetrahydrodipyrrole; nicotineamide; mice, 24857

mesial temporal lobe epilepsy; hippocampal sclerosis; memory deficits; cognitive function; Hispanic patients, 11297

monosyllabic words; disyllabic words; bilateral hippocampal damage; continuous recognition; hippocampal function; impaired recognition; memory damage, 20057

multiple sclerosis; depression; memory difficulties; depressive realism; Beck's depression theory; everyday memory; verbal memory performance; negative cognitive schema; overestimation; memory ratings, 19951

muscarinic acetylcholine receptors; gene expression; scopolamine treatment; scopolamine treated rat; hippocampus; cDNA microarray technology; memory impairment, 730

obsessive-compulsive disorder; procedural memory; frontostriatal abnormality; learning ability; declarative memory, 34923

pointing task performance; traumatic brain injury; memory deficit; adult patients, 13950

prodromal Alzheimer disease; MRI volume; memory impairment; group differences; SPECT activity concentration, 8240

psychogenic fugue; memory disorder; emotional trauma; psychological trauma; personal identity; loss of language, 22941

schizophrenia; color-pattern implicit learning; memory impairment; auditory evoked potential; sensory gating; P50; implicit memory; explicit memory, 19454

severe dementia; memory books; memory impairments; cognitive deficits; communication skills; discourse; cues, 17409

spatial memory deficits; perinatal treatment; rats; phenylcylidine; serine; neurodegeneration, 24777

spatiotemporal rescue; memory dysfunction; Drosophila; temporal gene expression; regional gene expression, 9764

transient memory impairment; visual hallucinations; tolterodine use; anticholinergic medications; urinary incontinence, 8651

traumatic stress; brain changes; memory deficits; posttraumatic stress disorder; hippocampal damage; memory performance, 35293

Victoria Symptom Validity Test scores; profound memory impairment; nonlittigants; neurological illness; dense anterograde amnesia; test sensitivity, 6327

Memory Disorders [See Also Amnesia]—Chapters

Central auditory processing, 4823

Memory Enhancing Drugs [See Nootropic Drugs]

Memory Trace—Serials

language-specific memory traces; consonants; brain; native language experience; place-of-articulation feature, 18400

neurobiological basis; memory traces; short-term memory; memory, 21386

transitivity; flexibility; conjunctive representations; hippocampus; transitive inference performance; rats; encoded memory; learning, 18568

working memory spans; time-based resource sharing; adults; attention; memory traces; memory retrieval; item recall maintenance; time allowance; cognitive load; intervening treatment, 12630

Memory Training—Serials

Alzheimers disease; name-face recognition; older adults; spaced-retrieval training; memory deficit, 13952

brain injury; computer-assisted training; memory retraining programmes; amnesia, 32189

CD ROM memory training; within session autonomy; computer skills acquisition; computerized memory training, 33373

dementia patients; caregiver support group; memory training; music therapy; psychological symptoms; behavioural symptoms; caregiver burden, 19948

dementia; memory intervention; training; adjusted spaced retrieval; effortless learning; Alzheimer's disease; alcohol induced memory impairment; long term memory, 19993

dyslexic children; working memory functions; writing performance; parallel processes; adaptive processes; reading performance; memory deficit; perception, 1719

elderly people; working memory performance; aging; motivational aspects; specific memory training; young adults; performance improvement, 13270

memory strategy; behavioral performance; mnemonic processes; brain activation; long-term memory; short-term memory, 3713

memory strategy; second grade students; self efficacy task; word organizing; categories; memory enhancement; trained students; performance level prediction; student predictions; qualitative data, 12118

memory training program; word-list recall; word-list recognition; Alzheimer's disease; donepezil, 14243

memory training programs; number recall; self-generated encoding & retrieval strategies; mnemonics; remembering; cognitive support; verbal cues; older adults, 3386

memory training; hippocampal; neurochemistry; brain; neurobiological change; mental activation training; humans; neural dysfunction; neurometabolites; cellular energy; cell-membrane; memory, 7001

memory training; recollection; older adults; incremented difficulty approach, 1036

prospective memory performance; event-based prospective memory tasks; prospective memory task; prospective memory, 27548

spaced retrieval; memory; mnemonic; Alzheimer's disease; dementia, 19957

trauma; recovery; implications; rehabilitation; healing; Trisha Meili; Central Park Jogger; presentation; Jon Kabat-Zinn; mindfulness; meditation, 35312

working memory span; reading ability; cognitive function; strategy training; memory training, 3401

Men [See Human Males]

Menarche—Serials

menarche age; schizophrenia onset; estrogen hypothesis; schizoaffective disorder; women, 28709

menstruation expectations; premenarcheal girls; sociocultural context; rural area; urban area; Mexico; paramenstrual changes, 21761

premenarcheal expectations; postmenarcheal experiences; adolescents; menarche; menstruation; emotional responses; menstrual symptoms; self-esteem; physical attractiveness; gender-role identity, 22006

seizure onset; epilepsy onset; menarche; postmenarcheal patients; developmental risk, 5014

socioeconomic status; menarche age; adolescents; Turkish female students; menarcheal features; urban area, 28163

Menieres Disease—Serials

immunological response; acute low-tone hearing loss; sensorineural loss; Meniere's disease; endolymphatic hydrops; etiology, 11310

walking performance; vestibular-defective patients; unilateral vestibular neurectomy; locomotion; Menieres disease, 23045

Meningitis—Serials

neurological disorders; psychiatric disorders; psychiatric morbidity; meningitis; psychosis; risk factors; genetic; deafness, 19445

Meningomyelocele [See Spina Bifida]

Menopause—Serials

androgenic metabolites; estrogenic metabolites; dehydroepiandrosterone; cognition; postmenopausal women; short term memory, 23247

body image; self-esteem; menopause attitudes; menopausal symptoms; estrogen level; premenopause; postmenopause, 7458

body image; self-esteem; menopause attitudes; menopausal symptoms; estrogen level; premenopause; postmenopause, 7457

body image; self-esteem; menopause attitudes; menopausal symptoms; estrogen level; premenopause; postmenopause, 7455

caffeine; postmenopausal estrogen; Parkinson's disease; PD; postmenopausal hormone; caffeinated drinks; sex differences; hormonal effects, 16734

cognitive function; menopause transition; verbal fluency; hormone replacement therapy; menopause symptoms, 15686

depressive symptomatology; postmenopausal women; HRT; transdermal hormone replacement therapy; mood states; cigarette abstinence; nicotine withdrawal; short-term smoking abstinence; smoking cessation, 5099

energetics; menstrual cycle; menopause; evolution, 27831

energy intake; physical activity; short-term smoking abstinence; postmenopausal women; weight gain, 32757

estrogen therapy; estradiol; depression; postmenopausal women; progestins; mood, 17066

estrogen; antidepressant effects; fluoxetine; perimenopausal women; major depression, 5353

gene-hormone interaction; female suicide attempts; polymorphism; serotonin transporter promoter area; postmenopausal suicide attempts; menstruation, 13688

health-related quality of life; women; perimenopause; ethnic group; health adjustment; lifestyle adjustment; psychosocial adjustment; sociodemographic adjustment, 14309

hormone replacement therapy; attitudes; breast cancer survivors; menopausal symptoms; premenopausal women; adjuvant therapy; oestrogen; tamoxifen; postmenopause; quality of life; menopause, 1812

hormone replacement therapy; HRT; physician counseling; bone loss; sociodemographic factors; racial characteristics; menopausal women; estrogen, 2314

hot flashes; breast cancer survivors; non-pharmacological treatment; menopausal women; menopausal symptoms, 32126

hot flashes; risk factors; midlife women; smoking; hormone levels; body size; tubal ligation; surgical menopause; race; ethnicity, 1798

hysterectomy; estrogen replacement therapy; quality of life; older women; postmenopausal women; oophorectomy, 29350

impact of menopause; mental health counseling, 2378

menopausal status; disturbed sleep; midlife women, 4890

menopausal symptoms; psychological distress; tubal sterilization, 35658

menopausal women; hormone replacement therapy; HRT; Alzheimer's disease; AD; rivastigmine; estrogen effect, 5454

menopausal women; menopausal mood disturbance; neuropsychological symptoms; hormone replacement therapy; psychoactive medications; hot flashes, 2272

menopausal symptoms; Mayan women; Guatemala; ethnolinguistic groups; Mexico, 15704

menopause; DHEA-S; prolactin; musculo-skeletal pain; psychological distress; sex hormones; estradiol; testosterone; androstenedione, 7093

menopause; Menopausal Sexual Interest Questionnaire; sexual interest; sexual desire; test reliability; construct validity; sexual function, 27281

menopause; physical activity; diet; risk factors; weight gain; weight loss; cardiovascular disease; cardiovascular health; health behavior; body composition; lifestyle intervention, 11739

menopause; women's expectations; apprehensions; women's knowledge; climacteric period, 21993

migraine; premenstrual syndrome; follicle-stimulating hormone; menopause status; hormone levels; hysterectomy; estrogen, 22853

obesity; verbal memory; postmenopausal women; Downs syndrome; cognition; aging; cognitive function; estrogen levels, 29025

oestradiol dose effect; menopausal symptoms measurement; psychological well-being; quality of life measurement; postmenopausal Chinese women; hypoestrogenism; vasomotor symptoms; mood measurement, 23381

physical health; mental health; hormone replacement therapy; menopause transition; menopausal status; women, 21763

postmenopausal women; hormone replacement therapy; sleep-disordered breathing; estrogen monotherapy; estrogen plus progesterone; sleep; mood, 5439

psychology; Biology-as Explanation bias; women; menstruation; abortion; menopause; public belief; reproductive life; Women-as-Problem bias; sexual activity; pregnancy; motherhood; infertility, 657

resistance training; aging; postmenopausal women; body composition; balance; strength, 8688

risky behavior; threepronged stickleback; endocrine disrupting chemicals; reproductive traits; birth control pill; post-menopausal hormone replacement therapy, 21811

sex; race; sexual differences; racial differences; menopause-related discourses; feminist theory; chiasmata; hormone replacement therapy, 28316

symptom experience; midlife; human sex differences; vasomotor symptoms; psychological symptoms; somatic symptoms; endocrine changes; menopausal status; symptom genesis; psychological health, 22399

verbal memory; estrogen exposure; episodic memory; menopausal transition; menopausal status; menstrual period; hormone therapy, 22814

women; Down syndrome; menopause age; Alzheimers disease; endogenous estrogen deficiency; postmenopausal women; dementia onset, 11104

women's health; menopause; hormone replacement therapy; women's biology; emotional well-being; cultural well-being; physical well-being; spiritual well-being; primary care; decision making; risk factors, 32567

Menopause—Chapters

Menopause and the lives of midlife women, 16967

The sexual impact of menopause, 4908

Menstrual Cycle [See Also Menstruation, Ovulation]—Serials

adrenal cortex; ethanol; acute administration; single dose; proestrus; diestrus; morphometric parameters; female rats, 756

anxiety level; coping styles; cycle phase; menstrual distress; premenstrual distress, 18672
chocolate; craving; menstrual cycle; Spanish females; American females, 34736
disgust sensitivity; menstrual cycle; adaptation; reduction; suboptimal sexual behaviors; reproductive immunosuppression; disease prophylaxis, 3820
heart rate variability; premenstrual dysphoric disorder; symptomatic luteal phase; non-symptomatic follicular phase; menstrual cycle, 29012
individual differences; menstrual cycle phase; everyday situations; personality traits; work; moods, 18420
interhemispheric communication; menstrual cycle; progesterone levels; behavioral measure; negative affect; menstrual phase; mood variables, 30917
lamotrigine therapy; treatment-resistant menstrually-related rapid cycling bipolar disorder; follicular phase depressive symptoms; luteal phase mood elevation symptoms, 35506
major depression; menstruation; pregnancy experiences; menstrual characteristics; premenopausal women, 22493
menstrual cycle; aggressive behavior; anger; hostility; sex difference, 4710
menstrual cycle; episodic cluster-like headaches; menstruation, 13877
menstrual cycle; healthy young women; subjective sleep; ovulation, 18655
menstrual cycle; neurocognitive functioning; mood; neuroendocrine function; premenopausal women; hypothalamic-pituitary-adrenal axis, 15454
menstrual cycle; platelet serotonin site; serotonin receptor binding; paroxetine; lysergic acid diethylamide; cyclical changes; estradiol; progesterone, 27956
menstrual cycle; premenopausal women; dominance; submission; hostility; warmth; socioemotional traits; irregularity; social hierarchies; self reports, 7103
menstruation expectations; premenarcheal girls; sociocultural context; rural area; urban area; Mexico; paramenstrual changes, 21761
mood effects; sensory detection; menstrual cycle phase; physiological arousal; putative human pheromones; steroids; chemosignals; mood; psychopharmacology; androstadienone, 7225
premenstrual dysphoric disorder; frontal alpha asymmetry; luteal phase; menstrual cycle; frontal cortical; depression; affect, 28981
premenstrual symptoms; luteal phase; suicide attempts; women; menstrual cycles, 34941
psychotropic treatment; perimenstrual psychosis; female adolescents, 4654
risk taking behavior; menstrual cycle; rape; ovulation; ovarian cycle; women; nonrisk behavior, 4444
Menstrual Disorders (See Also Amenorrhea, Premenstrual Dysphoric Disorder)—Serials
abnormal uterine bleeding; dysmenorrhea; premenstrual syndrome; amenorrhea; female adolescents; nursing interventions, 23396
coagulation disorders; menorrhagia; dysfunctional uterine bleeding, 35195
female athlete triad; educational program; menstrual dysfunction; female athletes; eating disorders; secondary amenorrhea; loss of bone density; disordered eating attitudes; risk factors, 10672
heart rate variability; premenstrual dysphoric disorder; symptomatic luteal phase; non-symptomatic follicular phase; menstrual cycle, 29012
luteal phase; premenstrual dysphoric disorder; alcohol abuse; women; alcohol sensitivity; menstrual cycle; drug dosages, 29023
menstrual disturbances; bright-light therapy; seasonal affective disorder; bipolar disorder; therapy side effects, 26458
premenstrual dysphoric disorder; frontal alpha asymmetry; luteal phase; menstrual cycle; frontal cortical; depression; affect, 28981
premenstrual dysphoric disorder; sexual abuse; hypothalamic-pituitary thyroid axis; thyroid axis profile, 25800
premenstrual tension syndrome; premenstrual period; femininity; tension; hostility; expectations, 28991
Menstruation (See Also Menarche)—Serials
energetics; menstrual cycle; menopause; evolution, 27831
gene-hormone interaction; female suicide attempts; polymorphism; serotonin transporter promoter area; postmenopausal suicide attempts; menstruation, 13688
Kevlar; Crisco; menstruation; Dene Games; tradition; role of women, 27126
menstrual cycle; episodic cluster-like headaches; menstruation, 13877
menstrual separation; ritual immersion; women; Jewish Orthodox; ritual purity, 34525
psychology; Biology-as Explanation bias; women; menstruation; abortion; menopause; public belief; reproductive life; Women-as-Problem bias; sexual activity; pregnancy; motherhood; infertility, 657

vaginal bleeding; adolescent women; coitus; sexual intercourse, 31222
Mental Age—Serials
aging; young old; oldest old; aging mind; functional capacity, 16055
false belief understanding; congenital profound visual impairment; theory of mind understanding, 20084
intelligence law; mental ability; physical brain size; infant motor capacity; mental growth; mental age; human nervous system; intelligence testing; standardized differences; human development, 33520
mental aging; mental health; homeostatic hormonal processes; adaptational hormonal processes; youthful attitudes; cognitive processes, 28043
response latency; mental ability; mental strategy; cognitive aging; response accuracy; animal model; beagle dogs; aged dogs; young dogs; errors; learning strategies, 479
Mental Confusion—Serials
acute confusion risk; sensory impairment; elder care; geriatric syndrome; long term care; hearing impaired; visually impaired, 20596
clinical manifestations; tuberculosis; confused; incapacitated; mental status alteration, 26042
traumatic brain injury; acute confusion; inpatient rehabilitation; delirium; neurobehavioral impairments, 35313
Mental Deficiency (See Mental Retardation)
Mental Disorders (See Also Adjustment Disorders, Affective Disorders, Alexithymia, Anxiety Disorders, Autism, Chronic Mental Illness, Dementia, Dissociative Disorders, Eating Disorders, Elective Mutism, Factitious Disorders, Gender Identity Disorder, Hysteria, Impulse Control Disorders, Neurosis, Paraphilias, Personality Disorders, Pervasive Developmental Disorders, Psychosis, Schizoaffective Disorder)—Serials
3rd GEBIN Symposium; behavior; neurology; endocrinology; immunology; mental disorders; stress reactions; psychiatry, 1316
ablative neurosurgery; mental disorder; Scotland; neurosurgical treatment; neurosurgical adverse effects; depression; obsessive-compulsive disorder, 10713
accommodative coping; flexible goal adjustment; midlife parents; well being; children with disabilities; mental health problems; developmental disability; physical symptoms, 19772
acute psychiatric wards; mental health care system; short-term hospital care; ward care description; qualitative studies; mental disorders; staff-patient relations; pharmacological interventions, 29743
Addiction Severity Index; scale structure; factor validation; concurrent disorders; psychiatric disorders; substance abusers; confirmatory factor analysis, 33544
adolescent anxiety; adolescent psychiatric disorders; anxiety disorders; diagnostic instruments; symptom measurement; psychometric properties; validity; comprehensive review, 139
advanced breast cancer; advanced disease; mood disorders; group therapy; structured psychiatric interview; supportive-expressive group; psychosocial morbidity; adjuvant chemotherapy, 26099
adversity; lifetime exposure; depressive disorder; psychiatric disorder; young adolescents; anxiety disorder; racial and ethnic differences, 25496
affective disorders; bipolar probands; bipolar disorder; first-degree relatives; genetic factors, 28646
aggression; maladaptive behaviors; psychiatric disorder; psychiatric services; intellectual disability; mental retardation, 19797
alcohol; dementia; mental disorders; elderly; suicide; relapse prevention; pharmacotherapy, 4745
alternative medicine; cost containment; patient satisfaction; acupuncture; meditation, 35597
Alzheimer disease; mental disorder; geriatric mental health; cognitive symptoms; neurological causes, 35302
Alzheimer's disease; onset; mid and late phase; psychological symptoms; behavioral disturbances; cognitive decline, 19987
Americans with Disability Act; ADA accommodation; therapists; disabilities; clinical training; mental health professionals; administration procedures, 2684
animal models; schizophrenia; molecular genetics; brain diseases; environmental factors; etiology; genetic factors; neurological diseases; psychiatric diseases, 527
antidepressants; diagnosis; treatment; psychiatric disorders; physical disorders; comorbidities; Kleine Levin Syndrome; autoimmune basis; antiepileptic drugs; schizoaffective disorder; children, 34778
antipsychotic drugs; guidelines; patients with complicating conditions; congestive heart failure; cognitive impairment; diabetic neuropathy; diabetes mellitus; obesity; dyslipidemia; drugs to avoid, 14113
antipsychotic indications; older patients; psychotic symptoms; schizophrenia; mania; psychosis; delusional dementia; delusions, psychotic major depression; delusional disorder; delirium, 14119

anxiety disorders; mood disorders; hopelessness; suicidal ideation; prediction; risk factors, 1319
anxiety disorders; substance use; conduct disorders; risk factors; major depressive disorder; comorbidity; Axis I disorders; psychiatric disorders; adult twins; hazard rates; gender differences, 7747
Arab patients; therapeutic process; psychological problems; cultural transference; countertransference, 20167
arginine-nitric oxide pathway; bipolar affective disorder; psychiatric disorders; arginase; nitric oxide; manganese; nitrite levels; pathogenesis, 19410
assaultive behavior; psychiatric hospitals; forensic patients; non-forensic patients; mentally ill patients, 31877
attachment theory; neuropsychiatric disorders; psychoanalysis; John Bowlby, 34746
attempted suicide; age difference; health care contact; mental disorders; psychiatric consultation, 19635
attempted suicide; general hospital; gender-specific attempted suicide; sociodemographic factors; clinical factors; suicide attempters; psychiatric disorder; marital problems, 13685
attention deficit hyperactivity disorder; gender differences; gender effects; ADHD; adults; psychiatric comorbidity; cognitive functioning, 19741
attention deficit hyperactivity disorder; pathogenesis; adult psychiatry; books; mental disorders; historical first mention of symptoms of ADHD, 35101
attention-deficit/hyperactivity disorder; adulthood; comorbidity; antisocial disorders; mood disorders; anxiety disorders; substance abuse disorders; health care cost; social cost; occupational cost, 19740
atypical antipsychotic; drug dosage; smoking; caffeine; mental illness, 29321
atypical antipsychotics; psychiatric disorders; children; adolescents; drug therapy, 26360
atypical antipsychotics; psychiatric disorders; developmental disorders; pediatric patients, 26361
autoantibodies; serotonin; paranoid schizophrenia; schizoaffective psychosis; depression; Alzheimers disease; chronic alcoholism; rheumatoid arthritis; multiple sclerosis, 1341
behavioral changes; forensic psychiatric hospital; psychotic disorders; psychiatric care; forced hospitalization, 35841
benefits; burdens; risk benefit framework; placebo; major depression; schizophrenia; research ethics, 12067
benzodiazepine use; mortality risk; aged; psychiatric disorders, 8554
benzodiazepine prescription practices; substance abuse; severe mental illness; side effects; treatment compliance, 20302
biological psychiatry; 59th Annual Meeting of the Society of Biological Psychiatry; psychiatric disorders; brain; morphology; neurotransmitters, 22395
borderline conditions; common structural features; developmental features; personality disorders; clinical symptomatology; clinical phenomenology; dysfunctional patterns; personality traits; trauma, 19326
cancer; mental disorders; community-dwelling adults; comorbidity; sociodemographic characteristics, 25468
cannabis; alcohol misuse; mental disorders; young people; social exclusion factors, 28858
cannabis users; treatment seeking; psychiatric disorders; drug abuse, 28856
cardiovascular disease; women; mental health issues; demographics; mood disorders; anxiety disorders; risks; treatment, 1823
care barriers; mental health problems; combat duty; major depression; anxiety; posttraumatic stress disorder, 31695
career counseling; mentally ill clients; career development; disorder severity, 34787
caregiver burden; mental illness; disease severity; schizophrenia, 5636
case notes; physicians; theoretical interpretations; female patients; mothers; history; puerperal insanity; 19th century, 1385
catecholestrogen 2-hydroxy-estradiol; 17-beta-estradiol; hippocampal cells; neuroprotective effects; psychiatric diseases; hippocampus; rats, 3984
categorical diagnosis; medical model of psychiatry; professional ethics; morality; postmodernism; obligation; J. Caputo; Diagnostic and Statistical Manual, 2680
challenging behaviour; intellectual disability; behavioural approaches; psychiatric illness; behavior management; biobehavioral approach, 1923
child & adolescent substance abuse; emergency department; psychiatric disorders; differential diagnosis; treatment; intoxication; club drugs; symptoms; ketamine; ecstasy; gamma hydroxybutyrate, 4741
child and adolescent psychopathology; taxonomies; classification systems; anxiety; depression; inattention; disruptive behavior; DSM-IV; International Classification of Diseases, 31700
child psychiatric disorders; quality of life; psychiatric problems; psychopathology; self-report; parent report; clinician report, 14032

- childhood anxiety; information processing abnormalities; anxiety disorders; psychiatric problems; anxiety complaints; stress disorder; social phobia, 19548
- childhood depression; anxiety; clinical intervention; parenting skills; parental empathy; emotional care; psychiatric disorders; parenting stress; behaviour problems; child psychopathology, 14322
- childhood development; sex differences; psychological problems; individual factors; environmental factors, 22437
- childhood maltreatment; adult health; physical health outcomes; medical utilization; family dysfunction; psychiatric illness; childhood sexual abuse; depression, 34939
- childhood onset disorders; conduct disorder; attention deficit hyperactivity disorder; autistic disorders; adult psychopathic personality; violent crime; recidivism; forensic subjects, 11057
- childhood psychiatric disorder; family; school; neighborhoods, 25457
- childhood substance abuse; parental mental illness; risks; resiliency; prevention practices, 19685
- childhood trauma; adult psychiatric disorders; adult psychopathology; psychometrics; assessment, 24301
- children; adults with severe mental illness; parent help seeking; service use behavior; mental health problems; epidemiology, 28588
- children; psychotropic medication; advocacy counseling; mental symptoms; emotional symptoms; mental health, 32446
- chromosomal abnormality; bipolar affective disorder; Prader-Willi Syndrome; hypometabolism; psychiatric disorders; bipolar psychosis, 28667
- chronic stress; plasticity; gene expression; stress; antidepressant treatment; schizophrenic group; transcription factor; depressed group; frontal cortex; post-mortem human brains; rats; bipolar group, 18760
- Civil commitment; Wisconsin Supreme Court; informed choices; medication; mental illness; liberty rights; citizens; court decision; incompetence; treatment decisions; law, 6194
- clinical characteristics; length of hospital stay; resource use; psychiatric units; older adults; bipolar disorder; schizophrenia; schizoaffective disorder; depression; dementia, 17404
- clinical guidelines; mental health; National Collaborating Centre for Mental Health; mental illness; schizophrenia, 29630
- clinical relevance; diagnoses; forensic psychiatric hospital; childhood onset neuropsychiatric disorder, 19285
- close in model; ultra-high risk model; research; strategies; prepsychotic mental disorder; clinical intervention; prodromal phase; Personal Assessment and Crisis Evaluation; prevention, 20418
- co-morbidity; male suicide completers; mental disorders; diagnostic profile, 7981
- cognitive dysfunction; psychiatric disorders; cognitive deficits; schizophrenia; affective disorders; attention; memory; cognitive functioning; behavioral treatments, 14087
- cognitive functioning; symptomatology; unemployed; supported employed; independently employed; employment; severe mental illness, 10664
- cognitive impairments; neurologic impairments; psychiatric disorders; special issue, 19259
- cognitive-behavioral treatment; PTSD; posttraumatic stress disorder; severe mental illness; consumer education; anxiety management; social skills training; exposure therapy; follow-up care; model, 14084
- college campus; psychiatric medications; mentally ill; college students, 11473
- combined skills training; health care management; older persons; severe mental illness; independent living skills; health promotion; social functioning, 29501
- commercial metaphor; service provision; child & adolescent mental health services; psychological problems, 5542
- community care; long-stay psychiatric hospital release; mental health problems; service use; costs, 32623
- community rehabilitative support; growth-hormone deficiency dwarfism; multiple psychiatric disorders; law violating behavior; life threatening self-injury, 29699
- community integration; concentrated housing model; dispersed housing; psychiatric hospital; mentally ill persons; social network size, 8819
- community mental health team; general practice; mental health professionals; general practitioners; serious mental illness; linkworker model, 35718
- community mental health; community mental health centers; mental health professionals; mental illnesses; evidence based practice; emotionally disturbed; deinstitutionalization, 32697
- community mental health; criminal justice; mental illness; mentally ill offenders; legal issue; privacy; intimate partner violence; professional ethics; criminalization, 25936
- community recreation program; rewards & challenges; mental illness; service providers; consumer-staff; occupational therapists; mental health services, 11817
- comorbid mental disorders; psychiatric disorders; substance use disorders; alcohol abuse; drug abuse; self-report scale; Psychiatric Diagnostic Screening Questionnaire; psychiatric outpatients, 19710
- comorbid psychiatric disorders; environmental risk factors; therapeutic opportunities; epidemiological data; diagnosis; epilepsy patients, 11241
- comorbidity; psychiatric disorder; substance abuse; depressive disorders; inpatients; psychopathology; disorder severity; substance withdrawal; attention deficit hyperactivity disorder, 19644
- comorbidity; psychiatric disorders; medical disorders; Kleine Levin syndrome; neuropsychiatric disorder; eating disorders; psychiatry; neurology; antiepileptic drugs; substance abuse; polypharmacy, 34753
- comorbidity; subthreshold disorders; full-syndrome disorders; non-psychotic disorders; epidemiology; Oregon Adolescent Depression Project; psychiatric disorders, 25525
- comorbidity; treatment processes; posttreatment abstinence; drug abuse; comorbid mental disorder, 32777
- competence to stand trial; Ninth Circuit Court; defendant; mental illness; client competence; defense attorney; mental health evaluator; decision-making abilities; court rulings, 6201
- compulsory treatment; psychiatry; mental disorders; advance statements; joint care plans, 32684
- computer treatment; mental health problems; multimedia programs; anxiety; depression; cost effectiveness; psychotherapy, 16911
- confidence; doctors; adolescent mental disorders; inadequate treatment, 26218
- continuity of care; severe mental illness, 29600
- coping style; changes in symptoms, psychiatric outpatients, Switzerland, 6 & 7 yr followup, 7806
- correctional officer attitudes; mentally ill prison inmates; mental disorders; correctional setting; schizophrenia; major depression, 26764
- creativity; madness; personality types; insanity; schizophrenic psychoses; bipolar psychoses; genetics, 31685
- creativity; mental disorder; epidemiology; theoretical discussion, 22458
- criminal justice system; mentally ill offender; mental illness; stigma; legal processes, 12403
- criminal justice; mental health services; mental disorders; legal issues; criminals; privileged information, 25527
- cross-cultural psychiatry; cross-cultural studies; psychiatric disorders, 5134
- culture; mental health care; indigenous healing; South Africa; mental disorders; discourse, 14056
- culture; mental health care; indigenous healing; South Africa; mental disorders; discourse, 14057
- daily smoking; psychiatric disorder onset; at risk population; mood disorders; panic disorder; agoraphobia; substance use; smoking cessation, 19297
- decision-making abilities; mental illness; impaired cognition; bipolar disorder; consent capacity; mania, 25577
- definitions; mental illness; mental illness legislation; tribunals; anorexia nervosa, 35133
- deliberate self harm; personal processes; interpersonal processes; mental health problem; residential treatment setting; adolescents, 22435
- delusional disorder; psychiatric disorder; elderly women; turabosis; tricyclic antidepressants; risperidone; socio-cultural themes; therapeutic approaches, 31708
- delusions; depression; developmental Down; Down syndrome; intellectual disability; mental retardation; psychosis, 13814
- dendritic spines; synaptic pathology; microanatomy; neurologic disorders; psychiatric disorders; morphology; synaptic signaling; synaptic plasticity; actin cytoskeleton; membrane traffic, 28542
- dependence symptoms; adolescents; males; females; gender differences; psychiatric severity; substance use disorders, 4743
- depersonalization disorder; clinical features; depression; anxiety, 10694
- depression severity; screening; mental disorders, 12515
- depressive disorders; children; mental health services; service advocacy; mental illness; pediatric nurses; pediatric nurse practitioners, 5532
- despair; spiritually oriented group therapy; women healing; severe mental illness; spirituality; mood; motivation; interpersonal bonding; group prayer; yoga breathing; spiritual readings, 29421
- detection rate of common mental disorders; general medical doctors; patient related factors; community clinics; hospital based clinics, 32656
- developmental disability; mental health disorders; sex differences; autism; gender differences; neural circuitry; neurochemistry, 10683
- developmental factors; decisional capacity; psychiatrically impaired juveniles; legal theory; age-related differences; competence, 13778
- diabetes; insulin resistance; neuropsychiatric population; antipsychotic medications; mental illness; schizophrenic persons, 22798
- diagnosis; condition indications; guidelines; indicated medication selection; drug dosing; delirium; antipsychotic drugs; dementia; agitation; risperidone, 14116
- diagnosis; psychotic disorders; pediatrics, 25537
- Diagnostic and Statistical Manual of Mental Disorders; DSM; historical context; diagnostic schemes; mental illness; mental health, 8369
- Diagnostic Interview for Genetic Studies; Korean version; test-retest reliability; diagnostic validity; concurrent validity; psychiatric disorders, 27315
- dialectical behavior therapy; forensic settings; mental illness; prisons; recidivism; correctional environment, 26760
- disability benefits eligibility; mental disorders; disability process; social security; applicant characteristics; recipient characteristics; demographics; socioeconomic status; family characteristics, 11826
- disgust sensitivity; psychiatric disorders; inpatients; outpatients, 10721
- dream content; schizophrenia; mental illness, 1374
- drug therapy; citalopram; mania; obsessive compulsive disorder; depression; suicide attempt; catatonia; social phobia, 29369
- drug therapy; medication adherence; oral antipsychotic medication; depot antipsychotic medication; relapse; rehospitalization; mental illness; schizophrenia, 8544
- drug therapy; neurosteroid concentrations; psychiatric morbidity; breast cancer; major depression; adjustment disorder; women, 5432
- DSM-IV disorders; comorbidity; Brazilian schoolchildren, 25509
- DSM-IV psychiatric disorders; phenotypic symptoms; traits; genotypes; endophenotypes; neurocircuits; neurotransmitter receptors; enzymes, 1346
- ecstasy; reasons for quitting; lasting adverse effects; mental health; ex-users, 13758
- EEG abnormalities; antipsychotics; quetiapine; olanzapine; haloperidol; schizophrenia; brief psychotic disorder; delusional disorder, 11459
- electroconvulsive therapy; mood disorders; Axis I psychiatric disorders; adolescents; practice parameter; symptoms; severity; pharmacotherapy; guidelines; ECT, 11583
- electroconvulsive therapy; psychotic disorders; psychotic depression; catatonia; modified ECT; unmodified ECT; ethical issues; efficacy; legal issues; benefits; risks, 5368
- emotional & behavioral problems; developmental psychopathology; DSM-IV; Diagnostic & Classification of Mental Health & Developmental Disorders of Infancy & Early Childhood, 19257
- emotions; narrative selves; personal sense of unified agency; selfhood; mental disorders, 19315
- end-of-life care; mental illness; community psychiatry; stereotyping; patients, 29593
- endophenotypes; psychiatric disorders; biological markers; genotypes; phenotypes, 19312
- epidemiology; mental disorders; research, 25500
- epidemiology; mental illness; civil court records; ante-bellum New Jersey, 1337
- epidemiology; psychiatric disorders; quality of care; mental health services; genetic influences; environmental influences, 32614
- epilepsy; learning disability; mental illness; behavioural disturbances, 22751
- epilepsy; psychiatric comorbid disorders; depression; anxiety; psychotic disorders; attention deficit disorders; psychiatrists; psychiatric evaluation; neurologists, 11263
- epileptic colony; rate-supported colony; London County Council; epileptic insane patients, 5571
- estrogens; brain function; neuropsychiatric disorders; gender differences; brain maturation, 25443
- ethics; psychopharmacology research; decisionally impaired subjects; informed consent; mentally disabled; vulnerable populations; mental disorders; protections; Institutional Review Board, 12076
- European Convention on Human Rights; ECHR; Human Rights Act 1998; legal challenges; mentally ill, 12400
- evidence based practices; geriatric mental health care; mental health interventions; elderly with mental disorders, 11323

Volume 91 SUBJECT INDEX

Mental Disorders—Serials

psychopathology; mental health; Greek adolescents; gender differences, 19258
 psychopathology; psychological disorders; diagnostic classification; psychopathological constructs; taxometric methods; structural research, 13573
 psychopathology; psychological disorders; narrative development; story-telling; guiding therapy; narratives; organizational level, 29271
 psychopathy; violence; prosecution testimony; juror perceptions; dangerousness; capital murder trial; mental disorder; risk factor, 27228
 psychopharmacologic treatment; neurobiologically based therapeutic strategy; neurobiological mechanism; psychiatric disorders; symptoms, 5347
 psychophysiological research; psychiatric problems; Robert Beverley Malmø (1912-2002), 5746
 psychophysiology; psychosis; quality of life; cognitive disorders; psychiatric disorders; multiple sclerosis; speech disorders; dementia; scientific communication, 31650
 psychosocial determinants; behavior problems; preschool children; home environment; maternal psychiatric disorder; social factors; demographic factors, 22610
 psychosocial factors; treatment avoidance; doctor-patient relation; medical problems; psychological problems, 23512
 psychosocial functioning; Independent Living Skills Survey; schizophrenia; mental illness; older outpatients, 28734
 psychosocial rehabilitation program; postsecondary education; mental health program; education services; mental illnesses; community mental health services, 20574
 psychostimulant drugs; childhood mental health problems; drug prescribing; pharmacoeconomics; practice guidelines, 5356
 psychotherapy; axiological foundations; prescriptive foundations; psychodiagnosis; cultural assumptions; normative conceptions; objectivist conceptions; mental disorders; theory, 26272
 psychotic breakdown; Bernard Baruch; first female psychiatric patient, 32256
 psychotic disorder; cumulative incidence; schizophrenia-spectrum disorder; Axis I disorders; offspring, 34797
 psychotic disorders; pharmacologic treatment; clinical decision-making; atypical antipsychotics; medication selection, 2178
 psychotic disorders; pharmacologic treatment; clinical decision-making; atypical antipsychotics; medication selection, 2177
 psychotic disorders; psychiatric symptoms; ability to stand trial; at risk population; legal ability; legal impairment; hallucinations; hostility; depression; diagnosis, 19731
 psychotropic medication; mental disorders; public attitudes; drug treatment; psychopharmacotherapy, 32420
 quality of care; earning losses; mental illness; mental health care financing, 11801
 quality of life; mental health care; health interventions; methodological issues, 35716
 racial differences; psychotic disorder patients; first psychiatric hospitalization; treatment patterns; psychotropic medication; Blacks; Whites, 26704
 racial patterns; ethnic patterns; parental beliefs; etiological explanations; youth problems; biopsychosocial beliefs; mental health problems, 28619
 randomized controlled trials; psychotherapy; primary care; mental disorders; methodology, 287
 randomized controlled trials; psychotherapy; primary care; mental disorders; methodology, 280
 rational emotive behavior therapy; cognitive therapy; similarities; differences; neurotic disorders; severe personality dysfunctioning; philosophical bases; empirical results; outcome studies, 5194
 reactive aggression; proactive aggression; children; adolescents; psychiatrically referred youth; age; child abuse; aggression correlates; disruptive behavior disorders, 19589
 reality of mental illness; psychiatry; likeness argument; schizophrenia, 19311
 reality of mental illness; psychiatry; likeness argument; schizophrenia, 19323
 reality of mental illness; psychiatry; likeness argument; schizophrenia, 19327
 reality of mental illness; psychiatry; likeness argument; schizophrenia, 19334
 reality of mental illness; psychiatry; likeness argument; schizophrenia, 19335
 reality of mental illness; psychiatry; likeness argument; schizophrenia, 19347
 recovery model of depression; enhanced attributional style; positive events; depressogenic attributional style; negative events; hopelessness theory; psychiatric inpatients; children; adolescents, 1452
 red blood cells; mental disorders; biochemical alterations; erythrocyte membrane; psychopathology; schizophrenia; depression; bipolar disorder, 10717

rehabilitative residential treatment; severe mental disorders; personality features; short term outcomes; psychiatric disorders; multimodal treatment, 11861
 residential facilities; long-term psychiatric care; mentally ill; structure data; process data; outcome data, 29721
 residential services; community-based; housing satisfaction; deinstitutionalization; housing based programs; reliability; validity; measurement; mental illness; SAMHSA Housing Satisfaction Scale, 174
 residential treatment; mental disorders; health care services; health care delivery; children; adolescents, 23576
 schizophrenia management; atypical antipsychotic medication; mental disorders; metabolic abnormalities; metabolic disorders; primary care; schizophrenia; safety; effectiveness, 23287
 schizophrenia; mania; Rorschach comprehensive system; Schizophrenia Index; thought disorder; psychotic disorders, 30449
 schizophrenia; mental disorders; avoidant personality disorder; anxiety disorders; at risk population, 28600
 schizophrenia; mental illness; history, 7871
 schizophrenia; nutritional therapy; mental hospital; brain disease; orthomolecular therapy; eicosapentaenoic acid; Kirunal, 2222
 schizophrenia; Scale of Prodromal Symptoms (SOPS); positive symptoms; negative symptoms; factor analysis; psychosis, 25634
 school counselors; psychotropic medication; school policy; psychiatric diagnoses, 36235
 self-report; Strengths and Difficulties Questionnaire; psychiatric disorders; screening instrument, 24182
 separation anxiety disorder; young children; diagnostic stability; family variables; comorbidity; parent variables, 1381
 Sergej Sergejewitsch Korsakow; psychiatry; psychiatrist, 32879
 serious mental illness; community-based psychiatric treatment; comorbid medical conditions; medical comorbidity; community psychiatric services; medical illnesses; adults, 25490
 serious mental illness; HIV antiretroviral regimens; adherence; psychotropics; schizoaffective disorder; schizophrenia; bipolar depression; major depression with psychotic features, 5465
 serious mental illness; violence; psychotic symptoms; motivation; psychosis, 22453
 serotonin transporter gene; allelic variation; psychiatric disorders susceptibility; prefrontal brain function; brain electrical response; error processing, 30895
 service delivery; severe mental illness; quality of life, 4564
 severely mentally ill inmates; screening in jails; small jails; schizophrenia; major depression; bipolar disorder; detection standards; booking questionnaire, 6310
 severely mentally ill; long-stay population; lay residential community; residential care; ethnography, 26691
 sexual abuse; psychological disturbances; learning disabilities; disabled people; mental health problems, 7765
 sexual coercion; female psychiatric patients; mental health care; sexual experiences; severe mental illness, 13561
 sexual offenders; nonsexual offenders; intellectual disability; learning disabilities; personal characteristics; referral sources; mental health services; mental illness, 31669
 shame; psychiatric symptoms; mental disorders; diagnosis; mental health nursing; mental distress; nurse patient interaction, 26562
 shared care; patient outcomes; psychiatric admissions; severe mental illness; primary care, 29609
 shared decision making; mental disorders; community-based mental health; mental health teams; implicit model; practitioners; patients; caregivers, 23488
 sibling bond; sibling impact; development; pathology; conflict; brother, 5249
 sleep-related eating disorder; risperidone; multiple lacunar infarctions; drug dosage; side effects; memory; ingestion, 20353
 SMILES Program; life enhancement skills; mental illness; mentally ill parent; mentally ill sibling; children's knowledge; coping; self-report, 28056
 smoking cessation; substance abuse treatment; substance abusers; psychiatric comorbidity; smoking behaviors, 32808
 smoking initiation; lifetime psychopathology; family members; psychiatric disorders; biological parents; cigarette smoking; familial factors; drug use disorders; disorder onset, 4535
 Snoezelen room; activities of daily living skills training; vocational skills training; aggression; self-injury; mental retardation; mental illness, 26215
 social distance; causal beliefs; mental illness; discriminatory behavior; mentally ill people; depressive disorder; brain disease, 25119
 Social Security Work Incentives; return to work; psychiatric disability; perceived barriers; consumer attitudes; work incentives; family members; service providers, 1384

Mental Disorders—Serials

social service providers; mental disability; community mental health services; needs assessment; urban environment; rural environment; quality of care; activities of daily living, 8779
 social skills teaching; community adjustment; mental health problems; case management, 8463
 social support; separation; divorce; mental illness, 10387
 socioeconomic status; sociodemographic characteristics; mood disorders; anxiety disorders; chronic fatigue; post-traumatic stress disorder; unemployment, 1353
 somatoform disorders; internal medical inpatients; psychiatric disorders; comorbidity, 22806
 somatoform disorders; primary care; psychiatry services; psychiatric disorders; geriatric psychiatry, 26622
 stigma effects; mental illness history; test performance; identity threat; intellectual performance, 25534
 stigma; emotional problems; psychiatric disorders; disclosure; primary care patients, 7793
 Strengths and Difficulties Questionnaire; psychiatric disorders; looked after children; mental health screening; multi-informant algorithm; psychometrics; foster children; residential care, 33546
 stress; biological alterations; psychological alterations; mental illnesses; stress related disorders, 34804
 subjective quality of life; chronic psychological symptoms; severe psychological symptoms; palliative care; palliative psychopharmacology, 8361
 substance abuse treatment; treatment agencies; opinion leaders; co-occurring disorders; mental health disorders; technology transfer agents, 20748
 substance abuse; psychiatric disorders; mental health problems; risk factors; preadolescents; prevention, 31705
 substance abuse; recovery; mental illness; social support networks; relapse; boredom; loneliness; temptations to use; stress; co-occurring disorders, 28557
 substance use disorders; treatment outcomes; adolescents; psychiatric comorbidity; anxiety disorder; conduct disorder; attention deficit hyperactivity disorders, 26741
 substance use; severe mental illness, 7743
 substance use; smoking; substance use disorders; psychiatric disorders; mood disorders; disruptive behavior disorders; psychiatric hospitalization; adolescents, 7760
 substance-related disorders; mentally ill jail inmates; co-occurring mental disorders; social work implications, 8909
 subthreshold psychiatric disorders; primary care; prevalence; associated characteristics; health perceptions; daily activities; psychological distress, 4571
 suicidal feelings; mental disorders; elderly; psychosocial risk factors; physical disorder; loneliness; housing; Berlin Aging Study, 25773
 suicidal ideation; generalized anxiety disorder; major depression; asthma; comorbid mental disorders; drug use; alcohol use, 11182
 suicidal ideation; psychiatric comorbidity; attempted suicide; suicide attempts; eating disorders subjects; suicidality, 19273
 suicide attempts; repetition; psychosocial factors; mental disorders; risk factors, 10936
 suicide genetics; suicidal behavior; attempted suicide; twins; mental illness, 19583
 suicide prevention; public health problem; psychiatric illness; mental health, 35017
 suicide-related bereavement; psychiatric morbidity; elderly; old-age psychiatry; adult children, 19301
 suicide; mental disorders; disease management; suicide prevention; treatment effectiveness, 8658
 supermax prisons; administrators; prison conditions; social isolation; mental illness; prison design; inactivity, 17483
 supported employment; workplace skills training; mental illness; individual placement, 30150
 supported socialization; psychiatric disabilities; social isolation; social activities; recreational activities, 29756
 Symptom Check List-8; dichotomized version; screening tool; mental disorders; test validity, 18124
 system-centred approach; patient safety; homicides; mental illness, 34796
 temporal organization; neuroendocrine mechanisms; brain; neurocognitive mechanisms; consciousness; mental disorders; sleep disorder; neuronal mechanisms; pineal gland; melatonin, 12771
 test validity; test reliability; DSM-III-R Checklist; community mental health; epidemiology; generalized anxiety; depression; developing countries; psychiatric assessment, 9433
 theoretical model; psychotherapeutic model; health care providers; western psychotherapy; Muslim immigrants; Islamic women; Islamic concepts; mental illness, 16908
 thought disorder measure; psychiatric disorders; adolescent inpatients; day hospital patients; children patients, 6307
 tobacco dependence; mental illness; addiction; nicotine receptors; attention-deficit hyperactivity disorder; anxiety disorders; smokers, 31683

Volume 91 SUBJECT INDEX

Mental Disorders—Serials

Mental Health—Serials

- topiramate; antiepileptic medication; intellectual disability; mood disorders; aggression; self-injurious behavior; destructive behavior; disruptive behavior; maladaptive behavior psychotropics, 2175
- transient mental illness; silence; madness; Friedrich Nietzsche, 7785
- trauma; adaptation; severe mental illness; self-reported abuse; community violence exposure; sexual abuse; physical abuse; psychotic symptoms; demoralization; substance abuse, 22468
- traumatic stress; quality of attachment; infant & toddler mental health disorders; child trauma; attachment theory, 31702
- travel: moral tourist; clinicians; patients experience; epistemology; world traveling; metaphors, 20170
- travel: moral tourist; clinicians; patients experience; epistemology; world traveling; metaphors, 20137
- travel: moral tourist; clinicians; patients experience; epistemology; world traveling; metaphors, 20162
- treatment cost-effectiveness; mental disorders; anxiety disorders; alcohol use disorders; schizophrenia; public policy; affective disorder, 32619
- treatment costs; multisystemic therapy; hospitalization; psychiatric crisis; evidence-based treatment; psychiatric emergencies, 29748
- treatment; mental disorders; cross-national comparisons; World Health Organization; severity; prevalence, 34792
- treatment; mental disorders; cross-national comparisons; World Health Organization; severity; prevalence, 34795
- treatment; mental disorders; cross-national comparisons; World Health Organization; severity; prevalence, 25541
- tryptophan hydroxylase isoform; human brain; enzymes; psychiatric disorders; mRNA expression, 27960
- type 2 diabetes; mental illness; schizophrenia; comorbid conditions; communication ability; denial of illness; social withdrawal; antipsychotic medications; insulin resistance; glucose intolerance, 22402
- United States military service members; outpatient treatment; prevalence; severity; risk factors; health care; occupational functioning; mortality; behavioral problem; psychiatry research, 16381
- urban community; socio-demographic factors; mental health problems; psychiatric morbidity; public health problem; psychiatric; mental disorders; Bangladesh; epidemiology, 1380
- validity of symptom assessment; psychotic disorders; information variance; client history; schizophrenia, 25639
- victim mothers; victim children; domestic violence; structured interviews; psychological assessment; posttraumatic reexperiencing; avoidance; physiological arousal; parenting skills; trauma disorders, 31856
- violence risk assessment; mental disorder; risk factors; risk-assessment models; actuarial models, 31684
- visual hallucination; Charles Bonnet Syndrome; psychogeriatric patients; diagnosis; partial visual impairment; mental illness, 34767
- white matter hyperintensities; psychiatric disorders; lithium therapy; side effects, 5271
- work disability; psychiatric comorbidity; inflammatory rheumatic diseases; illness severity; physical functioning; depression severity, 26047
- work related diseases; occupational stress; mental illness; mental ill health; Surveillance of Occupational Stress and Mental Illness; mental health, 30176
- World Health Organization; antipsychiatry ideologues; mental disorders; laws, 29671
- World Health Organization; WHO; World Report on Violence and Health; violence; mental health workers; domestic violence; violence impact; psychological well-being; mental disorders, 13716

care practitioners; learning disability; educational needs; death; dying; residential homes; terminally ill patients, 16554

caregiving; depressive symptoms; family problems; mental retardation; behavior problems; White mothers; adult child; Puerto Rican mothers, 35823

case; Atkins v. Virginia; execution; mental retardation; Eighth Amendment; cruel punishment; US Constitution; mentally retarded defendants, 9313

challenging behaviour; intellectual disability; behavioural approaches; psychiatric illness; behavior management; biobehavioral approach, 1923

clinical psychology services; computer technology usage; mental retardation; developmental disabilities; scientist practitioner model, 11768

cluster housing; intellectual disabilities; adults; institutional care; quality of life; dispersed housing schemes; quality of care, 35792

- cluster housing; intellectual disabilities; adults; institutional care; quality of life; dispersed housing schemes; quality of care, 35789
- cluster housing; intellectual disabilities; adults; institutional care; quality of life; dispersed housing schemes; quality of care, 35790
- cognitive assessment; cognitive models; cognitive therapy; intellectual disabilities, 35436
- cognitive impairment; caregivers' beliefs; children; pain reaction; pain sensation; impairment severity; mental challenges, 8083
- cognitive therapy; intellectual disability; anger management; depression; offending, 35130
- community settings; cost comparisons; mental retardation; developmental disabilities; residential settings; cost differences; staffing issues, 17334
- community-based instructional scheduling; intellectual disabilities; skill acquisition; students; generalization; skill maintenance; mental retardation, 14687
- community-based residential support; mental retardation; challenging behavior; quality; costs, 29658
- competency restoration; judicial trial; mental retardation patients; incompetency; training program; formal training; judicial system; mental health; formal training tool; Slater Method, 5670
- competency restoration; judicial trial; mental retardation patients; incompetency; training program; formal training; judicial system; mental health; formal training tool; Slater Method, 5669
- competitive job placement; vocational rehabilitation services; mental retardation, 32041
- computer technology; money management software system; personal checking accounts; mental retardation, 16551
- dementia; screening tools; older adults; mental retardation; IQ; performance tasks, 18161
- dental procedures; mental retardation; video modeling; dental treatment; desensitization, 32323
- developmental disabilities; institutional affiliations; intellectual disability; publication trends; published research; scientific communication, 8058
- developmental disabilities; mental retardation; resource allocations; diverse needs, 11105
- developmental disability; intellectual disability; mental retardation; psychiatric disorder; Rubinstein Taybi syndrome, 13815
- developmental psychiatric approach; intellectual disabilities; aggressive behavior; diagnosis; emotional development; personality development, 26565
- diagnostic group differences; within-group distributions; clinical correlates; platelet serotonin levels; pervasive developmental disorders; mental retardation; autism; Asperger syndrome, 19762
- disabled child; autism; mental retardation; parenting, 35072
- donepezil; rivastigmine; galantamine; memantine; treatment; dementia; Alzheimer's disease; down syndrome; intellectual disability; pharmacology; dementia management, 29368
- Down syndrome; genetic mental retardation syndromes; parent-child interactions; prosodic characteristics; infant-directed speech; parenting behavior; parental language, 4794
- epilepsy; antiepileptic medication; social skills; mental retardation, 20473
- epilepsy; intellectual disability; learning disability; concerns; family; paid carer, 16552
- external control & problem-solving interventions; social skills training; adults with intellectual disabilities; effectiveness, 32241
- face perception; emotions; autism; developmental disabilities; mental retardation; language disorders; facial emotion, 35082
- factor structure; functional assessment for multiple causality; behavioral intervention; mental retardation; internal consistency; behavior problems, 6306
- foetal alcohol syndrome; FAS; intellectual disability; behavioural phenotype; antisocial behaviour; foetal alcohol effects; FAE; anxiety; communication disturbance, 4537
- fragile X mental retardation; proteins; RNA, 35179
- fragile X syndrome; mental retardation; developmental disorder; attention; language, 35177
- fragile X syndrome; mental retardation; molecular genetics; neurobiology; synaptic plasticity, 35221
- fragile X syndrome; mental retardation; tremor; ataxia; genetics; neuropathology, 35185
- fukutin-related protein gene; gene mutations; mental retardation; cerebral cysts; congenital muscular dystrophy; laminin alpha2; alpha-dystroglycan, 13552
- functional assessment; problem behaviors; mental retardation; functional analysis, 32043
- general psychiatric residents; specialized training; mental retardation; psychiatric disorders, 29916
- health care; decision making; mental retardation; psycholegal consent standards; treatment choices; treatment risks; patient rights, 16550
- high school students; extensive support-needs; recreational activities; peers; physical education classes; intervention package, 12196
- intellectual disabilities; computer simulation application; ATM access; computer based training, 11881
- intellectual disabilities; court trials; sexual assault witnesses; rape witnesses; lawyer questioning, 16782
- intellectual disabilities; epileptic seizures; behavioral responsiveness; antiepileptic drug, 14298
- intellectual disabilities; multi-media instruction; grocery item location; reading; target item word, 17755
- intellectual disabilities; vision defects; visual acuity; eye care access; spectacle correction; optometrists; athletes; vision screening; refractive error; ocular defects, 11318
- intellectual disability; epilepsy prevalence; health service utilization; mortality, 1725
- intellectual disability; phonology; visuospatial memory; visual complexity; memory span; visual processing, 4795
- intellectual disability; physical conditions; behavioral conditions; intervention; day habilitation, 32598
- intellectual disability; prevalence estimates; Australia, 35125
- intellectual disability; risk assessment; sexual offenders, 11047
- intellectual disability; therapeutic engagement; family; chronic sorrow; parental attitudes, 25981
- interdisciplinary assessment; feeding; mealtime behavior problems; mental retardation; developmental disabilities, 32036
- IQ; intelligence quotient; score fluctuations; norms; mental retardation; Flynn effect; national policies, 1256
- IQ; special education; trends; mental retardation; learning disabilities; WISC; WISC-R; WISC-III, 9479
- job stress; burnout; job satisfaction; intellectual disabilities, 32035
- Jurispudent Therapy; competency; mental retardation; legal system, 32034
- learning difficulties; intellectual impairment; learning disabilities; development disability; mental retardation; disability studies & research, 28928
- learning disabilities; mental retardation; group concept problem; stigma; social identity; group evaluations; social model of disability, 1723
- lexical production; Williams syndrome; gesture; naming; children, 8082
- literacy skills; intellectually disabled adults; community-based disability service programs; writing vocabulary, 20830
- litigation; mental retardation; service provision; class members; quality assurance, 17329
- long-term retention; stimulus equivalence generalization; mental retardation; novel stimuli, 22752
- maladaptive behavior; adaptive decline; mental retardation; aging adults, 1727
- memorization strategies; mentally retarded adolescents; recall, 12693
- mental disorders; children; intellectual disability; mental retardation; family factors; behavior problems; emotional problems; risk factors, 19256
- mental health problems; psychiatric care; general mental health; mental health clinics; intellectual disabilities; mentally retarded adults; mental health services; common mental health, 25465
- mental retardation; antiepileptic drugs; epilepsy; pharmacological outcomes; drug therapy, 14273
- mental retardation; assessment; adaptive and social functioning; social skills deficits and excesses; maladaptive behaviors; social skills training; assessment methods, 32032
- mental retardation; attention-deficit hyperactivity disorder; test reliability, 33557
- mental retardation; cognitive capacities; behavioral problems; social experiences; human qualities; mental health, 35127
- mental retardation; definitions; terminology; general curriculum; special education practice; educational reform initiatives; educational practices; classification system, 12213
- mental retardation; dementia status; single point assessment; adults, 19802
- mental retardation; Down syndrome; elderly adults; prevalence; incidence; at risk populations, 19804
- mental retardation; institutional costs; community costs, 17331
- mental retardation; learning disabilities; adult outcomes; self-determination; high school graduation; special education; quality of life, 12215
- mental retardation; literature; participant gender; sex; researchers, 16555
- mental retardation; psychometric properties; Zung Self Rating Depression Scale; principle component analysis; Beck Depression Inventory; behavioral measures, 15030
- mental retardation; school-age students; peer tutoring; tutors; tutees, 17757
- mental retardation; symptomatology; assessment; seizures; epilepsy; antiepileptic drugs, 32040
- meta-analysis; mental retardation; validity, 9546
- methylphenidate; children; mental retardation; attention deficit/hyperactivity disorder; cognitive performance, 26415
- methylphenidate; cognitive functioning; mental retardation; attention-deficit/hyperactivity disorder; attention; inhibition; immediate memory; children, 25984
- neurocysticercosis; human female; bilateral papilledema; neck stiffness; psychomotor retardation; cysts; albendazole; prednisone; headache; nausea, 13994
- neuropsychiatric problems; tuberous sclerosis complex; autosomal dominant disorder; neuronal migration; mental retardation, 35166
- nonsyndromic mental retardation; subcortical band heterotopia; SBH; cryptogenic epilepsy; doublecortin gene mutations; lissencephaly/pachygyria; magnetic resonance imaging; MRI; phenotypes, 1768
- perceptions; positive outcomes; support staff; community mental retardation services; burnout; mental health, 14766
- perceptions; positive outcomes; support staff; community mental retardation services; burnout; mental health, 32946
- physical activity; mental retardation; physical activity patterns; adolescents; motivation; fitness levels; caregivers, 11102
- praxis skills; mentally retarded adults; Down's syndrome; gesturing; object perception; ideomotor apraxia; imitation of limb movements, 13821
- Predictors of impact; families; children; developmental disabilities; National Health Interview Study Disability Supplement; racial groups; ethnic groups; cultural relevance, 32042
- preschool-kindergarten transition; intellectual disabilities; educational mainstreaming; parents; teachers; principals; inclusive preschool program; program evaluation; early intervention; students, 12199
- prevalence of sleep problems; profound mental retardation; community settings; sleep patterns, 1724
- prevalence; comorbidity; impact; DSM-IV disorders; intellectual disability; anxiety disorders; mood disorders; disruptive disorders, 19793
- probability; stimulus equivalence; mild mental retardation; conditional discriminations; linear series structure, 35128
- psychiatric disturbance; developmental disabilities; forensic psychiatry; intellectual disabilities; mental retardation; offenders; psychiatric disorder; schizophrenia; sexual abuse, 13529
- psychiatric services; charitable facility; intellectual disabilities; anti-convulsant drugs; polypharmacy; mental health needs; neuroleptic drugs, 35773
- psychological distress; family carers; intellectual disabilities; urban conurbation, 32033
- psychopathology; mental retardation; psychiatric diagnosis, 19254
- psychotic symptoms; intellectual disabilities; schizoaffective disorder; psychotic disorders; adolescents; intellectual disability; mental retardation; psychosis; schizophrenia, 34761
- psychotropic medication use; mental retardation, 29390
- residential setting; interpersonal interactions; aggression; intellectual disabilities; group living situations, 32715
- self-advocacy group; intellectual disabilities; self-concept; group membership, 32031
- self-induced vomiting; food refusal; mental retardation; behavioral variables; intellectual levels; functional analysis of behavior; eating behavior; exercise; underweight; obesity, 13813
- service user satisfaction; living arrangements; intellectual disability; older adults; residential placement; service planning; quality of life, 23586
- sex education; mental retardation, 32038
- sexual abuse; prevention; mental retardation; genetic counselors; sexual education, 32037
- Snoezelen room; activities of daily living skills training; vocational skills training; aggression; self-injury; mental retardation; mental illness, 26215
- social competence; mental retardation; social maturity; IQ; social quotient; life experiences; rural children; urban children, 19800
- social policy; quality of life; intellectual disabilities; Poland, 11103
- social skills; intellectual disabilities; problem solving; conflict management, 35126
- special education; mental retardation; Indian families; Hindu immigrants, 35122
- sport participation motives; special olympics athletes; mentally retarded athlete, 6087
- stigma; psychological distress; social-cognitive model; social experience; intellectual disability; social comparison, 35120

Mental Retardation—Serials

suicide; suicidal ideation; psychosocial correlates; mentally retarded, 25982
 tuberous sclerosis; antipsychotic medication; mental retardation; psychosis; adenoma sebaceum, 5061
 work: mentally retarded adolescents; mentally retarded young adults; career development, 35118
 working memory; vocabulary; arithmetical reasoning; intellectual disabilities, 19795
Mental Retardation [See Also Downs Syndrome, Mild Mental Retardation, Moderate Mental Retardation, Profound Mental Retardation, Severe Mental Retardation]—Books
 International review of research in mental retardation, Vol. 26, 13822
Mental Retardation [See Also Downs Syndrome, Mild Mental Retardation, Moderate Mental Retardation, Profound Mental Retardation, Severe Mental Retardation]—Chapters
 Enhancing performances of individual with mental retardation: Manipulations for visual structure, 22753
 Exploring visual perception abilities individual with intellectual disabilities: Assessment and implications, 22756
 A history of psychological theory and research in mental retardation since World War II, 13825
 Psychopathology and intellectual disability: The Australian child to adult longitudinal study, 13559
 Psychopathology in children and adolescents with intellectual disability: Measurement, prevalence, course, and risk, 13560
 Resilience, family care, and people with intellectual disabilities, 13824
 Stimulus overselectivity and observing behavior in individuals with mental retardation, 22754
Mental Retardation (Attitudes Toward)—Serials
 developmental disabilities; mental retardation; resource allocations; diverse needs, 11105
 intellectual disability; attitudes toward; Japanese adults, 25967
 intellectual disability; family; care; community; attitudes; elementary school student parents; Japanese adults, 35131
Mental Rotation—Serials
 apraxia; selective deficit; motor imagery; left hemisphere damage; mental rotation; visual stimuli; hands, 8315
 cognitive mediators; sex-related differences; mathematical abilities; mental rotation; lexical access, 9647
 cognitive processes; spatial ability; male testosterone; mental rotation; response time; college-age men; error rate, 18331
 gender differences; mental rotations test; strategy, 33836
 imaginal perspective switches; remembered environments; response selection conflict; sensorimotor interference; cognitive transformations; rotations; translations; object locations, 12574
 individual differences; spatial learning; neural correlates; spatial information preference; spatial skills; mental rotation ability; survey encoding information; route learning; map learning, 27571
 mental rotation; EEG; parietal laterality; sex differences, 7070
 mental rotation; image fragments; visual perception; object matching, 33807
 mental rotation; neuropsychological evidence; mental strategy; hemispheric lateralization; brain damage; stimulus type; egocentric vs allocentric transformation; object- vs viewer based transformation, 24714
 mental rotation; parietal activation; functional neuroimaging, 30853
 mental rotation; perspective taking; spatial visualization; psychometrics; spatial orientation; orientation factors; mental abilities, 18284
 Mental Rotation; unilateral brain damaged patients, 20063
 mirrored stimuli; rotated mirror; event-related brain potential; delayed response; mental rotation; normal letter discrimination; mirror-reversed form, 18283
 naive optics; mirror reflections; planar mirrors; predictive knowledge; perceptual knowledge; expectations; perceived rotation; errors, 333
 preferred orientations; cortical surface; computer simulations; principal component; receptive fields, 3263
 sex differences; mental rotation; spatial rotation; virtual environment; visuospatial ability, 12655
 sex differences; virtual Morris water task; virtual radial arm maze; mental rotation; spatial memory, 30700
 space rotation; perspective shift; verb morphology; body shifts; mental spatial rotation; American Sign Language; referencing strategy, 31070
 spatial knowledge; spatial problems; mental rotation; spatial ability; environmental pointing accuracy; navigation; testosterone; cognitive maps, 17937
 temporary visuo-spatial storage; short-term visual memory; representational neglect; visuo-spatial transformations; representational unilateral neglect; visuo-spatial working memory, 29107

Volume 91 SUBJECT INDEX

Mentally Ill Offenders—Serials

verbal memory; mental rotation performance; visual-spatial ability; mental rotations test; cognitive processes; dopamine deficiency; orientation ability; cognitive function, 4985
 visuospatial memory; working memory; mental rotation; intelligence; numeracy; early mathematical skills; preschool children, 18925
 visuospatial mental rotation; motion imagery; visual imagery; oculomotor performance; cognitive processes; eye movements; problem solving; creative thinking, 7124
 working memory maps; intelligence; vocabulary; mental rotation; abstract reasoning, 3364
Mentally Ill Homeless [See Homeless Mentally Ill]
Mentally Ill Offenders—Serials
 anger management; mental health problems; management programme; psychiatry service; forensic setting; evaluation; outcome, 14749
 capital punishment; special offender; factorial survey design; mentally retarded offenders; mental capacity; public policy, 12402
 Charles Singleton; murder; death sentence; mental illness, 33430
 Civil commitment; Wisconsin Supreme Court; informed choices; medication; mental illness; liberty rights; citizens; court decision; incompetence; treatment decisions; law, 6194
 clozapine; forensic settings; patients; psychiatric services; psychiatric nurses; therapeutic optimism; treatment adherence, 18012
 community mental health; criminal justice; mental illness; mentally ill offenders; legal issue; privacy; intimate partner violence; professional ethics; criminalization, 25936
 competency restoration; judicial trial; mental retardation patients; incompetency; training program; formal training; judicial system; mental health; formal training tool; Slater Method, 5669
 competency restoration; judicial trial; mental retardation patients; incompetency; training program; formal training; judicial system; mental health; formal training tool; Slater Method, 5670
 correctional officer attitudes; mentally ill prison inmates; mental disorders; correctional setting; schizophrenia; major depression, 26764
 criminal justice system; mentally ill offender; mental illness; stigma; legal processes, 12403
 criminal justice; mentally ill offenders; mental health services; criminalization; police officers; mental health professionals; community treatment; violence; family members, 25475
 criminal lunatic; prisoner; patient; official medical view; treatment; dangerous behaviour; emigration; 19th century Ireland, 29652
 dangerous and severe personality disorder; personality disorder offenders, 10711
 dialectical behavior therapy; anger; violence; male forensic patients; treatment outcomes; high security hospital, 20195
 discriminant validity; convergent validity; personality disorder measurement; mentally ill male offenders, 24230
 family members; lethal violence; mental illness; victim risk; psychosis; morbid depression; paranoia with intractable narcissistic loss, 14910
 family members; victims; violent crimes; schizophrenia; male offenders; background factors; forensic psychiatric evaluation, 12411
 female prisoners; prisons; psychiatric care; colonial rule; social structure, 32848
 forensic aspects; Aspergers syndrome; offending; antisocial behavior; fitness to plead; legal insanity, 28893
 forensic community programs; community support; rehabilitation; mentally ill offenders; NCRMD patients, 20679
 forensic inpatient care; medium secure psychiatric provision; admission assessment; healthcare access; hospital discharge; decision making, 30333
 forensic patients; adjustment; quality of life; psychiatric disabilities; community outreach services; client satisfaction; social integration; problem behaviors; self-esteem; coping, 11831
 forensic populations; learning disability; Psychopathy Checklist-Revised; PCL-R; offenders; reliability; validity, 21151
 forensic psychiatric inpatients; long-stay patients; healthcare needs; placement needs, 11870
 forensic psychiatry assessments; hospital admission; serious offenders; schizophrenia; healthcare needs; needs assessment, 30322
 homicide; dual diagnosis; antisocial personality disorder; comorbidity; major mental disorders; substance use; mentally ill offenders, 22415
 human rights; mentally ill people; mental illness; criminal justice system; criminal offenses; health care, 33418
 incidence & history of head injury; mentally disordered offenders; medium secure units; discharge difficulties; offending history; discharge planning, 2537

inpatient health service; mental illness; psychopathic disorder; mental health act; women offenders; service placement; prison; hospital, 30339
 interagency police liaison scheme; mental health services; psychiatric assessment; mentally disordered offenders; drug abuse; alcohol abuse; mental health status; views of service users, 26599
 jail diversion programs; serious mental illness; co-occurring disorders; substance abuse disorders; violent offenses; outcomes, 12410
 Mental Health Act; reform; psychiatry; criminal justice; dangerously disordered people; treatability, 21043
 Mental Health Act; reform; psychiatry; criminal justice; dangerously disordered people; treatability; legal system, 21040
 mental health disorders; co-occurring substance abuse disorders; criminal justice; mentally ill offenders; jail diversion program, 35913
 mental health problems; incarcerated mentally ill people; criminal justice system; mental illness; correctional environments; jail inmates; prisoners; parole, 13775
 mental health service reform; labeling; dangerous and severely personality disordered; female prisoners; prisons; risk assessment, 32826
 mental health services; mentally ill offenders; alternative to prison program; criminal punishment; diversion programs; prison inmates; incarceration, 11975
 mental illness; prison inmates; health care; correctional institution; mental health treatment, 8905
 mentally disordered offenders; treatment; rehabilitation, 26763
 mentally ill inmates; intermediate care program; chronic mental illness; prison life; psychosocial rehabilitation; illness management; coping skills; Social Skills Day Training Program, 29824
 mentally ill offenders; substance abusing offenders; incarceration; jails; release from prison; community mental health services; community based care, 32229
 moral responsibility; psychopathic offenders; punishment; relationships; reactive attitudes; emotions, 10853
 moral responsibility; psychopathic offenders; punishment; relationships; reactive attitudes; emotions, 10854
 moral responsibility; psychopathic offenders; punishment; relationships; reactive attitudes; emotions, 10854
 moral responsibility; psychopathic offenders; punishment; relationships; reactive attitudes; emotions, 10854
 moral responsibility; psychopathic offenders; punishment; relationships; reactive attitudes; emotions, 10850
 personal characteristics; family characteristics; criminal behavior; mentally ill patients, 19338
 policy development; treatment; mental disorders; prisoners, 5720
 post-traumatic stress disorder; mentally ill perpetrators; homicide; epidemiology, 28563
 prison-based research; coercion; informed consent; decisional capacity; mentally ill offenders; prisoners, 11970
 prison-based treatment; dually diagnosed inmates; prison substance abuse treatment and reentry programs; therapeutic community; co-occurring mental illness; substance abuse; recidivism reduction, 14463
 psychiatric disturbance; developmental disabilities; forensic psychiatry; intellectual disabilities; mental retardation; offenders; psychiatric disorder; schizophrenia; sexual abuse, 13529
 psychiatric patients; offending; violent offenses; medium secure units; discharged patients, 35057
 psychotic disorders; psychiatric symptoms; ability to stand trial; at risk population; legal ability; legal impairment; hallucinations; hostility; depression; diagnosis, 19731
 risk of offense; mentally disordered offenders; criminogenic factors; recidivism; predictive factors; mentally retarded recidivism; criminological variables; personality measures; clinical information, 27291
 schizophrenia; criminal offending; psychopathy; substance use disorders, 31680
 schizophrenia; delusional symptoms; violent behavior; substance abuse; male offenders; threat-control override symptoms; social origin, 22418
 sex offenders laws; judicial case; California; mental health evaluators; legal error; violent sex offenders; Sexually Violent Predators Act; (SVPA); judicial court; court decision, 6196
 substance-related disorders; mentally ill jail inmates; co-occurring mental disorders; social work implications, 8909
 supreme court; antisocial personality disorder; psychiatric diagnosis; sexual predator laws; preventive detention; predictive validity; mental abnormality; diagnostic systems; human rationality, 6202
 Tarasoff Warnings; potential victims; threat; mental health patient; psychotherapist; duty to warn; intended crime, 6205
 Vermont Defendant Accommodation Project; multi-problem clients; mental retardation; mental illness; sexual abuse; substance abuse; criminal justice system; Horrible Life Disorder; program development, 14933

violent forensic patients; rehabilitation approaches; progression ladders; ProLad; milieu treatment approach; risk management, 26762

Mentally Ill Offenders—Chapters

The dual nature of forensic psychiatric practice: Risk assessment and management under the Dutch TBS-order, 18033

Mentor—Serials

academic achievement; time management; goal setting; study skills; high school students; mentoring programme, 12122

academic medicine; faculty members; mentoring relationships; consensus taxonomy; career progress, 17517

career benefits; mentoring; compensation outcomes; career satisfaction, 12260

career motivation; career self efficacy; career success; mentoring relationships, 12262

career success; learning goal orientation; mentoring relationships; mentoring outcomes; job satisfaction; professional development, 9062

children's street activities; crime prevention; shopkeepers; municipal workers; support; extrafamilial mentors, 35788

clinician experiences; mentoring; family centered assessment; relationship based treatment; family therapy casebook; professional development; medical family therapy, 32365

collectivism; organizational commitment; employee performance; mentors; gay employees; lesbian employees; sexual identity; professional ethics, 33224

Hispanics; managerial occupations; professional occupations; human capital deficiencies; economic barriers; spatial barriers; mentoring resources, 6001

locus of control; work knowledge; mentoring; career; decision making; racial minority; academic institution, 33230

Mediator Mentors; school climate; conflict resolution program; student perceptions; elementary school; cross-age mentoring, 14674

medical students; healthy older people; medical school; aging attitudes; nursing home visits; old age environments; student attitude, 17501

medical students; mentoring relationships; San Francisco; mentors, 14573

Mentor Behaviour Rating Scale; scale development; test validity; test reliability; psychometrics, 24304

mentoring program; food and nutritional sciences; professional schools; allied health fields; professional development; multicultural professionals, 17524

mentoring received; mentoring provided; attitudes; career success; personality; career development; university administrators, 12103

mentoring relationships; career development; deaf graduates; career success, 36214

mentoring; faculty mentoring; career changes; professors; primary mentor; portfolio of mentors; academia; career competencies; intelligent careers; multiple mentoring; managerial implications, 20794

mentoring; mentor role; co-operating teacher; student teacher; moral support; trust; expertise sharing, 8981

mentoring; navy midshipmen; career development; military, 6096

mentoring; school-to-work transition; urban youth; adult-youth mentoring programs; self-esteem; satisfaction, 2895

mentoring; women employees; professional growth; mentors, 33229

mentoring; women faculty; academic environment, 29945

Mexican-origin youth; adolescents; immigrant Latino youth; social networks; role models; significant figures; adult mentors; support networks; urban youth, 7442

negative mentoring experience; mentoring relationships; interpersonal relationships; relationship satisfaction, 36282

negative mentoring experiences; construct development; nomological validation; mentor distancing behavior, 27396

peer teaching model; team teaching; traditional teaching model; student teaching; student teachers; learning experience, 8985

program attributes; structural attributes; demographic characteristics; protegee satisfaction; mentoring programs; protegee assignment; program assessment; race; gender, 30136

psychology training; developing countries; investment strategies; students; faculty awareness; intentional mentoring; facilitated launching; professional psychologists, 23705

self-other rating agreement; mentoring; transformational leadership; career satisfaction; career development; job satisfaction, 33264

social interest; adolescent mentors; student volunteer mentors; cross-age mentoring; connectedness, 2698

student teacher learning; teacher training; mentors; learners, 23783

transformational leadership; learning goal orientation; career success; mentor-protégé relationships; mutual learning, 33265

workplace teachers; workplace learners; novice-expert dichotomy; apprenticeship; expertise, 14740

youth mentoring; urban environment; adolescents perception; relationship styles; mentor relationships, 28113

Mentor—Chapters

Agents of change: Pathways through which mentoring relationships influence adolescents' academic adjustment, 1027

The group as mentor: Social capital and the systems model of creativity, 1195

Mentoring: What We Know and Where We Might Go, 5980

Meperidine—Serials

acupuncture; meperidine; labor pains; childbirth; treatment outcomes, 17112

Mercury (Metal)—Serials

mercury exposure; primate period; sea-fish intake; pregnancy; breastmilk; prenatal exposure, 27928

neurite outgrowth; neuron growth factor; NGF; methylmercury; autophosphorylation; neurotrophin signaling; nervous system, 21891

Mercy Killing [See Euthanasia]

Mesencephalon [See Also Inferior Colliculus, Substantia Nigra, Superior Colliculus, Tegmentum]—Serials

catechol-o-methyltransferase genotype; dopamine regulation; executive cognition; prefrontal cortex; schizophrenia risk; neurotransmission; tyrosine hydroxylase; midbrain; psychosis; polymorphism, 15471

dysbindin gene expression; normal brain vs schizophrenic prefrontal cortex & midbrain; dysbindin messenger RNA; sequence variations; introns; synaptophysin; spinophilin; cyclophilin, 31787

impulse activity; cocaine self-administration; midbrain dopamine neurons; drug-seeking behavior; quinpirole; midbrain; rats, 10020

inferior colliculus; collicular neurons; central nucleus; sharp tuning; isofrequency contours; neural response; stresses; auditory midbrain; receptive fields, 6880

lordosis; neurosteroid; alligatorene; 5 α -pregnane-3 α -ol-20-one; sexual receptivity; estrogen; progesterone; psychosis, 3898

medial temporal lobe; midbrain colliculi; inter-collicular sulcus; aging; hippocampus angle; spatial relationships; magnetic resonance imaging, 3638

midbrain structure activation; associative novelty; explicit memory formation; visual memory; ventral tegmental area; medial substantia nigra; hippocampus, 34067

neurons; rat embryos; fibroblast growth factor; mesencephalic precursors; midbrain, 6931

paraquat; dopaminergic neural vulnerability; organotypic midbrain culture; paraquat toxicity; herbicide; Parkinson's disease; rat; midbrain; dopamine, 7255

presynaptic GABA release; substantia nigra pars compacta; Gamma-hydroxybutyrate; alcohol abuse; patch-clamp recordings; calcium influx; inhibitory postsynaptic currents; dopaminergic neurons, 18559

repeated prolonged stress effect; adrenocorticotrophic hormone; expression levels; mu opioid receptor; midbrain homogenates; mRNA expression; rat brain, 7278

serotonergic neurons; midbrain raphe neurons; medulla; central respiratory chemoreceptors; rats; respiratory acidosis, 6987

temporal activity patterns; red nucleus; rats; limb movement; motor cortex; locomotion, 21593

Messages—Serials

African Americans; general population; television watching; obesity; television food portrayal; food commercials; African American television characters; African American television shows, 13140

aggressive interactions; problematic messages; flaming; computer-mediated communication; miscommunication, 13139

agrammatism; story retelling; sentence forms; inflectional morphology; verb retrieval; thematic roles; grammatical forms; syntactic training; message-level representations, 29821

cognition moderates; smoking cessation messages; smoking; cancer prevention behavior; persuasiveness, 14493

cognitive therapy; depression; treatment adherence; mood repair strategies; avoidance-framed messages; approach-framed messages; motivation; happiness; sadness, 11398

comforting messages; emotional change; emotional state; helper competence; help recipient judgments; emotional support; person centeredness; nonverbal immediacy; immediate helpers, 26464

communicative intent; conversation; judgments, 25251

computer networks; design decisions; visual analysis; design parameters; average message length; average message delay; visualization; network operating costs; cost delay tradeoffs, 17970

congruency hypothesis; college students; health message framing; dispositional motivation; health behaviors promotion; framed messages; health messages, 20513

death anxiety; threat persuasiveness; non-death threats; age differences; threat messages; health promotion, 2335

disordered eating; healthy eating; eating disorders; messages; drive for thinness; responsiveness; women, 11735

failed counterarguing; attitudes; attitude certainty; metacognitions; messages; undirected thinking; resistance; behavioral intentions, 9679

gender role; Tannen Model; gender; communication; gender differences; message interpretation, 25191

information framing; corporate reputation; message source; information type; stakeholder attitude; performance information; numeric information; verbal information, 24021

interpersonal relationships; recipient appraisals; hurt evoking messages; feelings; relationship satisfaction, 25291

justice arguments; care arguments; reproductive rights; speaker credibility; message credibility, 22310

language intensity; response rate; attitude change; e-mails; intense messages; communication media, 34208

message framing; cognitive elaboration; motivation, 33355

messages; communication strategies; health information; audience, 11723

minority influence; majority influence; uncertainty orientation; situational expectancies; persuasive messages processing, 19101

occupational messages; adolescent girls; teen magazines; work world; career future; modeling work; girls perceptions, 23958

online discussion; online community; group dynamics; messages; lurking; posters; lurkers, 18851

online harassment; university campus; demographic variables; sexual orientation; pornography; email messages; cyberstalking, 19598

personal relevance; analytic processing; message repetition; persuasion; repetition, 28418

polite message; apology; unfair outcome, 19151

politeness strategies; speech; sociolinguistic; men's voice mail messages; women's voice mail messages; apologize; soften criticism, 21961

prosody; lexical-semantics; event-related potentials; affective message, 34096

regulatory fit; message recipients; subjective experience; persuasion; perceived message persuasiveness; topic opinions, 13447

regulatory focus goals; message framing; persuasion; gain frames; loss frames; promotion; perceived risk; processing fluency, 9665

relational meanings; nonverbal behavior; nonverbal matching; matching behavior; social meaning; messages, 4397

self-construal; meaning; conversational indirectness; messages; communication, 34219

sexual harassment attitudes; e-mail messages; social desirability; gender differences, 34975

source credibility; message source; persuasion, 19126

spokesperson trustworthiness; endorsers; thoughtful elaboration; unthinking acceptance; persuasion consequences; elaboration; attitude accessibility; advertising effectiveness; attitude strength, 9168

suicide; suicide motives; suicide notes; motivation, 28825

survivors; memorable messages; religious faith; spirituality; final conversations, 28208

third-person effects; media messages; alcohol messages; perceived influences; social comparison; social judgment; self esteem, 18880

trait rebelliousness; selective exposure; adolescent rebelliousness; music genre; defiant music; traits, 804

two sided advertising; advertising effectiveness; source credibility perception; positive product attributes; inferences; message content; message processing; consumer judgment; logical relations, 9165

vegetable consumption; health interventions; audience response; didactic message presentations; nutrition information; message clarity; message believability; message usefulness perception, 8693

virtual reality; computer-based simulation; immersion level; personalized speech; nonpersonalized speech; science learning; educational games; retention; problem solving, 14648

visual intensity; audiovisual redundancy; bad news; compelling messages; visual information; viewers recognition; delayed free recall, 31084

Messages—Chapters

Children and the changing media environment: From Plato's Republic to Hillary's village, 22022

Communicating about health: Message framing, persuasion and health behavior, 2367

Credibility for the 21st century: Integrating perspectives on source, message, and media credibility in the contemporary media environment, 15900

Defensive processing of personally relevant health messages, 12725

The systematic influence of gain- and loss-framed messages on interest in and use of different types of health behavior, 17276

Meta Analysis—Serials

child psychotherapy; adolescent psychotherapy; clinical trials; meta-analysis; published studies; effect size estimates; potential bias; dissertations, 16927

effect-size indices; dichotomized outcomes; meta-analysis; statistical variables; bias; sampling variance; population standardized mean difference; probit transformation; logistic distribution, 3131

marital & family interventions; family therapy; meta-analysis; empirically-supported treatment literature, 2076

meta analysis; statistical power; standard error; effect size; confidence intervals, 6430

meta-analysis; effect size; research syntheses; treatments; dependent measures, 3275

meta-analysis; mental retardation; validity, 9546

meta-analysis; methods; meta-analytic searches; search strategy; psychiatric treatment effectiveness; personality disorders, 30550

meta-analysis; raw mean differences; raw metric; standardized mean differences; statistical techniques; effect sizes, 3126

meta-analysis; study outcomes; metric; measurement, 3266

multilevel meta-analysis; models; statistical techniques, 263

publication bias; nursing; meta-analysis, 23588

r-equivalent; effect size estimation; sample size; p value; meta-analysis, 3258

reliability coefficients; reliability generalization; standard deviations; coefficient alpha; sample means; sample sizes, 12548

t tests; meta-analysis; metric comparability; effect-size estimators; multifactor designs; single-factor designs; variance-preservation model; variance-reduction model; standardized mean differences, 3127

Meta Analysis—Books

Meta-Analysis: New Developments and Applications in Medical and Social Sciences, 291

Meta Analysis—Chapters

An Alternative Test Procedure for Meta-Analysis, 273

The Application of Methods of Meta-Analysis for Heterogeneity Modeling in Quality Control and Assurance, 293

Basic principles of meta-analysis, 15163

Differences in the results of Two Meta-Analytical Approaches, 276

Homogeneity Tests in Meta-Analysis, 272

Issues of Reviews and Meta-Analyses of Observational Studies, 302

META—A Software Package for Meta-Analysis, 275

Meta-Analysis in Hospital and Clinical Epidemiology, 296

Meta-Analysis of Randomized Clinical Trials in the Evaluation of Medical Treatments—A Partly Regulatory Perspective, 300

Meta-analysis, 5985

Meta-Analysis—Not Just Research Synthesis!, 295

Meta-Analysis: A General Principle for Estimating Heterogeneity Variance in Several Models, 274

Statistical Tests for the Detection of Bias in Meta-Analysis, 277

Will it Work in Münster? Meta-Analysis and the Empirical Generalization of Causal Relationships, 301

Writing a literature review, 292

Metabolic Rates—Serials

A/J; amphetamine; antipsychotic; C57BL/6J; clozapine; prepulse inhibition; strain differences; weight gain, 13102

cardiopulmonary functions; metabolic functions; muscular functions; exercise; myopathies; fatigue; sports physicians; workload; mitochondrial myopathy, 7114

clozapine therapy; body weight; antipsychotic medication; resting metabolic rate; weight gain, 14179

direct current potential; functional state; metabolic state; brain nervous tissue; bioelectrical parameters; electrical activity, 30902

energy metabolism; bardet-biedl syndrome; clinical management; obese control; patients, 8126

glucose solution; ethanol solution; intraperitoneal injection; c-terminal octapeptide; ethanol consumption; absolute ethanol; golden hamsters; male hamsters; cholecystokinin, 15741

leisure time; total energy expenditure; double labeled water; basal metabolic rate; calorimetry; physical activities; Minnesota Leisure Time Activity Questionnaire, 6362

metabolic rate; social status; juvenile giant freshwater prawns; dominance stability; aggressive interactions, 21449

metabolism studies; metabolic rate; cytochrome P450; imipramine; in vitro; metabolism; model; steady-state, 13032

nicotine; respiratory quotient; energy expenditure; metabolic changes; body weight, 12932

oxygen consumption; temperature changes; swimming capability; metabolic rate; starvation death; fish growth; captivity; stress; sailfish, 21414

passerine birds; metabolic rate; sound production; energy cost; oxygen rate; singing, 6750

QTc; antipsychotic drugs; metabolic inhibition; haloperidol; thioridazine; ziprasidone; quetiapine; olanzapine; risperidone, 11495

QTc; antipsychotic drugs; metabolic inhibition; haloperidol; thioridazine; ziprasidone; quetiapine; olanzapine; risperidone, 32447

Metabolism [See Also Anabolism, Biosynthesis, Catabolism, Lipid Metabolism, Metabolites, Protein Metabolism]—Serials

24S-hydroxycholesterol; brain cholesterol metabolism; Alzheimer's disease; beta amyloid; statins; simvastatin, 5029

acyl-Coenzyme A synthetase-2 mRNA; cerebral cortex; animal model; depression; rats; fatty acid metabolism; learned helplessness, 18540

anabolic androgenic steroid; nandrolone decanoate; hypothalamic proopiomelanocortin; mRNA levels; supratherapeutic doses; metabolism; feeding; body weight; rats; human, 3827

antidepressant drugs; venlafaxine; fluoxetine; setraline; nefazodone; drug-drug interaction; erythromycin; alprazolam; cytochrome P-450 3A4 induction & inhibition, 9978

antidepressant medication; adverse drug reactions; poor metabolizers; antidepressant side effects; fluoxetine; nortriptyline; CYP2D6 genotype; major depression; antidepressants, 14182

basal ganglia high-energy phosphate metabolism; neuroleptic-naïve patients; schizophrenia, 28704

biochemical properties; toxicological properties; alcohol metabolism; CYP2E1; oxidative stress; pharmacology; human heptoma; HepG2; toxicity, 24793

chick embryo; metabolic compensatory mechanisms; developing brain; hypoxia; lactate; metabolites; metabolism, 21659

cigarette craving; cue induced craving; anterior cingulate cortex; bupropion; brain metabolic activation; smokers, 26192

cigarette smoking; psychotropic drugs; antipsychotic metabolism; schizophrenia; caffeine metabolites; urine; saliva; human sex differences; drug dosage, 14129

clinical expression; multiple symmetric lipomatosis; men; women, 8113

clozapine; clinical response; schizophrenic patients; negative symptoms assessment; schizophrenia predictive factors; clinical outcome; antipsychotic drug resistance; metabolic capacity; genetic data, 8525

cognitive distortions; stress; treatment adherence; metabolic control; type I diabetes, 32081

completed suicide; suicidal behavior; genes; genetic variation; cholesterol, 22635

declarative memory impairments; metabolism; physical activities; sleep deprivation; military combat course; neuropsychological parameters; biochemical parameters, 26160

diabetic adolescents; sociodemographic factors; family features; support; emotional well-being; metabolic control; family factors; social factors; diabetes mellitus type I, 11141

diet-induced obesity; genetic vulnerability; metabolic syndrome; signal transduction; biochemical changes; molecular aspects; C57BL/6J mouse; catecholamine signaling; adipose tissue, 24612

energy balance; plasma leptin concentration; fasting plasma; fat deposition; body fat mass; diet manipulation; insulin concentration; glucose concentration; fat mobilization, 15694

energy balance; reproduction; ingestion; hypothalamic-pituitary-gonadal system; metabolic fuels; physiological mechanisms; metabolic sensory stimuli; hormones; neuropeptides; neural pathways, 24621

folate; homocysteine metabolism; neural plasticity; neurodegenerative disorders; amino acid; DNA strand breakage; oxidative stress; apoptosis; nervous system development; neuronal homeostasis, 22975

glucose metabolism; treatment-resistant patients; cardiovascular diseases; antipsychotics, 32468

haloperidol plasma concentration; debrisoquine metabolic ratio; genotypes; psychiatric patients; cytochrome p450, 32363

herbal influence; normal volunteers; ginkgo biloba; neurocognitive effects; cytochrome activity; dietary supplement; dosage; metabolic ratios; plasma samples, 7226

high frequency stimulation; entopeduncular nucleus; metabolism; striatal dopaminergic transmission; striatal extracellular dopamine; rats; metabolite level, 34092

human liver microsomes; peripheral metabolism; neurotoxic metabolite; alpha-methylthioamphetamine; in vitro formation; glutathione reductase; methylenedioxymphetamine; methylenedioxymethamphetamine, 12989

lactulose; intracolonic acetate dehydrogenase; ethanol elimination rate; colonic bacteria; alcohol dehydrogenase activity; carcinogens; acetylthide; rats, 10065

metabolic changes; severely depressed patients; left dorsolateral prefrontal cortex; electroconvulsive therapy; treatment resistant unipolar depression, 8569

metabolic syndrome; cynical hostility; cardiovascular disease; risk factors; cynicism; increased blood pressure; insulin resistance; hypercholesterolemia; abdominal fatness; high density lipoprotein, 29086

metabolism studies; metabolic rate; cytochrome P450; imipramine; in vitro; metabolism; model; steady-state, 13032

obesity; metabolic syndrome; insulin resistance; C-reactive protein; adiponectin, 26006

obesity; metabolic syndrome; insulin resistance; C-reactive protein; adiponectin; biological markers, 35138

obesity; metabolic syndrome; insulin resistance; C-reactive protein; adiponectin; biological markers, 35157

obesity; metabolic syndrome; insulin resistance; C-reactive protein; adiponectin; biological markers, 35136

obesity; metabolic syndrome; insulin resistance; C-reactive protein; adiponectin; biological markers, 35143

optical techniques; neonatal brain imaging; oxygenation; hemodynamics; metabolism, 7356

poisoning; older adults; drug reactions; ingestions; suicide; drug metabolism, 29448

polymorphisms; genotype; trimipramine; metabolism; pharmacokinetics; alleles, 2182

preclinical pharmacology; tianeptine; antidepressants; drug interactions; norepinephrine; serotonin; metabolism; safety; adverse effects; tolerability; efficacy, 35562

prolactin-releasing peptide; feeding regulation; male chicks; energy metabolism, 18805

schizophrenia; homocysteine metabolism; B-vitamins; risk factors; plasma folate, 1495

testosterone metabolism; hippocampus; anti-anxiety effects; rats, 30974

transcobalamin; polymorphism; Alzheimers disease; genetics; cobalamin; vitamin B12, 35309

vasodilatory response; methylnicotinate; schizophrenia; laser Doppler flowmetry; bipolar disorder; phospholipid metabolism; vasodilations, 31783

Metabolism Disorders [See Also Cushing's Syndrome, Cystic Fibrosis, Diabetes, Hyperglycemia, Hypoglycemia, Hypnatremia, Phenylketonuria, Porphyrin]—Serials

A. Folling; intellectual impairment; inherited metabolic disorder; genetic disorders; brain development; phenylpyruvic acid; phenylketonuria; PKU; discovery; imbecillias phenylpyruvic, 16590

antipsychotics; metabolic disturbances; metabolic disturbance management; psychiatry; psychiatric patients, 35517

c-reactive protein; cardiovascular disease; metabolic syndrome; obesity, 16636

hypoxanthine; xanthine; uric acid; Lesch-Nyhan disease; rat striatum; neonatal rats; metabolites, 34135

major depression; metabolic syndrome; epidemiology; gender differences, 25474

metabolic disorders; metabolic abnormalities; practical management; schizophrenia; type 2 diabetes; clinicians, 23341

metabolic syndrome; antipsychotic therapy; mental illness; weight gain; blood glucose, 23237

mitochondrial dysfunction; autistic patients; inverted duplication; chromosome; mitochondrial enzyme assay; perinatal courses; respiratory chain block, 16530

neuropsychiatric illness; Cobalamin G disease; vitamin B metabolism; methionine synthase deficiency; impulsive behavior; aggressive behavior; inherited disorder, 22949

obesity; risk factors; hypertension; glucose intolerance; diabetes mellitus; hyperlipidemia; metabolic syndrome; stress; pathogenesis; glucocorticoids, 35208

regular hospitalization; thalassemia; childhood illness; parents, 17402

selective serotonin reuptake inhibitors; hyperprolactinemia; antipsychotics; prolactin; dopamine receptor; fertility; breast cancer; bone density; galactose, 26358

Metabolites [See Also Dopamine Metabolites, Serotonin Metabolites]—Serials

agmatine effect; seizure susceptibility; mice; pentylenetetrazole; PTZ; PTZ-induced seizures; adrenoceptors involvement; L-arginine pathway; NO; pathway; L-NAME; N-nitro-L-arginine; nitric oxide, 7171

amphetamine; striatal dopamine & metabolite levels; 3,4-dihydroxyphenylacetic acid; homovanillic acid; 5-hydroxyindoleacetic acid; Wistar-Kyoto; Sprague-Dawley; spontaneously hypertensive rat, 3892

androgenic metabolites; estrogenic metabolites; dehydroepiandrosterone; cognition; postmenopausal women; short term memory, 23247

attention deficit hyperactivity disorder; metabolite changes; glutamate; magnetic resonance spectroscopy, 8490

autistic disorder; risperidone treatment; extrapyramidal side effects; drug tolerability; antipsychotics drugs, 23241

- axonal fibers; axonal injury; language network; primary progressive aphasia; Alzheimer's disease; superior longitudinal fasciculus; temporal lobe; brain metabolites, 122917
- basal ganglia; psychiatric symptoms; toluene users; drug abuse, 26438
- behavioral characteristics; 1-(2,5-dimethoxy-4-methylphenyl)-2-aminopropan; phenylethylamine hallucinogen; DOM; lysergic acid diethylamide; LSD; DOM metabolites; M100907; 5-HT_{2A} receptor; rats, 716
- cerebrospinal fluid; serotonin; serotonin metabolites; aggression; rats; norepinephrine; dopamine; 3,4-dihydroxyphenylacetic acid; 5-hydroxyindoleacetic acid; aggressive behavior, 3856
- cerebrospinal fluid; stereoselective metabolism; citalopram; plasma; depressive patients, 26409
- chick embryo; metabolic compensatory mechanisms; developing brain; hypoxia; lactate; metabolites; metabolism, 21659
- choline metabolites; human brain; phosphatidylcholine; acetylcholine; cerebral metabolism, 18706
- conditioned taste aversion; short-term memory; long-term memory; antimetabolites; rats; learning, 6688
- corticosterone metabolites; fecal samples; mice; stress hormones; endocrine functions; stress hormone metabolites; adrenocorticotrophic hormone challenge tests; dexamethasone suppression tests, 15720
- depression; melatonin; urinary 6-sulfatoxymelatonin; circadian rhythm, 7820
- dietary fatty acids; behavioral depression; bacterial lipopolysaccharide; cytokines; arachidonate metabolites; mice, 27955
- dopamine; medial preoptic area; copulation; testosterone; dihydrotestosterone; estrogen; microdialysis; HPLC-EC; male rats, 6729
- fluoxetine; major depressive disorder; metabolite norfluoxetine; drug dosage; treatment relapse, 14190
- gamma aminobutyric acid; drug dependence; gamma hydroxybutyrate; social phobia; self medication; drug dependency, 25745
- genetics; monoamine metabolites; baboons; genes; monoamine neurotransmitter; 5-hydroxyindoleacetic acid; homovanillic acid; psychopathology; 3-hydroxy-4-methoxyphenylglycol, 18547
- glycoprotein; membrane protein; central nervous system; pharmacokinetics; amitriptyline metabolites; blood-brain barrier, 21845
- hippocampal 3 α H,5 α H-THP; depressive behavior; lactation; postpartum depression; animal model; progesterone metabolite; hippocampus, 30976
- hypoxanthine; xanthine; uric acid; Lesch-Nyhan disease; rat striatum; neonatal rats; metabolites, 34135
- Japanese macaques; mother-infant relationships; estrogen metabolites; rhesus macaques; captive social groups; maternal behavior; metabolite levels; perinatal period; peripartum period; pregnancy, 15382
- major depression; occipital cortex metabolite; cortical glutamate; cortical gamma aminobutyric acid; neurobiology, 28668
- major depression; plasma nitric oxide synthase activity; nitric oxide metabolites; coronary heart disease; risk factors; major depressive disorder, 31727
- melatonin metabolites; hormone; spinal nociceptive transmission; eserin; spinal cord windup activity; melatonin degradation blockade; rats, 13043
- neuropathic pain; rats; noradrenergic activity; brainstem; cerebellum; sciatic nerve; nitric oxide; MPPG; norepinephrine; pain threshold; agmatine; metabolite, 15787
- nitric oxide protein kinase G pathway; estrous behavior; progesterone; ring A-reduced metabolites; sexual behavior; estrogen-primed rats; lordosis; proceptivity, 15715
- nitric oxide; induced panic attacks; pulmonary & systemic nitric oxide production; exhalation; nitric oxide metabolites; respiratory rate, 1525
- P-glycoprotein deficiency; blood-brain barrier; brain penetration; methadone; enantiomers; mice; oxidative metabolite, 27954
- plasma levels; milnacipran treatment; paroxetine treatment; catecholamine metabolites; catecholaminergic neurons; depressed patients; 3-methoxy-4-hydroxyphenylglycol, 11557
- progesterone-induced spike-wave discharges; flasteridine; genetic model; absence epilepsy; rats; allipregnanolone; 5 α -aldehyde; neuroactive metabolites, 795
- progesterone; metabolites; isopregnanolone; chronic fatigue syndrome; women; depression; menstrual cycle, 8152
- progestins; protective effects; adrenalectomy; cell death; progesterone; progesterone metabolites; dihydroprogesterone; 3 α H,5 α H-THP; pregnan-3 α H,20-one; 3 α H,5 α H-THP; hippocampus; seizure, 31002
- recurrent major depression; 11 Beta-hydroxysteroid dehydrogenase activity; urinary steroid metabolites, 28666
- spit tobacco; chewing tobacco; nicotine absorption; nicotine exposure; cotinine; biomarkers; tobacco juice swallowing, 13396
- Metacognition—Serials**
- academic self-concept; goal orientation; adolescence metacognition; student learning; mathematical self concept; self esteem, 9008
- anchoring effects; judgments of learning; absolute accuracy; recall prediction; metacognition, 24468
- attitude accessibility; attitude strength; certainty; metacognition; self-perception; attitude change; confidence, 4359
- autobiographical memory; metacognitive processes; personal recollections; reconstructive nature; metamemory monitoring; metamemory knowledge, 27557
- childhood head injury; metacognitive processes; injury severity; typically developing children; recall prediction; delayed test; study-recall trials; memory span; overconfidence; language; semantics, 16768
- comparative perspective; comparative psychology; cognitive perspective; behavioral phenomena; cognitive psychology; metacognition, 3460
- comparative psychology; monitoring uncertainty; metacognition; psychophysics; memory monitoring, 9751
- computer based training; cognitive activity; metacognitive activity; training environments; multimedia; training evaluation; individual differences, 21014
- cues; thoughts; feelings; behavior; young children; age differences; gender differences; cognitive behavior therapy; meta-cognitive skills, 18936
- Deanna Kuhn; psychology professor; developmental psychology; science education; thinking; inquiry; argument; values; metacognition; microgenetic study of change; development & cognition, 32888
- distinctive features; episodic memory; memory representations; university students; learning material; memory awareness; semantic memory; schematization development; students' knowledge, 14663
- dysfunctional thinking; recovery; major depression; dysfunctional schema access; metacognitive monitoring; acutely depressed patients; partially remitted depressed patients, 13613
- elementary school children; comprehension; hypothetical beliefs; hypothesis-testing process; statements of preference; age differences; cognitive development, 34269
- failed counterarguing; attitudes; attitude certainty; metacognitions; messages; undirected thinking; resistance; behavioral intentions, 9679
- feeling of knowing; familiarity; FOK ratings; cues; music; metamemory; episodic memory, 24443
- immediate vs delayed error detection & correction; semantic retrieval; event related potentials; negative vs positive feedback; metamemory mismatch; hypercorrection effect, 7039
- judgement of learning accuracy; feeling of knowing accuracy; episodic memory tasks; metacognitive ability; older adults; cognitive performance, 33829
- language learning strategies; metacognitive strategies; disciplinary differences; strategy inventory; English students, 10109
- low self-esteem; mindfulness; negative bias; information processing; clinical depression; negative thinking; mood; metacognitive awareness; cognitive therapy, 34825
- memory development; young children; memory strategies; verbal memory; recall; short term memory; memory capacity; metamemory; utilization deficiency, 24977
- memory performance; alzheimer's disease; alzheimer's disease; metacognitive knowledge; frontotemporal lobe dementia; metamemory, 8312
- meta learning; reinforcement learning; meta parameters; environment dynamics; animal performances; dopamine; neuromodulation, 6161
- Meta-cognitions Questionnaire-Adolescent Version; test development; test validation; emotional correlates; metacognition; internal consistency; emotional well-being, 24187
- metacognition; explanation; understanding; knowledge; cognitive development; age differences; awareness; explanatory depth, 10197
- metacognition; paired-associate items; judgments of learning; Swahili-English translation, 18351
- metacognition; self-regulated learning constructs; academic monitoring; theory development, 33676
- metacognitions questionnaire; metacognitive beliefs; psychological disorders, 18170
- metacognitive experiences; task performance; Japanese undergraduate students; problem-solving, 24414
- metacognitive functioning; psychotherapy; metacognition assessment scale; psychotherapy patients; scale construction; test validity, 18139
- metacognitive language; story texts; conceptual understanding; mental states; production & comprehension; metacognitive vocabulary; kindergarten children, 24970
- metacognitive skills; intelligence; domain generality; domain specificity; metacognitive development; age differences, 34299
- metacognitive training; mathematical word-problem solving; computer-based environment, 17717
- metacognitive cognition; epistemic reasoning; reasoning development; moral judgments; intuitionism; subjectivism; transsubjectivism; adolescents, 34281
- metaknowledge; metacognitive processes; long-term memory; natural categories; semantic memory, 24482
- mind-reading; metacognition; narcissism; self-estimated ability prediction; interpersonal sensitivity; social judgment; competence, 34652
- obsessive-compulsive disorder; thought-action fusion; guilt; thought suppression; memory confidence; semantic memory; metamemory, 31821
- personal epistemology; metacognitive process; thinking; online searching; beliefs; knowledge; research methodology; epistemic theories, 18330
- Piagetian perspective taking development; metacognitive development; theory of mind development; mentalistic knowledge; mental states; individual & cultural differences; primate species differences, 34273
- problem solving performance; knowledge acquisition; dyads; transfer performance; metacognitive thinking; individuals; metacognitive stimulation, 9637
- reading comprehension; metacognitive knowledge; developmental perspective; linguistic knowledge; speed components; processing speed; reading skills; first language; second language reading; components, 13214
- reflective leadership; leadership qualities; metacognition; reflectiveness, 9085
- revised methodology; metacognitive monitoring; metamemory; judgments of learning; pre-judgment recall and monitoring; data collection; data analysis, 15330
- scientific problem-solving; metacognitive monitoring; problem-solving strategies; crystallized intelligence; seventh graders, 13206
- self-explaining; learning; text; diagram; metacognitive strategy; information; human circulatory system, 9700
- sex differences; recall trial; undergraduate students; memory performance; memory estimates; pictures; words; estimation; metacognition, 24500
- spacing strategies; spacing effect; long term learning; metacognitive control strategy, 18405
- stereotypes; bias; memory distortions; conscious recollection; conscious experience; memory processes; response biases; monitoring, 10548
- Tagalog; Filipino; cognitive metamodels; grammar of thinking; metaphor; categorization of experience, 855
- thinking; feeling; thought; emotion; model of the mind; metacognition; metalinguistic activity, 851
- transfer appropriate monitoring; metamemory; judgments of learning; test conditions; processing similarity; cued recall vs recognition memory test, 437
- young children; mathematical problem solving; metacognitive abilities; socioeconomic status; language; formal schooling; sex differences, 934
- Metacognition—Books**
- Metacognition: Process, function and use, 21352
- Metacognition—Chapters**
- Comparing processing-based, stimulus-based, and subject-based factors in metacognition, 21358

- The systemic nature of metacognitive experiences, 22050
- When is metacognition helpful, debilitating, or benign?, 22053
- Metalinguistics—Serials**
- cognitive linguistics; grammar; talk; thinking; linguistic categorization; East Cree; Amharic; English; Mandarin; Tagalog; metalinguistics, 854
- cross-linguistic variation; cultural scripts; cognition; semantics; thinking; polysemy; natural semantic metalinguage theory, 848
- Egyptian Arabic; communicative goals; pragmatic functions; metalinguistic negation; MN; negative operator; linguistics; grammaticalization; interpretation, 852

phonological awareness; grammatical awareness; metalinguistic tasks; stuttering, 35158
thinking; feeling; thought; emotion; model of the mind; metacognition; metalinguistic activity, 851
verbal irony; meta-linguistic knowledge; echoic interpretation; apposition; syntactic structure, 28003

Metalinguistics—Chapters

Differential use of cerebral mechanisms in bilinguals, 15996

Metallic Elements [See Also Calcium, Iron, Lead (Metal), Lithium, Magnesium, Mercury (Metal), Potassium, Sodium, Zinc]—Serials

epilepsy; serum trace concentrations; nail trace concentrations; zinc; copper; manganese, 11258

Metals [See Also Metallic Elements]—Serials

Alzheimer's disease; beta amyloid protein; neocortex; toxicity; metal ions, 8223

behavioral impairments; chronic manganese poisoning; manganese chloride; rats; maze learning; memory; avoidance reactions; stereotypies, 15808

Metamemory [See Metacognition]

Metaphor—Serials

academic identity; management academics; business school strategies; metaphors; business management; professional knowledge, 33266

body talk; expressing pain; body communication; communicative body medium; Reynaud disease; metaphor; verbal expression; subjectivities; retranslating body language, 23205

career development readings; words; images; metaphor; consciousness; non-linear representation; metaphorisation; methodological possibilities, 27032

Chinese; thinking; conceptual metaphor; linguistic manifestation; cultural model; cultural differences, 863

conflict management metaphors; problem communication; interpersonal conflicts; written journals; tonal qualities, 10500

dance; therapeutic metaphor; psychotherapy; relatedness, 2006

death; life; metaphors; sickness; time; Turkey; body; metaphor theory, 10108

face metaphoric expressions; Face Theory; Akan cultural system; Akan communicative interaction; sociolinguistics; pragmatics; discourses; speech community, 27971

family metaphor; staff communication; death; dying; caregiving staff members; nursing home residents; disenfranchised grief; professional distance; social construction; deceased residents, 20600

George Eliot; linguistic representation; metaphors; knowledge; cognition; Middlemarch, 21942

hare psychopathy checklist-revised; emotional components; emotional material; emotional content; verbal stimuli; psychopathy; emotional polarity; metaphorical statements; male inmates, 1549

illusion; disillusionment; ego; psychoanalysis; metaphors; transformations; interplay process, 19234

major depression; treatment; recovery; psychological phenomena; suicide; metaphors, 28643

major depression; treatment; recovery; psychological phenomena; suicide; metaphors, 28669

major depression; treatment; recovery; psychological phenomena; suicide; metaphors; hope, 28671

management decision-making; interpretation process; business communication; metaphors unreliability; business; costs; benefits, 31074

memory metaphors; early memory; Adlerian therapy, 32228

metaphor comprehension; cognitive concepts; inherent circularity; schemas, 3372

metaphor comprehension; right-brain damage; visuo-verbal material; verbal material, 29175

metaphor; cross-border merger; social identity; cultural identity; common future image; us and them image, 6048

metaphor; mind; consciousness; attention, 27586

metaphor; thought; psychotherapy, 20169

metaphorical meanings; contrastive-cognitive analysis; semantic derogation; animal metaphor; conceptualization; English; Spanish; gender differences; cultural differences, 21960

metaphors; career studies; career issues; career theory; career conceptualization; career management; image, 30133

metaphors; physics; career issues; life issues; employment services; practitioner tools, 12249

metonymic mappings; metaphorical mappings; American Sign Language; cognitive reasoning; linguistics; cognition; prose, 31078

mind-body dualism; metaphor; dualistic thinking; organizational life; state of being; gender identity, 31048

multiple meanings; metaphors; open interpretation; implicit metaphor theory, 21970

numerical diagrams; arithmetical activity; fourth-grade class; natural number concepts; semiotic signs; metaphor, 23888

professional growth; work conference; personal lives; primary reason; social worker; breast cancer; social work; heavy load, 5800

psychodynamic understanding; mind; mind functions; metaphor; metonymy; trauma; psychoanalysis, 31622

psychological approaches; cultural influences; metaphors; church; factory; market; psychology profession; post-modern age; globalization; history, 6222

reversibility; aptness; conventionality; metaphors; similes, 21958

semantic representation; semantic illusions; lexical processing; literality; sentences; lexical access; interpretation based processing; metaphor comprehension, 18855

social interactions; probability theory; metaphors; social processes; gambling; statistical probability; epistemological probability; social scientific argumentation; social science research, 4186

Tagalog; Filipino; cognitive metamodels; grammar of thinking; metaphor; categorization of experience, 855

theories; musical motion; metaphors, 21936

traditional Chinese medicine; metaphor; mental processes; Chinese culture; human body; gall bladder; courage, 4218

word meaning; hemispheric lesion; metaphoric meaning; brain damage; semantic meaning, 4997

Metaphor—Chapters

Communicating disability: Metaphors oppression, metaphors of empowerment, 15878

Metaphysics—Serials

Chosinness; metaphysics; criminology; theology; terrorism, 1063

end of meaning; birth of man; history of consciousness; unconscious; C.G. Jung's psychology project; logical interiorization, 31644

Freud; masochism; metaphysical anthropology; erotic relation, 19233

human world; topography of moral ecology; moral science; ontology; social practice; moral values; metaphysical worldview; psychology; relativism, 18833

human; universe; metaphysics; dark matter; dark energy; solar system; galaxies, 27967

masochism; sadism; metaphysics; suffering; physical pain; mental pain; truths; pain; sorrow; asceticism; Western medicine; psychoanalysis, 18837

metaphysics; meaningfulness; myths; Jungian psychology, 30355

psychological measurement; figure-meaning independence; methodological culture; measurement; mathematics; hermeneutic-mathematical metaphysics; signifier-signified coordination; methodology studies, 9509

qualitative methods; scientific method; figure meaning independence; experimental methodology; mathematical metaphysics; significant anomaly; sign-thing coordination; numerical variables, 9510

reductionism; mind body problem; metaphysical theories; intertheoretic reductions, 34203

Metapsychology—Serials

Sandor Ferenczi; compassionate metapsychology; child abuse; empathy; linguistics; mathematics; chaos theory; catastrophe theory; religious thought; humanistic psychology; client-centered therapy, 50

sexual drive; Freudian concepts; metapsychology; love; hate; death drive; psychical conflict, 28529

sexual drive; Freudian thought; metapsychology; love; hate; death drive, 28527

transactional analysis; ego states; Eric Berne; human aspirations; limiting forces; individuation; Rosarium Philosophorum; natural growth force; transference, 14071

utilitarianism; Freud; metapsychology; philosophy; theory, 13520

Methadone—Serials

ethnic minorities; addiction treatment services; heroin users; retention rates; methadone treatment, 26743

methadone dose; methadone injecting patients; intravenous methadone use; methadone maintenance treatment, 11906

methadone maintenance treatment programs; heart; brain; cardiac toxicity; buprenorphine maintenance, 11943

methadone maintenance treatment; early treatment outcomes; illicit drug use; social reintegration; patient-centered care, 11898

methadone; chronic neuropathic pain; pain management; central nervous system; peripheral nervous system; injury; levorphanol; analgesic effects, 5442

methadone; treatment; neuropathic pain; dosages; cancer patients; noncancer patients; pain intensity; mechanical allodynia; paroxysmal, 5423

opiate detoxification; pregnancy; methadone withdrawal; opiate dependent women; drug rehabilitation, 19680

opiate detoxification; pregnancy; methadone withdrawal; opiate dependent women; drug rehabilitation; drug safety, 19688

oral naltrexone; opioid side effects; methadone; painful neuropathy; ultra-low dose, 17158

P-glycoprotein deficiency; blood-brain barrier; brain penetration; methadone; enantiomers; mice; oxidative metabolite, 27954

Methadone Maintenance—Serials

abstinence-oriented therapies; opiate addicts; maintenance treatment; opiate maintenance; opioid dependency; community follow-up; antagonists; assessment; mental problems, 26744

access to methadone maintenance treatment; opiate use; methadone clinics, 26714

buprenorphine maintenance; methadone maintenance program; opioid dependent patients; drug counseling; treatment retention; primary care settings, 29803

buprenorphine; opioid dependence; methadone; heroin addicts; pharmacology; maintenance therapy, 32765

care processes; office based treatment; opioid dependence; primary care; methadone maintenance, 26717

cocaine dependence; methadone; treatment; heroin dependence; opioid dependence; d-amphetamine; nisperidone, 26370

contingency management techniques; methadone maintenance; punctual counseling attendance; fixed rate of reinforcement; variable rate of reinforcement, 11933

disulfiram; methadone treatment; cocaine dependence; cost-effectiveness analysis; methadone-maintained opioid addicts; treatment effectiveness; economic evaluation; double blind clinical trial, 20640

drug testing; methadone maintenance treatment; substance abuse treatment; urine screening patterns; drug use simulation, 11901

drug treatment program; injection drug users; human capital; institutional disaffiliation; residential treatment; detoxification programs; methadone maintenance programs, 5693

drug treatment; smoking; methadone; drug use, 2511

heroin addicts; methadone maintenance treatment; quality of life; patient characteristics; educational level; HIV status; cocaine use; sexual risk behaviors; gender differences, 35885

heroin dependence treatment; naltrexone; methadone; buprenorphine; drug efficacy, 35859

heroin dependence; methadone injection; hypoxia; bradycardia; maintenance treatment; IV opioid treatment; safety, 2523

illicit drug supply reduction; health outcomes; social outcomes; heroin shortage; health-related health indicators; methadone treatment programmes; property crime; heroin overdoses, 28877

intimate partner violence; drug treatment programs; methadone maintenance; marijuana; cocaine; heroin; sociodemographic variables, 26716

methadone dose; methadone injecting patients; intravenous methadone use; methadone maintenance treatment, 11906

methadone maintenance; cost effectiveness analysis; treatment; opioid dependence; buprenorphine, 11771

methadone maintenance treatment; treatment cessation; withdrawal symptoms; buprenorphine; opioid dependence; treatment reduction & cessation, 8851

methadone maintenance programs; HIV risk; injection drug users; drug risk; sex risk, 20623

methadone maintenance treatment programs; heart; brain; cardiac toxicity; buprenorphine maintenance, 11943

methadone maintenance treatment; early treatment outcomes; illicit drug use; social reintegration; patient-centered care, 11898

methadone maintenance treatment; long term effectiveness; psychosocial variables; pharmacological variables; heroin-dependent patients, 2502

methadone maintenance treatment; opioid dependent patients; prescription opioid abuse, 29773

methadone maintenance treatment; teratogenic issues; prenatal issues; neonatal issues; treatment outcome; pregnancy; heroin addicted women, 29778

methadone maintenance; cocaine use; heroin; stress induced relapse; poly drug use; opiates; rats, 27912

opiate substitution treatment; OST; minimal services treatment; MS patients; substitution treatment; program evaluation; illicit drug use; abstinence, 2497

opiate therapy; chronic pain management; opiate abuse; opiate addiction; pain patients; patient addiction; methadone maintenance programs; drug abuse, 11016

pharmacological interactions; cancer patient; methadone maintenance; bronchioalveolar lung carcinoma; chemotherapy resistance, 29782

psychotropic drugs; methadone maintenance treatment; QT interval prolongation; drug dosages; drug interactions; arrhythmia, 32799

quality of life; oral methadone; buprenorphine; opioid dependent patients, 17431

sleep disturbance; methadone maintained patients; sleep quality; medical risk factors; psychological risk; depressive symptoms; demographics; nicotine dependence; anxiety symptoms; mental health, 20662

supplemental service utilization; methadone maintenance treatment program; sociodemographic factors; sociodemographic differences; male methadone maintenance; additional services; minorities; opioids, 20666
 treatment attendance; methadone maintenance clients; treatment effectiveness; economic barriers; willingness to pay; personal costs; time, 20626
 treatment outcome; methadone maintenance; drug dependency; substance abuse; patient characteristics, 35872
 treatment process components; pre-treatment motivation; frequency & content of counseling services; program perceptions; methadone dose; heroin use outcomes; methadone treatment, 8858
 urine testing; methadone maintenance treatment; testing schedules, 8857
 urine testing; methadone maintenance treatment; testing schedules, 8872
 urine testing; methadone maintenance treatment; testing schedules; criminal justice clients; substance abuse disorders, 8861
 urine testing; methadone maintenance treatment; testing schedules, 8854
 urine testing; methadone maintenance treatment; testing schedules, 8855

Methamphetamine—Serials

abstinent methamphetamine abusers; relapse effect; cognition; memory, 31953
 anxiogenic drugs; yohimbine; methamphetamine seeking; rats; drug relapse, 24850
 bupropion; amphetamine; apomorphine; methamphetamine; nicotine; self-administration; rats, 10035
 chronic methamphetamine; fighting; aggressiveness, 13080
 dopamine transporter; polymorphism; methamphetamine abusers; amphetamine; dopamine release; dopamine neurotoxicity; dopamine level; brain, 19677
 ecstasy; MDMA; methamphetamine; combined use; social interaction; locomotor activity; drug dosages; long-term effects; brain regions; anxiety behavior; ambient temperature; neurotoxic effects, 24796
 escalating doses; drug dosage escalation; methamphetamine; neurotoxicity; behavior; neurochemistry; high dose binge; rats; animal model of drug abuse, 780
 gender differences; treatment characteristics; treatment strategies; financial problems; violent behavior; treatment system; work problems, 10970
 hepatitis C; white matter; N-acetylaspartate; methamphetamine dependency; choline; myo-Inositol; creatine; phosphocreatine; neuronal injury; comorbidity, 10682
 lobeine: conditioned taste avoidance; rats; drug dosages; methamphetamine, 24814
 methamphetamine abstinence syndrome; mood; depression; anhedonia; irritability; concentration; drug dependency, 31942
 methamphetamine dependence; brain function; disorders; abstinence; EEG abnormalities, 4734
 methamphetamine effects; quantitative analyses; self-control choices; behavioral mechanisms; stimulant drugs; self-control procedure; reinforcement amount; reinforcement delay, 24839
 methamphetamine use; women; community social work; social work practice; ethnographic methods; education; research; prevention, 8010
 methamphetamine; amphetamine; working memory; tolerance; extinction; rats, 3975
 methamphetamine; blood pressure; anxiety; heart rate; stress; distress; rats; humans, 3980
 methamphetamine; body temperature; motor activity; peripheral immune challenge; mice; neurotoxicity; lipopolysaccharide; acute doses; behavioral effects; endotoxemia; lipopolysaccharide, 13074
 methamphetamine; drug abuse; pre-morbid characteristics; comorbidity; psychosis; psychotic symptoms; amphetamine users, 8003
 methamphetamine; simulated night-shift work; psychomotor performance; mood; sleepiness, 9999
 neighborhood environment; Methamphetamine; Marijuana; illegal drug use; drug trafficking; high school students; epidemiology; social capital, 1696
 neuronal cell death; methamphetamine; brain-derived neurotrophic factor; neuropsychiatric damage, 10022
 neuropsychological impairment; methamphetamine dependence; HIV infection; comorbidity, 10671
 oxazepam; methamphetamine; conditioned place preference; rats, 24809
 persistent depressive symptoms; methamphetamine abusers; fluvoxamine; antidepressant; abstinent methamphetamine abusers; mania, 23629
 personality profile; methamphetamine abusers; novelty seeking; harm avoidance; self-transcendence; persistence; self-directedness; cooperativeness, 31931
 physical abuse; sexual abuse; violence; patient history; methamphetamine dependence; drug treatment; gender differences; treatment response; psychiatric problems; psychological problems; retention, 8853

prevalence; methamphetamine abuse; Hawaii; drug usage; pregnant women, 10978
 pseudoginsenoside-F; saponin; ginseng; protective effects; methamphetamine-induced neurotoxicity; anxiety-like behavior; memory impairment; dopamine; mice, 799
 psychostimulant treatment; neurochemical responses; dopamine terminals; substance P; cholecystokinin; methamphetamine; striatum; cocaine; striatum; drug abuse; neuropeptides, 15769
 raclopride; dopamine release; monkeys; methamphetamine; D2 receptors; presynaptic integrity; receptor affinity, 6796
 sex differences; methamphetamine self-administration; rats; intravenous drug usage; methamphetamine maintenance, 21904
 sexual risk behavior; heterosexual methamphetamine users; HIV-negative, 26511
 stress reactivity; noradrenergic hyperactivity; dopaminergic changes; flashback; females; methamphetamine psychosis; women's prison, 1670
Methamphetamine—Books
 Methamphetamine use: Clinical and forensic aspects, 4747
Methanol—Serials
 methanol; folic acid deficiency; rats; hepatocytes; vitamin E, 7170
Methionine—Serials
 Alzheimer disease; methionine synthase; risk factor; metabolic pathways; plasma levels; enzymatic alterations; pathogenesis; methionine synthase allele, 8215
 ethanol dependence; methionine enkephalin antisense; serum endomorphin; ethanol ingestion; methionine enkephalin levels; opiate peptides; mice, 30959
 Parkinson's disease; methylation; prenylcysteine analogs; S-adenosylmethionine; movement deficits; tremor; prenylation; animal model; rats; biochemistry, 7219
 S-adenosyl-L-methionine; magnetic resonance spectroscopy; brain transverse relaxation; brain bioenergetics; relaxation time; phosphocreatine; beta nucleoside triphosphate, 783
Methodists [See Protestants]
Methodology [See Also Causal Analysis, Cohort Analysis, Content Analysis, Data Collection, Empirical Methods, Grounded Theory, Meta Analysis, Qualitative Research, Quantitative Methods, Self Report]—Serials
 action research; emancipatory design choices; empowerment, 6451
 altered state of consciousness; extrasensory perception; psi; ESP; ganzfeld technique; methodological artifacts; experiments; replication; randomization; sensory leakage; statistical errors, 6639
 alternative methods; data interpretation, 251
 anxiety; depression; measurement; methodology, 279
 aromatherapy; cancer; research methodology; palliative care; psychological distress; cancer; aromatherapy massage, 15161
 art therapy educators; teaching research; research methods; research training, 32911
 Bayesian methods; Bayesian modeling; psychometric data structures, 24333
 Behavior Assessment System for Children; BASC; reliability reporting; behavioral ratings reliability; emotional disorders; culturally diverse students, 6376
 bipolar depression; methodology; tricyclic antidepressants; lamotrigine; placebo-controlled acute trials; paroxetine, 20279
 bipolar depression; methodology; tricyclic antidepressants; lamotrigine; placebo-controlled acute trials; paroxetine, 20296
 bipolar depression; methodology; tricyclic antidepressants; lamotrigine; placebo-controlled acute trials; paroxetine, 5321
 bipolar disorder; mood stabilizers; lithium; mania; valproate; lamotrigine; anticonvulsants; antipsychotics; antidepressants; methodology; side effects, 5283
 birth preparedness; safe motherhood programs; program evaluation; behavior change interventions; pregnant women; methodological issues; measurement, 30570
 block designs; semantic judgment; word frequency effect; brain regions; language; event-related fMRI, 3767
 bookmark difficulty location; item response models, 9502
 brain regions; optimization procedure; experimental stimuli; research directions; visual presentation; experimental tasks; functional magnetic resonance imaging; reproducibility maps; inference, 591
 breathing training; panic disorder; efficacy; hyperventilation; respiration rate; methodological problems; therapy outcomes; hypoxemia; panic disorder development; tidal volume; blood gases, 2257
 cardiovascular reactivity; left ventricular mass; blood pressure reactivity; cardiovascular reactivity; ventricular hypertrophy; methodology; mortality; stress, 9554
 career development readings; words; images; metaphor; consciousness; non-linear representation; metaphorisation; methodological possibilities, 27032

career development; emotions; career management; emotional labour; constructivist approach; positivist paradigms; constructionist approach; methodological issues, 27031
 caregiving conceptualization; caregiving effects; family caregiver; caregiver burden; caregiver appraisal; caregiver research, 9538
 category norms; ad hoc categories; normative data; latencies; generational stability; Battig and Montague norms, 18233
 child abuse; sexual abuse; attributions of culpability; methodological influences; victimization; closed-probe questions; consensual activity; language; university students; general population, 18212
 children television show; Mister Rogers Neighborhood; Fred Rogers; everyday experience, 24897
 clinical significance; statistical method; routine clinical practice; patient functioning; treatment effects; treatment outcomes, 14033
 cochrane systematic review; evidence-based research; research process; meta analysis; data processing; technique validity, 33635
 Cognitive Aspects of Survey Methodology; quality of life assessment; self-report; cross-cultural similarities; cross cultural differences, 21242
 cognitive behavioural treatment manuals; Delphi study; consensus; factors, 26277
 cognitive changes; aging; methods; research design; research participants, 33819
 cognitive screening instruments; ischemic vascular dementia; mild cognitive impairment; dementia detection; dementia diagnosis; dementia management; pharmacotherapy, 11221
 cognitive status; binary outcomes; models; generalized estimating equations; logistic regression models; methods, 3278
 collaborative research; mental health service users; caregivers; researchers; outreach service; service evaluation, 24337
 computer mediated communication; trust evaluation; human computer interaction; social dilemma; games, 9213
 conceptual framework; methodology; multidimensional psychosocial & behavioral interventions; family caregivers for people with Alzheimer's disease; Resources for Enhancing Alzheimer's Caregiver Health, 2456
 concordance; test scores; linking assessments, 72386
 conventional narrative research; children with HIV; narratives; poststructural theory, 33623
 coping behavior; coping style; coping reports; report method; method concordance; daily report; time-limited retrospective report; global report, 9557
 cortisol circadian rhythm; infancy; diurnal rhythm; appearance age; analysis method, 7354
 counselor education; survey research; methodology, 6435
 cross cultural differences; emotions; experience sampling methodology; global self-report; retrospective methodology; memory for emotions, 22365
 cultural bias; diagnosis; schizophrenia; African Americans; racial differences; clinician bias; cultural bias; test validity; test reliability; psychometrics, 21163
 data analysis methods; measures of central tendency; t test; analysis of variance; statistical power, 6420
 data collection process; researcher experiences; sensitive data, 15151
 David's score; Clutton-Brock et al's index; animal dominance; ranking methods; social groups; dominance hierarchy; interaction success, 495
 development of evidence-based practices; specific; treatment options; methodology; empirically validated treatments, 26216
 diffusion methodology; diffusion of innovations, 27424
 educational research; methodologies; educational psychology; qualitative case studies; special needs education, 33006
 educational research; methodologies; locus of control; achievement motivation; educational psychology; surveys; multimethod approaches; special education; self report questionnaires, 33002
 educational research; methodology; developmental research; conversations; children's perspective; adult child interaction; peer interaction, 33001
 educational research; methodology; special needs education, 33186
 electroencephalographic signals; psychopathology; data processing; emotion; motivation, 34085
 emotion; nursing; Balint seminar training; methodology; psychosocial nursing; theory, 29857
 emotional disorders; behavior disorders; behavior problems; early intervention; research methodology; at risk children, 8370
 environmental attitudes; environmental values; International Social Survey Programme; ISSP; German internet users; web-based survey; traditional written self-administered survey, 9522

- epidemiological research; nonresponse; missing data; methodology; attrition; imputation techniques, 27400
- epilepsy; simultaneous EEG-fMRI; metabolic response; epileptic patients; neuronal activity; epileptic spikes; magnetic field; ballistocardiogram; methods artifacts; contamination; magnetic gradients, 4969
- evaluation; technology; technology based training; technology based education; distance education; educational quality; evaluation; design integration strategies; military training; methodology, 6143
- exemplar action research model; social problems; social science theory; emancipation; empowerment; methodology; researcher subject relationship; reciprocal adequacy; explicitness, 6429
- exemplar action research; individual approach; demand driven approach; research projects; labor market, 6464
- experience sampling methodology; statistical analysis; brief history; ESM data; happiness, 3289
- eye movements; reading; methodology; experimentation; theory, 12661
- eyewitness memory; susceptibility; misinformation; real-life events; video events; age differences; children; free recall, 22045
- family history method; first-degree relatives; diagnosing schizophrenia; schizophrenia spectrum personality; schizophrenia-related psychoses, 25629
- family therapy; methodology; mental disorders; psychotherapeutic techniques; diagnostic labeling, 26301
- family; consumer sciences; consumer research; research methods, 24354
- feeling states; affect structure; phenomenology; scale development; exercise; Exercise-induced Feeling Inventory, 21085
- figure presentation method; figure rating scales; body image assessment; body sizes, 9531
- fitness training; depressed patients; exercise effect; intra-individual methodology, 23323
- focus groups; Chinese immigrants; immigrant families; cultural relevancy; instrument development; validity; focus group methodology; involvement of community members, 12477
- focus-window tracking technique; information acquisition; visual attention; blur filter calibration; information filter; search behavior, 30560
- functional analysis methodology; problematic verbal behavior; acquired brain injury, 22925
- genes; male mice; aggressive behavior; methodology; research, 3284
- group level HIV intervention; quality of study methods; individual level HIV intervention, 35673
- group management; organization management; methodology, 5970
- habitation; infant development; methodology; model-based nonlinear regression framework; individual differences, 15138
- Harvard Pigeon Lab; B. F. Skinner; R. J. Herrnstein; graduate students; history; methods, 12434
- health status; end-stage liver disease; health-related quality of life; health-status questionnaires; utility assessment techniques, 26024
- health-related quality of life; healthy participants; QOL; health discourse; assessment; Q methodology, 9468
- helping others; action research; emancipation; knowledge system participation, 6431
- Hershel & Ellen Thornburg; improved communication; policy makers; practitioners; adolescent research; research priorities; research questions; scientific rigor; areas of progress, 12006
- home dream ESP research; Maimonides research program; methodology; dream mentation; sleep-laboratory-based research, 6641
- human resource development; theoretical research; theory; theory building, 30149
- illness; drawing; research method; illness conditions; visual method, 33628
- incremental validity; validity research; psychological testing; clinical issues; testing; assessment; method, 6298
- inductive validity; concept advancement; trust; researchers; qualitative methods; data collection, 6440
- infatuation induction; infatuated love; simulated video interaction technique, 289
- intimate partner violence; public health surveillance; terminology; transnational research; victimization; methodology; definitional issues, 30566
- item response model; pathological science; psychological measurement; psychometrics; quantification; quantitative psychology; pathology of science, 18221
- item response theory; empiricism; quantitative psychology; psychometrics; pathology of science, 18209
- Kanadier Mennonites; Anabaptist religious groups; methodological challenges; cross-cultural research; lifestyle, 27416
- language tests; test translation; differential item functioning; DIF, 21101
- latent class analysis; statistical packages; grouping methods; binary data, 18207
- logicomathematic structural methodology; contemporary psychology; semantic information; experimental methods; cognitive processes; experimental design; cognitive science; epistemological issues, 18061
- logicomathematic structural methodology; theoretical implications; unconscious cognition; consistent set; mathematics; structural methodology; language; verbal narratives, 18062
- loneliness; seniors; methodology; findings, 31277
- longitudinal studies; methodology; Collaborative Longitudinal Personality Disorders Study; Collaborative Depression Study; Harvard/Brown Anxiety Research Program; remission; recovery, 4574
- marginal predation; methodologies; predator preferences; at-risk populations; measurement; differential risk; animal groups; terminology; spatial positions; ingroup out-group; predator biases, 515
- marriage narrative; courtship; conversation analysis methods; ethnomethodological analysis; narrative analytic research; identity work, 31020
- maximin calibration designs; nominal response model; item response theory, 9516
- measurement; developed competence; verbal comprehension; analytic-descriptive approach; theoretical issues; synthetic reflective approach; consciousness; verbal communication, 13220
- mediational models; longitudinal data; structuring equation modeling; methodology, 6394
- mental health nursing methodology; quantitative vs qualitative research; survey method, 5753
- mental health services; adolescent attitudes; child attitudes; consultation research; ethical issues; methodological issues, 24339
- methodological guidelines; spirituality; children; adolescents; children's experience, 9537
- methodological implications; Gadamer's notion of statements; statements; speculative language; phenomenological research; phenomenological methods; conversational approach; reflexivity, 27432
- methodological problems; psychotherapy research; models; intrapsychic change, 23134
- methodological problems; psychotherapy research; models; intrapsychic change, 23139
- methodological problems; psychotherapy research; models; intrapsychic change, 23150
- mismatch negativity measurement; event-related potential; alternative baseline measure, 15677
- mixed methods; mixed methodology; health services, 33632
- mobile phone use; questionnaire; development; validity; methodology; real-time measures; Interactive Voice Response; technology; airline; habitual behavior, 15882
- mood measurement; complex behavior measurement; pediatric affective disorders; natural environment; ecological momentary assessment; theoretical background; wrist actigraphy; case reports; pilot study, 1407
- Multisite Violence Prevention Project; universal intervention; targeted intervention; sixth-grade students; teachers; parents, 17638
- multitrait-multimethod approach; personality research; Donald Winslow Fiske (1916-2003), 5734
- National Depressive & Manic-Depressive Association; consensus statement; placebo; clinical trials; mood disorders, 18217
- networked management learning; networked learning; management education; learning literature; 1999-2002; education research approaches, 33259
- neural system; lesion analysis; functional contribution analysis; FCA; neurocontroller networks, 15147
- noninvasive methods; hormone production; endocrine data; behavioral studies; data validation; saliva; sweat; hair, 15148
- occupational health problems; clinical decisions; evidence based approach; patient preferences, 14224
- occupational health; evidence-based medicine; occupational medicine; systematic reviews; search strategies; intuition; narrative evidence; clinical skills, 14221
- online polls; result accuracy; traditional polling methods; political polls, 27254
- outcome changes; latent growth model; standard errors; mean changes; delta method; bootstrapping, 24335
- participatory action research; young people; health services, 6426
- pathological bias; intrusive ideation; aversive arousal; relationship-damaging behaviors; clinical utility; bias; reliable methodology; valid methodology; psychotherapy research; public health, 27407
- PC software; PACT; Product Attribute Characterization Technique; telecommunications; Consumer Price Index; informant judgments; attribute inference; multidimensional scaling, 9558
- person-organization fit; organizational commitment; value congruence; job satisfaction; effect sizes, 9109
- phenomenological analysis; phenomenological research; narrative data; thematic moment analysis, 27411
- physical education; doctoral dissertations; teaching; research focus; research methods; analysis, 23828
- picture-story test; cross-cultural research; Thematic Apperception Test; picture cues; methodological considerations; implicit motives data; item bias, 12554
- play fighting; real fighting; developmental changes; video playback; methodology; fight characteristics; motivation, 18977
- polynomial data; multilevel logistic regression; rankings; coefficient structures; estimation; prediction; model framework; elections, 15158
- poor construct conceptualization; research validity; construct validity; statistical conclusion validity; internal validity; external validity, 7290
- prevalence; incidence; eating disorders; epidemiology; anorexia nervosa; bulimia; binge eating disorder; trends; methodologic problems, 4803
- prior beliefs; methodological concepts; scientific reasoning; college students, 18326
- professional learning; cultural historical activity theory; methodology; social inclusion; social isolation, 32999
- projective error; projection measures; item type; methodological validity, 15152
- psychological research; underpowered studies; statistical power; multiple hypothesis testing; effect size measures; confidence intervals; Type I error rates, 18219
- psychology; phenomenology; methodology; meaning, 9329
- psychophysics; physiology; noisy linear observers; bubbles method; signal processing system; reverse correlation, 27442
- psychophysics; physiology; noisy linear observers; bubbles method; signal processing system; reverse correlation, 27439
- psychophysics; physiology; noisy linear observers; bubbles method; signal processing system; reverse correlation, 27443
- psychosocial effects; political problems; emergency housing; shelterization; homeless; psychosocial impact; resident behavior; methodology; researchers; theory; institutional studies, 1056
- psychosomatic medicine; Statistical Corner; statistical methods; psychosomatic research, 16356
- psychotherapy; bulimia nervosa; research design; research methods, 27404
- public health; classification and regression tree analysis; methodology; health-related behavior; segmentation strategies; at risk populations; logistic regression; decision making, 9540
- Q methodology; student affairs; social science; behavioral science, 30572
- qualitative method; animals; animal experiences; social construction; humanism; humanistic psychology, 9550
- qualitative research; cross-cultural context; research design, 15153
- qualitative research; research process; research strategy; reflexivity; self reflection; family stories, 21243
- quantitative polymerase chain reaction; postmortem brain studies; gene expression; ribonucleic acid; microarrays; microarray results quantification, 15464
- questionnaire development; questionnaire administration; right questionnaires, 30554
- Random Image Structure Evolution; high-level visual perception; perceptual hysteresis; priming; neural substrates; object perception; agnosia; object recognition, 21290
- Rasch model estimation; Rasch estimation methods; chi-square methods; Marginal Maximum Likelihood Estimation, 27397
- recruitment methods; breast cancer patients; survivors; home based physical activity intervention; psychosocial interventions, 35767
- reflexivity; catharsis; methodological tools; qualitative research, 15156
- reflexivity; qualitative research; phenomenology; hermeneutics; methodology, 9560
- reliability; group mean difference score; methodology, 6391
- research methodology; attention deficit/hyperactivity disorder; assessment instruments; nonrandom assignment; statistical analysis; research literature, 24349
- research methods; academic sector; non-academic market research community, 29969
- research practice; working with children; research process difficulties; hard to reach children, 24340
- research protocols; adherence; behavioral interventions; research; methodology; research participants, 281
- research; networked management learning; networked learning; management education; quantitative approaches; technology mediated learning; communication technology, 33250
- revised methodology; metacognitive monitoring; metamemory; judgments of learning; pre-judgment recall and monitoring; data collection; data analysis, 15330

Volume 91 SUBJECT INDEX

Methodology—Serials

risk assessment; sexual offenders; recidivism; sexual offense; methodological issues; measuring predictive accuracy; risk factor, 33468

road safety; policy; strategies; qualitative assessment methodology; cluster analysis; autoregression analysis, 30290

sensation threshold; psychophysical stimulus; method of limits; MLE; method of levels; MLE; thermal stimulus; nerve fiber function; thermal thresholds tests; reaction-time; warm & cold sensation, 3161

sequential models; data driven approach; theory based approach; data-driven interpretations; behavior, 33636

serious mental illness; methodological barriers; collaboration; illness pathways; schizophrenia; risk factors; vulnerability; models; prodromal research, 19452

sexual behavior assessment; sexual risk behavior; self report accuracy; computer assisted assessment; methodological issues, 286

sexual offenders; triangulation research; sexual offending; quality criteria; qualitative methodology; quantitative methodology; multiple assessment, 33648

sexual risk behavior; research methodology; item content; scaling; data analysis; frequency measures; count data; relative frequency measures; HIV risk behavior; score covariance, 285

single word reading; functional neuroanatomy; functional neuroimaging; methodological considerations; reading development; reading education; impaired reading, 27512

situation-behavior profiles; individual differences; anger; personality triad; methodology, 31618

social loss; fMRI study; methodology; implications, 610

social science research; ethical issues; web-based questionnaires, 21235

social trauma; conflict research; ethical issues; methodological issues; society conflict; genocide perpetrator; war, 6427

special educational needs; methodologies; learners, 33195

spiritual & religious factors; religiousness; epidemiological evidence; predictive relationship; health; morbidity & mortality; methodological issues, 11612

statistical methods; single-case studies; neuropsychology; regression line slope; patient performance; neuropsychological tests, 27333

stimulus control topography coherence; stimulus properties; reinforcement contingency; discrimination learning outcomes; methodology, 6610

stroke rehabilitation; methodological quality; randomized control trials; drug treatments, 17427

stroke rehabilitation; methodology; internal validity, 17411

supervised neural networks; stored information; information update; neural tests, 14890

survey instruments; cognitive methods; theories; cognitive testing; survey instrument development; survey questionnaires, 21231

survey measurement; survey errors; cognitive aspects; statistical model; survey methodology; social scientific model, 12569

therapeutic interventions; stroke rehabilitation; stroke medication; methodology, 17416

traffic stop encounters; racial profiling; traffic police; decision making; methodological issues; research, 36551

traumatic events; dissociative reactions; peritraumatic dissociation; risk factors; post-traumatic stress disorder; PTSD; experimentation; methodology; retrospective reports, 10818

treatment fidelity; behavioral intervention; intervention research; health behavior change; methodological strategies; reliability; validity, 33634

treatment fidelity; behavioral intervention; intervention research; health behavior change; methodological strategies; reliability; validity, 33622

treatment models; intervention research; research design; psychotic prodrome; early intervention; subschizophrenic symptoms; treatment models; methodology; schizophrenia, 18215

treatment outcomes; statistical relationships; behavioral treatment; single subject design; effect size, 12547

union commitment measurement; methodological challenges; methodological problems; commitment scores; measurement invariance; invariance tests; statistical independence assumption, 30551

utilization management; community-based supportive residential programs; people with behavioral disorders; methodological difficulties, 32728

variance components modeling; quantitative trait loci; genetic linkage analysis; environmental covariates; covariate adjustment, 27708

variance components; quantitative trait locus; genetic linkage; behavior genetics, 27697

war; violence; theoretical models; research models, 33631

web surveys; e-mail addresses; mixed mode web/mail strategy; web responses; mail responses, 9548

winorization; variance components; quantitative traits loci; phenotypes; linkage analysis; statistical power; type I error, 27706

youth care; participative research; participative care practice; action research; social services, 8760

Methodology [See Also Causal Analysis, Cohort Analysis, Content Analysis, Data Collection, Empirical Methods, Grounded Theory, Meta Analysis, Qualitative Research, Quantitative Methods, Self Report]—Books

Reframing public policy: Discursive politics and deliberative practices, 4195

Methodology [See Also Causal Analysis, Cohort Analysis, Content Analysis, Data Collection, Empirical Methods, Grounded Theory, Meta Analysis, Qualitative Research, Quantitative Methods, Self Report]—Chapters

Assessment of children's behavior in the school setting: An overview, 3237

Christian ethics and psychological research, 17567

ESP in the Ganzfeld: Analysis of a debate, 9739

Investigating professional issues in clinical psychology [with vignette by Anne K. Jacobs], 15169

Methodological concerns in puberty-related research, 10160

Methodology of combining the WISC-III data sets, 15023

The missing subject of mind: Toward an inner reformation of cognitive science, 15314

Morphometrics for callosal shape studies, 15609

Nature read in truth and flaw: Locating alternatives in evolutionary psychology, 21073

Nonverbal assessment of personality and psychopathology, 133

Perceptual grouping in space and in space-time: An exercise in phenomenological psychophysics, 15234

The prevention of anxiety and depression: Introduction, 8394

Sapphic shadows: Challenging the silence in the study of sexuality, 4282

Stage theories of health behavior: Conceptual and methodological issues, 17282

Summary grid of reviewed measures, 3241

Value choices and methodological issues in research with women, 15165

Ways of knowing in psychological science, 15172

We ask, does psi exist? But is this the right question and do we really want an answer anyway?, 9740

Methoxyhydroxyphenylglycol (3,4)—Serials

antidepressant treatment, 3-methoxy-4-hydroxyphenylglycol; plasma level; noradrenergic neurons; central noradrenergic activity; depression; psychomotor retardation, 35583

Methyl Alcohol [See Methanol]

Methylatropine [See Atropine]

Methylenedioxymethamphetamine—Serials

3,4-methylenedioxymethamphetamine; MDMA; ecstasy; progressive ratio schedule; response rates; water delivery; rats, 740

acute exposure; brain areas; pathological changes; cerebral blood flow; glucose utilization; cerebral metabolic demand; dark agouti rats; autoradiographic techniques, 24842

adolescent ecstasy users; MDMA; cognitive deficits; divided attention; brain function; hippocampal dysfunction; developmental impact; 3,4-Methylenedioxymethamphetamine; neurotoxic effects, 25884

angry cognitive bias; trait aggression; impulsivity; substance users; anger; aggression; triptophan; Methylenedioxymethamphetamine, 16500

cognitive impairment; cognitive functioning; neurotoxins; MDMA; drug use patterns, 19663

dietary selenium; dopamine; serotonin; neurotoxicity; MDMA; methylenedioxymethamphetamine; mice; rats; 5-hydroxytryptamine; neurons, 13070

dopaminergic systems; ecstasy users; MDMA; ecstasy information; 3,4-methylenedioxymethamphetamine; mass media; toxic effect; animal research; human research; mood; pain tolerance; driving, 25878

drug intensity; Ecstasy; polydrug usage; experienced recreational Ecstasy; methylenedioxymethamphetamine, 25906

drug use patterns; gender; memory ability; self report; ecstasy users, 13752

ecstasy drug; drug response; rats; anxiety levels; high anxiety; low anxiety, 15756

Ecstasy fatalities; deaths; epidemiology; pharmacology; toxic responses; MDMA dosage; methodology issues; psychoactive effects; ecstasy users, 25905

ecstasy usage; cognitive changes; attention tests; memory; long-term cannabis users; impaired memory; story recall; recreational MDMA users, 25872

ecstasy use; drug use; cannabis users; traditional hard drugs; socio-economic characteristic; Norwegian youth, 31944

Methylenedioxymethamphetamine—Serials

ecstasy use; drug use; South African Community; prevalence; consequences; health risks, 20517

ecstasy users; 3,4-methylenedioxymethamphetamine; drug dependency; plasma; adrenocorticotrophic hormone; cortisol; growth hormone, 1651

ecstasy users; abstinence; plasticity; acoustic startle reflex; prepulse inhibition; habituation; sensitization; recreational drugs; serotonin systems; 3,4-Methylenedioxymethamphetamine, 25881

ecstasy users; MDMA; human aggression; interpretative bias; cognitive bias; ambiguous information; depression scores; mood change; residual effects, 25871

ecstasy users; MDMA; long-term abstinence; short-term effects; depressed mood; mood disorders; serotonin transporter; clinical depression; doses; gender; neuroimaging; neurotoxicity; prevalence, 25507

ecstasy; chronic users; cognition; mood; serotonergic system; verbal learning; delayed recall; word recall; cognitive tests; working memory; attention; 3,4-methylenedioxymethamphetamine, 25895

ecstasy; club drug use prevention intervention; rave attendees; club attendees; MDMA; high risk, 31965

ecstasy; ecstasy tablet content; MDMA tablets; dosage levels; purity perceptions; biochemical evidence; historical origins; empirical reports; epidemiology; 3,4-methylenedioxymethamphetamine, 25900

ecstasy; guinea pigs; MDMA; neurotoxicity; selective serotonin; neurotoxic effect; striatal dopamine; dopamine neurons; hyperthermic response; 3,4-methylenedioxymethamphetamine, 24845

ecstasy; learning impairment; NMDA receptor; acute MDMA treatment; passive avoidance retention; memory consolidation; protein phosphatase; serotonin; rat hippocampus, 24835

ecstasy; MDMA use; cognitive performance; polydrug use; driving performance; driving simulator; vehicle control; accident involvement; driving behavior; heart rate; 3,4-methylenedioxymethamphetamine, 25864

ecstasy; MDMA; dopamine antagonist; serotonin; discriminative stimulus effects; response rate; basal locomotor activity; antagonist eticlopride; rats; dose-related administration; hypermotivity, 24790

ecstasy; MDMA; dopaminergic neurotoxicity; stress; hypothermia; striatal glutamate receptor antagonist; corticosterone treatment; brain concentrations; cold stress; 3,4-methylenedioxymethamphetamine, 24817

ecstasy; MDMA; locomotor activity; dopamine transporter gene; locomotor patterns; serotonin uptake inhibitors; phenotype; pharmacological treatments; mice, 24841

ecstasy; MDMA; long-term consequences; mental health; depression; subjective effects, 1669

ecstasy; MDMA; long-term effects; behavioural changes; cerebral dopamine; dopamine system; acute effects; biochemistry; dopamine neurotoxin; 3,4-methylenedioxymethamphetamine, 25869

ecstasy; MDMA; MDA; polydrug abuse; drug-related deaths; epidemiology, 1666

ecstasy; MDMA; methamphetamine; combined use; social interaction; locomotor activity; drug dosages; long-term effects; brain regions; anxiety behavior; ambient temperature; neurotoxic effects, 24796

ecstasy; MDMA; motor activity; drug-naïve rats; acute effects; paroxetine binding; sleep; single dose exposure; circadian patterns; cerebral glucose utilization; previously exposed rats, 24781

ecstasy; MDMA; mRNA expression; serotonergic nerve terminals; serotonergic mechanism; hyperthermic response; rat brains; doses; 3,4-Methylenedioxymethamphetamine; neurotoxicity; 5-hydroxytryptamine, 24787

ecstasy; MDMA; neuronal inclusions; morphological changes; striatal cells; nigral cells; DNA damage; heat shock protein; 3,4-Methylenedioxymethamphetamine; mice, 24805

ecstasy; MDMA; recreational users; nociceptive responses; polydrug users; mood; brain serotonin; pain tolerance; pain sensitivity; 3,4-methylenedioxymethamphetamine, 25898

ecstasy; MDMA; serotonergic neurons; rats; binge ingestion; rectal temperature; room temperature; repeated doses; hyperthermia; neurotoxicity; thermoregulation; 3,4-Methylenedioxymethamphetamine, 24811

ecstasy; nantennine alkaloid; MDMA; physiological effects; hyperthermia; lethality; locomotor stimulation; selective antagonist; antileptanin; prozincin; core temperature; mice; behavioral effects, 24801

ecstasy; pharmacological & subjective effects; pharmacokinetics; repeated dose administration; psychomotor performance; endocrine response; physiological effects; 3,4-Methylenedioxymethamphetamine, 24802

ecstasy; reasons for quitting; lasting adverse effects; mental health; ex-users, 13758

ecstasy; single dose; cognition; psychomotor performance; driving-related task performance; recreational ecstasy users, 13027

Volume 91 SUBJECT INDEX

Methylenedioxyamphetamine—Serials

human liver microsomes; peripheral metabolism; neurotoxic metabolite; alpha-methyldopamine; in vitro formation; glutathione regioisomers; methylenedioxyamphetamine; methylenedioxyamphetamine. 12989
illicit drug epidemiology; global anthropology; ethnographic epidemiology; policymakers, 16497
liquid ecstasy; drug abuse; gamma-hydroxybutyrate; drug abuse; side effects, 28872
loneliness; adolescents; young adults; Ecstasy; MDMA; coping strategies; drug use; Ecstasy drug users; non-Ecstasy drug users; non-drug users; gender differences; methylenedioxyamphetamine. 16506
MDMA users; ecstasy; self-report depression; affective disturbance; depressed patients; illicit substances; serotonin system; poly-drug use; 3,4-Methylenedioxyamphetamine. 25903
MDMA, aggression, anxiety, mice, 12726
MDMA; brainstem auditory evoked potentials; spatial working memory; tryptophan depletion; serotonin neurotransmission; rhesus monkeys; Ecstasy, 789
MDMA; ecstasy; self-administration; rats; cocaine; drug abuse, 10038
memory impairments; memory span; dual task condition; MDMA; ecstasy users; random letter generation; visuospatial processing; working memory; cannabis use, 25914
methylenedioxyamphetamine; behavioral effects; drugs of abuse; D-amphetamine; cocaine; ethanol; heroin; rats; ecstasy, 27944
methylenedioxyamphetamine; drug self-administration; hyperactivity; rats; dopamine; drug dosages, 27871
methylenedioxyamphetamine; Ecstasy experiences; adolescents, 19709
methylenedioxyamphetamine; ecstasy; social interaction; amygdala; amphetamine; anxiety; anxiogenic-like action; injections; gene expression; social investigation behaviors; avoidance/flee behavior, 13049
methylenedioxyamphetamine; MDMA; ecstasy; MDMA abuse; MDMA-induced neurotoxicity; animals; non-human primates; humans; developing fetus, 15772
methylenedioxyamphetamine; behavior; neurochemistry; enantiomers; rhesus monkeys; monkey, 27879
mitochondrial protein; body temperature; ecstasy; toxic effect; uncoupling protein-3; amphetamine-type stimulants; MDMA; drug side effects, 7232
neurotoxic; 3/4-Methylenedioxyamphetamine; MDMA; neurotransmitters; paroxetine; synaptosomal uptake; vesicular uptake; rats, 697
neurotoxicity; rats; single-photon emission computed tomography; methylenedioxyamphetamine; serotonin transporters; brain; SPECT; ecstasy; SERTs; MDMA, 30842
prepulse inhibition; habituation; acoustic startle response; cannabis users; methylenedioxyamphetamine; serotonin; serotonergic neurotoxicity, 25902
recreational use; ecstasy users; psychological complaints; obsessive-compulsive behaviour; self-reported psychopathology; psychopathological symptoms; cannabis use; 3,4-Methylenedioxyamphetamine, 25873
severe dopaminergic neurotoxicity; methylenedioxyamphetamine; ecstasy; recreational dose regimen; selective serotonin neurotoxin; nonhuman primates; squirrel monkeys; baboons; motor dysfunction, 13095
severe dopaminergic neurotoxicity; methylenedioxyamphetamine; ecstasy; recreational dose regimen; selective serotonin neurotoxin; nonhuman primates; squirrel monkeys; baboons; motor dysfunction, 13060
severe dopaminergic neurotoxicity; methylenedioxyamphetamine; ecstasy; recreational dose regimen; selective serotonin neurotoxin; nonhuman primates; squirrel monkeys; baboons; motor dysfunction, 13085
severe dopaminergic neurotoxicity; methylenedioxyamphetamine; ecstasy; recreational dose regimen; selective serotonin neurotoxin; nonhuman primates; squirrel monkeys; baboons; motor dysfunction, 771
social interaction; plus-maze behaviour; plasma corticosterone; elevated plus-maze; neuronal function; saline injection; receptor agonist; saline controls; young rats; open arms, 12980
social workers; methylenedioxyamphetamine; drug history; drug abuse prevention; treatment; ecstasy; MDMA, 23094
tryptophan; drug abstinence; MDMA; ecstasy; memory function; serotonin, 9971
verbal working memory deficits; methylenedioxyamphetamine; cognitive functioning; reading span; computation span, 29400
Methylmorphine [See Codeine]
Methylphenidate—Serials
adult ADHD; Concerta XL; methylphenidate; treatment, 32456

attention deficit hyperactivity disorder; behavioral pharmacology; behavioral treatment; methylphenidate; disruptive behavior, 1924
attention deficit hyperactivity disorder; drug side effects; methylphenidate; psychotropic drug use; drug-induced plasticity; behavioral effects; human brain development, 8510
attention deficit hyperactivity disorder; inhibition performance; reaction time; attention; L-dopa; desipramine; plasma; noradrenaline; dopamine; serotonin; methylphenidate; children, 4774
attention deficit hyperactivity disorder; methylphenidate; working memory; cognition; visuospatial, 14126
attention-deficit/hyperactivity disorder; methylphenidate treatment; therapeutic effects; adverse events; atomoxetine; methylphenidate, 20332
attention-deficit/hyperactivity disorder; methylphenidate treatment; therapeutic effects; adverse events; atomoxetine; methylphenidate, 20271
auditory selective attention; methylphenidate; attention deficit hyperactivity disorder; ADHD; processing negativity; event related potential; impaired frontal functioning; children, 20343
automobile driving; drug effects; attention deficit hyperactivity disorder; delivery profiles; methylphenidate, 14137
behavioral effects; early developmental exposure; methylphenidate; cocaine; rats; drug effects, 7161
childhood stimulant treatment; later risk for later substance abuse disorder; ADHD; attention-deficit/hyperactivity disorder; adolescents; young adults, 2160
combined treatment; antidepressant treatment response; geriatric major depressive disorder; methylphenidate; citalopram; older patients, 11521
differential effects; methylphenidate; attentional functions; behavior; ADHD; children, 14155
hyperactivity; impulsivity; inattention; hyperkinetic disorder; methylphenidate; measurement; OPTAX test, 26376
intranasal methylphenidate; physiological effects; behavioral effects; drug doses; dose response, 11018
legislative decisions; attention-deficit disorder; central nervous system; drug therapy; methylphenidate; paracetamol, 9290
low-dose methylphenidate; adolescent exposure; dopamine neurons activity; rat midbrain; cocaine; self-administration; neuronal excitability; abuse liability, 7156
methylphenidate; attention-deficit/hyperactivity disorder; velocardiofacial syndrome; chromosome disorder; developmental disabilities; efficacy; safety; children; adolescents, 5285
methylphenidate treatment; attention deficit hyperactivity disorder; long term effects; chronic stimulant medications; neural effects; behavioral effects; drug adverse effects, 8555
methylphenidate treatment; periadolescent development; preadolescent development; adult behavioral reactivity; emotional stimuli; rats; drug side effects, 7153
methylphenidate; adult attention-deficit/hyperactivity disorder, 11485
methylphenidate; attention deficit hyperactivity disorder; epilepsy; electroencephalographic abnormalities; seizures; ADHD; treatment; antiepilepsy drugs; safety; efficacy; drug treatment, 5286
methylphenidate; children; mental retardation; attention deficit/hyperactivity disorder; cognitive performance, 26415
methylphenidate; cognitive functioning; mental retardation; attention-deficit/hyperactivity disorder; attention; inhibition; immediate memory; children, 25984
methylphenidate; impulsive choice; self-control choices; delayed reinforcers; acute methylphenidate administration; impulsive response; delay to reinforcement, 10033
methylphenidate; prescribing patterns; Israel; attention deficit hyperactivity disorder, 11645
methylphenidate; response inhibition; attention-deficit hyperactivity disorder; frontal cortex, 8480
methylphenidate; response inhibition; boys; ADHD; attention deficit hyperactivity disorder; doses, 23294
methylphenidate; time perception; children; attention-deficit/hyperactivity disorder; ADHD; short-term memory, 11464
methylphenidate; working memory; pigeons, 18819
osmotic-release methylphenidate; blood pressure; heart rate; children; attention-deficit/hyperactivity disorder, 11577
pediatric methylphenidate exposures; poison centers; United States; clinical toxicity, 17053
prenatal exposure; methylphenidate hydrochloride; anxiety; animal exploration; mice, 18772
psychostimulant drugs; methylphenidate; drug side effects; neuropharmacology; neuropsychology; drug therapy; abuse potential; long term toxicity; attention deficit hyperactivity disorder, 23262

Mexican Americans—Serials

psychostimulants; attention-deficit hyperactivity; ADHD; methylphenidate; abuse potential; pharmacokinetics; cocaine; d-amphetamine, 2183
Ritalin; disruptive behavior; behavior problems; ADHD; children, 12182
subjective effects; reinforcing effects; methylphenidate; basal state; sleepiness; time in bed; drug effects; drug doses, 31004
Methylphenidate—Chapters
ADHD in girls; Clinical comparability of a research sample, 2246
Efficacy of methylphenidate among preschool children with developmental disabilities and ADHD, 2245
Methylphenyltetrahydropyridine—Serials
acoustic startle response; prepulse inhibition; spontaneous locomotor activity; 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine; animal model; Parkinson's disease; mice; sensorimotor gating deficit, 34163
attentional cuing; spatial working memory; memory task performance; chronic low dose; methylphenyltetrahydropyridine; monkeys, 30969
behavioral effects; D-sub-3 receptors; dopamine depletion; strain differences; L-dopa/carbidopa; S33084; S32504; apomorphine; 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine; MPTP; brain lesions; mice, 7279
biochemical alterations; behavioral alterations; immunohistochemical manifestations; mice; methylphenyltetrahydropyridine hydrochloride; mouse models; Parkinson's disease, 24822
memory impairment; learning impairment; methylphenyltetrahydropyridine; nicotinamide; mice, 24857
Methylphenyltetrahydropyridine—Chapters
The 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine mouse model: A tool to explore the pathogenesis of Parkinson's disease, 16859
Methysergide [See Serotonin Antagonists]
Metrazole [See Pentylentetrazol]
Mexican Americans—Serials
academic resilience; Mexican heritage students; academic success; personal motivation; family support; college culture; poverty, 23871
acculturation influences; familism; language preferences; household education; Mexican American mothers & children, 16140
acculturation; binge drinking; Mexican Americans; Cuban Americans; Puerto Ricans; adolescents; Latino youth, 25879
cardiovascular risk factors; Mexican-American children; diabetes mellitus, 22849
childbearing women; depressive symptoms; women of Mexican descent; protective strength factors, 19078
depression; acculturation; Mexican American women; European American women, 31748
ethnic identity; perceived discrimination; self-esteem; Mexican American adolescents; mental well-being; coping; prejudice; minority youth; middle school students, 13161
ethnic identity; self-esteem; social context; Mexicans, 18983
familial emotional support; emotional well-being; Mexican American adolescents; juvenile justice system; delinquency; self-esteem, 11039
female college students; family support; Mexican American; psychosociocultural variables; distress; acculturation; cultural values; income, 16130
frailty onset; older Mexican Americans; older adults; positive affect; longitudinal association; epidemiological studies, 34388
home remedies; Mexican Americans; diabetes mellitus; western biomedical; folk remedies; treatment beliefs; herbal therapy, 20482
hospice services; Latino population; Mexican community; hospice staff; hospice utilization; hospice communication, 20534
immigration attitudes; Mexican immigrants; public policy; justice; politics, 34437
intergroup contact model; Common Ingroup Identity Model; intergroup friendship; interpersonal relations; Anglo-French; Mexican-Americans, 25263
language impairment; mainstream culture; Mexican American mothers; child rearing; cross cultural diversity; mothers' beliefs; child education; language impairment; Anglo American Mothers, 11126
marital conflict; acculturation; Mexican Americans; husbands; wives, 13326
meaning of pain; work-related injury; disabilities; cultural variables; Mexican American; Central American; Mexican; Spanish-speaking workers; healing process; therapy; assessment, 11624
melancholy; Chicano cultural imaginary; loss; naming; cultural criticism; absence; Chicano cultural production; narrative; narrative consciousness, 4012

Mexican American families; ethical ambiguities; chronic conditions; professional commitment; health care systems; reform initiatives; welfare reform; child patients; immigration laws, 23518

Mexican American gang members; drug markets; drug use; drug selling; gang type, 22650

Mexican American men; drinking patterns; alcohol abuse, 19676

Mexican Americans; major institutions; confidence, 4191

Mexican immigrants; industrial skill descriptions; communications; construction; industrial service; manufacturing, 5965

Million Adolescent Clinical Inventory; juvenile offending; Mexican American youth; reliability; validity, 30436

Multidimensional Scale of Perceived Social Support; test reliability; test validity; psychometrics; Mexican American youth; social support, 21114

political participation; Mexican Americans; immigrants; nonelectoral participation, 4253

psychiatric disorders; Mexican Americans; social assimilation; nativity; age determinants, 34811

psychoanalysis; Chicano psychology; multicultural psychology; cultural specificity; subjectivity; psychoanalytic theory; epistemology, 2106

Puerto Rican; Mexican ethnicity; heterosexuals; HIV knowledge, 16681

racial profiling; Mexican American social identity; group stereotyping; stereotypic behavior; minorities; American society; court cases; minority victimization; hegemonic structure; Hispanic identity, 28222

separation; family conflict; English language use; generational status; acculturation variables; substance use; deviant behavior; Mexican American high school students, 19618

MHPG [See Methoxyhydroxyphenylglycol (3,4)]

Mianserin—Serials

5-HT; serotonin; feeding behavior; rats; mianserin; cyproheptadine, 13034

carbamazepine; mianserin; opiate detoxification; treatment efficacy, 35896

mianserin treatment; akathisia; antipsychotic medication; schizophrenia patient; drug side effects; fluphenazine; movement disorders; biperiden, 32475

Microcephaly—Serials

developmental disability; intellectual disability; mental retardation; psychiatric disorder; Rubinstein Taybi syndrome, 13815

learning difficulties; behavioral difficulties; microcephaly; undiagnosed maternal phenylketonuria, 35213

Microcomputers—Serials

computer users; anxiety; PC & Macintosh; personal computers, 13498

Internet-based educational resources; engagement modes; flow experience; educational training; clinical practice; personal computers; Personal Digital Assistants; medical students; IT-competence, 35974

Microorganisms—Serials

life cycle; sexual reproduction; animals; plants; gametes; zygote; offspring; zoology; botany; sexual selection; sexual conflict; reproductive traits; prezygotic stage, 12931

microbiology; decubitus ulcers; children; ulcer management; anaerobic bacteria; pediatric infections, 28986

toxic mold; mycotoxins; stachybotrys; fusarium; trichoderma; aspergillus; penicillin; cladosporium; alternaria; trichothecenes; mold spores, 8109

Microscopes—Serials

high school biology; World Wide Web; WWW; atomic force microscope; student knowledge; viruses, 17646

synaptophysin; immunogold labelling; synapses; dentate gyrus; hippocampus; aged rats; immunoblotting; electron microscope level; synaptophysin expression, 3562

Micturition [See Urination]

Midazolam—Serials

episodic recognition memory; memory impairment; midazolam; word-frequency effect; retrieving-effectively-from-memory; memory retrieval, 14160

intranasal midazolam; intravenous diazepam; acute seizures; pediatric emergency department; side effects; status epilepticus, 23266

midazolam dose; palliative care literature; symptom palliation; terminally ill cancer patients, 5441

midazolam; active avoidance; retrieval rate; acquisition rate; benzodiazepine binding site antagonist; flumazenil; bicuculline; picrotoxin; GABA A receptor, 13053

midazolam; amnesia; semantic memory; retrieval; anterograde amnesia; theories; pharmacological amnesia; encoding; explicit memory, 7202

midazolam; conscious processing; controlled processing; conscious memory processes, 18381

pharmacodynamic interaction; EEG response; midazolam; GABA subtype A receptor; rats; allosteric modulation; tiagabine; antiseizure activity; synaptic GABA uptake inhibitor, 15762

Midbrain [See Mesencephalon]

Middle Class—Serials

academic performance; school engagement; middle-class African American adolescents; mother-adolescent relationships; psychological factors; parent factors; parent educational expectations; self esteem, 17715

Black middle class; mental health; work stress; survival strategies; African Americans; social rejection; token stress; work environment; social position, 19032

Korean immigrant families; female employment; middle-class people; gender relations; paid employment; family networks; labor division; family economy; mothering, 7532

material envy; affluence; analytical relationships; bourgeois bohemian patients, 32392

Middle Class Attitudes—Serials

racial discrimination; strategic assimilation; racial hierarchy; identity construction; middle-class Blacks, 34474

Middle Ear—Serials

cognition; hemispheric activation; tympanic membrane thermometry; ear temperature, 21560

human neonates; maturation of hearing; neonatal guinea pigs; temporary conductive hearing loss; auditory pathway; middle-ear cavity; amniotic fluid, 15698

preferred illuminance; human females; face cooling; tympanic temperature, 21764

Middle Income Level—Serials

mental health research; low income countries; middle income countries; developing countries; scientific journal, 29578

Middle Level Managers—Serials

career development; men managers; women managers; self promotion; retail management, 27053

humor; middle management; women; negotiating behaviors; managerial identity; organizational life; gendered organizations; managerial resistance, 33260

local public organizations; value-based management; ethical management; organizational values; middle managers; organizational performance, 33262

middle managers; empowerment; depowerment; organizational change; private sector; public sector, 27056

reform efforts; reform agents; success; commitment; middle level managers; top level managers; public administration; organizational change, 27061

senior managers; case study research; middle managers; work narrative; United Kingdom hospital; National Health Service; NHS, 17856

Middle School Education—Serials

assessment; middle school curriculum materials; science curriculum; national standards; benchmarks; assessment tasks, 9487

assessment; middle school curriculum materials; science curriculum; national standards; benchmarks; assessment tasks, 9485

Middle School Education—Books

Developmentally appropriate middle level schools (2nd ed.), 4089

Middle School Education—Chapters

Hoping for the best: 'Inclusion' and stigmatization in a middle school, 23936

Middle School Students—Serials

adolescent violence; youth assets; physical fighting; weapon carrying; middle school students; high school students; parents; risk behavior, 31198

African-American adolescents; African-American youth; resilience protective factors; students; risk factors; urban; low income; violent neighborhoods, 7716

anti-smoking curriculum; tobacco use behavior; behavior; science curriculum; exposure; outcomes, 25016

Black identity; race; Black foreign-born; Pan-African framework; urban middle school students; African American; foreign-born student; study unit on Africa; knowledge of Africa, 9004

Bully Busters; psychoeducational intervention; bully prevention program; middle school students; bully intervention skills; teachers' self-efficacy; students' classroom bullying behaviors, 33086

bullying; fifth graders; sixth graders; seventh graders; parochial school, 9023

community violence; urban middle-schools; academic achievement; school safety; depressive symptoms; aggression; feeling safe; long-term exposure; victim; witness, 30035

drug abuse; asthma inhalers; middle school students; high school students, 31913

emotional disturbance; middle school students; high school students; relationship problems; inappropriate behavior; unhappiness; depression; fear symptoms; inability to learn; physical symptoms, 34757

health-risk behaviors co-occurrence; middle school students; Beijing; Chinese youth; multiple health-risk behaviors, 5514

immigrant students; middle school; local White community; employment issues; family cohesion; safety concerns; academic advantage; student welcoming, 12171

middle school students; academic engagement; school attendance; school failure; school based intervention, 23939

middle school students; reading instruction; alternative program; written academic discourse; writing process; researcher audience; students' perspective; teacher educator; teacher, 17694

middle school; correctional facilities; school teacher; teaching, 36067

middle schoolers perceptions; self efficacy; academic behavior, 9020

multidisciplinary research; disciplinary perspectives; multidisciplinary teams; middle school students; consistent findings; consensus process; research groups; attitudes toward violence, 17730

portfolio assessment; locus of control; special education students; middle school students; learning disabilities; mild mental retardation, 9473

prosocial behavior; emotional distress; middle school; motivational processes; academic achievement; academic adjustment; friendships; reciprocated friend, 23780

racial mistrust; immigrant minority students; White teachers; West Indian students; middle school students; Haitian students; West Indian students, 33150

reading comprehension; instructional strategies; middle school teachers; sixth-grade students; teaching methods; lessons, 17666

relational aggression; middle school education; school violence, 33176

school based treatment program; middle school youth; attention deficit hyperactivity disorder; behavioral interventions; educational interventions; mental health program; academic performance, 27006

self esteem; middle school; race; social class; socioeconomic status, 31250

sexual intercourse; middle school students; psychosocial factors; inner city youth; peer norms; abstinence; risk factors; drug abuse; gender, 28127

Start Taking Alcohol Risks Seriously for Families program; alcohol prevention program; sixth grade students; urban middle schools; stage of acquisition model, 23626

student achievement; goal orientation; mathematics; task performance; middle school students, 36164

student characteristics; elementary school students; special education; grade levels; student placement; due process hearings; suspension; expulsion; evaluation; high school students, 2846

student-led conferences; middle schools; parental involvement; educational reform; student engagement, 33104

teacher reports; report accuracy; middle school students; depressive symptomatology, 16390

teachers; middle school students; academic self-efficacy; academic achievement motivation; teacher attitudes, 17707

urban adolescents; community violence; violence exposure; social support; school safety; social constraints; middle schools; victimization; psychological functioning, 31889

video recordings; interview transcripts; learning environment; curriculum materials; computer activities; science classes; middle school students; science contest understanding; online resources, 17640

violence related behaviors; middle school students; violence prevention; mediation effectiveness; verbal violence; victimization; gender differences; D.A.R.E. Plus Project outcomes, 33208

young women; science and mathematics career goals; seventh grade; high school graduation; educational goals, 33175

Middle School Students—Books

Developmentally appropriate middle level schools (2nd ed.), 4089

Group counseling in K-12 schools: A handbook for school counselors, 12237

Middle School Students—Chapters

Introduction to an economic problem: A models and modeling perspective, 23838

Recess in middle school: What do the students do?, 17747

Middle School Teachers—Serials

Bully Busters; psychoeducational intervention; bully prevention program; middle school students; bully intervention skills; teachers' self-efficacy; students' classroom bullying behaviors, 33086

integrated health education curriculum; urban school system; Planet Health; public middle schools; school-based intervention; obesity prevention, 33215

middle school; correctional facilities; school teacher; teaching, 36067

pedagogical content knowledge; teaching strategies; teacher education; mandated curriculum; teaching methods; middle school teachers; mathematics lesson, 8995

prospective middle school teachers; elementary middle school teachers; educational research projects; teaching science; science lessons; collaborative process; teacher researchers, 2722

Volume 91 SUBJECT INDEX

Middle School Teachers—Serials

teachers attitudes; students with epilepsy; elementary school teachers; middle school teachers; demographics; professional preparation; prediction; knowledge about epilepsy, 26875

Middle Schools—Serials

hepatitis B vaccination; middle school entry requirements, 32587
primary schools; secondary schools; school leadership; teacher attitudes; school administration, 33041
teacher perceptions; student perceptions; positive relationship; middle school student; academic achievement; classroom activities; student interactions; high school student, 5833

Midwifery—Serials

high-risk women; maternity care; postpartum care; midwifery care; satisfaction, 17287
humanistic work ideology; dynamic capabilities; organizational humanistic side; human resource management; midwife practice, 20612
midwifery care; Guatemala; infant morbidity; maternal morbidity; developing countries; traditional birth attendants training; health care systems; maternity care; care quality; women; pregnancy care, 23499
nursing; midwifery service delivery; care continuity; staff capacity; quality of service, 32675
pregnant women; opioid dependent; drug liaison midwife services; sociodemographic background; substance use; medical history; drug treatment; neonatal outcomes; maternal outcomes, 20659

Roe W. Wade; medical caregivers; individual privacy rights; medical authority; health concerns; potential life; pregnant women, 6188

Migraine Headache—Serials

alexithymic features; migraine patients; psychopathologies; depression; anxiety, 32101
antimigraine drugs; drug consumption; migraine pain; daily doses, 23373
anxiety disorders; major depression; headache frequency; migraine, 22858
autogenic training effect; headache; migraine headache; primary headache; drug consumption; mixed headache, 17136
botulinum toxin; migraine headache; primary headache disorders; tension-type headaches; preventative treatment; Migraine; Baclofen; tizanidine, 20469
central serotonergic tone; neuroendocrine responses; sensitivity responses; central amine receptor; migraine; buspirone, 13859
cerebrovascular reactivity; adolescents; tension-type headache; migraine; evoked flow velocity; cerebral artery; cerebral blood flow, 22840
chronic migraine; naratriptan; preventive treatment; refractory to treatments; adverse events; headache frequency; drug tolerance; side effects, 23403
chronic migraine; tertiary care centers; well being, 12511
cluster headache; migraine; somatostatin withdrawal; healthy volunteers, 22826
comorbidity; major depression; migraine; headaches; migraine-related disability; risk factors, 22398
confusional migraine; photophobia; head pain; photophobia; photophobia; photosensitivity, 22805
demographic characteristics; migraine characteristics; physical activity; headache severity; migraine without aura; unilateral pain; pulsating pain; adolescents; sumatriptan; naratriptan, 22855
disease modification; disease progression; long term treatment; treatment efficacy; antimigraine agents; disease-modifying effects, 22828
dizziness; migraine; comorbidity; migraine-related vertigo, 8168
dura vascular permeability; restraint stress; neurogenic inflammation; migraine headaches; nerve stimulation; trigeminal nerve; rat dura mater cell; stress-induced migraines; neurokinin-1 receptor, 6800
environmental influences; twin; shared rearing environment; family resistance; migraine; genetic influences, 16634
epidemiology; clinical presentation; consequences; chronic daily headache; migraine, 16614
familial hemiplegic migraine; azathioprine; multiple sclerosis; cancer risk, 29488
familial hemiplegic migraine; azathioprine; multiple sclerosis; cancer risk, 29495
gastrointestinal disorders; childhood physical abuse; migraine, 1327
genetic association; dopamine beta-hydroxylase; dopamine transporter gene; genetic susceptibility; migraine, 11163
glutathione S-transferase polymorphisms; migraine headache; aura; genetic risk factors; smokers; tension headache, 8142
headache response; eletriptan; tolerability; sumatriptan; placebo; migraine treatment, 29467
headache screening; primary care clinicians; headache disorders; drug rebound headache; episodic migraine; chronic migraine; medication overuse, 22829

health care utilization; medical consultation; medical diagnosis; health problem; medical care; migraine patients; headache, 4870
health care utilization; migraine; demographics; health care delivery patterns; ambulatory settings; racial differences; gender differences, 14367
health-related quality; quality-of-life; migraine; nonprescription medications; over-the-counter medication; managed care; migraine medication, 16587
hypnosis; migraine treatment; psychobiological disorders; headaches; psychological symptoms; liver transplant; liver failure, 32527
medical oophorectomy; migraine headache; estrogen; estradiol; women, 14280
methylhistamine; migraine prophylaxis; subcutaneous administration, 14285
migraine aura; sporadic hemiplegic migraine; migraine patients; clinical phenotype; International Headache Society classification; IHS; aura pathophysiology, 4857
Migraine Disability Assessment; Japanese translation; migraine-related disability; test reliability; test validity, 12514
migraine headache; biofeedback-assisted relaxation; cerebral blood flow; middle cerebral artery; anxiety; depression, 17135
migraine headache; mood disorders; serotonin reuptake inhibitors; psychiatric disorder, 34760
migraine headache; prophylactic treatment; carnitine palmitoyltransferase II; etiology; mitochondrial dysfunction; symptoms; pathophysiology, 22820
migraine headache; sleep disturbances; sleep behaviors; children, 13871
migraine headache; triptan; patient dissatisfaction; pharmacological interaction; physiological interaction; migraine recurrence, 14263
migraine headaches; disabling headaches; autonomic nervous system function; cardiovascular reactivity; diastolic blood pressure; systolic blood pressure; heart rate variability; Valsalva maneuver, 8147
migraine patient; deafness; headache; neurologic symptoms; auditory symptoms, 8157
migraine patients; habituation; reflex responses; blink reflex, 16616
migraine patients; personality traits; neuroticism; sensitivity; stress; coping strategies; introversion; headache duration; physical symptoms; social isolation; tension, 22816
migraine treatment; aura; therapy; preventive treatment; therapeutic options, 11139
migraine with aura; cardiac right-to-left shunting; atrial septal defect closure, 23412
migraine without aura; cerebrovascular reactivity; prophylactic flunarizine; cerebral blood flow; cerebral vessels; vasodilatory effect, 23368
migraine; premenstrual syndrome; follicle-stimulating hormone; menopausal status; hormone levels; hysterectomies; estrogen, 22853
migraine; sumatriptan; eye redness; eyelid edema; nasal congestion; cranial autonomic symptoms, 14250
migraine; tension type headache; visual imagery; behavioral self management therapies, 23353
migraine; transcranial magnetic stimulation; cortical information processing; electrophysiology; cognitive disturbances; subcortical structures; evoked potentials; cerebral cortex; Medline; aura, 16628
migrainous vertigo; episodic positional vertigo; migraine; benign paroxysmal positional vertigo; positional nystagmus, 29036
nasal spray; migrainous Headache; diagnosis; sumatriptan, 14256
neurostimulation; transformed migraine; cervical peripheral nerve, 14291
panic disorder; tension headaches; migraine headache; pathophysiology; neurochemistry, 34754
premonitory symptoms; migraine; nonheadache symptoms, 13865
reduced habituation; migraine patients; laser evoked potential; nociceptive pathway function; sensory stimuli, 8166
self-administered screener; migraine; primary care; headache complaints; instrument validity; instrument reliability, 6247
sporadic hemiplegic migraine; migraine treatment; neuronal calcium channel; verapamil; calcium-channel blockage; SHM, 5469
sumatriptan; migraine management; headache frequency; clinical status; automated prescription data; medical care, 23402
tension headaches; psychiatric symptoms; migraine headaches; children, 19838
triptans; migraine; migraine treatment; pharmacological profiles; drug features, 17151
vagus nerve stimulation; migraines; chronic pain syndromes; antiepileptic drugs; intractable seizures, 35592
vagus nerve stimulation; migraines; chronic pain syndromes; antiepileptic drugs; intractable seizures, 35595

Milieu Therapy—Serials

vascular collaterals; moyamoya disease; basal ganglia; migraine-like headache, 16585

Migrant Farm Workers—Serials
HIV infection; risk factors; Hispanic farm workers; gender differences; at risk population; migrants; marijuana use; sexual partners; marital status, 26083
Mexican migrant farmworkers; lifestyle; psychosocial stressors; United States; work demands; depression, 16383
pesticide exposure; adolescent farmworkers; farmworkers perceptions; Hispanics; risk perception; health beliefs; ecological framework; occupational hazards; migrant farmworkers, 28082
pesticide exposure; adolescent farmworkers; farmworkers perceptions; Hispanics; risk perception; health beliefs; ecological framework; occupational hazards; migrant farmworkers, 28068
pesticide exposure; adolescent farmworkers; farmworkers perceptions; Hispanics; risk perception; health beliefs; ecological framework; occupational hazards; migrant farmworkers, 28083
pesticide exposure; adolescent farmworkers; farmworkers perceptions; Hispanics; risk perception; health beliefs; ecological framework; occupational hazards; migrant farmworkers, 28087

Migration (Human) [See Human Migration]

Migratory Behavior (Animal)—Serials
development of navigational abilities; homing pigeons; confinement; wind screened aviary; flight experience; navigational map learning; unscreened aviary; Columba livia; orientation performance, 12727
dogs; animal navigation; catching frisbees; animals optical behavior, 24602
dragline attachment; solitary species spiders; aggregation; collective responses; social spiders, 18492
European robins; Erithacus rubecula; wind conditions; rain conditions; migratory birds; stopover site; departure decision, 18518
foraging success; oceanic dive profiles; leatherback turtles; Dermochelys coriacea; behavioural plasticity; long-distance migration; dive duration, 21464
head direction cell activity; navigation task; cognitive mapping strategy; spatial behavior; rats; thalamus, 30862
landmark based navigation; house mouse; visual extra-arena landmarks; cues, 15380
Mexican Jays; flock movement; Northern Flickers; interspecific associations; agonistic encounters; avian predators; avian interactions; Arizona oak savanna, 15405
personal leadership; group movements; white faced capuchin monkeys; Cebus capucinus; distributed leadership; dominance status, 12751
range equation; optimal migration theory derivation; running animals; fuel load; departure mass; lean mass; model, 3448
white-faced capuchins; male dispersal patterns; Cebus capucinus; age differences; breeding dispersal; emigration; intragroup mating competition; increased reproductive opportunities, 21467
white-faced capuchins; male dispersal patterns; Cebus capucinus; natal emigration; emigration patterns; proximate causation, 21466

Migratory Behavior (Animal)—Chapters
Consequences of sex differences in dispersal for juvenile red howler monkeys, 3547
Juvenile male emigration from natal one-male troops in Haemaphysalis langurs, 3558

Mild Mental Retardation—Serials
cognitive performance differences; cognitive ability; individual differences; mild mental retardation, 35121
cognitive-behavior therapy; psychotic symptoms; schizophrenia; family interventions; psychosis; mild intellectual disabilities, 35433
constant time delay; interspersal of known items; teaching; sight words; mild mental retardation; learning disabilities, 12200
friendships; dyads; play behaviors; mild disabilities; child perceptions; mental retardation; learning disabilities; elementary school students, 12179
neuroleptic malignant syndrome; developmental disabilities; antipsychotic medications; schizoaffective disorder; mild mental retardation; clozapine; heat stroke; drug side effects, 10722
psychometrics; mental health; mild intellectual disability; Brief Symptom Inventory; construct validity, 33552
social behavior; youth; mild mental retardation; self management; video feedback; graphic feedback; behavior problems; staff responses; training, 11412
special education students; mild mental retardation; remedial curriculum; public law, 26977

Milieu Therapy—Serials
inpatient treatment; residential treatment outcome; inpatient psychiatric hospital treatment; emotional disturbed; residential milieu; children; adolescents, 23575
long-term care; democratic therapeutic milieu; short-term care; democratic therapeutic community, 29728

transitional living program; residential treatment; diagnosis; treatment; older adolescent; relationship based milieu therapy; psychoanalytic developmental principles; transition to adulthood, 23573

violent forensic patients; rehabilitation approaches; progression ladders; ProLad; milieu treatment approach; risk management, 26762

Military Enlistment—Serials

home leaving transition; military service; attachment functions transfer; basic training adjustment; parents; peers, 36445

Military Medical Personnel—Serials

Jennifer Berg; physician; aerospace psychiatry; posttraumatic stress disorder; traumatic brain injury; anxiety disorders; mood disorders; US Navy, 23647

military health care; telemedicine; military medicine; bandwidth; casualty treatment; communications technology, 38709

Military Officers [See Commissioned Officers]

Military Personnel [See Also Air Force Personnel, Army Personnel, Commissioned Officers, Marine Personnel, Military Medical Personnel, Military Psychologists, Navy Personnel]—Serials

active duty military women; breastfeeding mothers; military service; breastfeeding experiences, 6047

cognitive-behavioral anger management training; military setting; occupational setting; treatment outcome; self-reported anger; demographic factors, 16984

Colin Powell; leadership; transition; generals; admirals; military; executives, 6101

declarative memory impairments; metabolism; physical activities; sleep deprivation; military combat course; neuropsychological parameters; biochemical parameters, 26160

deployment; nondeployed; health care use; military families; Japan; self-reliance; coherence; social support; well-being; adaptation; coping behavior; anxiety; health care visits, 17312

federal probation officers; correctional system; military service; criminal justice; World War II; American criminal justice; military officer, 2989

HIV; policies; HIV-prevention programs; armed forces, 17924

information processing measures; Canadian Forces personnel; general cognitive ability; incremental validity; training performance; predictive validity, 30507

melatonin synthesis; individual circadian phase position; morning types; evening types; soldiers; time schedules, 9163

military career role; reflected self-image; commitment; career self; career identity; actual self, 27085

military environment; military population; military personnel; attempted suicide; suicide; mentally disturbed, 13707

military interventions; U.S. foreign policy; international crisis; cold war; policy makers; harmony; just war theory, 10297

Military Life Scale; stress; social support; military adolescents; structural properties; psychometric properties; reliability; validity, 30381

military officer jobs; job performance; military officers; Irish Defence Forces; contextual predictors, 6097

military population; colonization; suicide rate; gender differences; colonized-colonist relationship; stress; civilians, 35012

military retiree population; hypertension; prevalence; prevention; hypertension treatment, 6099

military suicide rates; antidepressant drugs; bullying laws; suicide prevention; suicide, 34937

Persian Gulf war; health; post-traumatic stress reactions; alcohol consumption; physical functioning; peacekeeping; military soldiers; psychological health; weight gain, 6098

post-traumatic stress disorder; PTSD; South African National Defence Force; physical assault; life-threatening injury; military personnel; inflicted trauma role; non-combat-related trauma, 4666

postwar health care use; military experiences; combat experience; deployed women; Gulf War; service related exposures, 9161

psychiatric medevacs; aircraft carrier; battle group deployment; clinical psychologists; psychiatric technician; outpatient care; sailors; psychiatric diagnoses; Persian Gulf, 5144

psychological effects; physiological effects; combat ration pack feeding; CRP; health effect; military training; food consumption; weight loss; protein catabolism; immune suppression, 5478

risk taking; offender profiling; risky behavior; sensation seeking; military personnel, 27145

suicide; psychiatric medication; tertiary military treatment; United States military; death; suicidal behavior, 16486

unintended pregnancies; families; communities; society; operational environments; overseas environments; single active duty women; United States; Italy, 4257

United States military service members; outpatient treatment; prevalence; severity; risk factors; health care; occupational functioning; mortality; behavioral problem; psychiatry research, 16381

wartime rape; war; sexual violence; women; psychology of the offender; soldiers; multifactorial model, 31869

Military Personnel [See Also Air Force Personnel, Army Personnel, Commissioned Officers, Marine Personnel, Military Medical Personnel, Military Psychologists, Navy Personnel]—Books

The psychology of the peacekeeper: Lessons from the field, 2990

Military Personnel [See Also Air Force Personnel, Army Personnel, Commissioned Officers, Marine Personnel, Military Medical Personnel, Military Psychologists, Navy Personnel]—Chapters

African peacekeeping and the impact on African military personnel, 3003

Can participation in peacekeeping missions be beneficial? The importance of meaning as a function of attitudes and identity, 2995

Cooperation and coordination across cultures in the peacekeeping forces: Individual and organizational integrating mechanisms, 2998

Coping with peacekeeping stress, 3002

Cross-cultural issues in peacekeeping operations, 3004

The nature of peacekeeping stressors, 2992

Organizational behavior and the U.S. peacekeeper, 3005

Posttraumatic stress disorder following peacekeeping operations, 3001

The psychological challenge of peacekeeping operations, 3007

Psychological interventions in peace support operations: Current practices and future challenges, 3006

The psychology of the peacekeeper: Common themes and future directions, 2991

Work motivation and the peacekeeper, 3000

Military Psychologists—Serials

suicide awareness; educational programs; Air Force; Distinguished Professional Contributions to Practice in the Public Sector, 14546

Military Psychology—Serials

distinguished professional contributions award; public sector; APA award; Frank Budd; psychologists; military, 14521

James Grier Miller; obituary; multidisciplinary research; behavioral science; Veterans Administration, 2592

military psychiatry; medical services; armed forces; hospital services, 14817

Military Psychology—Books

The psychology of the peacekeeper: Lessons from the field, 2990

Military Psychology—Chapters

Considerations when conducting psychological research during peacekeeping missions: The scientist and the commander, 2997

Prejudice and the peacekeeper, 2994

The psychology of the peacekeeper: An introductory framework, 2996

The psychology of the peacekeeper: Common themes and future directions, 2991

The role of screening in the prevention of psychological disorders arising after major trauma: Pros and cons, 1546

The social identity of peacekeeping, 2999

Military Recruitment—Serials

violence exposure; community violence; posttraumatic stress; army recruits; Basic Combat Training, 34898

Military Training—Serials

information processing measures; Canadian Forces personnel; general cognitive ability; incremental validity; training performance; predictive validity, 30507

internal occupation status; foodservice employees; personnel feelings; self-esteem; Air Force foodservice training; Air Force Personnel, 12247

psychological effects; physiological effects; combat ration pack feeding; CRP; health effect; military training; food consumption; weight loss; protein catabolism; immune suppression, 5478

self rated schizotypal traits; military training; schizotypal dimensions, 28745

Military Training—Chapters

Children of war and children at war: Child victims of terrorism in Mozambique, 1401

Individual and organizational interventions after terrorism: September 11 and the USS Cole, 1962

Military Veterans—Serials

African American veterans; posttraumatic stress disorder; symptom patterns; service use; Caucasian veterans; combat-related PTSD, 27144

alcohol craving; combat veterans; posttraumatic stress disorder; substance abuse, 25715

anxiety; regional brain activation; posttraumatic stress disorder; parietal activation; depressive symptoms; EEG alpha asymmetry; arousal symptoms; female war nurses; Vietnam War veterans; emotions, 19388

autobiographical memories; posttraumatic stress disorder; PTSD; emotional responses; cognitive judgments; reliving trauma; sensory properties; narrative fragmentation; male war veterans, 13669

chronic distress; Gulf War veterans; early hyperarousal symptom; early avoidance symptoms; emotional numbing symptoms; posttraumatic stress disorder, 16386

clinical features; medical service use; mental health service use; combat-related posttraumatic stress disorder; elderly veterans, 10824

cognitive-behavioral couple treatment; posttraumatic stress disorder; Vietnam combat experiences; relationship satisfaction, 35439

comorbidity; posttraumatic stress disorder; depression; prisoners of war; war veterans, 19294

consumer satisfaction; inpatient mental health treatment; Department of Veterans Affairs; post-discharge; veterans; Virginia mental health services, 33325

dialectical behavior therapy; veterans; trauma disorders; program development, 8438

emotional deficits; military-related posttraumatic stress disorder; process disturbances; emotion content; symptomatology; emotional numbing; alexithymia, 25729

emotional distress; stress reaction; Israeli war veterans; long term adjustment; attachment style, 25337

ethnicity; risk factor; posttraumatic stress disorder; Vietnam War; Native Hawaiian veterans; American of Japanese ancestry veterans, 10823

fatiguing illness; gulf war veterans; chronic fatigue syndrome; CFS; exercise capacity, 22795

female veterans; trauma related mental health problems; service utilization; posttraumatic stress disorder; substance use; veterans affairs health care settings, 2411

health care utilization; veterans affairs; posttraumatic stress disorder; MMPI-2 validity; disability awards; compensation and pension evaluation, 27143

herbal products; natural supplements; elderly veterans; depression; dementia; caregivers, 17105

homeless veterans; health status; homeless nonveterans; health perception; disability, 28561

hospital use; survival rates; health services; patients; Veterans Affairs beneficiaries; chronically ill; Medicare, 8815

long-term course; health status; psychiatric symptomatology; life satisfaction; social functioning; program impact; mortality; posttraumatic stress disorder; treatment-seeking Vietnam veterans, 10825

mental health problems; posttraumatic stress; anger; combat exposure; psychometric properties; Dimensions of Anger Reactions; Vietnam veterans, 24240

mortality rates; life expectancy; World War I; postcombat disorders; veterans; Boer war; disordered action of the heart; neuroasthenia; shell shock, 6100

NEO Personality Inventory; personality disorders; PTSD; Vietnam war veterans, 7787

odors; sounds; medically unexplained symptoms; Gulf war veterans, 25453

outpatient pharmacy trends; veterans affairs; specialized mental health care, 29388

paraphasias; Cognistat; pathognomic sign; ethnic-linguistic artifact; geriatric veterans; memory; neuropsychological screening, 19978

personal attributes; homeless military veterans; substance abuser; crime; drug abuse, 16499

personal safety; self-defense training; female veterans; outpatient mental health treatment; post-traumatic stress disorder; sexual trauma; physical trauma, 36545

personality characteristics; suboptimal cognitive effort; veterans; cognitive symptoms; psychiatric symptoms, 7705

post-awakening changes; salivary cortisol levels; veterans; posttraumatic stress disorder, 22583

post-traumatic stress disorder; combat veterans; quantitative electroencephalogram, 4661

posttraumatic stress disorder; combat veterans; stress; military personnel; neuropeptides; trauma exposure, 4664

posttraumatic stress disorder; male veterans; Infrequency-Psychopathology Scale; Minnesota Multiphasic Personality Inventory; symptom overreporting, 33568

posttraumatic stress disorder; mental health; physical health; forgiveness; religious coping; military veterans; depression; anxiety; symptom severity, 25751

posttraumatic stress disorder; mustard gas; WWII veterans; psychological reactions, 34913

posttraumatic stress disorder; parenting satisfaction; partner violence; male veterans; avoidance; emotional numbing symptoms, 34925

posttraumatic stress disorder; personal world assumptions; combat stress reactions; veterans; disease course, 31797

posttraumatic stress disorder; PTSD; symptomatology; veterans; terrorism; September 11; PTSD severity, 1533

posttraumatic stress disorder; somatization; human females; veterans; primary health care; trauma; clinics, 28766

posttraumatic stress disorder; symptoms; Gulf War veterans; combat exposure; trauma exposure, 25734

Volume 91 SUBJECT INDEX Minnesota Multiphasic Personality Inventory—Serials

Military Veterans—Serials

posttraumatic stress disorder; symptoms; physical health; health care utilization; toxic gas; military personnel; bioterrorism; war, 25714

posttraumatic stress disorder; World War II veterans; prisoners of war; intimate relationships; relationship quality; marital stability, 13323

practice patterns; practice guidelines; posttraumatic stress disorder; coping skills; clinicians; VA medical center patients; veterans; International Society for Traumatic Stress Studies, 26615

psychiatric disorder; Persian Gulf War; posttraumatic stress disorder; PTSD; military personnel; psychologically traumatic events; veterans, 10723

psychiatric health care; military veterans; mental illness; risk behaviors; intravenous drugs; outpatient services; posttraumatic stress disorder; medical health care, 32628

psychological well-being; lifetime sexual victimization; women military veterans; sexual harassment; rape; trauma; anxiety; depression, 4681

psychometric properties; Disability Application Appraisal Inventory; DAAI; reliability; factorial validity; construct validity; veterans; Knowledge scale; Negative Expectations scale; Importance scale, 24273

psychometric properties; traumatic stress; posttraumatic stress disorder; confirmatory factor analysis; male Vietnam veterans; traumatic stress symptomatology, 6286

risk factors; continued illness; Gulf War veterans; symptom severity; psychological distress; fatigue; Gulf War syndrome; physical functioning, 25469

risk factors; posttraumatic stress disorder; Vietnam veterans; American Legionnaires; disease course; course prediction; combat exposure; recovery; perceived social support, 1523

social support; gender differences; multiple sclerosis; veterans; marital status, 19897

sociodemographic characteristics; posttraumatic stress disorder; PTSD; subject characteristics; racial disparity; service connection; functional status; Department of Veterans Affairs, 17314

substance abusers; homeless veterans; felony offenses; nuisance offenses; self-report; V.A. Medical Center program; criminal histories; crime; comorbidity; drug and criminal rehabilitation, 8831

suicide attempts; veterans; treatment seeking; pathological gamblers; comorbid conditions, 1331

telephone disease management; depression; at-risk drinking; primary care; veterans, 8756

Vietnam war service appraisal; tertiary appraisals; present life impact; posttraumatic stress disorder; war zone stressors; outcomes; military records; U.S. male veterans; postwar functioning; wartime, 28764

Miller Analogies Test—Serials

Miller Analogies Test; academic performance; career potential; creativity; job performance; prediction; test validity; intelligence; cognitive ability, 9397

Millon Clinical Multiaxial Inventory—Serials

Millon Clinical Multiaxial Inventory III; subtyping; predictive validity; concurrent validity; opioid dependency; naltrexone; relapse prevention; incentive vouchers; behavioral therapy, 30434

Millon Clinical Multiaxial Inventory-II symptoms scales; dispositional coping strategies; adult psychiatric outpatients, 7807

Millon Clinical Multiaxial Inventory-III; personality disorders; personality scales; unsupported gender differences; norms; validity; unsupported research data; relevant pattern assessment, 9417

personality style codetype concordance; Millon Clinical Multiaxial Inventory; Millon Behavioral Health Inventory; psychiatric patients; medical symptoms, 6333

test validity; test reliability; psychometrics; personality disorders; Millon Clinical Multiaxial Inventory; Minnesota Multiphasic Personality Inventory, 24275

Mimicry (Biology)—Serials

garter snakes; selection; Thamnophis sirtalis parietalis; mating balls; female mimicry; body size; courtship mistakes; sex recognition; courting males, 12767

Mind—Serials

adaptation; mind; social psychology, 28379

adult attachment; trauma; attachment relationship; mothers with stillbirth; psychiatric factors; social factors; unresolved state; Adult Attachment Interview, 19317

body-mind conflict; obesity; psychosis; psychic elaboration; analytic relationship; psychoanalysis, 2104

brain; language; mind; mental lexicon, 27746

Chinese Room argument; artificial intelligence; cognitive science; philosophy; machines; mind, 33397

consciousness state; natural working language; Agent-action-Objective model; structural relations; mental activity; mind process, 12719

consciousness; awareness; philosophy of mind, 33896

consciousness; transcendence; life experiences; psychic development, 24541

death anxiety forms; psychotherapy experience; Freud; topographic model of the mind; emotion-processing mind; emotional adaptations; existential anxiety; predatory anxiety; predator anxiety, 14066

domain mismatch; scruffy engineering; exaptation; spandrels; evolutionary psychology; human minds; psychological adaptations; environments, 21519

dreaming; mind; consciousness; unconsciousness; waking language, 25429

false belief understanding; congenital profound visual impairment; theory of mind understanding, 20084

group analysis; mental processes; hermeneutics; relational experiences; psychoanalysis; group-analytical model; mind; individual-environment interactions, 20218

harmonies; human mind; music, 803

hope; mind; drug development; technology development, 34700

human cognition; schema; language; mental content; non-conceptual world, 15288

human mind; information-processing; cognitive psychology; cognitive approach; clinical psychology, 18055

interaction point; psyches; patients; analysts; mental activity; therapeutic process; psychoanalysis; oedipal conflict, 35486

interpsychic; intrapsychic; psychic dimension; mind; consciousness states, 31621

literature; brain function; mind; literary scholar; poet; poetry writing; poetic techniques; mental processing; conscious; unconscious; mystic experiences, 30881

mental representation; contentful mental states; subpersonal physiological states; functional states; sensory conditions; mind; personal level content; perceptual contents, 27518

metaphor; mind; consciousness; attention, 27586

mind-body relationship; self & intersubjective psychoanalytic psychotherapy; body awareness; body preoccupation; somatization; treatment; therapeutic techniques, 5257

mind-body relationships; social and behavioral factors; health; illness; death, 9334

mind; body; spirit; college course; adults; dementia; teaching methods; maintaining optimal health; promoting optimal health; diagnosed dementia, 11706

mind; contemporary hospital treatment; length-of-stay; inpatient treatment program; biopsychosocial approach, 5662

mind; language; linguistics; psychology; narrative, 34217

morphological processing; words organization; mind; construct; content; ecological validity, 28002

narrative; infant psychic growth; artist; consciousness aspects; mind; psychoanalysis, 32404

natural selection; Jerry Fodor; evolutionary psychology; gradualism; saltationism; human mind; evolution; mutations; adapted minds; adaptations; human cognition, 3578

neuroscience; buddhism; biobehavioral sciences; brain; selective attention; sustained attention; emotions, 34040

neuroscience; subjective mental states; consciousness; emotion; dreaming; brain research; psychodynamic theory, 15498

neuroscience; subjective mental states; consciousness; emotion; dreaming; brain research; psychodynamic theory, 15582

neurosciences; body; mind; psychoanalysis; dialectic, 599

openness to experience; boundaries in the mind; cultural conservative beliefs; economic conservative beliefs; conservatism; political party activists, 28304

personal sense statements; internalization-externalization; sociocultural meaning; social message transformation; self talk; personal dialogue; specialized knowledge; sociogenic approach; mind, 9663

physical activity; route directions; object parts; human mind; motor events; feet; hands, 24477

practical reasoning; modular mind; creative thinking; theoretical thinking, 24422

psyche concept; psychodynamics; psychoanalysis; mental health; hypothetical construct; phenomenology; definition, 31624

psyche; psychoanalysis; religious studies; philosophy; dynamic therapeutic process; dream content; drug prescription; pharmacologic effect, 32414

psyche; soma; internalization; therapist body; caregivers; eating disorders, 29443

psyche; unconscious; emotional processing; dreaming; psychoanalytic theory, 16340

psychologist; psychoanalyst; psychoanalysis; mind; consistency; patience, 31641

reality; unconscious registration; mind; theory of repression, 1292

reality; unconscious registration; mind; theory of repression, 1298

Richard Wollheim; philosopher; philosophy of mind; ethics; aesthetics; art; psychoanalytic model, 31638

Sandor Ferenczi; trauma; mind symbolic function; traumatic experience; symbolic adaptation, 25409

self-conscious emotion; theory of mind; emotions; children; autism, 8055

social psychology; history; research; action mind-sets; illusions of control, 10456

theatre environment; unconscious mind; audience; spectators; memory; catharsis, 4008

thinking; feeling; thought; emotion; model of the mind; metacognition; metalinguistic activity, 851

workplace; structuring of self; psyche; anxiety responses; psychological defenses, 27017

Mind—Books

Everyday mind reading: Understanding what other people think and feel, 3440

Evolutionary psychology: Alternative approaches, 21064

Machine consciousness, 17985

Mind, brain, and language: Multidisciplinary perspectives, 15988

Opening the mind's eye: How images and language teach us how to see, 3739

Mind—Chapters

Asymmetries in affect-laden information processing, 10558

Dissociation and modularity: Reflections on language and mind, 15998

Evolutionary psychology and artificial life, 21071

Forebrain commissures: Glimpses of neurons producing mind, 15618

How could images heal anything?, 23360

Language, mind, and culture: From linguistic relativity to representational modularity, 15877

The missing subject of mind: Toward an inner reformation of cognitive science, 15314

The battle with mortality and the urge to procreate, 13358

Mind Blindness [See Theory of Mind]

Mind Body [See Dualism]

Mini Mental State Examination—Serials

Alzheimer's disease; Mini-Mental State Examination; patient rating; informant; patients, 9366

Alzheimer's disease; Mini-Mental State Examination; patient rating; informant; patients, 9354

cognitive problems; Mini-Mental State Exam; cognitive functioning; assessment; cognitive test; dementia; Mexican-Americans; Hispanics; elderly, 18077

Mini-Mental State Examination; test validation; Spanish version; factor analysis, 21165

Telephone Mini-Mental State Examination; convergent validity; psychometrics; Alzheimer's disease; telemedicine, 24264

Minimum Competency Tests—Serials

concurrent validity; Dynamic Indicators of Basic Early Literacy Skills; Comprehensive Test of Phonological Processing; diagnostic accuracy; phonological awareness; cut-scores; kindergarteners, 9477

Objective Structured Clinical Examination; OSCE; standards; surgical undergraduates; normative data; medical education; Angoff; Ebel; Hofstee methods, 18175

Ministers (Religion)—Serials

African American church leaders; Pastors; community based participatory research; research expectations; research satisfaction, 13292

clergy affairs; infidelity behavior; sexual misconduct; protestant ministers; emotional investment; affair partners; marital dissatisfaction, 34463

ministry demand; Korean American pastors; symptomatic stress; life satisfaction; well-being; expectations; cultural differences, 34453

multiracial people; spiritual care; pastoral care; racial group; America, 29429

narcissism; pastors; attitudes toward self; narcissistic typology; pastoral issues, 25396

pastoral counseling; African American pastors; community mental health, 8578

pastoral ministry; fleshly body, 35830

religion; anxiety; Anglican clergy; sex differences, 25136

Minnesota Multiphasic Personality Inventory—Serials

Chinese Personality Assessment Inventory; convergent validity; personality features; personality scales; cultural context; MMPI-2, 12460

clinical assessment; test validity; personality measures; Revised NEO Personality Inventory; NEO-PI-R; MMPI-2; Minnesota Multiphasic Personality Inventory-2; psychodiagnosis, 104

construct validity; college maladjustment; assessment; university psychological clinic; student clients; MMPI-2, 30393

construct validity; psychometrics; Fake Bad Scale; MMPI-2 profiles; psychiatric inpatients; chronic pain; personal injury evaluations; medical patients; false positive rates; psychological distress, 21136

construct validity; psychometrics; Fake Bad Scale; MMPI-2 profiles; psychiatric inpatients; chronic pain; personal injury evaluations; medical patients; false positive rates; psychological distress, 21146

- construct validity; psychometrics; Fake Bad Scale; MMPI-2 profiles; psychiatric inpatients; chronic pain; personal injury evaluations; medical patients; false positive rates; psychological distress, 21127
- differential prevalence group; impression management; self-deceptive; Minnesota Multiphasic Personality Inventory; underreporting response bias, 21109
- forensic assessment; correlates; Minnesota Multiphasic Personality Inventory; personality; criminals, 6317
- incomplete effort detection; MMPI-2 Fake Bad Scale; mild head injury, 12508
- Infrequency-posttraumatic stress disorder scale; malingered posttraumatic stress disorder; Minnesota Multiphasic Personality Inventory; validation; adult victims of child sexual abuse, 30441
- Infrequency-posttraumatic stress disorder scale; malingered posttraumatic stress disorder; Minnesota Multiphasic Personality Inventory; validation; adult victims of child sexual abuse, 21133
- malingering; depression; forensic evaluation; faking; test validity; Minnesota Multiphasic Personality Inventory, 6330
- military-style treatment programs; adolescents; academic problems; conduct problems; social-emotional functioning; program completion; Minnesota Multiphasic Personality Inventory-Adolescent; boot camp, 23642
- Minnesota Multiphasic Personality Inventory 2 Superlative (S) scale; incremental validity; scale evaluation; psychiatric inpatient sample, 14968
- Minnesota Multiphasic Personality Inventory-2; Goldberg's index; differential diagnosis; bipolar disorder; depression; psychosis, 9390
- Minnesota Multiphasic Personality Inventory-2; infrequency psychopathology; scale revision; malingering; mentally ill; federal defendants, 15046
- Minnesota Multiphasic Personality Inventory-2; MMPI-2; Vietnamese translation; psychological adjustment; refugees; cross cultural validity; test validity, 84
- Minnesota Multiphasic Personality Inventory-2; MMPI-2; response bias; custody litigants; custody disputes, 3171
- Minnesota Multiphasic Personality Inventory-Adolescent; MMPI-A profile; adolescents; normal range profiles; psychiatric inpatients; validity, 147
- Minnesota Multiphasic Personality Inventory-Adolescent; delinquent; treatment setting, 6284
- Minnesota Multiphasic Personality Inventory; MMPI-2; scores; disability intensity; disability duration; HIV; AIDS; chronic illness; psychological disorders; comorbidity, 9391
- Minnesota Multiphasic Personality Inventory; psychological disorders; acute disorder; chronic disorder; infrequency scale, 21130
- Minnesota Multiphasic Personality Inventory; psychology; career; personality assessment, 12459
- Minnesota Multiphasic Personality Inventory; psychopathology; eating disorders patients; anorexia nervosa, restricting subtype; anorexia nervosa, bulimic subtype; bulimia nervosa purgative, 19811
- Minnesota Multiphasic Personality Inventory; racial identity; African American males; college students, 180
- MMPI-2; neurologic symptomatology; closed head injury patients; neurologic correction factors; receiver operating characteristic analysis, 190
- MMPI-2; two point codes; empirical correlates; male psychiatric inpatients, 135
- MMPI-2; validity scale; content responsive; content nonresponsive; faking profiles; corrections sample, 156
- MMPI-2; American Indians; cross cultural comparison, 107
- MMPI-2; American Indians; cross cultural comparison; empirical correlates, 92
- MMPI; profiles; Mayo Clinic; classifications, 6326
- MMPI; workplace sexual harassment; psychological condition; forensic evaluation; emotional distress; validity; discrimination litigants; sex discrimination, 24259
- nonparametric item response theory; IRT; psychopathology scales; construction; psychometric analysis; Minnesota Multiphasic Personality Inventory-2; MMPI-2; depression, 30417
- personality assessment; communication; Minnesota Multiphasic Personality Inventory; self-report, 33529
- personality assessment; cultural boundaries; international test adaptation; cross-cultural test research; cross-cultural assessment; Minnesota Multiphasic Personality Inventory; research accuracy, 33499
- personality assessment; MMPI-2; Minnesota Multiphasic Personality Inventory-2; cross cultural validity; Asians; foreign language translation, 80
- personality assessment; neuropsychology; MMPI; test validity; closed head injury patients; neurocorrection, 143
- posttraumatic stress disorder; male veterans; Infrequency Psychopathology Scale; Minnesota Multiphasic Personality Inventory; symptom overreporting, 33568
- psychometric deviance; personality traits; Minnesota Multiphasic Personality Inventory; high risk; schizophrenia; biologic mothers; adoptees, 30465
- schizophrenia spectrum diagnoses; psychiatric patients; MMPI psychosis indicators; Rorschach psychosis indicators, 30463
- test development; Personality Psychopathology Five scales; Minnesota Multiphasic Personality Inventory; inpatient psychiatric treatment; internal consistency; facet subscales; Item-level analysis, 14971
- test validity; test reliability; psychometrics; personality disorders; Millon Clinical Multiaxial Inventory; Minnesota Multiphasic Personality Inventory, 24275
- Minnesota Teacher Attitude Inventory** [See Attitude Measures]
- Minor Tranquilizers** [See Also Alprazolam, Buspirone, Chlordiazepoxide, Clonazepam, Diazepam, Lorazepam, Midazolam, Oxazepam]—Serials
- stress; social avoidance; anxiety; model; stress-induced anxiety; social behavioral effects; social defeat; chlordiazepoxide; buspirone; rats, 725
- Minority Group Discrimination** [See Race and Ethnic Discrimination]
- Minority Groups—Serials**
- academics; demographics; economics; racial/ethnic groups; academic achievement; minority students; special education representation, 12195
- acculturation; construct validity; minority groups; deculturation, 19031
- adolescents; standardized tests; test performance; test scores; stereotype threat; gender & race gaps; achievement; math & intellectual abilities; Blacks; Hispanics; low-income; females; intervention, 9475
- African Americans; Asian Americans; high school students; ethnic minority; racial discrimination; harassment; school environment, 26968
- African Americans; infant outcomes; home visits; daily living skills; community residents; Mexican Americans; minority families; inner city; low income families; maternal outcome; infant outcome, 11728
- Asian American males; guidelines; online groups; race; culture; gender; class; sexuality, 5733
- at risk children; resegregation; schools; education policies; equal opportunities; minority groups; school desegregation; academic achievement; achievement gap; legal decisions, 12148
- Australian Journal of Family Therapy; disadvantaged minority groups; professionalism, 35478
- Black women; Asian women; White women; social comparison processes; self-evaluations, 22305
- breastfeeding intention; urban minority population; maternal depressive symptoms; mother-infant closeness, 31385
- campus environments; minority students; college campuses; racial tension; diverse school; interracial friendships; ethnic lines, 23911
- cancers news; cancer education; culturally competent approach; inner city community; ethnic minorities; socioeconomically disenfranchised communities; health problems; cancer, 35690
- Catholic religious orders; sociologists; religious orders; creative functions; Catholicism; Protestantism; minority; power, 28209
- clinical psychopharmacology research; minorities; racial & ethnic & cultural factors; experimental subjects; participation; ethics, 12072
- cognitive differences; immigrants; majority groups; educational achievement; work proficiency, 33832
- college admission criteria; affirmative action; laws; minority groups; Grutter v. Bollinger Supreme Court ruling, 3098
- convergent validity; low-income population; minority; health status, 12513
- coping; ethnic minorities; first-generation college attendance; college freshman; college students; narrative, 9032
- cultural considerations; ethnic minority parents; cultural perspective; Adlerian parenting education; minority families, 19052
- culturally effective research; family based research; family therapist; clinical research; empirical research; ethnic minorities families; family-based prevention; cultural sensitive; ethnic families, 32368
- democracy; teenage parents program; feminist counterpublic; stratified societies; subordinated groups; Nancy Fraser; racioethnic differences, 10243
- diabetes care; minority population; low-literacy patient education tool; process care measures; reminder card; country clinics, 8616
- educational benefits; medical school diversity; students; underrepresented minority; public benefits; peer cultural exchange; student perception, 12035
- educational outcomes; low income children; neighborhood effects; gender differences; relocation; poverty; achievement; grade retention; suspensions; expulsions, 26929
- ethnic identity development; diversity training; group self-identification; within-group differences; diversity initiatives; employee perceptions; ethnic background; majority members; ethnic group, 12270
- ethnic minorities; addiction treatment services; heroin users; retention rates; methadone treatment, 26743
- ethnic minorities; ethnic differences; managerial decisions; food service personnel; Whites; Asians; Blacks; tipping; restaurants, 10461
- ethnic minorities; parity; school psychology; demographic characteristics; school psychology programs; graduate training; cultural sensitivity; recruiting strategies, 20742
- ethnic minority communities; ethnic minority individuals; recruitment; retention; aging; promotion; research community, 22192
- ethnic minority group; gender roles; sexual risk; HIV; Bulgaria; Hungary; social health problems; educational opportunities; discrimination; sexual partnerships; sexual risk behavior, 28173
- ethnic minority groups; physical activity; health beliefs; outcome expectations; self efficacy; education level; income level; ethnic differences; physical activity interventions, 11725
- ethnic minority groups; separate psychiatric services; pros; cons, 35356
- ethnic minority groups; separate psychiatric services; pros; cons, 35393
- ethnic minority issues; Asians; exclusion; allied behavior; race relations discussion, 13313
- ethnic minority status; ethnic organizations; racial stereotype; socioeconomic status; upper middle class status; Asian American professionals; Indian Americans; Korean Americans, 10356
- ethnicity; risk factor; posttraumatic stress disorder; Vietnam War; Native Hawaiian veterans; American of Japanese ancestry veterans, 10823
- ethnoracism; sandwiched minorities; colorblind racism; racial matrix of domination; ethnic factors; racism experiences; global factors; multiracial groups; social construction; Puerto Rican Americans, 28223
- formal organization; religious ideology; religious minority; courtyard houses; climate; culture; religion; Iran; Muslims, 12362
- group membership; social comparison; ethnic minority college students, 25284
- identity; racial identity; ethnic minorities; American psychology; graduate students; graduate faculty; recruitment; retention, 9332
- immigration; Asian minorities; Hispanic minorities; history; attitudes; demographic trends, 10345
- intergroup perception; in-group bias; fair mindedness; minority groups; majority groups, 31513
- literacy achievement; Norwegian minority students; reading habits; Programme for International Student Assessment; family background; school motivation; ethnic differences, 33125
- locus of control; work knowledge; mentoring; career; decision making; racial minority; academic institution, 32320
- major depression; minority individuals; health insurance; race-ethnic differences; African Americans; pre-retirement adults; Hispanics; Whites; health burdens; public policy intervention, 10741
- marginality theory; construct validity; minority and ethnic groups; social processes; social science, 10299
- mathematics reform; minority community; school; public school system; poverty, 36144
- mental health services; primary care; integrated psychiatric services; psychotropic prescriptions; psychiatric interventions; psychiatric diagnoses; utilization patterns; medical clinic; AIDS patients, 32694
- minorities; consumer psychology; children's television; commercials; television advertising; content analysis; numerical representation; minority portrayal; stereotyped attitudes, 20996
- minority status; disabled people; rehabilitation education; rehabilitation practice; representation theory; race; culture; ethnic minorities; minority models, 34476
- minority women; forced miscegenation; interethnic relations; race-cultural groups; therapeutic concerns, 23486
- Multi-Attitude Suicide Tendency Scale; psychometric properties; Non-White Individuals; cultural relevance; Blacks; Latinos; Whites; model modifications; test utility; university students, 14976
- multicultural considerations; play therapy; multiculturalism; cultural sensitivity; play therapists; minority status; cultural influences; minority children; minority cultures; ethnic identity, 8413
- multiple minority status; suicidal thoughts; depression; self-esteem; adolescents; racial and ethnic differences; same-sex attracted youths; sex differences; mental health, 31208
- negative effects; performance stereotypes; job stressors; organizational health; racism; discrimination; ethnic minorities, 36328

Volume 91 SUBJECT INDEX

Minority Groups—Serials

nursing research; research samples; minority groups; diversity, 12555
organizational representatives; applicant attraction; minority applicants; white applicants, 14737
peer recruitment; oral HIV testing; minority community; social network recruitment; risk factors, 23470
perceived discrimination; eudaimonic well being; life purpose; minorities; life quality; African Americans; Mexican Americans; personal growth; autonomy; self acceptance; social relations; inequality, 19036
prison service; sex offender treatment; minority sexual offenders; Blacks; program evaluation, 26786
psychiatric admissions; psychosis; NATO bombing campaign; immigrants; stress; minority group status, 11877
psychiatric service use; ethnic minorities; patient characteristics; sociodemographics; black Caribbean; Indian; Pakistani; Irish; whites; psychotic/bipolar disorders; depressive/neurotic disorders, 2386
psychological health correlates; physical health correlates; minority adolescents; coping strategies; gender differences; racial differences; stress, 4146
race differences; ethnic differences; minority women; sexual orientation; lesbianism; sexual identity development; African Americans; lesbians of color; Latinas; Whites; identity disclosure, 31432
racial minorities; mental health professions; self-report measure; mental health professional's attitudes; women; racial and ethnic attitudes; stereotyped attitudes, 26834
racial mistrust; immigrant minority students; White teachers; West Indian students; middle school students; Haitian students; West Indian students, 33150
racial profiling; Mexican American social identity; group stereotyping; stereotypic behavior; minorities; American society; court cases; minority victimization; hegemonic structure; Hispanic identity, 28222
racial profiling; theoretical rationale; contextual examinations; local area profiling; community context; community-level processes; theory links; Miami-Dade County neighborhoods, 28228
racial-ethnic self-schemas; risk of academic disengagement; aschematic; ingroup schema; dual identity; minority identity; African Americans; Hispanics; American Indians; Arab-Palestinian Israelis, 12155
racialized name-calling; visible minority students; racism; adolescent behavior; harassment; violence, 25852
racism; phenotype; cultural identity development; minority Australian adolescents; rural environment, 28226
relevant research; work practices; innovation; newcomers; minority influence; work teams; small groups; social influence, 19109
reluctant partners; legislative intent; Latino college success; underrepresented minorities; college choice; problem definition, 36165
research ethics; experimental design; research samples; population diversity; minorities; quantitative research; qualitative research, 32964
residential segregation; Asian-origin groups; immigrants; ethnic minorities; nationality; demographic structure; big cities; industrial structure; Canada; United States; relative incomes; housing, 16142
risk factors; problem behavior; ethnic minority children; ethnic majority children; ethnic differences, 22056
service satisfaction; minority group; fast food; Asians; cross cultural differences; business service; consumer satisfaction, 12335
sexual health discourses; preventive sexual health; eudaimonic sexual health; sexual pleasure; morality; ethnicity; race, 26533
sexual orientation; lesbianism; gay; bisexuals; male homosexuality; bisexuality; transgendered; people of color; social discrimination; prejudice; research needs; issues of concern, 31427
smoking cessation interventions; ethnic minority groups, 14481
socioeconomic status; minority group discrimination; racial discrimination measurement; social economic discrimination; fruit quality; store bought item; health; supermarket produce, 13320
stereotype threat; cognitive test grades; outcome criteria; minority groups; women; SAT grades; performance relationships; test score differences; data sets, 14999
substance use predictors; racial groups; adolescents; Caucasians; African Americans; gender, 31203
success; binge drinking; inner-city minority youth; economically disadvantaged, 31929
suicides; ethnic minority; mental health services; psychiatric patients; suicide methods; social characteristics; clinical characteristics, 4690
theoretical approaches; world children; holistic perspective; ethnographic data; minority group; tribal children; school; play; work, 15916
transcultural psychiatry; psychiatry training; racial disparities; ethnic disparities; minority groups, 29887

transcultural psychiatry; psychiatry training; racial disparities; ethnic disparities; minority groups; haloperidol; risperidone; olanzapine, 29865
urban education; cultural diversity; ethnic minorities; immigrant children; American urbanism; undereducated; urban public schools; residential segregation; neighborhood resources, 17585
urban education; urbanicity; minority groups; urban school systems; diversity; mobility; human and institutional rigidity; cultural richness; school system financing; school system governance, 17572
US minority populations; psychologist training; clinical supervision; racial diversity; cultural diversity; intrapsychic world; interpersonal worlds; racial/ethnic minority; psychodynamic aspects, 20736
Minority Groups—Chapters
Culturally anchored research: Quandaries, guidelines, and exemplars for community psychology, 18242
Domestic violence interventions with women of color: The intersection of victimization and cultural diversity, 5153
Group work with minority mentally ill men: The role of the woman worker, 5632
Minority stress and mental health in gay men, 4296
Queer invisibility: The case of Ellen, Michel, and Oscar, 23925
Racial and ethnic status: Risk and protective processes among African American families, 10366
Research in ethnic minority communities: Cultural diversity issues in clinical psychology [with vignette by Anne K. Jacobs], 16963
Mirror Image—Serials
dynamic range; color gamut; software applications; pixel values; residual image; original range image, 6525
mirror cognitions; mirror behaviours; body shape; women; body image, 25340
mirror reflections; object picture; shape percept; shape constancy; two-dimensional picture; inherent picture ambiguities, 6494
mirror writing; ambidexterity; sensory & perceptive disturbances; young woman, 3682
naïve optics; mirror reflections; planar mirrors; predictive knowledge; perceptual knowledge; expectations; perceived rotation; errors, 333
visual capture; arm position; reaching performance; mirror illusion; right arm, 33711
Mirror Image—Chapters
Allothetic perception by infants and adults in dialogue: Ego's virtual participation in Alter's complementary act, 4091
Looking for neural answers to linguistic questions, 4064
Mirror neurons and cultural transmission, 4220
Mirror neurons and feedback learning, 6168
Mirror neurons and the neural basis for learning by imitation: Computational modelling, 3742
Mirror neurons' registration of biological motion: A resource for evolution of communication and cognitive/linguistic meaning, 4123
Some features that make mirror neurons and human language faculty unique, 3758
Symmetry building and symmetry breaking in synchronized movement, 4388
Mirroring—Serials
clinician experiences; mentoring; family centered assessment; relationship based treatment; family therapy casebook; professional development; medical family therapy, 32365
mirroring metaphor; psychoanalysis; prereflective immediacy, 26329
Misanthropy—Serials
abjection; camp; misogyny; queer; Edward II; Tilda Swinton, 7589
collegiate rugby; males; college athletes; athletic subcultures; deviant conduct; criminal behavior; homophobia; machismo; misogyny, 27134
gender; interpersonal hostility; organizational context; perceived misogyny; public-sector employees; physical well being; occupational well being; gender ratio, 17869
sexual teachings; power transactions; sexuality; misogyny; homophobia, 25129
Misarticulation [See Articulation Disorders]
Misbehavior [See Behavior Problems]
Miscarriage [See Spontaneous Abortion]
Miscegenous Marriage [See Interracial Marriage]
Misconduct [See Behavior Problems]
Misdemeanors [See Crime]
Misdiagnosis—Serials
panic disorder; hospital emergency departments; misidentification; mismanagement; integrated models of care; health care costs, 35838
Misogyny [See Misanthropy]
Missionaries—Serials
education; school management; missions; secularization; school handover; stakeholders, 33026
Mistakes [See Errors]

Models—Serials

MMPI [See Minnesota Multiphasic Personality Inventory]
Mnemonic Learning—Serials
image vividness; sociodemographic characteristics; high school students; effective approach; keyword method; word lists, 18372
keyword method; rote learning; mnemonic; recall; age differences; foreign language, 7378
memory training programs; number recall; self-generated encoding & retrieval strategies; mnemonics; remembering; cognitive support; verbal cues; older adults, 3386
memory; theta-range oscillations; human EEG; hippocampus; thalamus; hypothalamus; distributed mnemonic networks; theta-rhythmic activity; diencephalon; synchronizing activity; integrating activity, 3786
mid-ventrolateral prefrontal cortex; memory retrieval; mnemonic functions; executive functions, 21616
misinformation; recall; cognitive interview; mnemonics; young children, 22035
spaced retrieval; memory; mnemonic; Alzheimer's disease; dementia, 19957
verbal processing; alcohol intoxication; prelexical aspects; semantic aspects; mnemonic aspects; central physiologic systems; autonomic physiologic systems, 34167
Mobility (Geographical) [See Geographical Mobility]
Mobility (Occupational) [See Occupational Mobility]
Mobility (Social) [See Social Mobility]
Mobility Aids—Serials
cognitive disabilities; powered wheelchair; preschool children; wakefulness; alertness; limb use; training, 17423
enhanced ambulation; Alzheimer's disease; functional mobility; agitation; quality of life; daytime sleeping, 16837
gender differences; map reading; directions; navigation strategy; visual scanning, 6584
head oriented wheelchair operation; disabled people, 16353
life quality; disabled people; powered indoor outdoor electric wheelchairs; mobility; independence; pain; discomfort; health state; social life, 16354
manual wheelchair skills; observational tests; wheelchair skill performance; task performance; physical strain, 71
microswitch program; foot & leg movements; wheelchair users; multiple disabilities; mood; happiness, 34770
mobility technology; long term care; health needs; disability, 29579
natural maps; wayfinding; natural map misalignment; individual differences; anticipation; spatial ability, 31196
risk protocol assessment; wheelchair driving; multidisciplinary assessment; intervention management; patients; wheelchair traffic, 17394
rollers; user satisfaction; community-living users; restricted walking ability; mobility, 17388
spatial requirements; nonhandicapped adults; visual estimation; wheelchairs; walking; locomotion, 15205
wheelchair prescription practices; evaluation; standards; wheelchair user; spinal cord injury rehabilitation unit; occupational therapists; spinal cord injury; clinical intervention, 16754
wheelchair users; homemaking roles; parenting roles; mother experiences; women experiences; physical disabilities, 16200
wheelchair-dependency; multiple sclerosis; risk perception; expectations, 22817
Moclobemide—Serials
bifloxadone; monoamine oxidase-A; inhibitors; baboons; lazabemide; moclobemide; brain; binding, 3875
moclobemide; autonomic function; cognitive functions; antidepressant drug, 21909
Modeling [See Simulation]
Modeling Behavior [See Imitation (Learning)]
Models [See Also Animal Models, Medical Model, Mental Models]—Serials
abstinence violation effect; relapse prevention model; attributions; emotions; perpetrators; domestic violence, 13702
acetylcholine; memory encoding; memory retrieval; fear conditioning; tone induced fear; shock induced fear; Hasselmo cholinergic modulation model; hippocampal disruption; scopolamine; physostigmine, 15801
action phases model; continuing education implementation; goal intention; goal-directed actions; vocational retraining; goal setting; goal implementation intention, 17618
ADAPT; transcending numbers; verbal to arabic numerals; memory retrieval; developmental data; mild retardation, 18003
addictive disorders; drug rehabilitation; rehabilitation process; supraparadigmatic integrative model; integrative psychotherapy, 35406
addictive-self model; recovery; addictive behavior cessation; gender differences; age differences; ethnic differences; drug preference, 32769
adolescent depression; externalizing problems; comorbidity models; inpatient sample, 25554
Ahsen's Image Model of Education; imagination; learning processes, 14623

- alcohol expectancies; antecedents; risk factors; protection factors; expectancy mediation; common expectancy factors; unique expectancy factors; models; biopsychosocial risk, 10976
- alternative parameterizations; measurement model; test agreement; test development, 30522
- anger management style; blood pressure reactivity; pain sensitivity; trait situation models, 25326
- anger; anger management paradigm; human experience; clinical implications, 29270
- anticonvulsant activity; N-acetyl-1-aryl-6,7-dimethoxy-1,2,3,4-tetrahydroisoquinoline; mice; quinoxaline; benzodiazepines; seizure models; diazepam; GABAergic neurotransmission; NMDA-induced seizures, 12995
- ascriptive inequality; race disparities; sex disparities; models; mechanisms of inequality, 22159
- assessment center; multitrait-multimethod; matrices; postexercise dimension ratings; variance components; confirmatory factor analysis; dimension estimation; construct validity, 15114
- associative learning; conditioned stimuli; predictive relationship; models, 27623
- associative recognition; modeling; high-threshold signal detection; mixture distribution, 9666
- attachment models; self-esteem; human-esteem; parental treatment; early childhood experiences, 31231
- attitudes; motivation; second language learning; socioeducational model, 4050
- attribution-of-blame model; judgments; injustice, 7639
- auditory sources; auditory evoked fields; source modeling; pediatrics; models; temporal lobe, 10199
- autonomic control; obstructive sleep apnea syndrome; respiratory sinus arrhythmia; arterial blood pressure; systolic blood pressure; respiration; R-R interval, 4841
- autoregressive models; latent trajectory model; autoregressive latent trajectory model, 21213
- awareness; early stage Alzheimer's disease; models; conceptual frameworks; neuropsychological & psychiatric & psychosocial factors; biopsychosocial model; intervention; care, 26129
- basal ganglia; involuntary movements; voluntary movements; dysfunction; movement disorders; chorea; dystonia; tics; model, 13977
- behavioral symptoms; psychological symptoms; dementia; Needs Driven Dementia Compromised Behavior model; symptom escalation patterns; symptom de-escalation patterns, 16842
- BESAFE model; cultural competency; health care delivery; HIV management; African Americans, 23511
- bilingual memory; language organization; language knowledge; mechanisms; interactive-activation models; connectionist models; memory processes, 27538
- bind cue decide model of episodic memory & word recognition as Bayesian context noise model & application to item noise & dual-processing approaches to recognition memory, 27535
- biomedical model; outcomes model; health care evaluation; quality of life, 5115
- body dissatisfaction; perfectionism; self esteem; bulimic pathology development; etiologic models, 26004
- bulimia; epidemics; college students; peer pressure; model; women, 8086
- bullying; peer victimization; linear mixed models; change in dominance, 3281
- business teams; business teams performance; team performance; connectivity; positivity; negativity; nonlinear dynamics model, 20950
- Canadian population health model; socioeconomic health determinants; health knowledge; health policy; practice implications; sociopolitical factors; interest group power; citizen health; agency, 14318
- career success; industrial-organizational psychologists; model; sponsorship, 30134
- caregiver interventions; passive behaviors; dementia; Alzheimers disease; need driven dementia compromised behavior model, 16746
- categorization strategies; complex perceptual categorization; category membership; exemplar model; unified model; knowledge partitioning, 30746
- category learning; SUSTAIN; network model; surprising event; category construction, 18006
- Cattells Personality Factors; Eysencks Dimensional Model of Personality; adolescents, 22375
- causal model theory; conceptual representation; categorization; causal knowledge; category features, 382
- causation; causal models; lexical semantics; verbs, 4062
- children; adolescents; psychiatric inpatients; restraint; seclusion; prevention; strength-based care; models; systems approach; intervention, 11869
- chronic illness; chronic illness care; health interventions; chronic care model, 20531
- cigarette smoking; psychopathology; self-medication model; personality traits; antisocial personality; orbitofrontal; executive function, 10979
- classification; soiling; encopresis; treatment protocol; paediatric bowel elimination disorders; effective treatment; etiology; theoretical model, 32102
- close in model; ultra-high risk model; research; strategies; prepsychotic mental disorder; clinical intervention; prodromal phase; Personal Assessment and Crisis Evaluation; prevention, 20418
- cognitive abilities; age differences; alternative model representation; general factors constructs; nested factor model; specific group factors, 15981
- cognitive disturbance; elective surgery; Taiwanese patients; post-surgical cognitive disturbance; confusion; prediction; models; post-operative delirium, 22971
- cognitive evaluation; interpersonal attraction; target individual; attitude similarity, 22929
- cognitive mediation model; news reliance, 30656
- cognitive model; binge drinking; alcohol expectancies; regular heavy drinkers; prevention strategies; problem drinkers; drinking styles; drinking refusal self-efficacy, 11010
- cognitive status; binary outcomes; models; generalized estimating equations; logistic regression models; methods, 3278
- cognitive-emotional model; Carl Rogers; person-centered approach; personal growth; cognitive neuroscience, 2001
- cognitive-vulnerability-stress models of depression; affective specificity; prediction; anxiety; symptoms; overlap; etiologic factors; hopelessness theory; Beck theory of depression; negative events, 28642
- Combined-Integrated model; doctoral training; professional psychology, 35969
- Combined-Integrated model; doctoral training; professional psychology, 35988
- concepts; relational structure; structural analysis; item response theory; interactions between the items; local item dependency; modeling, 6415
- conceptual complexity; conceptualization; multiagent model; learnability; concept learning; working memory, 18340
- conceptual system; semantic memory; exemplar models; feed-forward connectionist nets; situated simulation theory; architecture; representation; abstraction; stability; organization, 3348
- conflict escalation model; verbal aggression; physical aggression; structural equation model; model development, 27303
- connectionist model; lexical processing; token effects; type effects; Dutch past-tense formation; final devoicing; verbs, 27985
- connectionist model; person impression formation, 19154
- constraint construction; self-organizing systems; food foraging; ant colony; agent based modeling; structure formation, 33384
- consumer behavior; Internet; apparel shopping; model, 9199
- consumer patronage; retail environment; consumer lifestyle orientation; belief-attitude-behavior intention model, 36455
- contextual variables; choice behaviors; engineering majors; models; social cognitive career theory; social cognitive theory, 2701
- contingency information; causal judgment, 30547
- design process; task analysis; scenarios; cognitive perspective; task based knowledge; HCI knowledge; symbiosis; synergy; task models, 17942
- diffusion of innovations model; historical background, 28405
- directional harmonic model; harmonic resonance theory; perceptual grouping; computer simulation; collinear contours; Ehrenstein illusion; Kanizsa figure; orthogonal contours; illusory contours, 3324
- disability; rehabilitation; paradigms; theoretical frameworks, 22413
- disability; rehabilitation; paradigms; theoretical frameworks, 22421
- dissociation; conversion; somatization; medically unexplained illness; model, 35173
- distraction; response activation; movement trajectories; nontarget stimulus; goal-directed movements; response activation model; selective reaching, 30652
- distress; standards; screening; clinical screening programs; computerized quality of life screening; screening instruments; models; economic costs; psychosocial oncology, 5400
- domestic violence; child abuse; family court; Western Australia; litigation processes; cost outcome analysis; models, 12401
- dual process model; conceptual combination; perception; semantic similarity; comparison; integration; attribution, 9648
- dynamic consistency; preference reversal; reference point; isolation-integration; decision making; gamble; dynamic inconsistency; models, 357
- e-mail; psychotherapy; therapists; adjunctive model; communication; crisis intervention, 2005
- early adolescents; Big Five model; PEN model; Giant Three model; personality development, 22099
- elimination by aspects model; parameter estimation; choice modeling, 6387
- episodic situation model; factorisation; primary school pupils; comprehension; problem-solving strategies; situation model; word problems; procedural models; arithmetic, 13170
- epistemological belief system; personal epistemology; education; embedded systemic model; coordinated teams approach to research, 18836
- Erik Erikson; life cycle model; human males; health; generativity; developmental stages; predictors, 24928
- ethnic prejudice; cognitive models; information processing models; persuasion models; principles; public campaigns, 1085
- etiology; comorbidity models; Neale and Kendler model-fitting approach; model validity, 25484
- event-based prospective memory; multinomial model; prospective memory processes; preparatory attentional processes; retrospective memory, 24518
- Everett Rogers; Diffusion of Innovation Model; social change; health promotion; health communication; health education, 29561
- everyday life experiences; life meaning; rehabilitation service delivery; meta-model; relationships; activity engagement; everyday life experiences; individual differences; self knowledge, 11790
- exemplar model; prototype model; attentional allocation; category learning; response rule flexibility, 397
- exemplarian action research; individual approach; demand driven approach; research projects; labor market, 6464
- explanatory models; etiology; mental distress; psychiatry, 5101
- extraversion; self-esteem; social support; positive affect; negative affect; optimism; direct effects model; mediating model, 10618
- familiar words; dual route model; single route model; picture naming; auditory repetition; aphasic patients, 19986
- Ferguson model; personality; religious personality; coping style; religious mental health; religious orientation, religious coping; health; stress; positive affect; negative affect; life satisfaction, 22353
- forced-choice decision making; take the best model; rational model; judgments; feedback, 27507
- formal models; social science theory; bounded rationality; multiple equilibria; practical tools; rational choice models; formal theory; real behavior; decision dynamics, 13425
- gender role; Tannen Model; gender; communication; gender differences; message interpretation, 25191
- grooming behaviour; goats; sheep; self-grooming; developmental determinants; wool; shearing; programmed grooming model; hair-coat determinants, 15399
- group dispersion; member to group generalization model; stereotype change; deviant group member; group judgments; group stereotypicality & prejudice, 34609
- growth mixture models; latent trajectory classes; statistical estimation; statistical distribution; mathematics achievement; high school dropout; prediction, 6413
- growth mixture models; latent trajectory classes; statistical estimation; statistical distribution, 6414
- growth mixture models; latent trajectory classes; statistical estimation; statistical distribution, 6395
- growth mixture models; latent trajectory classes; statistical estimation; statistical distribution, 6389
- growth mixture models; latent trajectory classes; statistical estimation; statistical distribution, 6388
- harm reduction; substance abuse treatment; social work practices; treatment planning; social workers; 12 step programs, 8874
- health belief model; transtheoretical model; physical activity; African-American college women, 35680
- health care cost; pharmaceutical therapies; pharmacoeconomic analysis; budget impact model, 8364
- hemispheric specialization; hemispheric independence; hemispheric interaction; word recognition; lexical decision; cognitive theories; neural network models, 24717
- heterogeneity; expectations; currency crisis; markets; equilibrium; market maturity; portfolio allocation, 31284
- heterogeneity; social networks; models; social relationships; psychological outcomes; positivity & negativity & outcome-specific & ambivalence models; psychological distress; well-being; prediction, 25288
- history of research; adolescent development; phases; models; developmental plasticity; hypothesis testing; diversity; application to real-world problems; developmental science; policy makers, 10151
- history; Synectics; creative problem solving techniques; creative processes; business needs; meeting models; group discussion, 17800

- history: Synectics; creative problem solving techniques; creative processes; business needs; meeting models; group discussion, 17799
- homosexuality: psychoanalysis illness model; psychotherapy; psychiatric textbooks; bisexuality; sexual orientation; Finland; psychiatric training, 2637
- human behavior: responsibility; social worker; five stage model; behavior change, 32711
- human learning: simple recurrent network; connectionist models; artificial grammar learning; chunking behavior, 9701
- infant visual foraging: visual information; stimulus characteristics; behavior, 24974
- information processing model: cortical regions; left parietal region; left prefrontal region; motor region; symbol manipulation, 24646
- innovation cycles; information technology; language teaching, 36131
- integrated model of personal epistemology; beliefs; metacognition; affect; cognitive abilities; educational practice; mechanisms of change; environment; reciprocal causation; conditions for change, 18832
- interdisciplinary communication: conceptual frameworks; nonmedical health determinants; socioeconomic health determinants; health care policy; scientific research; public policy, 14321
- interdisciplinary work: social workers; interdisciplinary collaboration; models; social work literature; professionals; interdisciplinary teams, 8945
- intergroup conflict: identity affirmation; leadership; recognition; ARIA model, 18042
- inverse base-rate effect: cues; eliminative inference model; attention-shifting; attentional theory, 377
- inverse base-rate effect; cues; eliminative inference model; attention-shifting; attentional theory, 394
- IRT observed-score equating: three-parameter logistic model; score equating methods; asymptotic standard errors, 15137
- isochronous tapping: motor coordination; timing drift; Wing-Kristofferson model; tempo; musical tapping, 33759
- knowledge: interest; strategic processing; special education; special education majors; undergraduates; graduate students; special education faculty; expertise; Model of Domain Learning, 36039
- latent growth curve; ordinal outcomes; adolescent development; smoking; threshold invariance; continuous latent variables; ordinal response pattern; growth models, 30537
- latent state trait theory: hierarchical models; variance components; measurement error; covariances; third order factor; confirmatory factor analysis, 18224
- leadership effectiveness; manager effectiveness; universalistic models; contingent models; manager behaviors; supervisory leader behaviors; comparative study; criteria of managerial effectiveness, 30161
- learning difficulties; leisure; support model; access model; sports participation, 4786
- learning theories; resource allocation; global search model; local adaptation model; expectations; history of past decisions vs most successful previous decision; decision making, 384
- learning transfer; holistic approach; systemic model, 36288
- lexical decision; aging; response time; diffusion model analysis; response accuracy, 25106
- lexical decision; decision process; evidence accumulation; words; lexical processing; models; REM-LD; retrieving effectively from memory-lexical decision, 27524
- lognormal model; response times; computerized adaptive tests; Bayesian posterior predictive checks; classical procedures; examinee behavior, 15160
- longitudinal research; demand-control-support model; job strain; job demands; job control; work characteristics; health; well-being, 2949
- loss aversion; inhibition; multialternative choice; dynamical models; similarity effects; compromise effects; attraction effects; attention switching, 27522
- Machiavellianism; volitional model; alexithymic; emotions; emotional connections; relationship formation; successful psychopathy, 10868
- managers' risk preferences; March-Shapira model; survival; aspiration levels; organization performance, 36259
- markov chain monte carlo; item response function; estimation procedure; item response theory; bayesian estimation; latent response; unfolding response models; data augmentation, 18198
- marriage counseling; Glasser's model, 32354
- marriage; contemporary culture; theoretical models; family theory; marital interventions; Christian marriages, 1097
- mediational models; longitudinal data; structuring equation modeling; methodology, 6394
- memory circuits; language; declarative model; procedural model; brain structure; temporal lobe; declarative memory, 21707
- memory retrieval; cue selection; parallel access; responses; recall; models; attention, 27564
- mental health care; models; advance directives; mental health professionals, 32938
- mindfulness; definition; measurement; meditation, 30695
- mindfulness; operational definition; model; temporal stability; situational specificity; behavior; experiences; psychological processes; measurement; conceptual framework, 30657
- model fit; structural equation modeling; psychopathology; statistical errors, 6418
- models; elderly depressed patients; psychotic depression; melancholic depression; non-melancholic depression; three-class depression sub-typing model; psychopathology, 10758
- morphosyntactic gender features; bilingual language processing; linguistic representations; models, 28014
- multicollinearity; multilevel model parameter estimates; standard errors; predictors; model characteristics, 6457
- multidimensional space; hue; form; perceptual processes; decisional processes; multidimensional space; regression model, 6493
- multilayer neural networks; learning model; algorithm; local minima escape; global convergence; exclusive or & parity problems; alphabetic characters & Arabic numerals learning; ionosphere data, 18008
- multilevel meta-analysis; models; statistical techniques, 263
- multimodal integrative cognitive stimulating group therapy; schizophrenia; models; treatment; psychopathology, 5219
- multivariate generalizability model; clinical skills assessment; medical students, 9352
- multivariate multinomial logit models; dyadic sequential interaction data; imagery play therapy, 9347
- narrative circulation; narrative meaning structures; existence models; experiential mode; life interpretation; model, 31018
- naturoids; technology; cognitive model; natural objects, 30279
- need driven dementia compromised behavior model; behavioral symptoms; dementia, 16841
- neurobiological model; theory of mind; developmental disorders; temporal region; parietal region; prefrontal regions; mind impairments; psychiatric disorders; neurobiological mapping, 12798
- neuron computation; spiking neuron; action potentials; complex dynamical input, 9904
- nonlinear dynamics; occupational accidents; self-organization; nonlinear dynamical systems theory; chaos; cusp catastrophe model, 6075
- nonword naming: Dual Route Cascaded model; stimulus quality; skilled readers; neighborhood density; additive effects; reaction time; word frequency; spelling sound regularity; nonword letter length, 15297
- Norman Endler; obituary; interactional model of personality, 14558
- normative model; belief in task parameters; participant skepticism; confidence in forced-choice tasks, 30682
- novel sentences; dual process language model; speech; language behaviour; language creativity, 34229
- nurse anesthetists; theatre nurses; perioperative dialogue model; surgery patients; nurse patient relations, 2404
- obsessive-compulsive disorder; symptom-based taxonomy; subgroup taxonomy, 25698
- organizational identity; model; organizations; identification; disidentification; ambivalent identification; neutral identification; validity; individual differences, 14725
- organizational leadership; leadership models, 36374
- organizational structure; organizational practices; workplace learning; multinational corporations; models, 14718
- pantomimes; gestures; working memory; cognitive models; praxis; cognitive processes; perception, 8210
- parent-child mutual recognition model; disturbed adolescents; treatment resistance; responsibility; cooperativeness; parents; biosychosocial systems theory; relational psychoanalysis, 35487
- partial effect sizes; statistical properties; d-effect size; theoretical models; covariates; synthesis; gender performance differences; academic performance, 30530
- performance; emotional capability; knowledge-intensive work groups; model; social interactions, 27107
- person-fit index; latent class models; polytomous Rasch models; mixture distribution IRT models; response patterns, 15140
- personality; life stress; diathesis stress models of depression; personality models; social context, 19413
- personality; life stress; diathesis stress models of depression; personality models; social context, 19414
- personality; life stress; diathesis stress models of depression; personality models; social context, 19363
- personnel turnover policies; organizational performance; corporate culture; global behavior; heterogeneous agents, 33292
- physical illness; health problems; adaptation; chronic illness; rheumatoid arthritis; adjustment; models, 32115
- polytomous data; multilevel logistic regression; rankings; coefficient structures; estimation; prediction; model framework; elections, 15158
- population growth; carrying capacity; conflict; population growth model; multitrajectory model; reproductive behavior; population behavior, 13282
- population health; models; public health practice; public health policy; public health research, 14362
- post acute schizophrenia; subjective quality of life; objective indicators; psychopathological syndromes; psychosocial factors; models; predictors; comorbidity; depression; anxiety; coping, 1467
- post-treatment alcohol use; Zweben and Cisler model; drinking consequences; detoxified alcoholics; drinking categories; drinking patterns; client characteristics; psychosocial functioning, 8860
- predictive model; exercise behavior; elderly; self-efficacy, 17251
- predictor variables; item response theory; measurement error; Bayesian modeling, 15128
- predoctoral curriculum; clinical psychology graduate training; psychopharmacology training; models, 20735
- prefrontal cortex; object-place learning; attribute specificity model; brain lesions, 6801
- primary medical care; after-hours services models; clinical outcome; patient satisfaction; medical workload; general practitioner satisfaction, 5551
- program theory; therapeutic recreation practice models; program theory evaluation; theory-based practice; self determination; enjoyment enhancement model, 32209
- Project on Elite Athlete Commitment; PEAK; Sport Commitment Model; external validity; athlete attitudes; interview process, 284
- Project on Elite Athlete Commitment; PEAK; Sport Commitment Model; model constructs; model generalizability, 283
- propulsion model; creative leadership; leadership model, 34614
- prototype model; exemplars; classification; category structure, 24460
- psychiatric research & practice; personal experience colonization; problems of human living; Tidal Model; mental health recovery & reclamation model; narratives; mental health care, 5520
- psychiatric therapy; Georgian Britain; moral treatment; madness; models; classical moral treatment; pious fraud; charismatic stewardship; psychiatric patients; insanity, 6223
- psychoanalytic models; development models; pathology; psychological functioning, 31105
- psychoanalytic thought; psychoanalytic theory; world hypotheses model, 1314
- psychological models; landscaping technique; retention; data informativeness, 27444
- psychological support; foster carers; consultation service; psychological advice; consultation models, 35794
- psychologist role; public health care system; primary care; models, 32225
- psychologist role; public health care system; primary care; models, 32237
- psychologist role; public health care system; primary care; models, 5130
- psychopathology research; structural equation modeling; latent trajectory models, 6396
- psychosocial factors; individual differences; perceived severity; functional dyspeptic symptoms; psychosocial interactionist model, 16589
- psychosomatic medicine; Freud; Pierre Janet; psychosomatic illness; physical symptoms; mind-body problem; hysteria; psychoanalysis; Janet's model, 1328
- psychotherapy integration movement; constructivist view; theoretical integration; models, 26236
- public health; diffusion of innovations model; communication system; innovation; communities, 28388
- quality of service; forensic rehabilitation hotel; occupational therapy service; Canadian Model of Occupational Performance, 8877
- quaternary temperament model; defense cluster preferences; extraversion; introversion; thinking; feeling; Myers-Briggs Type Indicator; Defense Mechanisms Inventory; college students, 7684
- race model; nonparametric approach; null hypothesis testing; redundant signals effect, 6411
- rape; offence processes; rapists; child sexual offenders; relapse prevention model, 35006
- relational meanings; nonverbal behavior; nonverbal matching; matching behavior; social meaning; messages, 4397
- religiosity; personality; Eysenck's three-factor model; age differences, 22346
- representational development; planning; reflection; symbolic thought; early childhood models; High/Scope; Tools of the Mind; Reggio Emilia; developmental psychology, 10174

representational knowledge; knowledge units; multinomial model; model parameters; mental operators; abstract content; congruent items, 30683

Ressorla-Wagner model; learning theory; Pavlovian conditioning; interactive simulation, 30013

reverberatory circuit model; self-feedback loop model; short-term memory; central nervous system; memory formation; neural activity; computational model, 3647

rufous hummingbirds; risk sensitive foraging decisions; reward distributions; twin threshold model; preference reversals, 3516

rural areas; integrated human services; social work; Canada; collaborative human services; rural model; rural communities, 11835

Schedule for Nonadaptive and Adaptive Personality model; SNAP; personality disorders; borderline; schizotypal; avoidant; obsessive-compulsive; major depression, 159

schizotypy; health; paranormal beliefs; paranormal experiences; quasi-dimensional model; fully dimensional model, 28788

self-verification model of depression; interpersonal rejection; heterosexual dating relationships; couples; depressive symptoms; negative feedback-seeking; self-esteem, 25604

semantic relevance; semantic disorders; concept representation; semantic memory; models; category specificity, 18261

semantic representations; hemispheric asymmetries; neural network models; semantic processing; right hemisphere; foveal splitting; cerebral hemispheres; orthography, 15215

sequential models; data driven approach; theory based approach; data-driven interpretations; behavior, 33636

sequential sampling model; reaction time; two choice decisions; response time distribution, 15296

serial killers; serial murder; organized vs disorganized typology; models; forensic psychology, 31967

service delivery model; Transition Service Integration Model; public schools; rehabilitation systems; developmental disability system; non-profit agencies; support needs, 17767

set covering with item sampling; linear programming test assembly models; model infeasibility, 33609

sexual fantasy; sexual offenders; sexual offenses; sexual fantasy function model, 1576

sexual functioning; middle aged women; partner-related factors; feelings; sexuality; model, 25211

sexual recidivism risk; sexual offenders; risk assessment; risk factors; multidimensional model, 31859

sibling violence; sibling abuse; integrated analytical model; parent-child relations; sibling relationship; social learning theory; feminist theory; conflict theory, 25817

side-bet theory; three-component model; organizational commitment; high-sacrifice continuance commitment; turnover intention, 30119

similarity measures; categorization models; geometric distance, 30546

single model trap; model integration; assertive community treatment; ACT; psychiatric rehabilitation; rehabilitation model; case management technology, 17419

situational characteristics; cross-cultural differences; cross-cultural psychology; personality psychology; social-cognitive model; dynamic constructivist approach; cultural variations, 13306

social class; counseling; Social Class Worldview Model; Modern Classism Theory, 23138

social dominance evolution; game theoretical model; winner and loser effects; rank differentiation; conflict, 9797

social-cognitive model; high school girls; choices; nontraditional college majors; aspirations; self-efficacy; outcome experiences; science; math; engineering, 2704

sociolinguistic analysis; fundamental differences; colonial history; English worldwide; model, 10096

spatial distance effect; anaphor resolution; mental model; text comprehension; situation model; semantic priming; selective attention; spatial organization; anaphor referent; reading comprehension, 367

special issue introduction; career systems; higher education; academic career models; academia; cultural differences, 20793

sports participation; perceived health; Spanish adolescents; models; smoking; alcohol use; anxiety; depression; psychophysiological symptoms; perceived physical fitness, 10251

sports; judge performance; quality control parameters; judges scoring patterns, 30243

statistical models; hierarchical linear models; layered mixed effects models; simple fixed effects models; empirical comparison; value-added assessment; school performance, 26951

statistical test; null hypothesis; probability models; data generating process; Discrepancy Risk Model Selection Test, 14962

structural equation modeling; leadership styles; leadership model; cross-national stability; managers' perceptions, 27060

structural equation models; missing data; structural equation modeling; maximum likelihood, 6385

student achievement; multidimensional measurement; unidimensional Rasch model; Multidimensional Random Coefficient Multinomial Logit model, 9471

success conditions; school's self-evaluation; European experience; technical models; participating models, 17577

supervision; group work; models; cognitive complexity; group counselors; intervention, 26808

survey methodology; cognitive aspects; psychometric models; cognitive models; item response models; quality of life assessment, 21212

symptoms; memory; schizophrenia; Frith's model of willed action; stimulus-driven action systems; willed-driven action systems, 25682

teasing; intrapersonal factors; interpersonal factors; social interactionist model, 31492

The Interagency Planning and Support Project; education; human service plans; Interagency Planning and Support model; service delivery, 5574

therapeutic community; treatment modality; practical application; models; children; adolescents; psychoses; offenders; learning disabilities, 29725

three-factor model; schizotypal personality; age; gender, 1548

transactional model; relationship commitment; jealousy; relationship insecurity; emotional arousability; dating relationships; marital relationships; couples, 1188

transcranial magnetic stimulation; specific cortical areas; cognitive neuroscience; psychological models; cognitive functions; cognitive studies, 530

transformational model; stage of change; self efficacy; decisional balance; smoking cessation; exercise adoption; dietary fat reduction; low income; gender differences, 11730

treatment models; intervention research; research design; psychotic prodrome; early intervention; subschizophrenic symptoms; treatment models; methodology; schizophrenia, 18215

tripartite model of depression anxiety; older adults; psychiatric outpatients; factor models; anxiety symptoms; affect measurement, 34819

Tucker3 hierarchical classes model; three-way three-mode data; algorithm; hostility data, 18194

ugliness; psychoanalytic model; aesthetic sense; fantasies, 2098

unspecified models; everyday predictions; sampling; symmetry; judgment, 27519

value-added assessment; educational assessments; model of growth; statistical analysis, 26940

value-added student assessment; value-added models; estimation; teacher effectiveness; student growth; potential outcomes; causal effects; causal assessment; reward structure, 26862

value-added student assessment; value-added models; estimation; teacher effectiveness; student growth, 26868

ventral streams; dorsal streams; functional anatomy; language; speech perception; vision; anatomy of language framework, 21596

visual information; neural representation; classification objects; human visual system; generative models; ideal observer analysis; classification image techniques, 21287

visual scenes; image statistics; Bayesian & Manhattan world & null hypothesis models; viewer orientation; estimation; 3 dimensional scene structure, 17972

visual working memory; computational neurodynamical perspective; neurons; prefrontal cortex; integrate-and-fire network; models; single-neuron & fMRI data; short term memory, 24668

Wilbers All-Quadrant Model; constructive postmodern counseling research; constructive postmodern counseling practice; holon; individual holons, 7283

within group differences; between group differences; common factor model; test scores, 3282

working memory; conscious experience; consciousness; Global Workspace theory; cognitive architecture; Intelligent Distribution Agent model, 21361

workplace affect; workplace creativity; creative performance; integrative model, 27080

worship; Alzheimers patients; ministry; care facilities; theological models, 35297

Models [See Also Animal Models, Medical Model, Mental Models]—Books

Computational developmental psychology, 888

Evolutionary dynamics and extensive form games, 829

Managing chronic illness using the four-phase treatment approach: A mental health professional's guide to helping chronically ill people, 8387

Practical magic: A translation of basic Neuro-Linguistic Programming into clinical psychotherapy, 2025

School-based mental health services: Creating comprehensive and culturally specific programs, 9053

An Alternative Test Procedure for Meta-Analysis, 273

Brokering knowledge: Linking learning and innovation, 6060

Building bridges over troubled waters: A bridging model for teleconferencing group counselling, 4026

Classification and assessment, 22662

Common sense models of illness: Implications for symptom perception and health-related behaviors, 2363

Common-sense models of illness: The example of hypertension, 16661

Community-based interventions, 16656

Dynamic networks and other thought systems: Remote ramifications of a focused persuasive communication, 10559

Evolutionary psychology and the information-processing model of cognition, 21069

Experimental evidence for stages of health behavior change: The precaution adoption process model applied to home radon testing, 17281

A four-phase approach to understanding chronic fatigue syndrome, 16652

A framework for preventing suicides in adult correctional facilities, 2548

A Generalized Linear Model Incorporating Measurement Error and Heterogeneity Applied to Meta-Analysis of Published Results in Hodgkin's Disease, 297

The group as mentor: Social capital and the systems model of creativity, 1195

The hyperbolic consumption model: Calibration, simulation, and empirical evaluation, 17934

The importance of the question in the judgment of abilities and opinions via social comparison, 4428

In search of how people change: Applications to addictive behaviors, 16900

The information-motivation-behavioral skills model: A general social psychological approach to understanding and promoting health behavior, 2360

Language evolution and innateness, 15992

Learning and diagnosis of learning results, 17586

Linguistic models, 15997

Mental disorders as discrete clinical conditions: Dimensional versus categorical classification, 22479

Meta-Analysis in Hospital and Clinical Epidemiology, 296

A Meta-Analysis of the Theory of Reasoned Action and the Theory of Planned Behavior: The Principle of Compatibility and Multidimensionality of Beliefs as Moderators, 304

Models and practice of diversity management: A historical review and presentation of a new integration theory, 2880

Morphological disorders, 4828

A neurocognitive model of the psychopathic individual, 16493

Occupational stress: Toward a more integrated framework, 6077

The parametric unimodel of human judgment: A fanfare to the common thinker, 15316

A parametric unimodel of human judgment: Integrating dual-process frameworks in social cognition from a single-mode perspective, 4421

Partner learning systems, 5886

Partner learning: The power source for students, school and communities, 5889

Phase-based interventions, 16653

Poverty and discourse, 10329

Predicting young adult's health risk behavior, 16309

Psychological interventions for cancer patients, 17137

The psychology of lateness, absenteeism, and turnover, 6033

Psychosocial models of the role of social support in the etiology of physical disease, 16102

Reasoned action and social reaction: Willingness and intention as independent predictors of health risk, 16048

Recruitment and selection: Applicant perspectives and outcomes, 6004

Relating the Five-Factor model of personality to a circumplex model of affect: A five language study, 4491

Resilience and growth in high-risk professions: Reflections and future directions, 20939

The self-in-talk: Toward an analysis of interpersonal language and its use, 10522

Self-regulatory strength, 13511

The size of context effects in social judgment, 4409

A social reaction model of adolescent health risk, 2362

The socially induced burnout model, 12300

The Soldier Adaptation Model (SAM): Applications to peacekeeping research, 2993

Stage theories of health behavior: Conceptual and methodological issues, 17282

Taking the scientific path: A road map for applied psychology students, 2642

Testing four competing theories of health-protective behavior, 17280

Volume 91 SUBJECT INDEX

Models—Chapters

Understanding relationships among trauma, posttraumatic stress disorder, and health outcomes, 10848
Work motivation and the peacekeeper, 3000
Young children with mentally ill parents: Resilient developmental systems, 4166

Moderate Mental Retardation—Serials

challenging behaviors; moderate mental retardation; severe mental retardation; positive behavior support plan; augmentative & alternative communication intervention, 17004
different therapists; functional analysis outcome; family members; direct care staff members; problem behavior; moderately mentally retarded; attention deficit disorder, 17006

Modernization—Serials

environmental consequence; modernity; sustainability; ecosystems; sociological theories; human environment interactions; political economy; geographical factor; political freedom, 9225
exceptional women; expert culture; female Shakespeares; feminism; female literary modernists; academic feminism; political reform; intellectual engagement, 7567
growing literature; market capitalism; cultural contexts; factor analysis; free market, 16111
human agency; organizational arrangements; organizational forms; human involvement; employment trends; labour trends; modernity; bureaucracy; modern humans; modular man; contingency; selectivity; work, 2951
modern behavior; origins; autonomous speech; FOXP2 gene; language development; human evolution, 15854
modernity; traditionality; junior high school attainment; family background; gender inequality; education; city size; region, 33115
modernization; elder abuse; Arab-Israelis; social isolation; urbanization; elderly persons; abused elders, 22637
moral panic; risk society; modernity; social anxiety; Sheldon Ungar; social control; public safety; conceptual issues; uncertainty, 16090
portable community; modernization; bluegrass music; festival culture; geographic mobility, 34445
social groups; life satisfaction; modernization; quality of life; economic condition; education; ownership class; income; age, 25328

Molindone—Serials

neurocathartosis; involuntary movements; drug therapy; molindone; divalproex, 35649

Monetary Incentives—Serials

academic performance reward & recognition; faculty perception; incentive level; clinical practice volume; academic productivity; rank; administrative responsibility; department mission & activities, 23734
contingent payment model; smoking cessation; nicotine withdrawal; monetary incentives, 5686
data quality; monetary incentive; reference person; telephone survey; response rates; prepaid incentives; households, 21232
hepatitis B vaccine; injection drug users; monetary incentive; hepatitis B virus; HIV vaccine, 11736
monetary incentives; mail survey response; cost-effectiveness; inducement size; consumer mail surveys; organizational mail surveys, 24063
online auction market; digital certificate; certification authority; economic incentive mechanism; fraud, 17925
prepaid monetary incentives; Internet; web-based surveys; online money transfer; promised incentives; mail surveys, 10117
prepaid monetary incentives; response rates; consumer and organizational mail surveys, 36380
service system; psychiatric hospitalization; system performance; New Hampshire incentive financing policy, 17319
single target; dual target; brief abstinence incentive; drug abusers; motivational incentives; methadone maintenance patients; cocaine abstinence; cocaine and heroin abstinence, 2498

Monetary Rewards—Serials

decision making; state lotteries; half jackpot; annual payments; uncertainty, 18311
delay discounting; probability discounting; adolescent smoking; monetary rewards; peers; parent education, 4143
delay discounting; probability discounting; cigarette smoking; monetary rewards, 16232
judgment; expert advice; decision makers; psychological contract; monetary rewards; advice quality, 30688
pathological gambling; impulsivity; monetary rewards; delay discounting procedure, 4673
pharmaceutical companies; social science research; policy implications; medical & health care fields; financial motives; judgment distortion; gift giving; conflict of interest; physicians, 8959

Money—Serials

cognitive impairments; financial competence; assessment; guardianship decisions, 12395

computer technology; money management software system; personal checking accounts; mental retardation, 16551

consumer demand; nicotine replacement therapy; prices; cigarettes, 5704

delinquency risk; financial assets; financial stress; borrower delinquency; borrower; household payment, 20989

drug abusers; substance abusers; health behaviors; money; health; freedom; drug dependence; impulsiveness, 11011

dual-earner families; money organizing patterns; economic behavior modes; banking arrangements; social context; Israel, 13330

elderly parents; adult children; financial transfers; economic status; simple altruism; inheritance, 13329

experience; loan officers; lending; expert judgment; novices decision behavior; credit decisions; decision process, 33246

family members; mental health services; financial arrangements; perceived coercion; psychiatric disability; demographic variables; treatment adherence; legal mechanisms; warnings; clients; clinicians, 11330

family structure; intergenerational financial exchange; adult nonresident children, 13328

financial products; consumer investment goals; risk seeking, 33361

Furnham's Money Attitude Scale; status; power, 7717

gifts; physicians; health care providers; special services; accommodations; money; ethics, 29912

group behavior; money; colors; group choice, 19127

human subjects research; privately sponsored research; individual financial conflicts of interest; federal disclosure regulations; institutional policy development; guidelines, 23736

individual investors; shares; investment decisions; retirement income; stocks; decision making, 33342

love of money; work-related attitudes; Republic of Macedonia; money profiles; budgetary control, 33289

money genogram; money problems; couples therapy, 11433

money management behavior; college students; social psychological variables; financial debt, 16020

money; family relationship; emotion, 10367

money; heterosexual marriage; feminists; financial management; housekeeping allowance; economic power, 28235

money; mental health care; budget; allocations, 8734

neural network rule extraction; decision tables; credit-risk evaluation; decision-support systems, 18002

numerical intuition; price estimates; change in currency; relearning hypothesis; global rescaling hypothesis, 36454

paid work; older women; money; personal identity, 25084

personality; electronic commerce investors; shareholders; disinhibition; experience seeking; impulsiveness, 31574

psychotherapy; money; seduction; transference; conscious wishes; unconscious determinants, 20255

reason based choice; stock market; investment decisions; individual investors; stocks; stock clubs; group investors; group decision making, 14824

restaurant tips; service quality; semantic differential scale; unbounded wire in scale; measurement methods, 9500

socio-technical system; psychoanalytic theory; Long Term Capital Management; LTCM; organizational narcissism; theory of risk, 17876

time sampling; leisure time; work leisure relationship, 30115

treatment attendance; methadone maintenance clients; treatment effectiveness; economic barriers; willingness to pay; personal costs; time, 20626

type of reinforcer; real money; facsimile money; decision making; Iowa Gambling Task, 6575

undergraduate business students; workaholicism; self-esteem; motives for money, 25325

Mongolism [See Downs Syndrome]
Monitoring [See Also Polysomnography, Self Monitoring, Source Monitoring, Vigilance—Serials]

age differences; context-induced biases; source monitoring; accountability timing; older adults, 21330

age-related differences; monitoring; control of learning; study time; feeling-of-knowing judgment; memory; recall, 28089

aging; quality-of-encoding judgments; monitoring; associative learning; beliefs about forgetting, 365

alcohol consumption patterns; economic conditions; health conditions; Russian Federation; monitoring survey, 28371

anterior cingulate cortex; performance monitoring; saccade countermanding; monkeys; medial frontal lobe, 573

anxiety; error related brain activity; error related negativity, 7051

auditory hallucinations; source monitoring; cognitive processes; voices; phenomenology; reality monitoring; delusions; psychosis, 4624

automated tracker; manual task; navigation systems; target monitoring; monitoring task; task performance, 36497

behavioural activity; dairy cows; actiwatch activity monitoring system, 9360

cognitive changes; psychometric properties; cognitive tests; neuropsychological assessment; monitoring; reliability; stability; age; IQ; test-retest reliability; practice effects; reliable change, 24285

comparable psychology; monitoring uncertainty; metacognition; psychophysics; memory monitoring, 9751

curriculum based measurement; progress monitoring; reading; measurement error, 30492

data collection; integrated early childhood classrooms; interventionist perspectives; monitoring student progress; instruction; communication; teachers; assistant teacher; therapist; special education, 23777

electronic monitoring intensity; secrecy; monitored employee reactions; managers decisions; performance expectations; trust, 30155

electronic monitoring; counseling; medication adherence; electronic caps; pill caps; intervention, 20384

epidemiological function; addicts index; regional drug misuse databases, 31930

episodic memory; late posterior negativity; event related potentials; action monitoring; attribute conjunctions, 6605

error monitoring; attention deficit hyperactivity disorder, 25966

false memories; semantic associates; age differences; recall; critical lures; semantic activation processes; source monitoring; young adults; older adults, 15943

family check up; young adolescents; substance use; parent monitoring; family centered intervention, 20177

grade; adolescent delinquency; problem behaviors; drug use; aggression; parental monitoring; African Americans; urban adolescents; gender differences; age differences, 25838

high blood pressure; chronic disease indicators; binge drinking; female health; obesity-related chronic condition; smoking; physical exercise; binge drinking; mammogram screening; quality of life, 17342

illicit drug reporting system; cannabis; methamphetamine; cocaine; heroin; trend feasibility, 28880

involuntary civil commitment; mental illness; Russell Weston; effective monitoring; medication delivery, 32657

lexical decision; hemispheric division of labor; error monitoring; hemispheric specialization; cognitive load, 24680

LifeShirt; ambulatory monitoring; respiration; cardiac function; tidal volume; anxiety; plethysmography; sensors; clinical variables; cardiorespiratory electronic diary; sleep apnea; sinus arrhythmia, 689

liver transplant recipients; alcohol dependency; deaths; liver grafting, 23364

monitoring; sleep-related threat; Sleep Associated Monitoring Index; test reliability; test validity; insomnia; sleep disturbance; self-focus, 18098

parental monitoring; adolescent problem behaviors; parent behaviors; parent-adolescent interaction, 1110

parental monitoring; parental knowledge; obtaining knowledge; adolescent adjustment; adolescent gender; activities; family earner status; knowledge; parent gender; mothers knowledge; fathers knowledge, 25183

parenting practices; peer relations; adolescent marijuana use or abuse; parent-child relationship; parental support; parental monitoring; social influence; prediction; models, 28267

physical activity; body fat; protective effect; Framingham Children's Study; FCS; activity monitoring; childhood obesity, 2344

pill boxes; electronic monitoring; HIV antiretrovirals; clinical outcomes; virologic outcomes; daily medication diaries; pill-taking behaviour; HIV antiretroviral therapy, 14306

presentation modality; event memory; suggestibility; confidence judgments; recognition; metamemory monitoring, 22041

reality monitoring; hypnosis; suggested experiences; hypnotizability; hallucinate visual shape, 21407

recall; false recognition; words; diagnostic monitoring; disqualifying monitoring, 9707

revised methodology; metacognitive monitoring; metamemory; judgments of learning; pre-judgment recall and monitoring; data collection; data analysis, 15330

severe acute respiratory syndrome; fever; medical surveillance; mental health institute; vaccination, 35725

sleep/wake patterns; sleep laboratory; activity monitoring; monitoring device; nap analysis; WristCare, 3828

speaking; monitoring addressees; understanding, 9645

state dependent changes; error monitoring; schizophrenia; event related potentials; error negativity; error-related negativity; error positivity; response negativity; response positivity, 19423

status epilepticus occurrence; seizure clusters occurrence; video-EEG monitoring; epilepsy monitoring units; time to first seizure; seizure duration, 13992

Monitoring—Serials

temporal lobe epilepsy; intraventricular monitoring; endoscopic placement; intraventricular electrode array, 23002
test modality; source monitoring; event-related potentials; source memory, 422
testosterone-replacement therapy risk; monitoring therapy; hypogonadism; diminished libido; vitality; erectile dysfunction; muscle mass reduction; bone density; depression; anemia, 14180
witnessing violence; drug use initiation; rural adolescents; parental monitoring; family support; protective factors, 31957
working memory; aging; self-ordered pointing test; age differences; processing speed; monitoring, 28066
Monitoring [See Also Polysomnography, Self Monitoring, Source Monitoring, Vigilance]—Chapters
AHA scientific statement: Cardiovascular monitoring of children and adolescents receiving psychotropic drugs, 2244
Monoamine Oxidase Inhibitors [See Also Moclobemide, Tranlycypromine]—Serials
belfoxatone; monoamine oxidase-A; inhibitors; baboons; lazabemide; moclobemide; brain; binding, 3875
central monoamines; serotonin; noradrenaline; major depression; inhibitory receptors; antidepressant drugs, 20321
clorgyline; locomotor; rats; sensitization; sigma receptors; quinpirole; moutching; imidazoline; 12 receptor, 15739
G protein; selective serotonin reuptake inhibitors; atypical antidepressant drugs; monoamine oxidase inhibitors; tricyclic antidepressants; electroconvulsive therapy; depression treatment, 8501
gastrointestinal system; drug administration; monoamine oxidases; enzyme inhibition; monoamine oxidase; selegiline; rats; brain; drug interaction, 3989
hyperoxia; microdialysis perfusion; striatal monoamines; arterial vessel permeability; oxygen tension; monoamine metabolites; dialysate dopamine; anesthesia; surgical trauma, 9897
hypophysectomy; dopamine agonist quinpirole; behavioral sensitization; rats; clorgyline; locomotor sensitization; hypophysectomized rats; hypothalamo-pituitary-adrenal axis function, 15738
milnacipran; human monoamine uptake; transporter binding affinity; norepinephrine-serotonin reuptake inhibitors; dopamine transporters, 14193
monoamine oxidase inhibitors; drug interactions; drug side effects; prescriptions, 35527
monoamine oxidase inhibitors; subarachnoid hemorrhage; atypical depression; headache; oral tranlycypromine, 35543
nicotine; behavioral sensitization; monoamine oxidases; tranlycypromine; pargyline, 3986
pharmacology; endogenous enhancer substances; phenylethylamine; tryptamine; (-)-1-(benzofuran-2-yl)-2-propylaminopentane; trace amines; monoamine oxidase type-B inhibitor; mesencephalon; selegiline, 18801
Monoamine Oxidases—Serials
belfoxatone; monoamine oxidase-A; inhibitors; baboons; lazabemide; moclobemide; brain; binding, 3875
catechol-O-methyltransferase; monoamine oxidase; drug response; neuroleptics; schizophrenia, 2173
functional monoamine oxidase; gene promoter; vNTR polymorphism; schizophrenia; family, 19442
genetics; monoamine metabolites; baboons; genes; monoamine neurotransmitter; 5-hydroxyindolacetic acid; homovanillic acid; psychopathology; 3-hydroxy-4-methoxyphenylethylcol, 18547
monoamine oxidase A genotype; conduct disorder; genotype-environment interaction; risk factors; exposure to familial adversity; childhood environment; male twins, 28809
obsessive-compulsive disorder; clinical heterogeneity; biological heterogeneity; monoamine oxidase; gene polymorphisms; gender differences; genetics, 19542
platelet monoamine oxidase; tobacco; smoking behavior; behavioral phenotypes, 14326
serotonin; dopamine metabolism; rat brain; latent inhibition; amygdaloid complex; hippocampus; striatum; prefrontal cortex; monoamine oxidase activity; conditioned passive avoidance, 15552
Monoamines (Brain) [See Catecholamines]
Monocular Vision—Serials
accommodation; age; presbyopic onset; monocular components; infrared optometer, 27465
conjugate adaptation; saccadic gain adaptation; non-human primates; strabismus; monocular viewing; monkeys, 34103
monocular viewing conditions; spatial frequency thresholds; contrast levels; peripheral visual field; binocular summation; binocular viewing; fovea; eccentric retinal location, 21288
normal visual input; monocular deprivation; binocular input; deprivation-induced acuity loss; central visual pathway; visual cortex; kittens, 12938

quantitative depth; monocular vision; da Vinci Stereopsis, 9577
reverse lateralization; visual discriminative abilities; European starling; *Sturnus vulgaris*; monocular occlusion, 21703
Monogamy—Serials
heterosexuality; feminism; monogamy; sexual freedom; gay; lesbian; bisexuals, 28339
monogamy; reproductive behaviour; ecology; Caribbean cleaner goby fish; fidelity; new mate selection; behavioural responses; widowed males; single females; pairs; territory; intrasexual aggression, 498
Monogamy—Chapters
Monogamy and polyamory: Relationship issues for bisexuals, 4300
Monolingualism—Serials
sentence interpretation; monolingual children; Spanish; syntactic cues; morphological cues; agent roles; grammatical strategies, 10111
strategic responses; monolinguals; bilinguals; English speakers; German speakers; backchannel responses; Communication Accommodation Theory; backchannel responses; conversation, 849
Monozygotic Twins—Serials
anorexia nervosa; gender identity disorder; homosexual orientation; environmental factors; sexual orientation; monozygotic twins; etiologic aspects; body dissatisfaction, 19266
cavum septum pellucidum; monozygotic twins; combat exposure; posttraumatic stress disorder, 19545
chronic fatigue syndrome; monozygotic twins, 19839
cognitive processing; monozygotic twins; chronic fatigue syndrome, 19867
depressive symptoms; smoking status; smoking behavior; environmental factors; depressive disorder; Caucasian male twins; genetic effects, 4598
developing schizophrenia; genetic predisposition; possible association; monozygotic twins; dizygotic twins, 34888
dizygotic twinning rates; triplet rates; zygosity; monozygotic twinning rates; European countries; ovulation-inducing hormones; in vitro fertilization; human fertility, 16166
environmental influences; twin; shared rearing environment; family resistance; migraine; genetic influences, 16634
genetic influence; mild mental impairment; early childhood; monozygotic twins; dizygotic same-sex twins; dizygotic opposite-sex twins; verbal ability; nonverbal ability; concordance, 13799
German Eysenck Personality Questionnaire; genetic influences; environmental influences; adult twin pairs; phenotypic individual differences, 30430
identical twins; intrapair differences; eating behavior; eating attitudes; environmental effect; monozygotic twins; body size; food intake, 34663
insomnia; chronic fatigue syndrome; monozygotic twins, 4902
monozygotic twins; anorexia nervosa; environmental risk factors, 35155
monozygotic twins; epigenetic differences; twin discordance; phenotypes; DNA methylation; dopamine D2 receptor; schizophrenia, 4643
pattern formation; compartments; boundaries; twin brain similarity; monozygotic; brain morphology, 24638
polymicrogyria; monozygous twins; brain lesions; prenatal circulatory injury; genetic etiology; elder sibling, 8258
schizophrenia; neurological soft signs; dermatoglyphic anomalies; monozygotic twins; neural development, 28718
selective mutism; social anxiety disorder; monozygotic female twins; variable symptom expression; disorder severity; genetic predisposition, 4667
white matter volume; gray matter volume; environmental risk factors; monozygotic twin pairs; discordant twin pairs; genetic risk factors; dizygotic twin pairs, 10792
Mood Disorders [See Affective Disorders]
Moodiness—Serials
bipolar disorder; unipolar depression; Mood Disorder Questionnaire; Structured Clinical Interview for DSM-IV, 1409
dizziness; PRIME-MD Patient Health Questionnaire; anxiety; depression; prevalence; mood disorders; otorhinolaryngology outpatients, 161
Moods [See Emotional States]
Moral Development—Serials
aggression; moral development; social information processing; moral domain models; cognitive processes; victimization, 31197
character education programs; 'Character Counts'™ 'An Ethics Curriculum for Children' education curriculum; parental involvement; community involvement; values, 33093
criminal behaviour; criminal sentiments; sociomoral development; violent offenders; nonoffenders; antisocial behavior, 35061

Morality—Serials

metaethical cognition; epistemic reasoning; reasoning development; moral judgments; intuitionism; subjectivism; transsubjectivism; adolescents, 34281
moral choices; children; attribution; adults; peers; moral acquisition; truth-telling; promises; lying; age, 13251
moral development; medical students; moral reasoning, 8970
moral dilemmas; community leaders; community sense; moral development; urban working-class communities, 31476
moral exemplarity; differing conceptions; moral rationality; moral personality; moral exemplars; prototype procedures; personality rating; personality profile; typologies; justness; caring; bravery, 16273
moral judgement; scale construction; theoretical construct; cognitive structural theory; Kohlberg, 24204
moral judgment; response-dependent properties; moral objectivism; moral/conventional distinction; children's judgments, 4082
moral reasoning; moral development; African Americans; Blacks; battered women; Whites; treatment outcomes; batterers; standardized treatment program; court-mandated treatment; intervention, 11764
moral theories; sitting controversies; involuntary risks; rights, 36543
morals; secondary students, 23923
new technologies; ritual cycle; children and the Internet; moral panics; adult anxieties, 876
political apathy disorder; social conscience; DSM diagnostic category; mental disorder; moral life, 10727
positive youth development; religion; social capital theory; moral outcomes; religious influences; moral behavior, 31215
social information processing; moral development; social situations, 31214
social situations; moral reasoning; moral emotions; mental representations; emotional reactions; mental faculties; cognitive theory; modular system, 9779
teaching moral judgment; strategies; children; social rules; moral realism; Piaget, 28126
teaching; morality; moral agents; moral language; student development; teacher education, 14577
violent video games; short & long term exposure; moral evaluation; moral development; desensitization; empathy; attitudes toward violence, 982
youth offenders; moral reconation therapy; risk of recidivism; implementation by criminal justice system personnel, 5718
Moral Development—Chapters
Developing and practicing ethics, 2682
Morale—Serials
diversity faultlines; conflict experience; performance; morale; groups, 22298
mother child discourse; child's past behavior; emotional understanding; conscience development; moral understanding; clarity; elaborativeness; emotional content, 18963
neighborhood conditions; index of chronic community stress; pregnant women; demoralization; body mass index; social signal transduction; ICCS; household economics, 17266
organizational change; group leadership; group morale; leadership perception; change activity source, 27101
professional evaluation; educational philosophy; teaching strategies; pedagogical process; social compass; attitudinal guideposts, 23772
Morality—Serials
bullying; emotions; guilt; shame; moral disengagement, 4700
character evaluation; applicant morals; law, 33405
civil law; criminal law; morality; moral theories; political society; retribution; Praise and Blame, 7300
cognitive psychology; social environment; biomedical psychiatry; eliminative materialism; ethics; moral philosophy; moral psychology; neuropsychology; mental behavior; brain behavior; reductionism, 18838
community identity; Alcoholics Anonymous; discourse contention; integration; moral identity, 5699
disgust sensitivity; meat consumption; moral vegetarianism; health vegetarians; meat avoidance; personality trait; emotivist account; moral reasoning; emotional reaction; propositional reasoning, 4431
drug addiction; disability; non-using drug addicts; ethics; policy issues, 19704
drug addiction; moral relevance; addictive drugs; drug users, 19666
Elliot Turiel; societal arrangements; cultural practices; morality, 31327
ethical ideology; moral actions; social dominance orientation; authoritarianism; social psychology, 4469
ethical issues; ethics; animals; biomedical & psychopharmacology research; moral standing; morality; ethics; animal models; animal research, 12064

forgiveness; literature; positive emotions; parents; children; immoral behavior; change of heart; more-than-dyadic process; repentance encouraged, 25042

gender; work team composition; group ethical decision-making; moral orientation; organizations, 17855

globalization; psychological functioning; identity; moral implications, 1047

good life; easy life; folk concepts; desirability; moral goodness; happiness; meaning; effort experienced, 28505

gossip; social comparison; social functioning; negative talk; morality; ingroup/outgroup, 22279

guilt; shame; disobedience; psychoanalysis; psychology; moral judgement, 26320

homophobia; morally conservative; discourse; governmental law repeal; disclaiming; tolerance, 34538

human world; topography of moral ecology; moral science; ontology; social practice; moral values; metaphysical worldview; psychology; relativism, 18833

identity integration; religious orientation; moral reasoning; moral behavior, 31335

impression formation; competence information; morality; power-priming, 34627

industrial pollution; environmental politics; risk; air quality; political morality, 36485

interpersonal power; social structures; western culture; integrity; morality; virtue self; moral panacea, 21948

justice; morality; behaviour; basic needs; human development; criminal justice, 10555

masturbation; homosexuality; moral disapproval; religious culture; self-identification, 22258

maternal power assertion; child discipline; mother child communication; moral conduct; moral cognition; antisocial conduct; maternal personality, 996

medicine; morals; drug addiction; medical model; moral model; craving; compulsion, 19684

moral agents; information processors; moral rights; ethics; technical societies; computers; philosophical areas; information, 36510

moral choices; children; attribution; adults; peers; moral acquisition; truth-telling; promises; lying; age, 13251

moral community; collective action; strategic games; common culture; business firms; common perception; firm functioning, 9115

moral development; medical students; moral reasoning, 8970

moral discourse; health professionals; mental health issues; New Zealand; depression; suicidal behaviours, 1412

moral discourse; self disclosure; interaction patterns; Love-line; radio advice show; healthy selfhood; intimate troubles; postmodern world, 34668

Moral Disengagement Scale; test structure; test reliability; test correlates; moral self-sanctions; moral disengagement; parenting; child behavior, 33533

moral exemplarity; differing conceptions; moral rationality; moral personality; moral exemplars; prototype procedures; personality rating; personality profile; typologies; justness; caring; bravery, 16273

moral exclusion; women; industrial forestry protection; nature protection campaigns, 36486

moral judgement; scale construction; theoretical construct; cognitive structural theory; Kohlberg, 24204

moral judgment; response-dependent properties; moral objectivism; moral/conventional distinction; children's judgments, 4082

moral philosophy; curiosity; virtuous life; philanthropy; spirituality, 21947

moral philosophy; psychoanalysis; British philosophy; object-relations theory, 34204

moral philosophy; psychoanalysis; British philosophy; object-relations theory, 34205

moral realism; ethics; morality; relativism; Praise and Blame, 7307

moral realism; gastronomic realism; beliefs; food; drink; facts; moral values; Praise and Blame, 7301

moral realism; hermeneutic philosophy; ontology; Praise and Blame, 7302

moral realism; reality; history; Praise and Blame, 7303

moral reasoning; conflict resolution strategies; conflict resolution skills; prosocial skills, 13234

moral reasoning; gender differences; self reasoning; self-other relationship; social distance; ingroup dynamics, 34706

moral reasoning; value priorities; medical school; self descriptions; professional socialisation; medical education, 8933

moral responsibility; deviance; blame; praise; attribution; causal deviance, 4401

moral responsibility; free will; responsibility for actions; borderline personality disorder; comorbid conditions, 25764

moral responsibility; psychopathic offenders; punishment; relationships; reactive attitudes; emotions, 10853

moral responsibility; psychopathic offenders; punishment; relationships; reactive attitudes; emotions, 10850

moral responsibility; psychopathic offenders; punishment; relationships; reactive attitudes; emotions, 10849

moral responsibility; psychopathic offenders; punishment; relationships; reactive attitudes; emotions, 10864

moral responsibility; psychopathic offenders; punishment; relationships; reactive attitudes; emotions, 10854

moral responsibility; self-attribution; counseling theory; causality attribution; moral failures; meritorious credit; blame, 32302

morality; evolutionary theory; philosophy, 31536

morality; personal characteristics; health care priorities; patients; ill health; treatment consequences, 5562

morals; ethics; teaching; teachers, 23798

morals; secondary education; teachers; students; parents, 23836

morals; secondary students, 23923

morals; values; student characteristics; priorities; teacher attitudes; student attitudes; teachers; high school students, 23769

motive; morality; criminal law; judges, 9310

neuropsychiatric disorders; human brain; psychology; behavior relationships; neurobehavioral processes; evolutionary biology; morality; social cues; motivation; moral behavior, 12868

organizational control; business organizations; interpersonal power; control mechanisms; obedience; indifference; democratic hybrids; moral obedience, 9114

palliative care; care providers; Netherlands; moral problems; practical ethics; terminally ill patients; quality of care, 17368

pedagogical objectives; morally contentious issues; undergraduate law students; student-teacher relationship; critical-egalitarian pedagogy, 12113

pedagogy; ethics; morals; educational research, 23763

political scandals; social trust; public opinion; morality, 28297

political system; social groups; moral issues; polarization; public opinion; American polarized attitudes, 16183

practical wisdom; reason; human finitude; phronesis; virtue; ethics; moral perception; deliberation; choice; algorithm, 7676

Praise and Blame; moral realism, 7304

pregnancy termination; emotional reactions; moral concerns; abortions; adolescent pregnancy; Black adolescent women; social values; shame; embarrassment; guilt; sadness, 18966

psychiatric therapy; Georgian Britain; moral treatment; madness; models; classical moral treatment; pious fraud; charismatic stewardship; psychiatric patients; insanity, 6223

psychotherapy; economic rationalism; positivism; moral judgments, 35408

psychotherapy; pluralism; sociocultural influences; eclecticism; integrationism; moral dilemmas; philosophical dilemmas; models, 26234

reflective abstraction; moral discussion; moral reasoning interventions; interindividual intervention; moral dilemmas; 6th and 7th graders, 20808

reflective consciousness; clinical examples; moral agent; superego; social outcasts; curiosity; Adolph Eichman, 28528

religion; morality; positive mentality; Jews; Protestants; mental states, 22331

religion; professional orientation; morals; teachers, 23790

senior public services; political challenges; psychological challenges; moral challenges; memoirs; executive office; Clinton administration, 22230

sense of entitlement; law violation; legal disobedience; public vs private response; response to state authorities vs another person; moral reasoning; political orientation; attitudes toward the law, 3100

social control; moral order; scheduling; institutional momentum; Los Alamos atomic weapons laboratory; world war; history, 28190

social life; individuals; social evolution; social policy; Herbert Spencer; moral life; conscious automation, 22156

socialization; maternal parenting; maternal responsiveness; conscience; security; caregiver trust; strange situation, 31228

sports participation; moral functioning; ego orientation; sport context; task orientation; athletes, 9147

subject-object dichotomy; research purposes; theoretical level; social science; moral issue; heterogeneity; human; non human; objectivity; subjectivity, 15833

superego concept; psychoanalytic inquiry; ethical choices; moral choices, 25422

superego; moral systems; conflict; conscience; inner judge, 25438

teachers; school fights; gender; cognitive developmental domain approach; moral reasoning; intervention; cognitive developmental domain theory; public health; environmental psychology, 12094

teaching; morality; moral agents; moral language; student development; teacher education, 14577

theory of planned behavior; illicit drug use; LSD; amphetamine; cannabis; ecstasy; intention to use; moral norms; drug use attitudes, 11004

theory of planned behavior; moral norms; just world beliefs; conservatism; ecology, 1255

workplace ethics; women business owners; moral orientations; ethical dilemmas, 33223

Morality—Books

Mixed media: Moral distinctions in advertising, public relations, and journalism, 869

Natural ethical facts: Evolution, connectionism, and moral cognition, 4438

Offending behaviour: Moral reasoning, criminal conduct and the rehabilitation of offenders, 11064

Morality—Chapters

Biological Foundations of Moral Norms, 1058

Evolution, morality, and human potential, 21075

Parental beliefs about shame and moral socialization in Taiwan, Hong Kong, and the United States, 4417

Political symbols and collective moral action, 16192

Psychological research methods and Christian belief, 15170

Morals [See Morality]

Mores [See Values]

Morphemes—Serials

abstract morphemes; lexical representation; Arabic language; auditory priming; CV-Skeleton, 24872

acquisition order; semantic complexity; linguistic factors; syntactic function; wh question acquisition; English speaking 3 yr olds & their mothers, 941

allomorphic variation; Arabic; lexical processing; word patterns; priming; lexical representation; morphemes, 27974

complex communication needs; AAC; language development; grammar, 7317

English plural morpheme; Mandarin-speaking children; language environment; morpheme acquisition; English-speaking children, 10100

eye movements; morphology; morphemes; compound words; sentence reading, 12629

gender congruency effect; picture word interference; gender marked free-standing & bound morphemes; distraction; noun gender; naming; Croatian, 361

grammatical morphemes; aspect; modality; tense; English speaking children; specific language impairment; language development, 11122

large vocabulary continuous speech recognition; Korean language; merged morpheme; recognition unit; language model; pronunciation-dependent entries; Korean morphology; between-word phonology rule, 4048

lexical decision; cross-modal priming; auditory priming; visual priming; regular verbs; irregular verbs; morphemic markers, 24476

morphological decomposition; word formation; brain response; complex words; real words; event-related potentials; non-words; non-productive bound stem; prefix; morphemes; pronounceable, 15869

Native American; East Cree; semantics; morphosyntax; cognition; thinking; Algonquian language, 850

semantic transparency; morphological processing; lexical decision making; morpheme, 27989

verb morphology; verb morphemes; specific language impairment; Swedish speaking children; normally developing compatriots, 8099

Morphine—Serials

acoustic startle; morphine; withdrawal; opiates; anxiety; elevated startle response, 13010

alpha-adrenoceptor mechanism; morphine; conditioned place preference; female mice; drug dosages, 24846

analgesic effect; tetrahydrocannabinol; morphine; tetrahydrocannabinol morphine combination; pain, 7238

anxiety-like behavior; morphine dependence; cAMP-responsive element binding protein; mice; physiological responses; drug addiction; emotional behavior, 24854

baclofen; morphine; conditioned place preference; mice; cortical regions; limbic regions; opiates, 13021

BP 897; dopamine agonist; food-seeking behavior; rats; morphine; cocaine; conditioned place preference, 7175

CK2 receptor-deficiency; morphine; naloxone; locomotor activity; place conditioning; opioid receptors; mice, 532

cerebrospinal fluid cortisol levels; Alzheimer's disease; dementia severity; psychological stress of impending death; morphine; palliative care, 11641

cholera toxin; bicuculline seizures; prenatal morphine; saline; male rats; stress, 18798

chronic morphine exposure; high dosage; peripubertal period; prolactin secretion; maternal behavior induction; adult female rats, 7159

chronic morphine; isolated forebrain; midbrain transection; morphine tolerance; morphine withdrawal; brain stem; sleep-waking states; cats, 9973

delta 9 tetrahydrocannabinol; oral morphine; morphine tolerance; naloxone; drug withdrawal; mice, 3883

dextromethorphan; katanine; MK-801; morphine; antinociception; tail flick test; sex; rats, 3913

Volume 91 SUBJECT INDEX

Morphine—Serials

discriminative stimulus effects; morphine; naltrexone; squirrel monkeys, 15822
dopamine receptors; rewarding effect; hyperlocomotion; morphine; mice; dopaminergic pathway, 21883
dorsal hippocampus; dopamine receptors; morphine; conditioned place preference; rats, 13066
drug inhibition; morphine analgesia; lithium chloride; naloxone; naloxone methiodide; rats, 30982
drug-drug interactions; codeine; dihydrocodeine; hydrocodone; oxycodone; buprenorphine; pharmacokinetics; prodrugs; morphine, 5262
gene targeting; 12-lipoxygenase; cocaine; morphine; C57Bl/6 mice; analgesia, 3987
GHB; morphine; motor activity; aggression; social contacts; mice, 3937
harmaline; naltrexone; withdrawal syndrome; morphine-dependent rats, 7146
intravenous heroin; morphine; morphine-3-glucuronide; morphine-6-glucuronide, 3866
local cholecystokinin; drug-induced tolerance; periaqueductal gray; morphine; rats, 15816
memory consolidation; dopaminergic mechanisms; memory impairment; amantadine; morphine, 18727
modulation; glutamate receptor; gonadal steroid hormones; rat striatum; non-competitive N-methyl-D-aspartate; NMDA; receptor antagonist dizocilpine; morphine induced immediate-early gene expression, 3581
modulation; visceral hyperalgesia; morphine; cholecystokinin; rat rostral ventral medial medulla; anti-opioid peptide, 7183
morphine dependence; rats; stress; corticotropin-releasing factor; hypothalamic-pituitary-adrenal axis, 7204
morphine place conditioning; susceptibility; stress-induced locomotion; novelty-seeking behavior; open field behavior; juvenile rats; adult rats, 800
morphine tolerance; male rats; female rats, 18748
morphine tolerance; proinflammatory analgesic tolerance; cytokine levels; chronic morphine administration; propentofylline; analgesic tolerance; withdrawal-induced hyperalgesia, 21901
morphine; cocaine; induced c-Fos level; Lewis rat strains; Fischer rat strains; conditioned taste aversion; reward; aversion; locomotion; brain region activity, 27893
morphine; cocaine; nonaggressive behavioral strategy; aggressive behavioral strategy, 13093
morphine; dosing time; analgesic effect recovery; drug tolerance; mice; day night cycle, 4000
morphine; endomorphin-1; pronociceptin; orphanin FQ; neuropathic pain; rat models; opioid receptor-like 1; lumbar part; spinal cord, 24830
morphine; impairing effects; neuroleptics; conditioned avoidance response; mice; haloperidol; opioid system; dopamine antagonists; risperidone; sulpiride, 12968
morphine; LiCl; sex differences; conditioned taste aversion, 3958
morphine; naloxone; dose-effect functions; repeated treatment; drug potency; operant response suppression; withdrawal; opioid dependence; rats, 7251
morphine; naloxone; place aversion; nicotine; dopaminergic mechanism; withdrawal syndrome, 15724
morphine; naltrexone; impulsive decision making; rats; delay discounting, 27907
muscimol; morphine; penile erection; hexarelin analogue peptide; EP 80661; Nitric oxide; rats; paraventricular nucleus, 7260
naloxone-precipitated withdrawal; endomorphin; rats; opioid ligands; opiate dependence; withdrawal syndrome; peptides; analgesic effects; morphine, 15734
naltrexone; Vivitrex; extended-release formulation; rats; alcoholism; drug dependency; morphine; pharmacokinetics, 7149
neofapam; morphine; antinociceptive synergy; animal models; allodynia; hyperalgesia; rats; pain perception, 27891
nitric oxide synthase inhibitor; morphine analgesia; morphine tolerance; morphine dependence; mice; L-Canavanine; nitro-L-arginine methyl ester; L-NAME, 15788
nitric oxide; morphine self-administration; acute administration; chronic administration; rats; L-arginine; NO synthase inhibitor; L-nitro-amino-methyl-ester, 13069
nitroindazole blocks; morphine-induced hyperactivity; place conditioning; conditioned place preference; mice; locomotor activity, 21870
nociceptive behaviour; cannabinoids; morphine; brain monoamines; pain, 34148
noradrenergic system; amygdala central nucleus; naloxone-precipitated morphine withdrawal; conditioned place aversion; rats, 3988
novelty seeking behavior; stress induced locomotion; morphine; place conditioning; rats, 15828
nucleus accumbens; tolerant rats; naive rats; chronic morphine administration; stimulus induced antinociception; antinociceptive effects; antagonist naltrexone; receptor antagonist; opioid withdrawal, 13075
opioid; analgesia; morphine; fentanyl; glutamate; NMDA, 3960

orbital frontal cortex; psychoactive drugs; morphine; amphetamine; synaptic organization; neurons; medial frontal lobe; rats; neural plasticity, 24821
peripheral electric stimulation; PES; brain opioid receptors; rats; morphine conditioned place preference; drug craving, 7254
peripheral opioid receptors; pain reduction; human pain models; cutaneous inflammatory hyperalgesia; muscle hyperalgesia; electrical stimulation; cold effects; muscle contractions; morphine, 21911
physical syndrome; NMDA antagonists; memantine; morphine dependence; morphine withdrawal; conditioned place aversion; behavioural changes; mice, 748
potassium channel modulators; morphine state-dependent memory; mice, 21929
prenatal morphine exposure; long term effects; maternal behaviors; nursing; maternal activities; nonmaternal activities; pup retrieval; rats, 7263
reward; uncontrollable stress; serotonin; 5-HT; 8-OH-DPAT; electrolytic lesion, 13096
spinal morphine; supraspinal; neuropathic rat; spinal nerve; pain, 13061
transdermal fentanyl hydrochloride; patient-controlled analgesia; postoperative pain management; major surgery, 23409
withdrawal symptoms; drug effects; drug onset cues; intradependence associations; morphine; rats, 9958
withdrawal symptoms; drug effects; drug onset cues; intradependence associations; morphine; rats, 9951
withdrawal symptoms; drug effects; drug onset cues; intradependence associations; morphine; rats, 10046
withdrawal symptoms; drug effects; drug onset cues; intradependence associations; morphine; rats, 10024
withdrawal symptoms; drug effects; drug onset cues; intradependence associations; morphine; rats, 10023
withdrawal symptoms; drug effects; drug onset cues; intradependence associations; morphine; rats, 9957
Morphology—Serials
3D morphometrics; craniofacial dysmorphology; asymmetry; sexual dimorphism; schizophrenia, 22543
adrenal cortex; ethanol; acute administration; single dose; proestrus; diestrus; morphometric parameters; female rats, 756
alexithymia; right anterior cingulate gyrus; morphology; temperament; interindividual variability, 16380
autism; child psychiatry; stereotyped movements; autistic children, 8054
brain morphology; cannabis abuse; cannabis dependence; recent-onset schizophrenia, 22528
echolocation signals; niche differentiation; sympatric congeneric bat species; prey-detection ability, 30808
environment enrichment; dentate gyrus; neuronal morphology; social interactions; pyramidal neurons; dendritic length; neuronal growth; learning; cell volume; cerebral cortex; motor activity, 21580
event-related potentials; error-related negativity; anterior cingulate cortex; morphology; prefrontal cortex; amplitude; latency, 24726
family-based associations; head circumference; Autism; cranial morphogenesis; HOXA1 gene; HOXA1 A218G polymorphism; allelic transmission disequilibrium; autistic disorder, 16528
female colour; sockeye salmon; phenotypic convergence; anadromous morphs; nonanadromous morphs; male mate choice, 15392
first-episode schizophrenia; morphometric changes; brain morphology; cerebral hemispheres; temporal lobes; cerebellar hemispheres, 22526
follicle position; normal human ovary; definitive histogenesis; spatial position; cortex, 9810
grammatical morphemes; aspect; modality; tense; English speaking children; specific language impairment; language development, 11122
heparan sulfate; morphogen signaling; midline axon guidance; mammalian brain development; mice, 6912
high-functioning autism; autistic children; boys; morphometric profile; brain volume; brain regions, 22730
hippocampal dentate gyrus synapses; morphological changes; spatial learning task; Morris water maze training; rats, 21579
information processing; dog brain; organizational characteristics; morphological substrates; pallidal nuclear complex, 27720
interstitial white matter neurons; IWMNs; reelin; abnormal distribution; schizophrenia; developmental signalling molecule; neurodevelopmental hypothesis; morphometry; cortical development, 12826
Japanese language learners; word morphology; novel Kanji compounds; words in isolation; contextual clues; Chinese characters, 7331
laboratory rats; strain differences; morphology; sensorimotor ability; locomotor ability; Fischer rats; Lewis rats; Long-Evans rats; Sprague-Dawley rats; Wistar rats; neuroscience research, 537

Morphology (Language)—Serials

level-ordering; children's ungrammatical compounds; morphology; words, 28078
lexicality; morphological structure; semantic transparency; German verbs processing; visual on-line processing; off-line processing, 28016
mating success; courtship tactics; red-sided garter snakes; thamnophis sirtalis parietalis; sexual selection; courtship behavior; morphology, 18520
morphological decomposition; reverse base frequency effect; word recognition, 24473
morphology; agrammatic sentence comprehension; German; trace deletion hypothesis, 4978
morphology; agrammatism; verb tense, 19830
morphology; parsing; vowels; segmentation cues; eye movements; consonants, 33649
MRI; olfactory function; odor threshold; odor discrimination; morphology; olfactory sulcus, 6481
neural processing; nouns; verbs; inflectional morphology; brain damage; neural substrates; language system; evoked potentials, 12926
neurological anomalies; morphological anomalies; genetic liability; schizophrenia; neurological soft signs; biological relatives, 19446
ovulation; sex skin swelling; female West African chimpanzees; perineal swelling; variability of timing; period of maximum swelling; maximum tumescence; probability; morphological cues, 655
pathological changes; cortical neurons; sporadic Creutzfeldt-Jakob disease; morphological abnormalities; neuronal perikarya; cerebral cortex; elderly patients, 11225
pattern formation; compartments; boundaries; twin brain similarity; monozygotic; brain morphology, 24638
phonological processing; morphological skills; syntactic skill; naming speed; spelling performance, 24884
pineal gland; morphofunctional changes; dynamic adaptation; hyperthermia; serotonin metabolism; stress effects; rats, 9938
sexual dimorphism; alloparental behavior; N-methyl-D-aspartate receptor; juvenile prairie voles; locomotor activity; motor coordination; cognition, 21470
short-term memory; Williams syndrome; grammatical development; morphological patterns; mental lexicon; rules, 1726
spectral absorption characteristics; morphological characteristics; southern hemisphere lamprey; Geotria australis; retinal photoreceptors, 6792
X-monosomy; X-linked imprinting; superior temporal gyrus; Turner syndrome; morphology, 1333
Morphology—Chapters
Corpus callosum morphology in relation to cerebral asymmetries in the postmortem human, 15608
Morphometrics for callosal shape studies, 15609
Racehorses, reindeer, and sparrows: Using masked priming to investigate morphological influences on compound word identification, 15323
Reading morphologically complex words: Some thoughts from masked priming, 15321
Using the corpus callosum as an effective anatomical probe in the study of schizophrenia, 16446
Morphology (Language)—Serials
aspectual forms; Cantonese children; specific language impairment; verb affixes; morphologic deficits; grammar deficit; finite verb morphology; processing limitations; isolating languages, 8108
emergent grammar; verbs; verb-forms; Hebrew language; language development; young children; morphology; semantics; syntax, 10166
employment relations; health service; organizational analysis; word meaning; metaphor; salaries, 9056
event related brain potentials; morphological & homographic & orthographic semantic priming; lexical memory; words; stem morphemes; affixes, 24728
fillers; language development; early childhood; English language; emergence of morphology; syntactic constructions; semantic constructions, 10180
gender differences; young children; linguistic features; Danish children; male & female language; female speakers; group influence; standard speech; male speakers; earlier age, 10189
grammatical properties; Italian verbs; mental lexicon; form class; mood; tense, 28000
indefinite articles; definite articles; specific language impairment; Swedish children, 11120
Kernel functional categories; computational complexity; French-speaking children; functional categories; clauses; language impaired children; normally developing children; language asymmetry, 8100
lexical diversity; specific language impairment; morphological development; language development; developmental trends; language learning, 34270
literacy role; Native American language; Jicarilla Apache dictionary; language standardization; polysynthetic language; morphologically rich languages; lexicographers; orthography; language structure, 15849

Volume 91 SUBJECT INDEX

Morphology (Language)—Serials

masked morphological priming; past tense primes; present tense recognition; morphemic representations; Greek verbs, 31077

mental lexicon; morphology; grammar; nouns, 27976

monomorphemic words; semantics; orthography; priming, 28024

morphological analysis; brain-injured; semantic errors; reading errors; lexical comprehension, 32168

morphological awareness; Chinese character recognition; second graders; kindergarten students; reading, 2792

morphological awareness; phonological awareness; reading development; pseudoword reading; reading comprehension; single word reading, 26921

morphological development; derivational morphology; reading; inflectional morphology; spelling; third & fourth grade students; writing, 2783

morphological errors; phonological errors; aphasic speech, 11281

morphological family frequency; M350 inhibition; magnetoencephalographic response time; lexical processing; lexical frequency; facility effect; root-affix competition; family size; neural correlates, 15670

morphological processing; bound stem facilitation; free stem facilitation; words, 28009

morphological processing; words organization; mind; construct; content; ecological validity, 28002

morphological units; Arabic mental lexicon; dyslexia; word meaning; linguistics, 28931

morphology; argument structure; lexical semantics; autoprifixation; co-prefixation; prefixes; syntax; verbal base, 7315

morphology; pronunciation; orthography; Bosque words, 15874

morphophonological factors; construction of subject-verb agreement; grammatical information; German noun phrases; Dutch noun phrases; ambiguity, 18863

morphosyntactic gender features; bilingual language processing; linguistic representations; models, 28014

morphosyntax; specific language impairment; expressive language, 22780

narratives; children; specific language impairment; early focal brain injury; Williams syndrome; language development; morphological errors; syntax; evaluative devices, 13548

neural substrates; morphological processing; parietal lobe, 18584

object complements; infinitive production; conversation; five year old children; specific language impairments, 11119

phonological training; morphological training; speech perception; grammatical judgments; deaf children; hard-of-hearing children; primary school students, 30072

phonology; morphology; syntax; lexical encoding; participant information; semantic selectivity; specificity role, 27981

phonology; phonological form; phonological information; auditory discrimination; teaching morphological French; second language classroom, 15848

psycholinguistics; morphosyntactic features; sentence matching; inflected adjectives, 28010

reading achievement; morphological knowledge; deaf college students; hearing middle school students; word identification skills; reading level; word segmentation, 29199

receptive vocabulary; expressive vocabulary; inflectional morphology; familial risk; dyslexia; children, 31073

rules; analogy; similarity; past tenses; dual mechanism model; morphology; lexicon; phonology, 3347

semantic transparency; morphological processing; lexical decision making; morpheme, 27989

semantic transparency; morphologically complex words; picture naming; morphological priming effects; picture-word interference, 27986

space rotation; perspective shift; verb morphology; body shifts; mental spatial rotation; American Sign Language; referencing strategy, 31070

specific language impairments; phonology; semantics; past tense, 28967

speech production; sequencing; aging; selective effects; phonological errors; morphological speech errors; node structure theory; omission errors, 15967

sublexical information; morphological information; speech processing; phonemes; syllable boundary; speech segmentation; sequence monitoring, 28031

vocal jitter; vocal microtremor; vocal cycle length perturbations; normophonic speakers; modulation level, 15875

Morphology (Language)—Chapters

Morphological disorders, 4828

Mortality [See Death and Dying]

Mortality Rate—Serials

alcohol drinking patterns; intensive care admission; hospital mortality; general surgery patients; prediction, 17397

alcohol drinking patterns; mortality rate; middle-aged population; risk estimates, 28373

alcohol drinking patterns; mortality rate; morbidity, 35041

American Indian; health status; health care facilities; health care services; outpatient visits; mortality rates; Alaska Native, AI/AN, 5568

antidepressant prescribing; suicide rate; Northern Ireland; social factors; political factors; unemployment rate; household alcohol expenditure; terrorist offenses; age, 10924

beer consumption; premature mortality; Louisiana; ecology analysis, 25868

Canada; residential continuing care; hospitals; hospital utilization; continuing care resident population; continuing care beds; mortality, 17407

cancer patients; palliative care; nursing homes deaths, 8810

cardiorespiratory fitness effects; obesity effects; cancer mortality; obesity; cardiorespiratory fitness; gender, 22876

cardiovascular diseases; antiemotional personality scale; cancer; ischemic heart disease; stroke mortality; rationality, 18110

cardiovascular events; mortality; new-onset diabetes; antipsychotics; schizophrenia, 10782

child death review; CDR; death circumstances; United States; child maltreatment, 1624

coronary heart disease incidence; social status; blood pressure; premature mortality; social inequality; HDL cholesterol; type A personality; risk factors, 11217

cost-effectiveness analysis; anorexia nervosa; health care systems; life expectancy; mortality rate, 20096

custody death; self-inflicted deaths; women; death rates; male prisoners; female prisoners; prison, 22638

death; dying; causes; mortality, 19008

death; dying; causes; mortality; behavioral risk factors, 28157

death; dying; causes; mortality; behavioral risk factors, 28179

death; dying; causes; mortality; behavioral risk factors, 28180

death; dying; causes; mortality; behavioral risk factors; overweight, 28160

death; dying; causes; mortality; behavioral risk factors; smoking; overweight, 28165

death; dying; causes; mortality; behavioral risk factors; tobacco smoking; obesity, 28158

deaths; suicide; risk factors; rural areas; urban areas; developing economy; unemployment, 25821

ecstasy; MDMA; MDA; polydrug abuse; drug-related deaths; epidemiology, 1666

haloperidol; mortality rate; geriatric patients; olanzapine; risperidone, 29361

health; height; longevity; life expectancy; human development, 22005

HIV; child mortality; child morbidity; orphanhood; African children; AIDS; HIV-negative mothers, 22861

homeless; suicide; mortality; mental disorders; drug abuse, 34942

homicide rates; suicide rates; blood types, 34984

immune function; adjustment style; survival; prediction; breast cancer; women; psychosocial factors, 19918

incident dementia; mortality; idiopathic Parkinson's disease; mood; activities of daily living; motor function; extrapyramidal sign severity, 8271

incident dementia; mortality; idiopathic Parkinson's disease; mood; activities of daily living; motor function; extrapyramidal sign severity, 8260

late-life depression; treatment; diagnosis; mortality rate, 34838

lifelong ethanol exposure; morbidity; survival rate; rats; gender differences, 18796

marriage; Sweden; ischemic heart disease; IHD; mortality; gestational age; married parents; socio economic status; divorces; childhood social stigma, 1824

mortality rates; depressive symptom severity; depressive symptomatology; psychosocial determinants; traditional risk factors; representative surveys; psychological problems; biological processes, 11606

mortality rates; life expectancy; World War I; postcombat disorders; veterans; Boer war; disordered action of the heart; neurasthenia; shell shock, 6100

mortality rates; racial composition; income inequality; metropolitan statistical areas; American cities; mortality; racial composition; MSAs; whites; blacks; health, 16085

mortality; household size; ethnic origin; Israeli adults; spousal death; spousal loss; socio-demographic differences; bereavement duration; age; sex; education; children, 4184

mortality; smokers; non-smokers; passive smoking; living together, 25882

neurosis; mortality; older populations; community sample, 28139

opioids; adverse drug events rate; ADEs; adult surgical patients; postoperative pain; length of stay; LOS; hospital costs; mortality; opioid-related ADE, 5445

organic dementia; mortality; model; Medicare Alzheimer's Disease Demonstration Evaluation; hospitalization; activities of daily living, 8286

Mother Child Communication—Serials

post-stroke mortality; antidepressant therapy; mortality; poststroke depression; antidepressant treatment; nortriptyline; fluoxetine, 35518

psychiatric inpatients; death by asphyxia; patient characteristics, 2475

psychiatry; infant death rate; life expectancy; unemployment; literacy; mental health services, 17291

QT dispersion; schizophrenia patients; electroconvulsive therapy; cardiac diseases; mortality rates; cardiac instability, 20420

racial homogeneity; mortality rate; racial tension; health outcomes; social cohesion; poverty level; societal experience; United States, 1048

religious participation; interleukin-6; mortality rates; older adults; religious attendance, 34383

remote symptomatic epilepsy; seizure severity; epilepsy mortality rate, 5066

rural vs urban residence; suicide; mortality rates, 4716

rural vs urban residence; suicide; mortality rates; rural men, 4687

schizophrenia; morbidity; mortality; cardiovascular disease; antipsychotic-induced weight gain; metabolic abnormalities, 26347

self-assessed health; survival probability; income inequality; mortality risk; health inequality; socioeconomic factors, 11617

smoking habits; lung cancer patients; mortality rate; smoking amount; smoking histories, 35029

social animals; animal aggression; mortality rate; fighting abilities, 3494

standardized mortality ratios; refractory epilepsy; seizure frequency; mortality rate; death rates; epilepsy, 5052

suicide rates; mean iq scores; homicide rates; national estimates; gross domestic product, 7984

suicide; Israel mortality rates; suicidal death, 7991

suicide; suicide methods; season; Switzerland; Swiss mortality; hanging; poisoning; drowning, 4672

swift foxes; Vulpes velox; population density; mating system; group structure; survival, 30795

telemedicine; rural trauma; emergency room; injured patients; discrepancies; mortality rates; trauma education, 9246

depressed mothers; parenting style; disruptive child behavior; mother-child dyads; oppositional defiant disorder; conduct disorder, 4526

depressed mothers; primary care; psychiatric disorders; mother child relations; maternal depression; major depression; emotional problems, 13616

depression; postpartum period; maternal attachment; NICU; low birth weight infants; social support; neonatal intensive care unit, 25581

developmental disabilities; caregiving satisfaction; adult children; aging mothers; caregiving burden; mother-child relations; affection; support; home care, 8799

developmental theories; mother-infant relation; infant development; emotional availability; sensorimotor interaction, 25406

disruptive behaviors; life events; Latina mothers; professional services; help seeking; problem recognition; maternal distress; awareness; young children, 10871

disruptive behaviors; maternal responsibility; stigma; self blame; children behavior, 31376

disruptive child behavior; maternal mood; mother-child dyads, 25793

divorced women; African American; parenting experiences; parental functioning; postdivorce phase, 31362

domestic violence; pregnancy; prenatal representation of infants; motherhood; battered women; risk factor; infant well-being, 19604

domestic violence; preschool age children; mother child interactions; child behavior; child's functioning; maternal psychological functioning, 1597

early attachment figures; faces; childhood experiences; traumatic loss; mother-infant interactions; therapeutic action; psychoanalysis; nonverbal communication; videotapes; self, 17011

early attachment figures; faces; childhood experiences; traumatic loss; mother-infant interactions; therapeutic action; psychoanalysis; nonverbal communication; videotapes; self, 17017

early attachment figures; faces; childhood experiences; traumatic loss; mother-infant interactions; therapeutic action; psychoanalysis; nonverbal communication; videotapes; self, 17012

early attachment figures; faces; childhood experiences; traumatic loss; mother-infant interactions; therapeutic action; psychoanalysis; nonverbal communication; videotapes; self, 17013

early attachment figures; faces; childhood experiences; traumatic loss; mother-infant interactions; therapeutic action; psychoanalysis; nonverbal communication; videotapes; self, 17010

eating disorders; mother-daughter relationship; anorexia nervosa; bulimia nervosa; binge eating; depression; bottle-fed daughters, 4799

Emily Dickinson; creativity; poetry; free association; attachment; mother child relations; Winnicottian theory, 13108

emotion socialization; disorganized attachment; mother-infant interaction, 31212

emotion socialization; disorganized attachment; mother-infant interaction, 31213

emotion socialization; disorganized attachment; mother-infant interaction, 31258

environmental influences; genetics; mothering; adolescent development; genotype environment; negativity; positivity; twin samples; child characteristics; parent characteristics, 19066

externalizing problems; internalizing problems; low-income; Latino early adolescents; risk factors; mother child relationship; maternal monitoring; adjustment outcomes, 31670

facial expression; mother-infant interactions; communicative messages; muscle movement, 1176

family communication; sexuality; African American; mothers; daughters; sex education, 35700

family functioning; mother-daughter relationships; females; African Americans; juvenile offenders; development; perceptions; adolescent-parent relationships, 1682

female oedipal complex; aggression; competitive aggression; triangular conflicts; inhibition; object relationships; mothers; sexuality; mother-daughter relationships, 7727

graphic representations; drawing; mother child interactions; collaboration; learning; preschoolers, 959

high school students; adolescence; identity development; identity change; family relationships, 7436

images of mother; self-image; God image; dysphoria, 25327

impression management; attention-deficit/hyperactivity disorder; families; symptoms; self-report measures; parenting practices; social desirability; child functioning; mothers self-report, 19749

infant communication; mother-infant relationship; risk measurement; construct measurement; mental health risk, 24186

infant emotionality; maternal characteristics; caregivers depression; social support; sensitivity; emotionality predictability; temperament characteristics; mother infant interaction, 18971

infant nondistress vocalization; interpersonal influences; maternal verbal & nonverbal responsiveness; contingent responses; facial expressions, 1111

infant reactivity; maternal regulatory behavior; soothing behaviors; infant stress responses, 25171

intensive mothering; mothering; narratives; sociological perspective, 34521

interactional synchrony; expressive timing; vocal interaction; interactional patterns; cultural similarities; cultural differences; infant vocalization; immigrant vs nonimmigrant mothers & infants, 10132

intergenerational sexual abuse; vulnerability; resilience; mothers; maternal factors, 13705

intergenerational transmission; somatoform disorders; somatization; attention; mother child interaction, 19844

joint engagement; language acquisition; language facility; child mother interaction; communication play, 31123

journey; travel; exploration; secure base establishment; mother infant relationship; security; denial; integrated state of mind, 31629

maternal adaptation; childbearing; pregnancy; postpartum adjustment; social status; mothers employment; mother child relations, 10398

maternal attachment model; behavior problems; early childhood; internalization; externalization; insecurity, 22222

maternal care; cultural influences; ethnographic analysis; secure base behavior; attachment; caregiving behavior; infant security, 25052

maternal deafness; cradling laterality; deaf infants; hearing infants; mother-child relationships, 35350

maternal depression; infant holding; dysphoria; symptoms; domestic violence; mother-infant relationships; handedness, 34853

maternal depressive symptoms; child internalizing behaviors; disruptive behaviors; mother-child relations, 4568

maternal dyadic relationship satisfaction; child hyperactivity; conduct problems; mothers; ADHD; symptoms; social-cognitive model; attributions; negative events; trait perceptions; affective reactions, 11081

maternal foetal attachment; personality traits; pregnancy, 24223

maternal power assertion; child discipline; mother child communication; moral conduct; moral cognition; antisocial conduct; maternal personality, 996

maternal predictors; child predictors; preschool children; social competence; child temperament; self-regulation; prosocial behavior; maternal behavior; maternal separation anxiety; interaction style, 17726

maternal representation; depression; interactive behaviour; postnatal period; substance addicted mothers, 25899

maternal representations; pregnancy; early motherhood; test validity; L'entretien; Turkish translation; primiparous pregnant women; primiparous mothers; postpartum period; content-free dimensions, 9393

maternal sensitivity; infant crying; infant fussing; infant contented behavior; social support, 28274

maternal violence; prenatal; psychological well-being; parenting attitude, 28286

Volume 91 SUBJECT INDEX

Mother Child Relations—Serials

maternal warmth; birth weight; attention deficit hyperactivity disorder; ADHD symptoms; IQ; twins, 16541
medieval orality; mothers; mother-child bonding; infant mortality; self-realization, 28534
mental illness; mothers; psychiatric hospitalization; competence; motherhood; self concept; mother child dyad; narratives; parental roles, 2481
mother child attachment; attachment behavior; security blankets, 34507
mother child interaction; visually impaired infants; intersubjective developmental perspective, 1895
mother child relations; mother child communication; dyads; stability; transitions; psychosocial development, 988
mother child relationship quality; post-partum depression; child cognitive & socio-emotional & behavioral outcomes; attachment; non-directive counselling; cognitive behavioral & psychodynamic therapy, 10756
mother child relationship; adult children; schizophrenia; autism; Down syndrome; maternal well being; optimism; mediating role; relationship quality, 10657
mother child relationship; developmental disorders; psychotherapy; child behavior; Multisystem Developmental Disorder, 16534
mother child relationship; toddler years; antecedent factors; affect dysregulation; family antecedent correlates; cognitive correlates; socioemotional correlates, 18970
mother infant attachment; mother-to-infant relationship, 25178
mother infant interaction; parenting style; parenting strategies; cultural differences; face-to-face context modulation; contingency; facial warmth; socialization pathways, 1112
mother's style; interaction style; children's interactive engagement; disabled children, 22219
mother-adult child relationship; therapeutic counseling; clients; parental relationships; mothers; family therapy; father, 35422
mother-child interaction; child development; symbolic play; cognitive development, 7393
mother-child interaction; maternal distancing; infant development; memory performance; competence; declarative memory, 940
mother-child relationship; coping; adjustment; HIV; social support; emotional distress, 4238
mother-daughter relationships; psychoanalytic theory; woman's life; development theory; female development, 28535
mother-infant interaction; home environment; Global Ratings Scales of Mother-Infant Interaction; Infant-Toddler Home Observation for the Measurement of the Environment; postnatal depression, 27270
mother-infant interaction; interaction patterns; low-income families, 10408
mother-infant relationship difficulties; mother-infant interaction; postnatal depression, 25573
mother-infant relationship; breastfeeding; bonding; mothers; mother child bonding; mother child relations, 978
mother-infant relationship; single mothers; married families; cohabitating families; security of attachment; home environment; psychological adjustment; infant behavior; maternal behavior, 13247
mothers negative expressiveness; children's emotional experience; child's emotional expression; heart rate; facial distress; negative emotion, 28132
mothers who were abused; children; emotions; maternal trauma; emotional events, 31384
mothers; adolescent childbearing & nonchildbearing daughters; differential treatment; family contexts; siblings, 1106
negative emotionality; temperament; infant-mother attachment relationship; fear; anger; cognitive development; distress; intelligence quotient, 25028
neighborhood cohesion; parenting practices; hostile maternal parenting; externalizing behavior, 13353
neighborhood proportion; single-parent families; mother-adolescent relationships; sexual partners, 28265
organic disorders; psychosomatic illness; children; parents; fatigue; intermittent abdominal pain; academic achievement; hepatitis C; symptoms; parent-child interaction; parenting style, 1795
organized violence; children; mothers; Kosovo; violence exposure; parent-child relationship; internal representations; childhood development; posttraumatic symptoms; care-giving, 10816
Parent Management Training; intervention outcomes; maternal depression; child externalization; adjustment; divorce, 26310
parenting behavior measures; Chinese adolescents; construct validity; diverse cultural backgrounds; maternal socialization strategies; maternal support, 33537
parenting practices; relational negativity; mothers; marital conflict; preadolescents, 19069
perceptions of motherhood; battered women; negative effects; emotional distress, 31852

perversion; twentieth century history; regressions; mother-child relationship; sexual functioning; preoedipal fixation; childhood trauma; history; distortions; theories; Holocaust, 28843
physiological markers; child emotion regulation; longitudinal relations; maternal parenting practices; child cardiac vagal tone, 30948
postdivorce re-partnering; divorce; mother-adolescent relationship; divergent realities; mothers; adolescents, 31360
postnatal depression; mother infant interaction; Still-face perturbation; instrumental learning task; primiparous depressed women; infant performance; maternal responsiveness, 19400
postpartum depression; abusive parenting behavior; Japanese mothers; demographic characteristics; social support; marital relationship; negative acceptance; passive acceptance, 31676
predictors; maternal support; adolescent victims; sexual abuse; mothers; adolescent attitudes; adult attitudes; coping; mother's psychosocial characteristics; victim characteristics; disclosure, 10895
prenatal attachment; pregnant mothers; Down syndrome; prenatal development; mother child relations; mother emotions, 13820
preschool aged witnesses; father visitation; domestic violence; witnesses; behavioral functioning; violence severity; mother child relations; father child relations, 1620
presenting problems; help seeking; professional assistance; global functioning; Latina mothers; young children; clinical diagnosis, 10872
problem-solving interactions; problem-solving tasks; mother-child dyads; parenting stress; family problems; child gender, 19059
risk marker; maternal attachment style; postpartum depression; Attachment Style Interview; test reliability, 27306
self perceived competence; maternal feedback; depressive symptoms; adolescents, 24914
self-perceived competence; parenting knowledge; maternal intelligence; maternal perceptions; maternal personality; ecological framework; socioeconomic status, 19050
shared environment; mother-infant attachment security; monozygotic twins; dizygotic twins; temperament; behavioral genetics, 18948
social support networks; oppressed populations; racial mistrust; academic performance; adolescent boys; rescue fantasies; parent-child relationship; sexual abuse disclosure; disruptive behavior, 32227
teen mothers; parenting; teen offspring; parenting support; parental responsiveness, 31251
temperamentally frustrated infants; parenting stress; psychological functioning; marital adjustment; maternal behavior, 24903
topic control; shared storybook reading; mother-child interactions; language impairments; discourse, 4814
transitional objects; attachment parenting; breastfeeding; co-sleeping, 28104
vocal pitch; vocal responses; prosody; mother-infant interaction; father-infant interaction; communication disorders; prelinguistic infants, 13197

mothers; ambivalence toward children; babies; toddlers; conflicts; aggression; psychoanalytic theory; feminine psychology; parent/child interaction; childrearing; achievement; roles; life goals, 7726
mothers; daughters; physical exercise; community-based physical activity; home-based physical activity; health-related fitness; physical activity interventions; physical activity programs, 23460
mothers; health visitors; general practitioners; personal child health record; child care, 26527
mothers; schizophreniaform psychoses; psychotic symptoms; schizophrenia; schizoaffective psychoses; affective psychoses; offspring morbidity; positive symptoms; negative symptoms, 19483
multi-intervention program; exercise; social support; postnatal depression; mothers, 5369
national leaders; medical intervention; policy alternatives; political will; safe motherhood; childbirth; maternal mortality; Indonesia, 16099
neurodevelopmental disorder; language disorder; motor coordination; serum antibodies; rodent purkinje cells; maternal neuronal antibodies; autism; pregnant mice, 22723
noncustodial mothering; cultural experience; child visitation; communicative experience; cultural paradox; dialectical movement; cultural phenomenon; ethnography; competent performance, 19053
nutrition education; mothers; mental illness; food skills program; occupational therapists; food selection; dietary practice, 20668
outpatient treatment program; psychotherapeutic treatment; outpatient psychotherapy; mothers, 14408
parental resemblance; Gaussian curve; guessing; fathers; mothers, 27436
parental smoking; mothers; smoking hygiene; infant risk; respiratory tract infection; hospitalization, 14314
Parental Stressor Scale: NICU; test validity; mothers; stress; moderate risk preterm infants, 6318
parenting attitudes; drug-involved women inmates; correctional institution; parenting practices; incarcerated women; effective parenting skills; substance abusing women, 16177
parenting success; Caucasian mothers; adolescent perceptions; parenting, 13354
partner influence; health behavior; decision-making; breastfeeding duration; male partners; breastfeeding decisions; breastfeeding behavior; first-time mothers, 19068
perceived parenting; adolescent future orientation; self-evaluation; cognitive representation; autonomous-accepting parenting, 31390
perceived social support; social support; mothers; cleft lip children; cleft palated children; maternal depression, 16626
physical activity intervention; physical activity promotion; Transtheoretical Model; low-income mothers; exercise; health promotion; WIC program; behavior change, 20507
playground panopticism; mothering abilities; disciplinary power; social opportunities; child-centered ideology; public neighborhood; suburban playground; commercial play places, 31371
postnatal anxiety; postnatal depression; prediction, 10769
postnatal depression; defense style; cognitive style; locus of control; stress of motherhood; new mothers, 10753
postnatal depression; psychosocial variables; seasonal variation; mothers, 13592
postnatal mental illness; postnatal depression; biochemical aspects; children development; mothers, 28656
postpartum depression; abusive parenting behavior; Japanese mothers; demographic characteristics; social support; marital relationship; negative acceptance; passive acceptance, 31676
postpartum depression; maternal mood; short & long term psychological treatment effects; cognitive behavior therapy; psychodynamic therapy; non-directive counseling; psychotherapy, 11375
prayer; interpersonal coping; mothers; HIV; active prayers; receptive prayers; petitionary prayers; supplicatory prayers; spirituality; adoration; interview; coping mechanism; attitude, 1059
pregnant women attitudes; cord blood stem cell; gene therapy; blood bank; malignant disease; cord blood transplant programs, 16163
premature birth; psychological health; mothers; depressive symptomatology; preterm infants, 8117
prenatal exposure; cocaine; neonatal risk; childhood development; parental care, 31100
psychoanalytic theory; mothering orientation; antenatal prediction; postnatal depression; motherhood; childbirth, 25432
psychological consequences; mid-life women; social comparisons; self-esteem; family responsibilities; career accomplishments; peers; intergenerational social comparison, 31408
psychotic disorder; cumulative incidence; schizophrenia-spectrum disorder; Axis I disorders; offspring, 34797
quality of life; young adults; severe intellectual disability; mothers thoughts; social support; environmental support, 29150
rapid HIV testing; HIV-infected mothers; HIV counseling program; HIV mothers; birth HIV status; childbirth; US hospitals; testing during delivery, 29435
relationship quality; home visits; mother & home visitor personality; time; maternal emotionality, 2447
ritual behavior; children; mother's perceptions; family patterns; rituality; fears; adaptability; cohesion, 10147
role strain; low income mothers; parenthood; employment; family responsibilities, 34492
safe motherhood; pregnancy risk; prenatal care; delayed clinic consultations; prenatal services; pregnancy complications; reproductive morbidity; Mozambican women; preventable pregnancy; poverty, 2327
self-efficacy; toddlers; depressed mothers; nondepressed mothers; impaired development, 28110
social environment; HIV infected mothers; health, 26086
substance abuse; children; drugs; mothers; caregiver characteristics; risk factors; life experiences; development; school performance; life circumstances; health; alcohol, 10975
sudden infant death syndrome; psychiatric disorders; postnatal depression; schizophrenia; maternal infant interaction; substance misuse; infanticide; mothers; SIDS, 10706
terrorist attacks; children's reactions; separation anxiety; child anxiety; September 11; fear; denial; rationalization; anger; empathy; maternal worry; mothers; self-reports, 28044
theory of planned behavior; cross-cultural application; breastfeeding duration; Hong Kong; breastfeeding mothers; postpartum care, 16162
violent behavior; mother's brain injury; parent training; parent-child cooperation; children's compliance; problem behavior, 20193
wheelchair users; homemaking roles; parenting roles; mother experiences; women experiences; physical disabilities, 16200

Volume 91 SUBJECT INDEX

Mothers—Serials

White mothers; Hispanic mothers; cultural differences; pediatric injury risk; protective mechanisms; risky behavior; mother's judgment; child compliance; stressful life events; cultural processes, 19071

Mothers [See Also Adolescent Mothers, Single Mothers, Unwed Mothers]—Books

Premature birth: A family survival guide, 4229

Mothers [See Also Adolescent Mothers, Single Mothers, Unwed Mothers]—Chapters

Maternal drug abuse versus other psychological disturbances: Risks and resilience among children, 4749

Women's work: The practice of donor insemination amongst some lesbian women, 14236

Motion Parallax—Serials

minimal relative motion principle: structure from motion; perceptual phenomenon; mathematical model; vertical axis; oscillating tilted bar, 24328

path perception; rotation; instructions; self-motion; retinal flow; retinal information; eye movements, 30609

radial phantom motion; spatial dependencies; temporal frequency tuning; stimulus size; motion aftereffects, 30623

stereo cues; motion cues; perceived shape judgements; binocular disparity; motion parallax; visual system; viewing distance, 27450

three dimensional perception; depth perception; shape perception; noise; age effects; differences; motion parallax, 33724

Motion Perception [See Also Apparent Movement, Motion Parallax]—Serials

3-D motion perception; accuracy; precision; observers; binocular vision; binocular cues; depth information; 3-dimensional motion trajectories; errors; estimation, 335

3-dimensional shape; 3-dimensional motion; 3-dimensional structure; texture; shape processing; motion processing; neural substrates; visual input; motor output; task difficulty; spatial attention, 24703

action perception; off-line authorship; timing; action events; off-line perception; anticipation; self-other discrimination, 6477

action; illusion; movement perception; neural processes; brain; visual stimulus; ventral premotor cortex; primary motor cortex, 12837

area V1; perception of moving phosphores; transcranial direct stimulation; young adults; middle aged adults, 3597

auditory motion signals; visual motion signals; object speed; object direction; signal integration; motion detection; audiovisual integration; threshold, 6486

auditory motion; multisensory integration; apparent motion streams; congruency effects; continuous motion; motion perception; visual motion; direction of motion; visual modulation; continuous motion, 15190

auditory motion; multisensory integration; tactile motion; visual signals; auditory signals; motion perception; congruency effects, 33700

auditory stimuli; hierarchical models; visual stimuli; auditory motion; visual motion; event-related potentials; selective attention; processing, 18312

auditory-visual motion signals; visual movement; moving target; visual performance, 33659

behavioral inhibition; behavioral activation; media; image motion; face perception; automatic activity; negative affect; positive affect, 12958

biological motion; observer perception; aging; recognition performances; kinetic figure discrimination; younger observers; older observers; biological motion perception, 15976

biological movement; periventricular brain lesions; biological motion perception, 22985

brightness; color; borders; spatial coding; motion; illusory spatial jitter; low-luminance-contrast boundary, 332

cerebral regions; discrimination task; higher order motion; motion processing, 21575

childhood self concept; physical movement; personal base; social base, 34265

cognitive heading; perceptual heading; imagined locomotion; systematic errors; response mode, 24417

color; direction of exogenous attention; achromatic observer, 5089

color; luminance motion; luminance-varying pattern; perception; motion processing, 6527

computational model; neural representation; multiple disparities; visual system; motion direction; same region; image; multiple surfaces; glass; stereopsis; transparency, 6164

cortical crosslinks; binding problem; color; achromatic form; motion; neural activity; retinogeniculate encoding; synchronization; segmentation; equiluminant images; stabilized images, 30838

cortical modulation; whole body movements; brain damage; hemispatial neglect; right brain; left brain; lesions; visual information; somatosensory information; vestibular information; integration, 5049

cost of dispersal; predation; site familiarity; predation risk; movement function; ruffed grouse; birds, 27685

direct current stimulation; V5 visual area; visuomotor coordination; motion perception; visuomotor tracking; primary motor & primary visual cortex; visuomotor performance, 24720

direction perception; self motion; postnatal development; perceptual processes; locomotor experience; optic flow patterns; spatial abilities; infant development, 13181

direction repulsion; motion processing; direction difference; directionally tuned motion detectors; superimposed dots; global motion interactions; mixed speed distractor; inhibitory interaction, 15192

direction-specific bimodal facilitation; audiovisual motion detection; audiovisual perceptual interactions; motion perception, 21261

directional motion processing; cortical function; global processing; motion based segmentation; motion in complex tasks; optokinetic nystagmus; developmental disorders; dorsal stream vulnerability, 4096

endogenous attention; visual motion; auditory motion; unimodal effects; crossmodal affects; modalities, 33683

evoked potentials; auditory movement sensation; duplex perception; binaural hearing; sensation processing; motion perception; sound movement, 7058

flash lag illusion; psychophysical experiments; motion perception; object recognition, 30602

flushed stimulus; flash onset; motion onset; perceptual order; moving stimulus; spatial lag; leading edge; trailing edge; visual motion grouping; visual localization; relative position; temporal order, 21298

fly motion vision; high-pass filter; low-pass filter; model; adaptation; response transients; fly neurons, 21545

global-motion stimuli; local interactions; order motion signals; motion perception; signal dots; contrast polarity, 30597

habituation experiments; infants; movement, 24957

hippocampus; self-motion perception; perirhinal cortex; brain lesions; neurons; theta rhythm; electrical cortical responses; movement velocity; ibotenic acid; foraging behavior, 9919

human motion estimation; motion tracking; biomechanical model; virtual markers; spatial reconstruction, 6491

human motion perception; visual experiences; motor processes; gait; stride speed; stride efficiency; species recognition, 33715

human motion processing; event perception; visual cues; extrastriate motion complex; frontal eye field; motion perception; eye movements, 18299

human movement; perception; action, 33665

illusory contours; interpolation; extrapolation; contour completion; visible edges, 12607

image motion; direction-selective retinal ganglion cells; inhibition projecting; starburst amacrine cells; direction selectivity, 6994

impulse response; motion stimulus; transient response; motion adaptation; pattern contrast; step response; transient oscillations; H1-cell; Calliphora vicina; fly motion-sensitive neuron, 21672

inertia tensor; length perception; haptic perception; mechanical parameters; mechanical invariants; static moment; heaviness perception, 15184

infants; object representation; visual tracking; occluder, 10204

interocular motion; dichoptic moving stimuli; motion combination; optokinetic nystagmus; motion perception; monocular motions; eye movement, 12608

irrelevant translational event; attentional interference; visual attention; transparent motion; event-related potential, 30750

jitter induced illusion of self motion; visual flow;vection; jittering radial flow; perspective; visual perception; vestibular activity, 12586

late-stage motion processing; schizophrenia; visual motion processing; velocity discrimination, 28691

lateral intraparietal area; LIP; motion perception; motion direction; neural activity; motion analysis; monkey brain, 15534

laterality; visual pattern persistence; bistable motion perception; visual field; stimulus intervals, 6980

line orientation matching; line movement; line perception; movement perception; errors, 336

linear acceleration; optokinetic stimulation; neural processing; gravito-inertial cues; visual rotational cues; eye movements, 12781

linear optical trajectory; outfielders; balls; cues; running; downward optical curvature, 3330

local motion; sensitivity; visual development; first order motion; second order motion; amplitude modulation thresholds; motion discrimination, 12592

luminance change; asynchronous perception; motion perception; observers, 9585

luminance mechanism; red-green isoluminant grating; temporal chromatic aberration; motion perception; detection threshold; direction discrimination; temporal frequency; luminance noise, 21283

Motion Perception—Serials

midline binocular integration; corpus callosum; motion perception; dichoptic stimulation; congenital agenesis; callosotomy, 8299

model; visual motion perception; two pathways between retina & cortical area MT; striate cortex lesions; magnitudes & latencies of neural responses; stimulus speed; MT area; MST area; monkeys, 3600

motion adaptation shifts; motion aftereffect; perceived motion; eye movements; frame of reference; speed of flashes; monocular vs binocular vision; interocular transfer; spatial position perception, 6532

motion blindness; visual awareness; motion detection; cues; ERPs; peripheral & central vision; event-related brain potentials; conscious perception; visual processing; frontal cortex; parietal lobe, 24393

motion perception disorders; depth perception disorders; Akinetopsia; motion-perception deficit; cortical motion processing area; MT; brain lesions; neurologic diseases, 11314

motion perception; graphic presentations; student subjects; time-lapse photographs; calculator-generated plots; drawings; reasoning, 317

motion perception; local & global computations of motion; lesion; left occipital lobe; visual areas V3 & V5A; middle aged female stroke patient, 4956

motion perception; occluded motion; eye movements; cortical regions; brain activation; visual system, 6960

motion perception; sensory modalities; stationary stimuli; moving stimuli; multisensory integration; movement perception; motion processing, 12584

motion perception; two-thirds power law; curvilinear motions; visual motion; anticipation error, 24387

motion reversal detection; rotation simulations; pixel motions, 30619

motion sharpening; luminance contrast; distortions; gain control; compressive non-linearity, 6502

motion sickness; visual scene; visual-vestibular conflicts; nausea; optokinetic stimulation, 33706

motion stimuli; cortical regions; inter-species comparison; similarities; differences; motion sensitivity; monkeys; humans, 3692

motion-correction strategy; time course selection; structural equation modeling; task-correlated motion; lexical retrieval task; connectivity models; functional neuroimaging data, 27732

motion; color; cueing; stimulus onset asynchrony, 27750

motion; still images; paintings; photographs; cartoons; motion perception; neural mechanism, 27461

movement experiences; general experience; task experience; differential effects; motion analysis; task demands; early object interaction, 31160

multisensory modalities; motion perception; neuroimaging; neuropsychology; neural substrates; psychophysical paradigms; spatiotemporal constraints, 3712

object motion; motion duration estimates; eye movements; mental imagery; target arrival time; flight time; rating scale; target fixation; reasoning; mental tracking; judgment task; rating scale, 21277

object motion; vision; touch; visuotactile stimulation; tactile input, 33716

object-image velocity; heading perception; minimal stimuli; self-movement, 6472

perceived direction; moving stimuli; static orientation; motion perception, 9575

perceived motion direction; global motion; glass pattern sequences; dipole orientation, 27467

perception of biological motion; form-from-motion task; visual search task; brain lesions; parietal lobe; patients, 4943

plaid; coherency; transparency; global motion direction; oblique directions, 27456

point-light displays; ventral temporal cortex; visual motion; video clips; superior temporal sulcus; middle temporal gyrus; whole-body motion; fmri; brain responses; event related design, 521

primary visual cortex; neural network; Gestalt collinearity principle; object motion; visual experience, 9880

primate cerebellum; body motion; spatial orientation; self motion perception; postural control; cerebellar motion-sensitive neurons; vestibular end organs, 27789

reading difficulties; poor readers; visual magnocellular system; orthographic abilities; visual attention; eye fixation on words; yellow filters; training eye fixation; reading performance; genetics, 4790

real vs self induced motion; cortical areas; dorsal visual stream; brain lesions; impairment; V3A & V6 cells; attention to moving objects; MTv5 & MST & 7a cells; motion during pursuit; monkeys; humans, 3637

representational momentum; spatial hearing; auditory modality; visual object; motion perception, 33744

retinal projection; head turning; eye movement, 12604

reverse-phi motion; neurons; cortex; macaque monkey; stimulation; movement perception; illusions, 15551

right posterior superior temporal sulcus; intentional actions; body motion; environmental context; perceptual features; observed motion; intrinsic cues, 30871

self-motion perception; attentional modulation; relative depth; direction perception; visual stimuli, 3322

sensitivity; superior temporal sulcus cells; articulated action; static posture; monkeys, 3656

sequence length; motor skills; movement sequence; discrete sequence production; random cues, 6568

shape perception; random dots; shape discrimination task; performance rates; neural mechanisms; monkeys; dot density; humans; dotspeed, 15370

Simon effect; stationary moving stimuli; motion information; action control, 9576

skin conductance responses; enhanced feeling; vicarious movement; sensory feedback; social cues; hearing; vision; orientation cues, 21251

spared calcarine cortex; lateral occipital cortex; human hemianopses; visual motion; perimetrical blind patients; cortical lesions; primary visual cortex; residual vision, 19872

spatial arrangement; visual stimulus; inverted self-motion perception; foreground motion; orthogonal background; inverted vection; visual field; eye convergence, 30614

spatial distortions; processing latencies; onset repulsion; motion direction; Frohlich illusion; target velocities, 27459

spatial perception; perceived vanishing point; moving stimulus; stimulus control, 21279

spatiotemporal separability; human cortical response; speed mechanism; visual motion speed; neural activity, 12893

static motion aftereffect; tilt aftereffect; illusory line; visual hierarchy, 27779

stereo cues; motion cues; perceived shape judgements; binocular disparity; motion parallax; visual system; viewing distance, 27450

task-specific impairments & improvements; motion form conjunction; color form conjunction; expectations; transcranial magnetic stimulation; cortical visual area V5, 3626

temporal processing; dyslexia; poor adult readers; motion coherence; spatial perception; word identification, 8068

theories; musical motion; metaphors, 21936

time-to-contact estimation; accelerated stimulus; first-order information; thrown projectile, 3313

time-to-contact judgment; approaching objects; partial occlusion; reduced optical size; moving occluder; computer-generated object; optical expansion; time; motion perception; visual perception, 15196

understanding; intentional action; passive movement; self-judgment; body movement, 34287

vestibular processing; human paramedian precuneus; electrical cortical stimulation; self-motion perception; ependymoma; intracranial seizure; epileptic episodes, 29188

vestibular system; head-trunk coordination; bilateral labyrinthine input; anterior-posterior translations; segmental receptors; kinesthetic processes, 21313

vestibulo-ocular reflex; hyperactive response; horizontal angular acceleration, 9598

vision; motion processing; optokinetic nystagmus; motion coherence thresholds; infants; motion sensitivity, 6514

visual cortex; motion; position coding; retinotopic representations; brain, 6533

visual information; movement execution; aiming movement; online control; developmental perspective; age differences; peak velocity, 24964

visual information; visual stimulus; neural signals; motion signals; line-motion illusion, 12590

visual motion perception; uncommon approaches; motion information; brain mechanisms; animal; human, 3614

visual motion processing deficits; developmental dyslexia; reading skills, 25980

visual motion stimulation; body orientation; perceptual distortions; neck muscle vibration; visual field defects; neglect patients, 27449

visual motion; visual flow speed; mental task performance; eye movements; heart rate; multitasking; postural control; cognitive processing; disorientation; standing posture; concurrent cognitive tasks, 15173

visual perception; motion perception; stimulus discrimination; luminance changes; motion path; motion energy; multiplicative nonlinearity, 30600

visual perception; motion velocity sensitivities; visual images; systems learning, 17975

visual perception; motion; cortical activity; human movement; animal movement; virtual movement, 10193

visual perception; trajectory direction; binocular vision; motion-in-depth; depth perception, 30630

visual search strategies; motion direction; saccades; moving radial patterns; stationary radial patterns, 6530

visual search; visual marking; spatial orientation; visual displays; discrete motion, 3328

Motion Perception [See Also Apparent Movement, Motion Parallax]—Chapters

Binding in vision as a multistage process, 15230

Cortical substrates of visuospatial awareness outside the classical dorsal stream of visual processing, 21260

Mirror neurons' registration of biological motion: A resource for evolution of communication and cognitive/linguistic meaning, 4123

The mirror system and joint action, 3747

Neuronal activity and its links with the perception of multistable figures, 3577

The role of attention in visual processing, 3750

Motion Pictures [See Also Motion Pictures (Entertainment)]—Serials

Elizabeth Marton; My name was Sabina Spielrein; psychoanalysis, 24860

media project; high school students; short films; teenagers; Black filmmaking students; griots, 4077

motion picture; cognitive images; affective images; destination images; marketing; vicarious experience; viewer empathy, 13136

personal involvement; genre preferences; fictional characters; motion pictures; movies, 31491

psychiatric stigma; attitudes toward people with schizophrenia; education; general attitudes; documentary film; interaction intentions, 1499

psychoanalysis; film reviews, 10629

Sabina Spielrein; Carl Jung; childhood cognition, 25405

trauma films; intrusive memories; concurrent tasks; dual representation; mood; dissociation; heart rate; visuospatial pattern tapping; encoding conditions; verbal distraction; recognition measures, 12642

Motion Pictures [See Also Motion Pictures (Entertainment)]—Chapters

Documentary directors and their protagonists: A transferential/countertransferential relationship? Timna Rosenheimer's *Fortuna* (2000) and Michal Aviad's *Ever Shot Anyone?* (1995), 814

Filming psychoanalysis: Feature or documentary? Two contributions, 816

Motion Pictures (Entertainment)—Serials

abjection; camp; misogyny; queer; Edward II; Tilda Swinton, 7589

alcohol abuse; college students; feature films; alcohol recovery; alcohol abuse education, 11920

autobiographical memories; romantic movies; social experience; sex-role traditionalism; dispositional empathy; dating couples, 30718

box office effects; film critics; star power; budgets; films, 14847

compromise formations; unconscious conflicts; psychoanalytic review; Western films; frontier myth; identification; spectators, 4007

Exotica; stripclub dancers; sexual scenario; schoolgirl uniform; psychic trauma; sexual murder; psychoanalytic process; sexuality; Egoyn's film, 18823

fantasy; movies; political metaphor; leftist struggle; capitalist machine; socioeconomic process, 19073

fantasy; movies; political metaphor; leftist struggle; capitalist machine; socioeconomic process, 19075

film; media; misrepresentation; queer; rhetoric; transgender; Boys Don't Cry; gender identity; sexuality, 7593

gender discrepancy; feature films; acting performance; awards; exceptional women's performances, 24864

history; facial features; eyes; males; females; actors; actresses; social conditions; economic conditions, 10075

Holocaust; humor; comedians; films; victims; perpetrators, 807

love; marriage; obsessional neurotic; misrecognition, 19557

mental illness; children's films; mentally ill characters, 868

movie melodrama; family; familial ideology; patriarchal family; gender; sexuality, 21940

movie viewing; humorous film; nonhumorous film; bronchial responsiveness; patients; bronchial asthma; methacholine; epigallocatechin gallate, 29010

Naked Lunch; novels; film adaptation; David Cronenberg; psychoanalysis; sexuality; writing; symbolization; body relation; unconscious mind, 18825

narcissism; carnal human form; film media; body art; somatic experience; human sexuality; perversion psychology; human psyche, 18826

narcissistic relationship; intimate relationships; superego level; love relationships; intrapsychic reality; female bodies; Dead Ringers; David Cronenberg, 18830

pornography; reflexivity; Candida Royalle; scopophilia; demystification; sexual arousal, 7578

product placement; children's choice; branded products; television programs; movies; reminder effect; Home Alone, 34239

psychoanalytic interpretation; Almodovar; Talk to Her; psychoanalysis; psychoanalytic theory; fantasies; masculinity; femininity; film character analysis, 13111

psychoanalytic psychotherapy; film, 2114

psychoanalytic theory; psychoanalysis; art; The Wizard of Oz; adolescent female psychosexual development; menarche; feminine castration fears; menopause; fantasies; mother; daughter, 7733

psychotherapy; films; Antwone Fisher; psychiatrist, 34232

risk; transparency; cover up; media narratives; film; cultural; visual imagery; trust; environment, 36481

schizophrenia patients; viewing preferences; violent films; screen violence; history of violent crime; emotional responses; high security hospital, 10704

smoking imagery; films; emotional state; lifestyle; tobacco use ideologies; smoking credibility; stereotypical images; sub-culture affiliation, 4314

Motion Pictures (Entertainment)—Books

The couch and the silver screen: Psychoanalytic reflections on European cinema, 811

Motion Pictures (Entertainment)—Chapters

Cinema, horror and the abominations of hell: Carl-Theodor Dreyer's *Vampyr* (1931) and Lucio Fulci's *The Beyond* (1981), 822

The cinematic dream-work of Ingmar Bergman's *Wild Strawberries* (1957), 819

Dario Argento's *Phenomena* (1985): A psychoanalytic perspective on the 'horror film' genre and adolescent development, 817

Film as an abreaction of totalitarianism: Vinko Bršan's *Marshal Tito's Spirit* (1999), 821

Freedom through re-introduction: A Kleinian perspective on Dominik Moll's *Harry: He's Here to Help* (2000), 813

The inner and outer worlds of the filmmaker's temporary social structure, 815

István Szabó's *Sunshine* (1999): the cinematic representation of historical and familial trauma, 820

Narratives and documentaries: An encounter with Michael Apted and his films, 812

Notes on the relevance of psychoanalytic theory to Euro-horror cinema, 826

One in the eye for Sam: Samuel Beckett's *Film* (1964) and his contribution to our vision in theatre, cinema and psychoanalysis, 818

A post-postmodern Walkyrie: Psychoanalytic considerations on Tom Tykwer's *Run, Lola, Run* (1998), 823

Sons and fathers: A room of their own—Nanni Moretti's *The Son's Room* (2001), 825

Thomas Vinterberg's *Festen* (1998): An attempt to avoid madness through denunciation, 824

Witness and persecution in two short films: Miguel Sapochnik's *The Dreamer* (2001) and Lindy Heymann's *Kissing Bubba* (2001), 827

Motion Sickness—Serials

fos induction; amygdala; vestibular information; hypergravity stimulation; gravity environments; motion sickness; neural substance; bilateral lesions; rats, 3688

motion sickness; visual scene; visual-vestibular conflicts; nausea; optokinetic stimulation, 33706

Motivation [See Also Achievement Motivation, Affiliation Motivation, Animal Motivation, Educational Incentives, Employee Motivation, Extrinsic Motivation, Fear of Success, Hunger, Incentives, Intrinsic Motivation, Monetary Incentives, Procrastination, Sex Drive, Temptation, Thirst]—Serials

8-OH-DPAT; progressive ratio schedule performance; 5-HT1A receptors; motivation; rats; WAY-100635; reinforcement efficacy, 15755

academic resilience; Mexican heritage students; academic success; personal motivation; family support; college culture; poverty, 23871

acculturation strategies; acculturative stress; coping process; motivational factors; need for cognitive closure; decisiveness; immigrants, 31309

adolescent exercise behavior; sport participation; motivation; transtheoretical model, 6086

age differences; motivational orientation; physical activity; social-cognitive theory; self-efficacy; outcome expectations; self-evaluated satisfaction, 21406

Agnostic Refuge; online congregation; agnosticism; motivating factors; agnosticism, 19026

alcohol outcome expectancies; mood state; gender; college student drinkers; affect related drinking motives, 19092

amotivation; compulsory school physical education, 26904

anger; behavioral approach system; trait behavioral approach sensitivity, 1248

anxiety sensitivity; smoking-related withdrawal symptoms; motivation to quit; nicotine withdrawal; panic; smoking cessation, 35897

appetitive motivation; personality measure; ability measure; behaviour activation system; reinforcement sensitivity theory; appetitive motivation scale; predictor of scales of personality, 24210

applied behavior analysis; behavior analysis; motivation; establishing operations; abolishing operations; motivating operations; behavior-analytic terminology, 2052

artifacts; seeking information; functional information; information seeking motivation, 24967

- athletes; athlete motivation; coach designed motivational climate; physical talent; social-cognitive theories; self-determination theory, 24050
- athletic performance; cardiovascular indexes; physiological challenge & threat indexes; motivational states, 36421
- attachment dimensions; sexual motives; romantic love; college students, 25226
- attachment style; subjective motivations; sexual motivation; emotional closeness; self-esteem enhancement; stress reduction; partner manipulation; power exertion; physical pleasure; procreation, 31423
- attitudes; motivation; second language learning; socioeducational model, 4050
- automotive industry; social approval; motor vehicle; automobile lease; automobile finance; motivational processes, 12342
- behavioral neuroscience; motivation concepts; homeostasis; drives; incentive motivation; brain concepts, 24610
- Behavioural Regulation in Exercise Questionnaire; factorial validity; amotivation; BREQ-2, 24175
- binge drinkers; counseling interventions; motivational interviewing; harm reduction; stages of change; adverse consequences; college students' drinking habits, 2864
- body weight; short term prefeeding; wheel running; physical activity; food supply; motivation; rats, 27604
- cancer; patient characteristics; smoking cessation program; quit motivation; program development; tobacco control programs, 26740
- car sharing motivation; environmental consequences; transportation problems; urban transportation; metropolitan areas; vehicle sharing; mobility behavior; Car Sharing Portland; commercial car-sharing, 14871
- career motivation; career self-efficacy; career success; mentoring relationships, 12262
- chief executive officers; professional motivations; professional consultation; management decision making; organizational finances; fraud, 14751

- personality motives; traumatic events; memory; distress; cognitive complexity; September 11th terrorist attacks; personal traumatic experience; psychological symptoms; stress-related growth, 22106
- physical activity; mental retardation; physical activity patterns; adolescents; motivation; fitness levels; caregivers, 11102
- physical appearance; cosmetic breast augmentation surgery; body image dissatisfaction; sociocultural influences; sexual satisfaction; sexual functioning; surgery motivation, 8611
- policy change; financial contributions; recruitment strategies; political activism; president Clinton, 28300
- possible selves; motivation; self-schemas; perceived control, 7619
- posttraumatic stress disorder; cognitive-behavior therapy; adaptive behaviors; treatment contract; acute distress; high stress; motivation; high risk, 11402
- posttraumatic stress disorder; motivation enhancement; combat veterans; comorbid problems; change readiness; problem behaviors; symptoms; intervention, 35445
- priming manipulation; priming effect; automaticity; priming; autonomous motivation; self-determination theory, 4456
- print material content; design characteristics; cancer prevention; program enrollment; Pap test reminder service; registration; acceptability; knowledge; attitudes, 14339
- problem drinker characteristics; problem drinker motives; moderation management self-help groups; cognitive-behavioral conceptualization, 20645
- procrastination; personality variables; motives; affect; performance, 1281
- psychological factors; biological factors; physical activity; exercise behavior; Filipino students; motivational orientation; gender differences; body weight, 20518
- refugee camp; solitary confinement; language learning; illiterate adults; school education; Kurdish refugees; second language; immigrants' acquisition, 7493
- regulatory fit; message recipients; subjective experience; persuasion; perceived message persuasiveness; topic opinions, 13447
- regulatory focus; cortical activity; frontal activity; motivational orientations; motivational systems; implicit assessment; resting frontal cortical asymmetry, 18675
- relapse prevention therapy; alcohol treatment; reasons for drinking, 11955
- rescue fantasies; vocational motivation; countertransference; Utopia; psychoanalysis; psychoanalysts; therapists, 13512
- reviewer readiness; role clarity; ability; motivation; reviewer, 7293
- role model preferences; behavior changes; motivators; additive behavior; subtractive behavior, 34689
- same-sex sexual behavior; gay desires; gay males; Asian Americans; sexual submission, 10424
- satisfaction ratings; satisfaction judgments; emotional experiences; negative affect; positive affect; motivation; well being, 13494
- school violence; academics; motivation; engagement behavior; deviance; violent behavior; academic outcomes, 36167
- science classrooms; shared perceptions; classroom learning environment; motivation; learning environment; achievement; high school, 5912
- second language acquisition; language learning; motivation; intermediate-level French course; language achievement; attitude toward learning; motivation; instrumental orientation, 27992
- secondary students; students disposition; critical thinking; California Measure of Mental Motivation, 18181
- selective antagonist; schizophrenia; anterior cingulate cortex; cannabinoid receptor; cognitive impairment; impaired attention; normal cognition, 13649
- self-determination theory & intrinsic & extrinsic motivation, 2nd language learning, 18-50 yr old college students, validity & reliability of Language Learning Orientations Scale, 5911
- Self Motivation Inventory for Children; factorial invariance; physical activity; cardiorespiratory endurance; psychometric properties; single-factor model; latent means; structural equation modeling, 3148
- self verification motives; collective self views; self definition; certainty; ingroup outgroup; salience; importance; group identification, 10528
- self-determination; coping; goal attainment; sport; motivational antecedents, 36416
- self-determination; health-promotion setting; self-concordant motivation; social comparison, 23419
- self-monitoring; motives; interpersonal interaction; conscious awareness, 7671
- self-regulated strategies; test-taking motivation; test conditions; consequential testing; non-consequential tests; college examinees; essays; multiple choice; performance prediction; expectancy value, 12184
- self-reported weight; perceptual biases; motivated distortions; estimation accuracy; motivated-distortion hypothesis, 25392
- serious mental illness; violence; psychotic symptoms; motivation; psychosis, 22453
- sexual motivation; sexual performance; ethanol; rats, 30970
- signal anxiety; anxiety models; ego function; defense motive; pleasure principle; Freudian displeasure; drive; quantitative-energetic-biological model; ego; experiential-qualitative-psychological model, 13523
- single target; dual target; brief abstinence incentive; drug abusers; motivational incentives; methadone maintenance patients; cocaine abstinence; cocaine and heroin abstinence, 2498
- smoking reduction; nicotine replacement therapy; brief advice; no-treatment condition; quit attempt; reduction counseling; motivational advice; brief advice; smoking cessation; quitting smoking, 29775
- smoking; tobacco; motives; dependence; Wisconsin Inventory of Smoking Dependence Motives; internal consistency; smoking heaviness; multidimensional structure; test development; test validity, 15052

Motivation—Serials

social behavior model; reflective process; impulsive process; interacting systems, 34643

social competence model; cardiovascular disease; risk; adolescents; stress; agonistic interpersonal striving; blood pressure, 10233

social determinants; sexual activity; economic status; socioeconomic variables; predictor variables; Nigerian women, 7577

social goals; blocked goals; shortened time; socioemotional selectivity theory; motivational patterns; emotional goals; emotional support; goal prioritization, 16009

social motives; interpersonal trust; alternative business partners; problem solving; options; negotiation, 4351

social motives; social decision making; strategic misrepresentation; deception; decision influence, 13457

sport fan motivation; gender differences; anatomical sex; gender role orientation; sport fandom; masculinity; femininity, 13233

sport participation motives; special olympics athletes; mentally retarded athlete, 6087

sports motivation; recreation; exhibitionism; competition; emotion; sports participation; construct validity, 30373

stereotype suppression; internal motivation; self regulation; self control; suppressed thoughts, 10534

street kids; urban homeless youth; daily behaviors; motivation; role models; trust; well-being, 13256

stress; motivation; drug addiction; substance abuse; hypothalamic-pituitary-adrenal axis; self-medication hypothesis; abstinence; stress reduction; craving; addictions treatment, 13739

student-led conferences; middle schools; parental involvement; educational reform; student engagement, 33104

substance misuse prevention; early intervention program; binge drinking; alcohol use reduction; health care professionals, 5690

suicide notes; suicide method; suicide reasons; motives, 7986

suicide; suicide motives; suicide notes; motivation, 28825

suicide; types of suicide; motivation; altruistic suicide, 34990

talented teenagers; gender role attributes; motivational dispositions; communal tendencies; cognitive role; talent development, masculinity; femininity, 7432

teachers; motivation; principals; graduate education; values; school administrators; preferences; perceived rewards, 20795

trait inferences; racial attitudes; motivation; prejudiced reactions; gender; impression formation, 22313

transfer intentions; transfer climate; positive affectivity; negative affectivity; personnel training; self efficacy; motivation, 36290

treatment motivation; concepts, 14042

treatment resistance; anorexia nervosa; cognitive impairment; motivation; insight; Ulysses Agreement, 5655

treatment retention; drug users; motivational intervention; heroin-program; treatment drop-outs, 35889

unconscious consumer motivation; motivation research; morphological psychology; product decisions; marketing strategies; emotion, 33336

values behavior relations; stimulation; tradition values; behavior expression; normative pressures; motivation, 1233

vandalism; sociological study; economic analysis; vending machine; psychological study; professionals; amateurs; monetary prize; public areas, 4750

venture growth; entrepreneurial traits; skill; situationally specific motivation; chief executive officers, 33251

violent behavior; girls; motivations; sense of competence; perception; social variables & environmental variables; health behavior framework; risk factors; protective factors, 16474

volitional depletion; implicit motive discrepancies; psychological conflict; volitional regulation; implicit motive; explicit motive; psychological conflict; volitional strength; well being, 12717

youth sports participants; social motivation; social recognition; parental pressure; social goal orientations; perceptions of belonging, 7413

Motivation [See Also Achievement Motivation, Affiliation Motivation, Animal Motivation, Educational Incentives, Employee Motivation, Extrinsic Motivation, Fear of Success, Hunger, Incentives, Intrinsic Motivation, Monetary Incentives, Procrastination, Sex Drive, Temptation, Thrift]—Books

Cultural intelligence: Individual interactions across cultures, 10365

The strategy of desire, 3417

Motivation [See Also Achievement Motivation, Affiliation Motivation, Animal Motivation, Educational Incentives, Employee Motivation, Extrinsic Motivation, Fear of Success, Hunger, Incentives, Intrinsic Motivation, Monetary Incentives, Procrastination, Sex Drive, Temptation, Thrift]—Chapters

Cross-Cultural Differences in Responses to Feedback: Implications for Individual, Group, and Organizational Effectiveness, 5987

Differences in predictors of online and classroom performance, 2802

Differential use of cerebral mechanisms in bilinguals, 15996

The human team: Basic motivations and innovations, 6071

Motivation and social determinism: The explanatory power of rules, laws, and values, 15345

The motivational sources of creativity as viewed from the paradigm of positive psychology, 16314

The parametric unimodel of human judgment: A fanfare to the common thinker, 15316

Promotion and prevention strategies for self-regulation: A motivated cognition perspective, 13506

Self-regulation and behavior change: Disentangling behavioral initiation and behavioral maintenance, 13510

Self-signaling and self-control, 15320

Suffering from biobabble: Searching for a science of subjectivity, 843

Where is play?, 17922

Why motivation only sometimes affects base-rate sensitivity: The mediating role of representations on adaptive performance, 3418

Motivation Training—Serials

eating disorders; anorexia nervosa; bulimia nervosa; motivational enhancement therapy; dialectical behavioral therapy; Maudsley family treatment, 8418

high-dose motivational enhancement therapy; substance use-related problems; psychotherapy, 19691

Motor Coordination—Serials

acute marijuana effects; response-reinforcer relations; reinforcer efficacy; motor function; motor coordination impairment, 34161

alternating bimanual synchopation; synchronized tapping; movement frequency; unimanual tapping; nonpreferred hand; antiphase, 30647

anxiety; behavior; ethology; motor coordination; mouse; mutant; tenascin-R; exploration; cognition; housing conditions; motivation; open field behavior; behavioral phenotype; mice, 3635

asymmetrical gait pattern; human locomotion; physical characteristics; gait transition, 27481

attentional load; stabilization; between-persons coordination patterns; rhythmic limb movements; nervous system, 12626

bimanual coordination; alcohol-exposed children; corpus callosum; prenatal exposure; fetal alcohol spectrum disorders; motor activity coordination; interhemispheric interaction, 28873

bimanual coordination; homologous joint; heterologous joint; behavioral variability; higher flexibility; lower stability, 30648

bimanual coordination; learning-related activation; brain activation, 18563

bimanual coordination; perception-action coupling; visual information; egocentric constraints; directional constraints; muscular constraints, 6567

bimanual rhythmic movement; phase perception; perceptual judgment; single oscillators; coupled oscillators; visual judgments, 33650

body coordination; athletes; neuromuscular ability; kinesthetic perception; physical proficiencies; Brace Test, 33485

carefulness development; quickness development; group performance; children behavior; tray-carrying task, 7428

color stimulation; handwriting performance; learning disabilities; attention deficit hyperactivity disorder; graphomotor control, 32001

coordinated stability; finger tap; symmetry tendency; homologous fingers; homologous muscles; vision; visual labels; finger tapping patterns; hand-centered reference frame; relative position, 21316

cup stacking; hand-eye coordination; reaction time; physical education programs; rudimentary motor skills, 33768

dual prism adaptation; prismatic displacement; sensory information; dimensional mapping; spatial representations, 6560

eye movements; hand movement; haptic texture; pointing movements; target textures; kinematics, 12575

fingertip force coordination; precision grasping; multiple system atrophy; motor deficits, 20029

guanoxanone administration; seizures; body weight; lethality; locomotor activity; motor coordination; anticonvulsant effect; amnesic effect; glutamatergic excitatory system; epilepsy; anxiety, 13094

heritability; neuromuscular coordination; motor control strategies; genetics, 27484

Motor Cortex—Serials

implicit learning; explicit learning; probabilistic task; fine motor control; visual tracking; cognitive demands, 6604

infants; vocal motor coordination; gestures; speech; gesture-speech system, 31108

inhibitory motor control; motor response; attention-deficit hyperactivity disorder; neural deficiencies; event-related potentials; inhibitory performance; disordered children, 8053

interjoint coordination; walking behavior; insect legs; motor activity; motor neurons; positional signaling, 15646

interlimb movement synchrony; motor activity; rat fetus, 30856

intermanual interactions; motor control; target amplitudes; reaction time; movement characteristics; choice reactions, 30646

intralimb transfer; interlimb transfer; limb dissociation; learning; coordination task, 33769

leg-coordination deficits; cerebellar gait ataxia; limb movements; normal bipedal walking, 22978

motor coordination impairment; bovine spongiform encephalopathy; infected mice; murine scrapie; motor function loss, 34107

motor coordination; mice; hotfoot mutation; Lurcher mutation; double mutations; Grid2 gene, 6826

motor performance; physical exercise; head circumference; oxygen uptake; prematurely born children; intermuscular coordination; intramuscular coordination, 16770

multi-digit grasping; holding; task constraints; coordination patterns; synchronization, 15281

muscle synergies; natural motor behavior; central nervous system; motor control; musculoskeletal system; frogs; muscle activity patterns; kicking behavior, 21565

neural controller; robot; arm; grasping; tactile sensors; sensory motor coordination, 36513

phase variability; proprioceptive perception, 3346

postural coordination; joint motion; joint-specific oscillatory patterns; postural control, 6556

shared motor planning; visual input; eye movement; eye position; eye-hand coupling; closed loop drawing; eye hand kinematics; ellipses tracing; fixation cluster; tangential hand velocity, 6561

stimulation; simulation; motor imagery; functional reorganization; hemiplegic stroke patients; neural networks; paralysis, 26111

transfer; acquired coordination; forepaw movements; head movements; tonic elevation; trained dogs, 9769

transgenic mice; exploratory activity; anxiety; motor coordination; APP transgene; Swedish mutation; neocortex; hippocampus; inhibitory control; vaccination; cognitive dysfunction; Alzheimer's disease, 12855

vestibular system; head-trunk coordination; bilateral labyrinthine input; anterior-posterior translations; segmental receptors; kinesthetic processes, 21313

vestibulopathy; gravity control strategies; body center of gravity; head center; head stability; visual fixation; increased speed; increased stability; vestibular rehabilitation, 11891

visual-motor-coordination; low birth weight; children, 13198

Motor Cortex—Serials

adenoreceptors; behavioral activation; medial preoptic area; motivational systems; nucleus accumbens; motor cortex; mouse brain, 30877

alzheimer disease; transcranial magnetic stimulation study; glutamatergic neurotransmission; motor cortex excitability; cerebral cortex; ionotropic glutamate receptor; N-Methyl-D-Aspartate; NMDA, 16816

Alzheimer's disease; motor cortex excitability; neuronal loss; glutamatergic neurotransmission; neurofibrillary tangles; motor deficits; neural plasticity; disease course; physiological correlates, 4995

Alzheimer's disease; transcranial magnetic stimulation study; glutamatergic neurotransmission; peripheral nerve stimulation; motor cortex excitability; cholinergic connections; cerebral cortex, 16753

anatomo-clinical method; occipital cortex; clinical neurology; visual field deficit; primary motor cortex; visual information; angular gyrus; cortex lesion; sensorimotor systems, 18587

bi-directional plasticity; motor cortex; stimulus frequency, 6969

bilateral primary sensorimotor cortex; post-stroke; mirror movements; pathophysiological mechanism; hemiparetic stroke patients; motor cortex, 8197

brain activation; trial-and-error; sequence learning; early PD; pathophysiology; nondemented patients; frontal tasks; cognitive tasks; controls; brain function; higher cortical function, 3679

cathodal DC polarization; inhibition; transcranial magnetic stimulation; human motor cortex; transcranial electric stimulation; cortico-spinal excitability, 15667

central fatigue; corticospinal activity; motor cortex; patients; transcranial magnetic stimulation, 8270

cerebellar dentate nucleus; cerebellar cortex; motor area; prefrontal areas; posterior parietal areas, 12825

- cingulate region; brain lesions; error detection; prefrontal cortex; supplementary motor cortex; subcortical structures, 6991
- clock drawing; bilateral posterior parietal cortices; bilateral dorsal premotor areas; neural substrates; parieto-frontal cortical networks, 3655
- cognitive control; primary motor cortex; cingulate motor cortex; lateral prefrontal cortex; anterior cingulate cortex; brain mechanisms, 12864
- cortical activations; auditorily paced finger tapping; somatosensory feedback; primary somatosensory cortex; primary sensorimotor cortex; cognitive process; neuromagnetic sources, 21738
- cortical activity modulation; imitative behaviors; frontoparietal mirror areas, 12619
- cortical areas; motor preparation; Bereitschaftspotentials recording; BP; ECoG-EMG; electrocorticogram-electroencephalogram coherence analysis; electrodes; rolandic area, 8303
- cortical dynamics; behavioural dynamics; initial learning; motor task; bimanual coordination, 15578
- cortical excitability; motor cortex; transcranial magnetic stimulation; neuroleptic-naïve patients; first-episode schizophrenia, 22535
- corticospinal excitability; motor evoked potentials; mental counting; perceptual-motor interaction; motor imagery; motor cortex; hand, 6864
- diffuse optical imaging; hemodynamic evoked response; sensorimotor cortex, 7047
- dorsal premotor cortex; striatum; neuronal activity; learning-related changes; hippocampus; monkeys; conditioned visuomotor learning, 34007
- electroencephalographic mu rhythm; object-directed grasp; mirror neuron activity; brain system, 21647
- endogenous dopamine; repetitive transcranial magnetic stimulation; primary motor cortex; macaque monkeys; neuropsychiatric disorders; depression; Parkinson's disease, 18596
- event related desynchronization & synchronization; free decisions; fixed movements; bimanual competition; EEG; finger movements; cortex; movement related potentials; involuntary mirror movements, 640
- external feedback; habenular complex; reward system; cingulate motor area; functional magnetic resonance imaging; positive feedback; negative feedback; performance monitoring, 21708
- finger-muscle twitches; sensory suppression; efferent signal; supplementary motor area, 18308
- flumazenil; intracortical motor excitability; transcranial magnetic stimulation, 27903
- fMRI imaging representational maps; transcranial magnetic stimulation; thumb abduction; hand; foot elevation; motor-evoked potentials; cortical motor representation areas; muscles, 21628
- frontal cortex; motor illusion; figure drawing; arm movement, 12882
- functional magnetic resonance imaging; visual cue; motor sequencing; supplementary motor area; pre-motor area, 15178
- glycogen synthase kinase; schizophrenia; hippocampal lesion; ventral hippocampus; ibotenic acid; protein levels; rats; frontal cortex, 21649
- hand primary sensorimotor cortex; paraplegia; ulnar nerve; spinal nerves; hip-thigh muscles; surgical motor reinnervation; cortico-muscular & cortico-cortical oscillatory coupling; plasticity, 14249
- hemispheric asymmetry; motor cortical inhibitory tone; transcranial magnetic stimulation, 27743
- human brain; multimodal spatial representations; motor response; human parietal cortex; saccadic spatial orienting; manual spatial orienting; neuroimaging, 351
- human deception; cortical excitability; cognitive process; lie detection; emotional components; motor cortex; deceptive responses; truthful responses; cognitive activity, 6936
- human lateral premotor cortex; evoked potentials; visuomotor control; physiological correlates; epilepsy patients; paired visual stimuli; signal perception; motor execution, 16796
- human motor cortex; transcranial magnetic stimulation; theta burst stimulation, 30897
- human motor skill learning; adaptive behavior; synaptic efficacy; neocortical mechanisms; sensory-motor associations, 15571
- human primary motor cortex; motor imagery; supplementary motor area; premotor area, 21567
- independent component analysis; ICA; functional magnetic resonance imaging; fMRI; human brain mapping; motor cortex; power spectrum; motor paradigm; objective differentiation; task-related components, 3257
- information processing model; cortical regions; left parietal region; left prefrontal region; motor region; symbol manipulation, 24646
- inhibitory neuronal mechanisms; motor cortex; schizophrenic patients; electromyographic activity; contralateral hand muscles; ipsilateral hand muscles, 22527
- interleaved transcranial magnetic stimulation; lamotrigine; cortical excitability; brain circuits; functional magnetic resonance imaging; motor cortex, 27758
- intracortical inhibition; hand muscle activation; muscle specificity; temporal modulation, 21322
- Long-Evans rats; Sprague-Dawley rats; strain differences; neurobiology; skilled movements; skilled reaching success; motor cortex; forelimb representations; movement quality, 3592
- magnetoencephalography; movement preparation processes; auditory precues; event-related desynchronization; ipsi vs contralateral motor responses; sensorimotor cortex; spatial precues, 7056
- mirror neuron system; action recognition; ventral premotor cortex; Broca's area; motor cortex homunculus, 21549
- motor cortex activation; action word production; words; representation; grammatical differences; conceptual differences; sensorimotor features; left primary motor cortex; word retrieval; nouns; verbs, 18648
- motor cortex excitability; rehabilitation therapy; rehabilitation induced plasticity; motor system; stroke; writing skill therapy, 14461
- motor cortex stimulation; food reinforcement; hindlimb movements; movement instrumentalization; dogs; operant movement, 15374
- motor cortex stimulation; human motor cortex; excitatory effects; inhibitory effects; ipsilateral muscles; muscle activity; corticospinal excitability, 15647
- motor learning; contralateral primary motor cortex; motor cortex excitability; motor performance; behavioral gains, 21629
- motor recovery; early brain damage; right hemiplegia; seizures; neuropathology, 35337
- muscle activity prediction; primary motor cortex neurons; monkeys; neuronal discharges, 21645
- neural connectivity; tongue movement; reading; brain modulation; brain activation, 3775
- neural correlates; healthy control; supplementary motor cortex; inferior lateral premotor cortex; healthy volunteers; regional cerebral SMA; ILPM; idiopathic PD; IPD; hypophonia, 5025
- neural processes; bicuculline disinhibited cat motor cortex; operant conditioned reflex; forepaw support; local disinhibition; m-methyl-d-aspartate; NMDA, 9861
- neurons; motor cortex; locomotion tasks; corticocortical neurons; rabbit; hemispheres; locomotion rhythm, 21541
- oscillatory activity; pyramidal tract neurons; corticospinal output; spinal motoneurons; macaque monkeys; oscillatory activity; motor cortex, 21746
- oscillatory EEG activity time course; phasic extension finger movements; ipsilateral primary motor cortex; cortical excitability; event-related desynchronization; event-related synchronization, 12919
- physiology; transcranial motor cortex stimulation; conscious humans, 27811
- piano playing; music imagery; pianists; complex motor task; motor skills; effective visuomotor transformation; pitch; rhythm; motor cortex; musical texture; cortical network, 21317
- plastic change; motor cortex; leg function; peripheral nerve; brain stimulation; dual stimulation, 13911
- repetitive transcranial magnetic stimulation; regional cerebral blood flow; motor cortex; positron emission tomography; intensity-dependent; 1 Hz, 626
- repetitive transcranial magnetic stimulation; tics; prefrontal cortex; motor cortex; Tourette's syndrome, 26445
- repetitive transcranial magnetic stimulation; TMS; left primary motor cortex; regional cerebral blood flow; rCBF; sound & electrical stimulation, 3690
- schizophrenia; functional magnetic resonance imaging; Brodmann area; primary motor cortex; premotor and supplementary motor area, 25670
- self-awareness; consciousness; right motor cortex excitability; corticospinal excitability, 24712
- sensorimotor cortex; epileptogenic perirolandic lesion; functional anatomy; resection; cortical motor representations; electrocorticographic spectral analysis; electrical cortical stimulation mapping, 26147
- sensorimotor integration; musicians' cramp; sensorimotor cortex; movement disorder; dystonia, 18645
- sensorimotor integration; speech perception; ventro-rostral monkey premotor cortex; visual information; goal-directed motor representations; hand movement; F5 premotor neurons; acoustic information, 6650
- sensorimotor transformations; cortical motor areas; sensory signals; primary motor cortex; neurons; ventral premotor cortex; muscle activity; cortical processing, 15279
- slow frequency repetitive transcranial magnetic stimulation; rTMS; motor cortex excitability; reaction time, 7074
- somatotopic organization; intracortical microstimulation; dorsal premotor cortex; forelimb movements, 15565
- strategic & reflexive control; fixation; saccades; dynamic cortico-collateral interactions; cortical & subcortical oculomotor systems; frontal eye field & parietal cortex lesions; oculomotor cortex, 11273
- supplementary motor area; functional activation; motor areas; hemisphere medial wall; monkeys; visually guided movements; reaching movements; randomly presented targets, 6968
- supramodal representation; inferior temporal cortex; ventral premotor cortex; object recognition, 18558
- temporal activity patterns; red nucleus; rats; limb movement; motor cortex; locomotion, 21593
- timing; time perception; movement complexity; paced finger tapping; movement selection; initialisation; synchronisation; rhythms; brain activity; temporal complexity, 27756
- transcranial magnetic stimulation; motor evoked potential; muscle activation; cognitive processes; motor processes; cortico-spinal excitability, 7037
- transcranial magnetic stimulation; reorganization; hand motor area; corticospinal excitability; first dorsal interosseous; FDI; motor cortical representation; ischemic stroke, 8188
- visual pathway; frontal cortex; cortical motor centres; visual information; premotor cortex; posterior parietal cortex; dorsal premotor cortex; superior parietal lobule; inferior parietal lobule, 18569
- voltage-gated currents; dye coupling; electrical coupling; sensorimotor cortex; embryonic mice, 21537
- voluntary action; actual movement; intention; self-paced actions; attention to intention; attention to movement; pre-supplementary motor area, 18643
- whisker movements; pyramidal cells; rats; motor cortex; action potentials; neuronal activity, 12811

Motor Cortex—Chapters

The mirror system in humans, 3754

The nature and mechanisms of plasticity, 15635

Practice-induced plasticity in the human motor cortex, 15614

Stimulation-induced plasticity in the human motor cortex, 15615

Techniques of transcranial magnetic stimulation, 15639

Motor Development [See Also Perceptual Motor Development, Psychomotor Development]—Serials

cognitive capacity; infant perseverative errors; cognition; locomotion; infancy inhibition; task difficulty, 24931

concepts development; dichotomy; infant motor development; visual control; infant cognition, 7400

development of handedness; performance-based measure; WatHand Box Test; test development; test validity; age differences; children; adolescents; adults, 6262

digit movements; precision grip; hand-babbling; grasping patterns; hand movements; targeted reaching; infants; human reflexive grasp patterns; visually guided reaching; self directed movements, 4118

Dyrk1A; protein kinase; physiological role; motor activity regulation; motor profile; neuromotor development; motor function; haploinsufficiency; mice, 30847

environmental risk factors; motor abilities; environmental influences; public day care centers; motor development; healthy children; private school, 15942

epigenetic landscapes; infant motor development; dynamical systems theory; motor learning; prone progression, 7392

evolutionary relationships; social play; cerebellum; nonhuman primates; brain structures; motor-development, 27755

infant motor development; learning; motor control acquisition, 7395

lower limb co-ordination; walking; cerebral palsy; motor development; muscle activation; children, 8241

motor competence; motor development; nursery schools; motor learning; sex differences; nature-nurture, 7401

motor development; serum creatine kinase; neuroimaging; vertical suspension; sitting on air posture; independent walking, 8052

motor skill acquisition; developmental robotics; degrees of freedom; motor oscillator; neural pathways; neural entrainment; proprioceptive feedback; task complexity; value-based exploration algorithm, 36494

movement form; movement variability; sit-to-stand transitions; age differences, 28042

parent reports; scale development; test validity; parent checklist; gross motor milestone attainment; sitting; crawling; walking; motor performance, 33489

pedagogical content knowledge; teacher development; pre-service teachers; physical education; emotion understanding; motor development, 12107

prehension development; age differences; distance scaling; grip aperture; sight of hand, 28088

setting sun phenomenon; infant development; brain damage; downward gazing; normal development, 8328

Volume 91 SUBJECT INDEX

Motor Development—Serials

transcranial magnetic stimulation; reorganization; hand motor area; corticospinal excitability; first dorsal interosseus; FDI; motor cortical representation; ischemic stroke, 8188

very low birth weight; neuropsychological development; child development; adolescent development; cognitive development; perceptual-motor development, 1894

visual feedback; hand; prehension development; age differences; childhood development; grasping; lifting; grip aperture, 24982

Motor Disorders [See Nervous System Disorders]

Motor Evoked Potentials [See Somatosensory Evoked Potentials]

Motor Neurons—Serials

abnormal auditory processing; amyotrophic lateral sclerosis; bulbar signs; motor neuron damage; muscle denervation, 29026

Alzheimer's disease; motor cortex excitability; neuronal loss; glutamatergic neurotransmission; neurofibrillary tangles; motor deficits; neural plasticity; disease course; physiological correlates, 4995

animal locomotion; Kv4 potassium channel; primary structure; swimming pattern; molecular basis; larval nervous system; motor neurons; ascidians; neurophysiology; larvae; developmental expression, 3571

cortical motor neuron excitability; peripheral nerve injury; transcranial magnetic stimulation; TMS; evoked spinal cord potentials; unilateral brachial plexus injury, 16780

cytoskeletal protein; mammalian adducins; phosphorylation; protein kinase; synapses; sensory neurons; motor neurons, 21589

human motor skill learning; adaptive behavior; synaptic efficacy; neocortical mechanisms; sensory-motor associations, 15571

inhibitory neuronal mechanisms; motor cortex; schizophrenic patients; electromyographic activity; contralateral hand muscles; ipsilateral hand muscles, 22527

interjoint coordination; walking behavior; insect legs; motor activity; motor neurons; positional signaling, 15646

mirror neuron system; action recognition; ventral premotor cortex; Broca's area; motor cortex homunculus, 21549

motor neuron disease; frontotemporal dementia; language; aphasia; verb impairment, 21538

neurons; motor cortex; locomotion tasks; corticocortical neurons; rabbit; hemispheres; locomotion rhythm, 21541

oscillatory activity; pyramidal tract neurons; corticospinal output; spinal motoneurons; macaque monkeys; oscillatory activity; motor cortex, 21746

polar morphology; embryonic motoneurons; ipsilateral dendrites; axon morphology; genetic suppression; motor axons, 34077

sensorimotor coupling; speech development; model; vocal production; motor mirror neurons, 21717

sensorimotor integration; speech perception; ventro-rostral monkey premotor cortex; visual information; goal-directed motor representations; hand movement; F5 premotor neurons; acoustic information, 6650

single motor unit activity; electromyographic activity; consonant-vowel syllables; intraoral air pressure; velar movement; levator veli palatini; high pressure consonants; blowing tasks, 15870

spike initiation; feeding synaptic control; motor neuron; sensory neuron; sensorimotor integration; sensory gating; feeding behavior; afferent transmission, 21578

synaptic input timing; neuronal properties; motor neuron synchronization; active dendritic conductances, 27799

temporal characteristics; motor neurons; neuronal firing synchrony; predictive synchronous firing; monkeys; conditioning; spike-timing-dependent plasticity; premotor neurons, 24735

Motor Pathways [See Efferent Pathways]

Motor Performance [See Also Finger Tapping, Jumping, Running, Walking]—Serials

aging; force variability; single motor unit; motor discharge patterns; electromyographic activity; muscular contraction; EMG activity, 3345

alcohol-induced performance impairment; heavy drinkers; social drinkers; psychomotor performance, 19093

analogous mechanism; neural delays; motor system; flash-lag effect; visual stimulation; sensory pathways; neural activity; motor responses; motor behavior, 15556

angiotensin-converting enzyme; enzyme inhibition; body composition; physical performance; rats; enalapril; body fat mass, 30966

anticipated action effects; contingent action effects; response production; action selection; action initiation; action execution, 12620

auditory cues; walking performance; spatial gait parameters; stride length; Parkinson's disease; gait velocity, 1851

auditory stimuli; tempo shift; rhythmic sensorimotor synchronization; rhythmic arm movements; response intervals; stimulus frequency; stimulus onsets; psychophysical variables; cue, 6469

augmented auditory feedback; psychomotor skill learning; precision shooting; knowledge-of-results; performance, 24410

automated tracker; manual task; navigation systems; target monitoring; monitoring task; task performance, 36497

basal ganglia; autistic individuals; motor performance; caudate nucleus; putamen; brain volumes; motor deficits; structural abnormalities; cerebellum; frontal lobe; pathophysiology, 16532

brain function; motor behavior; Impaired Sequence Learning; Dystonia Mutation; glucose metabolism; task performance; positron emission tomography; neural activity; cerebellum, 1843

brain lateralization; motor imagery of hand movement; movement lateralization; brain damage; left-brain stroke; right-brain stroke; motor planning asymmetry, 22893

carefulness development; quickness development; group performance; children behavior; tray-carrying task, 7428

central nervous system; reaction time; action preparation; event preparation; temporal preparation; potentials; motor actions; lateralized readiness potential; contingent negative variation, 34090

cerebellar volume; musicians; professional keyboard players; specialized motor skills; skill learning; skill practicing; humans, 6909

cognitive functioning; motor functioning; selective infarction; basal ganglia; decreased non-routine response selection & performance, 20065

cognitive performance; motor performance; Parkinson's disease; associative learning; spatial working memory; visual working memory; L-dopa therapy, 20362

coincident timing; bilateral symmetry; limbs; bilateral skill performance; motor performance, 33758

corticospinal excitability; motor evoked potentials; mental counting; perceptual-motor interaction; motor imagery; motor cortex; hand, 6864

cueing; reaction time; movement time; peak velocity; aiming task, 27480

eye blinks; information processing; sensory-motor processing; task performance; preadolescents, 24761

eye movements; hand movement; haptic texture; pointing movements; target textures; kinematics, 12575

force control; upper limbs; lower limbs; posture; muscle contraction; motor tasks, 6549

gender differences; student attitudes; stereotypes; gendered performance; motor skills tasks; classroom active learning, 29995

girls; ADHD; Rey-Osterrieth Complex Figure; executive processing deficits; grapho-motor skill, 11082

grip selection; hemiparetic cerebral palsy; grip planning; right side lesion; left side lesion, 23004

habituatation; simple repetitive motor task; movement-related cortical potentials, 27812

hand skill asymmetry; cross cultural differences; handedness; left hand preference; right hand preference; peg-moving performance; age differences; adults; children; adolescents, 9623

handedness; pegboard performance; age differences; manual skill development, 7399

handwriting analysis; redundant motor system coordination; multifinger expressions; synergy; fingers, 6557

inhibitory motor control; motor response; attention-deficit hyperactivity disorder; neural deficiencies; event-related potentials; inhibitory performance; disordered children, 8053

inhibitory motor control; prenatal cocaine exposure; motor response; environmental risk; gender; child IQ, 898

intermanual differences; Rey Complex Figure Test copy task; nondominant hand performance; dominant hand impairment, 9443

intraindividual variability; perceptual-motor performance; chronological age, 33764

isometric force; practice; sensorimotor system noise; information processing hypothesis; perceptual-motor performance; age, 31140

kinematics; Turner Syndrome; motor performance; gender; movement patterns, 1792

L-dopa-induced dyskinesias; motor fluctuations; sporadic Parkinson's disease; familial Parkinson's disease, 29163

lamotrigine; motor performance; spontaneous behavior; rats development, 34170

manual wheelchair skills; observational tests; wheelchair skill performance; task performance; physical strain, 71

maximum voluntary contraction; age differences; isometric force; feedback-based control; neural maturation; manual dexterity; sensorimotor control; corticospinal tract; performance, 15702

mental imagery; motor skill acquisition; mental rehearsal; motor performance; sport psychology; performance, 33677

microswitch program; foot & leg movements; wheelchair users; multiple disabilities; mood; happiness, 34770

Motor Performance—Serials

motor behavior; rats; gamma aminobutyric acidergic agents; neostriatum; picrotoxin; bicuculline; receptor antagonists, 27951

motor behaviors; viscous force fields; acquisitional switching; contextual switching; multiple internal models; elbow joint movements; humans; brain, 6569

motor competence; motor development; nursery schools; motor learning; sex differences; nature-nurture, 7401

motor function; cognitive function; donepezil; Alzheimer's disease; parkinsonian dementia, 26479

motor learning; contralateral primary motor cortex; motor cortex excitability; motor performance; behavioral gains, 21629

motor learning; variable environment; prediction, 15275

motor overflow; motor dysfunction; fine motor control; schizophrenia; finger flexion, 19453

Motor Performance Checklist; developmental co-ordination disorder; pediatric occupational therapy services; test validity; test reliability; psychometrics, 33486

motor performance; audience affiliability; metaknowledge, 9149

motor performance; event-related brain potentials; attention processes; table tennis players; visual attention; reaction time; directional cues; motor readiness, 27130

motor performance; motor learning; errorless implicit learning; errorful explicit learning; Parkinson's disease, 11277

motor performance; physical exercise; head circumference; oxygen uptake; prematurely born children; intermuscular coordination; intramuscular coordination, 16770

motor schema theory; Ashens Triple Code Image-Somatic response-Meaning Model; mental imagery; motor learning; Adams closed loop theory; Schmidt motor schema theory, 33766

motoric dominance; motor performance; sporting excellence; innate superiority; lateral dominance; training; heredity, 36429

movement patterns; anterior tongue; functional independence; vertical displacements; swallowing, 15248

movement performance; relation; medical conditions; female population; longitudinal changes; cross sectional relationships; baseline medical conditions, 9625

movement-associated changes; functional changes; brain; multiple sclerosis; clinically isolated syndromes, 29112

neurological factors; motor impairments; language impairments, 1324

neurological impairment; sensorimotor cortex; motor performance; stroke rehabilitation; aging; photothrombosis; animal model; rats, 6849

neuroprotective effects; minocycline; creatine; amyotrophic lateral sclerosis; motor performance; neuroprotection; animal models; mice, 21930

neurotensin; caudate nucleus; substantia nigra; motor reactions; motor performance; rats; conditioned signals, 27941

newborn mice; head trauma; neuroprotective peptide; injections; head-injury related dysfunction, 13101

object exploration; young infants; feet; leg movements; motor behaviors, 15949

optic ataxia; focal lesion; parietal cortex; recovery; movement impairments; reaching; grasping; motor performance, 20046

parent reports; scale development; test validity; parent checklist; gross motor milestone attainment; sitting; crawling; walking; motor performance, 33489

parietal cortex; self-generated movements; movement awareness; superior parietal lobule; posterior region; movement onset, 6939

Parkinson's disease; methylation; prenylcysteine analogs; S-adenosylmethionine; movement deficits; tremor; prenylation; animal model; rats; biochemistry, 7219

performance ability; fluticasone propionate/salmeterol combination; fluticasone propionate; salmeterol; asthma; strenuous activities; treatment; inhaled corticosteroids, 8634

physical education program; third grade children; movement responses; dribbling tasks; accomplished teachers, 12116

placebo effect; nocebo effect; cognitive mechanisms; unconscious conditioning; expectation; analgesic responses; motor performance; hormonal responses; pain, 21246

precision demands; mental pressure; muscle activation; hand forces; computer mouse tasks; upper extremity, 30238

primary progressive aphasia; limb apraxia; deficit frequency; deficit severity; pantomime; imitation; gesture performance, 8101

projection neurons; goal-directed planning; neural substrate; cortico-basal ganglia; sequence motor tasks; synchronous activation, 15525

psychomotor performance; computerized assessment; pursuit rotor task; human performance; task sensitivity; reliability; alcohol induced impairment, 6242

rats; computer-generated stimuli; joystick manipulation; cursor control, 30780

- reflective-impulsive style; coincidence-anticipation motor tasks; response latencies, 31110
- regional brain activation; performance patterns; complex motor skill; skill learning; knot tying, 6997
- respiratory function; nutritional status; cognitive status; elderly; functional ability; mood disorders; activities of daily living, 8711
- retinal signals; saccadic eye movements; visual perception; saccade; visual target; retinal feedback; motor control; eye position; spino-cerebellar patient; on-line saccade modification, 15355
- rhythm; music; auditory stimuli; dancing routine; motor performance; physical education students, 6467
- schizophrenia; motor abnormality; motor behavior; dyskinesia; age of first diagnosis; vulnerability; symptoms; demographic features; line drawing task; dyskinesia; extrapyramidal side effects, 28726
- sedative effects; motor-impairing effects; neuropeptide Y; ethanol; rats; alcohol preference, 24808
- sensorimotor integration; musicians' cramp; sensorimotor cortex; movement disorder; dystonia, 18645
- sensorimotor task; hand configuration; Parkinson's disease; basal ganglia; hand grasping; motor performance, 8304
- sleep panic attacks; movements, 10817
- spasmodic torticollis; alexithymia; risk factor; exacerbation; physiological responses; motor responses; subjective responses; cervical spine, 29121
- spatial representation; anticipatory increase; restraining hand; motor behavior; bimanual task; skilled motor; novel actions; central nervous system, 21323
- speed-accuracy balance; speed-accuracy modulation; activation; inhibition; time course; motor activation; primed response; responses; event-related brain potentials, 9624
- spiking proprioceptors; crustacean legs; simple motor system; crab leg; thoracic-coxal muscle receptor organ; ch-chordotonal organ afferents, 21501
- spiking proprioceptors; crustacean legs; white noise; thoracic-coxal muscle receptor organ, 21498
- startling stimulus; movement task; kinesthetic information; ballistic movements; ongoing movement; reaction time; lower brain, 21311
- teacher motor performance data; South Carolina Physical Education Assessment Program; teacher competency; teacher compliance; state assessment program; data compliance; scoring rubrics; high schools, 14655
- telephone dialer; motor impaired; non verbal patients; motor impairment; telephone; voice synthesizer; non verbal users, 19850
- text-typing task; head operated device; cursor keys; disabled person; arm movements; stimulus response compatibility; cognitive demands; traditional keyboard, 35176
- traumatic brain injury; brain injury rehabilitation; sit-to-stand training; sit-to-stand performance; motor performance; exercise capacity, 2485
- treadmill; exercise; patients; epilepsy; safety; epileptic seizures; safety devices, 1836
- unipodal performance; leg muscle mass; jumping skills; ballet dancers, 33760
- upper limb; neuromuscular control; target pointing task; target pointing accuracy; target pointing reliability, 3160
- validity; reliability; sincerity test; dynamic trunk motions; effort sincerity; test-retest reliability; inter-rater reliability, 14995
- vibrotactile amplitude; passive stimulation; task-relevant stimulation; somatosensory cortex; motor behavior, 21652
- visual feedback; hand; prehension development; age differences; childhood development; grasping; lifting; grip aperture, 24982
- visual stimulation; kinesthetic perception; intersensory processes; motor processes; visuospatial memory; rotation; virtual reality navigation task performance, 310
- visuomotor task; optimal human performance; pointing task; walk variations; hand movements; exponential weighting, 21262
- Weber (slope) analyses; timing variability; drawing tasks; finger tapping; tapping; circle drawing; line-drawing tasks, 6566
- zolidem; psychomotor task performance; mood; food intake; night-shift work, 726

- adaptive motor behavior; cerebellar patients; unfamiliar external forces; goal directed fore-arm movements, 29173
- age differences; imbalance; voluntary forward reaching; cautiousness, 30645
- age differences; motivational orientation; physical activity; social-cognitive theory; self-efficacy; outcome expectations; self-evaluated satisfaction, 21406
- aging; motor system; brain; motor performance; neural correlates, 21716
- altered attention; genetic vasopressin deficiency; lateralized reaction time task performance; motor processes; Brattleboro rat; visuospatial attention, 21520
- Alzheimer disease; citalopram; aberrant motor behaviors, 5458
- arm configuration; gyroscopes; motor commands; arm movements; kinematics; kinetics, 12618
- arm flexion; arm extension; arms; Chinese ideograph evaluation; positive evaluations; bilateral movements; unilateral movements; motor congruence hypothesis, 33654
- arm movement sequences; practice conditions, 27486
- assisted ambulation; multiple disabilities; microswitch cluster, 25476
- asymmetrical gait pattern; human locomotion; physical characteristics; gait transition, 27481
- attention distribution; hands; bimanual performance; handedness, 27438
- attention; motor control; motor imagery; schizophrenia; posterior parietal cortex; auditory hallucinations; self-monitoring deficits, 34864
- automated method; transcranial magnetic stimulation; TMS; motor activity; cortical inhibition; contralateral silent period; voluntary muscle activity, 15088
- basal ganglia absence; refractory epilepsy; extrapyramidal motor; neuronal plasticity; contralateral corticostriatal; pallidothalamic connections; lesions, 16784
- behavioral alterations; global ischemia; sham-ischemia; electro-acupuncture; motor activity; gerbils; motor activity; open field test, 35244
- behavioral assessment; craniofacial muscle pain; anesthetized rats, 7246
- behavioral characteristics; nervous system; mouse; brain receptor; neuregulin; motor activity, 30850
- biological movement; periventricular brain lesions; biological motion perception, 22985
- body image distortions; sensory impairment; motor impairment; orthopaedic surgery, 22983
- brain activation; motor imagery; locomotor-related tasks; standing; initiating gait; walking; walking with obstacles; supraspinal structures; human locomotion; electrical activity; blood flow, 3672
- Broca's area; imitation; neurons; manual finger movements; motor task; language, 15511
- carbergoline; drug treatment; Parkinson's disease; sleep; periodic leg movements during sleep; early morning motor performance, 1852
- cardiac hypertrophy; diastolic function; obese men; patients, 7800
- cerebellar agenesis; neuropsychological testing; eyeblink conditioning; 3D-MRI; motor processes, 1876
- cerebellar dentate nucleus; cerebellar cortex; motor area; prefrontal areas; posterior parietal areas, 12825
- child development; children's behavior; safety; cycling; competence; performance; safety rule compliance, 24900
- choice-reaction times; positive facial expressions; negative facial expressions; cognitive processes; motor processes, 3850
- chronic bronchitis; cause-specific mortality; leisure time physical activity; Whitehall study participants; baseline bronchitis status, 4838
- clorgyline; locomotion; rats; sensitization; sigma receptors; quinpirole; mousting; imidazole; I2 receptor, 15739
- cognitive control; primary motor cortex; cingulate motor cortex; lateral prefrontal cortex; anterior cingulate cortex; brain mechanisms, 12864
- cognitive disability; motor disability; complex disability; International Classification of Functioning, Disability and Health; paediatric neuro-rehabilitation, 28540
- cognitive imitation; rhesus macaques; motor imitation, 30777
- cognitive performance; health; mental activity; physical activity; old age, 3363
- combined expectancy; expectancy cues; motor response; modality cueing; object cueing; task cueing; spatial cueing; response cueing, 24411
- computer simulations; theoretical models; uniform background; nervous system; motor response; context; stimulus; neural networks; background synaptic activity; switching between dynamical states, 3092
- contextual interference; precision skills; throwing, 6554
- copied behavior; physical activity; self efficacy; exercise; health promotion; students, 23427
- cortical activity modulation; imitative behaviors; frontoparietal mirror areas, 12619
- cortical areas; motor preparation; bereitschaftspotentials recording; BP; ECoG-EMG; electrocorticogram-electromyogram coherence analysis; electrodes; rolandic area, 8303
- cortical asymmetry; bipolar disorder; motor disturbances; perceptual disturbances; cognitive disturbances; right hemisphere dysfunction; depression; manic subjects; medication type, 28633
- cortical dynamics; behavioural dynamics; initial learning; motor task; bimanual coordination, 15578
- cortical plasticity; kinematic details; motor training; motor memory encoding; practiced movements; stroke recovery; age dependent changes, 21392
- cortico-motoneuron excitability; Parkinson's disease; levodopa; cortico-motoneuron abnormality; fatiguing exercise; repetitive isometric wrist extension; motor evoked potentials, 17058
- decelerative phase; reaching movement; tau-dot strategy; different viewing conditions, 27441
- depth perception; physical activity; yoga; school children, 2748
- developmental sensory deprivation; developmental motor deprivation; adult rat; somatosensory cortex; cortical development, 6882
- diurnal rhythms; behavioral activity; spontaneous wheel running; spontaneous motor activity; SAMPI mice; mouse model, 7113
- dorsolateral prefrontal cortex; ocular motor behavior; saccades; eye movement control, 21318
- early adolescence; naturally occurring changes; physical activity; depressive symptoms; leisure time, 25580
- early cognitive development; tuberous sclerosis; intellectual functioning; motor processes; mental retardation; infants; risk factors, 32089
- ecstasy; MDMA; motor activity; drug-naïve rats; acute effects; paroxetine binding; sleep; single dose exposure; circadian patterns; cerebral glucose utilization; previously exposed rats, 24781
- elbow flexor muscles; noxious stimulation; nociceptive input; visual feedback; painful heat; motor cortex; motor output; elbow joint; isometric torque; biceps; force matching, 3312
- elderly adults; drawing kinematics; motor planning; vision; aging; time delays; position sense; limb movements; age differences, 6563
- electrical stimulation; cerebral palsy; significant improvement; active electrode; gross motor function; gluteus maximus; gait; muscle strength, 17116
- electromyography; EMG; muscular activity; real movements; imagined movements; inflow explanations, 682
- electromyography; EMG; muscular activity; real movements; imagined movements; inflow explanations, 676
- encoding; age differences; episodic memory; motor activity; category cue recall; sentences; enactment; immediate free recall; clustering; educational differences; adults, 3373
- ethnic minority groups; physical activity; health beliefs; outcome expectations; self efficacy; education level; income level; ethnic differences; physical activity interventions, 11725
- event related desynchronization & synchronization; free decisions; fixed movements; bimanual competition; EEG; finger movements; cortex; movement related potentials; involuntary mirror movements, 640
- excitotoxic lesions; infralimbic areas; medial prefrontal cortex; motor preparatory processes; execution of reaction time task; rats, 21676
- extraversion; response organization; lateralized readiness potentials; stimulus analysis; peripheral motor processes; event-related potentials, 18649
- facial movements; obsessive-compulsive disorder; patients; motor function; kinematic analysis; emotional responses; humor; sertraline; drug therapy, 8529
- factor analysis; Tail Suspension Test; hyperthermia; genetic heterogeneity; immobility; fear; stress reactivity; mice, 3565
- fear reduction; senior falling; education; activity programs; balance; strength; health status, 11696

female sex hormones; estrous cycle stage; behavioral outcome; experimental traumatic brain injury; motor performance; cognitive performance; spatial memory, 27805
 fexofenadine; olapatidine; d-chlorpheniramine; placebo; psychomotor function, 10005
 finger writing movements; neural activation; recognition; Japanese ideographic characters; visual language; motor representation; visuospatial imagery processes; kanji, 3675
 finger-muscle twitches; sensory suppression; efferent signal; supplementary motor area, 18308
 flumazenil; intracortical motor excitability; transcranial magnetic stimulation, 27903
 fMRI; neural basis; response inhibition; task dependent; working memory; dorsolateral prefrontal cortex; Go/No-go tasks; memory load, 3794
 GHB; morphine; motor activity; aggression; social contacts; mice, 3937
 grip force control; object manipulation; impaired manual sensibility; anticipatory force control; motor commands; grasping digits, 13876
 hand movement; extrapyramidal motor dysfunction; negative symptoms; schizophrenia; neuroleptics; butyrophenones, 25636
 heuristic processing; avoidance motor signals; approach motor signals; conjunction fallacy; analytic processing; cognitive processing style; conjunction error; avoidance; motor actions; judgment, 18353
 human frontal eye fields; neurons; macaque monkeys; motor processes; visual processes; visual search; visual target discrimination, 30864
 human infants; sensory input; infant stepping; leg motion; knee flexor muscle torques, 21314
 human lateral premotor cortex; evoked potentials; visuomotor control; physiological correlates; epilepsy patients; paired visual stimuli; signal perception; motor execution, 16796
 human movement; perception; ecological psychology; space; dynamical systems approach, 33763
 impaired movement-related potentials; acute frontal region traumatic brain injury; cortical motor network dysfunction, 29187
 impairment; stroke; neurons; cell death; neural firing rate; cosine directional tuning; cortical activity; population vector model; movement control; hand movements, 4951
 impression management; impression-motivation; impression-construction; health-damaging behaviors; physical activity; self-presentation; model, 13429
 incidental context; memory; retrieval process; motor programming; motor buffer; incidental contextual changes, 27483
 infant operant kicking procedure; computerized stimulus control; computerized measurement; kicking; mobile procedure; auditory reinforcers; visual reinforcers, 15963
 inhibitory control; stop signal task; modification; revised measure; mean reaction time; area of inhibition; children, 10169
 interaction torque; muscle torque; angular velocity; kinetic mechanism; proximal joint; shoulder muscle; central nervous system, 21312
 interaction torques; arm extension; trunk rotation; hand trajectories; reaching movements; turning movements, 12623
 interhemispheric visuo-motor integration; neural correlates; reaction time; crossed responses; uncrossed responses; crossed-uncrossed difference; cerebral cortex, 12846
 interlimb movement synchrony; motor activity; rat fetus, 30856
 intracortical inhibition; hand muscle activation; muscle specificity; temporal modulation, 21322
 juvenile myoclonic epilepsy; right-handed woman; language function; graphogenic epilepsy; writing; motor manifestations; epileptic seizures, 5044
 kinematic reaching parameters; in utero cocaine exposed infants; unexposed infants; high-risk infants; intrauterine cocaine exposure, 18942
 kinematic analysis; handwriting movements; depressed patients; motor disturbances, 28658
 kinematics; neck; rear end impacts; low speed impacts; cervical spine motion; acceleration effects, 354
 laboratory rats; strain differences; morphology; sensorimotor ability; locomotor ability; Fischer rats; Lewis rats; Long-Evans rats; Sprague-Dawley rats; Wistar rats; neuroscience research, 537
 learning; memory; acute stress; cognitive abilities; motor abilities; operant conditioning; performance; learned helplessness; classical conditioning; life events; adaptation; sex differences; rats, 21435
 left visual neglect patients; motor response; preserved obstacle avoidance; reaching; stroke patients, 22892
 leisure activity; body mass index; physical activities, 9157

leisure time; total energy expenditure; double labeled water; basal metabolic rate; calorimetry; physical activities; Minnesota Leisure Time Activity Questionnaire, 6362
 leisure; cognition; intellectual activities; physical exercise; social activities; age rate; cognitive decline; younger adulthood, 24060
 load fluctuation; impaired manual sensibility; grip force control; moving objects; clumsy fingers; motion planning; sensory feedback; arm movement, 5097
 Long-Evans rats; Sprague-Dawley rats; strain differences; neurobiology; skilled movements; skilled reaching success; motor cortex; forelimb representations; movement quality, 3592
 low level sensory stimuli; tactile stimulus; restlessness; motor activity; workload; odor; vigilance task, 33664
 magnetoencephalography; movement preparation processes; auditory precues; event-related desynchronization; ipsi vs contralateral motor responses; sensorimotor cortex; spatial precues, 7056
 manganese; substantia nigra; dicumarol; DT-diaphorase inhibitor; dopamine oxidation; neurotoxicity; neurodegenerative effects; behavioral effects; motor activity; rearing behavior; substantia nigra, 12988
 manual diadochokinesis; stuttering; phonological disorders, 13850
 memory load; sequential finger movements; ipsilateral activation; movement difficulty; novel sequences; complexity; EEG, 15439
 mental imagery; motor skill acquisition; mental rehearsal; motor performance; sport psychology; performance, 33677
 mental practice; motor acquisition; neuromuscular electrical stimulation; voluntary control; abductor hallucis muscle; isolated big toe abduction, 6350
 motivation; self-perception; cluster profiles; physical activity; adolescent girls; self-worth; global self-esteem, 10224
 motor activity; autonomic cardiac functioning; major depressive disorder; blood pressure, 4609
 motor control; rapid aimed hand movements; maximum velocity; peak velocity; impact force, 6548
 motor disorders; visual perception; motor processes; letter sequences writing; peripheral dysgraphia; handwriting movements, 35266
 motor facilitation; action observation; prehensile action; action execution; priming; neural systems; mirror neurons; object affordances, 6553
 motor function; geriatric rehabilitation; clinical sensitivity; geriatric care levels; physiotherapists; home rehabilitation; forms/institutional care, 17410
 motor functions; cerebral hemisphere; Broca's region; language production & comprehension; inferior frontal gyrus; ventral premotor cortex; Brodmann's area, 21543
 motor imagery; corticospinal excitability; abductor pollicis brevis; phasic thumb abduction; abductor digiti minimi; temporal stimulation; spatial stimulation; F wave; thumb; imaged movement, 15585
 motor imagery; transcranial magnetic stimulation; finger; enslaving; deficit, 27757
 motor impairment; visual acuity; spastic cerebral palsy; vision impairment; child patients, 16748
 motor learning; motor systems; neural system; vestibulo-ocular reflex; vertebrates; animal models; motor signal; eye movement; cellular mechanisms; short-term motor memory; cerebellar cortex; vision, 21548
 motor learning; variable environment; prediction, 15275
 motor neuron disease; frontotemporal dementia; language; aphasia; verb impairment, 21538
 motor program learning; average knowledge; acquisition trials; kr schedule; parameter learning, 6570
 motor programming improvements; movement sequence concatenation, 27487
 motor programs; buccal ganglia; excitatory postsynaptic potentials; synaptic connections; ganglia neurons; cerebrobuccal interneurons, 21599
 motor speed; cognitive ability; aging; Alzheimers disease; perceptual speed; verbal speed; nuns; priests, 33838
 motor symptoms; cognitive symptoms; emotional symptoms; functional capacity; Huntington disease, 11164
 motor unit firing; voluntary contractions; human thenar muscles; spinal cord injury, 21515
 movement experiences; general experience; task experience; differential effects; motion analysis; task demands; early object interaction, 31160
 movement form; movement variability; sit-to-stand transitions; age differences, 28042
 movement-associated changes; functional changes; brain; multiple sclerosis; clinically isolated syndromes, 29112
 multichannel accelerometry; assessment methods; parkinson disease; hypokinesia; bradykinesia; tremor; motor complications, 35290
 muscle synergies; natural motor behavior; central nervous system; motor control; musculoskeletal system; frogs; muscle activity patterns; kicking behavior, 21565
 navigation; allothesia; idiothesia; humans; test battery, 9570

necrotic lesions; rats; motor recovery; motor functioning; experimental stroke, 546
 neural circuits; mouth actions; nonconspicuous; lip-smacking; biting; speech reading; dog; monkey; human; brain, 12814
 neural constraints; avian song; motor components; auditory components; animal learning; brain; HVC; motor song system nucleus, 34013
 neural correlates; categorical representations; cortical areas; sensory processing; neural mechanisms; non-human primate brain; sensory inputs; motor output; stimulus-response associations, 15549
 neural correlates; sequence learning; motor responses, 12808
 neuroimaging; psychiatric patients; parietal cortex; neurological patients; self-awareness; movement; self-generated action; action awareness, 15481
 neuromotor function; schizotypal adolescents; neurocognition; schizotypal personality disorder; personality disorders; motor dysfunction; negative symptoms; perseverative responses; motor regions, 1551
 neurophysiology; handwriting execution; phonographic scripts; logographic scripts; Japanese language; frontal lobe; parietal lobe; motor processes; kana; kanji; temporal lobe, 606
 neurophysiology; linguistic components; motor components; word writing; prefrontal cortex; temporal lobe, 550
 nicotine chewing gum; handwriting movements; smokers; motor processes, 28374
 nursing home placement; Huntington disease; predictors; motor symptoms; behavioral symptoms; skilled nursing facility; psychiatric symptoms, 14018
 object retrieval; infant development; movement coordination; box transparency; task exposure; learning strategies; learning rate; time of discovery; solution discovery; infants, 7376
 observational learning; knowledge; results frequency; physical practice; model performance, 27478
 oculomotor information; sequential aiming movement; sequential learning, 27455
 orofacial movements; behavioral repertoire; haloperidol treatment; drug withdrawal; rats; dopamine receptors, 9976
 orofacial muscle activity; speech rate; speech intensity; jaw movement distance, 9614
 oscillatory activity; pyramidal tract neurons; corticospinal output; spinal motoneurons; macaque monkeys; oscillatory activity; motor cortex, 21746
 oscillatory EEG activity time course; phasic extension finger movements; ipsilateral primary motor cortex; cortical excitability; event-related desynchronization; event-related synchronization, 12919
 pain fear; physical performance; attentional processes; fibromyalgia, 8118
 pain; depression; health promotion program; rheumatoid arthritis; functional disability; comprehensive health promotion program for rheumatoid arthritis, 11752
 pain; depression; health promotion program; rheumatoid arthritis; RA; CHPPRA; functional disability; comprehensive health promotion program for rheumatoid arthritis, 2346
 parietal cortex; neural coding; flexible control of behavior; sensory information; non-human primates; parietal neurons; attention, 15474
 Parkinson's disease; GABA antagonism; haloperidol; global pallidus; tremor; locomotion; jaw movement; acetylcholine; muscarinic, 3992
 Parkinsons disease patients; levodopa; regional brain activation; motor sequence learning; Parkinsons disease; PD; PET imaging; dopaminergic therapy; motor function; cognition, 17162
 pedometer; physical activity program; older adults; mobility-related self-efficacy; physical performance, 32582
 peptidomimetic vacuolar chewing movements; tardive dyskinesia; behavioral effects; pro-leu-glycinamide; rats; haloperidol, 3574
 perceived exertion; test validity; resistance exercise; health care, 35672
 performance ability; fluticasone propionate/salmeterol combination; fluticasone propionate; salmeterol; asthma; strenuous activities; treatment; inhaled corticosteroids, 8634
 phenylethylamine; dizocipiline; amphetamine; motor activity; rat, 10032
 physical activity; body fat; protective effect; Framingham Children's Study; FCS; activity monitoring; childhood obesity, 2344
 physical activity; decisional balance; stages of change; activity characteristics; self-efficacy; nutrition program; fitness program; demographics; potential participants, 7657
 physical activity; exercise attire; older women; exercise group attitudes; self-presentational efficacy; social physique anxiety; psychosocial health, 13277

- physical activity; fat intake; middle school students; environmental interventions; nutrition interventions; low-fat foods; classroom health education; social marketing interventions, 5502
- physical activity; gaze control; posture stabilization; elderly people; ageing; balance regulation; falling; sporting activities; vestibulospinal reflex; ocular movements, 3343
- physical activity; overweight preschool children; nonoverweight preschool children; weight-related differences; parental influences; child physical activity behavior, 7371
- physical activity; route directions; object parts; human mind; motor events; feet; hands, 24477
- physical activity; social support; psychological well-being; family structure; African-American women; health perceptions; mood; European-American, 24528
- physical disabilities; upright position; uptime; uptime; body mass index, 3157
- physical education; cardiovascular responses; heart rate; student characteristics; gender; grade; physical activity type, 21787
- physical functioning; activities of daily living; cognitive impairment; nursing home residents, 23579
- physical functioning; mental health; quality of life; older individuals; multiple sclerosis; physical impairment; psychological adjustment, 19848
- physical advice; physical activity; public-health problem; elderly patients; demographic characteristics; overweight; quality of life, 5519
- piribedil; bromocriptine; Parkinson's disease; motor function; tolerability, 17198
- pointing task performance; traumatic brain injury; memory deficit; adult patients, 13950
- practice parameters; sleep-wake patterns; sleep disorders; actigraphy; circadian rhythms; movement, 3422
- primitive reflexes; grasping; oral reflex; nuchal reflex; corneomandibular reflex; glabella tap reflexes; palmar reflex; utilization behavior; diagnostic use, 21321
- proprioceptive straight-ahead pointing; subjective sagittal middle; active haptic exploration, 24407
- PTSD symptoms; childhood cancer survivors; dopaminergic activity; traumatized mothers; brain hemisphere; turning biases; urinary DA levels, 1519
- pulling strength; pulling postures; exertion, 33756
- quantitative motor assessment; myotonic dystrophy; muscles, 22833
- quiet wakefulness; behavioral state; animal model; quiet sleep; male cats; hypocretinergic system; somatomotor activity, 3838
- reflective-impulsive style; coincidence-anticipation motor tasks; response latencies, 31110
- repeated exposures; gustatory stimuli; habituation; positive contrast effects; perinatal rats; orofacial motor responses; memory; taste, 18446
- repetitive behavior; erratic gross-motor body movements; autism; visual stimulation, 10178
- rhythmic movement; attraction; auditory rhythms; visual rhythms; synchronization of movement; isochronous tone; finger tapping, 30581
- saccade stepping interactions; motor plan; obstacle avoidance; obstacle contact; young adults, 6552
- saccadic system; motor plans; visual information; fixation position; scanning letter strings, 27471
- schizophrenia; phencyclidine-induced behavioral changes; hyperlocomotion; antipsychotic efficacy; receptor antagonist; behavioral changes; positive symptoms; negative symptoms; receptor agonist, 21882
- school based intervention; physical activity; sedentary adolescent females, 23436
- self-paced movement; bilateral sources; movement related potentials; readiness potential; supplementary motor area; primary motor cortex; readiness potential; subthalamic nucleus; ipsilateral cortex, 35620
- self-presentational processes; self presentation; physical activity; exercise behavior; motivation, 14805
- sensitivity; superior temporal sulcus cells; articulated action; static posture; monkeys, 3656
- sensory integration; grasping; object size; visual information; haptic information; task requirements, 24413
- shared motor planning; visual input; eye movement; eye position; eye-hand coupling; closed loop drawing; eye hand kinematics; ellipses tracing; fixation cluster; tangential hand velocity, 6561
- siblings; physical activity level; children; adolescents, 18307
- side preferences; trunk movements; wild Asian elephants; *Elephas maximus*; feeding; handedness, 9749
- single pulse transcranial magnetic stimulation; isochronic performance; sequential isochronous movements; spatio-temporal integration, 34073
- sitting time; work patterns; overweight; obesity; Australian adults; body mass index; physical activity, 8661
- sleep regulation; motor activity; sleep duration; nightwaking episodes; infants; preschoolers; sleep consolidation, 24922
- slow potentials; anticipatory behavior; future directed behavior; readiness potential; contingent negative variation; Parkinson's disease; brain stimulation, 34086
- social interaction; plus-maze behavior; plasma corticosterone; elevated plus-maze; neuronal function; saline injection; receptor agonist; saline controls; young rats; open arms, 12980
- social isolation; medial prefrontal cortex; dopaminergic neurotransmission; cholinergic neurotransmission; Sprague-Dawley rats; prepulse inhibition attenuation; motor activity, 12859
- social support; adjustment; spinal cord injury; past peermentoring experience; current live-in partner, 19887
- somatosensory areas; steady pressure discrimination; spring strength; kinesthesia; neuronal population; distal phalanx; right index finger; afferent pathways, 12810
- somatotopic organization; intracortical microstimulation; dorsal premotor cortex; forelimb movements, 15565
- spatial learning; voluntary exercise; hippocampus; neurogenesis; wheel running; motor behavior; selectively-bred mice; maze learning, 617
- spatial learning; voluntary exercise; hippocampus; neurogenesis; wheel running; motor behavior; selectively-bred mice; maze learning, 18551
- spatial requirements; nonhandicapped adults; visual estimation; wheelchairs; walking; locomotion, 15205
- spatiotemporal distribution; rhythmic motor patterns; embryonic rat spinal cord; medullary circuits; neuropharmacological control; neural development; ontogeny, 21673
- speech production; left anterior insula; motor cortex; speech production; articulation; phonation, 21527
- spike initiation; feeding synaptic control; motor neuron; sensory neuron; sensorimotor integration; sensory gating; feeding behavior; afferent transmission, 21578
- spinocerebellar ataxia; neurodegenerative disorder; cortical interneurons; cerebellar disorders; idiopathic cerebellar ataxia; cortical silent period, 35319
- stimulus analysis; response organization; Contingent Negative Variation; extraversion; cognitive information processing; motor preparation; event related potentials, 15710
- stimulus intensity; manual reaction time; saccadic reaction time; manual responses; saccadic responses, 33660
- stimulus-response properties; motor system; cerebellar ataxia patients; voluntary contraction, 29181
- striatal activation; three dimensional activation; human striatum; face movements; hand representation; foot representation; face representation; eye representation, 3641
- striatal dopamine release; unrewarded motor task; human volunteers; dopamine receptor ligand; raclopride, 3601
- stroke patients; reaching movements; motor compensation; compensatory strategies; hemiplegia; recovery, 8202
- stroke protection; physical activity; cerebrovascular events; mice; brain injury; cerebral ischemia, 11702
- supplementary motor area; functional activation; motor areas; hemisphere medial wall; monkeys; visually guided movements; reaching movements; randomly presented targets, 6968
- temperament; nonresting energy expenditure; body composition; physical activity; girls, 28097
- temporal organization; covert motor processes; response selection; response preparation; movement related brain potential; reaction time, 7135
- test-retest reliability; Yale Physical Activity Survey; older Mexican Americans; physical activity assessment, 30482
- tiazofurin; amphetamine-induced motor activity; rats, 18753
- timing; time perception; movement complexity; paced finger tapping; movement selection; initialisation; synchronisation; rhythms; brain activity; temporal complexity, 27756
- transcranial magnetic stimulation; motor evoked potential; muscle activation; cognitive processes; motor processes; cortico-spinal excitability, 7037
- transdermal nicotine; cognitive deficits; motor deficits; Parkinson's disease, 11659
- transfer; acquired coordination; forearm movements; head movements; tonic evolution; trained dogs, 9769
- traumatic brain injury; brain injury rehabilitation; sit-to-stand training; sit-to-stand performance; motor performance; exercise capacity, 2485
- tremor; harmaline; behavior; tryptophan hydroxylase inhibition; central control of motor dysfunction; olivary nucleus; cerebellum; Swiss albino mice; p-chlorophenylalanine; neurochemistry, 3942
- turning behavior; right hands; handedness; cerebral dopamine asymmetries; hemispheric dopamine asymmetries; cerebral dopamine asymmetries, 6949
- unilateral cleft lip; motion analysis system; lip movement; objective measurement; facial appearance; subjective assessment, 17200
- unperturbed limbs; surface electromyography; tibialis anterior; optical imaging; rectus femoris; biceps femoris; kinematic data; gluteus medius; reactive recovery response, 21315
- vacuous chewing movements; antipsychotics; haloperidol; risperidone; rats; catalepsy states; drug dosages, 13035
- vibration; electromyographic activity; human locomotion; afferent input, 15679
- vision; manipulation; humanoid robotics; object segmentation; epigenesis; brain, 17998
- visual capture; arm position; reaching performance; mirror illusion; right arm, 33711
- visual information; movement execution; aiming movement; online control; developmental perspective; age differences; peak velocity, 24964
- visual processing; specific language impairment; visuospatial attentional orienting; motor response; generalized slowing hypothesis, 19834
- visuospatial attention; motor preparation; Down Syndrome; DS; visual targets; target localization; attention orientation; reaction time; young adults, 3323
- walking performance; vestibular-defective patients; unilateral vestibular neurectomy; locomotion; Menieres disease, 23045
- Wechsler Adult Intelligence Scale-III Processing Speed Index scores; traumatic brain injury; working memory; motor speed; perceptual processing, 8263
- weight loss intervention; body composition; obese adolescents; physical activity; diet, 29414
- whisker movements; pyramidal cells; rats; motor cortex; action potentials; neuronal activity, 12811
- women physical activity; feminist theory; Michel Foucault; sport scholars; sport studies; self technologies; resistance; power; feminism; sports; domination practice, 2972
- working memory; executive functioning; severe closed-head injury; self-ordered pointing, 4886

- early motor learning; topical motor skills; cerebellar degeneration; mice; animal strains, 21621
- engineering students; motor skills; daily operation tasks; item movements; stereotype strengths; responses; cross cultural differences, 36477
- environmental risk factors; motor abilities; environmental influences; public day care centers; motor development; healthy children; private school, 15942
- evolution; skilled movements; primates; rodents; frontal cortex; reaching; grasping, 7006

Volume 91 SUBJECT INDEX

Motor Skills—Serials

experience level; expertise; complex sensorimotor skills; movement variability; dual tasks; performance; baseball batting task; swing kinematics, 15276
field dependence; field independence; complex motor skills; sporting activity; athletes, 33761
gender differences; student attitudes; stereotypes; gendered performance; motor skills tasks; classroom active learning, 29995
grasping; handedness; individual differences; captive chimpanzees; cerebral dominance; motor skill; food items; grip morphology, 18572
hand preference; classification; norms; interpretations; increased non-right-handedness; right shift theory; hand skill, 30644
hand skill asymmetry; cross cultural differences; handedness; left hand preference; right hand preference; peg-moving performance; age differences; adults; children; adolescents, 9623
human motor skill learning; adaptive behavior; synaptic efficacy; neocortical mechanisms; sensory-motor associations, 15571
knowledge; contractile imagery; muscle strength; performance; strength tasks; skill learning; motor unit firing behavior; motor performing, 6558
Long-Evans rats; Sprague-Dawley rats; strain differences; neurobiology; skilled movements; skilled reaching success; motor cortex; forelimb representations; movement quality, 3592
manual wheelchair skills; observational tests; wheelchair skill performance; task performance; physical strain, 71
motor learning; variable environment; prediction, 15275
motor skill acquisition; developmental robotics; degrees of freedom; neural oscillator; neural pathways; neural entrainment; proprioceptive feedback; task complexity; value-based exploration algorithm, 36494
motor skill learning; callosal denervation; forced forelimb use; rats; cortical callosal afferents, 21551
multiple disabilities; motor behavior; microswitch combination; environmental stimulation, 35638
piano playing; music imagery; pianists; complex motor task; motor skills; effective visuomotor transformation; pitch; rhythm; motor cortex; musical texture; cortical network, 21317
regional brain activation; performance patterns; complex motor skill; skill learning; knot tying, 6997
Rett syndrome; females; oromotor skills; feeding problems; breathing abnormalities; mobility; postural abnormalities; joint deformities; epilepsy; self-care; cognitive skills; communication skills, 11070
Rett syndrome; females; oromotor skills; feeding problems; breathing abnormalities; mobility; postural abnormalities; joint deformities; epilepsy; self-care; cognitive skills; communication skills, 11067
sequence length; motor skills; movement sequence; discrete sequence production; random cues, 6568
skill acquisition; knowledge of results; KR; motor learning; performance; skill retention; motor skill; feedback; verbal encouragement; algebraic score; error score, 15280
skill demands; object position; preferred hand reaches; handedness, 24690
specific motor skills; table-tennis performance; novice players; physical education, 33767
subthalamic nucleus bilateral stimulation; Parkinson's disease; activities of daily living; motor function; long-term outcomes, 8626
test validity; coordinated exertion; physical fitness; grip exertion, 33474
ziprasidone; Huntington's disease; motor functioning, 14253

Motor Skills—Chapters

The nature and mechanisms of plasticity, 15635
Plasticity in adult M1 cortex during motor skill learning, 15619

Motor Traffic Accidents—Serials

accident involvement; hazard perception; greater illusion; driving skill; safe driving, 14870
automobile driving; drug effects; attention deficit hyperactivity disorder; delivery profiles; methylphenidate, 14137
behavioral risk factors; trends; motor vehicle crashes; fatigue; alcohol intoxication; seatbelt use; hospitalization; death, 30287
breath alcohol levels; sleepiness; driving impairment; sleep-related fatal road crashes, 34134
crash experience; risk taking; urban youth; rural youth; motorcycle crash, 30284
drinking; driving; cannabis use; Ontario students; injury risk; drunk drivers; driving risks, 16496
driving phobia; motor vehicle accident; hypnosis, 31810
drug dosage; risk factors; motor vehicle crashes; cannabis use; driving behavior, 28870
drugs abuse; drivers; motor vehicles; traffic crashes; driver fatalities; alcohol abuse; culpability; psychotropic drugs; THC; blood alcohol concentration; age differences; driving under the influence, 30282

elderly people; bipolar disorder; vehicle crashes; impaired memory; slow reaction times; elderly adults, 35526
fatalism; seat belt usage; destiny; drivers, 13114
gender differences; injury severity; car accidents; drivers; sport-utility vehicle, 30288
interindividual differences; traffic accidents; impaired driving; driver behaviour; detection criteria, 17957
motor vehicle accident; survivors; cognitive behavioral therapy; supportive psychotherapy, 26229
passenger seating position; risk factors; passenger death; traffic crashes; injuries, 30286
post-traumatic stress reactions; traffic accident; parent-child discrepancy; reporting, 4660
posttrauma cardiovascular levels; motor vehicle accident; posttraumatic stress disorder; heart rate; blood pressure, 34895
Posttraumatic Cognitions Inventory; psychometric properties; factor structure; internal consistency; concurrent validity; discriminant validity; discriminative validity; traffic accident survivors, 33573
posttraumatic growth; child survivors; road traffic accident; trauma; philosophy of life, 34924
posttraumatic stress disorder; psychosocial functioning; motor vehicle accident survivors; symptom clusters, 1334
posttraumatic stress disorder; road traffic accidents; psychological effects; gender differences, 31823
posttraumatic symptoms; motor vehicle accident survivors; posttraumatic stress disorder; PTSD; cognitive behavioral treatment; supportive psychotherapy, 8407
presence of passengers; older drivers; fatal crashes; unsafe actions; driver-related factors; elderly, 28138
psychiatric co-morbidity; motor vehicle accidents; accident survivors; chronic posttraumatic stress disorder, 24103
psychiatric morbidity prediction; posttraumatic stress disorder; motor vehicle accident survivors; depression; screening questionnaires; screening instruments, 169
psychological consequences; road traffic accidents; mothers; children, 19300
psychological treatment; cognitive bias; motor vehicle accident survivors; posttraumatic stress disorder; Stroop effect; treatment outcomes; Stroop test, 20143
safety belts use; behavioral risk factors; primary laws; prevalence estimates; motor vehicle crashes, 24102
self-hypnosis; driving phobia; dissociative imagery; traumatic incidents, 31837
sleep-related motor vehicle crashes; sleepy-driver; at risk populations, 6142
speed limit laws; highways; crash rate; injury; fatality; national maximum speed limit law repeal; urban areas; rural areas; trends, 30289
startle responses; motor vehicle accidents; accident survivors; symptom severity; cognitive behavior therapy, 35196
traffic accidents; insurance companies; seriousness; work; commuting; victims; major injury; leisure time injury; death; heavy vehicles; drivers; working hours, 9227
traffic safety; safety assessment; accidents; rural roads; accident models; prediction; mortality, 30281
vocational outcome stability; adulthood; preschool brain injury; childhood traumatic brain injury; traffic accidents, 35314
whiplash associated disorders; biomechanical stress; low velocity collisions, 1756
whiplash injury; epidemiology; motor vehicle crash; poor prognosis, 1794
witness credibility; eyewitness testimony; car accident, 12393

Motor Traffic Accidents—Books

After the crash: Psychological assessment and treatment of survivors of motor vehicle accidents (2nd ed.), 9228

Motor Traffic Accidents—Chapters

Diagnostic issues: Attorney perspective, 4907

Motor Vehicles [See Also Automobiles]—Serials

cellular automata; adaptive behavior; rough set theory; machine learning; artificial intelligence; simulated cars; vehicular traffic; urban environment, models, 24109
contextual interference; precision skills; throwing, 6554
irregular working hours; fixed day shift system; sleep-wake cycle; truck drivers; time arrangements, 9932
moped rider training; young moped riders; driving skill; training effects, 17958
sleep-related motor vehicle crashes; sleepy-driver; at risk populations, 6142
teen driving; parental limits; Motor Vehicle Administration, 24925
traffic air pollution; schizophrenia risk; urban-rural differences; benzene; carbon monoxide, 11130
Motorcycles [See Motor Vehicles]
Mourning [See Grief]
Mouse Killing [See Muricide]

Movement Disorders—Serials

Mouth (Anatomy)—Serials

burning mouth syndrome; atypical odontalgia; temporomandibular disorder; hyperactivity; trigeminal nerve; chorda tympani nerve; glossopharyngeal nerve; tongue; lips; oral mucous membrane, 4858
content validity; oral health status scales; oral health related quality of life; quality of life, 24298
neural circuits; mouth actions; nonconscious; lip-smacking; biting; speech reading; dog; monkey; human; brain, 12814
prey catching; Archer fish; posture; morphology; aiming behavior; eye angle; mouth angle; tongue, 21488
secondary school athletes; mouthguard awareness; mouthguard use; oro-facial trauma; mouthguard wear; adolescent Nigerian athletes; oro-facial injuries, 30247
topical clonazepam; stomatodynia; burning pain; sucking mechanism; oral mucosa, 35632
training methods; oral cavity; awareness; adult speakers; verbal instructions, 33747

Movement Disorders [See Also Apraxia, Ataxia, Athetosis, Catalepsy, Cataplexy, Chorea, Dyskinesia, Myasthenia Gravis, Myoclonia, Paralysis, Spasms, Tics, Torticollis, Tremor]—Serials

asterixis; toxic encephalopathy; gabapentin; oxcarbazepine; elderly patients, 11674
autism; child psychiatry; stereotyped movements; autistic children, 8054
behavior alteration; striatal neurochemistry; stereotyped movement disorder; deer mouse model; neurotransmitters; neuromodulators; stereotyped behavior, 18601
blink reflex abnormalities; Tourette syndrome; tic disorders; neurophysiological abnormalities, 29170
chronic immobility; motor deficits; word processing; amyotrophic lateral sclerosis; tetraplegia; spinal cord injury; event-related brain potentials; visual associations; plasticity; motor associations, 16786
common movement disorder; tremor; treatment; tremor diagnosis; physicians, 13949
comorbidity; developmental coordination disorders; learning disabilities; attention-deficit/hyperactivity disorder; perceptual-motor dysfunction; severity; children, 4520
diagnostic dyspraxia; conflicting behavior; corpus callosum lesions; involuntary behaviors, 22908
dopamine receptor agonists; restless legs syndrome treatment; periodic limb movements, 29472
essential tremor; neurological movement disorder; disability; biobehavioral conditioning model; aging; comorbid social anxiety, 26149
grey matter density; point mutation; bilateral brain abnormalities; orofacial dyspraxia; verbal dyspraxia, 4842
intention tremor; mental retardation; movement disorders; impaired tandem; brain atrophy; cerebellar hyperintensities; neurodegenerative syndrome, 5023
ipsilateral cerebellar dysfunction; unilateral cerebellar lesions; arm movements; bilateral cerebellar activation; unilateral cerebellar infarctions; contralateral hand; dysmetria, 16773
monoclonal antibody; b cells; b lymphocytes; tic disorder; immunoglobulin m; streptococcal infections; immune activation, 35289
motor system dysfunction; whiplash associated disorders; re-injury fear, 16632
movement disorders; abnormal involuntary movement disorder; AIM; dopamine receptor blocking agents; antipsychotic drug-induced movement disorders, 14127
movement disorders; neuroleptics; tardive dyskinesia; schizophrania, 26364
neuroacanthocytosis; involuntary movements; drug therapy; molindone; divalproex, 35649
neurodegenerative disorder; genetic abnormality; Huntingtons disease; movement abnormality; dementia; genetic abnormality; HD, 14011
neurosurgical treatment; psychiatric conditions; cognitive performance; movement disorders; dementia; depression; neuropsychology; outcome evaluation; research; neuropsychologist; neurosurgery, 14295
Niemann-Pick disease type C; neurometabolic disorder; cognitive decline; movement disorders; ataxia; chorea; dystonia; myoclonus; vertical supranuclear gaze palsy; seizures; psychosis; dyskinesia, 16779
nomenclature; drug-induced movement disorders; tardive dyskinesia, 26127
obsessive-compulsive disorder; digitizing tablet; handwriting; kinematic analysis; sertraline, 12621
parkinson's disease; clinical manifestations; parkinsonism; diagnosis; prognosis; akinetic-rigid syndromes; patients; movement disorder, 13954
pathophysiology; antipsychotic drug-induced movement disorders, 26346
periodic limb movement disorder; restless legs syndrome; behavioral anomalies; cognitive anomalies; sleep disruptive habits; insomnia, 4852
post-operative progress; dystonia patients; globus pallidus internus; deep brain stimulation; movement disorders, 22856

Volume 91 SUBJECT INDEX

Movement Disorders—Serials

pramipexole dose; restless legs syndrome; dopaminergic agents; levodopa, 26513
 psychogenic movement disorders; organic illness; movement disorder diagnosis; PMD, 13978
 restless legs syndrome; periodic limb movement disorder; neurological disorder; sleep disturbances; older adults; diagnosis, 26144
 schizophrenia; mood disorders; neurological soft signs; antipsychotic agents; psychomotor performance; movement disorders; cataplexy; coordination disorders; dyskinesia; cerebellum, 31760
 spatial parameters; temporal parameters; gait disturbances; schizophrenic patients; locomotor patterns; neuroleptic treatment, 28735
 specific phobia; anxiety disorders; stiff man syndrome; illness duration; non-motor symptom; motor disorder; psychogenic movement disorder; comorbidity, 16771
 tardive dyskinesia; atypical antipsychotics; older adults; movement disorders, 26383
 tic reduction; risperidone; pimozide; electrocardiogram changes; weight gain; side effect profiles; children; adolescents; Tourette's syndrome; chronic motor tic disorder, 14144
Movement Disorders [See Also Apraxia, Ataxia, Athetosis, Cataplexy, Chorea, Dyskinesia, Myasthenia Gravis, Myoclonia, Paralysis, Spasms, Tics, Torticollis, Tremor]—Chapters
 Developmental coordination disorder in Swedish 7-year-old children, 1702
 Therapeutic uses of rTMS, 16896
Movement Perception [See Motion Perception]
Movement Therapy—Serials
 body experience; psychotherapeutic inpatients; body-oriented psychotherapy; therapeutic process; concentrative movement therapy, 32505
 constraint-induced movement therapy; hemiplegic cerebral palsy; motor learning; adolescents; therapy effectiveness; day camp model, 11598
 constraint-induced movement therapy; home programs; stroke survivors; CIMT; perceptions; experiences, 17417
Movement Therapy—Chapters
 Cortical reorganization and the rehabilitation of movement by CI therapy after neurological injury, 16857
Movies [See Motion Pictures (Entertainment)]
MPTP [See Methylphenyltetrahydropyridine]
MRI [See Magnetic Resonance Imaging]
Mueller-Lyer Illusion—Serials
 Mueller-Lyer illusion; visual modalities; haptic modalities; verbal instructions, 30599
Multi Infact Dementia—Serials
 cerebral infarctions; cognitive function; dementia; older persons, 8305
 ginkgo biloba special extract EGB 761; cognitive function improvement; senile primary degenerative dementia of the Alzheimer type; multi-infact dementia, 11653
Multicultural Education—Serials
 anti-racist pedagogy; teacher education; teaching observations; anti-racist educators; cross-cultural education, 17594
 bicultural education; educational anthropology; Anthropologists education; multiculturalism; bilingualism; biculturalism; anthropology goals, 23833
 critical race theory; CRT; educational researchers; educational settings; alternative methods; personal lives; white racism; academic performance; social justice, 23752
 culturalizing instruction; cultural diversity; African American students; inclusive learning, 5871
 equity issues; science education; culturally diverse students; linguistically diverse students, 17651
 family therapy training; diversity; multiculturalism; course design; marriage therapy training; cultural competency; United Kingdom, 32927
 family therapy; marriage therapy; multicultural training; student faculty perceptions; self reported competence; student trainees; research, 32345
 multicultural education; empowering Mong students; home and school factors; Southeast Asian students; elementary school students; culture clash; culturally relevant curriculum; school environment, 17582
 multicultural education; nursing education curriculum; educational programs; cultural diversity; nurse educators; strategies; knowledge; theory, 12034
 multicultural education; race consciousness; white privilege; teacher preparation programs; public school teaching; academic performance; classroom practices; white teachers; fair play; students, 23797
 multicultural education; research-based approach; teaching; diversity, 20819
 multicultural education; student identity & motivation & aspirations; desegregation; racial integration; ethnic integration; Brown v. Board of Education, 36202

reflective voices; immigrant students; dominant culture; teacher education; cultural workers; belief systems; cultural diversity; disadvantaged students; academic skills; acculturation; language, 17571
 social competence; multicultural schools; ethnic differences; gender differences; Blacks; Whites, 26966
 transnational issues; multicultural curriculum; teachers; ethnic cultures; transnationalism; immigration; racism; multicultural teacher education, 36129
Multicultural Education—Chapters
 Strategies for creating multicultural pluralistic societies: A mind is a wonderful thing to develop, 5896
Multiculturalism—Serials
 acculturation; White American students; South American students; South Asian students; abuse experiences; group differences; multicultural counseling, 36181
 appraisals; racial identity; multiracial Asians; Asian Americans; outmarriage; phenotype; cultural exposure; cultural knowledge, 31341
 bicultural education; educational anthropology; Anthropologists education; multiculturalism; bilingualism; biculturalism; anthropology goals, 23833
 bicultural self-construals; multicultural diversity; dominant culture; biculturalism; immigration assimilation; US melting pot vision; cultural comparison; monocultural; social obligation; values, 28166
 biracial women; multiculturalism; feminism; American society; multicultural counseling; feminist therapy, 23145
 career counseling; multicultural students; nontraditional college students; narrative approach; postmodernism; group counseling, 23944
 converged counseling themes; multicultural counseling; Taiwanese clients; counseling relationship; brief counseling; eclectic counseling; common factors; counselor education; counseling training, 32279
 counseling profession; Jews; cultural awareness; anti-Semitism; anti-Semitic behavior; Jewish issues; counseling profession; bias-free counseling; multicultural counseling, 5173
 counseling profession; Jews; cultural awareness; anti-Semitism; anti-Semitic behavior; Jewish issues; counseling profession; bias-free counseling; multicultural counseling, 5164
 cultural behaviors; biculturalism; parental role; second generation Vietnamese; ethnic cultures; immigrants; social networks; assimilation, 10359
 cultural identities; multicultural setting; multiculturalism; counseling; psychotherapy; globalization; language; meanings; verbal communication; non-verbal communication; value systems, 32276
 demographic changes; racial conflict; minority groups; multiculturalism; racial hierarchy, 34472
 doctor-patient relationships; psychiatric trainees, 5749
 employee mistreatment; muted voices; cultural diversity; workplace diversity, 30118
 equity issues; science education; culturally diverse students; linguistically diverse students, 17651
 ethnic group preferences; multicultural counseling competencies; intergroup differences, 14064
 interethnic ideology; multiculturalism; color-blindness; racial bias; racial prejudice, 25282
 majority attitudes; multiculturalism; predictors; level of education; models, 25142
 mental health professions; multicultural counseling competencies; socioeconomic differences, 14598
 monoculturalism; psychology; socially accountable pedagogy; practice; therapy politics, 29891
 Multicultural Awareness, Knowledge, and Skills Survey-Counselor Edition; reliability; validity; multicultural competence; counselors; training, 3143
 multicultural competence; school counselors; multicultural counseling; schools; cultural diversity, 36086
 multicultural competencies; mental health professionals; counseling services, 14562
 multicultural counseling competence; multidimensional scaling techniques; individual differences; multicultural research, 16913
 multicultural counseling competencies, 14613
 multicultural counseling competencies; diverse client needs; culturally distinct groups, 14608
 multicultural counseling competencies; ethnic groups; counseling profession; American society, 14614
 multicultural counseling competencies; mental health counseling; multiculturalism, 14612
 multicultural counseling competencies; pluralistic society, 14600
 multicultural feminist analysis; picture books; children; oppression; resistance; social dichotomy, 34194
 multicultural group counseling; teaching; ethnicity; race; group counselors, 23671
 multicultural issues; multicultural awareness; qualitative analysis; qualitative research; research study; training group, 5220

Multidimensional Scaling—Serials

multicultural research; multicultural competence; cross-cultural research; stereotypic thinking; cultural identities; clinical practice, 12055
 multicultural supervision; multicultural competence; supervisors; supervises, 23716
 multiculturalism; gender; cultural identity; diversity; nationality; social identity; politics, 28164
 patriotism; nationalism; terrorist attacks; cultural diversity tolerance; social attitudes; American identity; September 11; national identification; pluralistic values; unity, 34425
 personality; threat; cognitive & emotional reactions; stressful intercultural situations; individual differences; appraisal, 34724
 precollege factors; student predispositions; college students; diversity-related activities; racial background; personality type, 20860
 preserve teachers; teacher education programs; cultural differences; cultural diversity; awareness, 8993
 racial identity development; multicultural counseling competency, 20172
 racial tolerance; freedom of speech; education; multicultural societies; human rights; age differences, 30329
 school counseling; school counselor training; counseling psychology; multicultural counseling; graduate training programs; contextual research; schools, 20741
 school organizational culture; cultural heterogeneity; Israeli schools; diversity related burnout; teachers; culturally diverse students; daily coping; teacher burnout, 17608
 secondary students; globalization; cross-cultural education; educational politics; teacher strike, 33018
 self-help group participation; culturally diverse urban areas; media; leveraging referent power; chronic health problems; health benefits; Media and Education for Self-Help Project, 29427
 service learning; graduate counselor education; Multicultural counseling competency; classroom instruction; counseling knowledge; community feelings; learning experience, 32898
 supervision; bilingual counseling; service delivery; counselor training; research consideration; multicultural counseling, 23682
 teacher preparation; special education teachers; teacher linguistic diversity; teacher cultural diversity; teacher retention; special education; teacher shortages; research; current demographics, 26999
 training in psychological assessment; professional education; multicultural assessment; curriculum development; cultural sensitivity; managed care; interventions; psychotherapy, 2622
 transcultural nursing; nursing curricula; multicultural society; nursing education; non-English speaking backgrounds; patient behaviors; health care needs, 14582
Multiculturalism—Books
 Counseling in schools: Essential services and comprehensive programs (4th ed.), 2872
 Handbook of nonverbal assessment, 121
 Introduction to counseling: An art and science perspective (2nd ed.), 5756
Multiculturalism—Chapters
 Context for nonverbal assessment of intelligence and related abilities, 128
 Cooperation and coordination across cultures in the peace-keeping forces: Individual and organizational integrating mechanisms, 2998
 Ensuring diversity is positive: Cooperative community, constructive conflict and civic values, 5937
 Groupwork in Europe: Tools to combat social exclusion in a multicultural environment, 5789
 Physiological and psychological influences on multicultural and nonverbal assessment, 126
 Theoretical and cultural considerations in counseling women of color, 16954
Multidimensional Scaling—Serials
 assessment center; multitrait-multimethod; matrices; postexercise dimension ratings; variance components; confirmatory factor analysis; dimension estimation; construct validity, 15114
 children's perceptions; peer groups; multidimensional scaling; teacher perceptions; reliability; validity; elementary school students, 12178
 expectancy assessment; alcohol expectancy research; developing memory theory; information processing network; multidimensional scaling; predictive models; multiaxial assessment; heuristic map, 12552
 factor analysis; factor structure; treatment implications; Impact of Event scale; traumatic experiences; avoidance; intrusion; multidimensional scaling; distress, 9376
 hallucinatory predisposition; multi-dimensionality; Launay-Slade Hallucinations Scale; normal subjects; auditory hallucination; intrusive thoughts; vivid daydreams; sleep-relation; factor structure, 16293
 multicultural counseling competence; multidimensional scaling techniques; individual differences; multicultural research, 16913

Volume 91 SUBJECT INDEX

Multidimensional Scaling—Serials

multidimensional structure; repetitive thought; worry; rumination; processing; well-being; multidimensional scaling; valence; purpose; affect; adjustment; health; personality; women with breast cancer, 387

nonmetric multidimensional scaling; hierarchical cluster analysis; Strong Interest Inventory; classification system; occupational structure, 30111

Self Description Questionnaire II; Youth Self-Report; adolescent mental health; multidimensional perspective; French translation; self-concept; multivariate relation pattern; higher-order factors, 12465

student achievement; multidimensional measurement; unidimensional Rasch model; Multidimensional Random Coefficient Multinomial Logit model, 9471

Multidisciplinary Research [See Interdisciplinary Research]

Multidisciplinary Treatment Approach [See Interdisciplinary Treatment Approach]

Multidrug Abuse [See Polydrug Abuse]

Multilingualism [See Also Bilingualism]—Serials

domain-specific self-concepts; verbal self-concept; trilingual; teachers; English; math; Cantonese; Mandarin; factor analysis; language domain, 23791

Greek Cypriot Dialect; mother tongue education; dialects; non standard languages; multidialectal settings; Standard Modern Greek; teacher attitudes; language of instruction, 33090

identity; language use; attitudes; trilingual behavior; code mixing; teenagers, 15866

language system; demographic trends; technology; international communication; written communication; spoken communication; multilingual, 18861

multilingual touch-screen; audio computer-assisted self-interviewing; technology; English language; non-English language; software system, 24090

multilingualism; language proficiency; brain regions; functional activity, 24654

Multimodal Treatment Approach—Serials

adolescent conduct problems; functional family therapy; multisystemic therapy; Oregon treatment foster care; risk factors; alternative treatments, 1925

bipolar disorder; comorbidity; rational treatment selection; multimodal treatment; polypharmacy; heuristic modeling, 35548

cognitive-behavioral treatment; pediatric posttraumatic stress disorder; cognitive-behavioral methods; community & school mental health settings; multimodality trauma treatment protocol, 11397

combined treatment; antidepressant treatment; psychological treatment; depressive disorders; psychological intervention; treatment adherence, 29225

complicated trauma histories; women; community mental health clinicians; community mental health system; intensive treatment program; OPAL; comprehensive treatment; symptom reduction; trauma survivors, 20138

criminal behavior; evidence-based treatments; multisystemic therapy; family functioning; cost saving; juvenile offenders, 20676

diabetic females; recurrent binge eating; bulimia nervosa; integrated inpatient therapy, 1351

fluoxetine; cognitive-behavioral therapy; major depressive disorder; combined treatment effectiveness outcomes, 35367

functional communication training; noncontingent escape; combined treatment; negatively reinforced disruptive behavior; challenging behavior, 20199

hypnosis; cognitive behavioral psychotherapy; analogue treatment; pain, 20459

multi-family psychoeducation groups; wait-list condition; immediate treatment; mood disordered children; parents; adjunctive treatment; family therapy, 1420

multimodal integrative cognitive stimulating group therapy; schizophrenia; models; treatment; psychopathology, 5219

multisystemic therapy; attempted suicide; African American youths; emergency psychiatric help, 14446

multisystemic treatment; outcome studies; treatment effectiveness; family relations, 35363

multisystemic treatment; outcome studies; treatment effectiveness; family relations, 35371

shot-term restructuring psychotherapy; personality disorders; technical interventions; theoretical integration; technical eclecticism; treatment modalities; integrative model, 1999

state-trait anxiety inventory; differential effectiveness; relaxation training; multimodal structural profile inventory; relaxation training, 26452

youth characteristics; family; therapist adherence; multisystemic therapy; community service settings; criminal behavior; substance abuse, 2075

Multimodal Treatment Approach—Chapters

Therapeutic weaving: The integration of treatment techniques, 5148

Treatment, 8603

Multiple Births [See Also Triplets, Twins]—Serials

lexical development; genetics; environment; prelinguistic gestures; quadruplets; language delay, 31161

Multiple Choice (Testing Method)—Serials

computer-based assessment; guessing; mark proportion; learning objectives; multiple choice assessments, 14978

item analysis; multiple choice test; option characteristic functions; nonparametric approaches, 30533

item response theory; equating method; long-term scale maintenance; mixed format tests; constructed response items; multiple choice items, 6462

multiple-choice questions; Resource Allocation Paradigms of Pittsburgh; story comprehension; passage dependency; auditory story comprehension; software environment, 27269

multiple-choice tests; colored paper; differential test performance; white paper, 27390

personality; expectations; response strategies; Multiple-choice Question Examinations; university students; inhibition; omission errors, 18105

Multiple Disabilities [See Also Deaf Blind]—Serials

adaptive switch programs; profound multiple impairments; assessment methods; electronic leisure device, 6455

assisted ambulation; multiple disabilities; microswitch cluster, 25476

behavioral state; environmental stimuli; auditory stimuli; natural stimuli; visual stimuli; ambient stimuli; microswitch; profound multiple impairments, 28913

computer systems; microswitches; vocal utterances; persons with multiple disabilities, 19268

computer-assisted learning; intellectual disabilities; cognitive abilities; physical disabilities; photograph preferences; multiple disabilities, 16553

curriculum; profound multiple disabilities; Mobility Opportunities Via Education, 31682

exercise tools; multiple disabilities; automatically delivered simulation; activity; mood; happiness, 25477

microswitch program; foot & leg movements; wheelchair users; multiple disabilities; mood; happiness, 34770

mindful caregiving; happiness; multiple disabilities; leisure activities; mindfulness training, 19284

multiple disabilities; activity level; mood; exercise; happiness; stimulation, 7749

multiple disabilities; favorite stimuli; behavior; treadmill; physical activity; physical fitness; exercise equipment; self-determination; initiative, 29204

multiple disabilities; microswitch clusters; non-spastic response schemes; performance enhancement, 17132

multiple disabilities; motor behavior; microswitch combination; environmental stimulation, 35638

multiple disabilities; stimulus events, 36220

profound & multiple disability; behavior states; transitional probabilities; social; communication, 26974

profound mental retardation; physical disabilities; medical disabilities; self-determination; nonverbal communication; food choices, 2058

sensory stimulation; tactile stimulation; sensory modalities; visual stimulation; stereotype; multiple disability; auditory stimulation, 7771

socio-communicative variables; behavior states; profound disabilities; multiple disabilities; school settings; special education; assessment, 12189

visually impaired students; multiple disabilities; individuality; integration; adaptability; functionality; IIAF model; vision use; program development, 12201

Multiple Disabilities [See Also Deaf Blind]—Chapters

Educational programming for deaf children with multiple disabilities; Accommodating special needs, 23066

Multiple Personality [See Dissociative Identity Disorder]

Multiple Regression—Serials

body mass; working boys; household income; maternal stature; child's monthly income; regression analysis, 13152

hierarchical linear modelling; animal behavior; behavior change; relationship change; multilevel modelling; animal development; developmental trajectories; individual differences, 246

hierarchical linear modelling; animal behavior; behavior change; relationship change; multilevel modelling; animal development; developmental trajectories; individual differences, 18197

latent curve analysis; explanatory variables; multiple regression interaction, 18196

moderator effects; mediator effects; counseling psychology research; multiple regression; structural equation modeling, 9512

multilevel models; structural equation models; data structures, 9506

multiple linear regression; cinema; rating; statistics; teaching; learning, 17633

multiple predictors; differential prediction; omitted variables problem; moderated regression, 3130

multiway frequency analysis; experimental psychologists, 264

Multiple Sclerosis—Serials

ordinary least squares progression estimator; heteroscedasticity; regression model; Type I error, 268

sample size; multiple regression; accuracy in parameter estimation; significance; confidence intervals, 6408

statistical measures; mean square error; standard error of treatment mean; level of significance; multiple comparison procedures, 261

Multiple Sclerosis—Serials

adult memory; test-retest reliability; inter-rater reliability; information processing; multiple sclerosis; MS; Adult Memory and Information Processing Battery: AMIPB, 196

antipsychotic treatment; multiple sclerosis; psychosis; clozapine; quetiapine; olanzapine, 35520

barriers to health promotion; multiple sclerosis; postpolio syndrome; health perception; polio, 29502

basal serum levels; nerve growth factor; acute exercise; multiple sclerosis; brain-derived neurotrophic factor; neuronal repair; neuronal plasticity; patients, 16764

body mind & mind body problems; neuropsychiatry; multiple sclerosis; brain injury; dementias, 35192

brain lesions; neuropsychological impairment; treatment outcomes; comorbidity; multiple sclerosis; depression; prediction; brain lesion volume; neuropsychological function; treatment; brain regions, 1940

cancer patients; multiple sclerosis patients; loneliness, 25486

causes of loneliness; terminal illness; multiple sclerosis; cancer; sex differences, 11168

cognitive dysfunction; neuropsychiatric abnormalities; multiple sclerosis; affect & mood disorders; behaviour disorders; memory; information processing speed; executive function; treatment, 34759

cognitive impairment; multiple sclerosis; abnormal performance; neurological symptoms; neurological disability, 16731

cognitive performance; cerebral injury; neuropsychological performance; cognitive impairment; MR markers; MS patients; verbal learning; memory; multiple sclerosis, 16743

compensatory cortical activation; cognitive task; multiple sclerosis; cognitive processes, 13855

disgamine bromide; acute psychotic disorder; blood-brain barrier; multiple sclerosis; drug therapy, 8624

EAE-associated behavioral syndrome; inflammatory mediators; behavioral syndrome; dexamethasone; indomethacin; pentoxifylline; receptors; pro-inflammatory cytokines; multiple sclerosis; mice, 3956

energy conservation course; progressive multiple sclerosis; fatigue impact; occupational therapy; moderate disability; severe disability, 16839

familial hemiplegic migraine; azathioprine; multiple sclerosis; cancer risk, 29488

familial hemiplegic migraine; azathioprine; multiple sclerosis; cancer risk, 29495

fatigue; Multiple Sclerosis; scales; self reports; factor analysis, 6353

genetics; multiple sclerosis; neurodegenerative diseases; Alzheimer's disease; Parkinson's disease, 8254

group therapy; multiple sclerosis; physical exercise; relaxation training; cognitive behavior strategies, 23189

health-state valuation; support organizations; health conditions; long-term disability; multiple sclerosis; disabling illness; stroke; disability adaptations, 13872

healthy control subjects; objective measurement; cognitive impairment; dependent variables; working memory task; multiple sclerosis; central executive; comparable level; healthy group, 18146

illness experience; multiple sclerosis; emotional distress; narrative therapy; restorative techniques; cognitive restructuring, 35404

immunomodulatory effects; immune cells; cannabinoids; multiple sclerosis; plasma; cytokines; side effects, 5433

information processing deficits; multiple sclerosis; screening instruments; clinical utility; working memory; processing speed, 30473

learning trials; multiple sclerosis; repetition effect; recall ability; cognitive rehabilitation, 23602

movement-associated changes; functional changes; brain; multiple sclerosis; clinically isolated syndromes, 29112

multiple sclerosis; coping; psychological adjustment; severity of illness; social support; duration of illness, 19868

multiple sclerosis; demyelinating lesions; demyelination patterns; immune response; immune mechanisms; axonal pathology; paraclinical markers; T cell; inflammatory diseases, 8265

multiple sclerosis; depression; memory difficulties; depressive realism; Beck's depression theory; everyday memory; verbal memory performance; negative cognitive schema; overestimation; memory ratings, 19951

multiple sclerosis; diagnosis; treatment; health knowledge; patients; neurologists, 8131

multiple sclerosis; exacerbations; stress, 19836

multiple sclerosis; exacerbations; stress, 19859

multiple sclerosis; health care needs; needs assessment; patients; health care utilization; biopsychosocial case complexity, 20532

multiple sclerosis; magical ideation; defense mechanism; neuropsychological deficiency; neuropathology; alternative treatments, 29182

multiple sclerosis; MS; comprehensive evaluation package; sickness impact profile; home environment; disability levels; home visits, 8121

multiple sclerosis; MS; patient characteristics; speech problem severity; speech disorders; demographics; physical function; sensory symptoms, 16580

multiple sclerosis; MS; psychological well-being; financial situation; social support; caregiver experiences; stresses; physical well-being; social life; quality of life, 8796

multiple sclerosis; MS; walking ability; patient-based measure; test development; test evaluation; content analysis, 3141

multiple sclerosis; significant depressive symptoms; scale; epidemiologic studies depression scale; expanded disability status scale; demographic characteristics; significant depression, 35361

multiple sclerosis; visual hallucinations; neuropsychiatric symptoms; patient; behavioral symptoms; cognitive symptoms, 4962

patient case history; differential diagnosis; paresthesiae; weakness; multiple sclerosis, 32108

personality traits; multiple sclerosis; fatigue; mobility impairment, 16617

phenomenology; multiple sclerosis; body; self; world; existentialism, 19977

physical functioning; mental health; quality of life; older individuals; multiple sclerosis; physical impairment; psychological adjustment, 19848

positron emission tomography; microglia visualization; multiple sclerosis patients; peripheral benzodiazepine receptor; immunology-pathophysiology, 22800

presentation speed; story recall; college students; multiple sclerosis patients; story memory tests, 27329

reliability; validity; health-related quality of life; Multiple Sclerosis Quality of Life Inventory; multiple sclerosis; age differences, 9455

self-care behavior; health status; optimistic beliefs; physical functioning; ill patients; symptom report; diabetes; multiple sclerosis; optimism, 19846

semantic relations; repetition; free recall; words; multiple sclerosis; recency effect; primacy effect, 8205

semi-structured interviews; physical impairments; multiple sclerosis; multiple sclerosis cognitive changes; work settings; work fatigue; everyday work activities, 17904

sensory temporal thresholds; interhemispheric transfer times; multiple sclerosis; outcome measure; cerebral lateralization; sensory stimulation; tactile stimulation; visual stimulation, 4976

skin sensitivity; laser-evoked potentials; LEP; somatosensory evoked potentials; SEP; peak-to-peak amplitude; spinothalamic tract; multiple sclerosis; MS; vertex potential; medical diagnosis, 16827

social support; gender differences; multiple sclerosis; veterans; marital status, 19897

spiritual well-being; psychosocial adaptation; perceived uncertainty; multiple sclerosis, 19870

spousal carers; multiple sclerosis; care for partner; carers experiences, 35815

suicide risk; multiple sclerosis; mortality ratio; secondary diagnosis; hospital admissions; general population; hospital patients, 16760

systemic lupus erythematosus; working memory impairments; processing speed deficits; multiple sclerosis, 11171

target board test; ataxia; tremulous patients; dysmetria; multiple sclerosis; dysidiadochokinesia; kinetic tremor, 12479

unemployment; risk factors; multiple sclerosis, 22791

vocational rehabilitation program; neuropsychological tests; verbal intelligence; memory function; problem solving; cognitive efficiency; Multiple Sclerosis, 18148

wheelchair-dependency; multiple sclerosis; risk perception; expectations, 22817

women's strategies; quality of life; multiple sclerosis; MS; negotiation, 4882

working memory rehearsal; cerebral activation; multiple sclerosis; functional magnetic resonance imaging; fMRI, 4861

Multiple Sclerosis—Chapters

Alexithymia as a consequence of impaired callosal function: Evidence from multiple sclerosis patients and normal individuals, 16852

Chronic fatigue syndrome, fibromyalgia, multiple sclerosis and lupus: Meeting the challenges, 16654

Clinical neuropsychological assessment of callosal dysfunction: Multiple sclerosis and dyslexia, 16370

Multiple Therapy [See Cotherapy]

Multiply Handicapped [See Multiple Disabilities]

Multivariate Analysis [See Also Factor Analysis, Multiple Regression, Path Analysis]—Serials

antisocial behavior; behavior problems; at risk students; multivariate procedures; typically developing students; teacher nominations, 2839

covariance structure; repeated measures data; test statistics, 18066

interrater reliability; multivariate analysis; rating; measurement, 9351

logistic regression models; dichotomous outcomes; dependent variables, 18203

multivariate counting; Poisson processes, 15139

multivariate generalizability model; clinical skills assessment; medical students, 9352

multivariate multinomial logit models; dyadic sequential interaction data; imagery play therapy, 9347

structural equation models; modeling; alternative models; longitudinal data; academic motivation; academic competence, 240

subjective sense of well-being; multicultural urban population; structural analysis; multivariate analyses; Ontario Health Survey Well-Being Scale; validity, 27294

Munchausen Syndrome—Serials

factitious disorder; munchausen syndrome; maltreatment; malingering; munchausen by proxy, 28595

munchausen's syndrome; physical symptoms; malingering; distress; health care providers; Epidemiology; diagnosis; patient management; Factitious Disorder, 1379

Munchausen Syndrome by Proxy—Serials

factitious disorder; munchausen syndrome; maltreatment; malingering; munchausen by proxy, 28595

Munchausen by proxy; definitions, 31894

Munchausen syndrome by proxy; sudden infant death; child abuse; child murder, 34947

Murder [See Homicide]

Muricide—Serials

muricidal behavior; locomotion; olfactory bulbectomized rats; glutamatergic function; amygdala; NMDA receptors, 18746

Muscarinic Drugs [See Cholinergic Drugs]

Muscarinic Receptors [See Cholinergic Receptors]

Muscimol—Serials

amygdala; conditioned memory modulation; avoidance; freezing; shock-paired cues; appetitive preference; muscimol; conditioned neurohormonal responses; conditioned fear, 12844

amygdala; muscimol injections; freezing; place avoidance; aversive contextual conditioning; rats; shock, 33961

animal models; anxiety; neophobia; conditioned freezing; [3H]muscimol binding; emotional behavior; rats; pharmacology; midazolam; picrotoxin; GABA-A receptors; motor behavior; brain factor analysis, 3976

circadian phase alterations; gamma aminobutyric acid-A; receptor activation; suprachiasmatic nucleus; diurnal rodents; nocturnal rodents; light effects; muscimol; rats, 21766

dorsolateral prefrontal cortex; visuospatial target selection; muscimol; oculomotor visual search; oculomotor detection, 12858

exploratory behavior; Muscimol; developing rats; spatial open field test; wall-rearing; rearing, 3707

muscimol injections; perirhinal cortex; information processing; emotional learning; conditioned fear, 34177

muscimol; morphine; penile erection; hexarelin analogue peptide; EP 80661; Nitric oxide; rats; paraventricular nucleus, 7260

Pavlovian fear conditioning; electrolytic lesions; ventral hippocampus; dorsal hippocampus; freezing behavior; rats; auditory conditioned stimuli; muscimol infusion, 12863

retrograde amnesia; molecular systems; muscimol; gamma aminobutyric acid-A agonist; glutamate N-methyl-D-aspartate; receptor agonists; phosphopentanoic acid; kinases; memory consolidation; rats, 21903

Muscle Contraction Headache—Serials

cerebrovascular reactivity; adolescents; tension-type headache; migraine; evoked flow velocity; cerebral artery; cerebral blood flow, 22840

episodic tension-type headache; TTH; pediatric TTH; group behavioral treatment; neurologists, 8595

glutathione S-transferase polymorphisms; migraine headache; aura; genetic risk factors; smokers; tension headache, 8142

grip force control; unilateral cerebral lesions; object manipulation; fine motor deficits; cerebral lesions; sensorimotor processing; cerebral stroke, 16718

heat pain threshold; cerebral event-related potentials; laser stimulation; chronic tension-type headache, 8119

panic disorder; tension headaches; migraine headache; pathophysiology; neurochemistry, 34754

prolonged tenderness; tension-type headache patients; myofascial pain; episodic tension-type headache; myofascial tenderness; intramuscular infusion; bradykinin; serotonin; histamine; prostaglandin, 22834

tension headaches; psychiatric symptoms; migraine headaches; children, 19838

trigemino-cervical reflex; tension-type headache; trigeminal system; brainstem reflex, 22835

Muscle Contractions—Serials

aging; force variability; single motor unit; motor discharge patterns; electromyographic activity; muscular contraction; EMG activity, 3345

automated method; transcranial magnetic stimulation; TMS; motor activity; cortical inhibition; contralateral silent period; voluntary muscle activity, 15088

elbow flexor muscles; noxious stimulation; nociceptive input; visual feedback; painful heat; motor cortex; motor output; elbow joint; isometric torque; biceps; force matching, 3312

electrical fingertip stimulation; hand muscle contraction; reflex; exteroceptive inhibition; somatosensory evoked potentials; stimulus intensity, 15655

electromyography; cerebral cortical rhythms; electroencephalographic; electrocorticogram; magnetoencephalography; corticomuscular coherence; muscular activities; fatigue, 6964

electromyography; EMG; muscular activity; real movements; imagined movements; inflow explanations, 682

electromyography; EMG; muscular activity; real movements; imagined movements; inflow explanations, 676

force control; upper limbs; lower limbs; posture; muscle contraction; motor tasks, 6549

human infants; sensory input; infant stepping; leg motion; knee flexor muscle torques, 21314

hypokinetic behavior; rigidity; rotenone treated rats; Parkinson's disease; levodopa, 34132

interaction torque; muscle torque; angular velocity; kinetic mechanism; proximal joint; shoulder muscle; central nervous system, 21312

isometric contractions; muscle contractions; gender differences; power function; knee flexor torque; perceived exertion, 9629

mental training; muscle power; strength gains; abductor; flexor; maximal voluntary contractions; cortical potential, 18696

motor cortex stimulation; human motor cortex; excitatory effects; inhibitory effects; ipsilateral muscles; muscle activity; corticospinal excitability, 15647

motor unit firing; voluntary contractions; human thenar muscles; spinal cord injury, 21515

muscle fatigue; muscle sympathetic nerve activity; muscle contractions; muscle chemoreceptor discharge; physical exercise, 6855

pulling strength; pulling postures; exertion, 33756

resistance exercise; cortisol; pain; heart rate; rating of perceived exertion; physiological adjustment; concentric contraction; eccentric contraction; lactate, 15688

stimulus-response properties; motor system; cerebellar ataxia patients; voluntary contraction, 29181

Muscle Cramps [See Muscular Disorders]

Muscle Relaxation—Serials

insomnia subtypes; behavioral & hypnotic treatments; progressive muscle relaxation; sleep onset; sleep restriction; flurazepam, 5142

Muscle Relaxation Therapy [See Relaxation Therapy]

Muscle Spasms—Serials

botulinum toxin; migraine headache; primary headache disorders; tension-type headaches; preventative treatment; Migraine; Baclofen; tizanidine, 20469

Muscle Tone—Serials

analgesic effects; botulinum toxin A; neurologic disorders; muscle tone; pain relief, 14305

unipodal performance; leg muscle mass; jumping skills; ballet dancers, 33760

vasoactive intestinal polypeptide; acetylcholine; endothelin; norepinephrine; regulatory mechanisms; vascular smooth muscle; penile erection; oxygen; trabecular smooth muscle tone; nitric oxide, 30927

Muscles [See Also Facial Muscles]—Serials

abnormal auditory processing; amyotrophic lateral sclerosis; bulbar signs; motor neuron damage; muscle denervation, 29026

aspartame; vitamin C; muscular strength; ascorbic acid, 34106

behavioral patterns; c elegans egg laying; nematodes; serotonin; neurons; muscles controlling; serotonin adaptation; motoneurons, 7256

bimanual coordination; perception-action coupling; visual information; egocentric constraints; directional constraints; muscular constraints, 6567

chronic neck pain; muscle activation patterns; trapezius muscles; muscle reactions; whiplash-associated disorder; motor vehicle accident survivors; disorder stage; acute whiplash injury; recovery, 16620

coordinated stability; finger tap; symmetry tendency; homologous fingers; homologous muscles; vision; visual labels; finger tapping patterns; hand-centered reference frame; relative position, 21316

Volume 91 SUBJECT INDEX

Muscles—Serials

creatine; guanidinoacetate methyltransferase deficiency; phosphocreatine; skeletal muscle; brain, 22844

Drive for Muscularity Attitudes Questionnaire; reliability; factor structure; appearance self-esteem; level of vanity; body figures; physiques; body image investment; validity; men, 9402

EEG activation; skin pain; muscle pain; nociceptive inputs; processing; capsaicin injection, 12909

electrical stimulation; cerebral palsy; significant improvement; active electrode; gross motor function; gluteus maximus; gait; muscle strength, 17116

fMRI imaging representational maps; transcranial magnetic stimulation; thumb abduction; hand; foot elevation; motor-evoked potentials; cortical motor representation areas; muscle, 21628

hemiparesis; hemiplegia; myoelectric feedback; upper limb muscles; test-retest reliability; video feedback; tracking error, 35284

heritability; neuromuscular coordination; motor control strategies; genetics, 27484

human masseter muscle; pressure pain thresholds; excitatory amino acid; mechanical allodynia; glutamate evoked pain; pain, 13086

inhibitory neuronal mechanisms; motor cortex; schizophrenic patients; electromyographic activity; contralateral hand muscles; ipsilateral hand muscles, 22527

knowledge; contractile imagery; muscle strength; performance; strength tasks; skill learning; motor unit firing behavior; motor performance, 6558

masseter muscle; muscle pain; intramuscular injection; pressure pain threshold; granisetron; fibromyalgia patients; allodynia; hyperalgesia; pain, 14260

mental practice; motor acquisition; neuromuscular electrical stimulation; voluntary control; abductor hallucis muscle; isolated big toe abduction, 6550

mental practice; strength; psychoneuromuscular theory; strength performance, 18701

mental training; muscle power; strength gains; abductor; flexor; maximal voluntary contractions; cortical potential, 18696

motor unit firing; voluntary contractions; human thenar muscles; spinal cord injury, 21515

muscle activity prediction; primary motor cortex neurons; monkeys; neuronal discharges, 21645

muscle appearance attitude measures; body image; muscularity; body fat; validity, 30395

muscle cells; caveolin-3; chicken development; immunoreactivity; brain; neural tube; caveolae; myotome; avian tissue; embryogenesis, 21908

muscle synergies; natural motor behavior; central nervous system; motor control; musculoskeletal system; frogs; muscle activity patterns; kicking behavior, 21565

neurotrophins; postnatal development; rat skeletal muscles; neuromuscular system; glial cell line-derived neurotrophic factor; GDNF; GDNF expression; rat gastrocnemius; soleus muscles, 3687

orofacial muscle activity; speech rate; speech intensity; jaw movement distance, 9614

pain intensity; pain unpleasantness; muscle pain; pain recall; expected pain; actual pain, 21253

Parkinson's disease; transcranial magnetic stimulation; subthalamic nucleus stimulation; motor evoked potentials; silent period; dopaminergic medication; extensor carpi radialis; flexor carpi radialis, 17177

perceptual integration; intramuscular electrical stimulation; referred pain area; focal pain area, 6803

physics; psychology; muscle sense; muscle-based perception, 12578

posture; muscle activity; muscle fatigue; video display terminals; computer users, 24096

precision demands; mental pressure; muscle activation; hand forces; computer mouse tasks; upper extremity, 30238

quantitative motor assessment; myotonic dystrophy; muscles, 22833

stimulatory effect; green tea; caffeine; locomotor activity; SKH-1 mice; oral administration; muscle layer thickness; muscle mass; fat stores; brain monoamines, 10025

temporal summation; deep muscular pain; mechanical stimulation; repetitive stimulation; fibromyalgia syndrome; flexor digitorum muscle; forearm; muscle tissue, 16631

vasoactive intestinal polypeptide; acetylcholine; endothelin; norepinephrine; regulatory mechanisms; vascular smooth muscle; penile erection; oxygen; trabecular smooth muscle tone; nitric oxide, 30927

Muscular Atrophy—Serials

children; object displacements; spinal muscular atrophy; object permanence, 1868

fingertip force coordination; precision grasping; multiple system atrophy; motor deficits, 20029

fluoxetine therapy; dysthymic disorder; atrophy; breast, 26402

obstructive sleep apnea; multiple-system atrophy; polysomnography; apnea-hypopnea index, 11151

religiousness; quality of life; QOL; patients with ALS; amyotrophic lateral sclerosis, 16640

REM sleep disorder; striatal monoaminergic deficit; polysomnography, 11152

spinal muscular atrophy; visual and brainstem & somatosensory evoked potentials; age differences, 8114

Muscular Disorders [See Also Cataplexy, Fibromyalgia, Muscular Atrophy, Muscular Dystrophy, Myasthenia Gravis, Myoclonia, Myofascial Pain, Myotonia, Torticollis]—Serials

atypical antipsychotic olanzapine; conventional antipsychotics; dystonic movements; tardive pharyngolaryngeal dystonia, 14149

basal ganglia; involuntary movements; voluntary movements; dysfunction; movement disorders; chorea; dystonia; tics; model, 13977

chronic illness; rheumatological disorders; osteoarthritis; FMS; physical well being; fibromyalgia; quality of life; women's health; psychological well being, 1760

chronic pain; pharmacological management; pharmacotherapy; musculoskeletal pain; neuropathic pain; psychotropic agents; pain management, 20485

citalopram; acute dystonia; selective serotonin reuptake inhibitors; depression; suicidal ideation; marijuana use; alcohol use; extrapyramidal symptoms; side-effects, 11532

cross-cultural adaptation; Korean fibromyalgia impact questionnaire; test validity; women; test reliability, 24290

dystonia; muscular contractions; phenomenology; anatomical distribution; family history; physiological abnormality; straitocortical circuits; primary torsion dystonia; dystonia-plus syndrome, 13867

fibromyalgia patient; psychometric evaluation; psychometric properties; chronic pain patients; pain-related fear; pain severity; pain vigilance and awareness questionnaire; chronic pain syndrome, 12489

fibromyalgia research; clinical impressions; physicians, 19883

fibromyalgia syndrome; declarative memory impairment; biological factors; psychological factors; neuroendocrine factors; cortisol; perceived stress; depression symptoms; comorbidity; adult females, 4888

fibromyalgia; heat stimulation; pain perception; mood; catastrophizing; somatic focus, 22812

fibromyalgia; neuropsychological impairment; depression; fatigue; pain; cognitive complaints; psychomotor speed; attention; executive functioning, 1793

fingertip force coordination; precision grasping; multiple system atrophy; motor deficits, 20029

Italian version; foreign language translation; Fibrofatigue Scale; test validation; fibromyalgia symptoms, 18137

masseter muscle; muscle pain; intramuscular injection; pressure pain threshold; granisetron; fibromyalgia patients; allodynia; hyperalgesia; pain, 14260

milnacipran; fibromyalgia syndrome; co-morbidity; depressive symptoms; serotonin and noradrenaline reuptake inhibitor, 20366

oromandibular dystonia; atypical neuroleptic; clozapine treatment; dibenzodiazepine, 35633

pain fear; physical performance; attentional processes; fibromyalgia, 8118

post-operative progress; dystonia patients; globus pallidus internus; deep brain stimulation; movement disorders, 22856

post-traumatic stress disorder; chronic pain; chronic fatigue syndrome; Fibromyalgia; major depression disorder, 19281

salivary cortisol sampling; treatment compliance; fibromyalgia patients, 26482

self efficacy; physical activity patterns; fibromyalgia patients; psychosocial predictors; social influence; attitudes; intention; behavior; motivating physical activity; prospective predictors, 11138

sensorimotor integration; musicians' cramp; sensorimotor cortex; movement disorder; dystonia, 18645

sensory pain thresholds; women skin; fibromyalgia syndrome; ketamine responders; ketamine nonresponders; N-methyl-D-aspartic acid, 8138

sleep quality; fatigue; fibromyalgia; actigraphy; behavioral sleep patterns; midlife women, 16613

social support quality; human females; fibromyalgia; social support quantity, 29437

tardive dystonia; atypical neuroleptics; olanzapine; schizophrenia, 23224

tardive dystonia; differential diagnosis; treatment, 23297

temporal summation; deep muscular pain; mechanical stimulation; repetitive stimulation; fibromyalgia syndrome; flexor digitorum muscle; forearm; muscle tissue, 16631

Theodor Ziehen; neurologist; neurology; genetic torsion dystonia; Ziehen-Oppenheim syndrome; association psychology, 35938

Musculoskeletal Disorders—Serials

Muscular Disorders [See Also Cataplexy, Fibromyalgia, Muscular Atrophy, Muscular Dystrophy, Myasthenia Gravis, Myoclonia, Myofascial Pain, Myotonia, Torticollis]—Chapters

Nutritional approaches, 16672

Pain and fatigue, 16670

Muscular Dystrophy—Serials

fukutin-related protein gene; gene mutations; mental retardation; cerebral cysts; congenital muscular dystrophy; laminin alpha2; alpha-dystroglycan, 13552

Huntington's disease; myotonic dystrophy; spinocerebellar ataxia; triplet diseases; trinucleotide expansion; allele, 29001

muscular dystrophy; palliative care model; medical technology; health system; family carers; end stage care; neurodegenerative condition; quality of life; motor neuron disease, 23558

myotonic dystrophy type 1; excessive daytime sleepiness; hypocretin system, 4873

poor academic achievement; children; Duchenne Muscular Dystrophy; neurogenetic developmental disorder; muscular weakness; IQ; intellectual function, 29002

quantitative motor assessment; myotonic dystrophy; muscles, 22833

Musculocutaneous Nerve [See Spinal Nerves]

Musculoskeletal Disorders [See Also Bone Disorders, Joint Disorders, Muscular Disorders]—Serials

Body Awareness Scale-Health; quality of movements; movement behaviour; inter rater reliability; test retest reliability; prolonged musculoskeletal pain; psychiatric care; eating disorders, 30443

capsaicin; chronic pain treatment; musculoskeletal disorders; placebo, 26499

carpal tunnel syndrome; continuous exposure data; occupational risk factors; personal risk factors; fish processing operators, 22787

chronic musculoskeletal pain; group treatment; movement training; discussion groups; recognition, 8385

chronic pain treatment; musculoskeletal disorders; rubefacients; salicylates; acute pain; placebo; drug therapy, 26514

cognitive impairment; inpatient rehabilitation outcome; depressive symptoms; hip fracture; elderly patients; rehabilitation participation, 26706

electrodiagnosis; musculoskeletal pain; median neuropathy at the wrist; MNW; carpal tunnel syndrome; CTS, 3149

employee perceptions; return to work; work-related injury; musculoskeletal injury; safety professionals; supervisors; job satisfaction, 8880

ergonomic recommendations; cardiac sonography; musculoskeletal disorders; health; safety; sonographers; Registered Diagnostic Cardiac Sonographers; ultrasound, 32817

healing; gentle touch treatment; musculoskeletal disorders; back pain; joint pain; osteoarthritis; rheumatoid arthritis; injury; quality of life; symptoms, 23109

health status; SF-36; chronic regional pain; chronic widespread pain; musculoskeletal pain; changes in pain status; prediction, 33588

musculoskeletal injuries; university staff; faculty; office environment; ergonomics; risk factors; work-related musculoskeletal disorders; WRMDs; university setting; occupational health, 33311

musculoskeletal pain; prevalence; pain consequences; health care utilization; sick leave; limitation in daily life; demographics; at risk populations; pain characteristics, 16623

musculoskeletal pain; selective attention; pain-related information; patients; fear of pain; anxiety sensitivity; painful sensation, 8120

non-specific work-related upper extremity disorders; movement strategies; forearm; sustained personal computer use, 14798

older academics; aging; work; wellness; musculoskeletal disorders; occupational performance; intervention; sedentary work; risk factors; client factors; physical context; organizational environment, 20669

pain catastrophizing; health indices; musculoskeletal pain; specialist consultation; medication use; work disability; absenteeism, 11170

painful temporomandibular disorders; pacinian corpuscles; orofacial region; vibratory analgesia; skin; pain, 14294

perceived physical stress; working conditions; musculoskeletal discomfort; X-ray technologists, 30234

physical demands; registered nurses; musculoskeletal disorders; MSDs, 4898

podiatric problems; health status; severe mental illness; psychiatric outpatients; self reports, 26029

primary care patients; musculoskeletal pain; pain coping; age; disability; depression symptoms; predictors of disability; demographic variables, 19888

temporomandibular disorders; hyperalgesia; noxious stimuli; experimental pain sensitivity, 22842

temporomandibular dysfunction pain; coping processes; momentary mood; dispositional coping styles, 29014

widespread pain; risk factor; temporomandibular disorder; dysfunction pain; interference; disability, 22818

Musculoskeletal System (See Also **Arm (Anatomy)**, **Bones**, **Feet (Anatomy)**, **Fingers (Anatomy)**, **Hand (Anatomy)**, **Hips**, **Jaw**, **Joints (Anatomy)**, **Leg (Anatomy)**, **Muscles**, **Skull**, **Spinal Column**, **Tendons**, **Thorax**)—Serials

anaerobic lactate threshold; plasma catecholamines; hereditary spastic paraparesis; lower limb muscle chronic hyperactivity; incremental exercise, 8308

arousal response; leg movements; restless legs syndrome; RLS; nocturnal evolution; slow wave activity; electroencephalographic; RLS patients; sleep wake cycle, 16629

flight-related musculoskeletal pain; flight-related musculoskeletal discomfort; general aviation pilots, 20960

musculoskeletal system; musculoskeletal stress; pain; head load; posture; neck muscle activity, 33762

physical workload; speech recognition; computer input devices; musculoskeletal workload; computer work, 30295

psychological workload; musculoskeletal symptoms; fatigue; structural equation modeling approach, 30945

weight loss; musculoskeletal pain; perceived disability; functional limitations; obese women; dieting, 28952

Music (See Also **Musical Instruments**, **Rock Music**)—Serials

absolute pitch development; speech; tone language; music, 34268

auditory feedback; music performance; temporal relationships; timing; sequencing; accuracy; period shifts; phase shifts, 348

background music; shooting performance; flow states; asynchronous music effects; netball players; athletic performance; emotional control; cognition control, 9151

child development; musical illustration; teaching methods, 33060

Christian music; theological language; musical style; lyrical content; Christianity; songs, 34458

communicative pressure; musical styles; music functions; listener; syncopation; African music; rock music; tempo; jazz, 34202

contemporary Christian music; mass media; culture; Evangelical Christians; American society; Christian music, 19023

creativity; suffering; psychoanalytic interpretation; psychoanalytic theory; musicians; Rachmaninoff; Scriabin, 34196

customer perceptions; music; waiting time; waiting costs; experience; customer mood; service delays, 24068

dementia; Alzheimer's disease; musical skill; retention; memory; recall; retention; learning ability, 8228

dementia; music; intervention; emotional response; behavioral response; research; methodology, 14229

drag queen; drag performance; musical genres; gospel music; gay community; Blacks, 34556

ear advantage; musical consonance; dichotic pitch; absolute pitch; left-right asymmetry; central processing, 6539

emotional effects; behavioral inhibition system; startling background music; behavioral activation system; subjective response; physiological response; memory performance; reading; news reports, 27842

environmental noises; music; affective valence; physiological responses, 30921

event-related brain potentials; cognitive processing; music; tone, 7057

existential-transcendental aspects; personal & social aspects; physical reactions; Strong Experiences related to Music; perception; cognition; general characteristics; feelings, 4009

feeling of knowing; familiarity; FOK ratings; cues; music; metamemory; episodic memory, 24443

frequency vibrato; singers; recording, 15245

harmonics; human mind; music, 803

helping behavior; music; mood; emotion; altruism, 16270

hierarchical levels; twentieth century music; classical music; musical time; quartet; musical form, 4005

homework performance; background media; radio music; music videos; television soap opera; high school students; homework time spent, 17712

hydration effect; vocal rest; vocal fatigue; amateur Karaoke singer; acoustic effects; voice amplification; vocal function; voice problems; voice quality; music video; Karaoke singing, 15721

incremental planning; sequence production; music performance; sequence events; encoding; retrieval; short-term memory; errors, 430

language; human intelligence; genetic code; spoken language; written language; arabic numerals; music notation; labanotation, 13125

live music; cognitive impairment; emotional & behavioral responses; dementia; social interaction; well-being; engagement; impairment severity, 26169

love themes; popular music; romantic satisfaction; love music, 13464

math concepts; reading comprehension; spatial orientation; visualization; visual field articulation; music sight reading ability; near transfer theory; audition; high school wind players, 33121

motivational music; work output; affective response; submaximal cycling; exercise; in-exercise affective states, 27141

Mozart effect; route learning; Mozart exposure; learning; paper-and-pencil tests; music benefit; naturalistic task; listening conditions; spatial reasoning ability, 21376

Mozart Effect; spatial task performance; primary school children, 2786

multimodal signals; song motor patterns; visual display; vocal displays, 12723

multiple singing modes; songbirds; yellow warblers; sex specific functions; intrasexual selection; intersexual selection, 30785

music education research; musical development; social variables; tertiary education; educational institutions, 36050

music education research; university academics, 36069

music lessons; academic achievement; IQ enhancement, 31181

music majors; melodic complexity; aesthetic experience; aesthetic responses; conceptual advancement; jazz music selections; jazz experience, 31026

music melody; speech rate; audio news; personality; emotional response; news messages, 31578

music perception; editorial, 33740

music perception; music; psychology; music theory; speech; musical development; cognitive neuropsychology, 33742

music type; running perseverance; sensations; perceived exertion; heart rate; runners; physical exertion; dissociative technique; motivational technique, 24042

music; learning; memory; knowledge; linguistic process; language development, 34286

music; liking ratings; memory; previous exposures; ecological validity; focused listening; incidental listening, 12709

music; narrative; drama; narrativity; instrumental music; musical process, 34199

music; sound; therapeutic session; vibration, 14219

music; third age; music groups; musical tastes; musical practices; music enjoyment, 809

musical expertise; visuospatial abilities; mental imagery; cognitive abilities; mental imagery; reaction times; verbal discrimination, 18250

musical hallucinations; psychotic outpatients; nonpsychotic outpatients; hearing abnormalities; obsessive-compulsive disorder, 20085

musical improvisation; temporality; embodied experience; music; consciousness; cognition, 31034

musical transformations; implicit learning, 27537

musicogenic epilepsy; epileptic music; epileptic seizures; song; sounds; music appreciation; musical ability; prevalence; etiology, 1855

negative mood induction; mood induction procedures; mood states; stress paradigm; musical mood induction, 22362

observational study; vibrotactile rhythm playing; seniors; long term care; nursing home residents; day program participants; drum circle program; music, 32730

offline learning; autogenous speech; speech role; birdsong; speech learning; auditory responses; anterior forebrain pathway; song recognition; speech perception, 9864

perceptual accuracy; cognitive processes; pitch accuracy; melodic lines; melodic perception; music transcription; contrapuntal music, 4010

personality dimension; music preference; sensing-intuition dimension; musical enjoyment, 19203

piano playing; music imagery; pianists; complex motor task; motor skills; effective visuomotor transformation; pitch; rhythm; motor cortex; musical texture; cortical network, 21317

pleasantness; liking; preferences; arousal; familiarity; expressed emotions; affective quality; songs; music, 12718

portable community; modernization; bluegrass music; festival culture; geographic mobility, 34445

problem-solving strategies; music composition; piano, 33810

psychology; music, 912

psychotherapeutic approaches; autobiographical account; emotional collapse; first symphony; Sergei Rachmaninoff; artist; psychoanalytic reader; recovery; music; musician, 32271

rhythm; music; auditory stimuli; dancing routine; motor performance; physical education students, 6467

sequential sounds grouping; event-related potentials; musicians; nonmusicians; auditory processes; music perception, 18305

sight singing requirements; ratings based large group choral festivals; junior high school; senior high school, 33088

song evolution; sexual selection; oropendolas; caciques; bird song; vocalizations; sexual size dimorphism, 27672

sounds; music; musicology; pitch structure; human perception, 33754

stimulus familiarity; episodic recognition; music; novel melodies; familiar melodies; recency; judgments, 24505

syringal denervation; zebra finches; song; testosterone; Flutamide; plasticity; zebra finch; HVc; birds; animal vocalizations, 6751

technical aspects; cognitive aspects; social processes; jazz improvisation; cognitive linguistics; categorization, 31023

theories; musical motion; metaphors, 21936

trait rebelliousness; selective exposure; adolescent rebelliousness; music genre; defiant music; traits, 804

vocal interactions; distances from loudspeaker; dominance status; song contest; song type; frequency matched; song performance, 18505

Western music; meaning; historical development; culturally disseminated memes; cultural assimilation; cross-modal integration; cultural origins; identity; meaning; cultural invention; semantic systems, 21945

young parents; musical interaction frequency; young children; sociodemographic factors; emotional distress; parent characteristics; birth order; responsibility; frustration; emotional distress; music, 4235

Music (See Also **Musical Instruments**, **Rock Music**)—Books

The cognitive neuroscience of music, 7013

Music (See Also **Musical Instruments**, **Rock Music**)—Chapters

Brain specialization for music: New evidence from congenital amusia, 7023

Cerebral substrates of musical imagery, 7017

Comparison between language and music, 7015

Does exposure to music have beneficial side effects?, 7409

Is music an evolutionary adaptation?, 7285

Learning and perceiving musical structures: Further insights from artificial neural networks, 9282

Mechanisms of musical memory in infancy, 7408

Music, cognition, culture, and evolution, 7284

Music, imagery, and healing, 23340

Musical predispositions in infancy: An update, 7410

A new approach to the cognitive neuroscience of melody, 7022

Processing emotions induced by music, 6627

The roots of musical variation in perceptual similarity and invariance, 6546

The sounds of poetry viewed as music, 7299

Music Education—Serials

educational reform; visual disabilities; blindness; music education; vocational education, 14695

harmonic accompaniment; tonal achievement; tonal improvisations; young children; kindergarten; first grade; root melody accompaniment; song instruction, 33122

kindergarten general music classroom; developmentally appropriate practice; learning environment; effective teaching; curriculum construction; assessment; relationships with families, 33016

music education research; music psychology; British impact; music perception, 36049

music education research; musical development; social variables; tertiary education; educational institutions, 36050

music education research; university academics, 36069

music education; child development; music psychology; early music learning; musical skills acquisition, 36048

music education; western classical music; chinese music; music creativity; teacher education; learning ability; musical development, 36044

neuropsychobiology; music education; developmental psychology; cognitive ability; musical development, 36145

piano instruction; academic achievement; music instruction; cognitive abilities; school performance; fourth-grade children; self-esteem; music marks; motor proficiency; musical abilities, 23874

piano keyboard training; spatial temporal intelligence; music instruction; cognitive test scores; gender differentiation; spatial tasks; kindergarten children, 36175

speech prosody; music lessons; sensitivity to emotions, 15342

Music Education—Chapters

The impact of new technology on music appreciation coursework created and used for a college distance learning course, 2773

Music Perception—Serials

auditory areas; musical timbre; auditory imagery; timbre imagery; supplementary motor area; neural correlates; judgments, 27739

auditory event-related potentials; music perception; expectation; mismatch negativity, 12917

auditory pattern processing; musical notation; musical expressiveness; tone perception; pitch perception; tone duration, 15262

categorization; grouping; similarity; cognition; musical structure; music theory; perceived derivation; cue abstraction, 12654

Volume 91 SUBJECT INDEX

Music Perception—Serials

ear advantage; musical consonance; dichotic pitch; absolute pitch; left-right asymmetry; central processing, 6539
event-related brain potentials; attentional selectivity; peripheral auditory; auditory spatial processing; conductors; pianists; music perception; negative displacement attention effect; musicians, 15666
event-related brain potentials; auditory presentation; cognitive dimensions; expectancy violation; visual information; physical distance; musically trained Ss; musical context; repetitive melodies, 3803
existential-transcendental aspects; personal & social aspects; physical reactions; Strong Experiences related to Music; perception; cognition; general characteristics; feelings, 4009
grammatical structure; turn-taking system; pitch accents; speech melody; boundary tones; task-oriented dialogues; syntax, 21957
harmonic context; intonation; tuning of thirds; intervals; acoustic conditions; professional musicians, 12615
hierarchical levels; twentieth century music; classical music; musical time; quartet; musical form, 4005
infants; long term memory; music; tempo; timbre, 24987
inner hearing; musical sight-reading; interference; distraction, 349
math concepts; reading comprehension; spatial orientation; visualization; visual field articulation; music sight reading ability; near transfer theory; audition; high school wind players, 33121
melody cues; temporal cues; musical meter; music perception; music contour; repetition; rhythm; pitch, 33745
melody recognition time course; gating paradigm; familiarity judgment; recognition process; melody recognition; knowledge level; confidence, 6534
music perception; editorial, 33740
music perception; music; psychology; music theory; speech; musical development; cognitive neuropsychology, 33742
music; third age; music groups; musical tastes; musical practices; music enjoyment, 809
musical excerpts; action system; action identity; skilled performers; performance recognition; pianists, 33752
musical pattern processing; prosodic speech information processing; prosodic perception; right hemisphere damage; stroke, 1865
neurocognition; musical sound perception; human brain; neuronal circuits; auditory perception, 30641
orchestral compositions; graphic representations; pictures; abstract representation; college students; content analysis; musically trained participants; untrained participants; representation styles, 21944
perceptual accuracy; cognitive processes; pitch accuracy; melodic lines; melodic perception; music transcription; contrapuntal music, 4010
problem-solving strategies; music composition; piano, 33810
sequential sounds grouping; event-related potentials; musicians; nonmusicians; auditory processes; music perception, 18305
singing ability; brain; cognitive neuropsychology; music processing; singing performance; brain-damaged patients; language processing; memory, 35317
sound source identification; timbre transformations; sound source; pitch; instrumental stimuli, 30637
sounds; music; musicology; pitch structure; human perception, 33754
speech recognition; speech segmentation; music segmentation; entropy; dynamism; HMM classification framework; hidden Markov model; artificial neural network; automatic transcription; broadcast news, 10087
statistical regularities; implicit learning; acoustical characteristic similarity; transition probabilities; auditory material, 30742
statistical regularity learning; pattern regularity perception; musical tone sequences; temporal adjacency, 30661
theory; musical forces; tonal music; melodic expectation; computer models; artificial intelligence; cognitive processes; cognitive science; music psychology; listeners, 31035
trained musicians; similarity judgments; pitch perception; perceptual salience; transposition level; spacing type, 30639
Music Perception—Chapters
Brain specialization for music: New evidence from congenital amusia, 7023
Cerebral substrates for musical temporal processes, 8330
Comparison between language and music, 7015
Does exposure to music have beneficial side effects?, 7409
Exploring the functional neuroanatomy of music performance, perception, and comprehension, 7020
Functional organization and plasticity of auditory cortex, 7024
How many music centres are in the brain?, 7014
Learning and perceiving musical structures: Further insights from artificial neural networks, 9282

Mechanisms of musical memory in infancy, 7408
Music and the neurologist: A historical perspective, 8329
Musical predispositions in infancy: An update, 7410
Musical sound processing: EEG and MEG evidence, 7026
The neural processing of complex sounds, 7016
Neurobiology of harmony perception, 7027
A new approach to the cognitive neuroscience of melody, 7022
The quest for universals in temporal processing in music, 6545
The roots of musical variation in perceptual similarity and invariance, 6546
Tonal cognition, 9281
Music Therapy—Serials
dementia patients; caregiver support group; memory training; music therapy; psychological symptoms; behavioural symptoms; caregiver burden, 19948
Doing Anger Differently: anger, aggression; interpersonal basis of anger; music; group percussion therapy, 29431
drumming activity; complementary therapy; addiction treatment; therapy effects; drug addiction; substance abuse; drumming circles, 23627
music therapy; dermatitis patients; latex allergy; skin wheal responses; histamine; immunoglobulin E; cytokine pattern; blood mononuclear cells; allergic diseases, 23339
music therapy; family members; imminently dying hospice patients; acute care unit; terminally ill patients, 17377
music therapy; pre-verbal adults; nonverbal adults; learning disability; learning disabled; emotion; sounds; vocalization; parent-infant communication; instinctive strategies; interactive relationship, 28929
music therapy; psychopathology; children; adolescents; pathology; treatment outcomes, 32500
persistent vegetative state; brain damage; therapeutic time window; musicokinetic therapy, 32503
Music Therapy—Chapters
Are words enough? Music therapy as an influence in psychoanalytic psychotherapy, 17022
Music, imagery, and healing, 23340
Musical Ability—Serials
auditory feedback; music performance; temporal relationships; timing; sequencing; accuracy; period shifts; phase shifts, 348
child prodigies; musical prodigy; cognitive elements; musical elements; practice elements, 4113
estimated practice time; music practice; level of musical performance, 31038
event-related brain potentials; auditory presentation; cognitive dimensions; expectancy violation; visual information; physical distance; musically trained Ss; musical context; repetitive melodies, 3803
gender differences; musical performance; performance anxiety; young musicians; sixth graders, 13250
harmonic accompaniment; tonal achievement; tonal improvisations; young children; kindergarten; first grade; root melody accompaniment; song instruction, 33122
incremental planning; sequence production; music performance; sequence events; encoding; retrieval; short-term memory; errors, 430
inner hearing; musical sight-reading; interference; distraction, 349
isochronous tapping; motor coordination; timing drift; Wing-Kristofferson model; tempo; musical tapping, 33759
music education research; music psychology; British impact; music perception, 36049
music education research; musical development; social variables; tertiary education; educational institutions, 36050
music education; child development; music psychology; early music learning; musical skills acquisition, 36048
neuropsychobiology; music education; developmental psychology; cognitive ability; musical development, 36145
orchestral compositions; graphic representations; pictures; abstract representation; college students; content analysis; musically trained participants; untrained participants; representation styles, 21944
piano instruction; academic achievement; music instruction; cognitive abilities; school performance; fourth-grade children; self-esteem; music marks; motor proficiency; musical abilities, 23874
pitch matching accuracy; trained singers; untrained talented singers; untrained nontalented singers; sound production; phonation resonance; melodious voice; Sensorimotor control; auditory feedback, 15264
timing variations; perceptual performance; perceptual compensation; motor control; musical communication; inter-onset intervals; music performance; psychoacoustic intensity; rhythmic grouping, 33671
Musical Ability—Chapters
The brain of musicians, 7025
The early progress of able young musicians, 15990
Exploring the functional neuroanatomy of music performance, perception, and comprehension, 7020

Muslims—Serials

Musical Instruments—Serials
drumming activity; complementary therapy; addiction treatment; therapy effects; drug addiction; substance abuse; drumming circles, 23627
piano instruction; academic achievement; music instruction; cognitive abilities; school performance; fourth-grade children; self-esteem; music marks; motor proficiency; musical abilities, 23874
problem-solving strategies; music composition; piano, 33810
sound source identification; timbre transformations; sound source; pitch; instrumental stimuli, 30637
Musicians—Serials
African American jazz musicians; Kippie Charlie Parker' Mockets; jazz nomenclature, 15831
aging; musician; occupational performance; age-related change; performance ability; relationships; coping, 18988
cerebellar volume; musicians; professional keyboard players; specialized motor skills; skill learning; skill practising; humans, 6909
corpus callosum; professional musicians; significant gender; brain organization; fiber composition; absolute pitch; bimodal motor training, 21937
creativity; madness; myths; stereotype; jazz musicians, 1949
estimated practice time; music practice; level of musical performance, 31038
event-related brain potentials; attentional selectivity; peripheral auditory; auditory spatial processing; conductors; pianists; music perception; negative displacement attention effect; musicians, 15666
gender differences; musical performance; performance anxiety; young musicians; sixth graders, 13250
harmonic context; intonation; tuning of thirds; intervals; acoustic conditions; professional musicians, 12615
hierarchical levels; twentieth century music; classical music; musical time; quartet; musical form, 4005
legendary jazz musicians; life perspective; psychosocial stressors; life experiences; substance abuse; working conditions; family discord; marital discord; life span; early death, 31040
melody recognition time course; gating paradigm; familiarity judgment; recognition process; melody recognition; knowledge level; confidence, 6534
music majors; melodic complexity; aesthetic experience; aesthetic responses; conceptual advancement; jazz music selections; jazz experience, 31026
musical excerpts; action system; action identity; skilled performers; performance recognition; pianists, 33752
psychotherapeutic approaches; autobiographical account; emotional collapse; first symphony; Sergei Rachmaninoff; artist; psychoanalytic reader; recovery; musician, 32271
rhythmic context influences; auditory evoked potentials; musicians; nonmusicians; brain, 21732
sequential sounds grouping; event-related potentials; musicians; nonmusicians; auditory processes; music perception, 18305
trained musicians; similarity judgments; pitch perception; perceptual salience; transposition level; spacing type, 30639
virtual reality; anxiety; musicians; saxophonists; musical performance; heart rate; graded exposure, 32327
Musicians—Chapters
The brain of musicians, 7025
The brain that makes music is changed by it, 7021
The early progress of able young musicians, 15990
Exploring the functional neuroanatomy of music performance, perception, and comprehension, 7020
Representational cortex in musicians, 7019
Muslims—Serials
Al-Qaeda; Taliban leadership; Islamic dream theories; guidance dreams; value system; Middle East; Islamic Jihadist conversion, 16339
healthy individuals; Muslims; Ramadan; fasting; positive effects; adverse effects, 19029
Islam; Muslim; religious background; psychological publications, 31337
Muslim immigrant girls; communication; education; sexuality; mothers, 35697
Muslims; treatment; cultural differences; Islam; mental health, 11319
Palestinian Muslim; delusions, 13565
people attribution; terrorist attack; group dominance; civilization clash; World Trade Center; Western values; Muslim values, 28432
resistant student behavior; urban Muslim education; ideological artifacts; spirituality; resistance identities; oppositional student behavior; family, 26967
theoretical model; psychotherapeutic model; health care providers; western psychotherapy; Muslim immigrants; Islamic women; Islamic concepts; mental illness, 16908

Volume 91 SUBJECT INDEX

Mutations—Serials

Mutations—Serials

5-HTT null mutant mice; serotonin transporter; anxiety like behaviors; WAY 100635; abnormal behavioral phenotypes; 5-HT1A receptor; mouse model; mood disorders; anxiety disorders, 9803

Alzheimer disease; disorder onset; mutations; genes; genetic testing; presenilin, 32151

Alzheimer's disease; presenilin-1 gene; mutant presenilin; amyloid precursor protein; mutant presenilin; Rab8; PC12D cell lines, 27700

Alzheimer's disease; spastic paraparesis; cotton wool plaques; family pedigree; exon deletion; presenilin 1; exon 9 splice acceptor mutation, 22914

Alzheimer's disease; vaccines; mutated amyloid precursor protein gene; amyloid pathology; cognitive dysfunction; immunisation; molecular pathology; transgenic mouse model; pathogenesis, 2298

Alzheimer's disease; spastic paraplegia; brain pathology; presenilin, 13991

amyloid precursor protein; susceptibility genes; genetic risk factors; genetic features; Alzheimer's Disease; AD; dementia; AD pathogenesis; presenilin 1 gene; presenilin 2 gene; apolipoprotein E, 1869

anorexia; differential display; hippocampus; DNA; mouse brain; genes; mutation, 6822

anxiety; behavior; ethology; motor coordination; mouse; mutant; tenascin-R; exploration; cognition; housing conditions; motivation; open field behavior; behavioral phenotype; mice, 3635

arginine vasopressin receptors; social behavior regulation; emotionality regulation; anxiety-like behavior; social recognition; behavioral effects; null mutation; male mice; selective agonists, 18679

behavioral phenotype; reeler mutant mouse; Reeler gene dosage; social isolation; psychopathology; vulnerability; bipolar disorder; schizophrenia; autism, 6832

behavioral symptoms; psychiatric symptoms; early-onset Alzheimer's disease; siblings; presenilin-1 gene; D269G mutation; cognitive decline, 32147

beta-adrenergic receptor kinase 2 gene; schizophrenia; dopaminergic pathways; mutations; polymorphism; genes, 19502

binge eating; melanocortin 4 receptor gene mutations; obesity; gene phenotype, 8085

brain function; motor behavior; Impaired Sequence Learning; Dystonia Mutation; glucose metabolism; task performance; positron emission tomography; neural activity; cerebellum, 1843

chronic treatment; lithium chloride; motor behaviour; mice survival; Huntington's disease mutation; neuroprotective properties; anti-depressive properties; rotarod performance, 3994

cocaine; locomotor activity; cocaine discrimination; dopamine D4 receptor mutant mice, 3918

complex partial seizures; lateral ventricles; periventricular heterotopia; neuronal nodules; mutations; cortical malformations; 5p chromosome anomalies, 13998

congenic DARPP-32 knockout mice; targeted gene deletion; behavioral phenotype; topographical assessment; ethogram; apomorphine, 9809

D3 mutant; behavioral phenotype; D1 & D3 dopamine receptors; D1 mutant; D1/D3 double knockout mice, 15468

disease recurrence; neuroleptic malignant syndrome; mutations; ryadonic receptor gene isoform 3; antipsychotic drugs, 32075

familial frontotemporal dementia; tau gene mutation; tau pathology; argyrophilic astrocytes; etiology, 5017

fragile X disorder; fragile X mental retardation protein; biological markers; cognitive impairment; executive function; sex differences; mutation vs premutation; genotype; phenotype, 1783

frontotemporal dementia parkinsonism; chromosome 17; dementia; supranuclear palsy; mutations; tau protein gene, 14003

frontotemporal dementia; chromosome 3; positional cloning; disease gene; genetic data; genetic mutation, 32140

frontotemporal dementia; genetics; FTD; Pick's disease; mutation, 4970

frontotemporal dementia; genotype; dementia; Parkinsonism; brain atrophy; pallido-ponto-nigral degeneration; PPND, 5075

fukutin-related protein gene; gene mutations; mental retardation; cerebral cysts; congenital muscular dystrophy; laminin alpha2; alpha-dystroglycan, 13552

gene mutations; isolated early-onset Parkinsonism; parkin gene; families, 22986

gene mutations; putative protein; protein degradation gene; Charcot-Marie-Tooth type 1; CMT1C; CMT1C neuropathy, 5067

gene mutations; tau gene; frontotemporal dementia; intronic sequences, 23003

genotype; generalized tonic-clonic seizures; intractable childhood epilepsy; severe myoclonic epilepsy; development; children, 22933

grey matter density; point mutation; bilateral brain abnormalities; orofacial dyspraxia; verbal dyspraxia, 4842

hemorrhagic stroke; Iowa amyloid precursor protein mutation; Spanish family; hereditary syndrome; dementia; leukoencephalopathy; occipital calcifications; amyloid angiopathy, 13866

hereditary spastic paraparesis; cognitive impairment; spastic mutations; disease progression; mutation carriers; dementia, 8165

Huntington disease; CAG mutation; homozygotes; heterozygotes; onset age; symptom presentation; disease severity; disease progression, 22847

idiopathic generalized epilepsies; ion channel mutations; brain development; gene errors, 13986

inherited disorder; genetics; modifier interaction; mice; chronic movement disorder; neurological disease; disease severity; RNA; splicing factor; splice site site; mutation; sodium channel modifier 1, 524

learning deficit; memory deficit; elevated TAU; mutations; mushroom body neurons; microtubule-binding protein accumulation; olfactory perception; Drosophila; behavioral plasticity, 24693

motor coordination; mice; hotfoot mutation; Lurcher mutation; double mutations; Grd2 gene, 6826

mutation scanning; androgen receptor gene; psychiatric disorder patients; alcoholics; phobia patients; sex steroids, 19352

mutational analysis; nicotinic acetylcholine receptor; alpha 4 subunit gene; attention deficit hyperactivity disorder; intronic polymorphism; nicotine agonists; nicotinic receptors, 13802

mutations; pan neural gene; male specific behaviour; genetics; locomotion; courtship; mating behaviour; fruitfly, 15461

nonsyndromic mental retardation; subcortical band heterotopia; SBH; cryptogenic epilepsy; doublecortin gene mutations; lissencephaly; pachygyria; magnetic resonance imaging; MRI; phenotypes, 1768

novel mutation; PSEN2 gene; autosomal dominant Alzheimer disease; early onset; family members, 8239

paternal age; schizophrenia risk; germ cell mutations; personality traits, 31761

paternal age; schizophrenia risk; germ cell mutations; personality traits, 31789

paternal age; schizophrenia risk; germ cell mutations; personality traits, 7921

phenotypic variation; hereditary frontotemporal dementia; Parkinsonism; chromosome 17; tau gene mutations; pathological variation, 32192

picks disease; frontotemporal dementia; missense mutation; pathology; chromosome 17; 5305N phenotype, 32164

screening; phenylalanine hydroxylase coding region; functional assay; psychiatric patients; mutations; genes, 1364

sex determination; sex differentiation; gonadal dysgenesis; genetic mutations; Frasier syndrome; Denys-Drash syndrome; sexual development disorders; gonadal development, 26070

sex determination; sex differentiation; gonadal dysgenesis; genetic mutations; Frasier syndrome; Denys-Drash syndrome; sexual development disorders; gonadal development, 26034

sex determination; sex differentiation; gonadal dysgenesis; genetic mutations; Frasier syndrome; Denys-Drash syndrome; sexual development disorders; gonadal development, 13869

sexual differentiation; genetic mutation; Mayer-Rokitansky-Kuster-Hauser syndrome; female phenotype; WNT4 gene; Mullerian-duct regression, 35190

sexual differentiation; genetic mutation; Mayer-Rokitansky-Kuster-Hauser syndrome; female phenotype; WNT4 gene; Mullerian-duct regression, 35172

sodium channel genes; autism susceptibility locus; chromosome; familial autism; mutations, 13804

speech disorder; language disorder; gene mutation; functional brain abnormalities, 8145

substantia nigra; oxidative damage; mitochondrial deoxyribonucleic acid; mutations; neurodegenerative diseases; frontal cortex; aging; DNA, 14001

Synaptogyrin 1 gene; candidate gene marker; family with paranoid schizophrenia; nonsense mutation; presynaptic proteins; pathogenesis, 10811

tau gene locus; frontotemporal dementia; tau mutations; chromosome 17; neurodegenerative process, 32178

tau R406W mutation; presenile dementia; bi-temporal atrophy; frontotemporal dementia; Alzheimer's disease; neuropathology; neurofibrillary tangles; tau protein; pathogenic mutations, 32177

transgenic mice; exploratory activity; anxiety; motor coordination; APP transgene; Swedish mutation; neocortex; hippocampus; inhibitory control; vaccination; cognitive dysfunction; Alzheimer's disease, 12855

young-onset Parkinson; mutations; Parkinsonism; parkin gene; Parkinson's disease, 22961

Mutilation (Self) [See Self Mutilation]

Myocardial Infarctions—Serials

Mutism [See Also Elective Mutism]—Serials

preserved auditory cognitive event-related potentials; aknetic mutism; anterior cingulate cortices; motor areas, 22979

Myasthenia Gravis—Serials

dream perception; subjective sleep quality; myasthenia gravis; central nervous system; sleep perception; dreaming, 26139

John A. Simpson; myasthenia gravis; antibody; muscle response; analogy; science, 29174

Myelin Sheath—Serials

Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13925

Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 14020

Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13934

Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13985

Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13959

Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13920

Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13921

Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13919

multiple sclerosis; demyelinating lesions; demyelination patterns; immune response; immune mechanisms; axonal pathology; paraclinical markers; T cell; inflammatory diseases, 8265

myelination abnormalities; schizophrenia; oligodendrocyte proteins; myelin water fraction; frontal lobe; glycoprotein, 13627

Myelin Sheath—Chapters

Neurologic aspects of nondegenerative, nonvascular demyelias, 1883

Myelomeningocele [See Spina Bifida]

Myers Briggs Type Indicator—Serials

Mary Hawley McCaulley; clinical psychology; Myers Briggs Type Indicator, 23660

myers-briggs type indicator; communicator image; extraversion; introversion, 13488

Myers-Briggs type indicator; personality traits; Myers-Briggs personality types; art collectors, 25348

Myers-Briggs Type Indicator; personality; career counseling; ethical issues, 18112

Myers-Briggs Type Indicator; Salter Environmental Type Assessment; Judging-Perceiving Scale; college students; social climate; classroom; work environment; living environment; small group, 3172

NEO-Personality Inventory; Myers-Briggs Type Indicator; correlation; subscales, 89

quaternary temperament model; defense cluster preferences; extraversion; introversion; thinking; feeling; Myers-Briggs Type Indicator; Defense Mechanisms Inventory; college students, 7684

Myocardial Infarctions—Serials

acute myocardial infarction; depression; prognostic impact; hospital admission; tertiary care; community hospitals; depressive symptoms prevalence, 16721

acute myocardial infarction; problem-focused coping; medical psychology; emotional response; illness behaviour; Self-Regulatory Model, 19940

acute myocardial infarction; public smoking ban; hospital admissions, 26117

acute myocardial infarction; public smoking ban; hospital admissions, 32133

acute myocardial infarction; public smoking ban; hospital admissions, 32135

acute myocardial infarction; public smoking ban; hospital admissions, 32136

acute myocardial infarction; treatment seeking; sex; race; demographics; cognitive information; African Americans; Whites, 16727

cardiovascular disease; depression; myocardial infarction; risk factor; cardiac mortality; treatment regimen compliance; therapeutic alliance, 34756

causal attributions; patients; non patients; myocardial infarction; actor observer differences, 32132

coronary artery disease; depression; cardiac mortality; myocardial infarctions; prevalence, 16722

coronary heart disease; CHD; timing; women perception; treatment; cardiac symptoms; myocardial infarction; time to treatment, 5459

Volume 91 SUBJECT INDEX

Myocardial Infarctions—Serials

depressive symptoms; acute coronary event; older adults; cardiac autonomic function impairment; myocardial infarction; unstable angina; heart rate, 26108
family history; ischemic heart disease; IHD; acute myocardial infarction; AMI; risk factors, 4944
health-related quality of life; posttraumatic stress disorder; acute stress disorder; stress reactions; myocardial infarction; anxiety; somatization; hospitalization, 4512
myocardial infarction; alcohol consumption patterns, 29087
myocardial infarction; alcohol consumption patterns, 29090
myocardial infarction; depression; cardiac outcome; self-rating, 19938
myocardial infarction; gender disparities; symptom attributions; illness models, 29085
physical health; myocardial infarction patients; mental health; adherence behaviors; depressive symptoms; quality of life, 19928
secondhand smoke; coronary heart disease; non-smokers; lung cancer; acute myocardial infarction; cardiovascular risk, 26116
sex differences; illness intrusiveness; cardiac event; myocardial infarction; hospitalization, 19929
stroke; myocardial infarction; depression incidence, 22396
trauma; posttraumatic stress disorder; PTSD; world assumptions; myocardial infarction, 28554

Myoclonia—Serials

juvenile myoclonic epilepsy; right-handed woman; language function; graphogenic epilepsy; writing; motor manifestations; epileptic seizures, 5044
juvenile myoclonic epilepsy; seizures; siblings; myoclonic jerks; valproate, 29100
lamotrigine monotherapy; juvenile myoclonic epilepsy; valproate; treatment failure; seizure control, 35641
recovery function; median nerve; high-frequency oscillation; myoclonus epilepsy; hyperventilation; somatosensory evoked potentials; Parkinsons disease, 8280

Myofascial Pain—Serials

botulinum toxin serotype A; botulinum toxin serotype B; efficacy; tolerability; myofascial pain syndrome; pain relief; adverse events, 8627
prolonged tenderness; tension-type headache patients; myofascial pain; episodic tension-type headache; myofascial tenderness; intramuscular infusion; bradykinin; serotonin; histamine; prostaglandin, 22834
therapeutic effects; acupuncture needles; chronic lumbar myofascial pain; pain intensity; analgesic effects, 8604

Myopia—Serials

emotional characteristics; personality traits; myopia; treatment, 23354
positive suggestion; hypnosis; visual acuity; attention; myopia, 21409
traumatic brain injury; behavioral sequelae; accommodation spasm; Parinauds syndrome; pseudomyopia, 14027

Myotonia—Serials

Huntingtons disease; myotonic dystrophy; spinocerebellar ataxia; triplet diseases; trinucleotide expansion; allele, 29001
myotonic dystrophy type 1; excessive daytime sleepiness; hypocretin system, 4873
quantitative motor assessment; myotonic dystrophy; muscles, 22833

Mysticism—Serials

complementary medicine; alternative medicine; spiritual healing; epilepsy; religious experience; mystical states, 11600
dark visions; transformational change; epiphany; visionary change; quantum change, 27593
mystical experience; schizophrenia; mental illness; Magical Ideation Scale; Rasch Mystical Experience Scale; Manic-Depressiveness Scale; happy schizotyp; positive outcomes of mental illness, 30758

Myths—Serials

child sexual abuse; gender-related myth acceptance; aspirant psychologists; psychology trainees; practicing psychologists; myth acceptance scores, 11041
compromise formations; unconscious conflicts; psychoanalytic view; Western films; frontier myth; identification; spectators, 4007
creativity; madness; myths; stereotype; jazz musicians, 1949
educational opportunity; learning environment; effective learning; social aspects; World Wide Web; multimedia; Malay digital folklore; storytelling, 2727
interpassivity; theory of ritual; contemporary art; interactivity, 19244
Korean Rape Myth Acceptance Scale; test development; test validity; factor analysis; violence; implications for counseling psychology, 18093
marketplace mythology; power; market structures; competitive characteristics, 33334
mythological content; teleosemantics; ideological theory; mental content; mapping, 9695
myths; symmetrical dichotomy; asymmetrical dichotomy; public relations; South Africa; oral communication, 10457

mythscape; memory; mythology; national identity; collective memory; nationalism; social agency; mythology, 16263
parent adjustment; child death; parental bereavement; suicide; myths, 10608
popular psychological myths; myth acceptance; gullibility; student attitudes; undergraduate psychology students; psychology courses; educational level, 2822
prevention myths; HIV risk reduction; active drug users; condoms; crack users; injection drug users, 29540
rape myth acceptance; anticipated sexual arousal; sexual violence; rape victim; rape proclivity; sexual dominance; acquaintance rape, 19588
rape myth acceptance; rape salience; self esteem; women; expecting to meet, 19585
rape myth acceptance; social perception, 10910
rituals; South Canara; India; power; politics; meaning; myth, 22177
semiotics; creation; Iovis; body poetics; myths; poetry; history; people psychology; speech; language; sexuality; American psychology, 4014
Sigmund Freud; Frida Kahlo; painting of Moses; myths; heroes; religion; history, 27964

Myths—Chapters

Myths and reality in male infertility, 13356

Myxedema [See Hypothyroidism]

N-Methyl-D-Aspartate—Serials

aging; macaque monkeys; epsilon2; N-methyl-D-aspartate receptor; messenger ribonucleic acid expression; spatial memory abilities, 27710
alcohol dependence; SNP polymorphism; NMDA receptor 2B; gene variant, 13753
Alzheimer disease; transcranial magnetic stimulation study; glutamatergic neurotransmission; motor cortex excitability; cerebral cortex; ionotropic glutamate receptor; N-Methyl-D-Aspartate; NMDA, 16816
Alzheimer's disease; treatment; vascular dementia; dementia; cognition; glutamatergic neurodegeneration; anti-glutamatergic drugs, 29153
amantadine; perceptual motor learning impairment; side effects; NMDA receptor function, 10049
AMPA glutamate receptors; excitatory amino acid receptors; electrophysiological techniques; NDMA glutamate receptor, 15529
amphetamine-induced dopamine; nmda receptor antagonists; significant potentiation; concurrent treatment; sub-chronic treatment; persistent symptoms; pcg administration; prefrontal cortex, 21856
anti-depressant effects; glutamate NMDA-receptor antagonist; dorsal hippocampus; rats; stressors; behavioral changes; depressive states; amino-7-phosphonoheptanoic acid; forced swim test; immobility, 13058
antidepressant-like effect; NMDA receptors; forced swimming test; L-arginine-nitric oxide pathway; zinc chloride; mice; animal model of depression, 773
anxiety; elevated plus-maze; one trial tolerance; anxiolytic effect; receptor activity; repeated administration; drug responsiveness; receptor ligands; arms avoidance; male rats, 9952
AP-5; inhibitory avoidance; N-methyl-D-aspartate receptors; male rats; basolateral amygdala; learning, 9853
binding; convulsion; glutamate; MK-801; DNQX; intracerebroventricular administration, 3978
bipolar disorder; schizophrenia; gamma aminobutyric acid interneurons; NMDA; N-methyl-D-aspartate; glutamic acid decarboxylase; anterior cingulate cortex; cerebral cortex, 28618
caffeine withdrawal syndrome; social interaction test; mice; N-methyl-D-aspartate receptors; mementine; neramexane, 31012
cholinergic hypothesis; uncompetitive N-Methyl-D-Aspartate antagonists; dementia; combination therapy; glutamatergic neurons, 20266
chronic dizocilpine; NMDA antagonist; acute pain; mRNA expression; neuropeptides; dopamine receptors; glutamate receptors; sensorimotor behaviors; rats, 7143
clozapine; NMDA evoked responses; electrically evoked responses; pyramidal cells; rats; medial prefrontal cortex; dopamine, 21886
cocaine; food self-administration; N-methyl-D-aspartate modulatory site; glycine partial agonists; reinforcement schedules; rats, 27867
combination therapy; cholinesterase inhibition; N-Methyl-D-Aspartate receptor antagonism; treatment outcome; cognitive performance; Alzheimers disease; Donepezil, 20267
conditional responses; rats; basolateral nuclear complex of the amygdala; artificial cerebral spinal fluid; reflexes; neuroanatomy; N-Methyl-D-Aspartate receptor antagonist, 13031
cooperativity; metabotropic glutamate receptors; long-term potentiation; hippocampal neurons; long-term depression; guinea pigs; NMDA, 6894

N-Methyl-D-Aspartate—Serials

D-cycloserine; conditioned fear extinction; N-methyl-D-aspartate agonist; unconditioned stimulus; rats; reinstatement effect, 21867
D-Cycloserine; N-methyl-D-aspartate agonist; motor cortical neuroplasticity; neurophysiology; transcranial direct current stimulation; cognition, 30994
dextromethorphan; ketamine; MK-801; morphine; antinociception; tail flick test; sex; rats, 3913
dextromethorphan; ketamine; amitriptyline; formalin evoked behaviors; paw edema; peripheral interactions; rats; N-methyl-D-aspartate receptor antagonists; analgesia, 15804
dizocilpine receptor antagonist; neurotoxicity; retrosplenial cortex; gyrus cinguli; adenosine receptor agonists; blockade; protective effects; inhibitory effects; neuro-pathological changes; rats, 18779
dorsal hippocampus; noncompetitive NMDA receptor blockade; classical fear conditioning; conditioned freezing; tonic stimulation; sensorimotor functions; N-methyl-D-aspartate; rats; dizocilpine maleate, 3870
drug sensitization; apomorphine; dizocilpine; NMDA receptor blockades; stereotyped pecking; pigeons, 30958
epilepsia partialis continua; Autoantibodies; NMDA receptor; West syndrome; Lennox-Gastaut syndrome; Rasmussen's encephalitis, 14012
ethanol inhibition; N-Methyl-D-aspartate; NR3 subunit; glutamate receptor, 12887
ethanol; NMDA glutamate receptor antagonist; alcohol dependence; ketamine; N-methyl-D-aspartate, 8864
flight reactions; inferior colliculus; aversive reactions; neuronal nitric oxide synthase; NMDA receptor activation; rats; periaqueductal grey, 558
glutamate receptors; schizophrenia; NMDA receptor dysfunction; G-protein coupled receptors; psychopharmacology; cognitive deficits, 32463
glycine transporter; inhibitor; N-methylglycine; antipsychotics; schizophrenia treatment; D-serine; glycine; N-methyl-D-aspartate receptor; D-cycloserine; antipsychotics, 20405
healthy subjects; schizophrenic patients; antagonist properties; receptor antagonist; increasing evidence; cognitive functions; possible mechanisms; oral administration; glutamate receptor, 8540
healthy subjects; schizophrenic patients; antagonist properties; receptor antagonist; increasing evidence; cognitive functions; possible mechanisms; oral administration; glutamate receptor, 8519
hippocampal neurogenesis enhancement; running wheel exercise; NMDA receptor epsilon 1 subunit; wild-type mice; brain derived neurotrophic factor; environmental stimuli, 12853
hippocampus; amyloid; long-term potentiation; long-term depression; NMDA receptor, 15699
intracranial NMDA; analgesia; orofacial area; rats; antinociceptive response, 18761
kynurenic acid; glucosamine-kynurenic acid; blood-brain barrier; behavior; rats; somatosensory-evoked cortical potentials; NMDA receptor inhibitor; field excitatory postsynaptic potentials, 12998
latent learning; context preexposure; conditioned fear; shock; rats; N-Methyl-D-Aspartate receptor antagonist; NMDA; incidental learning; Pavlovian context conditioning; D,L-2-amino-5-phosphovalerate, 13082
liquid chromatography; serum levels; serine; Alzheimer's disease; pathophysiology; Aspartate receptor; D-serine; L-serine, 13951
locomotor activating effects; induced locomotion; modulation; N-Methyl-D-Aspartate receptor; dopamine receptor; attenuation; noncompetitive receptor blockade; quinelorane; quinpirole, 12983
long-term potentiation; N-methyl-D-aspartate receptors; voltage-dependent calcium channels; spatial memory; spatial learning; rats, 18818
magnesium; mice; antidepressant-like activity; anxiolytic-like activity; N-methyl-D-aspartate; glutamate receptor inhibitor, 24840
mementine; N-Methyl-D-Aspartate antagonist; hyperthermia; serotonin syndrome; risperidone; ketanserin; 5-hydroxy-L-tryptophan; clorgyline; animal model, 21887
modulation; glutamate receptor; gonadal steroid hormones; rat striatum; non competitive N-methyl-d aspartate; NMDA; receptor antagonist dizocilpine; morphine induced immediate-early gene expression, 3581
mouse popping behavior; galantamine; phencyclidine; PCP; noncompetitive antagonist; neurotransmission; schizophreniform psychosis; NMDA receptor, 6873
N-methyl-D-aspartate receptor; hippocampus; rats; amygdala; step-down inhibitory avoidance task; memory, 7247
N-methyl-D-aspartate receptor agonist; D-serine; amino acid; male rats; water maze, 31011
N-methyl-D-aspartate receptor antagonists; amygdala nucleus; posterior lateral striatum; instrumental learning; spontaneous motor behavior; dorsal striatum; feeding; neurophysiological processes, 30833

- N-methyl-D-aspartate receptor antagonists; PCP; phencyclidine; prepulse inhibition; hyperactivity; NMDA receptor subtypes; NR2B subunit; NR2A subunit; SDZ 220-581; NMDA channel blocker, 703
- N-methyl-D-aspartate receptor gene; bipolar disorder susceptibility; polymorphisms; genes; chromosome linkage disequilibrium, 13602
- N-methyl-D-aspartate receptor; alcoholism; vulnerability; polymorphisms; G2108A; C2664T; alleles; genotyping, 8030
- N-methyl-D-aspartate receptor; NMDA; memantine; naltraxone; saccharin deprivation; rats; channel blocker; opioid receptor antagonist; naloxone, 34188
- N-methyl-D-aspartate receptor; tissue plasminogen activator; mice; dizocilpine; hippocampal lesions, 21503
- N-methyl-D-aspartate receptors; hippocampal memory processes; memory acquisition; spatial information; memory trace; place cells, 24695
- N-methyl-D-aspartate receptors; long-term memory; spatial memory; black-capped chickadees; hippocampal formation; birds; animal learning; food storing; hidden food caches; synaptic plasticity, 12884
- N-methyl-D-aspartate receptors; neuronal activity; synapse formation; ifenprodil; cerebral neurons; nervous system, 34036
- N-methyl-D-aspartate receptors; NMDA; prefrontal cortex; pyramidal neurons; dendrites; AMPA; receptors; phencyclidine; glutamate; rats; brain; agonists; antagonists, 3974
- N-methyl-D-aspartate receptors; olfactory learning; memory; glutamate; brain functions; honeybee, 13077
- N-methyl-D-aspartate receptors; rat model; visceral hypersensitivity; nociceptive information; MK-801, 21836
- N-methyl-D-aspartate; metabotropic glutamate receptors; working memory; instrumental learning; motor behaviors; dopamine release; locomotion; stereotypy; rats, 27898
- N-methyl-D-aspartate; NMDA receptor agonist & non-NMDA receptor agonist; electromyogram responses; spinal withdrawal reflex; rats; electrical & mechanical stimuli; inflammation; sensitization, 6819
- N-methyl-D-aspartate; NMDA; allodynia; hyperalgesia; neuropathic pain; NMDA receptor antagonist ketamine; alfentanil; placebo; pain, 14272
- N-methyl-D-aspartate; NMDA; glutamate receptors; hippocampus; conditioned fear; extinction; rodents; protein kinases; avoidance training; memory retrieval; memory consolidation, 8991
- N-methyl-D-aspartate; receptor binding sites; ethanol place conditioning; glutamate; animal reward; CGP-37849; glycine-b partial agonist, 30963
- neural processes; bicuculline disinhibited cat motor cortex; operant conditioned reflex; forepaw support; local disinhibition; m-methyl-D-aspartate; NMDA, 9861
- nicotine; methyllycaconitine; N-methyl-D-aspartate; hippocampus; CA1 area; rats; synaptically evoked population spikes; kinases, 3891
- nicotinic effects; memory function; ventral hippocampal NMDA receptors; systemic nicotine; NMDA antagonist; dizocilpine; rats, 13030
- NMDA glutamatergic systems; amygdala; piriform cortex; nicotinic effects; memory function, 3940
- NMDA receptor antagonist; ketamine; schizophrenia; working memory; event-related potentials, 1461
- NMDA receptor glycine modulatory site; cognition enhancement; schizophrenia; negative symptoms; dissociative anaesthetics, 32428
- NMDA receptor; nociceptive behaviours; metabotropic glutamate receptors; various doses; excitatory amino acids; rats, 763
- NMDA receptor; receptor signalling; neurons, 21592
- opioid; analgesia; morphine; fentanyl; glutamate; NMDA, 3960
- orbital prefrontal cortex; rats; cortex signals; N-methyl-D-aspartate receptors; instrumental behavior guidance; reversal stimulus conditions; reward contingencies, 6846
- phencyclidine; NMDA receptor antagonists; drug discrimination; side effects; rats, 3949
- physical syndrome; NMDA antagonists; memantine; morphine dependence; morphine withdrawal; conditioned place aversion; behavioural changes; mice, 748
- postnatal exposure; N-methyl-D-aspartate receptor; receptor subunit expression; prenatal exposure; ethanol exposure; rats, 18778
- postsynaptic activity; homosynaptic potentiation; excitatory synaptic transmission; associative synaptic plasticity; mammalian brain; lateral amygdala; N-methyl-D-aspartate reception; mice; CNS, 9746
- pyramidal cells; N-methyl-D-aspartate receptors; antipsychotic drugs; medial prefrontal cortex; NMDA; olanzapine; phencyclidine; clozapine; subchronic phencyclidine-induced functional hyperactivity, 13051
- rats; glutamate receptors; learning deficits; neurodegeneration; NMDA glutamate receptors; GABA receptors; synapses; NMDA receptor blockers; GABA receptor enhancers; early exposure, 21857
- receptor antagonist; serial reaction time task; dizocilpine; motor responses; impulsive behavior; NMDA receptor antagonist; 5 HT antagonists; Serotonin antagonists, 10001
- receptor desensitization; glutamate receptors; receptor occupancy; synaptic transmission, 21677
- retrograde amnesia; molecular systems; muscimol; gamma aminobutyric acid-A agonist; glutamate N-methyl-D-aspartate; receptor agonists; phosphonopentanoic acid; kinases; memory consolidation; rats, 21903
- schizophrenia-like symptoms; endogenous dysfunction; potential treatments; comparative effects; glycine; d-cycloserine, 13632
- schizophrenia; medication development; N-methyl-D-aspartate; glutamate; ketamine; NMDA; cognitive functioning; pharmacotherapy; cerebral cortex; cortical connectivity, 5301
- schizophrenia; topiramate; N-methyl-D-aspartate receptor hypofunction, 8499
- sexual dimorphism; alloparental behavior; N-methyl-D-aspartate receptor; juvenile prairie voles; locomotor activity; motor coordination; cognition, 21470
- spatial memory; western blot analysis; prepulse inhibition; water maze task; antisense oligonucleotides; hippocampus; N-methyl-D-aspartate; NMDA; hippocampal knockdown; sensorimotor gating, 3450
- spinal cord; instrumental learning; acquired flexion response; N-methyl-D-aspartate receptor; rats, 34033
- spinal NMDA-receptor; amplification; nociceptive transmission; primary somatosensory cortex; rats; evoked potentials, 6917
- spontaneous exploratory behaviors; intrathecal NMDA receptor antagonist; protein kinase C inhibitor; acute pancreatitis model; inflammation; pain, 13105
- status epilepticus; neuronal injury; programmed cell death; hippocampus; kainic acid model; rats; NMDA receptor activation; ceramide mediation; DNA fragmentation, 15446
- substantia nigra; dopaminergic neurons; gastric mucosal erosions; ventral tegmental area; stomach ulceration; N-methyl-D-aspartate; NMDA; 6-hydroxydopamine; 6-OHDA, 21865
- synaptic transmission; amygdala; interneurons; electrical microstimulation; cortical afferents; thalamic afferents; rats, 21702
- thalamus; schizophrenia; bipolar disorder; N-methyl-D-aspartate receptor; glutamatergic dysfunction, 28586
- thermal hyperalgesia; neural excitability; dorsal root ganglion neurons; N-methyl-D-aspartate receptor; axons; somata, 21694
- ventral tegmental area; N-methyl-D-aspartate; rats; glycine binding site agonist; d-serine; animal locomotion; animal rearing, 18752
- Nabilone** [See Cannabinoids]
- NAch** [See Achievement Motivation]
- Naloxone—Serials**
- ACTH responses; naloxone challenge; hypothalamo pituitary adrenal axis; hormones; psychological stress; personality characteristics, 10030
- behavioral change; geniculate nuclei; bizarre behavior; normal rats; gliadin-7; GD-7; GN; alveus hippocampus; naloxone; brain cells, 3981
- CK2 receptor-deficiency; morphine; naloxone; locomotor activity; place conditioning; opioid receptors; mice, 532
- chronic opioid antagonist treatment; mu-opioid receptors; receptor density; proteins; receptor trafficking; chronic naloxone; morphine analgesia; mice, 769
- delta 9 tetrahydrocannabinol; oral morphine; morphine tolerance; naloxone; drug withdrawal; mice, 3883
- drug inhibition; morphine analgesia; lithium chloride; naloxone; naloxone methiodide; rats, 30982
- harman; harmine; naloxone; withdrawal syndrome; morphine dependent rats, 7146
- morphine; naloxone; dose-effect functions; repeated treatment; drug potency; operant response suppression; withdrawal; opioid dependence; rats, 7251
- morphine; naloxone; place aversion; nicotine; dopaminergic mechanism; withdrawal syndrome, 15724
- naloxone treatment; cocaine self-administration; endogenous opioid systems; dopamine mechanisms; opioid receptor blockade; motivational arousal, 21860
- naloxone-precipitated withdrawal; endomorphin; rats; opioid ligands; opiate dependence; withdrawal syndrome; peptides; analgesic effects; morphine, 15734
- naloxone; adrenocorticotropin hormone; cortisol responses; hypothalamic-pituitary-adrenal axis function; catechol-O-methyltransferase gene; stress-related disorders; genotype; risk factor, 9815
- naloxone; appetitive sexual responses; opioids; male Japanese quail; copulatory responses, 34158
- naloxone; naltraxone; alcohol consumption motivation; rats; drug dosages; opioid; cannabinoid; receptor antagonists, 27884
- neurochemical mechanisms; naloxone administration; endogenous opioids; mild stress; food intake; rats; white noise; animal feeding behavior; ration reinforcement, 13052
- nicotine; Pavlovian appetitive conditioning; rats; visual cues; rewarding outcome; conditional stimulus; naloxone, 30996
- nicotine; conditioned place preference; conditioned place aversion; animal locomotion; mice; morphine; cocaine; naloxone, 18795
- noradrenergic system; amygdala central nucleus; naloxone-precipitated morphine withdrawal; conditioned place aversion; rats, 3988
- opioid detoxification; opioid dependence treatment; buprenorphine-naloxone detoxification; community treatment providers; community-based treatment programs, 26709
- opioid receptor antagonist; naloxone; compound conditioning; association formation; fear; auditory conditioned stimuli; Pavlovian association formation; rats; contextual conditioned stimuli, 12866
- opioid receptors; extinction; Pavlovian fear conditioning; rats; naloxone; conditioned stimulus; unconditioned stimulus, 7229
- opioid withdrawal; acute opioid physical dependence; naloxone; administration schedules; withdrawal severity; opioid pretreatments; withdrawal severity; withdrawal symptoms; male subjects, 13731
- Naltrexone—Serials**
- alcohol consumption; naltraxone; drinking timing; opioid antagonists; alcoholic patients, 28855
- alcohol dependence; acamprosate; naltraxone treatment, 14483
- developmental disabilities; self-injuring behavior; opiate agonist; naltraxone; hypothalamic-pituitary-adrenal axis, 5338
- discriminative stimulus effects; morphine; naltraxone; squirrel monkeys, 15822
- hazardous drinkers; heavy drinking; brief counseling; naltraxone; placebo, 32766
- heroin dependence treatment; naltraxone; methadone; buprenorphine; drug efficacy, 35859
- morphine; naltraxone; impulsive decision making; rats; delay discounting, 27907
- N-methyl-D-aspartate receptor; NMDA; memantine; naltraxone; saccharin deprivation; rats; channel blocker; opioid receptor antagonist; naloxone, 34188
- naloxone; naltraxone; alcohol consumption motivation; rats; drug dosages; opioid; cannabinoid; receptor antagonists, 27884
- naltraxone prescription; physicians; patient characteristics; unaffordable medication; alcoholism medication, 11923
- naltraxone treatment; cigarette smoking rates; abstinent alcoholics; alcoholism treatment, 5700
- naltraxone use; private health plan; food and drug administration; psychosocial therapy; alcohol abusing patients, 29790
- naltraxone; acute cigarette smoking behavior; chronic smokers; cues; craving; withdrawal; affect; side effects; sex differences, 12992
- naltraxone; heroin dependence treatment; opioid dependence; medication compliance, 29794
- naltraxone; isradipine; cocaine responses; physiological effects; cocaine addiction; treatment, 2223
- naltraxone; Vivitrex; extended-release formulation; rats; alcoholism; drug dependency; morphine; pharmacokinetics, 7149
- noncontingent shock; behavioral deficit; opioid antagonist; naltraxone; instrumental learning; spinal cord, 27902
- opioid antagonists; naltraxone; reinforcing effects; delta-tetrahydrocannabinol; squirrel monkeys, 27904
- opioid receptors; chronic naltraxone treatment; mice; opioid agonists; sensitivity; brain regions, 15767
- oral naltraxone; opioid side effects; methadone; painful neuropathy; ultra-low dose, 17158
- problem drinkers; alcohol dependence; naltraxone; drug therapy; mood; alcohol drinking behavior, 17434
- sex differences; pain; hypothalamic-pituitary-adrenocortical responses; opioid blockade; adrenocortical; pain sensitivity; blood pressure; naltraxone, 18702
- sleep; stress; opioid receptors; naltraxone; corticosterone, 13092
- Names [See Also Brand Names]—Serials**
- African American jazz musicians; Kippie Charlie Parker; Moekets; jazz nomenclature, 15831
- associative deficit hypothesis; older adults; episodic memory; cohesive episodes; name-face pairs; attentional resources; recognition memory, 33870
- face identification; biographical fact retrieval; proper names recall; semantic information; expertise; naming; children; adults, 28081

face presentation; name presentation; memory; verbal descriptors; association; immediate recall; delayed recall; information; retention; photographic images, 420

gender stereotyping; fame judgments; familiar names; unfamiliar names; gender bias; false-fame effect; cognitive availability, 31543

guilt perception; alias; criminals; criminality; sentencing, 36540

letter-name knowledge; letter sounds; graphemes; phonemes, 28086

name game; group size; recall; learning names; acceptability; bonus information, 12701

name writing; early literacy skills; kindergarten children, 9011

proper name learning; age-related learning; memory problems; cognitive aging; young adults; older adults; faces; recall; previously unknown people, 33857

repetition priming; familiar personal names; N200; N250; N400; event related potentials; familiarity; same vs different font primes; face perception, 645

semantic matching task; event-related brain potentials; face identification; names, 3780

semantic memory; biographical knowledge; face recognition, 29124

young children; name innovations; novel artifacts; object function; object perceptual properties, 10187

Naming—Serials

affective priming; trait anxiety; naming task; valenced primes; target words; semantic processes; irregular pronunciation; priming effects; nonsemantic pathway; reading German, 31058

Alzheimer's disease; lexical processing; object recognition; spoken & written perception; word & non word production; language; reading; writing; speech, 8230

aphasia; picture naming errors; recovery, 19955

articulation rate; naming speed; verbal short term memory; phonological awareness; reading development, 13199

associative priming; facilitatory priming effects; inhibitory priming; associative relatedness; semantic relatedness; age; picture naming; competitor priming, 12677

basic-level categories; classification; right hemisphere; left hemisphere; hemisphere specialization; visual field; object identification, 3664

behavior; brain damage; self-organization; aphasic patients; naming; lexical decision, 29102

category specific deficits; Alzheimer's disease; picture naming; ceiling effects; control groups, 8269

category-specificity; naming impairment; visuo-verbal disconnection; neuroanatomy; semantics; brain lesions, 11250

cerebellar deficit hypothesis of dyslexia; dyslexia; reading disability; attention deficit hyperactivity disorder; balancing; continuous rapid naming, 19766

children; adults; artifacts; object naming; historical intuition, 10183

color perception; color naming differences; color terms; color salience; visual neuropsychology; cognition; color naming behavior; languages; Vietnamese language speakers; English language speakers, 15207

computer technology; naming; Multicue; cues; word finding; aphasia; verbal communication, 35902

confrontation naming; Chinese patients; brain damage; Boston Naming Test; psychometric properties; internal consistency; discriminant validity, 9444

confrontation naming; neuropsychological tests; Boston Naming Test; mild cognitive impairment, 27344

cortical dynamics; object naming; name learning; cortical learning effect; word acquisition, 24664

diffusion model account; aphasic; dyslexics; reading impairments; lexical decision task; word naming performance, 25979

dream narratives; Amazonia; dream interpretation; naming; multinational perspectivism; spirits, 27588

early predictors; phonological memory; letter knowledge; rapid naming, 28069

Eleanor Saffran; single word processing; lexical processing; object naming; single word reading; single word repetition, 18549

emotional Stroop effect; cognitive slowing; reading; lexical decision; color naming; stimulus salience, 30573

executive dysfunction; word naming performance; Alzheimer dementia; word reading performance; lexical-semantic impairment, 29103

familiar words; dual route model; single route model; picture naming; auditory repetition; aphasic patients, 19986

familiarity; visual complexity; image agreement; naming difficulty; Boston Naming Test; line drawings, 6904

form-priming effects; nonword naming; masked priming; phonological encoding; visual word processing, 27995

gender congruency effect; picture word interference; gender marked freestanding & bound morphemes; distraction; noun gender; naming; Croatian, 361

herpes simplex encephalitis; category-specific naming; temporal lobectomy; stimulus parameters; living vs non-living stimuli; visual perception; fluency; name picture mapping; semantics; neuroanatomy, 1809

left inferior temporal lobe lesions; anomia; temporal lobe damage; naming impairment; naming performance, 29092

lexical access; phoneme segment retrieval; dual origin; single origin; aphasia; postlexical error mechanism; phonological errors, 20053

lexical decision; skilled readers; developmental dyslexia; naming latency; length effect; syllables, 24440

lexical stress; stress priming; picture naming; speech production, 28015

mental representation; verb-noun compounds; Italian; aphasia; neuropsychological methods; visual confrontation naming task, 29154

mixing costs; mixing benefits; naming task; words; pictures; sums; homogenization pattern; time criterion; pure blocks; mixed blocks, 3393

morale units; visual stimuli naming; vowels; Japanese phonetic script; phonology, 21974

multi-object naming; contextual priming; positron emission tomography; picture naming; neural substrates; brain electrical activity, 12878

multicollinearity; cognitive data; independent variables; picturing data; age acquisition; visual familiarity; naming speed, 6587

naming speed deficits; reading disabilities; double-deficit hypothesis; phonological processing, 35114

naming; analog clock; digital clock; time expression; priming; language, 28004

naming; category concept generation; older adults; dementia; lexical access; word retrieval, 29129

naming; literacy; word-finding difficulties; dyslexia; decoding and spelling abilities; phonological awareness; reading comprehension, 35110

naming; nouns; verbs; noun verb dissociation; grammatical deficits; language production, 20009

naming; semantic representation; lexical access; bilinguals; language, 27987

neural systems; rapid automatized naming; skilled readers; reading disabilities; naming-speed measures; reading; neural substrates, 27767

neural timing; visual implicit categorization; visual category-specific activations; categorization dynamics; visual perception, 3796

nonword naming; Dual Route Cascaded model; stimulus quality; skilled readers; neighborhood density; additive effects; reaction time; word frequency; spelling sound regularity; nonword letter length, 15297

normative data; cross cultural differences; picture naming; European languages; name agreement; psycholinguistic parameters; visual complexity; concept familiarity; imageability; age of acquisition, 6582

number processing; priming; stimulus onset asynchrony; naming task; response latencies; semantic distance; distance effects; processing times; arabic numbers; judgment task; number naming, 18350

omission errors; lexical access; computational models; picture naming; aphasic errors; language disorders; speech errors, 19969

onset effect; bisyllabic word naming; masked form priming; naming latency, 27517

percent word retrieval method; percent substantive verbs method; percent corrected error method; word retrieval assessment; aphasia; naming; description; conversation, 15133

perseveration; normal aging; design generation; verbal naming, 13174

phoneme awareness; rapid serial naming skills; literacy acquisition; reading ability; developmental period; dyslexia, 13807

phonological disorder; sufficient-response-exemplar training; vocal imitation; object naming; conversational speech, 2532

phonological priming; children; picture naming; stuttering; speech reaction time, 11123

phonological processing; morphological skills; syntactic skill; naming speed; spelling performance, 24884

phonological processing; syntactic awareness; naming speed; reading; spelling; first grade children, 7396

phonological processing; visual word recognition; rhyming decision; pseudohomophone naming, 27511

planning; naming; reading; complex numerals; conceptual preparation; response uncertainty; morphemes; phonemes, 18342

prefrontal activity; name agreement; covert picture naming; overt picture naming; semantic retrieval; meaning, 27749

proper names; lexical categories; storybook reading; familiar objects; inanimate object; parental speech; native language; word learning; reading task; parental speech; mothers; 4 yr olds, 911

pseudoword naming; Spanish; syllable frequency; speech production; word frequency, 27978

rapid automatized naming; lexical decision; letter-string reading measures; sight vocabulary; phonetic decoding; visual word recognition, 27525

reading achievement; predictive measures; predictive accuracy; letter identification; phonological awareness; phonological memory; rapid automatized naming; time frame; kindergarten students, 215

reading difficulties; early intervention; kindergarten; prediction; reading skills; phonological awareness; letter sound knowledge; naming speed; letter name knowledge, 23889

religious naming; Protestants; Catholics; worship attendance; religious motivations, 28215

repetition priming; picture naming; translation; bilingualism; picture identification; word retrieval; dominant vs nondominant languages, 370

semantic category effect; emotional valence; picture naming; biological object; non biological object, 27975

semantic dementia; object use; naming; semantic representations; semantic memory; systematic mapping; structural aspects, 29101

semantic distractor effects; phonological distractor effects; picture naming, 28005

semantic priming; episodic affective priming; naming responses; connotation, 24472

semantic representations; perceptual representations of verbal statements; visual representations of objects; names; attribute norms; impairments of conceptual knowledge; computational model, 9722

semantic transparency; morphologically complex words; picture naming; morphological priming effects; picture-word interference, 27986

serial rapid naming; reading acquisition; phonological activation and recording; letter sounds; orthographic knowledge; naming speed; training effects, 31139

seriality; phonological encoding; object naming; reading; speaking; words, 33822

specific-word frequency effect; homophones; speech production; picture naming, 9704

speeded naming; visual word naming; lexical decision; visual word recognition; young adults; older adults; phonological features; semantic variables; words; lexical variables, 21325

temporal lobe epilepsy; anterior temporal lobectomy; visuospatial perception; spatial memory; naming, 11253

testing predictions; interactive activation model; aphasia recovery; anomia; naming; retrieving words, 23636

timed picture naming; word retrieval; Snodgrass method; norms; experimental validation; experimental reliability; order of presentation; name agreement; reaction time, 9553

tip of the tongue paradigm; picture naming; naming deficits; adolescents; dyslexia, 8070

transcranial magnetic stimulation; verb processing; noun processing; neural correlates; prefrontal brain; dorsolateral frontal cortex; action naming, 12829

verb generation; cerebellar patients; cerebellar atrophy; verbs; disarthria; reaction time, 29172

verb noun acquisition; aphasia; naming; word classes; language differences; grammar; parts of speech, 13229

visual word recognition; lexical decision; homophonic words; homophones, 30665

word frequency; picture naming; homonym pictures; speech production, 28018

word-priming; picture naming task; Alzheimer type dementia; older adults; word interference; response latencies; phonological blocking; object names; inhibitory control; picture naming, 29109

writing abilities; aphasia; acalculia; anomia; dementia of Alzheimer's type, 13916

young children; name innovations; novel artifacts; object function; object perceptual properties, 10187

Naming—Chapters

The nature of masked onset priming effects in naming: A review, 15273

Napping—Serials

dopamine agonists; Parkinson's disease; levodopa; sleep disorders; hypersomnia; sleep apnea; nap unawareness, 16798

heart rate; subjective sleepiness; self-awakening; nap; anticipatory changes; autonomic activation; doze time, 12721

sleep/wake patterns; sleep laboratory; activity monitoring; monitoring device; nap analysis; WristCare, 3828

Narcissism—Serials

body art; narcissism; visual art; de-realization; abstraction, 18824

countertransference; gender; female analyst; male patient; childhood trauma; paternal transference; erotic transference; narcissistic; masochistic submission, 29235

implicit self-esteem; defensiveness; narcissism; explicit self-esteem; high self-esteem; defensive behavior; secure; dissonance reduction; in-group bias, 1254

individual differences; narcissism: age; ethnicity; world religion; gender, 4449
 mind-reading; metacognition; narcissism; self-estimated ability prediction; interpersonal sensitivity; social judgment; competence, 34652
 narcissism; aggression; internalization; exploitativeness; exhibitionism; self-esteem, 25075
 narcissism; carnal human form; film media; body art; somatic experience; human sexuality; perversion psychology; human psyche, 18826
 narcissism; pastors; attitudes toward self; narcissistic typology; pastoral styles, 25396
 narcissism; performance attributions; negative emotions; success; failure; self-serving attributions; performance feedback; blame, 10617
 narcissism; spirituality; evil; contemporary culture; values; psychotherapy; literature, 18827
 narcissistic defenses; coping behavior; psychoanalysis; psychotherapeutic processes, 32376
 narcissistic injury; perfectionism; college students; institutional attachment; shame proneness; student adjustment, 26964
 narcissistic patients; narcissistic crying; psychotherapist patient fit; therapeutic relationship; countertransference; interpretation, 1973
 narcissistic personality disorder; self identity; empathy; object relationships; latency-aged children; object representations; self-esteem regulation; impulse control; aggression control; assessment, 19579
 Narcissistic Personality Inventory; measurement; narcissism; factor structure, 15028
 narcissistic personality; paranoid schizophrenia; psychoanalytic study; John Nash; delusions, 28585
 narcissistic personality; therapeutic group; self-psychological model; group analysis, 8449
 narcissistic relationship; intimate relationships; superego level; love relationships; intrapsychic reality; female bodies; Dead Ringers; David Cronenberg, 18830
 object relationships; pathological grievance; complaint; narcissistic entitlement; idealisation; authentic lively self; lively entitlement, 34748
 original narcissism; evolution; Weltanschauung; narcissism; Freud; history of libido development; philosophy of history, 19237
 parent-infant psychotherapy; parenthood; parental narcissism, 32269
 parental pampering types; narcissism; overindulgent type; overdomineering type; overpermissive type; overprotective type; personality trait, 19167
 personality traits; conflict management style; narcissistic personality; self-differentiation; divorced parents, 10381
 psychoanalytic theory; homosexuality; homoeroticism; narcissism, 31630
 psychoanalytic theory; homosexuality; homoeroticism; narcissism, 31645
 psychological health; narcissism; self-esteem; sadness; depression; loneliness; well-being; couple well-being; anxiety; neuroticism, 34713
 ruthless compassion; alcoholism; narcissistic rage; annihilation anxiety; psychoanalytic psychotherapy, 32405
 self-conscious emotions; emotions; narcissism; self-esteem regulation, 34719
 self-conscious emotions; emotions; self-esteem regulation; pride, 34656
 socio-technical system; psychoanalytic theory; Long Term Capital Management; LTCM; organizational narcissism; theory of risk, 17876
 superiority; narcissism; social comparison; personality traits; affective responses; hostility, 22327
 The Mirror Stage; theoretical evolution; reflexive recognition; experimental psychology; psychoanalysis; philosophy; theology, 31619
Narcissistic Personality Disorder—Serials
 diva syndrome; artist; community character; point of impact; self-help; enactment; avoidant personality disorder; narcissistic personality disorder, 26462
 narcissistic personality disorder; self identity; empathy; object relationships; latency-aged children; object representations; self-esteem regulation; impulse control; aggression control; assessment, 19579
 narcissistic personality disorders; borderline personality disorders; psychoanalytic views; empathy; fragile process; client-centered point of view, 29303
 self-psychology; narcissistic personality disorder; nursing; nurse-patient relationship, 35953
 therapeutic process; humor; spontaneity; creativity; analyst intervention; patient analyst intimacy; safety ambience; narcissism; transformation; patient experiences; empathy; clinical illustrations, 20242
Narcissistic Personality Disorder [See Drugs]
Narcosis—Serials
 diagnostic ambiguities; post-traumatic narcolepsy; cataplexy; head trauma; episodic behaviours, 29097
 Down syndrome; narcolepsy like symptoms; sleep apnea, 4793

focused attention; phasic alertness; attentional capacity; attentional control; verbal memory; attention deficits; attention problems; patients with narcolepsy, 4883
 gamma-hydroxybutyrate treatment; narcolepsy; locus coeruleus norepinephrine neurons; rats; spontaneous firing, 21744
 health-related quality of life; excessive sleepiness; medical outcomes study; mood states; cognitive functioning; narcolepsy patients; social functioning; modafinil, 14125
 loss of awareness; nonepileptic spells; epilepsy; seizures; narcolepsy, 11161
 modafinil; delayed nonmatching; position swim task; rats; cognition; narcolepsy; learning; memory, 34185
 narcolepsy patients; daytime sleepiness; nocturnal sleep; sodium oxybate; narcolepsy systems; adverse events; cataplexy attacks, 5412
 narcolepsy; alpha-interferon; gene polymorphisms; neuropsychiatric disease; sleep disturbances; daytime sleepiness; cataplexy; human leukocyte antigen; HLA-DR2, 20076
 narcolepsy; orexin; hypothalamic neurons; neurobiology; rapid eye movements, 22843
 parkinsons disease; sleep attacks; antiparkinsonian medications; daytime sleepiness; dopamine agonists; dopaminergic medications; antiparkinsonian agents; sleep disturbances; somnolence, 2241
 Rasmussen's syndrome; narcolepsy; cataplexy; epilepsy; seizures, 11159
 white matter volumes; structural changes; functional abnormalities; voxel-based morphometry; structural correlates; narcoleptic patients; degeneration of hypocretic neurons; hypothalamus, 4879
Narcosis—Serials
 motor activity; striatal dopamine release; inert gas narcosis; locomotor; neurological syndrome; motor hyperactivity; rats; behavioural disturbance; nitrogen; argon, 7148
Narcotic Agonists—Serials
 anticonvulsant effect; maximal electroshock seizure; kappa opioid agonist; U50488H; gamma-aminobutyric acid; N-methyl-D-aspartate; mice, 749
 arylacetamide kappa-opioid receptor agonists; enantiomers; sodium channels blocking; (+)-(1R,2R)-U50488; (-)-(1S,2S)-U50488; antinociception; rats, 3916
 beta-funaltrexamine; clonidine; drug discrimination; fentanyl; morphine; l-methadone; sufentanil; etorphine; pigeons, 3869
 bremazocine; oral phenylcyclidine self administration; rhesus monkeys; sex differences; PCP, 18725
 buprenorphine treatment; office-based treatment; opiate agonist treatment; psychiatrist characteristics; opiate addiction, 26746
 buprenorphine; naltrexone; opioid detoxification; clinical trials; opioid dependence, 8863
 discriminative stimulus effects; mu opioid agonists; heroin; behavior; morphine; methadone; nafadotride; rats; flupenthixol; SCH23390; eticlopride; BP897; dopamine D₂/3 antagonists, 18722
 discriminative stimulus effects; mu opioid agonists; heroin; nalbuphine; dopamine receptor agonists; morphine; methadone; quinelorane; quinpirole; 7-OH-DPAT; behavioral effects; rats, 18723
 dynorphins; k-opioid agonists; prolactin release; neuroendocrine; naltrexone; drug discrimination, 9963
 feeding behavior; opioid receptor; opioid agonists; neonatal chicks; food intake, 34138
 FLAG-tagged kappa human opioid receptor; FLAG-hkkr; U50488H; dynorphin A; etorphine; levorphanol; CHO cell lines; HEK 294 cells; opioid agonists; opioid antagonists, 3930
 kappa opioid agonist; cocaine; striatal dopamine levels; cocaine-induced place preference; mice; locomotor activity, 27959
 opioid receptors; chronic naltrexone treatment; mice; opioid agonists; sensitivity; brain regions, 15767
 plant-derived hallucinogen; salvinorin A; drug discrimination; rhesus monkeys; opioid agonists, 18717
 remifentanyl; hyperalgesia; freeze lesion; mechanical stimulation; electrical stimulation; pharmacodynamics; pain thresholds, 15770
 repeated administration; transcutaneous electrical nerve stimulation; frequency; rats; tolerance; mu-opioid agonists; delta-opioid agonists, 15430
Narcotic Antagonists [See Also Naloxone, Naltrexone—Serials]
 alcohol consumption; naltrexone; drinking timing; opioid antagonists; alcoholic patients, 28855
 anxiety; antinociception; delta9-THC; mice; delta9-tetrahydrocannabinol; cannabinoid & opioid receptors; naloxone; cannabinoid & opioid receptor antagonists, 790
 beta-funaltrexamine; clonidine; drug discrimination; fentanyl; morphine; l-methadone; sufentanil; etorphine; pigeons, 3869
 chronic opioid antagonist treatment; mu-opioid receptors; receptor density; proteins; receptor trafficking; chronic naloxone; morphine analgesia; mice, 769

cyclazocine; hydromorphone; smoking behavior; polydrug users; cigarette smoking, 27932
 drug inhibition; morphine analgesia; lithium chloride; naloxone; naloxone methiodide; rats, 30982
 ethanol discrimination; ethanol consumption; opioid antagonist; ethanol self-administration; rats; naloxonazine; alcohol abuse, 21878
 FLAG-tagged kappa human opioid receptor; FLAG-hkkr; U50488H; dynorphin A; etorphine; levorphanol; CHO cell lines; HEK 294 cells; opioid agonists; opioid antagonists, 3930
 food deprivation induced intake; opioid antagonists; antisense oligodeoxynucleotide; rats; body weight changes; glucoprivation; lipoprivation, 13008
 methadone maintenance; cost effectiveness analysis; treatment; opioid dependence; buprenorphine, 11771
 naloxone treatment; cocaine self-administration; endogenous opioid systems; dopamine mechanisms; opioid receptor blockade; motivational arousal, 21860
 noncontingent shock; behavioral deficit; opioid antagonist; naltrexone; instrumental learning; spinal cord, 27902
 opioid antagonist; dopamine; parkinsonian monkeys; levodopa induced dyskinesias; naloxone; naltrexone; locomotor activity, 8300
 opioid antagonists; ethanol consumption; endogenous opioid system; opioid neurotransmission; opioid peptides and receptors; alcoholism; b-endorphins; naloxone; naltrexone; genetics, 24618
 opioid antagonists; naltrexone; reinforcing effects; delta-tetrahydrocannabinol; squirrel monkeys, 27904
 opioid receptor antagonists; cell proliferation; neurogenesis; adult hippocampal progenitors; rats; endorphins, 21661
 opioid receptor ligands; intracranial self-stimulation; Dynorphin; CREB; depression; U-69593; 5'-acetamidinoethyl naltrindole; rats, 21914
 psychosocial treatment; opioid-antagonist treatment; alcohol dependence; methodological characteristics; treatment outcomes; relapse rates; self-reported alcohol craving; posttreatment drinking, 17446
Narcotic Drugs [See Also Apomorphine, Atropine, Meperidine, Methadone, Opiates—Serials]
 hospitalized patients; painful conditions; pain relief; intramuscular injections; IM; opioids; morphine, 5448
Narcotics Anonymous [See Twelve Step Programs]
Narratives—Serials
 Academic achievement; longitudinal study; mean length of utterance (MLU); narrative cognition; picturebook reading; language development; Peabody Individualized Achievement Test-Revised (PIAT-R), 33133
 adolescent psychoanalysis; child psychoanalysis; narrative building; developmental process; cognitive development; therapeutic process, 20239
 affective experience; autobiographical poetry; parental cancer; expressive arts research; qualitative research; poems as narratives; father son relationship, 32131
 affective experience; autobiographical poetry; parental cancer; expressive arts research; qualitative research; poems as narratives, 32127
 affective responses; discourse structure; factuality; suspense narratives; curiosity; enjoyment; reading; news; novels; narrative types; reactions; discriminant validity, 24441
 agency; narrative; self; philosophy of psychiatry, 20547
 Alzheimer's disease; discourse analysis; modalizing discourse; picture induced narratives, 8237
 anecdotes; hypnosis; hypnotizability; individual differences; stereotypes, 35600
 applied psychology; miniautobiographical narration; course content personalization; conceptual application, 26898
 attachment security; narrative ability; socialization; mother child relation, 25045
 author viewpoints; readability; short stories; novels; undergraduates, 18850
 autobiographical memories; language development; literacy development; narrative approach; meaning, 31022
 autobiographical memory narratives; adolescents; adults; life experiences; experienced wisdom; age differences; life philosophy; learned lessons, 22063
 autobiographical memory; American & Chinese middle-aged adults; culture; life period; gender; memory narratives; age, 33881
 body talk; expressing pain; body communication; communicative body medium; Reynaud disease; metaphor; verbal expression; subjectivities; retranslating body language, 23205
 borderline personality disorder; mental health nursing; shame; diagnosis; historical context; clinical context; social context, 25756
 cancer narratives; cancer support group; biographical work, 5406
 career construction; narrative; narrative career approach; constructivism; traditional career approach; conceptualizing narrative, 27028

Volume 91 SUBJECT INDEX

Narratives—Serials

Narratives—Serials

- career counseling; multicultural students; nontraditional college students; narrative approach; postmodernism; group counseling, 23944
- childhood sexual abuse; narratives; distressed adult survivors, 4694
- closed head injury; narrative production; narratives; referential cohesion; logical coherence, 26132
- collective identity; negative portrayal; urban residents; success story; Queen Anne Memorial Garden; urban decline; neighborhood revitalization; leisure activity; narratives, 2976
- college classroom; subjective experiences; scientific discussion; scientific discourse; explicit discussion; student opinions, 17736
- computational model; story comprehension; simulation results; inference process; story coherence; story recall, 9650
- computer teaching; learning stories; narrative theory; online educational experiences; educational multimedia; evaluation strategies, 30023
- connectionism; discourse processing; inference; recurrent networks; reasoning; logical ordering; narratives; coherence, 18004
- contextual influence; semantic knowledge; discourse context; lexical access; active memory; eye tracking; comprehension; world knowledge, 18856
- control mastery theory; narrative therapy; constructivist approach; psychodynamic psychotherapy, 1997
- conventional narrative research; children with HIV; narratives; poststructural theory, 33623
- coping; ethnic minorities; first-generation college attendance; college freshman; college students; narrative, 9032
- creativity effect; oral narrative task performance; creative fluency; originality; flexibility; measurement, 31126
- crossing borders; disorientation; time orientation; space orientation; narratives; experiences; storytelling management; linguistic resources; immigrants, 18843
- development of main idea comprehension; narratives; goal structure; elementary school students; high school students, 2797
- direct distance; route distance; implied temporal distance; situation model components accessibility; narratives, 368
- discourse performance; closed head injuries; generative story narratives; story retelling; conversation; discourse analysis; grammar; cohesion, 16745
- discourse structures; narratives; preschool children conversations; daily interactions; metadiscourse comments, 24959
- dream narratives; Amazonia; dream interpretation; naming; multinational perspectives; spirits, 27588
- emotional events; retellings; memories; past experiences, 30726
- emotions; narrative selves; personal sense of unified agency; selfhood; mental disorders, 19315
- essentialisms; narrative work; feminist ideas; constructionist theories; narrative therapy; identity; culture; power, 26238
- event-indexing model; reading; narratives; situational shifts; sentences; protagonist shifts; temporal shifts; spatial shifts; text comprehension, 18354
- flashbulb memories; event memory; expressive writing; subjective probabilities; terrorist attacks; September 11, 12702
- fluency; complexity; accuracy; second language learning; narrative writing; planning, 15856
- Franklin's Tale; power relations; desire structure; Chaucer's tales; narratives; psychoanalytic theory; desire model; homosocial desire; oedipal resolution, 4013
- health professionals; family member; life event; home environment; palliative care; narratives; quality of life, 14425
- hermeneutics; faith; suspicion; meaning; decoding; disguised meanings; interpretive stances; reflexivity; ethics, 31021
- hermeneutics; faith; suspicion; meaning; decoding; disguised meanings; interpretive stances; reflexivity; ethics, 31029
- illness experience; intrafamilial communication; psychological integration; narrative; coping with illness; sibling relationship; experience of cancer; psycho-oncological work, 4931
- illness-related narratives; marriages; couples; health talk; illness talk, 34495
- intensive mothering; mothering; narratives; sociological perspective, 34521
- interdisciplinary collaboration; social problems; thinking; community interventions; intrinsic creativity, 19011
- interdisciplinary research; multidisciplinary research; personal involvement; narrative discourse; discourse processes; special issue, 31494
- interviewing techniques; chronic illness patients; illness experiences; narratives; self-presentation; social support; interviewers; interviewees, 6444
- job lines; narrative jokes; script opposition; communication; punch line; narratology; joke organization, 10079
- language interaction; narratives; Spanish language; Nahuatl language; code mixing; story-telling; Spanish monolingualism shift; bilingual speakers, 13175
- learning disabilities; personal narratives, 25972
- lexical differences; reading materials; elementary education; vocabulary acquisition; reading; words; child narratives, 29981
- life stories; occupations; occupational therapy; personal interpretations; valuable resources; life course; person's life; occupation-based research, 11959
- loss of the self; idem identity; ipse identity; narrative theory; psychopathology; self-relatedness; Paul Ricoeur, 19313
- marriage narrative; courtship; conversation analysis methods; ethnomethodological analysis; narrative analytic research; identity work, 31020
- mass media; symbolism; framing analysis; religion, 18887
- melancholy; Chicano cultural imaginary; loss; naming; cultural criticism; absence; Chicano cultural production; narrative; narrative consciousness, 4012
- memory narratives; listener responses; self-defining memories; adolescence; spontaneous references; larger meanings; lessons; insight, 22101
- mental illness; mothers; psychiatric hospitalization; competence; motherhood; self concept; mother child dyad; narrative; parental roles, 2481
- mental representations; sequence of events; narrative comprehension; temporal distance, 12644
- mind; language; linguistics; psychology; narrative, 34217
- music; narrative; drama; narrativity; instrumental music; musical process, 34199
- narrative circulation; narrative meaning structures; existence modes; experiential mode; life interpretation; model, 31018
- narrative comments; feedback recipients; upward feedback ratings; multirater feedback reports; behavior/task focused comments; trait focused comments; management, 23975
- narrative identity; narrative accounts; genetic history; donor-assisted conception; parents' contribution; human rights, 10400
- narrative identity; personality; personal unity; life purpose; life experiences; introductory essay; meaning making; adult development; personality growth; researchers; commonality; adult lifespan, 22322
- narrative identity; self-identity; mental disorders; psychopathology; synchronic subjective unity; diachronic subjective unity; constitutional identity, 19337
- narrative intervention; communicative competence; Spanish-speaking children; native language, 14651
- narrative life history; theoretical approach; subjectivist approaches; structuralist approaches; self; past experiences; George Herbert Mead; Paul Ricoeur, 31019
- narrative production; narrative processing; children; cardiac rate; cardiac variability, 21992
- narrative psychology; contemporary social constructionism; narrative psychological approach; self study; self identity; social constructionist, 18842
- narrative psychology; narrative inquiry; psychology, 18844
- narrative skills; theory of mind; low-income preschoolers; African American preschoolers; European American preschoolers, 36151
- narrative structure; narrative theory; space orientation; time orientation; philosophy; cultural geography; social theory; linguistic anthropology, 18840
- narrative survey; multiple populations; qualitative approaches; survey strategy; research strategy; narrative-constructivist approach, 30568
- narrative texts; lexical decision; sentence expression; reading ability; text comprehension; predictive inference; deductive inference, 33778
- narrative texts; writing ability; expository texts; text construction; text conceptualization; discourse functions; linguistic forms; age differences, 24932
- narrative theories; mental disorders; philosophy; personal identity; self identity, 19351
- narrative; coherence; human cognition; cognitive penetrability; exaggeration; thinking, 33785
- narrative; infant psychic growth; artist; consciousness aspects; mind; psychoanalysis, 32404
- narrative; narrativity; narrative definition; misleading paradigm; structural, referential, pragmatic, & value-based features, 34210
- narrative; self concept; narrative work; stories; subjectivity, 18853
- narratives; children; specific language impairment; early focal brain injury; Williams syndrome; language development; morphological errors; syntax; evaluative devices, 13548
- narratives; culture; self; cultural psychotherapy; counseling; cross-cultural psychology; relations, 8416
- narratives; experiences; pedagogical practices; teaching; learning practices; feminist research; qualitative research, 18210
- narratives; nursing practicum; teaching experiences; learning experiences; nurses, 23702
- narratives; preschool conversations; multi-party talk-in-interaction; conversational narratives; linguistic structures; Turkish children; thematic relevance, 13190
- narratives; space; time; life; mind; detail distortion, 33835
- occupational therapy philosophy; client-centered practice; narrative methods; occupational therapy users; listening, 8878
- oral narratives; life-world phenomenology; human suffering; poetic condensation; lived experiences; embedded meanings; qualitative research, 6448
- parent-offspring communication; alcohol; drugs; drug prevention; drug prevention conversations; parent-offspring drug talks; drug use; health communication; narratives; conversation, 19065
- parental mental disorder; silence; communication; stigma; resilience; risk factors; mood disorder, 22449
- personal involvement; narrative content; emotional impact; time; event memory; expressive narrative writing; cognitive processing; emotion words; stress alleviation; terrorist attacks; September 11, 12694
- personal narrative; brief interventions; behavioral-skills training; slide presentation; behavioral skills; self-efficacy; intentions; HIV/STD risk behavior; safer sex attitudes; college students, 14331
- personal narrative; discontinuity; patient perspectives; bipolar disorder; incipient schizophrenia; dissociative disorder, 19349
- personal narratives; coherent storytelling; schizophrenia; agent-protagonist, 1998
- phenomenological analysis; phenomenological research; narrative data; thematic moment analysis, 27411
- photo-elicited narratives; narratives; sociotemporal shift; informants narratives; political disappointment, 18845
- place; time; interactional resources; narrative; conversational stories; adolescent females, 18846
- prior knowledge; realism; narrative worlds; mental images, 31482
- professional experiences; learning situations; imagery, 14617
- propositional reasoning; instructional simulations; classroom context; teacher effectiveness; student grading, 33056
- psychiatric research & practice; personal experience colonization; problems of human living; Tidal Model; mental health recovery & reclamation model; narratives; mental health care, 5520
- psychoanalytic narratives; self concept; contemporary cultural phenomena; discursive psychology; psychological discourse; culture; self identity; psychology, 18849
- psychological trauma; mental health; professional narratives; dialectical thought; trauma treatment; trauma prevalence; psychological trauma consequences, 25449
- psychology; literature; level of abstraction; narratives; culture, 34191
- psychopathology; narrative self; narrative identity; philosophy, 19333
- psychopathology; narratives; self concept, 19346
- psychopathology; psychological disorders; narrative development; story-telling; guiding therapy; narratives; organizational level, 29271
- psychotherapy clients; personal story approach; psychotherapy; narratives; listening, 1987
- re-conceptualization; narrative identity; lone motherhood; identity construction; life stories, 31412
- reader sensitivity; linguistic cues; narratives; anaphor resolution; adjectives; stimulus salience, 30675
- real self; sexual formula stories; personal storytelling; social movement activism; lesbian; gay; bisexual; transgender; storying identities; social movement work, 19002
- reflective process; personal illness; nurse teachers; professional experience, 23732
- risk; transparency; cover up; media narratives; film; cultural; visual imagery; trust; environment, 36481
- rural elders; assisted living facility; semi-independent living; self identity; narratives; history; community life; nursing home; world wars; Great Depression, 34373
- self narratives; self recitation; self story; life-story; subjectivity; White women; feminist theory, 22242
- senior managers; case study research; middle managers; work narrative; United Kingdom hospital; National Health Service; NHS, 17856
- shyness; narratives; research, 34712
- smoking; adolescence; identity; smoking experiences; narratives, 7427
- social action empowerment; identity narratives; culture narratives; health inequities; wealth inequities; globalization; health promotion; health status, 16101
- social class; children narratives; preschoolers; story-telling; elaborative style; reporting condition, 18949

Volume 91 SUBJECT INDEX

Narratives—Serials

social control; mediation; control narratives; cyberspace; Internet use; virtual communication; pedophiles, 34207
speech recognition technology; writing processes; children; narratives; handwriting; surface errors; advance planning; story composition; text generation; writing difficulties; fluency, 23886
sperm provision; sperm providers; ambivalence; narratives; donors; recipients; offspring; donor assisted conception, 32548
spontaneous construction; spatial situation models; narrative comprehension; causal relevance; attribution, 30672
story comprehension; story production; narrative comprehension; human communication; neuropsychology; interrelation; neuroimaging, 27761
story writing; intervention; narrative skills; peer interaction; augmentative & alternative communication; autistic adolescent, 5714
story; narrative theory; time; space; spatial-temporal orientations, 18854
storytelling; personal experiences; narrative development; Chinese children, 22030
student composed narratives; adolescent literacy; speech and language intervention; communication disabilities; scaffolded story writing, 17769
suicidal preoccupation; unresolved bereavement; bereaved widow; coexisting; therapist; story verbalization, 32359
systemic family therapy; attachment theory; narratives; anorexia nervosa; transgenerational experiences of insecure/dismissive attachments, 5223
tacit understanding; relational understanding; embodied understanding; video cued narrative reflection; practice-based understanding; videotaped interaction; reflective narrative, 6450
talking back; cultural sensitivity; narratives, 18841
temporal lobe; speech comprehension; narrative speech; linguistics, 21564
testimony therapy; organized violence; victims; trauma; narratives; short term therapy; posttraumatic symptoms, 2041
theft; ethics; life portrayal; educational settings; educational research; stories, 33625
traits; life narratives; dispositional personality features; narrative personality features, 28491
unity of agency; volition; self-as-narrative; emotions, 19220
visual event; witnessed event; eyewitness suggestibility; narrative description; conceptual similarity; extra-event narrative, 9718
web based computer tutor; writing performance; narrative writing skills; HARRY, 9001
Narratives—Books
The mind and its stories: Narrative universals and human emotion, 4004
Narratives—Chapters
Community narratives: The use of narrative ethnography in participatory community research, 18239
Narrative social work with groups: Just in time, 5631
The narrative solutions approach: Bringing out the best in people as they age, 16958
Narrative therapy with older adults, 16961
Translating traumatic experiences into language: Implications for child abuse and long-term health, 2259
Nationalism—Serials
agenda setting; moderating influence; political elites; television news; European union; cross-national comparative research, 4073
citizenship education; national identity; curriculum; democratic politics; peace process, 17672
emotional prejudice; essentialism; nationalism; ingroups; outgroups; infra-humanization, 7602
gender; nationality; personal identity; gender identity; national identity, 28111
identity markers; Churchill home; England; Englishness; artifacts; symbols; kinship rituals, 16138
mythscapes; memory; mythology; national identity; collective memory; nationalism; social agency; mythology, 16263
national identity; Commonwealth member; esoteric concept, 31314
nationalism; religious nationalism; globalization; self identity; ontological security; existential uncertainty; anxiety, 34422
nationalist rebellion; social support; individual decisions; community perceptions; prospect theory; intentional rebellious action; social contexts, 34519
nationality; globalization; social forms; mass communication; media theory, 34441
North American Free Trade Agreement; national disintegration; sovereignty; socioeconomic variables; demographic variables; political preferences; NAFTA knowledge, 31287
patriotism; nationalism; terrorist attacks; cultural diversity tolerance; social attitudes; American identity, September 11; national identification; pluralistic values; unity, 34425

Scottish national identities; International Football supporters; Scottish supporters, 17908
tourism; nationalism; heritage sights; domestic tourists; national identity; historical evidence; nationhood; museums; foundational history, 13316
violence portrayal; violent agents; group membership; media violence; disguised violence; non-US agents; law enforcement agents; US nationalism; newspaper photographs; imagery; group status, 15887
Native Alaskans [See Alaska Natives]
Native Americans [See American Indians]
Natives [See Indigenous Populations]
Natural Childbirth—Serials
personality factors; comparative study; primiparous women; In Vitro Fertilization; natural conception; psychopathology prevalence; depression; personality profile; psychoticism, 19169
women's health movement; pregnancy loss; birth scenarios; natural childbirth movement; reproductive disaster stories; toxically assaulted communities; US; miscarriage, 19080
Natural Disasters—Serials
adolescent disaster victims; child disaster victims; post traumatic stress disorder; social work providers; schools; flooding, 20571
anxiety symptoms; post-traumatic stress disorder; 1999 Greek earthquake; Athens earthquake; personal threat; natural disasters; age; gender, 31803
bystander behavior; identity; place; bystander intervention; social categories; helping; natural disasters; self-categorization theory, 25302
earthquake survivors; physically & psychologically destructive effects; expectations; victims, 34442
earthquakes; life loss; property loss; cultural change; social change; natural disasters; man-made disasters; risk information, 28172
emotional responses; natural disaster; predictors; mental health; floods; loss severity, 22323
gender differences; ethnicity differences; traumatic events; unexpected death; combat; natural disasters; sexual assault, 34417
hyperleptinemia; persistent partial posttraumatic stress disorder; earthquakes; postdisaster psychiatric symptoms; serum leptin; subsyndromal acute stress disorder, 16456
natural disasters; child response; life threatening experience; technological disasters; destruction; post disaster psychopathology, 35164
personal responsibility; natural disasters; tornado; mitigation; life experiences; preparedness actions; threat appraisal, 10465
postdisaster disorders; posttraumatic stress disorder; floods; mudslides; major depressive disorder; comorbidity, 34798
posttraumatic stress disorder; earthquake rescue workers; Chi-Chi earthquake; mental health problems; rescue workers; prevalence, 31804
posttraumatic stress disorder; rescue workers; earthquake; psychiatric disorders; comorbidity, 34918
posttraumatic stress disorder; trauma-related symptoms; earthquake survivors; rural Taiwanese; subthreshold posttraumatic stress disorder, 19540
psychiatric disorders; earthquake survivors; posttraumatic stress disorder; major depressive episode; mental impairment; network change; financial loss; social network; related risk factors, 27185
psychiatric responses; community trauma; natural disasters; man made trauma; community-based interventions; preparedness, 36482
PTSD; children; earthquakes; depressive symptoms; anxiety, 13661
repression; natural disasters; immunological correlates; neuroendocrine correlates; peripheral blood lymphocyte surface markers; salivary cortisol, 27183
severe wild-fire; flycatcher; food availability; aerial arthropod biomass; Contopus Cooperi; foraging behavior; reproduction, 6721
sociological analysis; psychological factors; earthquake survivors; social support; civil society; disaster sociology; education, 31308
temperament; trauma; prediction; posttraumatic stress disorder; flood; disasters, 25743
thanatology; macrothanatology; large-scale death; terrorist attacks; war; disease; natural disasters; extinction, 24147
Natural Disasters—Chapters
Relocation stress following catastrophic events, 1398
Natural Family [See Biological Family]
Natural Selection—Serials
behavioral ecology; central nervous system; cognition; natural selection; animals, 34024
early childhood education; natural selection; childhood educators; developmental needs, 34241
Naturalistic Observation [See Observation Methods]
Nature Nurture—Serials
adolescence; depression; familial risk; family environment, 13588

Near Death Experiences—Serials

animal models; schizophrenia; molecular genetics; brain diseases; environmental factors; etiology; genetic factors; neurological diseases; psychiatric diseases, 527
body attitudes; body image; genetic epidemiology; women; environmental epidemiology; risk factors; twins; body mass index; measurement, 6280
developmental ecology; animal development; behavioural ecology; reproductive behavior; brown-headed cowbirds, 3462
environmental effects; alcohol use disorders; genetic risk; genetics; twin study; offspring; risk factors, 10992
environmental influences; genetic influences; adolescents; substance initiation; substance use; problem substance use; siblings; twins, 10256
environmental influences; twin; shared rearing environment; family resistance; migraine; genetic influences, 16634
evolutionary psychology; cultural psychology; origins of behavior; teaching; nature nature debate, 29971
genetic basis; problem behavior; psychopathology; environmental influences; Devereux Child Behavior; test validity; psychometrics, 24196
genetic influence; environmental influences; individual differences; psychological traits; genetics, 28452
genetics; cognitive abilities; adolescent twins; environmental effects; monozygotic twins; dizygotic twins, 34283
mental health nursing; mental illness; nurture; patient-nurse relationship, 14391
monozygotic twins; anorexia nervosa; environmental risk factors, 35155
nature nurture; gender; psychoanalytic interpretation; neurosciences; sex, 1302
nervous system; genetics; environment; lifespan; brain; neurotransmission; psychiatric illness; nature nurture, 13568
object permanence; infancy; learning; innate contributions; training periods; nature nurture, 28085
schizophrenia; etiological influences; twin studies; environmental effects; etiological factors; complex trait, 10808
social psychiatry; genes; social environments; heritability, 28375
Nature Nurture—Books
Nature via nurture: Genes, experience, and what makes us human, 3593
The puzzle: Exploring the evolutionary puzzle of male homosexuality, 1152
Nature Nurture—Chapters
Contemporary research on parenting: The case for nature and nurture, 1127
Language evolution and innateness, 15992
Nausea—Serials
depression; fatigue; nausea; pregnancy; social support; vomiting; psychosocial factors; prenatal care; well-being; physical symptoms, 2328
desensitization procedure; physiological responses; breathing retraining; fear of nausea; emesis; emetic, 5211
immediate-release formulations; controlled-release formulations; pharmacokinetics; antidepressants; nausea; efficacy; side effects; selective serotonin reuptake inhibitors; tolerability, 11482
Navigators (Aircraft) [See Aerospace Personnel]
Navy Personnel—Serials
Jennifer Berg; physician; aerospace psychiatry; posttraumatic stress disorder; traumatic brain injury; anxiety disorders; mood disorders; US Navy, 23647
mental disorders; advancing age; diagnostic categories; circulatory disorders; active duty navy; Navy personnel; nervous system, 16348
mentoring; navy midshipmen; career development; military, 6096
military leadership evaluations; gender role attitudes; leadership positions; leadership characteristics; evaluator gender; leader gender; Navy promotion, 27146
pediatric populations; pediatric blood lead surveillance program; health screening; Navy population; high risk children, 5477
physical readiness testing; test standards; body composition assessment; body mass index; obesity; naval personnel, 3231
preretirement planning; transferability of skills; naval officers; retirement satisfaction; retirement adjustment; civilian career transition, 6102
Navy Personnel—Chapters
Individual and organizational interventions after terrorism: September 11 and the USS Cole, 1962
Nazism [See Fascism]
Near Death Experiences—Serials
auditory hallucinations; near-death experiences, 25463
clinical death; death survivors; near death experiences; transformational change, 33898
near death experience; nonverbal adolescent; brain trauma; quadriplegia, 35278
near death experience; postmodernism; death deconstruction, 33901

Volume 91 SUBJECT INDEX

Near Death Experiences—Serials

psychotherapy; near-death experiences; sexuality; British Journal of Psychotherapy, 29273
Near-sightedness [See Myopia]
Neck (Anatomy)—Serials
 chronic neck pain; muscle activation patterns; trapezius muscles; muscle reactions; whiplash-associated disorder; motor vehicle accident survivors; disorder stage; acute whiplash injury; recovery, 16620
 kinematics; neck; rear end impacts; low speed impacts; cervical spine motion; acceleration effects, 354
 neck disability index; Northwick Park neck pain questionnaire; problem elicitation technique; self-perceived disability; whiplash injuries, 21089
 neck muscles; postural control; fatigue; dizziness; cervical vertigo, 8158
 neck pain and upper limb pain; community; manikin; pain drawing, 6483
 positive encounters; rehabilitation professionals; sickness absence; sick-listed persons; rehabilitation staff; back diagnosis; neck diagnosis; shoulder diagnosis, 32818
 visual motion stimulation; body orientation; perceptual distortions; neck muscle vibration; visual field defects; neglect patients, 27449
Need Achievement [See Achievement Motivation]
Need for Affiliation [See Affiliation Motivation]
Need for Approval—Serials
 acceptance; need for approval; self esteem; relationship satisfaction; close friendships; romantic relationships, 4396
 dual pathway model of bulimia; sociotropy; body dissatisfaction; internalized societal pressures; dietary restraint; negative affect; need for approval; fear of social rejection, 1732
Need for Cognition—Serials
 arguments; approach; avoidance; epistemological beliefs; need for cognition; extraverted personality traits; dispositions; assertiveness; warmth; undergraduate students, 4464
 body type; body size; female models; advertisements; attractiveness; need for cognition; gender differences; instructional frame, 27173
 cognition moderates; smoking cessation messages; smoking; cancer prevention behavior; persuasiveness, 14493
 cognitive busyness; individual differences; impression formation processes; expectancy condition; moderating effects; high expectancy; need for cognition, 1206
 danger control; fear control; fear appeals; need for cognition; maladaptive responses; adaptive responses; self-examination; adaptive coping; breast cancer, 23464
 decision framing; individual differences; cognitive processing; risky choice; math skill; need for cognition, 21348
 expert testimony; eyewitness memory; judge's final instructions; guilt perceptions; eyewitness believability; jurors; need for cognition; conviction rate; case strength, 24128
 individual differences; assimilation; contrast effects; affective experience; need for cognition; expectations; determinants, 7677
 irrational decisions; cognitive-experiential self-theory; optimal response; cognition scale; low probability; numbers; ratio; judgment, 355
 message processing; realistic recruitment services; perspective job applicants; target job; need for cognition; recruitment messages; realistic job previews; source credibility, 9068
Need for Cognition-Short Form; factor structure; hispanics, 21084
 need for cognition; information framing; mood; recall; decision making; confidence level, 9662
Need for Cognition; mock jury deliberations; persuasive communication; argument quality, 27234
 private self-consciousness; need for cognition; locus of control; obsessive thinking; internal state awareness; self-reflectiveness; Iran; US, 31570
 sentence-level context; prior word knowledge; need for cognition; information processing; technical language; print ads, 27156
 television genre viewing; need for gratification & cognition; selection; activity, 24893
Need Satisfaction—Serials
 exercise behavior; exercise regulations; physical fitness; self-determination theory; motivational consequences; psychological need satisfaction; exercise program, 14348
 need balance; social groups; social identity; group distinctiveness; individual identification, 34604
Needle Exchange Programs—Serials
 harm reduction; needle exchange programmes; HIV prevention, 5513
 health benefits; secondary syringe exchange; needle exchange program; drug lifestyle; injection drug users, 32795
 injecting drug user; needle syringe program; Australia; client information management model, 5494

injecting drug users; Russia; IDUs; hanka; drug use culture; risk reduction practice; HIV prevention initiatives; syringe exchange; heroin, 2350
 population thinking; adjunct; substance abuse; syringe exchange programs; injecting heroin users; HIV; clinical trial, 29222
 syringe exchange program; HIV, 8749
 syringe exchange; long term effects; injection risk behavior; HIV prevention; syringe sharing, 29507
Needle Sharing—Serials
 health benefits; secondary syringe exchange; needle exchange program; drug lifestyle; injection drug users, 32795
 HIV infection; AIDS epidemic; epidemiology; at risk populations; condom use; needle use promotions; intervention strategies, 32600
 HIV infection; drug injectors; needle sharing; transmission risk; sex partners; Thailand, 11187
 HIV treatment attitudes; unsafe sexual practices; injection practices; injecting drug users; IDUs; needle sharing; Baltimore; HIV-seropositive; HIV-seronegative, 5464
 needle sharing; injection drug user; supportive services; sociodemographics; HIV & AIDS awareness; risk factors, 8027
 syringe exchange; long term effects; injection risk behavior; HIV prevention; syringe sharing, 29507
Needs (See Also Health Service Needs, Psychological Needs)—Serials
 Apolipoprotein allele; Apolipoprotein genotype functions; disease risk factor; person-environment fit; elders' personal needs; physical environments; social environments, 33997
 autistic spectrum condition; special education needs; schools; disabled students, 12192
 breast cancer; support needs; information; daughters; sisters; mothers, 16693
 burn patients; physiological recovery; resuscitative rehabilitation; acute rehabilitation; long term rehabilitation; psychological needs; emotional needs, 35220
 chronic illness; antiretroviral therapy; disease experience; ethnic groups; community based needs; gender; Human Immunodeficiency Virus; HIV; belief; behavior; culture, 1808
 chronic illness; patient attitudes; diagnosis search; personal meaning; allopathic diagnosis; patient experience; explanatory needs; aging; symptoms; thumb pain, 32537
 chronic illness; patient attitudes; diagnosis search; personal meaning; allopathic diagnosis; complementary health care; patient experience; explanatory needs; aging; symptoms; thumb pain, 32570
 chronic illness; patient attitudes; diagnosis search; personal meaning; allopathic diagnosis; complementary health care; patient experience; explanatory needs; aging; symptoms; thumb pain, 32542
 communal strength; motivation; partner's needs; test development, 24214
 competency needs; training demands; managerial competency; hospitality industry; hotels; restaurants; managers, 12267
 depression; primary care; stigma; employment; health insurance; friendships; HIV; diabetes; depression-related stigma; needs; primary health care; hypertension; needs, 1442
 difficulties; support needs; renal transplantation; peer relationship issues; medical conditions; schools, 12097
 emotional needs; personal needs; dying patients; physician attitudes; patient perspectives; family perspectives; emotional support; personalized care; health care providers, 5143
 family needs; family members; spinal cord injury; rehabilitation; family education, 20615
 functional multisystem resource; children; complex needs; family; disabilities; community mental health services, 17296
 gender differences; health information needs; decisional preferences; acute ischemic coronary event; recovery, 16725
 gender identity; needs; analytic treatment; ego disintegration; childhood development, 20240
 Holocaust; developmental needs; various age groups; child-survivors; therapy; trauma, 20145
 injured workers; needs; experiences; occupational rehabilitation, 8882
 justice; morality; behaviour; basic needs; human development; criminal justice, 10555
 juvenile corrections system; substance abuse treatment; need for treatment; treatment utilization, 20641
 learning needs; activity limitations; physical disabilities; Japan; elderly, 8133
 level of wellness; stress; counseling needs; headache sufferers, 1761
 long-term special education; educational placement; traumatic brain injury; children's needs, 2848
Need-Strength Profile; Basic Needs Inventory; test validity; test reliability; psychometrics; couples, 30368

Needs Assessment—Serials

needs; resources; disabled indigenous people; cross cultural rehabilitation partnerships; public policy, 11888
 older workers; labor force; employee health; employee productivity; worker capacity; work behavior; cultural norms; age-related changes; prevention; work roles; risk factors; pain; coping, 20901
 personal impact; schizophrenia; quality of life; caregivers; anxiety; depression; psychotic symptoms; alcohol abuse; psychiatric admissions; intimate relationships; unmet needs, 28748
 personality differences; gender differences; friendship needs; experiences; preadolescence; young adulthood; same-sex friendship, 31616
 predischarge psychoeducational needs; psychiatric patients; relatives; mental health professionals, 32683
 primary care supports; children with chronic health conditions; unmet family needs; predictors; child functioning; family functioning, 26469
 prostate cancer; information seeking behaviour; partners informational needs, 23461
 psychosocial needs; breast cancer survivors; age differences; women, 19920
 racial differences; ethnic differences; depression; social support; meeting basic needs; depressive symptoms; prevalence; minority groups; Whites, 10759
 reference group; reference entry group; new culture; culture of origin; cognitive closure; social cognition; immigrants; acculturation; social relations, 22309
 schizophrenia; deinstitutionalization; community living outpatients; needs assessment; psychopathology; unmet needs; clients vs staff needs perception, 1497
 separation need; individuation need; selfhood meaning; self-identity construction; cultural differences; Japanese students; Canadian students, 28515
 service delivery model; Transition Service Integration Model; public schools; rehabilitation systems; developmental disability system; non-profit agencies; support needs, 17767
 social support; low-income mothers; single mothers; grief; isolation; loss; concerns; resilience, 25173
 spiritual needs; religious practice; health care, 32519
 staff learning needs; touch; care; staff training; interactive training package; staff focus groups; touch in care, 29606
 staffing needs; public sector; outpatient mental health services; demographic variables; workers productivity; mental health professionals, 32692
 terminally ill patients needs; chronic obstructive pulmonary disease; community; primary care, 29006
 unmet needs; bipolar disorder; depression; diagnosis; treatment; children; adolescents; Depression and Bipolar Support Alliance Consensus Statement; health care delivery; provider training, 5530
Needs (See Also Health Service Needs, Psychological Needs)—Books
 Sociological analysis of aging: The gay male perspective, 7487
Needs (See Also Health Service Needs, Psychological Needs)—Chapters
 All parents of preschoolers need support!, 5149
 Beyond cognition: A Vygotskian perspective on emotionality and teachers' professional lives, 2724
 Expatriate management, 6009
 The transforming power of affect: Facilitating access to alternate adaptive emotions and needs, 23162
Needs Assessment—Serials
 assistive technology focus groups; cultural diversity; family; developmentally disabled children, 12206
 at-risk youth; Things I Worry About Scale; Northern Ireland; needs assessment, 87
 care delivery needs; support needs; unmet information; localized prostate cancer; needs assessment; men, 23485
 caregiver burden; activities of daily living; Alzheimer's disease; caregiver needs; family strain, 11849
 cell phone design; Needs Analysis and Requirement Acquisition; NARA; disabled people; user requirements; telephone communication; assistive technology, 15121
 CHARGE syndrome; educational needs; interdisciplinary approach; intervention strategies; communication skills; motor development, 36217
 chronic low back pain; health needs; primary health care; symptoms; treatment histories; ability level; disorder severity; needs assessments; service development, 23406
 domestic violence; trauma symptoms; life skill needs; female victims, 28814
 educating; LTC staff; therapeutic environments; resource for evaluation and modification of dementia environments for living; REMODEL; LTC; dementia residents; caregivers, 12025
 elderly health disparities; health; quality of life; US-Mexico border, 28155
 female offenders; special needs; needs assessment instrument; treatment program; test validity & reliability; Female Offender Critical Intervention Inventory; FOICI; gender sensitive programs, 210

forensic psychiatric inpatients; long-stay patients; health-care needs; placement needs, 11870

forensic psychiatry assessments; hospital admission; serious offenders; schizophrenia; healthcare needs; needs assessment, 30322

health care use; cultural influences; special health care needs; unmet needs; providers expectations; disabled children, 29613

holistic approach; Native Americans; values; traditions; needs assessment; social services; substance abuse; mental health; HIV; AIDS, 5619

home based services program; community based services program; home care clients; client needs; care planning; problem identification; case managers, 35732

informal social support; needs assessment; Moroccan immigrants; social psychology, 31303

informational needs; men; prostate cancer; hormonal manipulation therapy, 23321

institutional therapeutic communities; women; needs assessment; treatment; prisons; gender differences, 5726

juvenile offenders; risk assessment; needs assessment; juvenile justice; inventories; Secure Care Psychosocial Screening; Youth Level of Service/Case Management Inventory, 9434

listening needs; need assessment; personal context; societal context; audiological rehabilitation; benefit evaluation; hearing-impaired listeners; client expectations, 8836

local needs assessment; family caregivers; community planning; caregiver service plans, 35820

looked after young people; mental health needs; health service seeking; intuitive judgment; carers, 35763

medical education; professionalism; medicine; practitioners; practice behaviour; needs assessment; professional competence, 26818

medium secure psychiatric care; needs assessment; clinical needs; healthcare access; admission assessment, 30337

medium security psychiatric care; admission assessments; needs assessment, 30338

mental health services; looked after children; foster care; children homes; psychiatric disorder; psychosocial functioning; self-esteem; psychological development; distress; support networks, 14354

multi-level classification system for sport psychology; athletes needs; athletic service provision, 18059

multiple sclerosis; health care needs; needs assessment; patients; health care utilization; biopsychosocial case complexity, 20532

need assessment; mental health; schizophrenia spectrum disorder; psychiatric disability rehabilitation & support service, 32685

needs assessment; community-based service systems; urban service district; matching needs and services, 8785

needs-based planning; schizophrenia; residential care; level of care; mental health; health care need; needs assessment, 23574

needs; resources; disabled indigenous people; cross cultural rehabilitation partnerships; public policy, 11888

occupational therapy services; rheumatology patient; health care system; quality assurance activities; additional services; medical staff, 17455

parental mental illness; children needs; teachers responses, 20847

patient views; treatment planning; health worker agreement; patient needs; patient wishes; decision making; needs assessment; psychiatric disorders, 26574

psychosocial needs; academic needs; Latino youth; school based programs; mental health needs; program development, 27003

residential care facilities; psychological care; Shye's Quality of Life model; correspondence in residents and staff; assessments of the quality of life, 29738

risk assessment instruments; need assessment instruments; long term incarcerated offenders; Level of Service Inventory-Revised; predictive validity; reliability; recidivists, 30374

schizophrenia; deinstitutionalization; community living outpatients; needs assessment; psychopathology; unmet needs; clients vs staff needs perception, 1497

school based program; homelessness; health problems; mental health problems; prevention program; needs assessment; children residing in homeless shelters, 27012

school counseling program; students needs; program evaluation; developmental theory; positive psychology; developmental advocacy, 27007

sex education; needs assessment; peer educators; sex education programme; sexual health; health information; secondary schools students, 33068

social service providers; mental disability; community mental health services; needs assessment; urban environment; rural environment; quality of care; activities of daily living, 8779

social work interventions; refugee camps; needs assessment, 20566

Strengths and Stressors Tracking Device; care givers; family well-being; family assessment; child well-being; physical abuse; social support, 17345

traumatic brain injury; support needs; Care and Needs Scale; test validity; test reliability; psychometrics, 30486

unmet needs; bipolar spectrum disorders; diagnosis; depression; treatment options; lamotrigine; antidepressants, 31735

Needs Assessment—Chapters

Direct assessment of clients' instructional needs: Improving academic, social, and emotional outcomes, 3239

Nefazodone—Serials

anxiety symptoms; treatment-resistant depression; anxiety disorders; treatment efficacy; nefazodone, 2229

chronic major depression; dysthymic disorder; combined treatment; psychotherapy; nefazodone; maintenance efficacy; recurrence; prevention, 1921

chronic major depression; psychotherapy; nefazodone; combination therapy; sleep outcome; Cognitive Behavioral Analysis System of Psychotherapy, 5121

major depression; nefazodone; abrupt discontinuation; discontinuation symptoms, 14189

major depression; nefazodone; mood; anxiety symptoms; drinking behavior; depressed alcoholics; comorbidity; alcohol dependence, 35034

nefazodone; antidepressant drugs; major depression; liver disease; acute liver failure, 26351

nefazodone; chronic posttraumatic stress disorder; combat veterans, 26353

nefazodone; cytochrome; methylprednisolone disposition inhibition; cortisol suppression; adrenal-suppressant effect; elimination half-life; intravenous dose; time curve; drug interactions, 7218

posttraumatic stress disorder; nefazodone treatment; sertraline treatment, 26400

subjective measures; objective measures; depression; sleep; paroxetine; nefazodone, 2140

tolerability; nefazodone; major depressive disorder; antidepressant treatment; serotonin reuptake inhibitors; drug therapy, 17065

Negative and Positive Symptoms [See Positive and Negative Symptoms]

Negative Reinforcement—Serials

differential negative reinforcement; noncontingent escape; compliance; problem behavior; autism, 2050

location negative priming; probe distractor; distractor event; target event; distractor-only prime trials; probe trial, 24495

negative affect; negative reinforcement; information processing; reinforcement models; withdrawal syndrome; interoceptive cues; motivational basis; cognitive control, 10967

problem behavior; classroom functional analysis; negative reinforcement; teacher attention; task difficulty; aversive stimuli; demand context, 1606

tobacco dependence measurement; negative reinforcement; social learning, 31922

Negative Therapeutic Reaction—Serials

shame; negative therapeutic reaction; countertransference feelings; interpersonal relationships; psychotherapy, 16920

Negativism—Serials

accountability systems; educational systems; high-stakes testing; policy debates; educational profession; negative sentiments, 23755

hardiness; stress; illness; negative affectivity; gender, 25365

Latina mothers; special education; health service systems; low-income families; developmental disabilities; negative attitudes, 35098

mothers negative expressiveness; children's emotional experience; child's emotional expression; heart rate; facial distress; negative emotion, 28132

negative affectivity; Type A personality; big five personality traits; work-family conflict, 9090

negative sentiments; critiques; high stakes student testing; education profession, 23775

negative sentiments; high stakes student testing; education profession; standardized testing, 27533

positive psychology; behavior management strategies; externalizing disorders; students; optimism; negativity, 12197

positive social exchanges; negative social exchanges; psychological health; psychological well-being; social relationships; positive affect; negative affect; older adults; prediction, 7618

Negotiation [See Also Bargaining]—Serials

B2B simulators; Java-based soccer; strategic differences; dispute resolutions; electronic business; business-to-business processes; soccer strategy, 17827

case-based reasoning; intelligent systems; comparative shopping; web service; mobile commerce, 33388

computer-mediated communication; negotiated interaction; decision-making tasks; intermediate level learners, 17941

computer-mediated negotiated interaction; lexical acquisition; decision making, 34228

concession behavior; negotiator satisfaction; judgment; concession timing; other party justifications; negotiator skill; external constraints; object valuation; participant attribution, 18045

condom negotiation strategies; cultural differences; gender differences; interpersonal communication; communication styles; verbal-direct strategies, 29534

correct; exit; correctability; exitability; electronic media communication; negotiation; constructive action, 18044

customer reactions; brokered ultimatum game; rational decision-making; justice theory; customer behavior; negotiation transaction; distributive injustice; ultimatum price; offers; bids; negotiation, 24071

decision-making process; economic development; regional development agencies; government levels; negotiation; collective decision-making; United Kingdom; Labour policy programme, 13290

egocentric bias; negotiation; settlements; stalemates; interpersonal treatment; fair treatment; interactional justice; resource allocation; decision making; real-life context; gender, 24131

experimental manipulations; theory prediction; dissonance theory; preference change; reactance theory; dynamic valuation, 19113

Face threat sensitivity; roadblock to agreement; joint gain; face; social image; negotiation outcomes, 31547

fairness-primed negotiator; reciprocity violation; negotiator behavior; buyers; co-operative behavior; price negotiations, 14835

family-child judicial dispute; judicial dispute resolution; JDR; pretrial resolution; child welfare; child protection matters; settlement conference; family law; conflict resolution, 14918

flexibility; atypical employment; work organization; regulation; employer; trade union; negotiation; consultation; management; employees; contingent employment; regional differences; Europe, 36258

initial offer; negotiation; offer decisions; best available alternative, 36307

international crises; tension reduction; crisis management; historical data; mediator style; International Crisis Behavior data set; negotiation; agreement, 18048

interpersonal effects; anger; happiness; negotiation; concessions; demands; strategic choice vs social contagion hypothesis; emotional reactions; communicated emotion; fear, 10509

Medibank negotiations; health policy; national health insurance; Medibank health insurance; medical professional; pressure group politics; professional dominance; Australian doctors' lobby, 2583

mental health professional; mental health consultants; hostage negotiation; law enforcement; suicide crisis intervention, 24130

mental models; negotiation; problem solving, 4384

monopolistic markets; seller behavior; buyer behavior; punishment; seller buyer relationship; consumer boycott; Ultimatum Bargaining Game; price taking behavior; consumer solidarity motives, 27149

myopic prediction; self destructive secrecy; unexpected benefits; revealing final deadlines; negotiation; social prediction; time pressure, 31532

negotiating dyadic identity; caregivers; CG; care receivers; CR; care experience, 11846

negotiation behavior; ethicality; demographic factors; cultural factors; gender impact; age impact; economic conditions, 24026

negotiation process; political context; linkage politics; strategic effects; risk; perception; multiple issue politics; behavior misperception, 13359

negotiation; social prediction; predicted outcomes; time pressure; deadlines; dyads; negotiation strategies, 10502

negotiation; type 2 diabetes; problem recognition; mutual acceptance; lifestyle counselling; health behavior, 5487

participation paradox; Vietnamese-Belgian water management project; social learning; local water management; negotiation; power relations, 27182

persuasive arguments; negotiations; conflict resolution; beating around the bush; self-interest, 19119

power; information search; impression formation; negotiation, 25260

sexual behavior; universities; colleges; student perceptions; Antioch College's Consent Policy; sexual consent negotiations, 10303

small and micro enterprises managers; negotiating obstacles; weakness negotiation; management training programmes; managers development, 27048

social exchange; negotiated exchange; reciprocal exchange; procedural justice; collective decision-making; mutual assent, 22312

social motives; interpersonal trust; alternative business partners; problem solving; options; negotiation, 4351

women's strategies; quality of life; multiple sclerosis; MS; negotiation, 4882

Volume 91 SUBJECT INDEX

Neighborhoods—Serials

Negroes [See Blacks]
Neighborhoods—Serials
 adolescent drunkenness; social factors; neighbourhood, 25901
 childhood injury; child behavior; parenting; family functioning; neighborhood characteristics, 31121
 community life; playground conception; urban children; built environment; neighborhoods, 31329
 community social organization; social disorganization theory; behavioral indicators; neighborhood effects; social processes; sense of community; youth outcomes, 964
 environmental attributes; neighborhood walking; environmental factors; prospective relations; perception changes; activity behaviors; behavior relations; gender differences; policy initiatives, 11714
 family income; neighborhood income; youths' well-being; receptive vocabulary; social comparisons; social networks; white children; US; communities; attention-deficit disorder; hyperactivity disorder, 7423
 hard-core drug use; urban Puerto Rican women; high-risk neighborhoods, 25860
 household risks; neighborhood risks; childhood injuries; poverty; deprived neighborhood; household composition; unadjusted risks, 11156
 income inequality; socioeconomic deprivation; family socioeconomic status; socioeconomic indicators; multilevel analyses; health outcomes; relative income; response rate; family level; cohort study, 25132
 interest hostility; Japanese queenless ant; neighbors, 3533
 male to female partner violence; social disorganization theory; social support; neighborhood effect; social isolation; victimization; risk factors, 1623
 neighborhood characteristics; adolescent outcomes; adolescents well-being; psychological adjustment; school problems; parenting behaviors; peer characteristics, 25038
 neighborhood cohesion; parenting practices; hostile maternal parenting; externalizing behavior, 13353
 neighborhood conditions; index of chronic community stress; pregnant women; demoralization; body mass index; social signal transduction; ICCS; household economics, 17266
 neighborhood effects; gender differences; externalizing problems; juvenile delinquency; delinquent behavior; conduct problems; problem behavior; risk factors; girls, 25825
 neighborhood environment; Methamphetamine; Marijuana; illegal drug use; drug trafficking; high school students; epidemiology; social capital, 19696
 neighborhood problems; social support; mastery sense; mental health; physical health, 34641
 neighborhood proportion; single-parent families; mother-adolescent relationships; sexual partners, 28265
 neighborhood spaces; nature; social activity; social contact; trees, 36489
 neighborhood stress; depression; neighborhood disorder; social support; social integration; physical health; mental health, 16113
 personal well-being; neighborhood characteristics; sense of community; neighborhood behavior; adults, 10532
 physical functioning; neighborhood socioeconomic status; perceived neighborhood strain; individual health risk factors, 20433
 place theory; city center; multiphase urban activity; multiphase perspectives; neighborhood; residential evaluation; activities; urban environment, 9221
 public drug dealing; urban environment; quality of life; demographic characteristics; ecological characteristics; visible drug sales; business location; neighborhoods; resident attitudes, 22145
 Rasch model; quantitative methods; demographic characteristics; socioeconomic; neighborhoods, 12525
 residential & family stability; childhood family; midlife; health, 2326
 retaliatory homicide; neighborhood culture; structural determinants; violent crime; socioeconomic correlates; cultural determinants; ecological distribution of homicide, 16519
 social capital; mental health; Netherlands; children; mental service use; neighborhood effects; physical development; family socioeconomic status; informal social control; social cohesion; trust, 5533
 social capital; neighborhood poverty; child mental health; social epidemiology; child behavior problems; preschool children; African American parents; individual well-being; economic impoverishment, 1164
 social capital; social disorganization; neighbourhood characteristics; gender, 22173
 social disorganization theory; methodological deficiencies; community characteristics; neighborhood structure; social control; crime; empirical work, 13704
 strain; violence; strain theory model; community violence; social control; social support, 10346

trustworthiness; service organizations; low-income neighborhoods; government agencies; hospitals; churches, 29703
 urban adolescents perceptions; neighborhoods; spatial dependence; spatial location, 24997
 violence exposure; adjustment; inner-city youth; child emotion; caregiver emotion; caregiver-child relationship quality; neighborhood cohesion; protective factors; emotional regulation, 31873
 white children; black children; neighborhood income; children; race; peers; racial differences; influences; mechanisms, 15920
Neighborhoods—Chapters
 The social ecology of community and neighborhood and risk for antisocial behavior, 22661
NEO Personality Inventory—Serials
 16 Personality Factors; fifth edition; hierarchical structures; NEO Personality Inventory; higher level dimensions, 15032
 clinical assessment; test validity; personality measures; Revised NEO Personality Inventory; NEO-PI-R; MMPI-2; Minnesota Multiphasic Personality Inventory-2; psychodiagnosis, 104
 Eysenck Personality Questionnaire; Zuckerman-Kuhlman Personality Inventory Form; NEO-Personality Inventory; test replicability; test reliability; test validity, 18104
 NEO Five-Factor Inventory; scores; psychometric analysis; factor structure; internal reliability; test-retest reliability, 3169
 NEO Personality Inventory Revised; personality trait structure; Italian translation; psychometric properties; Procrustes rotation; cross cultural differences; test validity; factor structure, 6278
 NEO-Personality Inventory; Myers-Briggs Type Indicator; correlation; subscales, 89
 Revised NEO Personality Inventory; anxiety; angry hostility; depression; self-consciousness; impulsiveness; vulnerability; neuroticism; substance dependent outpatients; self-partner agreement, 30398
 Revised NEO Personality Inventory; NEO-PI-R; job application; positive impression management, 76
 Sternberg-Wagner Thinking Style Inventory; NEO-PI-R; cross-cultural replication; five-factor personality model; personality traits, 30404
 structural equation modeling; male forensic psychiatric patients; test scales; NEO Five Factor Inventory; superordinate factors; Antisocial Personality Questionnaire, 33498
NEO Personality Inventory—Chapters
 The applicability of the Five-Factor model in a sub-Saharan culture: The NEO-PI-R in Shona, 3181
 Applications of the Russian NEO-PI-R, 3179
 The cross-cultural generalizability of the Five-Factor model of personality, 4489
 Five-Factor model and the NEO-PI-R in Turkey, 3174
 The Five-Factor model in the Philippines: Investigating trait structure and levels across cultures, 4482
 The Five-Factor model of personality: Measurement and correlates in the Indian context, 3178
 The NEO Five-Factor Inventory in Czech, Polish, and Slovak contexts, 3176
 NEO-PI-R data from 36 cultures: Further intercultural comparisons, 3180
 Personality and culture: The Portuguese case, 3177
NeoFreudian School [See Neopsychoanalytic School]
Neologisms—Serials
 forensic practice; neologism; absconding; abscondment; forensic practitioners, 24121
Neonatal Development—Serials
 genetic factors; embryonic development; schizophrenia; dermatoglyphics; developmental abnormalities; at risk populations; fingerprints; neurodevelopment; family members, 4614
 gestation period; maternal pre-eclampsia; preterm birth; neonatal morbidity; preterm infants, 21994
 glial fibrillary acidic protein; glutamic acid decarboxylase 65; 67 kDa proteins; brains; neonatal mice; in utero viral infection, 24670
 homo imitans; homo provocans; human imprinting model; neonatal imitation; neonatal initiative capacity, 15973
 hypothalamus-pituitary adrenal axis; newborn stress; atopic disposition; axis hyporeactivity, 28987
 long-term development; behavioral teratogenicity; prenatal nicotine exposure; rats; neonatal development, 21917
 manual cyclical activity; exploratory tool; neonates; haptic texture perception; habituation sequence; infants, 15971
 neonatal chimpanzees; Pan Troglodytes; neonatal facial imitation; innate ability; imitative abilities; human facial gestures; social communicative behavior; evolutionary perspective, 33935
 neonatal factors; maternal factors; premature birth; low birthweight; Australia; risk factors; age; gestational age; gender; ethnicity; Aboriginal; parity; smoking; hypertension; marital status, 16618

Neonatal Period—Serials

neonatal handling; prolactin stress response; female rats; male rats; estrous cycle phases; hormonal changes; behavioral changes, 24766
 neonatal isolation; stress; striatal dopamine levels; rat pups; cocaine; corticosterone; psychostimulants, 21863
 neonatal oxytocin; handling; male reproductive potential; prairie voles; mammalian sexual behavior; sperm production, 24780
 neurological examination; primitive reflexes; healthy term newborns; tendon reflexes; cranial nerves; superficial reflexes; chest & head measurement; muscle strength & tone, 15915
 newborns; visual preferences; face perception; perceptual constraints; visual processing, 13213
 parent touch; preterm infants; prenatal; perinatal; reproductive technology; psychophysiological resilience; parenting, 4080
 perceptual learning; visual modalities; human newborns; visual format; tactual modalities; shape recognition; hand; eyes, 4116
 perinatal changes; brain-derived neurotrophic factor; preterm neonates; fullterm neonates, 21631
 prenatal antidepressant exposure; perinatal outcomes; congenital malformations; early growth & development; tricyclic antidepressants; selective serotonin reuptake inhibitors; methodological issues, 26435
 prenatal antidepressant exposure; perinatal outcomes; congenital malformations; early growth & development; tricyclic antidepressants; selective serotonin reuptake inhibitors; methodological issues, 26430
 prepartum depression; postpartum depression; chronic depression; newborns; neonatal physiology; depression onset, 22487
 selective serotonin reuptake inhibitors; antidepressants; maternal use; pregnancy; gestational age; neonatal withdrawal; prenatal exposure; neurobehavioral effects; newborns, 35495
Neonatal Disorders [See Also Cleft Palate, Downs Syndrome, Klinefelter Syndrome, Phenylketonuria, Turners Syndrome]—Serials
 anticonvulsant treatment; neonatal seizures; benzodiazepines, 29461
 neonatal Borna disease virus; neurobehavioral consequences; postnatal weight gain inhibition; rats, 6875
 neurotrophic effects; neurotoxic action; zinc exposure; neonatal cortical neuron; rat; necrotic neuronal death; apoptotic neuronal death; zinc deficiency; chelatable zinc, 9824
Neonatal Period—Serials
 cellular physiology; neonatal rat; cerebral cortex; neurogenesis; neuronal migration; cellular differentiation; programmed cell death, 6937
 charge syndrome; bilateral coloboma; microcephaly; brain malformation; tracheotomy; prognostic factors; hearing loss, 8292
 developmental neurotoxicity; nuclear transcription factors; neurotoxic effects; forebrain neurons; neonatal period; cell damage; chlorpyrifos; toxicogenomics; brain development; c-fos; mRNA; p53, 3621
 epidermal growth factor; neonatal rats; EGF receptor signaling; neurobehavioral effects; adult social development; cognitive development; motor impairment; sensorimotor gating; tyrosine hydroxylase, 12772
 exploratory behavior; Muscimol; developing rats; spatial open field test; wall-rearing; rearing, 3707
 functional brain maturation; preterm infants; sleep behavior; EEG-sleep behavior; fullterm infants; physiologic differences; neonates, 15573
 infant caregiving; parental participation, 17399
 lamotrigine; epilepsy; breast feeding; glucuronidation; neonates, 14277
 locus coeruleus; neonatal handling; cells; rats; neuroanatomy; behavior; stress responses, 592
 maternal infection; brain derived neurotrophic factor; nerve growth factor; expression; fetal brain; neonatal brain; maternal fetal unit; pregnancy; neurodevelopmental disorders; rats, 15435
 megakaryocyte progenitors; preterm neonates; post conceptional age; megakaryocytopoiesis, 35210
 neonatal amygdala lesions; neurotensin; brain; schizophrenia; rats, 21546
 Neonatal handling; feeding behavior; adult rats; tactile stimulation, 18700
 neonatal isolation; cocaine self-administration; food responding; rats; operant responding; gender differences, 30770
 neonatal period; human development, 34237
 pathological manifestations; neonatal hyperbilirubinemia; seasonal pattern; oxidative damage; neonatal period; phototherapy; newborn infant; serum bilirubin level, 23309
 persistent ductus arteriosus; preterm infants; low birth weight; neonates; diastolic left ventricular function, 28058

scopolamine; ultrasonic vocalization emission; neonatal mouse; spontaneous behavior, 30964
somatosensory evoked potentials; magnetic fields; tactile stimulation; active sleep; quiet sleep; newborns, 28080
temperature differences; full-term neonates; preterm neonates; brain dysmaturation; sleep state; post-conceptual ages; healthy preterm neonates, 4083

Neonatal Period—Chapters

Arousal modulation of neonatal visual attention: Implications for development, 22051

Neonates (Animal) [See **Infants (Animal)**]

Neonaticide [See **Infanticide**]

Neophobia—Serials

cortical noradrenergic neurotransmission; neophobia; impaired spatial memory; aged rats; memory tasks, 27721
food neophobia; cephalic phase salivary response; bodily priming; saliva flow, 12943

food neophobia; cultural diversity; socio-economic status; rural adolescents; urban adolescents, 4131

food neophobia; food consumption; preschool aged children; feeding practice; eating behavior, 13150

memory trace; conditioned taste aversion; neophobia; taste memory; muscarinic receptor; novelty; scopolamine; insular cortex; rats, 724

parental food choices; child food neophobia, 34903

Neoplasms [See Also **Benign Neoplasms**, **Breast Neoplasms**, **Leukemias**, **Terminal Cancer**]—Serials

acute pain; chronic pain management; advanced cancer; acute dosing; titration; analgesia, 14258

adult cancer patients; Cancer Care Monitor; symptom screening; quality of life; computer administered system; validity; reliability, 12512

adulthood loss; colorectal cancer; stomas; bowel control; adult identity; health professionals; carers, 35237

advanced cancer; alternative treatments; client beliefs; cancer curability; will to live; quality of life, 13898

affective experience; autobiographical poetry; parental cancer; expressive arts research; qualitative research; poems as narratives, 32127

affective experience; autobiographical poetry; parental cancer; expressive arts research; qualitative research; poems as narratives; father son relationship, 32131

ambulatory cancer patients; impaired capacity; risk; decision-making capacity; informed consent; consent to research; judgment; patient characteristics, 8178

anti-tumor necrosis factor- α ; etanercept; treatment-refractory pain; lung cancer; breast cancer; bone metastasis; spinal metastasis; osteoclasts; neuropathic pain, 8646

antidepressants; carcinogenesis; cancer; tumors, 5350

aromatherapy; cancer; research methodology; palliative care; psychological distress; cancer; aromatherapy massage, 15161

art therapy; bone marrow transplant; psychosocial intervention; life-threatening illness; myelofibrosis treatment; therapeutic process; patient history; alcohol abuse, 8580

atonic seizures; childhood epilepsy syndromes; childhood cancer; chemotherapy; cranial irradiation, 8180

attention impairments; cranial irradiation; chemotherapy; childhood cancers; information processing skills, 32531

attentional bias; acute insomnia; persistent insomnia; cancer; sleep onset, 4540

betel chewing; schizophrenia; developing countries; betel use; oro-pharyngeal carcinoma, 10437

bilingual patient; positron emission tomography; language mapping; left posterior temporal cavernous angioma, 583

breast cancer; life experiences; cancer survivors; ethnic diversity; socioeconomic status; quality of life, 29058

breast cancer; prostate cancer; internet site; information needs; health information; information reliability; patient expectation, 29660

breathlessness clinics; lung cancer; palliative care; quality of life; dyspnea; breathlessness, 8621

brief group intervention; cancer patients; feasibility, 5404

brief intervention program; counseling; cancer patients; spouses; inequity feelings; relationship quality; psychological distress; social support, 26475

bupropion sustained release; fatigue symptoms; cancer patients, 35623

cancer children fatigue; parents; fatigue instruments; instrument development; content validation; psychometric properties; child cancer patients, 3226

cancer clinical trial; quality of life questionnaires; patient trial experience; psychological impact; emotional impact; social impact; life threatening disease, 3224

cancer clinical trials; health care services; treatment strategies; cancer research; patient participation, 22875

cancer diagnosis disclosure; Thai patients; radiotherapy treated patients; information revelation; diagnosis knowledge, 11204

cancer diagnosis; family members; phone calls; uncertainty; treatment; diagnosis, 19041

cancer diagnosis; health behavior; lifestyle behaviors; smoking; dietary habits; exercise; adult cancer survivors, 16691

cancer diagnosis; patient preferences; prognosis; family, 13902

cancer incidence; cancer clinical trials; racial disparities; gender; ethnic disparities; age; breast cancer; colon cancer; lung cancer; prostate cancer; therapeutic trials; trial participation, 24347

cancer information services; living arrangements; living alone; emotional support, 29591

cancer information; awareness; Asian Americans, 17241

cancer knowledge; prompted recall; unprompted recall; public knowledge; warning signs; risk factors; recognition; breast cancer; bowel cancer; demographic differences, 32609

cancer narratives; cancer support group; biographical work, 5406

cancer pain management; pain education program; primary caregivers; pain intensity; pain relief; pain improvement, 5405

cancer pain; pain management; prescribing; opioid analgesics; legislation; Italy, 17152

cancer patients; bowel cancer; treatment; decision-making, 22884

cancer patients; ill children; uncertainty; ordinary life; psychological adjustment; illness course, 16705

cancer patients; multiple sclerosis patients; loneliness, 25486

cancer patients; outpatient clinics; care efficiency; psychosocial problems; caregivers; psychosocial screening; screening instrument development, 30461

cancer patients; palliative medicine program; cancer diagnosis communication; patients' perceptions; satisfaction; information imparting, 5466

cancer patients; psychological factors; personality; self-hypnosis; support group; psychological interventions; immunity, 2264

cancer prevention interventions; social contextual factors; working class; multiethnic populations; health behavior interventions, 4941

cancer prevention; health promotion; community health services, 20563

cancer referral; general practitioner perception; wait rule, 29904

cancer screening; diagnosis; colorectal cancer; experiences; UK Flexible Sigmoidoscopy Trial, 11203

cancer support service; Hope & Cope; breast cancer; colon cancer; psychosocial distress; functional well being; optimism; needs; social support organizations, 5604

cancer survival; mortality salience; death salience; social bonds; dying salience, 19915

cancer symptom management; pain; depression; fatigue; National Institutes of Health, 1339

cancer treatment; quality of life; head cancer; neck cancer; health-related quality of life; HRQOL questionnaires; QOL assessment, 11643

cancer, 32128

cancer; family history; relatives; risk perceptions, 16299

cancer; mental disorders; community-dwelling adults; comorbidity; sociodemographic characteristics, 25468

cancer; patient characteristics; smoking cessation program; quit motivation; program development; tobacco control programs, 26740

cancer; specialist services; diagnosis; primary care, 29068

cancer; threat perceptions; objective events; distress; perceived life threat; psychological adjustment; disease prognosis; intrusive thoughts; avoidance; posttraumatic stress disorder, 29070

cancers news; cancer education; culturally competent approach; inner city community; ethnic minorities; socioeconomically disenfranchised communities; health problems; cancer, 35690

carcinoid syndrome; psychiatric symptoms; tryptophan metabolism; aggressive impulse dysregulation, 26061

cardiorespiratory fitness effects; obesity effects; cancer mortality; obesity; cardiorespiratory fitness; gender, 22876

cardiovascular diseases; antiemotionality personality scale; cancer; ischemic heart disease; stroke mortality; rationality, 18110

care burden; childhood cancer; parents experiences; psychosocial needs; Singapore; Asian families, 8181

care delivery needs; support needs; unmet information; localized prostate cancer; needs assessment; men, 23485

causes of loneliness; terminal illness; multiple sclerosis; cancer; sex differences, 11168

central hearing loss; inferior colliculus; bilateral lesion; central nervous system lymphoma; word recognition, 16865

cervical cancer; human papillomavirus; biobehavioral factors; psychosocial research; psychosocial issues; primary prevention; public awareness; human papillomavirus infection, 11174

cervical screening; healthcare practices; healthcare policy, 35769

chemotherapy-induced alopecia; treatment side-effects; hair loss; patient attitudes; coping behavior, 35650

child cancer; parents coping; home health care work; experiences; needs, 11851

childhood cancer; family; coping behavior; quality of life; health, 29075

childhood cancer; survivors; quality of life; parental regulatory focus; regulatory focus theory; prevention focused parenting; overprotective parents, 11195

childhood survivors; adolescent cancer; adolescent survivors; second neoplasms; childhood cancer, 22878

chlorinated drinking water; cancer; chlorinated disinfection byproducts; CDBPs; Canadian print media; public health; metaphors; cancer risk; risk perception, 15886

clinical pain management; acute pain; chronic pain; cancer pain, 5394

clinical treatment research; older African Americans; whites; health services utilisation; race differences; behavioral intention; older persons; fatalist cancer beliefs, 22116

clonazepam; analgesic drugs; cancer-related neuropathic pain; pain control; opioid therapy; drug side-effects; drug dosages, 14267

colorectal cancer knowledge; cancer attitudes; behavioral intentions; detection behaviors; United Kingdom; CRC screening; public attitudes; early detection, 11202

colorectal cancer prevention; African Americans; preventive behavior; church member outreach; prevention information; lay advisor, 35684

colorectal cancer; primary health care; diagnosis; cancer screening; guidelines, 29065

communication; psychosocial oncology; cancer; interactional research; self-reports; experiences; cancer patients; family members; health professionals; conversation; family interaction; treatment, 11190

community cancer care; psychosocial support; radiation oncology; psychosocial assessment, 9414

comorbidity; prognostic information; cancers; prediction, 26058

complementary and alternative medicine; oncology; patient response; psychosocial oncology; cancer, 11197

computer based cancer risk communication; risk perception; colorectal cancer prevention; risk communication aid; tool effectiveness, 35233

computerized PAINReport; report usability; completion time; report acceptability; information completeness; pain assessment; general public; pain; cancer patients; cancer pain, 3155

coping behavior; colorectal cancer; risk perception; worry; health behavior; survivors; behavior change, 29073

coping style; mood disturbance; emotional suppression; cancer patients; fighting spirit; support groups, 5401

culture; Spanish speaking; pituitary adenoma; communication; self-presentation; doctor patient relationship; treatment; poor continuity; preventative screening, 1818

decision making; hospice patients; terminal illness; patient perspective; lung cancer, 17364

deficiencies in communication; health care professionals; cancer patients; psychological adjustment; reasons for deficiencies; communication skills training; specialist cancer nurses, 5438

dementia care; cancer care; ill cancer patients; dementia patients; support groups; family support; respite care, 17536

depressed patients; clinical global impression-severity; psychopharmacological data; major depressive disorder; paroxetine; haematological malignancy; depression, 14171

depression screening; head cancer; neck cancer; radiation, 19913

depression; anxiety; cancer patients; medical decision-making, 8182

depression; anxiety; symptoms; perceived partner criticism; perceived partner avoidance; prediction; pediatric hemopoietic stem cell transplantation; mothers; maternal anxiety; distress; coping, 2310

depression; pancreatic cancer; epidemiology; insurance claims, 1414

depressive symptoms; cancer patients; medical factors; sociodemographic factors; cancer diagnosis; risk factors, 4940

depressive symptoms; social support; cancer patients; self-esteem; Netherlands, 1819

developing countries; limited resources; pain management; cancer pain; postoperative pain; morphine consumption; western medicine; eastern traditions; palliative care; medical personnel training, 17202

distress; behavior outcomes; cancer patients; curative treatment, 32566

distress; demographic & medical & family history & loss variables; genetic testing; colorectal cancer patients, 4932

- distress; standards; screening; clinical screening programs; computerized quality of life screening; screening instruments; models; economic costs; psychosocial oncology, 5400
- dyadic intervention; social support; depression; prostate cancer; males, 14078
- educational intervention; cancer pain management; ambulatory settings; nurse-administered intervention; intervention effectiveness; patient education strategies, 32571
- emotional distress; quality of life; symptoms; testicular cancer patients; chemotherapy, 11206
- epilepsy; children; cortical development; facial hemangioma; cerebral corticovascular dysplasia, 13913
- ethical standards; ethics; febrile neutropenia; cancer patients, 24353
- ethnicity; health information use; cancer patients; complementary and alternative medicine; educational level; ethnic differences, 22880
- exercise motivation; cancer survivors; exercise program adherence, 19909
- facial pain; lung carcinoma; symptoms; tumor invasion; vagus nerve; pulmonary carcinoma; at risk population, 22872
- familial cancer; developmental dyslexia; platelet-activating factor; aetiology; cell damage; tumorigenesis, 28939
- familial hemiplegic migraine; azathioprine; multiple sclerosis; cancer risk, 29488
- familial hemiplegic migraine; azathioprine; multiple sclerosis; cancer risk, 29495
- family communication patterns; family scripts; breast cancer; ovarian cancer; family history; genetics, 26098
- fatigue; cancer; perceptions; quality of life; patients; caregivers; healthcare professionals, 16706
- fecal occult blood test; colorectal cancer screening; self-report accuracy; carpenters, 13900
- frontal brain; Wisconsin Card Sorting Test; brain tumor lesions; executive dysfunction, 18154
- functional assessment of cancer therapy; quality of life; biological response modifier; renal cell carcinoma; test validity; scale development, 27259
- gene polymorphism; tumor necrosis; bipolar I disorder; genotype; allele distribution, 16412
- genetic association; tumor necrosis factor receptor II 196R; Japanese sporadic Alzheimer's disease; pro-inflammatory cytokine, 20056
- group interventions; cancer patients; HIV disease; medical outcomes; disease outcomes; immune activity; survival rates, 35613
- group interventions; health services; phases of illness; influences of group treatment effects; cancer; HIV, 29458
- hand preference; allergy; juvenile cancer; schizophrenia; hand activities, 34780
- health beliefs; survivor interest; childhood cancer; screening; tobacco-control procedures; nicotine addiction susceptibility; psychosocial modifying & readiness factors; children's health belief model, 26104
- health care; attitudes; cancer; cancer patients; parents; healthy peers; health care personnel, 16707
- health professionals; rater agreement; informal caregivers; QOL; women; proxy ratings; self ratings; gynecological cancer; quality of life assessment; patient ratings, 1814
- health-related quality of life; functional status; symptom distress; high-dose chemotherapy; malignant diseases; stem cell transplantation, 16703
- health-related quality of life; men; prostate cancer; cancer diagnosis; psychosocial factors; prostate hyperplasia patients, 22371
- health-related quality of life; strategies; good mood; distress; carcinoid tumors; health personnel; cancer patients, 16704

- motion perception disorders; depth perception disorders; Akinetopsia; motion-perception deficit; cortical motion processing area; MT; brain lesions; neurologic diseases, 11314
- motor impairment; myocardial uptake; Parkinson's disease; disease severity; myocardial dysfunction, 16767
- motor neuron disease patients; developing user involvement; interprofessional services planning; community development; research interviews; service quality reforms; virtual user forum, 35372
- motor speech disorders; acoustic typology; speech subsystems; speech characteristics; acoustic profiles; dysarthria; apraxia; neurologic diseases; voice quality; intelligibility; prosody, 1332
- N-methyl-D-aspartate; NMDA; allodynia; hyperalgesia; neuropathic pain; NMDA receptor antagonist ketamine; alfentanil; placebo; pain, 14272
- neurocysticercosis; human female; bilateral papilledema; neck stiffness; psychomotor retardation; cysts; albendazole; prednisone; headache; nausea, 13994
- neurodegeneration; neurotrophic factor signaling; signaling pathway; neuron growth; neuron maintenance; Down syndrome, 21682
- neurodegenerative disease; diagnosis; children; anosognosia by proxy; central nervous system; dementia; neuropsychological & neurological functioning; caregivers, 8224
- neurological impairment; central nervous system infections; child development; childhood infections; neurocognitive impairment, 13929
- neurology; psychiatry; neurological disorders; psychiatric disorders; drug therapy information, 5259
- neuropathic pain; opioid alkaloids; drug side effects; pain management; pain remedy; nerve injury pain, 14308
- neuropathic pain; pathophysiological mechanisms; central nervous system mechanisms; peripheral mechanisms; treatment choices, 17199
- neuropathic pain; pathophysiological mechanisms; symptomatology; pain assessment; chronic pain; pain disorder classification; etiology, 16607
- neuropathic pain; pathophysiology; pain therapies; treatment; drugs; tricyclic antidepressants; anticonvulsants, 17159
- neuropathy; diabetes mellitus; DM; impaired glucose tolerance; IGT, 4893
- neuropsychiatric illness; Cobalamin G disease; vitamin B metabolism; methionine synthase deficiency; impulsive behavior; aggressive behavior; inherited disorder, 22949
- neurotoxicity; HIV-infected patients; antiretroviral toxic neuropathy; viral suppression strategies; neuronal mitochondrial depolarization; FK806 immunophilin ligand; neuroprotective effect; rats, 3659
- nonevoked facial pain; infraorbital nerve injury; face-grooming behavior; neuropathic pain; rats; chronic constriction injury, 27689
- normal developmental histories; adult onset intractable epilepsy; head trauma; atypical speech lateralization; cerebral infection, 13545
- number processing; basal ganglia dysfunction; Fahr's disease; cognitive decline; frontal dysfunction, 22924
- oculomotor disorders; downbeat nystagmus; upbeat nystagmus; seesaw nystagmus; periodic alternating nystagmus; acquired pendular nystagmus; saccadic oscillations, 29230
- pathogenic contribution; therapeutic potential; adenosine receptor-mediated mechanisms; Parkinson's disease; levodopa-induced motor complications, 8606
- pathophysiology; complex regional pain syndrome; diabetic peripheral neuropathic pain; spinal cord injury; alpha-1 adrenoceptor, 26068

Patient Distress Scale questionnaire; factor structure; internal consistency; emotional disturbances; awareness; test reliability; acute neurological patients, 186

pediatric autoimmune neuropsychiatric disorders; streptococcal infections; childhood obsessive-compulsive disorder; neurological abnormalities; tics; etiology; diagnosis, 34779

perceptual awareness; neural correlates; neurological disorders; conscious experience; model; distributed neural network; cognitive function, 22922

postnatal neurodevelopmental disorders; synaptic plasticity; synapse; Rett syndrome; autism, 8063

pseudoneurological symptoms; assessment; psychopathology; primary care; somatization; symptom severity; physical functioning; psychiatric comorbidity; cognitive-behavior therapy; anxiety; depression, 16360

psychiatric disorders; drug therapy; neurological disorders; psychiatric disorders; neurology; psychiatry, 14031

psychiatric disorders; neurologic disease; neurology clinic referrals; prevalence; impact; symptom explanation, 31662

psychological distress; conversion disorder; somatization; physical symptoms; mood disorder; central nervous system; neurologic malfunction, 35191

psychophysiology; psychosis; quality of life; cognitive disorders; psychiatric disorders; multiple sclerosis; speech disorders; dementia; scientific communication, 31650

quantitative sensory testing; clinical utility; efficacy; safety; sensory thresholds; neuropathy, 13999

restless legs syndrome; periodic limb movement disorder; neurological disorder; sleep disturbances; older adults; diagnosis, 26144

S-100 protein subunit B; glial fibrillary acidic protein; neuron-specific enolase; myelin basic protein; cerebrospinal fluid; neurological disorders; cerebrospinal fluid; blood; brain damage, 8267

sensory neuropathy; acquired immunodeficiency syndrome; human immunodeficiency virus; antiretroviral medication; alcohol abuse; risk factors; HIV/AIDS, 29045

serotonin syndrome; serotonergic agonist medications; noradrenaline; homovanillic acid; cerebrospinal fluid, 2200

spinal glia; proinflammatory cytokines; sciatic inflammatory neuropathy; allodynia; neuropathic pain; rats; kinases; cytokines; animal model, 21642

spinal morphine; supraspinal; neuropathic rat; spinal nerve; pain, 13061

substance P; chronic constriction injury; mechanical hypersensitivity; neuropathic pain model; spinal NK-1 mechanisms; gerbils, 658

suicide; neurological disorders; cognitive impairments; multiple sclerosis; suicide potential; mood disorder; highest risk; risk factors, 16757

telephone dialer; motor impaired; non verbal persons; motor impairment; telephone; voice synthesizer; non verbal users, 19850

thalidomide; side effects; sensory neuropathy; multiple myeloma; sensory ganglionopathy; electrophysiology, 29477

transcranial magnetic stimulation; hereditary spastic paraparesis; chromosomes; spastin mutations; paraplegin mutations; motor evoked potentials; cortical excitability; family members, 8153

Victoria Symptom Validity Test scores; profound memory impairment; nonlittigants; neurological illness; dense anterograde amnesia; test sensitivity, 6327

visual dysfunction; neurodegenerative diseases; aging; aging process impact; aging-related eye diseases; aging-related visual problems; visual manifestations; Parkinson disease; Alzheimer disease, 11312

Nervous System Disorders [See Also Autonomic Nervous System Disorders, Central Nervous System Disorders, Convulsions, Hyperkinesia, Movement Disorders, Neurodegenerative Diseases, Neuromuscular Disorders, Peripheral Nerve Disorders, Sclerosis (Nervous System)]—Books

The cognitive and neural bases of spatial neglect, 23022

Nervous System Disorders [See Also Autonomic Nervous System Disorders, Central Nervous System Disorders, Convulsions, Hyperkinesia, Movement Disorders, Neurodegenerative Diseases, Neuromuscular Disorders, Peripheral Nerve Disorders, Sclerosis (Nervous System)]—Chapters

Consideration of neuropsychological factors in interviewing, 198

Music and the neurologist: A historical perspective, 8329

Neurologic aspects of prion diseases and frontotemporal dementias, 1887

Neurological illnesses, 8331

a-synuclein pathology: Past, present, and future, 15456

Transgenic models of

Nervous System Plasticity [See Neural Plasticity]

Nervousness—Serials

autonomic reactivity; public speaking; nervousness; task engagement, 24764

confidence; nervousness; witness; self-efficacy; witness preparation training; cross examination; testimony; defendants, 21046

speech anxiety; public speaking; social anxiety; public speech; nervousness; illusion of transparency; social perception, 4404

Nest Building—Serials

ants; colonies; emigration; nest site superiority, 24582

breeding site; nestling paternity; Hooded Warblers; territory fidelity; mating; Pennsylvania; mate fidelity, 15403

centrifugal waste disposal; ant nest craters optimization; nest excavations, 24585

chimpanzees; nesting behavior; galago; resting; galago thomasi; pan troglodytes schweinfurthii, 18498

male parental care; Greater Rhea; Argentina; nest attention; eggs; egg predation; incubation; precocial bird; uniparental care; vigilance, 15390

male starlings; green nest material; nestling; mate attraction, 18471

nest predators; predatory behavior; nesting birds; flying squirrels; canopy nests; artificial nests, 6693

nest repair; cooperative brood care; eusocial animals; social aphid, 24596

nest-site fidelity; Eastern Bluebirds; nesting location; ectoparasitism costs; Sialia sialis, 6745

predation risk; nest sites; Kentish plovers; incubating adults; microclimate; Charadrius alexandrinus, 18469

vocal signature; acoustic recognition; macaroni penguins; breeding ecology; nests; Eudyptes; Chelidonichthys; individual identity, 21483

Networks (Social) [See Social Networks]

Neural Development—Serials

adult hippocampal neurogenesis; cellular plasticity; major depression; etiology; neurons; hippocampus, 1426

anatomical effects; spatial navigation; recovery; cortical lesions; temporal lobe; neural maturation; age differences; rats; early cortical injuries, 584

antisocial disorders; orbitofrontal cortex; brain lesions; neurocognitive elements; brain development, 25845

attention-deficit/hyperactivity disorder; prefrontal cortex; rodents; animal models; pathophysiology; cerebral lateralization; early development; risk factors, 6816

auditory evoked potentials; AEP maturation; T-complex; children; adolescents; young adults; latency; amplitude, 15919

auditory evoked responses; fetal magnetencephalography; latency development; fetal brain development, 34093

axonal chemorepellent semaphorin 3A; cerebellum; schizophrenia patients; synaptic pathology; cerebellum; synaptic connectivity, 13625

axonal projections; olfactory epithelium; olfactory bulb; glomeruli; expressed odorant receptor; gene-targeted mice; glomerular maturation; sensory input, 27808

behavioral neurogenetics; fragile X syndrome; gene-brain-behavior relationships; child development, 11167

brain activity; childhood developmental trends; white matter maturation; grey matter activity; frontal regions; parietal regions; working memory task; myelination; axon thickness, 10145

brain-derived neurotrophic factor gene; schizophrenia patients; polymorphism; pathophysiology, 7904

brain; vertebrates' behavior; nervous systems; cognition; neural organization; cellular architecture; morphology, 21633

cell migration; forebrain; mammalian brain; radial migration; tangential migration; cellular complexity; forebrain development; pathology, 6942

connexin expression; glial cells; developing rhombomeres; Xenopus laevis; proteins, 33983

copper zinc manganese superoxide dismutase activity; modulatory effect; estradiol benzoate; developing rat brain, 21893

cortical development; cell cycle; rats; cerebrospinal fluid; hydrocephaly; abnormal development; brain development, 21506

cortical malformation; human brain mapping; functional neuroimaging; cortical development; epilepsy, 11236

Cuscuta chinensis glycoside; neuronal differentiation; rats; pheochromocytoma PC12 cells; kinases; PD98,059; acetylcholinesterase; herbal medicines, 732

degeneracy; redundancy; cognitive anatomy; neuroscience; neurodevelopment, 15502

delayed cerebral maturation; hemisphere asymmetry; regional differences; stuttering; brain regions, 26014

developmental changes; neuronal networks; brain development; developmental neuroimaging; brain cells; children, 15904

dopamine; lateral ganglionic eminence; embryonic brain; brain development; neostriatal neurogenesis; cell cycle, 21888

dynamitin III mRNA; rats; hypothyroidism; transcripts; brain; neural development; central nervous system, 548

Dyrk1A; protein kinase; physiological role; motor activity regulation; motor profile; neuromotor development; motor function; haploinsufficiency; mice, 30847

early postnatal life; neuronal circuits; brain plasticity; brain regions; critical period mechanism, 12843

environmental stimulation; preschool children; sociocultural disadvantage; developmental lag; electroencephalography; central nervous system maturation; psychosocial risk, 13159

epidermal growth factor; neonatal rats; EGF receptor signaling; neurobehavioral effects; adult social development; cognitive development; motor impairment; sensorimotor gating; tyrosine hydroxylase, 12772

ethanol withdrawal; dendritic development; ethanol exposure; exposure duration; developmental stages; neurons survival; hippocampal neurons; rats, 18763

eyeblink conditioning; neural mechanisms; neurophysiology; brain development; rats, 33922

fetal behavior; central nervous system development; brain functioning; neural functions; abnormal development; endogenous malfunctions; maternal diseases, 7373

fetal habituation; functional brain development; gestation; vibroacoustic stimulation, 33988

fetal neurobehavioral development; population comparisons; fetal heart rate; fetal movement; low risk pregnancies; Baltimore; Peru, 18892

functional brain maturation; preterm infants; sleep behavior; EEG-sleep behavior; full-term infants; physiologic differences; neonates, 15573

gamma-aminobutyric acid; GABA; visual cortex; plasticity; brain development; neuronal network; mice, 21828

gene expression; brain development; enzymes; mammalian neural development; heparan sulfate; proteoglycans; mouse; biological processes; glucuronic acid; hippocampus; cerebellum, 21602

genetic disruption; cortical interneuron development; epilepsy; behavioral dysfunction; cell migration; cell differentiation; brain development; GABA cell deficits, 12792

glycine; single central synaptic terminals; postnatal development; lateral superior olive; synapse; miniature inhibitory postsynaptic currents; rats; postnatal development, 15555

gyral complexity; first-episode schizophrenia; neurodevelopmental processes, 28731

heart rate; preschool children; posttraumatic stress disorder; PTSD; trauma; neurodevelopmental changes, 19555

heparan sulfate; morphogen signaling; midline axon guidance; mammalian brain development; mice, 6912

hippocampal abnormalities; functional asymmetry; unsuccessful psychopaths; neurodevelopmental abnormality, 10863

hippocampal neurogenesis enhancement; running wheel exercise; NMDA receptor epsilon 1 subunit; wild-type mice; brain derived neurotrophic factor; environmental stimuli, 12853

hippocampus; stress; depression; atrophy; cell loss; limbic brain structures; etiology of depression; treatment of depression; neurogenesis; antidepressant treatment, 31729

homosexual men; heterosexual men; neurocognitive performance; human sex differences; cognitive abilities; developmental stress; human sex differences; developmental intelligence; environment, 13202

human brain functions; postnatal brain development; brain development process; infants; children; developmental disorders; skill learning, 7358

integrins; cerebral cortex; neural development, 21683

intracellular signaling factors; lead; Sp1 DNA-binding; hippocampus; PKC; mitogen-activated protein kinase; rats; pheochromocytoma cells; nerve-growth factor; staurosporine; PD 98,059, 549

intracellular connections; receptor blockade; layers II/III; glutamate receptor antagonist; postnatal development; cortical activity; barrel cortex, 3620

learning-disabled brains; learning disabilities; neurophysiological correlates; brain morphology; development, 4785

learning; memory; neuroscience; adult neurogenesis; mammalian brain; brain injury; brain cells; proliferation; environmental factors, 9879

locomotion; vertebrate nervous system development; swimming; aquatic animals; neuron activity; noradrenaline; tadpoles, 15546

low frequency magnetic fields; cells; transitional states; serotonergic synaptic growth; postnatal development; cerebellar cortex; pineal gland; rats, 553

maternal tactile stimulation; neurodevelopment; low birth weight infants; caregiving behavior; visual-motor skills; motor development; neurosensory deficits, 22009

maximum voluntary contraction; age differences; isometric force; feedback-based control; neural maturation; manual dexterity; sensorimotor control; corticospinal tract; performance, 15702

mosquito repellents; pyrethroids; blood-brain barrier; rat brain; early developmental stages; neurotoxicity, 34179

motility recovery; regeneration; freshwater planarians; central nervous system, 21611

N-methyl-D-aspartate receptors; neuronal activity; synapse formation; ifenprodil; cerebral neurons; nervous system, 34036

neonatal brain damage; non protein bound iron; pathophysiological mechanisms; brain injury; foetal oxidative stress; neurodevelopmental outcome; free radicals; at risk populations, 22915

nerve growth factor; MC14; sargaquinoic acid; neural differentiation; PC12D cells; SC-3010; chelerythrine chloride; PD98,059; kinases; inhibitors; neurite growth; signalling pathways, 581

neurite outgrowth; disrupted-in-schizophrenia gene; fasciculation protein zeta; translocation, 12789

neurodevelopmental hypothesis; schizophrenia; early life; psychosis, 4639

neurodevelopmental influences; prodrome; schizophrenia; genes; environment; perinatal period; prenatal period; adolescent period; etiology; pathophysiology; genetic high-risk; onset, 19430

neurogenesis; depression; antidepressants; transcranial magnetic stimulation; regulation of neurogenesis, 31737

neurological examination; primitive reflexes; healthy term newborns; tendon reflexes; cranial nerves; superficial reflexes; chest & head measurement; muscle strength & tone, 15915

neurotrophins; postnatal development; rat skeletal muscles; neuromuscular system; glial cell line-derived neurotrophic factor; GDNF; GDNF expression; rat gastrocnemius; soleus muscles, 3687

nicotine exposure; cholinergic systems; maternal smoking; pregnancy; prenatal exposure; brain development; nicotinic cholinergic receptors; rats, 24774

nicotinic receptor activation; auditory cortical development; postnatal development; nicotinic acetylcholine receptors; glutamate synapses; rats, 602

ornithine decarboxylase; cerebellum; knockout; alpha difluoromethylornithine; polyamine depletion; nicotinic cholinergic receptor upregulation; neural development; macromolecular changes; rats, 7257

pediatric specialist; neurodevelopmental diagnostic services; parental perceptions; neurodevelopmental disorders, 35738

perforant path synaptic strength; hippocampus; early eyelid opening; synaptic transmission; neural development; spontaneous alternation; rats, 30845

plasticity; development; language; atypical children; brain development; behavioral development; infants; toddlers; neurodevelopment; communication disorders; at risk children, 13160

plasticity; neurodevelopment; language disorders; interventions; childhood development; adults; brain injury, 13849

polar morphology; embryonic motoneurons; ipsilateral dendrites; axon morphology; genetic suppression; motor axons, 34077

postnatal development; serotonin receptors; brainstem motoneurons; receptors subtypes; rats, 21712

premature delivery; diabetic mothers; pregnancy; cognitive development; brain development; infant development, 10209

prenatal infection; schizophrenia; cytokines; neuron development; interleukin; tumor necrosis factor; dendritic development; cortical neurons, 27735

presynaptic proteins; prefrontal cortex; schizophrenia; rats; abnormal prefrontal development; immunoreactivity; synapse-associated proteins, 13629

proton magnetic resonance spectroscopy; band heterotopia; cortical developmental malformations; cortical dysplasia; biochemical properties, 16802

Reelin signaling pathway; central nervous system development; receptor binding; signal activation; Dab1 phosphorylation; genomic organization; splicing; promoter use; Dab1 gene; hybridization, 15440

schizophrenia prodrome; neurodevelopmental model; biological vulnerability; early intervention; positive and negative symptoms; psychosis; risk factor; Recognition and Prevention Program; drug therapy, 20304

schizophrenia; etiology; neurodevelopmental hypothesis; biological causes; genetics; obstetric complications; cognitive & neuromotor abnormalities; drug abuse; ethnicity; migration; risk factors, 7864

schizophrenia; preneurological soft signs; dermatoglyphic anomalies; monozygotic twins; neural development, 28718

spatial learning; voluntary exercise; hippocampus; neurogenesis; wheel running; motor behavior; selectively-bred mice; maze learning, 617

spatial learning; voluntary exercise; hippocampus; neurogenesis; wheel running; motor behavior; selectively-bred mice; maze learning, 18551

spatiotemporal distribution; rhythmic motor patterns; embryonic rat spinal cord; medullary circuits; neuropharmacological control; neural development; ontogeny, 21673

structural central neural damage; long-term neurobehavioral deficits; L-cysteine; neonatal mice; hypoglycemia; brain; spatial memory; hippocampal-related behavior; neurotoxicity; histological damage, 723

substantia nigra pars reticulata; sex differences; anterior; posterior; age differences; alpha I subunit mRNA; GABA type A receptor; immunoreactivity; rats, 615

temperature differences; fullterm neonates; preterm neonates; brain maturity; sleep state; post-conceptual ages; healthy preterm neonates, 4083

testosterone propionate; facial motoneurons; temporal effects window; facial paralysis; facial nerve injury; hamster facial nerve; nerve regeneration; neurotherapeutic action, 27945

testosterone; neuromuscular system development; animal courtship; animal copulation; dewlap; hemipenes; masculinization; green anole lizards, 27916

thalamocortical development; thalamic axons; gene expression; mutant mice, 15447

thyroid hormones; genes; hippocampal circuits; nuclear hormone receptor isoforms; mutant mice; brain development; fear conditioning; open field behavior, 13006

tonotopic map formation; functional connectivity development; hearing onset; rats; glyceric pathways; medial nucleus; trapezoid body; lateral superior olive; GABAergic connections; synapses, 21614

transcription factor; factor expression; tailless gene; superficial cortical layer; layer formation; neocortical development; mice; cortical regions, 6827

undemourishment; serotonergic receptors; rats; 5-hydroxytryptamine; 8-hydroxy-(2-N,N-dipropylamin)-tetralin; 8-OH-DPAT; cerebral cortex, 593

unipolar depression; recurrent major depression; neurodevelopment; minor physical anomalies; etiology, 22516

verbal memory impairment; neurodevelopmental disorders; verbal learning; recall; recognition; memory performance; specific language impairment; focal brain damage; Williams Syndrome; Down Syndrome, 13546

visual cortex; adaptation; neural plasticity; early postnatal; developmental process, 21270

voltage-gated currents; dye coupling; electrical coupling; sensorimotor cortex; embryonic mice, 21537

Williams syndrome; genetic disorders; developmental disorders; development; cognitive phenotypes; brain; neurocomputational constraints, 11158

Neural Development—Books

Mirror neurons and the evolution of brain and language, 3740

Neural Development—Chapters

Agnesis of the corpus callosum, 14953

Brain development; glial cells generate neurons—implications for neuropsychiatric disorders, 16851

Brain development: the clinical perspective, 16387

Callosal axons and their development, 15624

Developmental plasticity of the corticospinal system, 15926

Mapping structural alterations of the corpus callosum during brain development and degeneration, 15642

The neural correlates of action understanding in non-human primates, 3743

Skill learning, 15636

Toward a developmental evolutionary psychology: Genes, development, and the evolution of human cognitive architecture, 21072

Visual attention and self-grooming behaviors among four-month-old infants: Indirect evidence pointing to a developmental role for mirror neurons, 4119

Neural Lesions—Serials

cholinergic neurons; basal forebrain; neuronal lesions; spatial working memory; cerebellar Purkinje cells, 15595

delayed verbal recall; hippocampal volume; Alzheimer neuropathology; neurofibrillary lesions, 29158

fos induction; amygdala; vestibular information; hypergravity stimulation; gravity environments; motion sickness; neural substance; bilateral lesions; rats, 3688

neural system; lesion analysis; functional contribution analysis; FCA; neurocontroller networks, 15147

synaptic transmission; impulse propagation; hippocampal slice; cortical cultures; synaptic activity; nervous tissue; cell survival; nerve injury; pulsed radiofrequency; neuropathic pain, 15485

underestimation; time perception; repetitive transcranial magnetic stimulation; right dorsolateral prefrontal cortex; virtual lesion; working memory; rDLPFC; rTMS, 15528

Neural Networks—Serials

abstract rules; applying experience; neural network model; rule-guided behavior; working memory; brain; simulation; neural system identification; rule-selective neurons; connection weight, 24116

adaptive behavior; neural network controllers; neural complexity; environmental structure; neural dynamics; algorithms, 36519

adaptive force generation; precision grip lifting; object lifting; cerebellar structure; adaptive timing; neural model; synaptic plasticity; prehension; learning; force, 9279

adaptive learning; target detection; novel imagery data; neural network; pattern recognition, 14891

adaptive training; radial basis function neural networks; on-line structure & parameter adaptation; training methods; fuzzy clustering; algorithm; time varying systems; dynamic modeling & systems, 9258

amnesia; medial thalamic infarction; semantic knowledge; neural functioning; memory impairment; retrograde memory; cortical networks; thalamic lesion; semantic memory; retrograde memory, 8279

analogical mapping; associative projective neural networks; structure sensitive distributed representations, 36518

approximation algorithm; gradient ascent learning algorithm; maximum clique; Hopfield neural network, 265

artificial life; Piaget's developmental theory; artificial neural networks; cognitivist approaches, 18007

artificial neural network; genetic algorithm; model brand share; choice behavior; network performance, 24114

artificial neural network; single-neuron responses; thalamic taste relay; gustatory responses; rats, 12780

artificial neural networks; neural network architecture; bio-inspired neural network; neo-perceptrons; face analysis; engineering, 6154

artificial neural networks; production scheduling; business applications, 9272

associative memory; morphological neural networks; auto-associative vs heteroassociative morphological memories; spurious memory; kernel method; dual kernel method; fixed point, 9278

backpropagated neural network; neuropsychology; regression analysis; virtual reality; spatial ability; test validation; data analytic applicability; artificial neural network, 12507

basic-level categorization; visual similarity; category specificity; living things; non-living things; pictorial stimuli; computational measure; neural networks; humans, 9265

Bayesian independent component analyzers; image modeling; signal processing; data compression; data modeling, 6150

Bayesian neural network classifier; support vector machine; decision boundary, 12392

bilingual memory; language organization; language knowledge; mechanisms; interactive-activation models; connectionist models; memory processes, 27538

brain network; brain regions; auditory processing; visual processing; linguistics; neuroimaging; interregional brain interactions, 21597

category learning; SUSTAIN; network model; surprising event; category construction, 18006

chaotic neuron model; stochastic behavior; neural networks; EEG; neuron dynamics, 15475

chromatic properties; color information; retina cone photoreceptors; spectral sensitivities; neural network; retinal cone mosaic responses; sensory signals; luminance selectivity; visual cortex, 6151

computational model; neural representation; multiple disparities; visual system; motion direction; same region; image; multiple surfaces; glass; stereopsis; transparency, 6164

computer simulations; cellular neural network; CNN; tabu search; template learning, 14873

computer simulations; theoretical models; uniform background; nervous system; motor response; context; stimulus; neural networks; background synaptic activity; switching between dynamical states, 3092

concept formation; language evolution; tools; evolutionary processes; hierarchical order; neural networks; hominids; neural nets; Wernicke area; Broca area; eem warning period; learning; memory, 3091

conceptual system; semantic memory; exemplar models; feed-forward connectionist nets; situated simulation theory; architecture; representation; abstraction; stability; organization, 3348

cytoarchitecture; myeloarchitecture; superior colliculus; neuronal components; superficial gray layers; retinotectal fibers; shaking rat kawasaki; cerebellar cortex; retina; Reelin protein, 21681

data mining; artificial neural networks; genetic algorithms; intelligent systems; customer targeting, 33403

data mining; information fusion; geospatial images analysis; hierarchical system; target recognition; mapping; ARTMAP neural network; remote sensing; adaptive resonance theory; pattern recognition, 9276

decaying synapses; neuronal networks; synchronization, 6153

distributed learning; classification accuracy; learning capabilities; neural systems; category proliferation; Fuzzy ARTMAP; winner-take-all architecture; FasArt; DARTMAP; neuro-fuzzy systems, 9275

dopamine modulated cortical activation; glutamatergic cortical cells; NMDA & non-NMDA receptors; firing rate; prefrontal cortex; dopamine biochemistry; glutamate response; computational modeling, 9261

emotion-attention network interactions; anterior cingulate gyrus; functional MRI; neural activity; emotional content, 24671

- evolutionary computation; operator adaptation method; search strategy; neural networks; structure optimization, 9270
- face detection; human faces; security applications; polynomial neural network; PNN; principal component analysis; PCA; neural network; face recognition; pattern classification; feature extraction, 14892
- feedforward cortical networks; action potential propagation; model networks; neuronal modeling; sensory information; synchrony, 15576
- feedforward neural networks; spatiotemporal structure; dependent plasticity; associated input; firing patterns; spike patterns; firing rates, 27763

- meta learning; reinforcement learning; meta parameters; environment dynamics; animal performances; dopamine; neuromodulation, 6161
- model selection; modular networks; binary units; binary hidden layer; learning algorithms; supervised learning; unsupervised learning; BYY modular system; harmony learning; rule extraction, 14896
- motor fault diagnosis; fuzzy neural network; predictive maintenance plan; electrical machines, 24113
- multilayer neural networks; learning model; algorithm; local minima escape; global convergence; exclusive or & parity problems; alphabetic characters & Arabic numerals learning; ionosphere data, 18008
- multilayer perceptron; MLP; computer simulations; feedforward network; bottom-up approach; neural network; neuron; sensitivity, 6166
- multiple logistic regression; adolescent marijuana use; clinical features; artificial neural networks; marijuana dependence, 19694
- natural gradient learning; generalization performance; neural network learning speed; network information criterion, 24118
- natural visual stimuli; neural networks learning; neuron nonlinearity; linear kernel, 12391
- neocognition; handwritten digit recognition; visual pattern recognition; recognition rate; self-organization; multilayered model; supervised competitive learning; neural network, 14889
- nervous system; neurons; neuronal networks; neuroscience; neurotransmitters; cognition; brain, 15472
- network model; perceptual suppression; transcranial magnetic stimulation; neurons; activity localization, 24117
- neural control; robotic arm; grasping; tactile sensors; sensory motor coordination, 36513
- neural correlates; healthy control; supplementary motor cortex; inferior lateral premotor cortex; healthy volunteers; regional cerebral SMA; ILPM; idiopathic PD; IPD; hypophonia, 5025
- neural network rule extraction; decision tables; credit-risk evaluation; decision-support systems, 18002
- neural network; pattern recognition; genetic algorithm; network architecture; object orientation; multilayer neural-genetic algorithm; image processing, 14883
- neural networks; breast cancer; prognosis; Bayes probability, 27217
- neural networks; connectionist; intention; exercise; theory of planned behavior; beliefs; attitudes, 2342
- neural networks; neural correlates; cognitive-affective integration; covert decision making; ventromedial prefrontal cortex; amygdala; nucleus accumbens, 9280
- neural networks; synthetic brain imaging; verbs; nouns; linguistic abilities; language, 21555
- neural receptive fields; modular neural networks; machine learning; neural architecture; network design, 9277
- neural substrates; concurrent performance; dual working memory; neural network, 27573
- neurobiological network; spiking activity; parallel channels; neurons; synaptic inputs; detection; mean-rate discrimination; models, 6965
- neuronal bases; perceptual learning; synaptic balance; sensory stimuli, 27742
- neuropsychology; autobiographical memory; neural networks; cognitive processes, 3645
- newborn humans; genetics; orienting responses; face learning; prenatal exposure; brain; visual area; face perception; internal patterns; environment; preferences; PGO waves; REM; HLISSOM model, 3088
- object recognition; neural network; image analysis; appearance-based 3-D object recognition; three-layer perceptrons; nonlinear principal component network; pose estimation, 14898
- object segmentation; maximum neural network; gesture recognition; target objects; non-target objects; algorithm, 14897
- on-line learning; finite automata; recurrent neural networks; dynamical systems; learning scheme; systems theory; system identification, 6155
- on-line pattern analysis; evolving self-organizing maps; ESOM; data processing; neural algorithms; constructive network structure; incremental learning ability, 14888
- past participle; Italian verbs; artificial neural network; school age children; simulations, 28067
- pattern recognition; geometric shapes; pulse-coupled neural network; PCNN; translation-independent recognition; Fourier transforms; multilayer perceptron, 14894
- perceptual awareness; neural correlates; neurological disorders; conscious experience; model; distributed neural network; cognitive function, 22922
- polymer blends; neural networks; genetic algorithms; markov chains; polymer system modeling, 27213
- preferred orientations; cortical surface; computer simulations; principal component; receptive fields, 3263
- programmable cellular automata; all one polynomial; Montgomery multiplication architecture, 33402
- radial basis function neural networks; nonlinear Fisher discrimination; Neyman-Pearson classification; clustering; linear discriminant analysis; classification problems, 9263
- radial basis function; RBF; function neural networks; temporal fusion; bioacoustic time series; classifier fusion, 14895
- rapid temporal modulation; synchrony; cortical interneuron networks; neurons; visual cortex, 24119
- rate coding; temporal coding; multilayered feedforward networks; spike timing; neural network; synchronous firing; response time; neuron heterogeneity, 6156
- recognition memory; hippocampal networks; neocortical networks; neural networks; hippocampus; medial temporal lobe cortex; recall; familiarity; operating characteristics; lesions; recognition, 428
- recurrent neural networks; definite memory machines; small weights, 12390
- recurrent neural networks; neural network learning; optimization problem; model selection; support vector machines; telecommunication application, 9259
- recurrent polynomial neural networks; image formation process; multi-linear interactions; feed-forward pi-sigma neural network; standard linear predictor, 9269
- regional specialization; neural networks; early reading consolidation, 4100
- relevance feedback; image retrieval; synergetic neural net; SNN; interpretation; human perception, 14899
- self adaptive output tracking; active binocular tracking; on-line computation; binocular head trajectories; neural network; mathematical model; robotic systems, 24107
- self-organizing; neural network; visual cortex; brain; ordered structures; cell density; bifurcation equation; stability, 12833
- semantic ambiguity; word recognition; lexical decision performance; lexical ambiguity; lexical decision; connectionist networks, 21037
- semantic representations; hemispheric asymmetries; neural network models; semantic processing; right hemispheres; foveal splitting; cerebral hemispheres; orthography, 15215
- semantic representations; perceptual representations of verbal statements; visual representations of objects; names; attribute norms; impairments of conceptual knowledge; computational model, 9722
- short-term memory; neural substrate; neural activity; active memory; neuron network; cortex; time delay, 15484
- simulation engines; visualization engines; hierarchical neural architecture; eLoom; Flatland; graph simulation software tool; neural networks, 9231
- sound localization; barn owls; auditory space; low-order neurons; space representations; place-coding neurons; pathways; binaural cues; frequency bands; isomorphic map; neural networks, 6927
- spatiotemporal coding; binary neural network; dynamic neural filter; DNF; neuronal activity; noisy conditions; algorithm development; observed sequences; olfactory system, 6158
- speaker-specific mapping; text-independent speaker recognition; parameter vectors; linguistic information; mapping approach; speaker-specific information; speech, 4052
- speech transmission index; speech intelligibility; running speech; artificial neural networks; speech transmission accuracy, 18005
- spike-driven synaptic dynamics; working memory states; neural networks; neural plasticity; neurons; synapses; spiking neurons; simulation, 18000
- spinal cord injury; cortical maps; inductive liability procedure; brain-stem; cerebral cortex; locomotor control centers; neural network maps; learning; task execution, 29138
- statistical language modeling; artificial neural networks; distributed word representation; curse of dimensionality; word sequence; language structure; neural probabilistic language model; sentences, 14887
- stimulation; simulation; motor imagery; functional reorganization; hemiplegic stroke patients; neural networks; paralyses, 26111
- supervised learning; unsupervised learning; algorithm; phoneme; neural network; pattern recognition; speech recognition; multi-layer perceptrons; radial basis functions; Kohonen self-organizing maps, 14884
- supervised neural networks; stored information; information update; neural trees, 14890
- synaptic plasticity; spike-timing-dependent plasticity; relevant mutual information maximization; presynaptic & postsynaptic spikes; neuron; temporal aspects; potentiation; depression; neural network, 3089

synchronically interpretable structure; human cognition; neural network; syntactically-structured objects; synchronic-diachronic characteristics; type uniqueness constraint, 24887

temporal binding; connectionist recruitment learning; delayed lines; temporal correlation hypothesis; distributed synchrony, 9266

temporal sequences; self-organizing maps; map formation; sequence processing; temporally asymmetric learning, 30312

transitivity; flexibility; conjunctive representations; hippocampus; transitive inference performance; rats; encoded memory; learning, 18568

trends; complexity theories; computation; social sciences; problem topology; neural networks, 33385

variance reaction time model; neural network; mirror effect; recognition data; receiver-operating-characteristic curves, 21393

vertebrates; nervous system; sensory stimuli; neurons; neural computation; neuron population; inference process; uncertainty; function approximation models, 6972

viewpoint independent face recognition; viewpoint dependent classifiers; gating network; autoencoder; competitive hidden units; self-organization; competitive learning, 14893

visual attention; cortical anatomy; neural information processing; neural network model; cortical feedback, 18417

visual pattern recognition; neural networks; Hough transform network; parametric structures; network class; algorithms; unsupervised learning, 14886

Neural Networks—Books
Computational developmental psychology, 888

Neural Networks—Chapters
A connectionist model which unifies the behavioral and the linguistic processes: Results from robot learning experiments, 6167

Explaining consciousness at multiple levels, 3439

Factors underlying masked priming effects in competitive network models of visual word recognition, 15269

Learning and perceiving musical structures: Further insights from artificial neural networks, 9282

Level-headed mysterianism and artificial experience, 17993

Mirror neurons and feedback learning, 6168

Neural basis of attentive perceptual organization, 15235

Skill learning, 15636

Tonal cognition, 9281

Neural Pathways [See Also Afferent Pathways, Corpus Callosum, Efferent Pathways, Fornix, Limbic System, Optic Tract, Reticular Formation]—Serials
192 IgG-saporin; fimbria fornix lesions; sham control surgeries; delayed matching to position tasks; retention intervals; spatial short term memory; cholinergic septo-hippocampal pathways, 21719

adenylate cyclase; cyclic AMP accumulation; inhibitory receptors; molecular signalling pathways; neuronal cell; cell sensitization; neuroadaptation; neurotransmitter; protein, 3657

amiloride-insensitive sodium taste transduction; sodium salts; taste transduction pathway; appetitive behavior; licking; neural pathway; rats; sodium recognition; acute sodium depletion; anions, 12835

antidepressant-like effect; NMDA receptors; forced swimming test; L-arginine-nitric oxide pathway; zinc chloride; mice; animal model of depression, 773

anxiety disorders; gamma aminobutyric acid; serotonergic agents; therapeutic agents; residual symptoms; neuronal circuits, 10835

aphasia type; fluent; nonfluent; left caudate infarct; language impairment; perisylvian cortex; hypoperfusion, 26110

auditory hallucinations; white matter; structural interconnections; frontoparietal fiber tract; arcuate fasciculus; corpus callosum; cingulate bundle, 28711

biological basis; schizophrenia; positive symptoms; affective symptoms; neuronal circuits; neurotransmitters; novel treatment strategies, 16443

brain activity; childhood developmental trends; white matter maturation; grey matter activity; frontal regions; parietal regions; working memory task; myelination; axon thickness, 10145

brain lesions; rat neocortex; selectivity; impulsivity; compulsivity; dorsal anterior cingulate; infralimbic cortex; orbitofrontal cortex; reaction time; attention, 6791

Cajal-Retzius cells; transcription factors; neurotransmitters; pallial neurons; reelin; interneurons; subpallial transcription factor; migrating interneurons; cortex; corticogenesis, 21595

circadian clock; suprachiasmatic nuclei; behavioral rhythms; signaling pathways; retinal function; nocturnal light; cAMP-dependent protein kinase II; period 1 gene; period 2 gene; hypothalamus, 15697

classical conditioning; animal feeding behavior; behavioral conditioning; conditioned stimulus; tactile stimulation; neural pathways; snails, 6954

color vision; lateral geniculate nucleus; color analysis; visual cortex; brain area; light absorption; retinal cone photoreceptors; lateral geniculate nucleus; psychophysics; action potentials, 6499

cortical activation; nitric oxide; central pathways; sleep wake cycle; cortex; cholinergic basal forebrain, 21735

corticotropin releasing factor; hippocampal neuronal excitability; hippocampus dependent learning; neuronal excitability; associative learning; mice; intracellular signaling pathways, 12809

depressive disorder; chronic pain; emotional symptoms; physical symptoms; serotonin; norepinephrine; antidepressants; neurodegeneration; neuroplasticity, 34758

differential reward outcome learning; conditional visual discriminations; neural mechanisms; learning strategies, 33851

DSM-IV psychiatric disorders; phenotypic symptoms; traits; genotypes; endophenotypes; neurocircuits; neurotransmitter receptors; enzymes, 1346

ethanol tolerance; rapid tolerance; soluble guanylyl cyclase; ICV administration; ethanol injection; IP ethanol; drug administration; nitric oxide; oxide dependent pathways; ICV block; drug tolerance, 10058

face recognition; familiarity; episodic memory retrieval; brain activation, 9918

feature cues; spatial attention; ventral pathway; prefrontal brain area; oculomotor circuit, 27440

G-protein; signaling pathways; forebrain; receptor coupling; transgenic mice; startle response; prepulse inhibition; pathway overstimulation; sensorimotor gating; dopamine receptors; molecular changes, 18570

gyral folding; cortical surface contours; gyrification index; temporal lobe; frontal regions; sulco-gyral differences; first-episode schizophrenic patients, 10788

hand primary sensorimotor cortex; paraplegia; ulnar nerve; spinal nerves; high-threshold muscles; surgical motor reinnervation; cortico-muscular & cortico-cortical oscillatory coupling; plasticity, 14249

hippocampal theta; theta resetting; neural pathways; visual discrimination; surgical implantation; electrical stimulation; electrodes; fornix; perforant path, 9923

hypnosis; cerebral functional connectivity; distraction; resting state; right hand; pain perception; noxious thermal stimulation, 3631

interference; neuronal circuitries; inhibitory control mechanisms; working memory capacity; item recognition, 9866

intracortical circuitry; brain; information processing; neurons; neuroscience; minicolumns; macrocolumns; mental disorders; neuronal cellular function; pathology, 30839

lobster; pyloric rhythmicity; follower neurons; rhythmic pyloric network; cycle period control; pacemaker, 15599

molecular basis; plasticity; visual cortex; visual cortical neurons; intercellular communication; cortical circuits, 6841

motor skill acquisition; developmental robotics; degrees of freedom; neural oscillator; neural pathways; neural entrainment; proprioceptive feedback; task complexity; value-based exploration algorithm, 36494

neural connectivity; tongue movement; reading; brain modulation; brain activation, 3775

neural correlates; predicate-argument structure; language; prelinguistic mental representation; neural pathways; categorization, 9656

neural mechanisms; recognition of familiar individuals; outcome of brief aggressive encounters; brain regions; odor cues of familiar winner; male golden hamsters, 34039

neural processing; auditory cortex; cortical sensitivity; auditory cortical circuitry; functional pathways; hearing; synaptic properties, 15577

neural substrates; conditioned eyeblink response; cerebellum; hippocampus; memory formation; learning behavior; associative learning; retention, 6861

neurodegeneration; neurotrophic factor signaling; signaling pathway; neuron growth; neuron maintenance; Down syndrome, 21682

octave illusion; auditory pathways; tone perception; pitch perception; semitone; diplacusis hypothesis, 15244

pain pathobiology; traumatic brain injury; chronic pain; central nervous system; neural mechanism; neural pathways; cranial tissues; referred pain; treatment side effects; iatrogenic pain; diagnosis, 29185

polypeptides; hyperpolarization; neurons; ascending pathways; neurotransmitters; brain activity, 21743

posttraumatic stress disorder; prefrontal cortex; amygdala; functional connectivity; trauma; cingulate inhibition, 13660

prefrontal cortex; inductive reasoning; deductive reasoning; neural processes, 34025

protein kinase C; amyloid precursor protein secretion; APP secretory pathway; neuroblastoma cells; signal transduction, 12777

protein transmission rates; autistic probands; Reelin signaling pathway; genotype; APOE receptor 2; alleles, 28916

psychotomimetics; signaling pathway; mice; dopaminergic agonists; serotonergic agonists; glutamatergic antagonists; schizophrenia, 7261

reduced habituation; migraine patients; laser evoked potential; nociceptive pathway function; sensory stimuli, 8166

Reelin signaling pathway; central nervous system development; receptor binding; signal activation; Dab1 phosphorylation; genomic organization; splicing; promoter use; Dab1 gene; hybridization, 15440

reflexive responses; voluntary control; eye movements; competing saccade programs, 21598

right prefrontal activity; response inhibition; impulsiveness; Go/No-Go trials; neural networks, 30834

saccadic eye movements; sensorimotor transformation; superior colliculus; saccade amplitude; neuronal activity; spatially extended targets, 12876

schizophrenia; white matter voxel signal; language processing; language production; neural circuitry, 4653

slime-trail tracking; predatory land snails; predatory behavior; nitric oxide synthase; neural processing; glutamate; arginine; sensory processing; learning; mating behavior, 557

spatial attention; eye movements; overt orienting; covert orienting; voluntary shifts, 9844

synaptic plasticity; synaptic activity; classical conditioning; information processing; intrinsic excitability; brain regions; learning; memory, 6868

Toll pathway; pattern recognition receptors; bacterial infection; Gram-positive; Gram-negative binding protein gene; peptidoglycan recognition protein; Drosophila fly, 11154

tonotopic map formation; functional connectivity development; hearing onset; rats; glyceric pathways; medial nucleus; trapezoid body; lateral superior olive; GABAergic connections; synapses, 21614

visual judgments; novel semantic information; visual recognition; frontal cortex; parietal cortex, 27745

weak electric fields; brain pathways; behavioral responses; parasitic sea lampreys; electric stimulation; octavolateral system, 21727

Neural Pathways [See Also Afferent Pathways, Corpus Callosum, Efferent Pathways, Fornix, Limbic System, Optic Tract, Reticular Formation]—Chapters
Functional anatomy of attention and neglect: From neurons to networks, 23038

Modules, brain parts, and evolutionary psychology, 21065

The neural systems underlying sign language, 23062

Spatial, temporal, and form binding effects in vision: The contribution from extinction, 23043

Neural Plasticity—Serials
acetylcholine; olfactory perceptual learning; olfactory system; neural plasticity; cholinergic modulation, 15603

acetylcholine; visual cortex; muscarinic receptor; nicotinic receptor; neuronal plasticity; ocular dominance, 366

acute pain; neuroplastic changes; hand stimulation; anterior cingulate cortex; laser-evoked potentials; nociceptive input processing; secondary hyperalgesia, 12928

adult hippocampal neurogenesis; cellular plasticity; major depression; etiology; neurons; hippocampus, 1426

air force fighter pilots; cognitive plasticity; screening; training; experience; object tracking; objects in motion; US Air Force; tracking motion; air trajectories, 30596

anatomical effects; spatial navigation; recovery; cortical lesions; temporal lobe; neural maturation; age differences; rats; early cortical injuries, 584

attention deficit hyperactivity disorder; drug side effects; methylphenidate; psychotropic drug use; drug-induced plasticity; behavioral effects; human brain development, 8510

basal ganglia absence; refractory epilepsy; extrapyramidal motor; neuronal plasticity; contralateral corticostriatal; pallidothalamic connections; lesions, 16784

basal serum levels; nerve growth factor; acute exercise; multiple sclerosis; brain-derived neurotrophic factor; neuronal repair; neuronal plasticity; patients, 16764

bi-directional plasticity; motor cortex; stimulus frequency, 6969

Bienenstock-Cooper-Munro learning rule; spike-timing-dependent plasticity; STDP; presynaptic neurons; postsynaptic neurons; Poisson spike trains, 574

biofeedback; heart rate variability; vagal baroreflex gain; pulmonary function; peak expiratory flow; neuroplasticity, 683

blindness; brain plasticity; mental imagery; visual cortex, 26184

brain plasticity; psychophysiological treatment; event-related brain potential; attention-deficit hyperactivity disorder; pre-frontal lobes; learning disability; topographic mapping; morphology, 29009

brain-derived neurotrophic factor; spatial memory; spatial learning; synaptic plasticity; long-term potentiation; rats; phosphatidylinositol 3-kinase; hippocampus, 13041

- chronic stress; long-term potentiation; rat; hippocampus; dentate gyrus; corticosterone; synaptic plasticity, 21807
cognitive development; preterm birth; brain injury; brain plasticity, 10192
cortical dynamics; object naming; name learning; cortical learning effect; word acquisition, 24664
cortical plasticity; kinematic details; motor training; motor memory encoding; practiced movements; stroke recovery; age dependent changes, 21392
D-Cycloserine; N-methyl-D-aspartate agonist; motor cortical neuroplasticity; neurophysiology; transcranial direct current stimulation; cognition, 30994
deaf subjects; visual stimuli; auditory cortex; cortex activation; stimulus processing; visual modality; neural reorganization, 5092
dehydroepiandrosterone; synaptosomal glutamate release; inhibitory avoidance; rodent central nervous system; neuronal excitability; neuronal plasticity, 18581
dendritic spines; synaptic pathology; microanatomy; neurologic disorders; psychiatric disorders; morphology; synaptic signaling; synaptic plasticity; actin cytoskeleton; membrane fluidity, 28542
depressive disorder; chronic pain; emotional symptoms; physical symptoms; serotonin; norepinephrine; antidepressants; neurodegeneration; neuroplasticity, 34758
development; adult zebra finches; syllable repetitions; birdsongs; captive zebra finches; song plasticity; song characteristics, 499
Donald O. Hebb; neuropsychology; Hebb synapse; synaptic plasticity; neuroscience, 12812
dopamine systems; hippocampal synaptic plasticity; histamine system; genes; memory; mice; animal learning, 6671
downregulation; CCAAT-enhancer binding protein beta; hippocampal neural plasticity; chronic electroconvulsive seizures; delta FosB transgenic mice, 9825
drug addiction; drug abuse; behavioral patterns; habits; striatum; synaptic plasticity, 6895
early postnatal life; neuronal circuits; brain plasticity; brain regions; critical period mechanism, 12843
ecstasy users; abstinence; plasticity; acoustic startle reflex; prepulse inhibition; habituation; sensitization; recreational drugs; serotonin systems; 3,4-Methylenedioxymethamphetamine, 25881
environmental enrichment; cortical changes; subcortical changes; synaptophysin; proteins; synaptic plasticity; visual cortex; hippocampus; brain; rats; enzyme-linked immunosorbent assay, 24698
feedforward neural networks; spatiotemporal structure; dependent plasticity; associated input; firing patterns; spike patterns; firing rates, 27763
folate; homocysteine metabolism; neural plasticity; neurodegenerative disorders; amino acid; DNA strand breakage; oxidative stress; apoptosis; nervous system development; neuronal homeostasis, 22975
functional magnetic resonance imaging; porencephalic cyst; seizures; cerebral cortex; cerebral plasticity, 11238
gamma-aminobutyric acid; GABA; visual cortex; plasticity; brain development; neuronal network; mice, 21828
gene expression; brain plasticity; stroke rehabilitation; mind-body healing dreams; Erickson; therapeutic hypnosis; hypnotherapy; neural mechanisms; neuroscience theory; novelty-numinosum-neurogenesis, 35854
hippocampal plasticity; synaptic plasticity; tyrosine kinases; synapses; synaptic transmission; mice, 15507
hippocampus; neural cell adhesion molecule; spatial memory consolidation; fear conditioning; rats; synaptic plasticity, 620
human left-handedness; pathology; family; adoption; childhood experiences, 34031
humanistic intelligence devices; tactile vision substitution; blind; sensory plasticity; brain plasticity; skin stimulator arrays; tongue-based machine interfaces; human-machine interface, 6124
inferior colliculus plasticity; auditory signal processing; corticofugal system; subcortical auditory nuclei; medial geniculate body; auditory cortex; acoustic signals, 9890
inhibitory avoidance training; Na⁺, K⁺-ATPase activity; synaptic plasticity; rat hippocampus, 12901
language acquisition; adopted adults; adoptees; maternal language; language plasticity; foreign languages; second language; neural circuits plasticity; memory; spoken sentences; critical period, 3400
learning deficits; dysfunctional synaptic plasticity; aggregated amyloid deposits; dentate gyrus; long-term potentiation; indomethacin; rats; Alzheimer's disease; working memory, 21696
learning-related changes; response patterns; prefrontal neurons; instrumental conditioning; cues; operant conditioning; neural plasticity; rats, 6685
learning; memory; neuroscience; adult neurogenesis; mammalian brain; brain injury; brain cells; proliferation; environmental factors, 9879
localized morphological brain differences; English speaking Caucasians; Chinese speaking Asians; anatomical plasticity; language acquisition; manual skill acquisition; neural plasticity; brain shape, 6924
long-term depression; cortical map plasticity; sensory deprivation; cortical synapses; whisker deprivation; rats; somatosensory cortex, 21528
long-term memory formation; long-term potentiation; neuronal plasticity; mice; RAS proteins; RIN1; amygdala; aversive memory formation, 21571
medial geniculate nucleus; interaural time differences; auditory cortex; inferior colliculus; adaptive plasticity; auditory thalamic neurons; juvenile barn owls, 21641
memory retrieval; learning; plasticity-associated gene *zif268*; cocaine associated stimulus; rats, 21912
mitogen-activated protein kinase; MAPK cascades; synaptic plasticity; memory; aplysia; sensitization; serotonin; sensory-motor synapses; SN-MN synaptic facilitation, 34069
molecular basis; plasticity; visual cortex; visual cortical neurons; intercellular communication; cortical circuits, 6841
molecular mechanisms; signaling pathways; gene expression; neurons; upstream stimulatory factors; responsive transcription, 21559
neural connectivity; diffusion tensor tracking; tracer; synaptic plasticity; cognitive functions; humans; non-human primates; brain; diffusion tensor, 18611
neural plasticity; central auditory pathway plasticity; learning disability; attention deficit disorder; learning impaired children; auditory training; learning problems, 16548
neuron loss; Alzheimer's disease; brain aging; Purkinje cells; glial activation; synaptic plasticity, 6886
neuroplasticity; unilateral visual cortex damage; newborn cat; extrastriate cortex; visual cortex; cats, 34064
nmda receptor function; electrical activity; visual cortex; slow wave sleep; plasticity; neocortex; sensory learning; waking experience; cats; mice, 15550
normal brain aging; caloric restriction; synaptic plasticity; life span; neural erosion; caloric intake control; astrocyte volume, 6887
orbital frontal cortex; psychoactive drugs; morphine; amphetamine; synaptic organization; neurons; medial frontal lobe; rats; neural plasticity, 24821
phosphorylated cyclic AMP response element binding protein; periaqueductal gray; predator stress; ventromedial hypothalamus; amygdala; behavior; limbic neural plasticity; rats, 9817
plasticity; development; language; atypical children; brain development; behavioral development; infants; toddlers; neurodevelopment; communication disorders; at risk children, 13160
plasticity; neurodevelopment; language disorders; interventions; childhood development; adults; brain injury, 13849
postnatal neurodevelopmental disorders; synaptic plasticity; synapse; Rett syndrome; autism, 8063
postsynaptic activity; homosynaptic potentiation; excitatory synaptic transmission; associative synaptic plasticity; mammalian brain; lateral amygdala; N-methyl-D-aspartate receptor; mice; CNS, 9746
psychoactive drugs; addictive drugs; drug-environment interactions; neurobehavioral plasticity; relapse, 24799
sensory maps; sensory cortex; caged animals; optical imaging; evoked neuronal response; somatosensory cortex; habitat, 27776
spike-driven synaptic dynamics; working memory states; neural networks; neural plasticity; neurons; synapses; spiking neurons; simulation, 18000
synaptic efficacy; synaptic plasticity; short-term plasticity; long-term plasticity; spike timing; spatiotemporal patterns; neocortical synapses; temporal patterns; sequence learning, 15580
synaptic facilitation; synaptic connections; synaptic plasticity; sensory cells; non-depressed synapses; depressed synapses; serotonin, 15489
synaptic plasticity; adult hippocampus; neural stem cells; neurogenesis; learning; memory; young & mature granule cells; active & passive membrane properties, 24707
synaptic plasticity; arachidonic acid diet; aged rats, 7217
synaptic plasticity; cytoplasmic polyadenylation element gene; long-term potentiation; Schaffer collateral-CA1 neurons; long-term depression; mRNAs; disrupted CPEB-1 gene, 24644
synaptic plasticity; spike-timing-dependent plasticity; relevant mutual information maximization; presynaptic & postsynaptic spikes; neuron; temporal aspects; potentiation; depression; neural network, 3089
synaptic plasticity; synaptic activity; classical conditioning; information processing; intrinsic excitability; brain regions; learning; memory, 6688
synaptic plasticity; translation initiation; protein synthesis; mRNA; synaptic strength; signaling pathways; neurotransmitter & neurotrophin receptors, 34037
synaptic signals; spike-timing-dependent plasticity; long-term potentiation; Hebbian learning, 27786
task-related plasticity; spatiotemporal receptive fields; primary auditory cortex; neuronal responses; sensory cues, 6891
temporal characteristics; motor neurons; neuronal firing synchrony; predictive synchronous firing; monkeys; conditioning; spike-timing-dependent plasticity; premotor neurons, 24735
tyrosine kinases; synaptic plasticity; memory formation; invertebrates; long term memory induction; signaling cascades; vertebrates, 6974
visual cortex; adaptation; neural plasticity; early postnatal; developmental process, 21270
withdrawal; cocaine; astroglial plasticity; forebrain; astrocytes; glial fibrillary acidic protein, 21813
Neural Plasticity—Books
Filling-in: From perceptual completion to cortical reorganization, 15606
Plasticity in the human nervous system: Investigation with transcranial magnetic stimulation, 15605
Neural Plasticity—Chapters
The brain that makes music is changed by it, 7021
Cortical reorganization and the rehabilitation of movement by CI therapy after neurological injury, 16857
Developing mechanisms of self-regulation, 1400
Developmental plasticity of the corticospinal system, 15926
Functional organization and plasticity of auditory cortex, 7024
Functional relevance of cortical plasticity, 15611
Lesions of cortex and post-stroke plastic reorganization, 15638
The nature and mechanisms of plasticity, 15635
Neuroplasticity and development: The acquisition of morphosyntax in children with early focal lesions and children with specific language impairment, 4552
Plasticity in adult M1 cortex during motor skill learning, 15619
Plasticity of the human auditory cortex, 16871
Practice-induced plasticity in the human motor cortex, 15614
Skill learning, 15636
Stimulation-induced plasticity in the human motor cortex, 15615
Neural Receptors [See Also Adrenergic Receptors, Baroreceptors, Chemoreceptors, Cholinergic Receptors, Mechanoreceptors, Nociceptors, Photoreceptors, Proprioceptors, Thermoreceptors]—Serials
5-HT_{1A} receptor agonist; MKC-242; serotonin receptors; isolation rearing; prepulse inhibition; mice, 3702
5-HT_{1B} receptor mRNA levels; dorsal raphe nucleus; anxiety behavior; serotonergic neurons; 5-HT_{1B} autoreceptor; rats; stressors, 580
5-HT₂ head bobs; body shakes; rabbit; neural receptors, 18728
5-HT_{2A} receptors; basal ganglia; hippocampal formation; neocortex; receptor binding, 632
5-HT_{2A} T102C receptor polymorphism; neuropsychiatric symptoms; Alzheimer's disease; Chinese elderly, 29139
5HT_{2C} receptor; polymorphism; suicide victims; genes; genetic mechanisms; serotonergic neurotransmission; German and Slavic populations, 31899
8-OH-DPAT; progressive ratio schedule performance; 5-HT_{1A} receptors; motivation; rats; WAY-100635; reinforcer efficacy, 15755
α5/GABA-A receptors; pharmacological properties; L-655,708; agonistic behavior; isolation; male mice; social encounters, 30993
acetylcholine; visual cortex; muscarinic receptor; nicotinic receptor; neuronal plasticity; ocular dominance, 566
adenosine A1 receptor mediated presynaptic inhibition; immature hippocampal CA1 neurons; rats; GABAergic transmission, 15516
adenylate cyclase; cyclic AMP accumulation; inhibitory receptors; molecular signalling pathways; neuronal cell; cell sensitization; neuroadaptation; neurotransmitter; protein, 3657
aggressive behavior; neurosteroids; GABA; aggressive behavior; neurochemistry; GABA receptors; animals, 3680
agonist drug; fleroxan; zipsaronide; receptor agonist; hydroxytryptamine (5-); serotonin; humans; rats, 24782
alcohol reinforcement; GABA_A receptor opioid receptor; alcohol-preferring rats; benzodiazepine; naltrexone; alcohol pharmacotherapy, 21835
alcohol-preferring rats; ethanol-motivated behaviors; alcohol reinforcement; nucleus accumbens; ventral tegmental area; mesolimbic; opioid receptors; nalmefene; ethanol; saccharin, 21858
allopregnanolone; gamma aminobutyric acid; neural receptors; gender differences; developmental differences; anxiety regulation; rats; progesterone, 3907
amantadine; perceptual motor learning impairment; side effects; NMDA receptor function, 10049

- amisulpride; limbic specificity; clinical profile; atypical antipsychotic mechanisms; presynaptic receptors; atypical neuroleptics; dissociation hypothesis, 7236
- AMPA glutamate receptors; excitatory amino acid receptors; electrophysiological techniques; NDMA glutamate receptor, 15529
- AMPA receptor; excitotoxic action; mouse cerebellar granule cells; neuronal cell death; kainate selective receptor antagonists; cyclothiazide, 10043
- amphetamine pretreatment; dopamine receptor density; receptor affinity; rats; raclopride; neurophysiology, 27890
- amphetamine-induced dopamine; nmda receptor antagonists; significant potentiation; concurrent treatment; subchronic treatment; persistent symptoms; pcg administration; prefrontal cortex, 21856
- amygdala; mRNA expression; corticotropin-releasing hormone; SR141716A cannabinoid antagonist; HU-210 cannabinoid agonist; receptors; neurotrophin Y; behavior; allostatic shift; rats, 9965
- androgen receptor gene; CAG; polymorphism; cognitive decline; cognitive impairment; glutamine, 7485
- angiotensin IV; water maze task acquisition; ryanodine channel function; calcium transport; spatial memory; hippocampus; rats, 570
- angiotensin; ANG-II drinking response; medial preoptic nucleus; GABAergic receptor mechanisms; rats; subfornical organ, 630
- anti-depressant effects; glutamate NMDA-receptor antagonist; dorsal hippocampus; rats; stressors; behavioral changes; depressive states; amino-7-phosphonoheptanoic acid; forced swim test; immobility, 13058
- anticonvulsant & antiepileptogenic effects; GABA-A; gamma aminobutyric acid receptor ligands; pentylenetetrazole-induced seizure; kindling; animal model; mice, 9998
- antidepressant activity; melancholic features; receptor antagonist; depressive disorder; sexual side effects; substance p; receptor agonist; major depression, 23258
- antidepressant like effects; pharmacological evidence; nociceptin/orphanin FQ; mice, 21837
- anxiety-reducing effects; corticosterone levels; receptor antagonist; cognitive disorders; receptor mediated signaling; mice, 18710
- anxiety; elevated plus-maze; one trial tolerance; anxiolytic effect; receptor activity; repeated administration; drug responsiveness; receptor ligands; arms avoidance; male rats, 9952
- arginine vasopressin receptors; social behavior regulation; emotionality regulation; anxiety-like behavior; social recognition; behavioral effects; null mutation; male mice; selective agonists, 18679
- autoinhibition; rat dorsal raphe nucleus; affective disorder; depressive illness; corticosterone; mRNA expression; dexamethasone, 7180
- axonal projections; olfactory epithelium; olfactory bulb; glomeruli; expressed odorant receptor; gene-targeted mice; glomerular maturation; sensory input, 27808
- behavioral characteristics; nervous system; mouse; brain receptor; neurotrophin; motor activity, 30850
- biochemical interaction; dopamine receptor; plasma membrane; phosphorylation; elongation factor; protein synthesis; cellular proliferation, 3882
- brain neurokinin; receptor occupancy; prepubertal; brain stem region; central nervous system; pharmacotherapy; emetogenic chemotherapy; receptor binding-selective tracer; positron emission tomography, 24648
- BU224; stress; imidazoline receptor; behavior; neuroendocrinology; neurochemistry; rats; HPA axis; central monoaminergic responses; immobility; struggling; swimming; antidepressant like activity, 15745
- c-fos expression; metabotropic glutamate receptors; animal models; anxiety; anxiolytic behavior; neuronal activation; immunoreactivity; hippocampus; amygdala; sensory information; mouse brain, 18762
- caffeine withdrawal syndrome; social interaction test; mice; N-methyl-D-aspartate receptors; meprobamate; nepamexane, 31012
- cannabinoid analgesia; endogenous cannabinoids; receptor sites; central nervous system; peripheral systems; opioid receptors, 30886
- cannabinoid receptor agonist; neuroprotective property; traumatic brain injury; brain edema-reducing efficacy; CB1 receptor signal transduction; BAY 38-7271; rats, 7228
- cannabinoid receptor antagonists; SR-141716; open-field behaviors; cannabinoid receptor agonists; (R)-methanandamide; rats, 731
- cannabinoid; receptor antagonist; food-seeking behavior; rimobant; dopamine D3 receptors; prefrontal cortex; nucleus accumbens; brain reward system; rats, 24669
- castration; serotonin-1A receptor; prepulse inhibition; rats; hormones, 7187
- cataleptic schizophrenia; neuronal nicotinic acetylcholine receptor; periodic catatonia; polymorphic markers; pathogenesis, 13637
- catecholestrogen 2-hydroxy-estradiol; 17-beta-estradiol; hippocampal cells; neuroprotective effects; psychiatric diseases; hippocampus; rats, 3984
- CB1 cannabinoid receptors; endocytic mechanism, 7212
- CB1 cannabinoid receptors; excitotoxicity defense; mice; mutation; central nervous system neurons; hippocampus, 751
- CCK2 receptor-deficiency; morphine; naloxone; locomotor activity; place conditioning; opioid receptors; mice, 532
- cell proliferation; adult neurogenesis; dentate gyrus; multiple receptor subtypes; receptor agonists; chronic administration; acute administration; cell growth stimulation; Wistar rats, 18708
- cell proliferation; nicotinic acetylcholine receptors; cognitive impairment; Alzheimer's disease; schizophrenia; hippocampus; heterozygous mice, 18758
- central nervous system; gene knockout mice; neurotransmitters; hormones; odorants; photons; neuronal activity; receptor genes, 15462
- central nervous system; tachyphylaxis; regulators of G-protein signaling; interacting protein; opioid agonists; receptors; oligodeoxynucleotides; mouse, 24807
- cholecystokinin receptor gene; reduced anxious behavior; mice behavior; exploratory behavior; anxiety models, 18544
- chronic corticosterone; glucocorticoid receptor antagonism; basolateral amygdala; fear conditioning; rats, 24798
- chronic dizocipine; NMDA antagonist; acute pain; mRNA expression; neurotrophins; dopamine receptors; glutamate receptors; sensorimotor behaviors; rats, 7143
- chronic opioid antagonist treatment; mu-opioid receptors; receptor density; proteins; receptor trafficking; chronic naloxone; morphine analgesia; mice, 769
- cingulate cortex; cortical pyramidal neurons; cortical glutamatergic neurons; serotonin 5-HT1A receptors; rats; receptor protein distribution; protein localization, 6866
- circadian phase alterations; gamma aminobutyric acid-A; receptor activity; suprachiasmatic nucleus; diurnal rodents; nocturnal rodents; light effects; muscimol; rats, 21766
- citalopram; guinea-pig atria; adenosine receptor; dose dependence; drug inhibition, 30999
- clorgyline; locomotion; rats; sensitization; sigma receptors; quinpirole; mousing; imidazoline; 12 receptor, 15739
- clozapine; olanzapine; risperidone; quetiapine; ziprasidone; muscarinic receptors; atypical antipsychotics; partial agonist activity; muscarinic mechanisms; muscarinic effects, 7158
- combination therapy; cholinesterase inhibition; N-Methyl-D-Aspartate receptor antagonism; treatment outcome; cognitive performance; Alzheimers disease; Donepezil, 20267
- complete dopamine receptor occupancy; extrapyramidal side effects; benperidol; paranoid schizophrenia, 11556
- conditional responses; rats; basolateral nuclear complex of the amygdala; artificial cerebral spinal fluid; reflexes; neuroanatomy; N-Methyl-D-Aspartate receptor antagonist, 13031
- cooperativity; metabotropic glutamate receptors; long-term potentiation; hippocampal neurons; long-term depression; guinea pigs; NMDA, 6894
- cortical cells; receptor system; hippocampal cells; neuroblastoma cells; receptor density; clozapine; metabolites; genes, 12842
- corticosterone; 6-cyano-7-quinolaxaline-2,3; NMDA receptor antagonist; drug dosage; mice; intraperitoneal injection; intracerebroventricular; route-dependent, 739
- corticotropin-releasing factor; receptor antagonist; exploratory behavior; monoamines; transcription factor; rats, 27921
- Cotard syndrome; striatal receptor binding; cerebral blood, 19303
- d-amphetamine; rats; behavioral sensitization; P2Y1 receptor expression; locomotor response; astrogliosis; immunocytochemistry; brain, 15746
- D2 receptor; voltage gated calcium channel; quinpirole; nifedipine; olfactory neural receptors; rats, 15696
- D3 mutant; behavioral phenotype; D1 & D3 dopamine receptors; D1 mutant; D1/D3 double knockout mice, 15468
- dementia; schizophrenia; nicotinic receptor expression; prefrontal cortex, 7752
- dextromethorphan; ketamine; MK-801; morphine; antinociception; tail flick test; sex; rats, 3913
- DMXB; nicotinic receptor agonist; GTS-21; auditory gating; social isolation, 3952
- DOI; 5-HT2A receptor; anxiolysis, 9979
- dopamine antagonists; locomotor effects; cocaine; mice; dopamine receptor; cocaine-induced locomotion, 21900
- dopamine D3 receptor gene; Ser9Gly variant; schizophrenia, 19455
- dopamine D4 receptor gene; serotonin transporter; polymorphisms; infants; novelty response; infant temperament; stranger reactions, 13154
- dopamine receptor antagonist; rats; cocaine intake; dopamine neurotransmission; drug self-administration, 21804
- dopamine receptor antagonists; antipsychotic effect; antipsychotic medications; antagonists; extrapyramidal side effects; atypical antipsychotics, 2167
- dopamine receptor D2; insertion deletion polymorphism; schizophrenia, 1483
- dopamine receptor density; neuroleptic-naïve patients; neuroleptic-free patients; schizophrenia; schizophreniform disorder, 19470
- dopamine receptors; atypical antipsychotics; typical antipsychotics; drug profile discriminator; dose dependent threshold; side effects; symptom resolution; schizophrenia; postsynaptic receptors, 7209
- dopamine receptors; atypical drug mechanisms; receptor subtypes; antipsychotic target; excitatory signal modulation; attention; cognition; neuroleptic medications; receptor physiology; schizophrenia, 7275
- dopamine receptors; rewarding effect; hyperlocomotion; morphine; mice; dopaminergic pathway, 21883
- dopamine receptors; transporters; alcoholics; pathogenesis; alcoholism, 13756
- dopamine; neural receptors; forebrain neural ensembles, 12871
- dopamine; potassium current; prefrontal cortex; neurons; cognitive activity; schizophrenia; drug addiction; rats, 21573
- dopaminergic system role; brain; glucocorticoid hormones effects; conditioned reinforcement properties; glucocorticoid dexamethasone; action mechanisms; rats; D2 receptors, 15766
- dorsal hippocampus; dopamine receptors; morphine; conditioned place preference; rats, 13066
- drug entry; bradykinin receptor; Cereport; RMP-7; pharmacological treatments; neuroprotective effects; central nervous system; therapeutic efficacy; blood brain barrier; permeation; receptor, 3606
- ecstasy; MDMA; dopamine antagonist; serotonin; discriminative stimulus effects; response rate; basal locomotor activity; antagonist eticlopride; rats; dose-related administration; hypermotivity, 24790
- emotional instability; spatial cognition; adenosine receptor; adenosine; anxiety; spatial memory; behavior; environment; knockout mice; spatial learning; exploratory behavior; emotional reactions, 3666
- endocrine function; antisense oligonucleotides; nociception; orphanin FQ; behavioral changes; receptor ligands; ethanol locomotor activation; anxiety, 15730
- epilepsy; treatment; cannabinoid receptors; CB receptor paradox; mammals; endocannabinoid synthesis; anticonvulsant action; proconvulsant action; excitotoxic damage defense, 755
- estrogen; DNA microarray; ovariectomized rats; receptor response; gene expression; estradiol; genistein; daidzein; vasculature; mesenteric artery; endothelin converting enzyme; ECE, 3963
- estrogen; luteinizing hormone action; ketanserin; receptor antagonist; ovariectomized rats; estradiol benzoate; progesterone, 24852
- ethanol inhibition; N-Methyl-D-aspartate; NR3 subunit; glutamate receptor, 12887
- ethanol; conditioned taste aversion; GIRK2 channel; conditioned place preference; knockout mice; wild type mice, 10002
- ethanol; liquid diets; mice; GABA type A receptors; alpha subunit; beta subunit; saccharin; quinine; conditioned place preference; conditioned taste aversion; motor activity; handling-induced seizures, 3580
- ethanol; luteinizing hormone secretion; puberty; female rats; hormone release; epidermal growth factor receptor; prepubertal luteinizing hormone-releasing hormone, 13015
- ethanol; neurobehavioral effects; rats; gamma aminobutyric acid agonists; benzodiazepine inverse agonist, 21875
- feeding behavior; opioid receptor; opioid agonists; neonatal chicks; food intake, 34138
- female rats; rat sexual motivation; mating behavior; serotonin receptors, 15785
- fibroblast growth factor receptors; choroid plexuses; protein expression; periventricular tissues; murine embryo; gestation; choroid plexus, 21671
- FLAG-tagged kappa human opioid receptor; FLAG-hkor; U50,488H; dynorphin A; etorphine; levorphanol; CHO cell lines; HEK 293 cells; opioid agonists; opioid antagonists, 3930
- GABA A receptors; alpha 1 subunit; ethanol responses; neurosteroids; anesthetic drugs; mice; ethanol tolerance; hypnotic drugs; ketamine; behavior; physiology, 3923
- GABA role in schizophrenia; GABA system; schizophrenia pathophysiology; neurotransmitter abnormalities; cognitive dysfunction; GABA pharmacology; GABA neuroanatomy; animal models; neuronal density, 7915

- GABA type A receptor mediated effects; axotomized neurons; neuronal injury; facial motoneurons; bucculience; calcium: glutamate; phosphonopentanoic acid; rats, 15592
- galanin receptor-1; dorsal raphe nucleus; 5-HT neurons; serotonin transmission; species differences; rat; mouse, 12857
- gamma aminobutyric acid receptor suppression; disulfide reducing agent; DL-dithiothreitol; behavioral effects; pharmacological stimulation, 27864
- gamma-hydroxybutyrate; gamma aminobutyric acid; GABA receptors; rats; tertiary alcohol analogs; UMB68; UMB75; NCS-382; drug discrimination, 3995
- gene coding; serotonin receptors; serotonin transporter; suicidal behavior; suicide predisposition, 13686
- genetic research; serotonin; depression; serotonin type 1A receptor; serotonin transporter; pathophysiology; depression, 31750
- glucocorticoid receptor agonist; Pavlovian appetitive conditioning; outcome-specific associations; dexamethasone; Pavlovian associations; rewards; sensory information; motivation, 7281
- glucocorticoid receptor; mineralocorticoid receptor; hypothalamo pituitary adrenal axis; neonatal maternal separation; negative feedback; dexamethasone; rats, 15533
- glucocorticoid sensitivity; dexamethasone; glucocorticoid receptors; peripheral mononuclear leukocytes; posttraumatic stress disorder; age at exposure; onset; physiological correlates, 25752
- glutamate dependent inhibition; dopamine release; striatum; diffusal messenger; receptors; GABA receptors, 21534
- glutamate receptor deficit; sensorimotor behavior; affective behavior; cognitive behaviors; knockout mice; wild type mice; spontaneous alteration; motor coordination, 21446
- glutamate receptors; GluR1 subunits; drugs of abuse; GluR1 knockout mice; sensitization, 6992
- glutamate receptors; GluR1 subunits; drugs of abuse; GluR1 knockout mice; sensitization, 6854
- glutamate; anxiety; limbic system; ionotropic glutamate receptors; metabotropic glutamate receptors; molecule; NMDA; AMPA; kainate; glutaminergic system, 30943
- H1 histamine receptors; weight gain; atypical antipsychotic drugs, 11493
- H1 histamine receptors; weight gain; atypical antipsychotic drugs, 11515
- healthy subjects; schizophrenic patients; antagonist properties; receptor antagonist; increasing evidence; cognitive functions; possible mechanisms; oral administration; glutamate receptor, 8519
- healthy subjects; schizophrenic patients; antagonist properties; receptor antagonist; increasing evidence; cognitive functions; possible mechanisms; oral administration; glutamate receptor, 8540
- human blood lymphocytes; granulocytes; substance P; peptide; brain; receptor antagonists, 33986
- hypersecretion; corticotropin releasing factor; locus coeruleus; plasma adrenocorticotropin; increased production; CNA; receptor; CRFR; stressed induced rats; depression, 690
- hypothyroidism; developmental neuronal loss; thyroid hormone deficit; spiral ganglion neurons; auditory receptor; auditory organ development; afferent dendrites; efferent terminals; outer hair cell, 3700
- in vitro inhibition; ligand-gated ion channels; milnacipran concentration; tricyclic antidepressants; serotonin, 34182
- inhibitory synapses; calcineurin; long term depression; hippocampus; GABA receptors, 21714
- integrins; cerebral cortex; neural development, 21683
- intracellular signaling; receptor complex; receptor antagonist; signaling pathways; microglial activation, 21496
- intracortical connections; receptor blockade; layers II/III; glutamate receptor antagonist; postnatal development; cortical activity; barrel cortex, 3620
- intraperitoneal administration; subcutaneous administration; dose-dependent increase; rat nucleus cocaine; haloperidol; striatum; accumbens, 21884
- intrinsic activity estimation; cannabinoid CB1 receptor ligands; CP 55,940; delta9-tetrahydrocannabinol; THC; rats; drug discrimination, 711
- latent learning; context preexposure; conditioned fear; shock; rats; N-Methyl-D-Aspartate receptor antagonist; NMDA; incidental learning; Pavlovian context conditioning; D,L-2-amino-5-phosphovalerate, 13082
- learning; conditioned reinforcement; second order conditioning; AMPA receptor; glutamate receptor 1 subunit; amygdala; long term potentiation; motivated behavior, 21636
- locomotor activity; open field behaviour; accumbens injection; behavioural responses; dopamine stimulation; ionotropic glutamate receptor blockade; rats, 15764
- long-term depression; G-protein activation; receptors; acetylcholine metabotropic receptors; perirhinal cortex; glutamate activation; hippocampus; central nervous system; CNS, 3603
- major depression; adrenoceptor upregulation; brain tissue; blood platelets; G-protein-coupled receptor kinases; mirtazapine; depressed suicide attempts; depressed patients behavior; down regulation, 20328
- major depression; rapid eye movement; sleep; corticotropin-releasing hormone; CRH-1 receptor antagonist R121919; slow wave sleep, 17048
- mammalian olfactory system; olfactory neurons; olfactory receptors; olfactory genes; olfactory protein; odor identity; olfactory bulb, 9856
- mCPP perfusions; ventromedial hypothalamic nucleus; lateral hypothalamic area; frontal cortex; food intake; 5 HT receptors; metabolism; feeding behavior; rats, 27897
- mechanism of atypicality; antipsychotic drugs; treatment-resistant schizophrenia; new antipsychotic drugs; atypical antipsychotics; neuroleptic action, 8357
- melanocortin receptor deficiency; defensive behavior; male mice; alpha-melanocyte-stimulating hormone; aggressive behavior; pheromone secretion, 15783
- memory formation; learning; metabotropic glutamate receptor agonists; ACPD; ABHx-D-I; neurotransmitters; chicks, 775
- metabotropic glutamate receptor; gabaergic feedback; glutamate uptake; luminosity-type horizontal cell; LHC; light response; carp retina, 15539
- metabotropic glutamate receptor; inhibition; neuropeptide Y; receptor antagonist; GABA-benzodiazepine; anxiolytic action; flumazenil; receptor complex; receptor immunoreactivity; amygdala; Wistar rats, 18815
- metabotropic glutamate receptors; selective memory performance; inhibitory effects; mice; learning; memory; passive avoidance, 18797
- molecular mechanisms; functional glucocorticoid resistance; socially stressed male mice; antiproliferative effect; GC; lipopolysaccharide stimulated splenocytes; LPS; glucocorticoid receptor, 3573
- molecular mechanisms; neuroactive steroids; gene expression; dopamine; drug therapy, 12975
- molecular mechanisms; nicotinic acetylcholine receptors; tricyclic antidepressants; ligandated ion channels, 7192
- mononuclear leukocytes; post-traumatic stress disorder; glucocorticoid receptors; neuroendocrine systems; topiramate, 23307
- morphine; opioid receptors; dendrites; nucleus accumbens neurons; opiate drugs; receptor trafficking; methadone, 21590
- muricidal behavior; locomotion; olfactory bulbectomized rats; glutamatergic function; amygdala; NMDA receptors, 18746
- muscarinic acetylcholine receptors; gene expression; scopolamine treatment; scopolamine treated rat; hippocampus; cDNA microarray technology; memory impairment, 730
- mutation scanning; androgen receptor gene; psychiatric disorder patients; alcoholics; phobia patients; sex steroids, 19352
- N-methyl-D-aspartate receptor agonist; D-serine; amino acid; male rats; water maze, 31011
- N-methyl-D-aspartate receptor antagonists; amygdala nucleus; posterior lateral striatum; instrumental learning; spontaneous motor behavior; dorsal striatum; feeding; neurophysiological processes, 30833
- N-methyl-D-aspartate receptor antagonists; PCP; phencyclidine; prepulse inhibition; hyperactivity; NMDA receptor subtypes; NR2B subunit; NR2A subunit; SDZ 220-581; NMDA channel blocker, 703
- N-methyl-D-aspartate receptor; alcoholism; vulnerability; polymorphisms; G2108A; C2664T; alleles; genotyping, 8030
- N-Methyl-D-Aspartate receptor; tissue plasminogen activator; mice; diazepam; hippocampal lesions, 21503
- N-methyl-D-aspartate receptors; hippocampal memory processes; memory acquisition; spatial information; memory trace; place cells, 24695
- N-methyl-D-aspartate receptors; neuronal activity; synapse formation; ifenprodil; cerebral neurons; nervous system, 34036
- N-methyl-D-aspartate receptors; rat model; visceral hypersensitivity; nociceptive information; MK-801, 21836
- N-methyl-D-aspartate; NMDA receptor agonist & non-NMDA receptor agonist; electromyogram responses; spinal withdrawal reflex; rats; electrical & mechanical stimuli; inflammation; sensitization, 6819
- nanomolar affinity; cell lines; radioligand binding studies; serotonin receptors; novel antipsychotic iloperidone; dopamine; noradrenaline; agonist activity; antagonist activity; monoamine receptor, 734
- negative feedback regulation; olfactory system; olfactory neurons; olfactory receptors; olfactory genes; DNA region; olfactory bulb; mice, 9887
- neurokinin; mu-opioid receptor; rat nucleus tractus solitarius; hypoxia; normoxia; brainstem; peptides, 3665
- neuropeptide Y; F344 rat substrains; dipeptidyl-peptidase IV; behavioral stress response; neuropeptide Y receptors, 735
- neuroreceptor imaging; stress; mood disorders; neurotransmitter receptors; neurotransmitters; serotonergic function; opioidergic function; dopaminergic function, 34830
- neurotensin receptor; clozapine response; receptor gene, 14152
- neurotoxicity; rats; single-photon emission computed tomography; methylenedioxymethamphetamine; serotonin transporters; brain; SPECT; ecstasy; SERTs; MDMA, 30842
- nicotine; cognitive deficits; schizophrenia; physiological dysfunctions; tachyphylaxis, 28706
- nicotine; self-administration; dependence; craving; cigarette smoking, 3964
- nicotinic acetylcholine receptors; sensory cortex; sensory information processing; systems level effects; cellular level effects; visual cortex; somatosensory cortex; auditory cortex, 15547
- nmda receptor function; electrical activity; visual cortex; slow wave sleep; plasticity; neocortex; sensory learning; waking experience; rats; mice, 15550
- NMDA receptor; nociceptive behaviours; metabotropic glutamate receptors; various doses; excitatory amino acids; rats, 763
- NMDA receptor; receptor signalling; neurons, 21592
- nociception; pancreatitis; attenuation; NK-1 neurokinin receptors, 18541
- odor mixture perception; configurational properties; elemental properties; binary mixtures; olfactory receptors; odors; rats; citronella; octanal; odor recognition, 436
- odorant-evoked patterns; receptor neuron input; mouse olfactory bulb; intrinsic optical signals; spatial patterns, 15596
- olfactory receptor cells; odorants; electrical signals; odor molecules; spike encoding; ciliary surface; receptor protein; action potentials, 7065
- ondansetron; treatment; obsessive-compulsive disorder; serotonin; 5-HT receptor antagonist; efficacy; anxiety; risk assessment; risk perception, 2171
- opioid receptor ligands; intracranial self-stimulation; Dynorphin; CREB; depression; U-69593; 5'-acetaminonethylnaltrindole; rats, 21914
- opioid receptors; chronic naltrexone treatment; mice; opioid agonists; sensitivity; brain regions, 15767
- opioid receptors; extinction; Pavlovian fear conditioning; rats; naloxone; conditioned stimulus; unconditioned stimulus, 7229
- panic disorder; adenosine receptors; phenotypes; genetic linkage; single-nucleotide polymorphisms; recessive genetic model; narrow diagnostic model; LOD score; association tests; genotyped subjects, 19534
- penile erections; antagonist properties; receptor agonists; Wistar rats; agomelatine; serotonin receptor stimulation, 3880
- peripheral electric stimulation; PES; brain opioid receptors; rats; morphine conditioned place preference; drug craving, 7254
- personality factors; functional polymorphism; opioid receptor gene; gene encoding, 27699
- pharmacological modulation; gamma aminobutyric acid receptors; cocaine-induced seizures; mice, 27885
- piperazine amide ligands; A304,121; A-317,920; histamine receptors; ciprofloxan; clobenpropit; thioperamide; dogs; rats; guinea pigs, 3890
- piperazine amide ligands; A304,121; A-317,920; histamine receptors; ciprofloxan; thioperamide; GT-2,331; mice; rats; animal cognitive performance, 3894
- positron emission tomography; thalamic nuclei; autoradiographic techniques; autoradiographic studies; thalamic neurons, 21508
- post-synaptic GABA receptors; intermediate medial hyperstriatum ventrale; early learning; chicks; low-threshold NMDA system; coincidence detection, 34006
- posterior hypothalamus; sleep-wake cycle; electrophysiological study; histaminergic neurons; hypothalamic neurons; paradoxical sleep; H3-receptors; freely moving cats, 649
- posterior hypothalamus; sleep-wake cycle; electrophysiological study; histaminergic neurons; hypothalamic neurons; paradoxical sleep; H3-receptors; freely moving cats, 24742
- postnatal development; serotonin receptors; brainstem motoneurons; receptors subtypes; rats, 21712
- prostaglandin E2; EP receptor; body temperature; preoptic area; agonists; rats, 15695

- psychotomimetics; signaling pathway; mice; dopaminergic agonists; serotonergic agonists; glutamatergic antagonists; schizophrenia, 7261
- putative association; polymorphism; mannose phosphate receptor gene; major depression; Alzheimer's disease; risk factors, 28606
- quantitative-polymerase chain reaction; adenosine receptor; estrogen receptor; ovariectomy; female rat brains, 15567
- raclopride; dopamine release; monkeys; methamphetamine; D2 receptors; presynaptic integrity; receptor affinity, 6796
- receptor antagonism; extrapyramidal side effects; receptor partial agonist; serotonin receptor-based mechanisms; antipsychotic drugs; atypical properties; serotonin receptors, 7231
- receptor density; associative learning; rabbits; frontal cortex; 5-HT receptor; classical conditioning; LSD; Lysergic acid diethylamide; Bromolysergic acid diethylamide; MDL 11,939, 21848
- receptor desensitization; glutamate receptors; receptor occupancy; synaptic transmission, 21677
- receptor function; serotonin-1A; serotonin agonists; antidepressant drugs; serotonin receptors, 21850
- receptor occupancy; dopamine receptor; time-course; plasma pharmacokinetics; antipsychotics; human brain; schizophrenia, 19494
- receptor subtypes; CCK-B receptors; mesolimbic dopamine system; anxiety-related behaviors; cholecystokinin receptor; animal models; basolateral amygdala; reward-related behaviors, 21680
- recognition memory; object discrimination; cognitive function; memory deficit; novel object; muscarinic receptor antagonist; dose-dependent reduction; acute administration; object exploration, 10061
- salt intake; sodium depletion; serotonin receptor stimulation; rats, 7162
- schizophrenic patients; gene polymorphisms; tag1A; -141C Ins/Del; dopamine D2 receptor; treatment resistance; antidopaminergic agents; resistance, 2184
- selective memory impairment; age-related memory decline; spatial reference memory; behavioral paradigms; serotonergic systems; experimental context; receptor knock-out; Morris water maze, 6851
- selective orexin; receptor antagonist; lithium chloride; behavioral satiety sequence; food intake; anorectic effect; appetite; SB-334867; rats, 21853
- sensory interaction; somatosensory cortex; neurons; rats; tactile stimulation; receptor antagonists, 34000
- serotonin receptor 2C; schizophrenia; brain; mRNA expression analysis; genes, 7862
- serotonin receptor 3A; subunit genes; HTR3A; polymorphism; C178T; personality traits; women, 601
- serotonin receptor gene; gene polymorphism; schizophrenia; diabetes; genetic factors, 28698
- Serotonin receptor; age; gender; Alzheimer's disease; cognitive behavior; neocortical binding potential; cognitive behavior; depressive symptomatology, 8323
- serotonin receptors; 5-HT1A; 5-HT1B; 5-HT2A; mRNA expression; major depression; bipolar disorder; schizophrenia; hippocampus; dorsolateral prefrontal cortex, 13566
- serotonin receptors; 5-HT1A; 5-HT1B; 5-HT2A; mRNA expression; major depression; bipolar disorder; schizophrenia; hippocampus; dorsolateral prefrontal cortex, 19291
- serotonin; personality; receptor density; binding potential; spiritual experiences; self-transcendence, 34029
- serotonin; personality; receptor density; binding potential; spiritual experiences; self-transcendence, 34005
- social interaction; plus-maze behaviour; plasma corticosterone; elevated plus-maze; neuronal function; saline injection; receptor agonist; saline controls; young rats; open arms, 12980
- spatial learning; mice; spatial memory; neurotrophin low affinity receptor, 34079
- spinal cord; instrumental learning; acquired flexion response; N-methyl-D-aspartate receptor; rats, 34033
- spinal NMDA-receptor; amplification; nociceptive transmission; primary somatosensory cortex; rats; evoked potentials, 6917
- spinal receptor; antihyperalgesia; rats; transcutaneous electrical nerve stimulation; pain treatment, 7067
- squirrel monkeys; 8-OH-DPAT; doses; 5-HT1A receptors; alcohol drinking; WAY 100635; rats; alnespiron, 15776
- SSRI; 5-HT1B receptor blockade; potassium chloride; frontal cortex; NAS-181; fluvoxamine; pargyline; extracellular serotonin levels; selective serotonin reuptake inhibitors, 15740
- status epilepticus; neuronal injury; programmed cell death; hippocampus; kainic acid model; rats; NMDA receptor activation; ceramide mediation; DNA fragmentation, 15446
- stimulus effects; m-chlorophenylpiperazine; rats; cocaine; drug effects; serotonin; drug discrimination; discriminative stimulus; agonists; antagonists; 5 HT1B receptors, 12997
- stimulus effects; serotonin receptors; drug discrimination; serotonin reuptake; anxiety; m-chlorophenylpiperazine; mCPP; humans; animals, 9990
- stress; anxiety; 5-HT1A receptor; 5-HT1B receptor; knock-out mice; genetic background strains; autonomic nervous system; basal heart rate; body temperature; autonomic responses; novel cage exposure, 541
- striatal adenosine receptors; schizophrenia; pathophysiology; genetic studies; disease development; vulnerability factor, 13623
- striatal cholinergic interneurons; nucleus accumbens; dorsal striatum; dopaminergic mesolimbic; neurological disorders; dopamine D2 receptors; dopamine localization, 3594
- striatal dopamine receptor binding; dopamine transporter binding; drug-naïve patients; schizophrenia; presynaptic dopamine neurons; postsynaptic dopamine neurons, 34892
- substance P; P-glycoprotein; brain concentrations; NK1 receptor antagonists; SR140333; GR205171; antidepressant-like actions; mice; central nervous system; mdr1a/- mice; mdr1a +/+ mice, 774
- substantia nigra; reticulata; startle response; dopamine receptor agonist; GABA receptors; rats, 27923
- synaptic facilitation; synaptic connections; synaptic plasticity; sensory cells; non-depressed synapses; depressed synapses; serotonin, 15489
- synaptic transmission; amygdala; interneurons; electrical microstimulation; cortical afferents; thalamic afferents; rats, 21702
- temporal cortex; non-cognitive symptoms; receptor density; serotonergic system; behavioral changes; cognitive function; memory impairment; Alzheimer's disease, 22936
- tetrahydrocannabinol; cannabinoid receptor; cannabidiol; brain, 21854
- tetrahydrocannabinol; opioid receptor; brain regions, 21820
- tetralin; serotonin receptors; immobilization stress; lipopolysaccharides; lymphocytes; neurotransmitters, 15805
- thyroid hormones; genes; hippocampal circuits; nuclear hormone receptor isoforms; mutant mice; brain development; fear conditioning; open field behavior, 13006
- Toll pathway; pattern recognition receptors; bacterial infection; Gram-positive; Gram-negative binding protein gene; peptidoglycan recognition protein; Drosophila fly, 11154
- Umami substance; sweet substances; synergistic response; monosodium glutamate; glutamate receptor agonist; chorda tympani; mixtures; rats, 15569
- undemourishment; serotonergic receptors; rats; 5-hydroxytryptamine; 5-hydroxy-2-N,N-dipropylamin)-tetralin; 8-OH-DPAT; cerebral cortex, 593
- vertebrate olfactory system; olfactory neurons; brain targets; molecular and functional maps; odorant receptors; olfactory map circuitry; mice, 7003
- violent suicide victims; depression; serotonin postsynaptic receptors; frontal cortex; hippocampus; caudate nucleus; amygdala; inositol triphosphate; cyclic adenosyl monophosphate, 25840
- voluntary exercise; cannabinoid CB1 receptor; CB1-receptor inverse agonist; body weight loss; obese mice; lean mice; AM251; CB1R inverse agonist; food intake; genetic models; obesity, 13106
- water intake; pirenzepine; rats; 4-DAMP; brain Fos-immunoreactivity; water drinking; muscarinic receptor subtypes, 15802
- ziprasidone; schizophrenia; dopamine D2 receptor; serotonin 5-HT2 receptor; PET; positron emission tomography; receptor occupancy, 26396
- Neural Regeneration** [See Neural Development]
- Neural Transmission** [See Neurotransmission]
- Neural Transplantation—Serials**
- circadian behavioral rhythm; behavioral rhythmicity; central circadian pacemaker; genetically arrhythmic mice; circadian rhythmicity; suprachiasmatic nucleus graft; peripheral circadian clockworks; SCN, 3835
- technological advances; medical advances; health psychology; behavioral telehealth; genetics; transplantation, 14228
- Neuralgia** [See Also Trigeminal Neuralgia]—Serials
- cortical processing; allodynia; magnetoencephalography; cingulate cortex; primary somatosensory cortex; contralateral SI cortex; chronic pain; contralateral primary; magnetic fields, 15541
- experimental mononeuropathy; neuritis; strain-gauge algometer; noxious stimulus; paw withdrawal thresholds; flexion reflex; carrageenan neuritis; CCI; neuropathic behaviors; hyperalgesia, 15707
- peripheral nerve; neuritis; hyperalgesia; norepinephrine; NE; rats; hind paw; immunoreactivity; intradermal injection; adrenergic sensitivity; cytokine tumor necrosis factor, 15726
- postherpetic neuralgia; tricyclic antidepressants; cognitive function; nortriptyline; desipramine; methadone; morphine; analgesic effect; opioids, 14278
- traumatic brain injury; occipital nerve blocks; postconcussive headaches; cervical headaches syndromes; neuralgia; anesthetic drug injections with corticosteroids; concussion; comorbidity, 29473
- Neurasthenic Neurosis—Serials**
- chronic fatigue syndrome; neurasthenia; major depression; temporal relations, 25488
- neurasthenia; psychosis insanity; morbid condition; cerebral nervous system; nervous affections, 31709
- Neuroanatomy—Serials**
- 3-dimensional shape; 3-dimensional motion; 3-dimensional structure; texture; shape processing; motion processing; neural substrates; visual input; motor output; task difficulty; spatial attention, 24703
- age-related changes; dendritic changes; spine changes; corticocortically projecting neurons; macaque monkeys; superior temporal cortex; prefrontal area, 6878
- anatomical-clinical method; occipital cortex; clinical neurology; visual field deficit; primary motor cortex; visual information; angular gyrus; cortex lesion; sensori-motor systems, 18587
- aphasia type; fluent; nonfluent; left caudate infarct; language impairment; perisylvian cortex; hypoperfusion, 26110
- architectonics; primate cortex; neuroanatomical organization; cerebral cortex; cytoarchitectonics, 18589
- attention deficit hyperactivity disorder; familial risk; brain morphology; siblings, 13786
- auditory startle responses; multiple system atrophy; MSA; parkinson subtypes; cerebellar subtypes; auditory stimuli; olivopontocerebellar type; striatonigral type, 5018
- autism; functional neuroanatomy; theory of mind; executive function; cognitive impairment; neurodevelopmental syndrome; face recognition; mentalization; Aspergers syndrome; cortical connections, 35070
- autobiographical memory; brain lesion effects; functional neuroanatomy; lifespan development; aging, 24688
- birds; pterosaurs; aerial lifestyles; brain; vestibular apparatus; neural organization; osseous labyrinth; equilibrium; aerial predators; neural integration; reflex mechanisms; sensory integration, 3576
- brain activation dynamics; brain systems; anatomical & pharmacological dissociation; task difficulty; practice; mapping; elderly volunteers; scopolamine, sulpiride; methylphenidate; diazepam; learning, 3877
- brain gray matter; gray matter density; bipolar disorder; brain anatomy; bipolar disorder patients, 28653
- brain regions, 27798
- cavum septi pellucidi; schizophrenia; age differences, 34861
- cavum septi pellucidi; schizophrenia; alcoholism; prior head trauma; morphological differences, 31663
- clinical perspectives; neurobiological effects; psychological trauma; anatomical changes; brain function, 25749
- cochlear nucleus angularis physiology; barn owls; cellular morphology; neurons; computational diversity, 21618
- cognition; brain structure; schizophrenia; neurocognitive deficits; disease course; antipsychotic medications; neuroanatomy, 19443
- cognitive control; prefrontal cortex; functional organization, 6925
- cognitive experimentation; working memory capacity; WM; graph theory; topology; cortical anatomy; neural representations; coactive chunks; cortex; cortical columns, 15504
- computational model; thalamocortical circuit operations; inhibitory postsynaptic potentials; hierarchical clustering; categorization; neuroanatomy; neurophysiology; algorithms, 24620
- conditional responses; rats; basolateral nuclear complex of the amygdala; artificial cerebral spinal fluid; reflexes; neuroanatomy; N-Methyl-D-Aspartate receptor antagonist, 13031
- convergent somatosensory subsystem; neural elements; pain mechanisms; central processing; convergent somatic activity; gate control theory; homeostatic emotion, 6475
- cytoarchitecture; myeloarchitecture; superior colliculus; neuronal components; superficial gray layers; retinotectal fibers; shaking rat kawasaki; cerebellar cortex; retina; Reelin protein, 21681
- degeneracy; redundancy; cognitive anatomy; neuroscience; neurodevelopment, 15502
- dyslexia; learning disorder; cerebral volume; gyrification; autism; brain size, 35106

- emotion; decision-making; neurological patients; orbitofrontal damage; Somatic Marker Hypothesis; neuroanatomical frameworks; cognitive framework; neural substrates; homeostasis; emotion; feeling, 26123
- estrogen receptor-beta; neurohypophysial hormonal function; soya isoflavone; fluid balance; functional interaction; neuroanatomical localization; ingestion; excretion; weight; vasopressin; oxytocin, 7094
- executive function; executive dysfunction; autism; frontal lobe; autism spectrum disorder; planning; working memory; neuroanatomical correlates; impulse control; inhibition; shifting set, 25948
- functional anatomy; language, 21667
- functional MRI; visual-spatial processing; neurofibromatosis, type I; neuroanatomy; cerebral cortex, 11133
- functional neuroanatomical correlates; eye movements; depression; REM sleep, 25558
- functional neuroanatomy; impaired reading; dyslexia; reading tasks; left inferior occipitotemporal cortex; word presentation; object-specific processing; letter-specific processing; letter strings, 28936
- functional neuroanatomy; medial temporal lobe; memory system; neural circuitry; hippocampal; primate brain; episodic memory; declarative memory; relational memory; monkey, 18614
- functional neuroanatomy; prelexical processing; speech perception; auditory perceptual systems, 21688
- functional neuroanatomy; selective attention; compensatory processing; autism; autistic spectrum disorders; brain; spatial attention, 8051
- functional neuroimaging; human emotions; limbic brain regions; paralimbic brain regions; functional neuroanatomy, 34057
- genetics; childhood disorders; learning; memory; long-term potentiation; hippocampus, 19250
- geometric modules; non-geometric modules; spatial reorientation; neurobiological processes; neuroanatomy; visual system; birds; information encoding; left hemisphere; right hemisphere; cues, 18619
- gravitational overloading; spinal cord; gray matter; reactive changes; movement coordination; rats; nervous system; structural rearrangements, 9872
- hippocampal pyramidal neurons; schizophrenic patients; neuronal size, 7872
- hippocampal volume change; early-onset depression; late-onset depression; neuronal damage; white matter; structural change, 31746
- hypothalamic visceromotor pattern generator; rat hypothalamus; dorsomedial nucleus; preoptic region; neuroendocrine motor zone; periventricular region of the hypothalamus, 15588
- information processing; dog brain; organizational characteristics; morphological substrates; pallidum nuclear complex, 27720
- input & output stations; entorhinal cortex; superficial layers; deep layers; lateral division; medial division; hippocampus; subiculum; perirhinal cortex; anatomy; electrophysiology, 9888
- language; embodied brain; animal models; language evolution; neuroanatomy; language skills; language processing; brain, 18566
- lateral amygdala; feedforward inhibition; excitatory synaptic transmission; cellular mechanism; brain structure; dopamine suppression; long-term potentiation; LTP; fear conditioning, 15429
- locus coeruleus; neonatal handling; cells; rats; neuroanatomy; behavior; stress responses, 592
- multilingualism; language proficiency; brain regions; functional activity, 24654
- multisensory convergence; early cortical processing; neuroanatomy; psychophysiology; hierarchy of processing; neurophysiological correlates, 622
- multisensory convergence; neuroanatomy; parietal cortex; auditory cortex; calcarine visual areas; macaque monkeys, 618
- neural connectivity; diffusion tensor tracking; tracer; synaptic plasticity; cognitive functions; humans; non-human primates; brain; diffusion tensor, 18611
- neural correlates; cognitive impairment; facial emotions; children; adolescents; autism spectrum disorders; emotion interpretation, 19781
- neural systems; rapid automatized naming; skilled readers; reading disabilities; naming-speed measures; reading; neural substrates, 27767
- neuroanatomical sexual dimorphisms; human sex differences; orbitofrontal cortex; amygdala ratio; schizophrenia, 19449
- neuroanatomical sites; apolipoprotein D; bipolar disorder; schizophrenia; brain regions; dorsolateral prefrontal cortex; neuropathology, 13577
- neuroanatomy of cognition; neuroanatomy; cognition; human cognition; mental activity, 18618
- neuroanatomy; brain organs; thalamus; cortex; brain functioning, 18575
- neuroanatomy; cerebral cortex; cerebral functional organization; cortical morphology; cortical connectivity, 18621
- neuroanatomy; cortex structure; neural function; neural tracers; gene expression, 18555
- neuroanatomy; emotions; neuroscientific models; brain, 3686
- neuroanatomy; schizophrenic syndromes; schizophrenia; cognitive processes; brain activation, 1478
- neurophysiology; handwriting execution; phonographic scripts; logographic scripts; Japanese language; frontal lobe; parietal lobe; motor processes; kana; kanji; temporal lobe, 606
- object processing; representation; levels of specificity; perirhinal cortex; object identification; domain level naming; basic level naming; anterior and posterior inferior temporal cortex; neurons, 18616
- orbital frontal cortex; psychoactive drugs; morphine; amphetamine; synaptic organization; neurons; medial frontal lobe; rats; neural plasticity, 24821
- orbitofrontal cortex; motivational behavior; feeding; drinking; emotional behavior; social behavior, 24705
- overlapping dual task interference; functional neuroanatomy; brain activation; magnetic resonance imaging, 6984
- periaqueductal gray; anatomical connections; defensive responses; neural substrates; fear; stimulation studies; lesion studies; signaling cues; ascending connections; descending connections, 21710
- persecutory delusions; schizophrenic patients; social cognitive biases; self-relevance; functional neuroanatomy, 25613
- polar morphology; embryonic motoneurons; ipsilateral dendrites; axon morphology; genetic suppression; motor axons, 34077
- prefrontal cortex volume; age differences in working memory; perseverative behavior; cognitive performance; executive functions; neuroanatomical correlates; volume of white matter hyperintensities, 3646
- primary visual cortex; visual field; neural mechanisms; central vision; visual system; hemianopia; cortical representation; macular sparing, 15213
- primate brain function; neuronal pathology; neuroanatomy; neuroscientists; neuro-structural errors, 18561
- schizophrenia; brain asymmetry; brain torque; magnetic resonance imaging, 1487
- single word reading; functional neuroanatomy; functional neuroimaging; methodological considerations; reading development; reading education; impaired reading, 27512
- spatiotemporal distribution; rhythmic motor patterns; embryonic rat spinal cord; medullary circuits; neuropharmacological control; neural development; ontogeny, 21673
- spike activity; sequential rearrangements; putamen neurons; monkeys; brain; continuous behavior; Macaca nemestrina; Macaca mulatta, 27809
- structural brain alterations; brain anatomy; obsessive-compulsive disorder; magnetic resonance images, 28795
- teleost telencephalon; everted pallium; Senegal bichir; polypterid fishes; neuroanatomy; afferent connections, 15513
- thalamic volume; thalamus; neuroanatomy; thalamic shape; thalamic symmetry; schizophrenia patients; cognitive ability, 25625
- tourette syndrome; middle frontal gyrus; neural substrates; precentral gyrus; caudate nucleus; neuroanatomy; coprolalia; phonic tics; tic-generating network, 13943
- ventral streams; dorsal streams; functional anatomy; language; speech perception; vision; anatomy of language framework, 21596
- vestibular afferent projections; vestibular nuclei; sensory systems; cochlear nucleus; nucleus neurons; spinal cord; hindbrain; neuroanatomical development; target neurons, 6940
- visual search; spatial distractor; temporal distractor; behavioral correlates; neuroanatomical correlates; parietal cortex; neuroanatomical correlates; neural substrates; selective attention, 3768
- working memory; functional anatomy; frontal lobes; neuroanatomy; neural networks; cognitive functions; dorsolateral prefrontal cortex neurons; prefrontal subregions; visuospatial information, 18609

- chromium picolinate; peripheral amino acid availability; brain monoamine function; rats, 3897
- chronic injection treatments; interferon alpha; locomotor activity; latent inhibition; dopamine system; taste aversion; rats, 551
- chronic lithium vs sodium valproate; concentration of myo-inositol and inositol monophosphate in rat brains, 760
- clozapine; clinical response; treatment resistant schizophrenia; pharmacogenetics; genotype; brain metabolic activity; dopamine receptors; serotonin alleles, 14176
- compulsive behavior; eye blink; Prader-Willi syndrome; neurochemistry, 32088
- continuation ECT; regional cerebral blood flow; cerebral glucose metabolism; major depressive disorder, 5373
- creatine; guanidinoacetate methyltransferase deficiency; phosphocreatine; skeletal muscle; brain, 22844
- drug entry; bradykinin receptor; Cereport; RMP-7; pharmacological treatments; neuroprotective effects; central nervous system; therapeutic efficacy; blood brain barrier; permeation; receptor, 3606
- ecstasy; MDMA; methamphetamine; combined use; social interaction; locomotor activity; drug dosages; long-term effects; brain regions; anxiety behavior; ambient temperature; neurotoxic effects, 24796
- ecstasy; MDMA; serotonergic neurons; rats; binge ingestion; rectal temperature; room temperature; repeated doses; hyperthermia; neurotoxicity; thermoregulation; 3,4-Methylenedioxymethamphetamine, 24811
- endothelial cell; cell signaling; cell survival; cell biology; amyloid; serine-threonine kinase; Alzheimer's disease pathogenesis; A-beta 42; toxicity, 11299
- escalating doses; drug dosage escalation; methamphetamine; neurotoxicity; behavior; neurochemistry; high dose binge; rats; animal model of drug abuse, 780
- ethanolamine; phosphoethanolamine; mitochondrial function; mitochondrial dysfunction hypothesis; depression; bipolar disorder; phospholipid metabolism; rats; animal models, 12776

- fibroblast petrasin 3: gene expression; major depression; melancholia; physiological correlates; ribonucleic acid; isoproterenol; dexamethasone; interleukin 1 beta; neurochemistry, 10765
- FK506: Tacrolimus: L-arginine; N-nitro-L-arginine methyl ester; L-NAME; pentyleneetetrazol; kindling; mice; neuroprotective action; free radical toxicity; pretreatment; protective effect, 784
- functional activity: cocaine self-administration; rat; neural substrates; cocaine; drug exposure; rats, 21869
- glutamic acid decarboxylase; glutamic acid decarboxylase immunoreactivity; aggressive behavior; anabolic androgenic steroid; adolescent exposure; neurochemistry, 3906
- interleukin; rats; repeated administration; chronic administration; box escape learning; depression; anxiety; brain biogenic amines; behavioral changes; social exploration; locomotor activity, 7154
- kissing; allergic skin wheel responses; plasma neurotrophin levels; allergic rhinitis; atopic dermatitis, 8140
- leptin; hormones; obesity; feeding; energy homeostasis; leptin receptors; neuroendocrine system; immune system; brain development; intracellular signal transduction; central neuronal circuitry, 24608
- memory training; hippocampal; neurochemistry; brain; neurobiological change; mental activation training; humans; neural dysfunction; neurochemicals; cellular energy; cell-membrane; memory, 7001
- methylene blue; brain oxidative metabolism; memory retention; rats; brain cytochrome c oxidation; spatial memory, 12981
- methylendioxyamphetamin; behavior; neurochemistry; enantiomers; rhesus monkeys; monkey, 27879
- morphine; cocaine; induced c-Fos level; Lewis rat strains; Fischer rat strains; conditioned taste aversion; reward; aversion; locomotion; brain region activity, 27893
- mosquito repellents; pyrethroids; blood-brain barrier; rat brain; early developmental stages; neurotoxicity, 34179
- mouse transcriptional regulating protein; mTREP-132; cloning; transcription factor; brain regions; mouse ortholog; gene expression, 12784
- near-infrared spectroscopy; human brain mapping; tomography; neuroimaging; hemoglobin, 6906
- neuroactive steroids; binge eating disorder; obesity; plasma levels; dehydroepiandrosterone; DHEA sulfate; bulimia; malnutrition; tetrahydroprogesterone; cortisol, 4807
- neurochemical analyses; pediatric obsessive-compulsive disorder; cognitive-behavioral therapy; symptom severity, 5192
- neurochemical characteristics; ventromedial hypothalamus; antiaversive effects; anxiety; rats; rats; animal models; camptorine; clonidine; phenibut; indolter; GABA; dopamine; serotonin, 15813
- neurochemical correlates; behavioral effects; striatal dopamine depletion; motoric behavior; body weight regulation; 6-hydroxydopamine; 6-OHDA; rat weanlings; adult rats, 7250
- neurofibillary tangle bearing; neurodegenerative diseases; Alzheimer disease; specific marker; hippocampus; entorhinal cortex; clinical dementia; senile plaques, 11254
- neuronal cell death; methamphetamine; brain-derived neurotrophic factor; neurophysiological damage, 10022
- neuronal dysfunction; frontal lobe; schizophrenia; antipsychotic treatment, 35555
- neuronal nitric oxide synthase; superior colliculus; perinatal enucleation; rats, 34010
- neuronal nitric oxide synthesis; L-arginine; pharmacokinetics; amino acid; pharmacodynamics, 7197
- neurotransmitter; neurochemical systems; cognitive processes; behavioral tasks; rat learning; rat memory; neurotransmitter systems, 15554
- nicotine dependence; metabolic changes; brain metabolic response; metabolic effects; hostility traits; smoking; brain imaging; addiction; attention; personality, 19657
- nitric oxide synthesis; neurons; striatum; postnatal development; prenatal development, 21646
- nitric oxide; serotonin; aggressive behavior; serotonin receptors, 3611
- NMDA receptor; receptor signalling; neurons, 21592
- nucleus accumbens; environmental enrichment; dopamine transporter inhibitor; medial prefrontal cortex; striatum; nucleus accumbens; rats, 9903
- nucleus accumbens; ethanol; dopamine; alcohol-preferring; alcohol; alcohol-avoiding; alcohol non-alcohol rats; mesolimbic dopaminergic neurons; ventral tegmental area, 21916
- obstructive sleep apnea; multiple-system atrophy; polysomnography; apnea-hypopnea index, 11151
- optical coherence tomography; neuroimaging; spectroscopy; optics; central nervous system, 6848
- oxidative stress; acetylcholinesterase activity; amyloid beta-peptide; AChE; retinal cells; Alzheimer's disease; brain, 3943
- progesterone-induced spike-wave discharges; finasteride; genetic model; absence epilepsy; rats; allopregnanolone; 5-alpha reductase; neuroactive metabolites, 795
- protein kinase C; amyloid precursor protein secretion; APP secretory pathway; neuroblastoma cells; signal transduction, 12777
- protein kinase; signal transduction mechanisms; central nervous system neurons; hypothalamic tissue; biogenic amines; in vitro regulation; corticotropin-releasing hormone; amygdala, 15521
- proton magnetic resonance spectroscopy; band heterotopia; cortical developmental malformations; cortical dysplasia; biochemical properties, 16802
- proton magnetic resonance spectroscopy; unipolar major depressive disorder; membrane phospholipid metabolism; membrane function, 1453
- red blood cells; thiobarbituric acid-reactive substances; superoxide dismutase; catalase; adenosine deaminase; xanthine oxidase; oxidative stress; oxygen free radicals; autism; enzymes; erythrocytes, 32018
- right or left hippocampal size or neuronal/axonal density; posttraumatic stress disorder; hippocampal dysfunction; creatine; choline; N-acetyl aspartate; military veterans, 25726
- S-adenosyl-L-methionine; magnetic resonance spectroscopy; brain transverse relaxation; brain bioenergetics; relaxation time; phosphocreatine; beta nucleoside triphosphate, 783
- schizophrenia; psychotic symptoms; antipsychotics, 20364
- sciatic nerve blockade; tricyclic antidepressants; local anesthetic; sciatic nerve functions; bupivacaine; amphetamine; rat sciatic notch, 15811
- serotonin; dopamine metabolism; rat brain; latent inhibition; amygdaloid complex; hippocampus; striatum; prefrontal cortex; monoamine oxidase activity; conditioned passive avoidance, 15552
- SSRI1507; electrophysiological profile; dopamine D2 receptor antagonism; neurochemical profile; rats; 5-HT1A receptor agonism; schizophrenia; treatment; atypical antipsychotic, 9967
- SSRI; rats; 5-HT1B receptor blockade; potassium chloride; frontal cortex; NAS-181; fluvoxamine; pargyline; extracellular serotonin levels; selective serotonin reuptake inhibitors, 15740
- substance P; P-glycoprotein; brain concentrations; NK1 receptor antagonists; SR140333; GR205171; antidepressant-like actions; mice; central nervous system; mdrla/-mice; mdrla +/+ mice, 774
- sulfate level; brain metabolism; biochemical marker; Alzheimer disease; AD; mild dementia; cerebrospinal fluid; CSF; CSF sulfate; phosphatidylcholine levels; AD diagnosis, 2297
- T-588; tacrine; extracellular signal-regulated kinase; cognitive enhancer; in vivo phosphorylation; hippocampus; rats; memory, 3999
- tetrahydrocannabinol effects; behavioral effects; physiological effects; drug administration; cerebral metabolic effects, 10059
- therapeutic strategies; Alzheimer's disease; neuron activity stimulation; brain stimulation; neuron metabolism, 20491
- traumatic brain injury; nitrosative stress; poly(ADP-ribose)polymerase-1; rats; enzymes, 6844
- turning behavior; right handedness; handedness; cerebral dopamine asymmetries; hemispheric dopamine asymmetries; cerebral dopamine asymmetries, 6949
- Neurochemistry [See Also Neuroendocrinology, Receptor Binding]—Chapters**
- Authors' responses, 18630
- A neurobiology of intertemporal choice, 15630
- Open peer commentary, 18628
- PET studies on the function of dopamine in health and Parkinson's disease, 16849
- Positron emission tomography (PET) neurochemistry: where are we now and where are we going?, 14952
- Neurodegenerative Diseases [See Also Alzheimers Disease, Dementia with Lewy Bodies, Parkinsons Disease]—Serials**
- dementia; atypical antipsychotics; neurodegenerative disease; psychological symptoms; pharmacotherapy, 35574
- frontotemporal dementia; disorder severity; regional atrophy; neurodegenerative diseases; diagnosis, 32165
- neurodegenerative disease; diagnosis; children; anosognosia by proxy; central nervous system; dementia; neuropsychological & neurological functioning; caregivers, 8224
- neurodegenerative disorders; Parkinsons disease; pathophysiology; therapeutic strategies; psychiatric disorders, 35258
- sleep; quantitative electroencephalography; neurodegenerative disorders; sleep problems, 26159
- Neuroendocrinology—Serials**
- abstinent heroin addicts; aggressive responses; neuroendocrine correlates; adrenocorticotrophic hormone; cortisol; epinephrine; norepinephrine; personality correlates, 10986
- anorexia nervosa; evolutionary perspective; neuroendocrine dysfunction; symptoms; food restriction; denial; starvation; hyperactivity; genetic susceptibility; adaptations, 1733
- behavioral endocrinology; endocrine & nervous system; psychobiology; adaptive functioning; hormones; brain; immune function, 18565
- BU224; stress; imidazole receptor; behavior; neuroendocrinology; neurochemistry; rats; HPA axis; central monoaminergic responses; immobility; struggling; swimming; antidepressant like activity, 15745
- chronic social stress; neuroendocrine responses; adrenal responses; hens; group productivity; survivability; hypothalamic-pituitary-adrenal axis; genetic basis, 27830
- cognitive-behavioral treatment; cardiovascular reaction; neuroendocrine reaction; stress; women; assisted reproduction; autonomic response; systolic blood pressure; heart rate, 8431
- corticotropin-releasing hormone antagonists; astressin B; antalarmin; rhesus monkeys; adrenocorticotropin; cortisol, 24789
- displaced aggression; neuroendocrine mechanisms; behavioral mechanism; serotonin; rainbow trout; plasma cortisol; subordinate fish; stress coping responses, 27690
- emotion regulation; shyness; habituation; neuroendocrine response; temperamental dispositions; stranger approach situation; three-year-old children; behavioral & physiological responses, 31269
- evolution; neurohormonal perspectives; human sexuality; scientific communication, 34560
- fibromyalgia syndrome; declarative memory impairment; biological factors; psychological factors; neuroendocrine factors; cortisol; perceived stress; depression symptoms; comorbidity; adult females, 4888
- hypothalamus; hypothalamus; raphe nucleus; puberty onset; raphe nuclei; 5,6-dihydroxytryptamine; neurotransmitters; neuronal activity; serotonergic systems; ovulation; rats, 3684
- lithium augmentation; HPA system; treatment-resistant depression; tricyclic antidepressants; pharmacologic treatment; neuroendocrine studies, 11472
- loneliness; neuroendocrine responses; cardiovascular responses; inflammatory stress responses; affective state, 24768
- major depression; epilepsy; neuroendocrine abnormalities; hypothalamic-pituitary-adrenal axis, 35338
- major depression; hypothalamic-pituitary-adrenal axis; neuroendocrine evidence; melancholic depression; cortisol responses; vasopressin, 15497
- menstrual cycle; neurocognitive functioning; mood; neuroendocrine function; premenopausal women; hypothalamic-pituitary-adrenal axis, 15454
- neuroendocrine & cardiovascular changes; emotions; heart rate; blood pressure; methyl-OH-phenyl-glycol; norepinephrine; epinephrine; adrenocorticotropin; cortisol; heroin dependency; drug abstinence, 8009
- neuroendocrine control; body fluid homeostasis; atrial natriuretic peptide; ANP; angiotensin II; water intake; salt intake, 21762
- neuropeptides; mRNA expression; release; receptor binding; hypothalamus; corticotropin releasing hormone; anxiety; stress reactions; arginine-8-vasopressin; endocrine reactivity; amygdala; rats, 9946
- patient characteristics; neuroendocrine responses; chronic fatigue syndrome; Insulin Tolerance Test; hypothalamic-pituitary-adrenal axis, 22809
- pregnancy; hippocampus; pituitary-adrenal activity; neuroendocrine systems; prenatal stress; monkeys; hormones; behavioral analysis, 3612
- primer effects; conspecific odors; house mice; reproductive activities; reproductive organs; neuroendocrinological changes; testosterone; estrogen; prolactin; spermatogenesis; mice, 34110
- psychoneuroendocrinology; hormones; psychiatric illness; endocrine disorders; hormone antagonists; peptides; adrenocortical hormones; gonadal hormones; thyroid hormones; stress, 33989
- psychoneuroendocrinology; hormones; psychiatric illness; endocrine disorders; hormone antagonists; peptides; adrenocortical hormones; gonadal hormones; thyroid hormones; stress, 33990
- serotonin modulation; cerebral glucose metabolism; normal aging; neuroendocrine; cerebral metabolic response; cit-alopram, 27892
- social environment; social stress; hormones; female guinea pigs; autonomic & behavioral & limbic-brain systems; offspring; estrogen levels; adult behavior; pre & postnatal periods; masculinization, 455

sub-chronic administration; hydrocortisone; amphetamine; metamphetamine; neuroendocrine response; cortisol; prolactin; mood; neuropsychological function; sustained attention, 15754

temporal organization; neuroendocrine mechanisms; brain; neurocognitive mechanisms; consciousness; mental disorders; sleep disorder; neuronal mechanisms; pineal gland; melatonin, 12771

Transcendental Meditation; neuroendocrine system; aggression; crime; stress; adaptation; coping abilities, 8908

tryptophan; females; dieting; brain; serotonin; neuroendocrine responses; nutritional source; prolactin responses, 7147

Neuroendocrinology—Chapters

Neuroendocrine dysfunction, 16647

Neuropsychological and neuroendocrine factors, 22664

Neuroimaging [See Also Magnetic Resonance Imaging, Roentgenography, Tomography]—Serials

acetylcholine; human brain function; neuroimaging; cholinergic modulation; learning; memory; psychopharmacology; functional magnetic resonance imaging; positron emission tomography, 535

affect; hypnosis; pain; neurobiology; neuroimaging; stress; trauma; brain structures; sensory and affective dimensions of pain; emotions; autonomic arousal; individual differences in pain reactivity, 34018

Alzheimer's disease; HMPAO SPECT cerebral perfusion patterns; early onset; late onset, 22960

Alzheimer's disease; mild cognitive impairment; biomarkers; drug development; screening; neuroimaging; therapeutic trials, 8245

anxiolytic properties; regional cerebral blood flow; functional neuroimaging; cannabinol; anxiolytic properties, 21806

attention-deficit/hyperactivity disorder; adults; diagnosis; genetic susceptibility; brain anomalies; neuroimaging; treatment, 32017

attention; multimodal language areas; visual word form; neuroimaging, 27804

autism; Asperger syndrome; pervasive developmental disorders; genetic evaluation; neuroimaging; atypical autism, 16538

autobiographical memory; memory studies; functional neuroimaging studies; episodic memory retrieval; prefrontal activation; retrieved memories; prefrontal cortex, 27734

benign epilepsy of childhood with centrotemporal spikes; BECTS; abnormal neuroimaging; brain lesions, 16762

brain function imaging; cerebral neurotransmission; regional cerebral energy metabolism; Parkinson's disease; neuroprotective drugs; aging, 6919

brain imaging limitations; courtroom; forensic psychiatry; imaging evidence; central nervous system disorders; disorder diagnosis; Vincent Gigante case, 9311

brain imaging studies; dopamine neurotransmission; functional brain imaging; working memory deficits; prefrontal dysfunction; environmental factors, 10790

brain metabolism; neurotransmitter; neuroimaging; brain imaging studies; human addicts; drug withdrawal; alcohol; cocaine, 13732

brain network; brain regions; auditory processing; visual processing; linguistics; neuroimaging; interregional brain interactions, 21597

brain tumors; psychiatric symptoms; depressive symptoms; minimal neurological signs; neuroimaging, 29016

Broca's area activation; inferior frontal gyrus; spoken language; sign language; cytoarchitectonic mapping; PET analysis; language production; bilinguals; complex movements, 3652

chronic schizophrenics; neurocortical electrical activity; brain imaging, 7913

clinical drug development; pharmacological challenge tests; serotonergic system; neuroimaging, 21808

clinical drug development; pharmacological challenge tests; serotonergic system; neuroimaging, 21839

clinical drug development; pharmacological challenge tests; serotonergic system; neuroimaging, 21896

clinical drug development; pharmacological challenge tests; serotonergic system; neuroimaging, 21840

clinical drug development; pharmacological challenge tests; serotonergic system; neuroimaging, 21809

cognitive neuroscience; reading; brain lesions; neuroimaging techniques; brain; reading disorders, 27514

cognitive processes; functional magnetic resonance imaging; mental chronometry; hemodynamic response; neural activation, 15434

continuous recording; simultaneous recording; functional magnetic resonance imaging; electroencephalogram; clinical applications; stepping stone sequence; echo planar sequence; brain mapping, 3211

cortical malformation; human brain mapping; functional neuroimaging; cortical development; epilepsy, 11236

developmental changes; neuronal networks; brain development; developmental neuroimaging; brain cells; children, 15904

Volume 91

SUBJECT INDEX

dialogue; psychoanalysis; neuroscience; neuroimaging techniques; mind-brain relationship; cognitive neuroscience; psychoanalytic theory; psychoanalytic models; psychotherapy, 522

diffusion-weighted imaging; status epilepticus; vagus nerve stimulation; peri-ictal diffusion-weighted imaging abnormalities; regional cerebral blood flow; epilepsy, 26175

epilepsy; simultaneous EEG-fMRI; metabolic response; epileptic patients; neuronal activity; epileptic spikes; magnetic field; ballistocardiogram; methods artifacts; contamination; magnetic gradients, 4969

frontal lobe epilepsy; epileptical surgery; simple partial seizures; temporal lobe seizures; frontal lobe functions; surgical complications; frontal lobe syndrome; neuroimaging methods, 17168

functional brain imaging; traumatic recall; neuroimaging; hypnosis; hypnotic responsiveness; brain structure, 35602

functional brain; thyroid hormone; positron emission tomography; regional brain metabolism; brain imaging techniques; affective disorder, 10733

functional imaging; auditory processing; speech perception; neurology, 9886

functional imaging; Parkinson's disease; dementia with Lewy bodies; cerebral function; differential diagnosis, 35268

functional neuroimaging; human emotions; limbic brain regions; paralimbic brain regions; functional neuroanatomy, 34057

functional neuroimaging; language; speech scientists, 9549

functional neuroimaging; neuropsychiatric symptoms; side effects; interferon; hepatitis C; fatigue; depression; at risk population; neural substrates, 29482

functional neuroimaging; psychiatric disorders; positron emission tomography; functional magnetic resonance imaging; clinical psychiatry, 25510

functional neuroimaging; written sentence comprehension; brain; language functions; meaning; sentences, 27719

functional organization; speech perception; neuroanatomy; acoustic variability; processing streams; complementary types; speech processing; complementary input representation; neuroimaging evidence, 21687

Halstead Finger Tapping Test; post-traumatic brain injury; neuroimaging, 29169

hemispheric laterality; prefrontal cortex; verbal stimuli; meaning; neuroimaging; memory process, 410

high resolution spatial normalization; horizontal meridian; primary visual area; V1; functional variability; anatomical variability, 3661

human brain; multimodal spatial representations; motor response; human parietal cortex; saccadic spatial orienting; manual spatial orienting; neuroimaging, 351

lateralization; neuroimaging; frontotemporal lobar degeneration; Alzheimer's disease; dementia; differential diagnosis, 32170

magnetoencephalography; dipoles; evoked potentials; electrical activity; cranial volume; magnetic flux; dementia, 12910

medial frontal cortex; amygdala; hippocampus; traumatic event; structural neuroimaging; functional neuroimaging; posttraumatic stress disorder; pathophysiology, 13603

memory function; presurgical evaluation; Wada test; temporal lobe structures; functional magnetic resonance; positron emission tomography; temporal lobe seizures; cerebral plasticity; neuroscience, 3210

mental imagery; neuroimaging; scientific psychology; cognitive science; comprehension, 30843

mental rotation; parietal activation; functional neuroimaging, 30853

mirtazapine; positron emission tomography; neuroimaging; antidepressant actions; regional central biobidistribution; pharmacokinetics, 29357

near-infrared spectroscopy; schizophrenic patients; frontal lobe dysfunction; random number generation; ruler catching; sequential finger-to-thumb tasks; brain metabolism; psychopathological condition, 10805

neural networks; synthetic brain imaging; verbs; nouns; linguistic abilities; language, 21555

neurobiological; language understanding; neuroimaging methods; language; brain imaging, 21693

neuroethics; historical trends; emerging trends; neuroimaging; functional magnetic resonance imaging; neurosciences, 21600

neuroimaging impact; brain mapping; psychiatry; magnetic resonance imaging, 10648

neuroimaging methods; cognitive function; mental disorders; brain function; aging process; blood flow; human sex differences, 8264

neuroimaging; anxiety disorders; infant temperaments; early adulthood; amygdala; responsiveness differences; temperamental risk factors; psychiatric disorder; individual differences, 34927

neuroimaging; cognitive functions; imaging technology; neurobiology, 18591

neuroimaging; psycho-oncology, 32491

neuroimaging; task characteristics; time measurement; neural timing systems; brain activity; automatically controlled time measurement; cognitively controlled time measurement; motor circuits, 15535

neuromagnetic imaging; brain rhythms; somatosensory cortex; spatial filtering; minimum-variance beamformer; tactile perception & stimulation; visual feedback; somatosensory input, 6858

neuroreceptor imaging; stress; mood disorders; neurotransmitter receptors; neurotransmitters; serotonergic function; opioidergic function; dopaminergic function, 34830

optical coherence tomography; neuroimaging; spectroscopy; optics; central nervous system, 6848

pain modulation; capsacin; functional neuroimaging; prefrontal cortex; effective connectivity; painful thermal stimulation, 21789

prefrontal cortex; hypoactivation; hemodynamic response; posttraumatic stress disorder; verbal fluency; memory; near-infrared spectroscopy, 1528

probabilistic learning; Alzheimer disease; basal ganglia; gender related degeneration; subcortical region; spectroscopic imaging, 8226

right posterior superior temporal sulcus; intentional actions; body motion; environmental context; perceptual features; observed motion; intrinsic cues, 30871

serotonin transporter; positron emission tomography; pigs; neuroimaging; brain; radioisotope, 6850

single photon emission computerized tomography; positron emission tomography; in vivo assessment; molecular imaging; drug development; schizophrenia; research update; neuroimaging; radiotracer binding, 19467

single word reading; functional neuroanatomy; functional neuroimaging; methodological considerations; reading development; reading education; impaired reading, 27512

story comprehension; story production; narrative comprehension; human communication; neuropsychology; interrelation; neuroimaging, 27761

synaptic connections stability; cortical circuits; long-term information storage; brain imaging; topographic maps, 15548

Tower of London; neuroimaging; problem structure; planning; structural properties; cognitive processes, 33804

transcranial magnetic stimulation; functional neuroimaging; brain-behavior relationships; cognitive brain research; neuroimaging techniques, 12920

vagus nerve stimulation; functional neuroimaging studies; neuropsychiatric disorders, 3610

visual extinction; brain-damaged patients; attentional systems; voluntary allocation; cortical substrates; lesion site; human brain; attentional processes, 12848

working memory; Broca's area; parietal cortex; language processing; neuroimaging; functional magnetic resonance imaging, 555

Neuroimaging [See Also Magnetic Resonance Imaging, Roentgenography, Tomography]—Books

The clinical science of neurologic rehabilitation (2nd ed.), 2493

Neuroimaging [See Also Magnetic Resonance Imaging, Roentgenography, Tomography]—Chapters

Mapping structural alterations of the corpus callosum during brain development and degeneration, 15642

Morphometrics for callosal shape studies, 15609

Neuroimaging in forensic neuropsychology, 5085

Neuroinfections [See Infectious Disorders]

Neurokinins [See Also Substance P]—Serials

bioactive peptides; amphibian skin secretions; Bombinakinin M gene; cocaine- and amphetamine-regulated transcript; CART; intracerebroventricular peptide administration; food intake; feeding control, 3925

brain neurokinin; receptor occupancy; aprepitant; brain stem region; central nervous system; pharmacotherapy; emetogenic chemotherapy; receptor binding-selective tracer; positron emission tomography, 24648

diazepam; NK1 receptor antagonists; neurokinin receptors; anxiety-related behavior; novelty; substance P; anxiolytic-like effects; contingent punishment; conflict paradigms; Compound L, 745

dura vascular permeability; restraint stress; neurogenic inflammation; migraine headaches; nerve stimulation; trigeminal nerve; rat dura mast cell; stress-induced migraines; neurokinin-1 receptor, 6800

neurokinin; mu-opioid receptor; rat nucleus tractus solitarius; hypoxia; normoxia; brainstem; peptides, 3665

nociception; pancreatitis; attenuation; NK-1 neurokinin receptors, 18541

nociceptive neurons; antinociception; pain; reticular formation; brain stem; neurokinin-1; GABA receptors; opioid receptors; rats, 21665

stress-induced visceral hypersensitivity; tachykinin NK1 receptors; ovarian steroids; rectal distension; estrogen, 21778

Neuroleptic Drugs [See Also Clozapine, Molindone, Olanzapine, Quetiapine, Risperidone, Sulpuride, Tetrabenazine]—Serials

- acute mania; treatment settings; mood stabilizer; quetiapine; risperidone; switch, 14172
- acute treatment; schizophrenia; atypical antipsychotics; rapid response; antipsychotic doses, 11571
- adherence; conventional and atypical antipsychotics; schizoaffective disorder; schizophrenia; hospital discharge; predictors; gender; illness severity; attitudes toward medication; side effects; dose, 23233
- adolescent patients; olanzapine; neuroleptic drug treatment; schizoaffective disorder; psychotic adolescents; olanzapine treatment; schizophrenia, 14139
- adverse effects; antipsychotics; medication adherence; erectile dysfunction; sexual side-effects; risperidone therapy; quetiapine; diabetes; metabolic acidosis; retrograde ejaculation; drug dosage, 26405
- agonist drug; fentanyl; ziprasidone; receptor agonist; hydroxytryptamine (5-); serotonin; humans; rats, 24782
- alcohol hallucinosis; treatment refractory; neuroleptics; risperidone; amisulpride; selective serotonin reuptake inhibitor sertraline; remission, 23244
- amisulpride; clozapine; N-desmethylclozapine; permeation; atypical antipsychotics; blood-brain barrier; blood-cerebrospinal fluid, 7196
- amisulpride; limbic specificity; clinical profile; atypical antipsychotic mechanisms; presynaptic receptors; atypical neuroleptics; dissociation hypothesis, 7236
- amisulpride; weight gain; atypical antipsychotic drugs; drug side effects; drug therapy, 29352
- animal behavior models; drug mechanisms; drug differentiation; atypical antipsychotic drugs; typical antipsychotics; prepulse inhibition; paw test; psychotropic drugs, 7186
- animal model; antipsychotic drugs; weight gain; olanzapine; food consumption; gross motor activity; macronutrient choice; rats, 24779
- anticholinesterase; drug-induced inhibition; neuroleptics; antipsychotic agents; cholinesterase inhibition; biochemical parameters; rotational activity; rats, 758
- antipsychotic action; conditioned avoidance responding; computational model; reinforcement learning theory, 24623
- antipsychotic agents; clozapine; olanzapine; adverse effects; insulin; lipids; triglycerides; C-peptide, 5313
- antipsychotic agents; older patients; physician decision making; Expert Consensus Guidelines; drug selection; treatment decision making; up to date information; accuracy information; survey responses, 14121
- antipsychotic drug use; schizophrenia; pharmacotherapy, 20414
- antipsychotic drug; drug doses; chlorpromazine equivalents; defined daily doses; drug comparison, 8538
- antipsychotic drugs; aripiprazole; risperidone; upcoming conferences, 2220
- antipsychotic drugs; bipolar disorder; mania; maintenance treatment, 5275
- antipsychotic drugs; body mass index; chronic mental illness; direct-care staff; obesity; psychosis; schizophrenia, 32748
- antipsychotic drugs; guidelines; patients with complicating conditions; congestive heart failure; cognitive impairment; diabetic neuropathy; diabetes mellitus; obesity; dyslipidemia; drugs to avoid, 14113
- antipsychotic drugs; medications; delayed onset; antipsychotic effect, 11457
- antipsychotic drugs; neurogenesis; forebrain; cell generation; neuropsychiatric disorders; olanzapine; haloperidol; prefrontal cortex; striatal core, 27953
- antipsychotic drugs; obesity; diabetes; psychotic conditions management; second-generation antipsychotics; drug tolerance; dyslipidemia, 20272
- antipsychotic drugs; physiological processes; neuroleptic drugs; side effects; major depression; neuroleptic dysphoria, 14196
- antipsychotic drugs; tardive dyskinesia; receptor affinity; antipsychotic treatment, 23219
- antipsychotic effects; hospitalization risk; selection bias; observable factors; unobservable factors; schizophrenia, 17082
- antipsychotic indications; older patients; psychotic symptoms; schizophrenia; mania; psychosis; delusional dementia; delusions; psychotic major depression; delusional disorder; delirium, 14119
- antipsychotic medication use patterns; costs of care; schizophrenia, 5310
- antipsychotic medication; atypical antipsychotics; prescription rates; drug therapy; schizophrenia; clozapine; treatment duration; health behavior, 5337
- antipsychotic medication; client attitudes; illness attitudes; professional careers; schizophrenia; compliance; mental health professionals, 26419
- antipsychotic medication; medication non-adherence; schizophrenia; health care costs; resource use, 32452
- antipsychotic medication; paroxysmal perceptual alteration; oculogyric crisis; schizophrenia; mood disorders; neurotic disorders, 2231
- antipsychotic medications; formulary policy; costs, 5274
- antipsychotic medications; oculogyric crises; schizophrenia; chlorpromazine; drug therapy; hallucinations, 17026
- antipsychotic medications; schizophrenia treatment; financing systems; delivery systems; health maintenance organizations; capitated system, 14035
- antipsychotic medications; Schizophrenia; quality of life, 8516
- antipsychotic medications; second-generation antipsychotics; terminology, 26336
- antipsychotic medications; second-generation antipsychotics; terminology, 26391
- antipsychotic medications; side effects; concerns; psychiatric inpatients; mental health clinicians, 20335
- antipsychotic medications; treatment compliance; treatment attitudes; schizophrenia, 20274
- antipsychotic polypharmacy; antipsychotic medications; chronic schizophrenia; monotherapy; psychotropic medications; drug dosages, 13643

- quetiapine; delirium patients; drug therapy, 20374
- quetiapine; refractory symptoms; post-traumatic stress disorder; PTSD; psychotropic medications; symptomatic improvements; side effects; Vietnam veterans; drug dosages; combat veterans, 17084
- quetiapine; treatment refractory schizophrenia; first-generation antipsychotics; hospital patients; drug dosage, 29377
- randomized controlled trials; antipsychotics; schizophrenia; valproate; valproate augmentation; treatment outcomes; drug interactions, 32422
- rats; antipsychotic drugs; N-acetyl aspartate; brain; haloperidol; clozapine; schizophrenia, 9962
- rats; drug discrimination; antipsychotic; quetiapine; clozapine; receptor; muscarinic antagonism; scopolamine; prazosin; α 1-adrenoceptor antagonism; selective ligands, 13004
- rats; ketamine; acepromazine; seizures; learning; neuroanatomy; behavioral preservation; psychopharmacology; brain, 12996
- rats; propylthiouracil; diazepam; dose-related effects; neuroleptic agent; anxiety; memory; animal models, 21817
- receptor antagonism; extrapyramidal side effects; receptor partial agonist; serotonin receptor-based mechanisms; antipsychotic drugs; atypical properties; serotonin receptors, 7231
- receptor antagonists; neural receptors; glutamatergic neurotransmission; NMDA receptor; atypical antipsychotic drugs; atypical antipsychotic drugs; neurotransmitter systems, 7262
- receptor occupancy; dopamine receptor; time-course; plasma pharmacokinetics; antipsychotics; human brain; schizophrenia, 19494
- reduced bone mineral density; osteoporosis; schizophrenia; antipsychotic medication; hyperprolactinaemia-induced hypogonadism, 14166
- regional variation; clinical indicators; residential treatment; antipsychotic use; pediatric populations, 26692
- relapse prevention; schizophrenia; treatment compliance; long-term disease management; injectable long-acting antipsychotic medications; atypical antipsychotic drugs; risperidone, 8515
- rhabdomyolysis; bipolar disorder; quetiapine overdose, 26432
- risperidone; injection; antipsychotic drug; attrition rate; psychiatric patients; psychosis, 17076
- risperidone; olanzapine; atypical antipsychotics; psychiatric hospital; schizophrenia; treatment efficacy, 20269
- Routine Assessment of Patient Progress; outcome assessment; validity; antipsychotic medication; psychiatric inpatients, 12482
- safety; tolerability; antipsychotic therapy; long-term outcomes; schizophrenia; side effects; treatment adherence; psychotic symptoms, 11527
- schizoaffective disorder; acute psychotic episodes; schizophrenic patients; acute agitation; intramuscular ziprasidone, 11471
- schizoaffective disorder; therapeutic tolerance; rebound psychosis; schizophrenia; quetiapine maintenance monotherapy; male outpatients; long-term safety; efficacy, 11528

- schizoaffective disorder; therapeutic tolerance; rebound psychosis; schizophrenia; quetiapine maintenance monotherapy; male outpatients; long-term safety; efficacy, 11492
- schizophrenia treatment; acute treatment; long-term management; ziprasidone; pharmacotherapy, 11505
- schizophrenia management; atypical antipsychotic medication; mental disorders; metabolic abnormalities; metabolic disorders; primary care; schizophrenia; safety; effectiveness, 23287
- Schizophrenia Outpatient Health Outcomes Study; antipsychotic; schizophrenia; outpatient health; schizophrenia treatment; observational study, 23093
- schizophrenia patients; antipsychotic medication; illness cost; symptoms, 32469
- schizophrenia trial design; protocol development; antipsychotic drugs; drug effectiveness; Clinical Antipsychotic Trials of Intervention Effectiveness program, 3291
- schizophrenia-spectrum disorders; antipsychotic drugs; body mass index; obesity; comorbidity, 35537
- schizophrenia; cognition; ziprasidone; atypical antipsychotics; executive functioning; vigilance; attention; verbal fluency; olanzapine; risperidone, 13630
- schizophrenia; elderly patients; late onset; antipsychotic treatments; intervention strategies; cognitive changes, 34886
- schizophrenia; ethnicity; atypical antipsychotics; tardive dyskinesia; substance abuse; affective disorders; African Americans; treatment history; demographic information; conventional antipsychotic, 2232
- schizophrenia; first-episode; hippocampus; antipsychotics; N-acetylaspartate; creatine; phosphocreatine; choline-containing compounds; prefrontal cortex; basal ganglia, 2156
- schizophrenia; long-acting injectable medication; atypical antipsychotic treatment; treatment adherence, 17051
- schizophrenia; maintenance medication; antipsychotic medication; treatment compliance; drug efficacy; side effects; drug administration methods; doctor noncompliance reduction; relapse prevention, 8496
- schizophrenia; morbidity; mortality; cardiovascular diseases; antipsychotic-induced weight gain; metabolic abnormalities, 26347
- schizophrenia; osteoporosis; antipsychotic-induced hyperprolactinemia; lifestyle factors; risk factors, 35374
- schizophrenia; pharmacological management; racial disparity; African Americans; Blacks; Whites; adjunctive drug treatments; antiparkinsonian medications; Caucasians, 2186
- schizophrenia; psychomotor functions; neuroleptics; antipsychotics; driving skills; reactivity; stress tolerance; divided attention; attention, 20291
- schizophrenia; psychosis; clozapine; adjunctive valproate; topiramate; remission, 5289
- schizophrenia; psychotic symptoms; antipsychotics, 20364
- schizophrenia; sexual relations; sexual arousal; sexual desire; sexual dysfunction; sexual functioning; sexual activities; neuroleptics; masturbation; psychosocial rehabilitation, 5281
- schizophrenia; women; gender; conjugated estrogens; treatment; antipsychotics, 13639
- schizophrenic psychoses; treatment-resistant schizophrenia; atypical antipsychotics; clozapine; amisulpride; combination drug therapy; positive and negative symptoms; treatment outcomes, 17097
- second-generation antipsychotics; schizophrenia; clinicians; clinical decision-making, 20325
- selegiline; L-deprenyl; dopamine; sexual dysfunction; neuroleptics; antipsychotics; schizophrenia, 8517
- serotonin reuptake inhibitors; bipolar disorder; antidepressants; lithium; anti-convulsants; antipsychotics; electroconvulsive therapy; benzodiazepine; dopamine agonist; sleep-deprivation, 26429
- serum prolactin levels; psychotic symptoms; haloperidol; antipsychotic drugs; risperidone; Schizophrenia; risperidone; psychopathology scores; parkinsonism; dyskinesia, 13648
- serum testosterone levels; comorbid depression; major depressive episode; chronic schizophrenic patients; antipsychotic medications; inpatients, 11507
- serum triglyceride; antipsychotics; antipsychotic efficacy; weight gain; olanzapine; risperidone; drug therapy; drug side effects, 8505
- short-term efficacy; quetiapine; mood stabilizers; acute bipolar disorder; drug therapy; acute mania, 23209
- signal detection; receiver operator characteristics; decision making; neuroleptic choice; patients; prediction; physicians, 3264
- significant weight gain; antipsychotic medications; ziprasidone; psychosis, 35539
- source monitoring; autoecic agnosia; schizophrenia; cognitive deficits; positive symptoms; psychotic symptoms; risperidone; olanzapine; haloperidol, 5300
- spatial parameters; temporal parameters; gait disturbances; schizophrenic patients; locomotor patterns; neuroleptic treatment, 28735
- statistical approaches; effectiveness measurement; outcome-driven re-randomizations; clinical trials; antipsychotic drugs; drug effectiveness; schizophrenia; Alzheimer's disease, 3272
- stimulus properties; atypical antipsychotics; zotepine; rats; clozapine; quetiapine; drug discrimination, 13003
- stimulus-onset asynchronies; neuroleptic medication; blunted inhibition; Schizophrenia; visual attention; peripheral cues, 13628
- stress; dopamine; rats; prefrontal cortex; chronic treatment; olanzapine; neuropsychiatric disorders; clozapine; antipsychotic drugs; haloperidol, 18729
- subjective akathisia; objective akathisia; mixed akathisia; chronic schizophrenic subjects; diagnostic characteristics; akathisia prevalence; antipsychotic treatment; parkinsonism; tardive dyskinesia, 11512
- subjective response; antipsychotics; schizophrenia; psychopathology; side effects; emotional distress; awareness, 26421
- symptom control; long-term treatment; reducing relapse risk; atypical antipsychotic agents; ziprasidone; symptom efficacy data; schizophrenia, 11555
- tardive dyskinesia symptoms; adjunctive quetiapine; risperidone treatment; choreoathetoid movements; side effects; drug therapy, 11533
- tardive dyskinesia; antipsychotic agent; quetiapine; bipolar affective disorder; dysphagia, 17054
- tardive dyskinesia; atypical antipsychotics; dopamine-2 receptors; prevalence; incidence, 26385
- tardive dyskinesia; atypical antipsychotics; older adults; movement disorders, 26383
- tardive dyskinesia; mu opioid receptor; Chinese patients; receptor gene polymorphism; genotype distribution; long-term neuroleptic treatment; schizophrenia; antipsychotic therapy; genetic contribution, 7905
- tardive dyskinesia; neuroleptics; clozapine; olanzapine; aripiprazole; psychotic symptoms; schizoaffective disorder, 35532
- tardive dyskinesia; oxidative processes; antipsychotic treatment; neurotoxicity; free radical production; vitamin E; antioxidants; oxidative mechanism; antipsychotic medications, 5309
- therapeutic classification; psychoactive drugs; anxiolytics; antidepressants; antipsychotics; psychostimulants; rat; brain; statistical validity, 15812
- thermoregulation; schizophrenia; neuroleptic medication; heat stress; cold stress, 28692
- thrombotic thrombocytopenic purpura; patient history; neuroleptics; catatonia, 29040
- tic rate reduction; quetiapine; child & adolescent treatment; Tourette's disorder, 2196
- tranquilization; emergency treatment; behavioral disturbances; psychiatric emergencies; pharmacological treatment; atypical antipsychotics; agitation, 35834
- transcultural psychiatry; psychiatry training; racial disparities; ethnic disparities; minority groups, 29887
- transcultural psychiatry; psychiatry training; racial disparities; ethnic disparities; minority groups; haloperidol; risperidone; olanzapine, 29865
- transgenic vs wild type mice; overexpression of corticotropin-releasing factor; sensorimotor gating; startle gating; prepulse inhibition; haloperidol; risperidone; clozapine; chloridazepoxide, 715
- treatment efficacy; treatment effectiveness; first generation antipsychotics; second generation antipsychotics; drug therapy; schizophrenia; schizoaffective disorder, 8512
- treatment-resistant schizophrenia; antipsychotic drug combinations; therapeutic option; side effects; drug doses; olanzapine; amisulpride, 17096
- venous thromboembolism; antipsychotic drugs; dopamine antagonists; hyperprolactinemia; platelets; prolactin, 2237
- weight gain; leptin levels; negative syndrome scale; schizophrenic patients; olanzapine treatment; leptin; nizatidine; quetiapine; weight gain, 14124
- weight; metabolic parameters; clozapine; risperidone; olanzapine; quetiapine; chronic inpatients; schizophrenia; second-generation antipsychotics medications, 2180
- white matter lesions; executive function; late-onset depressive disorder; neuropsychological function; neuroendocrinology; vascular risk factors; drug therapy; antidepressants; treatment response, 17028
- ziprasidone; bipolar mania; tolerability; efficacy, 35567
- ziprasidone; bipolar-associated catatonia; lorazepam; intramuscular ziprasidone; antipsychotic drugs, 29353
- ziprasidone; clozapine; treatment-resistant schizophrenia; antipsychotic drugs; psychotic symptoms; drug combinations, 29411
- ziprasidone; Huntington's disease; motor functioning, 14253
- ziprasidone; psychosis; antipsychotics; neuropsychiatric conditions; hallucinations; speech disorder, 23270
- Ziprasidone; Schizophrenia; antipsychotics; QT interval, 20403
- ziprasidone; schizophrenia; dopamine D2 receptor; serotonin 5-HT2 receptor; PET; positron emission tomography; receptor occupancy, 26396
- ziprasidone; selective serotonin reuptake inhibitors; drug side-effects; atypical antipsychotic agents; mood disorders; treatment-resistant depression, 20376
- zotepine; behavioural symptoms; psychological symptoms; dementia; drug safety; antipsychotic drug, 29370
- Neuroleptic Malignant Syndrome—Serials**
- disease recurrence; neuroleptic malignant syndrome; mutations; ryanodine receptor gene isoform 3; antipsychotic drugs, 32075
- drug interactions; neuroleptic malignant syndrome; cardiovascular disease; depression; drug side effects; geriatric depression, 35573
- electroconvulsive therapy; antipsychotics; bipolar disorder; neuroleptic malignant-like syndrome; quetiapine; drug effects, 8485
- heat stroke; schizophrenia; clozapine treatment; rapid recognition, 23254
- methylprednisolone pulse therapy; neuroleptic malignant syndrome; Parkinson's disease; placebo, 23407
- neuroleptic malignant syndrome; adverse reactions; depressive symptomatology; psychomotor retardation; antipsychotic drugs; paroxetine; olanzapine; drug interactions, 8518
- neuroleptic malignant syndrome; dementia with Lewy bodies; donepezil monotherapy; drug therapy; drug side effects, 20474
- neuroleptic malignant syndrome; developmental disabilities; antipsychotic medications; schizoaffective disorder; mild mental retardation; clozapine; heat stroke; drug side effects, 10722
- neuroleptic malignant syndrome; drug induced hyperthermia; mortality rate; clinical presentation; differential diagnosis; risk factors, 35516
- neuroleptic malignant syndrome; learning disability; lifetime prevalence rate; neurological symptoms; psychiatric case studies, 1338
- neuroleptic malignant syndrome; psychoactive medications; neuroleptic treatment; African American male; respiratory distress; hepatic metabolism; olanzapine; fluphenazine; drug interactions, 8550
- neuroleptic malignant syndrome; risperidone treatment; side effects, 35585
- neuroleptic malignant syndrome; traumatic brain injury; drug therapy; neuroleptic drugs; side effects, 2299
- neuroleptic malignant-like syndrome; Alzheimer's disease; donepezil; maprotiline; drug interactions; drug side effects, 14289
- serum creatine kinase; leukocytosis; psychotic episodes; neuroleptic malignant syndrome development; risk; lactate dehydrogenase; serum glutamic oxaloacetic transaminase; white blood cell count, 7877
- ziprasidone; neuroleptic malignant syndrome; Parkinson's disease; diagnosis; drug therapy; drug side effects, 23378
- Neuroleptic Malignant Syndrome—Chapters**
- Neuroleptic malignant syndrome in children and adolescents, 1402
- Neurolinguistic Programming—Serials**
- self hypnosis; osteopathy; neurolinguistic programming; exhaustion; stress; anxiety; physical pain; performing arts; ballet dancer, 20427
- Neurolinguistic Programming—Books**
- Practical magic: A translation of basic Neuro-Linguistic Programming into clinical psychotherapy, 2025
- Neurolinguistics—Serials**
- aphasia rehabilitation; pharmacological perspectives; neurological injury; stroke; drugs; brain injury; biological therapy; behavioural therapy, 29179
- aphasia; brain mind interrelations; neurolinguistic theory; psychoanalysis; Sigmund Freud, 35333
- brain potential component N400; stimulus-response compatibility; task overlap; semantic activation, 30852
- clitics;agrammatism; neurolinguistic; language disorders, 19958
- Eleanor Saffran; single word processing; lexical processing; object naming; single word reading; single word repetition, 18549
- emotional prosody; speech condition; laterality; emotional intonations; linguistic meaning; frontal activation; subcortical activation, 585
- sensory words; linguistic elements; event related potentials; sensory mismatch; comprehensibility; metaphorical interpretation, 619
- Neurological Disorders** [See Nervous System Disorders]
- Neurologists—Serials**
- basal ganglia; brain-damaged individuals; behavioral neurologists; functional neuroimaging; deep brain structures; complex activities; semantic priming; new directions; empirical work; complex issue, 3616

Volume 91 SUBJECT INDEX

Neurologists—Serials

cerebral hemisphere; language mechanism; nervous system; neurologist; Ludwig Lichtheim; Carl Wernicke, 27744

epilepsy; psychiatric comorbid disorders; depression; anxiety; psychotic disorders; attention deficit disorders; psychiatrists; psychiatric evaluation; neurologists, 11263

migraine aura; sporadic hemiplegic migraine; migraine patients; clinical phenotype; International Headache Society classification; IHS; aura pathophysiology, 4857

migraine; sporadic hemiplegic migraine; typical aura migraine; familial hemiplegic migraine; motor weakness; neurologists, 4896

multiple sclerosis; diagnosis; treatment; health knowledge; patients; neurologists, 8131

psychogenic pseudoseizures; neurologists; psychiatrists; diagnostic significance; video-EEG procedure, 17542

Theodor Ziehen; neurologist; neurology; genetic torsion dystonia; Ziehen-Oppenheim syndrome; association psychology, 35938

Neurology—Serials

action attribution; first rank symptoms; schizophrenia; neural correlates, 31764

activities of daily living; ADL; neurologic patients; neurologic assessments, 15074

age; responding hand; visuospatial attention; neurology, 563

aging; motor system; brain; motor performance; neural correlates, 21716

Alzheimers disease; neuropharmacological basis; mementum use; Alzheimers disease treatment, 11672

ambiguity; brain; neurology; micro-consciousness, 34082

anatomical-clinical method; occipital cortex; clinical neurology; visual field deficit; primary motor cortex; visual information; angular gyrus; cortex lesion; sensori-motor systems, 18587

anosognosia; neurology; brain damage; hemiplegia, 20069

anticonvulsant therapy; epileptic seizures; seizure; neurology; clinical decision making; dose adjustment, 5413

anxiety-like behavior; morphine dependence; cAMP-responsive element binding protein; mice; physiological responses; drug addiction; emotional behavior, 24854

ataxia; genetics; etiology; pathology; neurology, 35327

auditory-visual synesthesia; pitch; visual perception; neural connections; language development, 33692

brain activity; neural correlates; attentional capture; visual search; frontal cortex; superior parietal cortex, 24727

brain tumors; psychiatric symptoms; depressive symptoms; minimal neurological signs; neuroimaging, 29016

disease modification; Alzheimers disease; anti-amyloid strategy; immunotherapy; treatment, 35622

dorsal visual stream; object size; object shape; visual attributes; stream activation; retrieval, 18293

emotional functioning; neurologic Wilson's disease; asymptomatic Wilson's disease; rheumatoid arthritis, 8160

epileptic patients; theta discharges; temporal region; headache; EEG recordings; anterior temporal lobectomy; anticonvulsant medication; epilepsy; MEG recordings; magnetoencephalogram; seizure, 16793

facial muscles; chewing muscles; human adults; taste stimuli hedonics; corrugator supercilii; venter frontalis; orbicularis oculi; depressor anguli; digastricus muscles, 6480

febrile seizures; family history; clinical characteristics; neurological status; FSS; patients; epilepsy, 16819

functional imaging; auditory processing; speech perception; neurology, 9886

idiopathic normal pressure hydrocephalus; neurological symptoms; aqueductal stenosis; headache; postural functions; cognitive functions; gait; wakefulness; urinary incontinence; neurosurgery, 8645

in utero administration; cocaine; pregnant rabbits; discriminative avoidance learning; neuronal activity; development; neuron structure; neuron function; behavioral acquisition; prenatal; low-salience, 721

individual differences; parental diaries; health services; newborn infants; crying patterns; common concern; blood sample; neurobehavioral exam, 15907

iron deficiency; anemia infants; prenatal cocaine exposure; neurodevelopmental outcomes; prenatal development, 16503

Klinefelter Syndrome; genetic syndrome; males; psychosocial issues; emotional issues; adaptive behavior; neurobehavioral issues, 28998

literature; brain function; mind; literary scholar; poet; poetry writing; poetic techniques; mental processing; consciousness; unconscious; mystic experiences, 30881

long-term outcome; neurological outcome; cognitive functioning; cerebral venous sinus thrombosis; headache; epileptic seizures; visual deficits; new episode, 8186

magnetic resonance imaging; functional deficits; right ventral extrastriate cortex; cortical anomalies; visuospatial processing deficits; preterm adolescents; neurology; low birth weight, 15906

manganese; substantia nigra; dicumarol; DT-diaphorase inhibitor; dopamine oxidation; neurotoxicity; neurodegenerative effects; behavioral effects; motor activity; rearing behavior; substantia nigra, 12988

MMPI 2; neurologic symptomatology; closed head injury patients; neurologic correction factors; receiver operating characteristic analysis, 190

morphological family frequency; M350 inhibition; magnetoencephalographic response time; lexical processing; lexical frequency; facilitory effect; root-affix competition; family size; neural correlates, 15670

movement control; EEG potentials; lateralized readiness potential; Bereitschaftspotential; BP; contingent negative variation; CNV; neurological patients; Parkinsons; amyotrophic lateral sclerosis, 35329

multiple sclerosis; neurological processes; traumatic brain injury; therapeutic potential; Cannabinoid ligands; spinal cord injury; cannabis smoking; sedation; tremor alleviation; pain; CNS disorders, 11237

neonatal Borna disease virus; neurobehavioral consequences; postnatal weight gain inhibition; rats, 6875

neural correlates; predicate-argument structure; language; prelinguistic mental representation; neural pathways; categorization, 9656

neural generators; event related potentials; brain regions; P300 potential; cortical generators; time-course, 30901

neural networks; neural correlates; cognitive-affective integration; covert decision making; ventromedial prefrontal cortex; amygdala; nucleus accumbens, 9280

neural processing; true memory retrieval; false memory retrieval, 18597

neural responses; speech sounds; central auditory system; evoked potentials, 9917

neurobehavior; sleep deprivation; event-related functional magnetic resonance imaging; sustained wakefulness, 18663

neurocognition; social function; clinical correlates; hopelessness; schizophrenia; personality; symptoms, 34878

neurocognitive functioning; long-term lithium treatment; neuropsychiatric disorders; adult neurogenesis; bipolar disorder; drug treatments, 11466

neurocognitive impairments; schizophrenia; psychosis; treatment outcome; epidemiology, 7902

neuroimaging; neural correlates; insight; problem solving; hippocampus, 18582

neurological anomalies; morphological anomalies; genetic liability; schizophrenia; neurological soft signs; biological relatives, 19446

neurological examination; primitive reflexes; healthy term newborns; tendon reflexes; cranial nerves; superficial reflexes; chest & head measurement; muscle strength & tone, 15915

neurological factors; motor impairments; language impairments, 1324

neurological impairment; cognitive impairment; leaded gasoline encephalopathy; chronic gasoline abusers, 29099

neurological soft signs; atypical antipsychotics; schizophrenia; cognitive efficacy; clinical efficacy; brain dysfunction; cognitive dysfunction; psychopathology, 29320

neurological soft signs; first-episode schizophrenia; psychopathology; trait characteristics; state characteristics; patients, 7916

neurological soft signs; neuropsychological performance; first episode schizophrenia; cognitive function, 1492

neurological soft signs; nonverbal memory performance; obsessive-compulsive disorder, 4663

neurology; memory, 3634

neurology; neuropsychology, 30887

neurology; psychiatry; neurological disorders; psychiatric disorders; drug therapy information, 5259

neurology; psychiatry; psychoanalysis; Mount Sinai Hospital; Department of Psychiatry, 30356

neuromotor function; schizotypal adolescents; neurocognition; schizotypal personality disorder; personality disorders; motor dysfunction; negative symptoms; perseverative responses; motor regions, 1551

neuropathological severity; severity predictors; Huntingtons disease; neuropathological grade; Quantified Neurological Examination scores, 11293

neuropsychological assessments; neurohistory; amateur neurohistorian; neuropsychology; history; didactic endeavors; cerebral dominance; aphasic disorders, 15480

parsing reward; neurosciences; learning; affect; brain circuits; motivation, 6843

phonological developmental dyslexia; phonetic categorical perception; neural substrates; adults; fMRI; functional magnetic resonance imaging, 8075

proton magnetic resonance spectroscopy; chronic fatigue syndrome; basal ganglia function; neurological diseases, 22919

psychiatric disorders; drug therapy; neurological disorders; psychiatric disorders; neurology; psychiatry, 14031

Neurons—Serials

psychiatric disorders; psychopharmacology; neuropsychopharmacology; neurotransmitters; receptors; biological markers; genetics; brain imaging; psychotropic drugs; anxiety disorder, 20359

schizophrenia; cognitive impairments; neural bases; clinical treatment, 4628

Sergei Sergejewitsch Korsakow; psychiatry; psychiatrist, 32879

social cognition; schizophrenia; autism; psychiatric disorders; neurocognitive skills; theory of mind; emotion perception; neural correlates; gyrus; amygdala; prefrontal cortex; frontal cortex, 34750

sociodemographic characteristics; neurological soft signs; bipolar I disorder, 25582

spontaneous cortical representations; cortical activity; information processing; dye imaging; visual cortex; cortical states switching; orientation maps; hypercolumns; proximal orientation, 3329

spontaneous cortical representations; cortical activity; information processing; dye imaging; visual cortex; cortical states switching; orientation maps; hypercolumns; proximal orientation, 3321

stereotyped behavior; deer mice; environmental enrichment; neurotrophin levels; cage conditions; neurology, 6998

stereotypes; caged parrots; schizophrenia; autism; striatum; basal ganglia; experimental validity; abnormal repetitive behaviors; captivity; recurrent perseveration; models; psychological distress, 3640

Theodor Ziehen; neurologist; neurology; genetic torsion dystonia; Ziehen-Oppenheim syndrome; association psychology, 35938

verbal auditory processing; nonverbal auditory processing; aphasia; language; environmental sounds; neural resources, 22995

Weber-Fechner law; neural correlate; neural basis; number neuron; mental number line; number representation, 15495

Neurology—Books

The cognitive neuroscience of music, 7013

Community rehabilitation in neurology, 5146

Mind, brain, and language: Multidisciplinary perspectives, 15988

Neurology—Chapters

Against memory systems, 3744

Conditional reflexes: An investigation of the physiological activity of the cerebral cortex, 639

Evidence from language breakdown: Implications for the neural and functional organization of language, 15640

I: Overview, 3438

Lesions of cortex and post-stroke plastic reorganization, 15638

Music and the neurologist: A historical perspective, 8329

The neurocognitive bases of developmental reading disorders, 16547

Neurologic aspects of Alzheimers disease, 1892

Neurologic aspects of dementia with Lewy bodies and Parkinsons disease with dementia, 1886

Neurological illnesses, 8331

Role of uncertainty in sensorimotor control, 3741

Neuromuscular Disorders [See Also Cataplexy, Gilles de la Tourette Disorder, Muscular Dystrophy, Myasthenia Gravis, Paralysis]—Serials

amyotrophic lateral sclerosis; augmentative and alternative communication technology; patient acceptance, 26120

arousal response; leg movements; restless legs syndrome; RLS; nocturnal evolution; slow wave activity; electroencephalographic; RLS patients; sleep wake cycle, 16629

central fatigue; neuromuscular fatigue; magnetic stimulation; motor cortex; tetanic mechanogram; exercise, 6835

clinical neurophysiology; electromyography; neuromuscular disorders; therapeutic strategies; patients, 8316

communication effectiveness; amyotrophic lateral sclerosis; speech intelligibility, 22906

disc herniation types; lumbar disc disease; daily living activities; interruption duration; clinical variables; treatment outcomes; radiological diagnosis; surgical recurrence; surgical timing; age, 35183

frontal executive skills; amyotrophic lateral sclerosis patients; cognitive ability; frontotemporal lobar dementia; FTLD, 8273

ipsilateral cerebellar dysfunction; unilateral cerebellar lesions; arm movements; bilateral cerebellar activation; unilateral cerebellar infarctions; contralateral hand; dysmetria, 16773

Neurons [See Also Axons, Dendrites, Ganglion Cells (Retina), Motor Neurons, Purkinje Cells, Sensory Neurons]—Serials

abstract rules; applying experience; neural network model; rule-guided behavior; working memory; brain; simulation; neural system identification; rule-selective neurons; connection weight, 24116

- acetaldehyde; dopamine containing neurons; ventro tegmental area; neuronal activity; burst firing; spikes burst; firing rate; electrophysiological parameters; motivational properties; ethanol effects, 18637
- acetylcholine; striatal neurons; rats; selective muscarinic agonists; oxotremorine M; nicotinic agonists; nicotine, 13097
- adaptation characteristics; motion visual evoked potentials; motion adaptation; transient motion VEPs; steady-state VEPs; neural adaptation, 7052
- adenosine A1 receptor mediated presynaptic inhibition; immature hippocampal CA1 neurons; rats; GABAergic transmission, 15516
- adenosine deaminase; goldfish brain; A₁ adenosine receptor; adenosine deaminase binding protein; neuronal cell; rhombencephalon; optic tectum; telencephalon; cerebellum, 9820
- adult hippocampal neurogenesis; cellular plasticity; major depression; etiology; neurons; hippocampus, 1426
- age-related changes; dendritic changes; spine changes; corticocortically projecting neurons; macaque monkeys; superior temporal cortex; prefrontal area, 6878
- age-related hearing loss; aging effect; neural representation; speech cues; perception; time-varying cues, 6544
- amygdala oscillations; memory consolidation; emotional arousal; basolateral amygdala neurons; stress hormones; neuromodulators, 18695
- amylin antagonist; area postrema; food intake; peripheral amylin; anorectic effect; cGMP, 21880
- amyloid β protein; neuronal fibrillogenesis; long-term memory; crabs; Alzheimer's disease implications, 9883
- anaesthetized cat; urinary bladder; sympathetic vasoconstrictor neurons; pain; hyperalgesia; visceral afferents; skeletal muscle; bladder distension stimuli; vesico-sympathetic reflexes, 12841
- anxiolytic effects; median raphe nucleus lesion; neurons; limbic forebrain; anxiety; electrolytic lesion; 5-HT-selective neurotoxic lesion; dorsal raphe nucleus; T-maze, 30832
- apoptosis; picrotoxin; hippocampus; hepatic encephalopathy; rat cortical neurons; cell death; neuronal cell, 6944
- area 17 neuron pairs; spike trains; temporal resolution; peak orientation; orientation discrimination; hyperacuity; substantial cooperation, 15674
- artificial neural network; single-neuron responses; thalamic taste relay; gustatory responses; rats, 12780
- associative memory; inferotemporal cortex; memory encoding; monkeys, 21651
- attentional effects; primate prefrontal cortex; focused attention; neurons; monkeys; visual responses, 34012
- auditory stress; stress-induced activation; corticotropin-releasing hormone; paraventricular nucleus; catecholaminergic neurons; medulla oblongata, 6901
- auditory fear conditioning; fear extinction; tone-evoked activity; infralimbic subregion; medial prefrontal cortex; electrical stimulation; conditioned freezing; tone onset; response gating; amygdala, 18647
- axotomized & intact dorsal root ganglion neurons; spinal nerve ligation; partial rhizotomy; hyperalgesia; allodynia; rats; electrophysiological changes, 15540
- balanced inhibition; neural tuning; tone evoked responses; spike timing; auditory cortex; cortical receptive fields formation; neurons, 7009
- basal forebrain neurons; behavioral responses; cognitive processes; neuronal responses; task performance; reinforcement; rewards; learned significance; monkeys, 18625
- basolateral amygdala; substance P receptor immunoreactive interneurons; rat; neurotoxin; substance P saporin; anxiety related behavior, 6932
- behavioral depression; uncontrollable stress; serotonergic neurons; habitual physical activity; dorsal raphe nucleus; neurons; inhibitory autoreceptors; escape responding, 21588
- behavioral effects; neuronal effects; repetitive nociceptive stimulation; gonadal hormones; rats, 7163
- behavioral patterns; c elegans egg laying; nematodes; serotonin; neurons; muscles controlling; serotonin adaptation; motoneurons, 7256
- Bienenstock-Cooper-Munro learning rule; spike-timing-dependent plasticity; STDP; presynaptic neurons; postsynaptic neurons; Poisson spike trains, 574
- bisphenol A; endocrine disrupter; sex difference; preoptic area; bed nucleus; stria terminalis; corticotropin-releasing hormone; hormone-immunoreactive neurons; lactation; pregnancy; rats, 15748
- brain function; rat subependyma; rat neural stem cells; ventricular subependyma, 6898
- brain regions; primary motor cortex; neural correlates; stroke recovery; neuronal reorganization; functional magnetic resonance imaging; recovery, 22896
- brain serotonergic neurons; stress; rats; dorsal raphe nucleus; brain stem, 30879
- brain-derived neurotrophic factor; synaptic transmission; dendritic spine density; hippocampal neurons; pyramidal neurons; spine growth; Sprague-Dawley rats, 21529
- brain; tool use; body schema; neural networks; body shape; body posture; multisensory space coding; humans; animals, 27762
- Broca's area; imitation; neurons; manual finger movements; motor task; language, 15511
- caenorhabditis elegans; functional asymmetry; chemosensory receptor expression; receptor neurons; taste receptor; nervous system; homeobox gene, 9847
- Cajal-Retzius cells; transcription factors; neurotransmitters; pallial neurons; reelin; interneurons; subpallial transcription factor; migrating interneurons; cortex; corticogenesis, 21595
- calcium binding proteins; prefrontal cortex; schizophrenia; neuronal density; cortical thinning; calretinin; parvalbumin; GABAergic interneurons, 13644
- callosal neurons; electrophysiological properties; cat association cortex; excitatory postsynaptic potentials & inhibitory postsynaptic potentials; antidromic responses, 15493
- cell cycle; neuronal cell death; disease stages; Alzheimer's disease; mild cognitive impairment, 23020
- cell cycle; rat midbrain; organogenesis; gestational days; in vivo changes, 21625
- cell migration; forebrain; mammalian brain; radial migration; tangential migration; cellular complexity; forebrain development; pathology, 6942
- cell proliferation; adult neurogenesis; dentate gyrus; multiple receptor subtypes; receptor agonists; chronic administration; acute administration; cell growth stimulation; Wistar rats, 18708
- cellular change; neuronal responsiveness; long term memory; neurons, 578
- cellular physiology; neonatal rat; cerebral cortex; neurogenesis; neuronal migration; cellular differentiation; programmed cell death, 6937
- central amygdaloid nucleus; gustatory neurons; rat; parabrachial nucleus; electrical stimulation; electrolytic lesion, 3779
- cerebellar activity; fastigial burst activity; saccadic gain adaptation; monkey; neural activity; neuronal discharge; saccade-related neurons; fastigial oculomotor region; adaptation, 6911
- cerebellar neuronal activity; conditioned eyeblink responses; Pavlovian conditioning; temporal relationships; conditioned stimulus; unconditioned stimulus; brain, 6859
- cerebral response; visual stimulation; visual loss; neural mechanisms; visual cortex; functioning magnetic resonance imaging, 26188
- cerebrovascular pathology; Alzheimer's disease; cerebral malformation; endothelial proliferation; angiogenesis; tumor growth; perivascular endostatin deposits; cerebral hemispheres; hypoxia; brain, 13938
- chaotic neuron model; stochastic behavior; neural networks; EEG; neuron dynamics, 15475
- Chinese Hamster Ovary; DAT-CHO; dopaminergic neurons; chronic diseases; induced neurons; DA; DAergic neurons; dopamine uptake; green tea polyphenols; induced injury, 5326
- cholinergic neurons; basal forebrain; neuronal lesions; spatial working memory; cerebellar Purkinje cells, 15595
- chronic haloperidol; clozapine treatment; neurogenesis; adult rat; hippocampus; antidepressants; mood stabilizers; chronic antipsychotic treatment; cell proliferation, 24813
- cingulate cortex; cortical pyramidal neurons; cortical glutamatergic neurons; serotonin 5-HT_{1A} receptors; rats; receptor protein distribution; protein localization, 6866
- clozapine; electrophysiology; haloperidol; ventral tegmental area dopamine neurons; schizophrenia model; rats, 779
- cocaine abusers; dopamine neurons; pathogenesis; Parkinson's disease; alpha-synuclein; causative agent, 22684
- cochlear nucleus angularis physiology; barn owls; cellular morphology; neurons; computational diversity, 21618
- cognitive neuroscience; numerate neurons; neuronal encoding; linear encoding; logarithmic encoding; mathematical cognition; computation ability; nonhuman primates; numerosity judgements, 15597
- cognitive performance; repetitive transcranial magnetic stimulation; task performance; alpha frequency, 15654
- cognitive status; neurofibrillary tangles; tangle number; neuron number; amyloid load; Alzheimer's disease; brain aging; hippocampus; entorhinal cortex; dementia, 16763
- color vision; primary visual cortex; chromatic context; color constancy; visual area; V1; internal cone-input structure; color perception; neurons; receptive fields, 3654
- complex partial seizures; lateral ventricles; periventricular heterotopia; neuronal nodules; mutations; cortical malformations; 5p chromosome anomalies, 13998
- cortical areas; pyramidal neurons; corpus callosotomy; epileptic condition; dendrites; supragranular neurons; deafferentation, 575
- cortical crosstalk; binding problem; color; achromatic form; motion; neural activity; retinogeniculate encoding; synchronization; segmentation; equiluminant images; stabilized images, 30838
- cortical neurons; prefrontal cortex; pyramidal neurons; cortical areas; white matter; frontal lobe; cell bodies; anterior cingulate gyrus, 34044
- corticotropin-releasing factor; gamma aminobutyric acid; paraventricular nucleus; hypothalamus; neuron activity; glutamate circuit control, 34003
- crucian carp; teleost olfactory bulb; functional subdivision; chemical stimulation; neurons; skin extract; medial region; conspecifics, 15510
- Cuscuta chinensis glycoside; neuronal differentiation; rats; pheochromocytoma PC12 cells; kinases; PD98059; acetylcholinesterase; herbal medicines, 732
- decaying synapses; neuronal networks; synchronization, 6153
- developmental neurotoxicity; nuclear transcription factors; neurotoxic effects; forebrain neurons; neonatal period; cell damage; chlorpyrifos; toxicogenomics; brain development; c-fos; mRNA; p53, 3621
- differential subcellular localization; phosphorylated neurofilament; tau proteins; degenerating neurons; human entorhinal cortex; neurofibrillary tangles; Alzheimer disease; morphological changes, 8291
- dihydroxyphenylacetaldehyde; toxic dopamine metabolite; Parkinson disease pathogenesis; dopamine neurons; substantia nigra; monamine oxidase metabolite; toxicity; rat; ventral tegmental area, 7157
- directional behavior; pleurobranchia; single interneurons; multifunctional serotonergic cells; stimulus intensity; noxious stimuli; food stimuli; motor output; avoidance conditioning, 21415
- domestic chick; neural correlates; memorized associations; cued movements; archistriatum; sensorimotor coordination, 21532
- dopamine; potassium current; prefrontal cortex; neurons; cognitive activity; schizophrenia; drug addiction; rats, 21573
- dorsal prefrontal cortex; neuropeptide Y interneurons; schizophrenia; prefrontal region; schizophrenic patients; proportional comparisons, 13633
- dorsolateral prefrontal cortex; nondeficit schizophrenia; deficit schizophrenia; pathophysiology; white matter; neuronal density, 1485
- ecstasy; MDMA; neuronal inclusions; morphological changes; striatal cells; nigral cells; DNA damage; heat shock protein; 3,4-Methylenedioxymethamphetamine; mice, 24805
- electroencephalographic mu rhythm; object-directed grasp; mirror neuron activity; brain system, 21647
- estrogen replacement; gracile nucleus neurons; visceral stimulation; nucleus neurons; estrous cycle; ovariectomy; hindquarter skin; pelvic viscera, 3607
- ethanol withdrawal; dendritic development; ethanol exposure; exposure duration; developmental stages; neurons survival; hippocampal neurons; rats, 18763
- extraneuronal monoamine transporter; normetanephrine; norepinephrine reuptake inhibitor antidepressant, 26427
- eye position; primary auditory cortex; spatial sensitivity; neurons; visual pathways; rhesus monkeys, 3732
- face perception; overlapping faces; orientation; perceptual dominance; inferotemporal neurons; children vs adults; development; exposure duration, 7381
- fluoetamine administration potentiates; olanzapine; locus coeruleus neuronal activity, 24848
- fly motion vision; high-pass filter; low-pass filter; model; adaptation; response transients; fly neurons, 21545
- frontotemporal dementia; neuronal loss; gliosis; Pick's disease; frontotemporal lobar degeneration; tau, 22998
- functional autapses; synaptic transmission; neurons; physiological role; cerebral cortex; neocortex; practical utility, 15478
- functional circuitry; working memory; prefrontal neurons; dopamine D2 receptor; cognitive processes, 12894
- GABA; glycine; neurotransmitters; neurons; thermal hyperalgesia; chronic constriction injury model; neuropathic pain; rats, 6971
- GABAergic interneurons; synaptic signaling; oligodendrocyte precursor cells; hippocampus; neurotransmitters, 15536
- gamma aminobutyric acid; secretory activity; rat; oxytocin; neurons; supraoptic nucleus; taurine; hypothalamus, 34015
- gamma aminobutyric acidergic neurons; psychotic disorders; age differences; brain regions; rats; amphetamine; region-dependent alterations; pathogenesis, 18820
- gamma frequency bursting; chattering neurons network; hippocampus; calcium sensitivity; cationic current; cortical pyramidal neurons; binding processing, 18001

- gamma-hydroxybutyrate treatment; narcolepsy; locus coeruleus norepinephrine neurons; rats; spontaneous firing, 21744
- gene expression; rat striatum; molecular alterations; cortical inputs; cocaine; behavioral context, 15823
- generalized feedforward neural networks; pattern classification & regression; shunting inhibition; generalized shunting neuron; perceptron, 9260
- genetic disruption; cortical interneuron development; epilepsy; behavioral dysfunction; cell migration; cell differentiation; brain development; GABA cell deficits, 12792
- genomic effects; nongenomic effects; intrahippocampal microinjection; androgens; testosterone; long-term memory; intracellular receptors; neuronal excitability; male adult rats, 30992
- glucose lowering effect; neonatal mice; neurophysiological changes; blood glucose; neural cell; brain histology; phenylpyruvate; phenylketonuria; neurodegenerative changes, 21838
- glycine; dentate granule cells; hilar interneurons; rat hippocampal slices; strychnine, 15490
- glycine; single central synaptic terminals; postnatal development; lateral superior olive; synapse; miniature inhibitory postsynaptic currents; rats; postnatal development, 15555
- gravitational overloading; spinal cord; gray matter; reactive changes; movement coordination; rats; nervous system; structural rearrangements, 9872
- head rotation; gauging inhibition; vestibular responses; secondary vestibular neurons; bicuculline; rats; picrotoxin, 7210
- Hebbian learning; backpropagation; output neurons; hidden neurons; multilayer perceptron; feedback connections; learning algorithm; scalar prefilter, 6165
- hippocampal circuit; synapses; pyramidal neurons; interneurons; glutamatergic synapses; peridentate interneurons; GABA; perisomatic interneurons; cortical circuit; GABAergic synapses, 15505
- hippocampal map; hippocampal pyramidal cells; spatial learning deficits; spatial reference frames; spatial representation; spatial selectivity; external cues; hidden goal; adult rats; aged rats, 15378
- hippocampal neurons; tumor necrosis factor alpha; cytosolic calcium responses; rat; potassium chloride; AMPA; calcium channel; sleep, 6871
- hippocampal pyramidal neurons; schizophrenic patients; neuronal size, 7872
- hippocampus; cell fate specification; tissue development; Alzheimer disease; kainic acid; protein expression; drug treatment; postmitotic neurons; excitotoxic stimuli, 7269
- hippocampus; self-motion perception; perirhinal cortex; brain lesions; neurons; theta rhythm; electrical cortical responses; movement velocity; ibotenic acid; foraging behavior, 9919
- horizontal connections; collinear facilitation; population activity; tree shrew; visual cortex; optical imaging; electrophysiology, 21561
- human frontal eye fields; neurons; macaque monkeys; motor processes; visual processes; visual search; visual target discrimination, 30864
- human striatum; nucleus accumbens; aromatic L-amino acid decarboxylase; D-neurons; L-dopa; neuropsychiatric functions; pharmacotherapy; dopamine; noradrenaline, 18751
- idiopathic generalized epilepsy; cortical-subcortical interactions; pathophysiology; neurons; seizures, 13922
- idiopathic generalized epilepsy; glutamate concentrations; glutamine concentrations; frontal lobes; neuronal dysfunction, 14000
- immunoreactivity; astrocytic markers; reperfusion; focal cerebral ischemia; glia; tissue damage, 6930
- impairment; stroke; neurons; cell death; neural firing rate; cosine directional tuning; cortical activity; population vector model; movement control; hand movements, 4951
- impulse response; motion stimulus; transient response; motion adaptation; pattern contrast; step response; transient oscillations; H1-cell; Calliphora vicina; fly motion-sensitive neuron, 21672
- indeterminate sleep; nonlinear structure; full-term newborns; nonlinear EEG; premature newborns; brain dynamics; active sleep; quiet sleep; synaptic interconnections; newborn brain, 7046
- inferior temporal cortex; horizontal disparity; stereoscopic vision; depth perception; visual pathway; neurons; visual images; false binocular matches; stereopsis; primates; humans, 15217
- inferior temporal cortex; object recognition; shape changes; neuron; shape tuning; macaques, 21612
- information encoding; neural ensembles; decoding algorithm; hippocampal neuron spiking activity; neurons; foraging rats; stochastic state-space model, 21539
- inhibitory effects; spinal baclofen; spinal dorsal horn neurons; neuropathic rats, 13079
- inhibitory motor control; motor response; attention-deficit hyperactivity disorder; neural deficiencies; event-related potentials; inhibitory performance; disordered children, 8053
- inhibitory synapses; neurotransmitter transporters; synapse density; hippocampal interneurons; GABA transporters, 21654
- instrumental conditioning; tactile stimulus; classical conditioning; unconditioned stimulus; learning; neuronal reactions; painful stimulus; mollusk, 9895
- interstitial white matter neurons; TWIMNs; reelin; abnormal distribution; schizophrenia; developmental signalling molecule; neurodevelopmental hypothesis; morphometry; cortical development, 12826
- Kir6.1-protein; pore-forming; ATP-sensitive potassium channels; giant cholinergic interneurons; striatum; rat brain; sulfonylurea receptor; neurotransmitter release; pharmacological agents, 3719
- lateral hypothalamus; body weight regulation; neural development; single-unit activity; dopamine; dopaminergic receptor antagonists; cholecystokinin, 10067
- lateral intraparietal area; apparent motion stimulus; medial superior temporal area; neuronal responses; parietal neurons; motion stimulus; monkeys; parietal activity; ambiguous apparent motion, 15602
- leaky integrate-and-fire neuron; threshold fatigue; stimuli response; step currents; stimulus onset, 3766
- learning deficit; memory deficit; elevated TAU; mutations; mushroom body neurons; microtubule-binding protein accumulation; olfactory perception; Drosophila; behavioral plasticity, 24693
- lithium; colchicine-induced apoptosis; rat; cerebellar granule neurons; mood stabilizers; lithium; valproic acid; neurotoxicity, 27900
- lobster; pyloric rhythmicity; follower neurons; rhythmic pyloric network; cycle period control; pacemaker, 15599
- long-term potentiation; long-term depression; ATP; hippocampus; CA1 neurons; guinea pig; synaptic plasticity; adenosine triphosphate, 10062
- long-term memory; polyADP-ribosylation; neurons; alysia; nuclear proteins; DNA damage; eukaryotic cells; polymerase, 27688
- low-dose methylphenidate; adolescent exposure; dopamine neurons activity; rat midbrain; cocaine; self-administration; neuronal excitability; abuse liability, 7156
- mammalian cerebral cortex; calcium signaling; cortical neurons; inositol triphosphate; pyramidal neurons; prefrontal cortex, 21698
- median bundle nerves; behaviours; Drosophila male courtship; Drosophila melanogaster; fruitless gene; Fru gene; gene expression; courtship behavior, 30801
- memory formation; cell-permeable phospholipase; neurons; long-term spatial memory; C gamma 1 binding cell-penetrating peptide, 24651
- memory performance; temporal lobe; identification performance; neural activity; explicit memory; memory changes, 27820
- mental state attribution; other orientation; other behavior prediction; mental processes; electrical activity; neural processes; action preparation, 15564
- mitogen-activated protein kinase; neurotrophic factor; antidepressant treatment; intracellular signaling; noradrenergic receptors; tyrosine kinase; epidermal growth factor, 3721
- model; visual motion perception; two pathways between retina & cortical area MT; striate cortex lesions; magnitudes & latencies of neural responses; stimulus speed; MT area; MST area; monkeys, 3600
- molecular basis; plasticity; visual cortex; visual cortical neurons; intercellular communication; cortical circuits, 6841
- molecular mechanisms; signaling pathways; gene expression; neurons; upstream stimulatory factors; responsive transcription, 21559
- motor programs; buccal ganglia; excitatory postsynaptic potentials; synaptic connections; ganglia neurons; cerebrocortical interneurons, 21599
- mouse sensory cortex; pyramidal neurons-derived endocannabinoids; afferent inhibitory strength; neuronal synapses; retrograde signaling, 21706
- multilayer perceptron; MLP; computer simulations; feedforward network; bottom-up approach; neural network; neuron; sensitivity, 6166
- muscarinic blockade; intracerebroventricular injections; rat hippocampal pyramidal cells; cholinergic transmission; scopolamine; cell activity, 12979
- muscle activity prediction; primary motor cortex neurons; monkeys; neuronal discharges, 21645
- natural visual stimuli; neural networks learning; neuron nonlinearity; linear kernel, 12391
- nerve growth factor; cholinergic neurons; virus sector; hippocampus; rats; axonal sprouting; cortical injury; entorhinal cortex, 21670
- nervous system; neurons; neuronal networks; neuroscience; neurotransmitters; cognition; brain, 15472
- neural coding; gustatory nerve; anterior tongue; neural system; mice; amiloride sensitive neural coding; salt taste discrimination; chorda tympani, 21720
- neural decision processes; neural correlates; flexible neural behavior; stimulus encoding; behavioral reaction time; sensorimotor structures; neural chronometry; mental chronometry, 15572
- neural excitotoxicity; cerebral ischemia; cortical neurons; rats; inhibitory neurons; principal neurons; short-term ischemia; pyramidal neurons, 15598
- neural population codes; population activity; Poisson spike statistics; average spike firing rate; neural computation; brain function; neuron behavior, 15675
- neural processes; bicuculline disinhibited cat motor cortex; operant conditioned reflex; forepaw support; local disinhibition; m-methyl-d-aspartate; NMDA, 9861
- neural responses; natural signals; natural stimuli; neurons; visual neurons; auditory neurons, 21690
- neural stem cells; adult forebrain; glial fibrillary acid protein; herpes simplex virus thymidine kinase; mice, 21601
- neurite outgrowth; neuron growth factor; NGF; methylmercury; autophosphorylation; neurotrophin signaling; nervous system, 21891
- neuroanatomy; cortex structure; neural function; neural tracers; gene expression, 18555
- neurobiological network; spiking activity; parallel channels; neurons; synaptic inputs; detection; mean-rate discrimination; models, 6965
- neurodegeneration; neurotrophic factor signaling; signaling pathway; neuron growth; neuron maintenance; Down syndrome, 21682
- neurodevelopmental disorder; language disorder; motor coordination; serum antibodies; rodent purkinje cells; maternal neuronal antibodies; autism; pregnant mice, 22723
- neurolept; normal aging; genetic characteristics; toxicity; Parkinson's disease; substantia nigra, 7011
- neuron activity; monkey putamen; behavior-reactive neurons; neostriatum, 27826
- neuron computation; spiking neuron; action potentials; complex dynamical input, 9904
- neuron loss; Alzheimer disease; cholinergic nuclei; aminergic nuclei; cholinergic nucleus basalis; noradrenergic locus coeruleus; dopaminergic substantia nigra; serotonergic dorsal raphe nucleus, 5030
- neuron loss; Alzheimer's disease; brain aging; Purkinje cells; glial activation; synaptic plasticity, 6886
- neuronal activity; inferior colliculus; tegmentum; vocal communication; squirrel monkeys, 30880
- neuronal activity; saccadic eye movements; rostral superior colliculus; pursuit; gap effect; monkeys, 21619
- neuronal activity; visual representation of arm movements; lateral cerebellar cortex; monkeys, 15538
- neuronal aggregate formation; spatiotemporal dynamics; nonsynaptic seizure initiation; seizure frequency; seizure amplitude, 21542
- neuronal cell death; methamphetamine; brain-derived neurotrophic factor; neuropsychiatric damage, 10022
- neuronal cytoskeleton; nerve fibers; electron microscopy; nervous system; Sigmund Freud; cell bodies; crayfish nervous tissue; neurofibrils; nerve cells; microtubules, 15503
- neuronal expression; glial fibrillary acidic protein; Alzheimers disease; GFAP splice forms; biomarker; glia; neurons; hippocampus, 13956
- neuronal nitric oxide synthesis; L-arginine; pharmacokinetics; amino acid; pharmacodynamics, 7197
- neuronal recruitment rate; neuron number; structure size hippocampal volume; black-capped chickadee birds; hippocampal neuron production; apoptosis; neuron survival; seasonal stability, 18573
- neuronal spike trains; information processing; functional specialization; brain regions; microelectrode recordings; globus pallidus internus, 9249
- neurons; long-term memory storage; cognitive function; hippocampus; monkeys; neocortex, 21586
- neurons; primary visual cortex; contour integration; texture continuation; geometrical computations, 27713
- neurons; rat embryos; fibroblast growth factor; mesencephalic precursors; midbrain, 6931
- neuroprotective effects; central nervous system; neuronal survival; neurotoxicity; natural polyphenols; primary cultured cortical neurons; glutamate induced neuronal death; glucose deprivation, 3927
- neuroserpin; visual cortex; developmental critical period; neocortex; reverse transcription polymerase; mice, 21715
- neurotrophic effects; neurotoxic action; zinc exposure; neonatal cortical neuron; rat; necrotic neuronal death; apoptotic neuronal death; zinc deficiency; chelatable zinc, 9824
- neurotrophins; postnatal development; rat skeletal muscles; neuromuscular system; glial cell line-derived neurotrophic factor; GDNF; GDNF expression; rat gastrocnemius; soleus muscles, 3687

- neurovascular regulation; Alzheimers disease; cerebrovascular control mechanisms; brain regions; brain blood flow; neurons; astrocytes; vascular cells, 24686
- nitric oxide synthesis; neurons; striatum; postnatal development; prenatal development, 21646
- nitric oxide; magnocellular neurons; paraventricular nucleus; supraoptic nucleus; cyclic GMP; mice, 12890
- nondopaminergic symptomatic therapies; Parkinson's disease; istradefylline; dopaminergic neurons; dopamine replacement strategies; adenosine receptor antagonist, 8619
- nucleus reticularis thalami; cortical cells; neurons; rats; electrophysiology; neurons, 34022
- number of glial cells; prefrontal cortex; subregions; schizophrenia; Brodmann's area; anterior cingulate cortex; number of neurons, 25678
- odorant-evoked patterns; receptor neuron input; mouse olfactory bulb; intrinsic optical signals; spatial patterns, 15596
- orientation difference; neurons deficiency; visual cortex; oblique effect; neural locus; meridional anisotropy; visual processing, 9606
- paraquat; dopaminergic neural vulnerability; organotypic midbrain culture; paraquat toxicity; herbicide; Parkinson's disease; rat; midbrain; dopamine, 7255
- parietal cortex; neural coding; flexible control of behavior; sensory information; non-human primates; parietal neurons; attention, 15474
- pathological changes; cortical neurons; sporadic Creutzfeldt-Jakob disease; morphological abnormalities; neuronal perikarya; cerebral cortex; elderly patients, 11225
- perirhinal cortex; layers ii/iii; hippocampal formation; incoming information; associative function; sensory information; lateral amygdaloid; amygdaloid nucleus; entorhinal cortex; sensory input, 21610
- phase synchronization; synchronized neuronal gamma activity; selective attention; attentional process; induced & evoked gamma oscillations; attentional modulation, 9909
- plasma levels; milnacipran treatment; paroxetine treatment; catecholamine metabolites; catecholaminergic neurons; depressed patients; 3-methoxy-4-hydroxyphenylglycol, 11557
- polypeptides; hyperpolarization; neurons; ascending pathways; neurotransmitters; brain activity, 21743
- posterior hypothalamus; sleep-wake cycle; electrophysiological study; histaminergic neurons; hypothalamic neurons; paradoxical sleep; H3-receptors; freely moving cats, 649
- posterior hypothalamus; sleep-wake cycle; electrophysiological study; histaminergic neurons; hypothalamic neurons; paradoxical sleep; H3-receptors; freely moving cats, 24742
- postsynaptic structures; culture medium; cerebellar granule neurons; CGNs; depolarizing agent; synaptic vesicle-like vesicles; SVVs; rat; survival conditions; exocytosis, 3723
- prefrontal cortex pyramidal neurons; density; size; distribution; morphology; bipolar disorder; major depression; schizophrenia, 4566
- presynaptic GABA release; substantia nigra pars compacta; Gamma-hydroxybutyrate; alcohol abuse; patch-clamp recordings; calcium influx; inhibitory postsynaptic currents; dopaminergic neurons, 18559
- primary somatosensory cortex; neostriatal neurons; neostriatum; corticostriatal projections; forelimb; rats, 15514
- primate caudate; neural activity; reward-oriented behavior; caudate projection neurons; motor outputs; basal ganglia; saccade parameters, 21605
- primate cerebellum; body motion; spatial orientation; self motion perception; postural control; cerebellar motion-sensitive neurons; vestibular end organs, 27789
- projection neurons; goal-directed planning; neural substrate; cortico-basal ganglia; sequence motor tasks; synchronous activation, 15525
- projection neurons; zebra finches; auditory responsiveness; behavioral state-dependent changes; avian song system; forebrain nucleus HVC; spikes; firing rates, 15450
- propofol; antiepileptic activity; hippocampal pyramidal neurons; convulsant veratridine, 18780
- pyramidal cell size reduction; schizophrenia; auditory feedforward circuits; auditory cortex; cell soma volume; pyramidal neurons, 28746
- pyramidal neuron; occipital cortex; prefrontal cortex; temporal cortex; cell morphology; pyramidal cells; owl monkey, 21577
- pyramidal neurons; rats; prefrontal cortex; synaptic transmission; dopamine, 21843
- quiet wakefulness; behavioral state; animal model; quiet sleep; male cats; hypocretinergic system; somatomotor activity, 3838
- quinine; trigeminal subnucleus caudalis; chemosensitive cells; c-fos immunohistochemistry; immunoreactivity; rats, 15676
- rapid temporal modulation; synchrony; cortical interneuron networks; neurons; visual cortex, 24119
- rat blood-brain barrier; forebrain astrocytes; microvascular endothelial cell; nucleoside efflux; adenosine permeation; metabolite inosine; vitro cell culture, 6962
- rate code; transmission; feedforward networks; excitatory-inhibitory balance; neurons; synaptic connections, 21627
- rate coding; temporal coding; multilayered feedforward networks; spike timing; neural network; synchronous firing; response time; neuron heterogeneity, 6156
- rats; central hypocretin-1 administration; hemodynamic responses; sympathoadrenal effects; young adult vs middle aged rats; blood pressure; heart rate; plasma catecholamines; norepinephrine release, 7201
- real vs self induced motion; cortical areas; dorsal visual stream; brain lesions; impairment; V3A & V6 cells; attention to moving objects; MTV5 & MST & 7a cells; motion during pursuit; monkeys; humans, 3637
- reverse-phi motion; neurons; cortex; macaque monkey; stimulation; movement perception; illusions, 15551
- self-organizing; neural network; visual cortex; brain; ordered structures; cell density; bifurcation equation; stability, 12833
- sensitivity; superior temporal sulcus cells; articulated action; static posture; monkeys, 3656
- sensory interaction; somatosensory cortex; neurons; rats; tactile stimulation; receptor antagonists, 34000
- sensory system; motor systems; visual space; mapping; position specification; neurons, 6501
- serotonin; interneurons; rat visual cortex; postsynaptic currents; cortical inhibitory networks, 15680
- serum levels; negative symptoms; schizophrenia; astroglial cells; calcium binding protein; paracrine; autocrine; neurons, 25671
- short-term memory; neural substrate; neural activity; active memory; neuron network; cortex; time delay, 15484
- silicon model; visual system; silicon chip; neurons; receptive fields; electrophysiology, 30815
- simple cell receptive field; animal vision; navigation system; visual system; learning; natural & topography & special environment images; independent component analysis; Gabor function, 9216
- single neuron; sensory interactions; vestibular responses; stimulus conditions; vestibular signals; neuronal responses; medial superior temporal cortex; population encoding; monkeys, 21655
- single-unit activities; auditory cortex neurons; common marmoset; callitrix jacchus; self-initiated vocalizations; sensory-motor interaction, 21576
- sleep; learning; cortical neurons; synaptic changes; sleep homeostasis, 30926
- smooth-pursuit eye movements; eye acceleration; eye position; nucleus reticularis tegmenti pontis; direction selectivity; pursuit eye velocity; response amplitude; neuronal responses; macaques, 21700
- social interaction; aged rats; anxiety-related behavior; neuronal activity; fear-related behavior, 30870
- somatosensory cell response; auditory cue; haptic memory; neurons; tactile stimuli; monkey, 34084
- spatial characteristics; acoustic signal; caudate nucleus; dogs; neuronal activity, 27738
- spatial information; intrinsic membrane potential; temporal coding; firing pattern; place cell firing; hippocampus; somatic & dendritic oscillations; pyramidal cells; exploring rats; neurons, 3788
- spatial learning; hippocampal neurons; spatial behavior; cognitive map; young animals; aged animals; aging; environmental cues, 15986
- spatial memory; hippocampus; neuronal activation; cingulate cortices; mice, 30772
- spatial representation; hippocampus; neocortex; entorhinal cortex; neural activity; memory, 34021
- spatial representations; movement representations; hippocampal neurons; striatal neurons; allocentric tasks; egocentric tasks; cue manipulation; movement correlations; place correlated cell firing, 30888
- spectral integration; stimulus components; receptive field; primary auditory cortex; marmosets; neuronal tuning characteristics, 15519
- spike activity; monkeys; putamen neurons; spatial selection task; neuron responses, 27814
- spike activity; sequential rearrangements; putamen neurons; monkeys; brain; continuous behavior; Macaca nemestrina; Macaca mulatta, 27809
- spike trains; monkey brain; stochastic structure; primary visual cortex; neurons; spike count; visual cortex; information; coding, 15601
- spike-driven synaptic dynamics; working memory states; neural networks; neural plasticity; neurons; synapses; spiking neurons; simulation, 18000
- spiny neurons; cortical layer; excitatory neurons; pyramidal cells; cortical signal processing; somatosensory cortex; monosynaptic excitation; rats, 21686
- spontaneous cortical representations; cortical activity; information processing; dye imaging; visual cortex; cortical states switching; orientation maps; hypercolumns; proximal orientation, 3321
- spontaneous cortical representations; cortical activity; information processing; dye imaging; visual cortex; cortical states switching; orientation maps; hypercolumns; proximal orientation, 3329
- spontaneous firing rate; cortical neurons; lateral septal nucleus; stressful situations; swimming session, 12821
- spontaneous seizures; kindled rats; axo-somatic inhibition; neuronal loss; neurogenesis; hippocampal circuits; axo-axonic inhibition, 21741
- state space model; point process intensity & parameters; latent stimulus; neural spiking; approximate expectation maximization algorithm; recursive nonlinear filter algorithm, 17979
- status epilepticus; neuronal injury; programmed cell death; hippocampus; kainic acid model; rats; NMDA receptor activation; ceramide mediation; DNA fragmentation, 15446
- striatal dopamine receptor binding; dopamine transporter binding; drug-naïve patients; schizophrenia; presynaptic dopamine neurons; postsynaptic dopamine neurons, 34892
- stroke survivors; brain repair; neurons; brain damage; neural circuits; brain cell growth, 26105
- subthreshold voltage fluctuations; neuronal membranes; synaptic noise; electrophysiology; cerebral cortex, 6159
- suppression; hyperpolarization; inward current; propofol; pyramidal neurons; hippocampal neurons; rat brain slices; neuronal excitability; membrane potential; inhibitory actions; rat brain; picrotoxin, 3776
- synaptic effects; corticotropin-releasing factor; periaqueductal gray neurons; rats; hypothalamic-pituitary-adrenal axis, 6790
- synaptic plasticity; adult hippocampus; neural stem cells; neurogenesis; learning; memory; young & mature granule cells; active & passive membrane properties, 24707
- synaptic plasticity; cytoplasmic polyadenylation element gene; long-term potentiation; Schaffer collateral-CA1 neurons; long-term depression; mRNAs; disrupted CPEB-1 gene, 24644
- synaptic responses; chronic stress; hippocampal dentate gyrus neurons; rats; adrenal weight; thymus weight; corticosterone levels; glucocorticoid receptors, 12849
- taste cells; electrophysiological characterization; voltage-gated currents; antigens; alpha-gustducin; mice, 21736
- taste stimulation; action potentials; rats; neurons; thalamus; oral cavity; ventroposteromedial nucleus, 12946
- temporal lobe; face processing; face matching; face perception; hemisphere neurons; hemispheric specialization, 11271
- temporal sequence learning; isotropic sequence order learning; neurons; synapses; learning algorithm, 17966
- temporal structure; spike trains; neuronal ensembles; time scale; nervous system; statistical structure, 15129
- therapeutic strategies; Alzheimer's disease; neuron activity stimulation; brain stimulation; neuron metabolism, 20491
- torsional eye velocity; smooth-pursuit eye movements; primary eye position; premotor neurons; rhesus monkeys; rostral vestibular nuclei, 21531
- unsupervised learning; cortical macromodel; inhibitorily coupled minicolumns; neurons; cerebral functional units; rapid processing, 27760
- vagal afferent neurons; sympathetic vasomotor tone; mechanoreceptors; chemical stimulation; cardiopulmonary circulation, 15819
- valproate; lithium; neuronal cells; protein levels; anti-apoptotic Bcl-2; glial cells; calcitriol; rat brain; peptide, 18724
- ventrolateral preoptic nucleus neurons; rats; gamma aminobutyric acid; GABAergic transmission; noradrenaline; presynaptic modulation; mechanically dissociated neurons, 15543
- vertebrates; nervous system; sensory stimuli; neurons; neural computation; neuron population; inference process; uncertainty; function approximation models, 6972

- visual categorization; inferior temporal cortex; stimulus features; feature representation; macaque monkeys; visual neurons, 12885
- visual cortex; motion processing; motion detection; neurons, 6531
- visual cortical neurons; cat; electrophysiological classes; regular spiking; fast spiking; intrinsic bursting; chattering, 15557
- visual feature binding; population coding; primary visual cortex; neuronal activity; neuronal code; anesthetized cats; visual information; Gestalt psychology, 6500

visual information; brain responses; neurons spiking; recognition; distal visual stimulus; visual integration, 21273
visual working memory; computational neurodynamical perspective; neurons; prefrontal cortex; integrate-and-fire network; models; single-neuron & fMRI data; short term memory, 24668
visuospatial cognition; brain representation; object-centered space; monkeys; humans; neural maps; neurons; hemispatial neglect; visual abilities, 8287
voltage dependent calcium currents; hippocampal heterotopic neurons; methylazoxymethanol exposure; rats, 15486
voltage-gated sodium channels; hyperalgesia; chronic pain syndromes; neuronal hyperexcitability; sensory primary afferent neurons; neuropathic pain states, 24687
Weber-Fechner law; neural correlate; neural basis; number neuron; mental number line; number representation, 15495
whisker movements; pyramidal cells; rats; motor cortex; action potentials; neuronal activity, 12811
white matter volumes; structural changes; functional abnormalities; voxel-based morphometry; structural correlates; narcoleptic patients; degeneration of hypocretic neurons; hypothalamus, 4879
Neurons [See Also Axons, Dendrites, Ganglion Cells (Retina), Motor Neurons, Purkinje Cells, Sensory Neurons]—Books
Mirror neurons and the evolution of brain and language, 3740
Parkinson's disease: The life cycle of the dopamine neuron, 16846
Neurons [See Also Axons, Dendrites, Ganglion Cells (Retina), Motor Neurons, Purkinje Cells, Sensory Neurons]—Chapters
Alloercentric perception by infants and adults in dialogue: Ego's virtual participation in Alter's complementary act, 4091
Brain activation to passive observation of grasping actions, 3751
Brain development: glial cells generate neurons—implications for neuropsychiatric disorders, 16851
The co-evolution of language and working memory capacity in the human brain, 3745
Constitutive features of human dialogic interaction: Mirror neurons and what they tell us about human abilities, 4067
Description of Parkinson's disease as a clinical syndrome, 16850
Looking for neural answers to linguistic questions, 4064
Mirror neurons and cultural transmission, 4220
Mirror neurons and feedback learning, 6168
Mirror neurons and the neural basis for learning by imitation: Computational modeling, 3742
Mirror neurons and the self construct, 3759
Mirror neurons' registration of biological motion: A resource for evolution of communication and cognitive/linguistic meaning, 4123
Mirror neurons, vocal imitation, and the evolution of articulate speech, 4066
The mirror system and joint action, 3747
The mirror system in humans, 3754
The neural basis of episodic memory: Evidence from functional neuroimaging, 3405
The neural correlates of action understanding in non-human primates, 3743
Physiology and pathophysiology of Parkinson's disease, 16853
The role of glial reaction and inflammation in Parkinson's disease, 16855
The role of mirror neurons in the ontogeny of speech, 4124
Some features that make mirror neurons and human language faculty unique, 3758
The temporal resolution of neural codes: Does response latency have a unique role?, 3811
Neuropathologists [See Neurologists]
Neuropathology—Serials
abnormal frontal white matter tracts; bipolar disorder, 28621
alcohol dependence and abuse; brain damage; neuropathological alterations, 1847
Alzheimer disease: mental disorder; geriatric mental health; cognitive symptoms; neurological causes, 35302
Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13925
Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13985
Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13921
Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13919

Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 14020
Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13920
Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13959
Alzheimer's disease; myelin breakdown; cognitive decline; aging; myelin; neuropathology; cognitive functions, 13934
Alzheimer's disease; oxidoreductase activity; antioxidant system; frontal cortex; oxidative stress; neuropathology; NAD(P)H:quinone oxidoreductase, 13996
amygdala hyperreactivity; borderline personality disorder; emotional dysregulation; interpersonal relations; facial expression perception, 7955
amygdaloid volumes; schizophrenia; magnetic resonance imaging, 7879
amyloid beta proteins; Alzheimer's disease; gangliosides; apolipoprotein E knock in mice; cholesterol concentrations; neuronal membranes, 5084
Amyloid beta(25-35) peptide; amnesia; neurodegeneration; hippocampus, 18804
amyotrophic lateral sclerosis; frontotemporal dementia; cognitive dysfunction; motor neuron diseases; cognitive impairment; neuropathological features; abstract reasoning; nonverbal fluency, 5068
APOE4 genotype; microglial function; APOE4 transgenic mice; arginine transport; risk factor; Alzheimer's disease; neuropathological insights; APOE function; central nervous system, 3618
apoptosis; neuronal pathology; schizophrenia; bipolar disorder, 25502
axonal chemorepellant semaphorin 3A; cerebellum; schizophrenia patients; synaptic pathology; cerebellum; synaptic connectivity, 13625
axonal fibers; axonal injury; language network; primary progressive aphasia; Alzheimer's disease; superior longitudinal fasciculus; temporal lobe; brain metabolites, 22917
basal ganglia; autistic individuals; motor performance; caudate nucleus; putamen; brain volumes; motor deficits; structural abnormalities; cerebellum; frontal lobe; pathophysiology, 16532
beta amyloid plaques; aging; choline acetyltransferase; Alzheimer's disease; cholinergic dysfunction; pathological brain tissue; pro-inflammatory cytokines; beta amyloid cytokines; transgenic mice, 12861
bipolar disorder; symptoms; clinical features; genetics; drug therapy; lithium; pathophysiology; neurochemistry; neuroanatomy; neuroimaging, 31721
bipolar patients; lithium inhibiting enzymes; pathophysiology; postmortem brains; inositol monophosphatases; phosphatidylinositol; glycogen synthase kinase; frontal cortex; occipital cortex, 4581
cell migration; forebrain; mammalian brain; radial migration; tangential migration; cellular complexity; forebrain development; pathology, 6942
cellular oxidative stress; synaptosomes; oxidative damage; rats; prostaglandins; aging; age differences; amyloid peptides, 12813
cerebellar dysfunction; schizophrenia patients; cerebellar neurologic signs; neuropathologic correlates; cognitive correlates, 28708
cerebellothalamocortical system; cognitive impairment; motor impairment; nonamnesic alcoholism; corticopontocerebellar system; brain volume abnormalities, 11019
cerebrospinal fluid; schizophrenic patients; nitric oxide; nitrite; nitrate; neurological disorders, 25667
cholesterol; amyloid-beta protein; Alzheimer's disease; membranes; metabolism, 4990
cholinergic lesion; Alzheimer's disease; cholinergic innervation; etiology; cholinergic depletion; temporal course, 16799
chronic neuropathic pain; spinal cord injury; quality of life, 19991
chronic pain; painkilling drugs; sensory neurons; drug regimens; neuropathic pain; receptors, 32553
cingulate fasciculus; schizophrenia; magnetic resonance diffusion tensor imaging; pathophysiology, 7883
cingulate fasciculus; schizophrenia; magnetic resonance diffusion tensor imaging; pathophysiology, 19415
cingulate gray matter density; brain abnormalities; bipolar illness; poor outcome; memory function; verbal learning, 19368
CLQ-calreticulin; oxidative neurotoxicity; neuropathogenesis; Alzheimer's disease; AD; brain disorders; neural loss; amyloid peptide; excitotoxins; reactive oxygen species; ROS, 5028
cognition; brain structure; schizophrenia; neurocognitive deficits; disease course; antipsychotic medications; neuroanatomy, 19443

cognitive impairment; neurological impairment; mood disorders, 19387
cognitive impairments; neurological impairments; psychiatric disorders; special issue, 19259
common pathogenic mechanisms; affective disorders; epilepsy; predisposition; crossover drug treatments, 4531
computer-mediated measurement; subjective ratings; white matter hyperintensities; vascular dementia; neuropsychological performance, 35283
cortical asymmetry; bipolar disorder; motor disturbances; perceptual disturbances; cognitive disturbances; right hemisphere dysfunction; depression; manic subjects; medication type, 28633
cortical microanatomy; human brain disorders; epilepsy; neuropathology; epileptogenic lesions; brain tumors; seizures; epilepsy pathology, 19967
cytochrome c oxidase; platelet membrane fluidity; platelet mitochondria; vitamin E; Alzheimer's disease platelets, 13928
Day 7 amygdala-lesioned rats; animal model; neurodevelopmental psychopathological disorders; schizophrenia; stress responsiveness; neuroendocrine response; ACTH; corticosterone; catecholamines, 1875
delayed verbal recall; hippocampal volume; Alzheimer neuropathology; neurofibrillary lesions, 29158
dementia diagnosis; brain changes; Alzheimer's disease; vascular dementia; computed tomography, 32176
dementia with Lewy bodies; butyrylcholinesterase activity; cognitive deficits; cognitive function; temporal cortex; acetylcholine; cholinergic activities, 16809
dementia with Lewy bodies; DLB; clinical diagnostic criteria; neurofibrillary changes; degenerative process; diagnostic accuracy; Alzheimer disease; AD; pathology; tau protein; synucleinopathies, 16794
dementias; Lewy bodies; tau pathology; synuclein pathology; frontotemporal lobar & corticobasal ganglionic degeneration; progressive supranuclear palsy; multisystem atrophy; pharmacologic treatment, 35291
developmental neuropathology; environmental agents; central nervous system; chemicals; methylmercury; lead; antiepileptic drugs; ethanol; neurotoxicity, 26015
dorsolateral prefrontal cortex; nondeficit schizophrenia; deficit schizophrenia; pathophysiology; white matter; neuronal density, 1485
drug curriculum; teaching; children's beliefs; drug action; scientific theory; alcohol; cocaine; tobacco; biological background; drug education; drug knowledge; intuitive theory, 5879
dyslexia; learning disorder; cerebral volume; gyrification; autism; brain size, 35106
epilepsy; depressive disorders; etiology; pathophysiology; models of depression; monoamine hypothesis; hippocampus; hypothalamic-pituitary-adrenal axis; neurotrophic hypothesis; neural networks, 4517
executive dysfunction; attention-deficit/hyperactivity disorder; neuropsychology; neuroimaging; neuropathology; etiology; brain, 19768
executive dysfunction; dementia; subcortical vascular dementia; neuropathology; neuropsychology, 35305
first-episode schizophrenia; prefrontal cortical thickness; first-episode psychosis; gray matter; age; magnetic resonance imaging, 10813
focal epilepsy; malformations of cortical development; MCD; polymicrogyria; hemimegalencephaly; heterotopia; focal cortical dysplasia; FCD; neuropathology, 16777
formal education; AD pathology; cognitive function level; older people, 1828
fragile X syndrome; mental retardation; tremor; ataxia; genetics; neuropathology, 35185
frontal brain; white matter integrity; adolescents; early onset schizophrenia, 28722
functional imaging; Parkinson disease; dementia with Lewy bodies; cerebral function; differential diagnosis, 35268
G-protein alpha-subunit levels; hippocampus; entorhinal cortex; Alzheimer's disease staged brains; amyloid pathologies; neurofibrillary pathologies; disease course, 4999
GABA role in schizophrenia; GABA system; schizophrenia pathophysiology; neurotransmitter abnormalities; cognitive dysfunction; GABA pharmacology; GABA neuroanatomy; animal models; neuronal density, 7915
gray matter density; white matter density; bipolar I disorder; voxel-based morphometry; frontal lobe; magnetic resonance imaging, 19385
gray matter loss; Alzheimer's disease; sensorimotor cortices, 23010
gray matter density; point mutation; bilateral brain abnormalities; orofacial dyspraxia; verbal dyspraxia, 4842
gyral folding; cortical surface contours; gyrification index; temporal lobe; frontal regions; sulco-gyral differences; first-episode schizophrenic patients, 10788
hippocampal abnormalities; functional asymmetry; unsuccessful psychopaths; neurodevelopmental abnormality, 10863

- hippocampal deformities; siblings; schizophrenia; genetic vulnerability; genetic markers, 7908
- hippocampus; schizophrenia; neuropathology; psychosis; glutamate, 31768
- homocysteine; white matter hyperintensities; cognitive decline, 22929
- human neurodegenerative disease; *Drosophila*; model system; human disease genes; polyglutamine diseases; Parkinsons disease; Alzheimers disease; tau associated pathologies, 6789
- immunotherapy; immunotherapeutic approaches; Alzheimer's disease; immune system; animal models; microglia activation, 13980
- immunotherapy; immunotherapeutic approaches; Alzheimer's disease; immune system; animal models; microglia activation, 8281
- isolated executive impairment; frontal neuropathology; mild cognitive impairment; executive function; memory; language; visuospatial function, 32159
- late-onset schizophrenia; parahippocampal gyri; gray matter; white matter, 4617
- magnetic resonance imaging; corpus callosum abnormalities; bipolar disorder; brain size, 6216
- major depression; Parkinsons disease; comorbidity; epidemiology; etiology; neuropathology; antidepressant treatment, 35304
- major depression; white matter lesions; Stroop test positron emission tomography; cerebral blood flow; neurotransmission; neuropsychological activation, 18163
- mechanical allodynia; neuropathic pain; von Frey filaments; gait analysis; chronic constriction injury; withdrawal threshold; locomotor analysis; rat; paw, 14997
- mice; antibody; amyloid beta peptide; Alzheimers disease; amyloid precursor protein; spatial memory; water maze; pathway disruption; aged PSAPP mice, 34060
- migraine aura; sporadic hemiplegic migraine; migraine patients; clinical phenotype; International Headache Society classification; IHS; aura pathophysiology, 4857
- mitochondrial function; personality traits; major depressive disorder patients; mitochondrial disorders, 4592
- motor manifestations; tentative diagnosis; contralateral white; epilepsia partialis; oligoclonal bands; partial seizures; cortical atrophy; motor component; Rasmussen encephalitis; RE; antibodies, 5004
- motor recovery; early brain damage; right hemiplegia; seizures; neuropathology, 35337
- multiple sclerosis; demyelinating lesions; demyelination patterns; immune response; immune mechanisms; axonal pathology; paraneoplastic markers; T cell; inflammatory diseases, 8265
- multiple sclerosis; magical ideation; defense mechanism; neuropsychological deficiency; neuropathology; alternative treatments, 29182
- near-infrared spectroscopy; schizophrenic patients; frontal lobe dysfunction; random number generation; ruler catching; sequential finger-to-thumb tasks; brain metabolism; psychopathologic condition, 10805
- neprilysin gene transfer; human amyloid pathology; transgenic mice; Alzheimers disease; enzyme; brain; intracerebral injection; frontal cortex; hippocampus; endopeptidase, 15542
- neurological abnormalities; schizophrenia; obsessive-compulsive disorder; pathophysiological overlap, 25523
- neurological soft signs; executive functioning; cognitive deficits; psychopathological dimensions; schizophrenia, 28686
- neuronal cholesterol imbalance; hippocampus; cholesterol removal; paired pulse facilitation; long-term potentiation; synaptic plasticity; Alzheimer's like brain amyloid; neural transmission; rats, 3922
- neuropathic pain; pathophysiological mechanisms; central nervous system mechanisms; peripheral mechanisms; treatment choices, 17199
- neuropathic pain; pathophysiological mechanisms; symptomatology; pain assessment; chronic pain; pain disorder classification; etiology, 16607
- neuropathology; major depression; periventricular white matter hyperintensities; magnetic resonance imaging, 4607
- neuropathology; neuropsychology profiles; dementia; Alzheimer disease, 4958
- neuropsychological impairment; borderline personality disorder, 19574
- neurotoxicity; rats; single-photon emission computed tomography; methylenedioxymethamphetamine; serotonin transporters; brain; SPECT; ecstasy; SERTs; MDMA, 30842
- obsessive compulsive disorder; neurobiology; neuropathology; cognitive impairment; neuroimaging, 19507
- oxidative stress-mediated DHEA; Alzheimer disease; dehydroepiandrosterone; rat brain cells; human brain cells; hippocampus; hypothalamus; frontal cortex, 4977
- Parkinsons disease; James Parkinson; Friedrich Lewy; chronic progressive neuropsychiatric disease; dementia; parkinsonian symptoms; dementing illness; lewy body disease; cortical neurons, 8204
- pharmacologic characteristics; herpes simplex virus; gene transfer; morphine; tolerance; antiallostatic effects; enkephalin; rodent model; neuropathic pain; dorsal root ganglion; rats, 15752
- postmortem psychiatric research; molecular analysis; gene expression; laser-assisted microdissection techniques; neuropathological involvement of cells, 9526
- primate brain function; neuronal pathology; neuroanatomy; neuroscientists; neuro-structural errors, 18561
- psychiatric symptoms; neuropathological substrates; dementia with Lewy bodies; visual hallucinations; delusions; depression; Alzheimer's disease, 26121
- quantitative EEG; neurotherapy; neurofeedback; neurotherapist, 32251
- rats; glutamate receptors; learning deficits; neurodegeneration; NMDA glutamate receptors; GABA receptors; synapses; NMDA receptor blockers; GABA receptor enhancers; early exposure, 21857
- reactive oxygen species; thioflavin s-positive amyloid plaques; Alzheimers disease; neuronal damage; cognitive failure; free radicals; transgenic mice; multiphoton; in vivo imaging; oxidative stress, 15544
- Rosenthal fibre encephalopathy; Alexanders disease; clinical pathological spectrum; AIDS, 22954
- schizophrenia patients; cerebral abnormalities; cerebral development; volumetric measures; ab-ridge count, 4648
- shape index; schizotypal personality disorder; neuropsychological performance; cognitive abnormalities; caudate nucleus volume, 10858
- speech disorder; language disorder; gene mutation; functional brain abnormalities, 8145
- structural change; familial Alzheimer's disease; cerebral atrophy; brain volume; temporal lobe; hippocampus, 22999
- substantia nigra; oxidative damage; mitochondrial deoxyribonucleic acid; mutations; neurodegenerative diseases; frontal cortex; aging; DNA, 14001
- tau gene locus; frontotemporal dementia; tau mutations; chromosome 17; neurodegenerative process, 32178
- tau R406W mutation; presenile dementia; bipartite atrophy; frontotemporal dementia; Alzheimers disease; neuropathology; neurofibrillary tangles; tau protein; pathogenic mutations, 32177
- teenage suicide victims; pathogenesis; prefrontal cortex; hippocampus; protein kinase C isozymes; catalytic activity, 28838
- thalamic dysfunction; schizophrenia; sensory information; emotional functions; cognitive functions; neurochemical abnormalities; imaging abnormalities; neuropathological abnormalities, 28693
- thalamic glucose metabolism; ataxia; intravenous thiamine; positron emission tomography; alcohol abstinence; neuropsychological performance; cerebral glucose metabolism; Wernicke-Korsakoff Syndrome, 1649
- transcranial magnetic stimulation; attentional processing; threatening facial expressions; depotentiation; neural activity alteration; neuropathology relief; animal models, 26492
- transcranial magnetic stimulation; attentional processing; threatening facial expressions; depotentiation; neural activity alteration; neuropathology relief; animal models, 26516
- tumor necrosis; primary sensory neurons; nerve injury; pain behavior; spinal nerve; electrophysiological responses; dorsal root ganglia; tactile allodynia, 21418

- event related brain potentials; subliminal priming; response facilitation; response inhibition; functional imaging, 6881
- event-related potential; attentional inhibition; audition; neural mechanism; inhibition of return; IOR; attentional inhibition; orienting attention; spatial location; vision; hearing; touch, 12714
- event-related potentials; cognitive information processing; psychophysiological research; clinical studies; higher mammals; neurophysiological research, 571
- eyeblick conditioning; neural mechanisms; neurophysiology; brain development; rats, 33922
- facial chorea; huntingtons disease; facial choreic movements; FCM; neurophysiology; blink reflex; BR, 8284
- functional magnetic resonance; causal modeling; object category; occipital cortex; visual cortex; anatomical constraints; neuronal interactions; differential effects; parietal regions, 600
- genetic research; serotonin; depression; serotonin type 1A receptor; serotonin transporter; pathophysiology; depression, 31750
- genetic risk; schizophrenia spectrum personality; neurophysiological markers; schizophrenia risk; generalized estimating equation; eye tracking; patient's relatives; family; diagnostic criteria, 1463
- glial density reduction; amygdala; major depressive disorder; astrocytes; oligodendrocytes; microglia; bipolar disorder, 19377
- glial fibrillary acidic protein; Alzheimer's disease; enzyme-linked immunosorbent assay; protein levels; neocortex, 8298
- glucose lowering effect; neonatal mice; neurophysiological changes; blood glucose; neural cell; brain histology; phenylpyruvate; phenylketonuria; neurodegenerative changes, 21838
- glycogen synthase kinase-3; lithium inhibition; enzyme inhibition; beta-catenin; valproate; carbamazepine; mRNA expression; rats, 9991
- hand movements; intraparietal sulcus; surface orientation; hand orientation; finger position; anterior & posterior intraparietal areas, 15579
- health professionals; chronic pain; patient performance; knowledge tests; pain neurophysiology; patient ability; health training, 16619
- heme oxygenase; chronic inflammatory pain; neuropathic pain; pain development; spinal cord; mice; strain differences, 21626
- impaired movement-related potentials; acute frontal region traumatic brain injury; cortical motor network dysfunction, 29187
- in vitro conditioning; aplysia; operant conditioning; classical conditioning; neuronal processes; learning, 33918
- Jonathan Cole; clinical neurophysiologist; human experience; neurology, 33982
- judgments; neural correlates; preferences; own preferences; other preferences; cortical activations, 27787
- lateral intraparietal area; LIP; motion perception; motion direction; neural activity; motion analysis; monkey brain, 15534
- lateral occipital complex; visual cortex; shape perception; contextual processing; context of shapes; neurophysiology, 24645
- learning-disabled brains; learning disabilities; neurophysiological correlates; brain morphology; development, 4785
- lithium; valproate; large dense core vesicles; vesicular monoamine transporter; nerve growth factor; PC12 cells; protein expression; neurophysiology, 9968
- magnetoencephalography; neurophysiology; clinical test; cost; complexity; source localization, 24701
- major depression; symptoms; neuronal circuits, 10766
- mammalian retina; temporal modulation; visual information; temporal property; light stimulation; rod bipolar cells; GABAergic amacrine cells, 21753
- medial temporal lobe; midbrain colliculi; inter-collicular sulcus; aging; hippocampus angle; spatial relationships; magnetic resonance imaging, 3638
- melanocortin-4; MC4R; receptor-selective peptides; physiological processes; body weight regulation; grooming behavior; melanocortin compounds; neuropathic pain; rats, 3950
- mucosal activity patterns; olfactory discrimination; rats; odors; iso-intensive straight-chain aldehydes; neurophysiology, 7097
- multisensory convergence; early cortical processing; neuroanatomy; psychophysiology; hierarchy of processing; neurophysiological correlates, 622
- N-methyl-D-aspartate receptors; neuronal activity; synapse formation; ifenprodil; cerebral neurons; nervous system, 34036
- near-infrared spectrophotometry; visual cortex; fast cerebral functional signal; brain, 7007
- neural correlates; implicit object identification; semantics; cortical activations, 27775
- neural correlates; mental state decoding; adults; human social interaction; event-related potentials; theory of mind; neural systems, 18607
- neural correlates; traumatization; memory; posttraumatic stress disorder; borderline personality disorder; functional magnetic resonance imaging, 19569
- neural mechanisms; collective intentionality; we-mode process; brain; shared attitudes, 34004
- neural mechanisms; general fluid intelligence; individual differences; attentional control; prefrontal cortex; working memory; neural activity, 21587
- neural mechanisms; general fluid intelligence; individual differences; attentional control; prefrontal cortex; working memory; neural activity, 21574
- neural responses; fusiform gyrus; event-related functional magnetic resonance imaging; cerebral hemispheres; functional asymmetry; laterality; spatial frequency; visual images; temporo-occipital lobe, 18640
- neural substrates; brain circuitry; emotional experience; processing; cerebral hemispheres; specialization; positive emotions; negative emotions; approach-related emotions; withdrawal-related emotions, 18579
- neurocognitive enhancement; mental dysfunction; social problems; ethical problems, 26489
- neuroimaging methods; cognitive function; mental disorders; brain function; aging process; blood flow; human sex differences, 8264
- neurology; neurophysiology, 30887
- neurophysiological considerations; pain functional imaging; nociceptive system; anatomical considerations, 6869
- neurophysiological substrates; social withdrawal; aggression; limbic-hypothalamic-pituitary-adrenal; amygdala; prefrontal cortex, 18693
- neurophysiology; handwriting execution; phonographic scripts; logographic scripts; Japanese language; frontal lobe; parietal lobe; motor processes; kana; kanji; temporal lobe, 606
- neurophysiology; hypnosis; hypnotic susceptibility; controlled attention; awareness states; hypnotherapy, 23334
- neurophysiology; linguistic components; motor components; word writing; prefrontal cortex; temporal lobe, 550
- neuroscience; Pavlovian conditioning, 3441
- neurovascular regulation; Alzheimers disease; cerebrovascular control mechanisms; brain regions; brain blood flow; neurons; astrocytes; vascular cells, 24686
- numerical sequences; linguistic syntactic structure; syntax; rule-governed anomalies; arithmetic rules; P600; neurophysiology, 18595
- obituary; Fritz Buchthal; applied neurophysiology; scientist, 33454
- orbitofrontal cortex; ventral frontal response; mania; emotional task; prefrontal cortices; bias for positive emotional content, 28637
- orientation process; visual cortex neurophysiology; spatial frequency, 24391
- ornithine decarboxylase; cerebellum; knockout; alpha difluoromethylornithine; polyamine depletion; nicotinic cholinergic receptor upregulation; neural development; macromolecular changes; rats, 7257
- pathology; neuroimaging; mineralization; basal ganglia; neuropsychiatric correlates, 652
- pathophysiology; complex regional pain syndrome; diabetic peripheral neuropathic pain; spinal cord injury; alpha-1 adrenoceptor, 26068
- Pavlov; conditioned behavior; neurophysiology; operant behavior, 3388
- Pavlovian conditioning; central nervous system; Hermisenda crassicornis; neural circuits; cellular mechanisms; molecular mechanisms; associative learning; associative memory, 24564
- place cells; hippocampus; navigation; context dependent learning; episodic memory; pyramidal cells; excitatory synaptic contacts, 30859
- primary visual cortex; neural network; Gestalt collinearity principle; object motion; visual experience, 9880
- projection neurons; zebra finches; auditory responsiveness; behavioral state-dependent changes; avian song system; forebrain nucleus HVC; spikes; firing rates, 15450
- reflexive responses; voluntary control; eye movements; competing saccade programs, 21598
- reverberatory circuit model; self-feedback loop model; short-term memory; central nervous system; memory formation; neural activity; computational model, 3647
- reverse correlation; neurophysiology; linear transducers; spiking neurons; receptive fields; visual neurons; spatial processing; color processing, 21675
- right hemisphere functions; depression; cortical activation; cortex; brain laterality; physiological activity, 10763
- salt appetite; neurohormonal interactions; sodium deprivation; physiological function; energy homeostasis; sodium homeostasis, 24613
- schizophrenia; reduction in glial fibrillary acidic protein-immunoreactive astroglia; dorsolateral prefrontal cortex, 22556
- schizophrenia; reduction in glial fibrillary acidic protein-immunoreactive astroglia; dorsolateral prefrontal cortex, 22569
- semantic retrieval; semantics; semantic association; neurophysiology; executive processes; prefrontal cortex; temporal lobe, 27770
- sexual dysfunction; selective serotonin reuptake inhibitor; treatment outcomes; fluoxetine; neurophysiological measures; anxiety; depression, 32558
- slow cortical potentials; attention deficit hyperactivity disorder; behavioral effects; neurophysiological effects, 19746

Volume 91 SUBJECT INDEX

Neurophysiology—Serials

speech processing; bats; animal behavior; animal neurophysiology; vocal learning; audio-motor integration; sound production; echolocation, 9832

spinal pathway; human sensory processing; spinal neurons; heat perception; sensory neurons; central nervous system; conduction velocity; cerebral processing, 12581

spoken word recognition; cortical organization; receptive language functions; Chinese; English; Spanish; neurophysiological activity; temporal & temporoparietal brain areas; hemispheric dominance, 18617

stress response; cognitive activation theory of stress; stress stimuli; stress experience; homeostatic system; neurophysiological activation; coping behavior; psychological defense, 24626

subliminal fear perception; supraliminal fear perception; event-related potentials; threat-related stimuli; processing; neural mechanisms; conscious awareness; models; facial expressions, 18644

subthalamic nucleus stimulation; target localization; Parkinson's disease; neurophysiological guidance, 14287

synaptic density; adult dyslexia; speech stimuli; dynamic model; neurotransmitter metabolism; developmental dyslexia; perceptual boundaries; neuronal populations; auditory discrimination, 1703

training-dependent reorganization; digit representations; string players; somatosensory evoked magnetic fields; somatosensory cortex, 27816

transcranial magnetic stimulation; TMS; repetitive TMS; depression; depression treatment, 20373

unsupervised learning; cortical macrocolumn; inhibitorily coupled minicolumns; neurons; cerebral functional units; rapid processing, 27760

visual attention; cortical anatomy; neural information processing; neural network model; cortical feedback, 18417

visual cortex; magnetic resonance imaging; neurophysiology; attention; sensory processing; top-down control, 21662

Neurophysiology [See Also Neuroendocrinology, Neurotransmission, Receptor Binding]—Books

The physiology of cognitive processes, 3738

Neurophysiology [See Also Neuroendocrinology, Neurotransmission, Receptor Binding]—Chapters

Contextual shape processing in human visual cortex: Beginning to fill-in the blanks, 15632

Functional neuro-imaging and models of normal brain function, 15617

Language disorders across modalities: The case of developmental dyslexia, 4792

Mirror neurons and cultural transmission, 4220

The mirror system in humans, 3754

Neural basis of attentive perceptual organization, 15235

Neural coding of border ownership: Implications for the theory of figure-ground perception, 15229

Neural correlates of perceptual organization in the primate visual system, 15227

The neural substrates of anxiety, 15628

Physiology and pathophysiology of Parkinson's disease, 16853

Posterior parietal networks encoding visual space, 23031

The prefrontal cortex: Categories, concepts and cognition, 3752

The scientific study of consciousness, 15621

Searching for the neural mechanism for color filling-in, 15643

Surface completion: Psychophysical and neurophysiological studies of brightness, 15637

The temporal resolution of neural codes: Does response latency have a unique role?, 3811

a-synuclein pathology: Past, present, and future, 15456

Transgenic models of

Neuropsychiatrists [See Psychiatrists]

Neuropsychiatry—Serials

acute thyrotoxic Graves' disease; neuropsychiatric symptoms; thyrotoxic phases; cerebral metabolite profile; choline, 4853

attachment theory; neuropsychiatric disorders; psychoanalysis; John Bowlby, 34746

autism; endophenotypes; epidemiology; record linkage; schizophrenia, 24344

body mind & mind body problems; neuropsychiatry; multiple sclerosis; brain injury; dementias, 35192

clinical relevance; diagnoses; forensic psychiatric hospital; childhood onset neuropsychiatric disorder, 19285

cognitive dysfunction; neuropsychiatric abnormalities; multiple sclerosis; affect & mood disorders; behaviour disorders; memory; information processing speed; executive function; treatment, 34759

Collegium Internationale Neuropsychopharmacologicum; psychopharmacology; scientific communication; congress preview; antipsychotic drugs, 15780

dementia patients; Neuropsychiatric Inventory; neuropsychiatric symptoms; caregiver administration, 15071

dexamethasone; mononuclear leukocytes; lysozyme inhibition; cortisol; glucocorticoid sensitivity; neuropsychiatric disorders, 4545

diabetes; insulin resistance; neuropsychiatric population; antipsychotic medications; mental illness; schizophrenic persons, 22798

diffusion tensor imaging; brain; neuropsychiatry, 12923

facial emotion recognition; ketamine; brain regions; healthy men; facial emotion perception; emotional processing; cognitive processing; neural processing; emotional blunting, 12965

functional neuroimaging; neuropsychiatric symptoms; side effects; interferon; hepatitis C; fatigue; depression; at risk population; neural substrates, 29482

geriatric neuropsychiatric research; decisionally impaired research participants; research ethics; regulatory policy; legal policy; informed consent; proxy consent; surrogate consent, 26849

Gerry Smith; Paul McHugh; physiology; neuropsychiatry; career development, 30822

Mini International Neuropsychiatric Schedule; clinical utility; patient acceptance; patient views; co-morbid conditions; diagnosis, 9426

neuropsychiatric medications; drug therapy; drug interactions; action mechanisms; pharmacodynamics; classification systems, 26417

neuropsychiatric problems; tuberous sclerosis complex; autosomal dominant disorder; neuronal migration; mental retardation, 35166

neuropsychiatric sequelae; traumatic brain injury; rehabilitative treatment; society re-entry; age differences, 13944

neuropsychiatry; antipsychotic drugs; drug dosage; Alzheimer's disease; geriatric patients; dementia treatment; drug therapy; cholinesterase inhibitors, 35552

obsessive-compulsive disorder; neuropsychiatric disorder comorbidity, 25723

poststroke patients; neuropsychiatric symptoms; neuropsychological disorders; depression; irritability; eating disturbances; apathy; anxiety, 32071

pramipexole; psychiatric disorders; dopamine agonist; restless legs syndrome; bipolar depression; Parkinson disease; mood disorders; neurology; psychiatry; neurological disorder, 17078

psychometric properties; Neuropsychiatric Inventory—Nursing Home version; test reliability; test validity; factor structure; elderly neuropsychiatric population, 24287

systemic lupus erythematosus; antiphospholipid antibodies; osteoporosis; cerebrovascular disease; cognitive disorders; mood disturbances, 11134

vagus nerve stimulation; functional neuroimaging studies; neuropsychiatric disorders, 3610

ziprasidone; psychosis; antipsychotics; neuropsychiatric conditions; hallucinations; speech disorder, 23270

Neuropsychiatry—Chapters

Functional magnetic resonance imaging in psychiatry: where are we now and where are we going?, 16371

Genes and behaviour: finding a genetic substrate for cognitive neuropsychiatry, 16375

Neuropsychological Assessment [See Also Mini Mental State Examination, Wechsler Memory Scale, Wisconsin Card Sorting Test]—Serials

Adjusting-Paced Serial Addition Test; temporal threshold; response correctness interval; information processing speed; working memory; problem difficulty; neuropsychological tests; presentation mode, 9452

African American acculturation; neuropsychological test performance; traumatic brain injury; neuropsychological tests, 29134

attention-deficit/hyperactivity disorder; adults; behavioral inhibition; neuropsychological performance; developmental considerations; neuropsychological deficits; empirical methods, 28902

attention; memory; psychiatric patients; neuropsychological assessment; clinician rating; self report, 28611

auditory P3a; neuropsychological tests; aging; prefrontal cognitive functioning; adults; frontal cognitive functioning; general fluid cognitive ability, 3632

backpropagated neural network; neuropsychology; regression analysis; virtual reality; spatial ability; test validation; data analytic applicability; artificial neural network, 12507

Benton Visual Retention Test performance; elderly adults; total brain volume; depression; orbital frontal cortex volume; cognitive function, 10768

bilingual children; attention; inhibition; monolingualism; neuropsychological assessment, 24933

Block Suppression Test; assessment; reliability; healthy subjects; brain damaged patients; validity; clinical neuropsychology; spatial working memory, 12502

Brief Visuospatial Memory Test-Revised; neuropsychological evaluation; epilepsy surgery; right temporal lobe dysfunction; figural learning, 21164

California Verbal Learning Test; confirmatory factor analysis; auditory attention; temporal lobe epilepsy; verbal learning; inaccurate recall, 9442

Neuropsychological Assessment—Serials

category test; perseveration; memory scale; loss of cognitive set; executive functioning measures; head injury; schizophrenia; test validity, 193

cerebellar agenesis; neuropsychological testing; eyblink conditioning; 3D-MRI; motor processes, 1876

childhood bipolar disorder; Cambridge Neuropsychological Test Automated Battery; neuropsychological performance; pediatric onset; cognitive functioning; adult onset, 10740

childhood head injury; metacognitive processes; injury severity; typically developing children; recall prediction; delayed test; study-recall trials; memory span; overconfidence; language; semantics, 16768

Children's Category Test; criterion validity; test subsets; injury severity; post-injury psychometric intelligence; T-score validity; pediatric traumatic brain injury; psychometric intelligence, 9451

chronic schizophrenia; verbal memory impairment; neuropsychological deficits; clinical symptoms; conceptual disorganization; cognitive deficits; deficient word fluency; negative symptoms, 25661

Clock Drawing Test performance; cognitive status; positive and negative symptoms; schizophrenia; symptom severity, 10779

cognitive assessment; neuropsychological assessment; Asians; test validity, 187

cognitive changes; psychometric properties; cognitive tests; neuropsychological assessment; monitoring; reliability; stability; age; IQ; test-retest reliability; practice effects; reliable change, 24285

cognitive function; menopausal transition; verbal fluency; hormone replacement therapy; menopause symptoms, 15686

cognitive impairments; Cambridge Neuropsychological Test Automated Battery; neuropsychological performances; obsessive-compulsive disorder, 17073

cognitive impairments; Cambridge Neuropsychological Test Automated Battery; neuropsychological performances; obsessive-compulsive disorder, 17044

Cognitive Log; Cog-Log; Orientation Log; O-Log; traumatic brain injury; TBI; attention; memory; executive functioning; visuospatial ability, 18159

cognitive outcomes; rural environment; Kenya; neuropsychological battery; test development; Kaufman Assessment Battery for Children; cerebral malaria; reliability; validity, 18156

Collegno's amnesia; retrograde amnesia; malingering amnesia; feigned cognitive disorder; neuropsychology; forensics; malingering detection; Smemorato di Collegno, 27346

competency; automated machine use; acquired brain injury; neuropsychological measure; functional ability, 35273

computer-mediated measurement; subjective ratings; white matter hyperintensities; vascular dementia; neuropsychological performance, 35283

confrontation naming; Chinese patients; brain damage; Boston Naming Test; psychometric properties; internal consistency; discriminant validity, 9444

confrontation naming; neuropsychological tests; Boston Naming Test; mild cognitive impairment, 27344

culture; education; non-verbal neuropsychological measurements; clinical neuropsychology; visuospatial tests; cross-cultural differences; visuo-perceptual & visuoconstrual ability tasks, 194

cut-off scores; performance profiles; neuropsychological assessment instrument; memory assessment scales; symptom exaggeration; malingering; traumatic brain injury; litigant, 27341

cut-offs setting; psychometric indicators; negative response bias; neuropsychological assessment; malingering, 27413

dementia screening; screening tool; tool sensitivity; tool specificity; positive predictive value; PPV; negative predictive value; NPV, 3213

dementia; diagnosis; Instrumental Activities of Daily Living; general practitioner, 12504

depressive episode; repetitive transcranial magnetic stimulation; major depression; disorder severity; neuropsychological assessment, 16880

development; standardization; computerized finger tapping test; finger tapping devices; psychometric properties; gender; age, 33576

diagnosis-seeking; memory clinics; trigger events; dementia; memory assessment; caregivers, 1951

difference scores; neuropsychological assessment; interpretation reliability; reliable components analysis; factor analysis; test scores, 27253

diffuse axonal injury group; information processing speed; stroop neuropsychological screening test; traumatic brain injury, 29111

Digit-Symbol Substitution test; heterosexuality; women; men; homosexuality; performance differences; cognitive functions; adults; sexual orientation, 13386

- discourse performance; closed head injuries; generative story narratives; story retelling; conversation; discourse analysis; grammar; cohesion, 16745
- discourse performance; ethnic dialect; African Americans; aphasia; Western Aphasia Battery-Aphasia Quotient; story retell; picture description; personal narrative, 16578
- divided attention; memory interference; temporal lobe function; neuropsychological testing; word test; animacy decision task; numbers; associative retrieval; distracting task, 27728
- effect sizes; attention-deficit/hyperactivity disorder; neuropsychological test performance; neuropsychological measures; arithmetic achievement; cognitive ability; spelling, 28901
- event related potentials; executive attention; Madrid Card Sorting Test; task switching; working memory, 15061
- executive dysfunction; activities of daily living; schizophrenia; neuropsychological tests; ecological validity, 28740
- executive function; ecological validity; neuropsychological assessment; cognitive capacity; behavioral manifestation; brain injury; Behavior Rating Inventory of Executive Function; inventory; validity, 15067
- executive function; neuropsychological testing; attention-deficit hyperactivity disorder; cognitive ability, 18158
- executive functioning speed; executive functioning accuracy; obsessive compulsive disorder; frontostriatal circuitry; psychomotor speed, 21166
- factor structure; neuropsychological battery; cognitive impairment; Alzheimer disease; Consortium to Establish a Registry for Alzheimer's Disease; CERAD neuropsychological battery; CERAD, 27343
- fMRI; cognitive rehabilitation therapy; severe traumatic brain injury; neuropsychological testing, 32312
- forensic mental health assessment; legal processes; neuropsychology, 6343
- girls; ADHD; Rey-Osterrieth Complex Figure; executive processing deficits; grapho-motor skill, 11082
- Halstead Finger Tapping Test; post-traumatic brain injury; neuroimaging, 29169
- head injured patients; deficit feigning; test validity; malingering; malingering instructions; neuropsychological tests; detection avoidance; motivational tests, 11307
- head injury; coaching; neuropsychology knowledge; malingering detection; simulated malingering; motivation; compensation; blame avoidance; post concussive symptoms; warning of malingering; memory task, 11249
- HIV; AIDS; central nervous system; seropositivity; neuropsychological performance; intravenous drug users; cognitive symptoms; behavioral symptoms; motor symptoms, 4925
- Hopkins Verbal Learning Test; Mini-Mental State Examination; test validity; mild dementia detection; Alzheimer's disease; vascular dementia; elderly adults; demographic factors; reading ability, 9447
- hypoglycemia; response error patterns; retest reliability; cognitive function; psychomotor function; reaction time; impairment, 63
- impulsivity; borderline personality disorder; Attention-Deficit Scales for Adults; neurocognitive performance; computer administered tasks; patients, 10855
- inadequate effort; malingering; Auditory Verbal Learning Test; test development & validation; Exaggeration Index; brain damage; psychiatric patients; memory impairment; delayed recall & recognition, 12501
- incentive effect; preparation time; classification accuracy; traumatic brain injury; task performance; memory tests, 33582
- inpatient rehabilitation unit; Patient Competency Rating Scale; traumatic brain injury, 12503
- intermanual differences; Rey Complex Figure Test copy task; nondominant hand performance; dominant hand impairment, 9443
- intrater reliability; story retelling; raters; minimal training; percent information units per minute; aphasia, 15069
- IQ; intelligence quotient; neuropsychological tests; test performance; cognitive tests; normal adults, 9445
- Kingston Standardized Cognitive Assessment; revised version; neuropsychological assessment; dementia; Alzheimer's disease; geriatric assessment, 18157
- lateralizing value; neuropsychological testing; presurgical evaluation; mesial temporal lobe epilepsy; neuropsychological predictors; epileptic foci, 11266
- left-hemisphere stroke patients; receptive language impairment; digitized spoken words; ERPs, 16747
- long-term memory; illiteracy; literacy; older people, 28147
- major depression; white matter lesions; Stroop test positron emission tomography; cerebral blood flow; neurotransmission; neuropsychological activation, 18163
- malingering tests; Test of Memory Malingering; test resistant conditions; depression symptoms; anxiety levels; test score; test performance; community-based older adults; neurological conditions, 9441
- malingering; atypical performance patterns; standard neuropsychological tests; closed head injury; psychiatric disorders; neurological disorders, 6344
- marmoset monkey; computerized tasks; attention; working memory; Cambridge Neuropsychological Test Automated Battery; neuropsychological tests, 21436
- memory function; presurgical evaluation; Wada test; temporal lobe structures; functional magnetic resonance; positron emission tomography; temporal lobe seizures; cerebral plasticity; neuroscience, 3210
- memory skills; illiterates; test artifact; strategy differences; illiteracy; neuropsychological assessment; memory, 15066
- mild cognitive impairment; dementia of Alzheimer's type; differential diagnosis; Rey Auditory Verbal Learning Test; subjective memory complaints; neuropsychological marker; normal aging, 19973
- mild traumatic brain injury; regional cerebral blood flow; chronic symptomatic patients; neuropsychological deficit, 4973
- moderate hypoglycemia; working memory; neuropsychological test battery; insulin dependent diabetes; cognitive battery; mental functions, 13862
- Modified Card Sorting Test; normative data; perseverative errors; categories achieved; scoring; age effects; education; gender; reference norms; multiple regression analyses; neuropsychological test, 18147
- neurocognitive assessment; clinical trials; antipsychotic drugs; drug efficacy; schizophrenia, 3277
- Neurocognitive Driving Test; computer based assessment; driving ability; acquired brain injury; hospital based evaluation, 195
- neurocognitive profile; attention-deficit hyperactivity disorder; cognitive function; neuropsychological assessment, 25958
- neurodevelopmental characteristics; learning impairments; double-deficit hypothesis; reading; neuropsychological domains, 35115
- neuropsychological assessment; epilepsy, 18145
- neuropsychological assessment; pediatric neuropsychological tests of attention; ecological validity; adaptive functioning, 15079
- neuropsychological assessment; third party observer; negative impact; ethical issues, 30474
- neuropsychological changes; Parkinson's disease; cognitive decline; executive functions; disease course, 11226
- neuropsychological evaluation; personality disorder; functional decline; diogenes syndrome; cognitive impairment; dementia; psychological assessment, 31838
- neuropsychological functioning; social interactions; activities of daily living; older adults; rural environment, 34389
- neuropsychological measurements; seizure onset side; presurgical assessment; temporal lobe epilepsy; temporal lobectomy, 17142
- neuropsychological measures; mental stress; neuropsychological test performance; acute mental stressors, 27337
- neuropsychological measures; neurocognitive function; borderline personality disorder; brain dysfunction; prefrontal cortex; temporal cortex; nonverbal memory; neuropsychological impairment, 13679
- neuropsychological measures; persistent mental illness; neurocognition; long-term prediction; quality of life; outpatients; severe mental illness; persistent mental illness; predictive validity, 24170
- neuropsychological performance; depression; clinical risk factors; etiological risk factors; genetic risk factors; severity, 4600
- neuropsychological test performance; antiretroviral treatment; antiretroviral therapy; protease inhibitor; zidovudine; indinavir; CSF; plasma HIV-1 RNA, 23394
- neuropsychological test performance; cognitively-impaired-not-demented patients; cognitive impairment; dementia, 35318
- neuropsychological test performance; healthy volunteers; donepezil; learning; memory; cognition, 25214
- neuropsychological testing; history of neuropsychology; cognitive treatment, 6979
- neuropsychological tests; mild cognitive impairment; vascular cognitive impairment; Alzheimer's disease; differential diagnosis; test validity; dementia, 24288
- neuropsychological tests; mild cognitive impairment; vascular cognitive impairment; Alzheimer's disease; differential diagnosis; test validity; dementia, 188
- neuropsychology; sports; boxing; neuropsychological tests; neuropsychological testing, 14812
- noncredible effort; complete reading; illiteracy; reading inhibition; color-word interference; acquired brain injury; executive function; color-naming response; neuropsychological assessment; failure, 18160
- Oral Trail Making Test; limitations; Trail Making Test; older patients, 15082
- Paced Auditory Serial Addition Task; neuropsychological test; cerebral dysfunction; brain mapping, 9859
- paraphasias; Cognistar; pathognomic sign; ethnic-linguistic artifact; geriatric veterans; memory; neuropsychological screening, 19978
- parietal lobe dysfunction; concurrent performance; interlocking finger test; neurocognitive test; cognitive deficits, 15051
- pedophilia; IQ; memory; handedness; men; neuropsychological assessments, 10888
- personality disorders; neuropsychological assessment; psychophysiological assessment; personality traits measures; DSM-IV clusters; construct validity, 24229
- professional views; right hemisphere brain damage; service referral; deficit patterns; speech and language pathologists; neurologists; neuropsychologists; occupational therapists, 16737
- progressive amnesia; autobiographical memory; semantic memory; dissociation; neuropsychological evaluation, 8261
- psychological assessment; neuropsychological assessment; forensic setting, 6336
- psychological predictors; intractable epilepsy; memory performance; children; cognitive predictors, 13961
- quantitative EEG; neurotherapy; neurofeedback; neurotherapist, 32251
- Rapid Screen of Concussion; mild traumatic brain injury; diagnosis, 30471
- reliability; validity; Delis-Kaplan Executive Function System, 18151
- Repeatable Battery for the Assessment of Neuropsychological Status; cognitive functioning; elderly patients; normative data, 6341
- Repeatable Battery for the Assessment of Neuropsychological Status; geriatric patients; central nervous system dysfunction; psychometrics; RBANS; reliability, 18155
- Repeatable Battery for the Assessment of Neuropsychological Status; sex; education; performance; elders; RBANS indexes; immediate memory; delayed memory; language; attention; visuospatial/construction, 6337
- resource allocation theory; dual-task methods; aphasia; clinical assessment; language comprehension task; visual-manual tracking task; dual-task conditions, 29152
- Rey-Osterrieth Complex Figure Test; visual memory impairment; recognition trial; suspect effort; verbal memory impairment, 6345
- schizophrenia; neuropsychology; neuropsychological assessment, 7876
- schizotypal personality disorder; neuropsychological profile; neuropsychological impairments; schizophrenia, 25655
- self-reported neuropsychological functioning; epileptic seizures; psychogenic nonepileptic seizures; neurocognitive ability, 22930
- severe brain injury; cognitive performance; malingering; neuropsychological assessment; test performance, 15062
- sexual consent; cognitive impairment; consent competency; psychological assessment; neuropsychological assessment, 6232
- smell identification deficits; olfaction; schizophrenia; Trail Making Test; cognitive function; cognitive processing speed, 34871
- Spanish version of verbal Selective Reminding Test; construct validity; healthy elderly; demented elderly; dementia of the Alzheimer type; memory deficit, 3186
- special education placement; prediction; traumatic brain injury; test scores; California Verbal Learning Test; Wechsler Intelligence Scale for Children; Children's Category Test, 192
- statistical methods; single-case studies; neuropsychology; regression line slope; patient performance; neuropsychological tests, 27333
- Stroop Color and Word Test; neuropsychological evaluations; demographic characteristics; African American adults; executive function; normative tables; normative data; performance effects, 9450
- substance abusing patients; classification accuracy; cognitive impairment; Neuropsychological Assessment Battery, 30472
- suspect effort; malingering; effort measures; neuropsychological assessment; test scores, 15077
- symptom validity measures; ability to fake deficits; mild traumatic brain injury; simulation strategies; detection of malingering, 16740
- symptom validity tests; disability benefits; HIV; cognitive deficits; Hiscoc Digit Memory Test; neurocognitive disorder, 8176
- Ten Questions Questionnaire; neurological impairment; test validity; test reliability; psychometrics; rural community, 27340

Neuropsychology—Books

Active vision: The psychology of looking and seeing, 3333
The cognitive neuroscience of music, 7013
Disorders of brain and mind 2, 16847
Handbook of forensic neuropsychology, 6174
Practitioner's guide to symptom base rates in clinical neuropsychology, 10689

Neuropsychology—Chapters

The brain of musicians, 7025
Brain specialization for music: New evidence from congenital amusia, 7023
Cerebral substrates of musical imagery, 7017
Comparison between language and music, 7015
Consideration of neuropsychological factors in interviewing, 198
Decomposing the person perception process: Cerebral hemispheric asymmetries in social perception, 3760
Depositions, 6180
Diagnostic decision making in neuropsychology, 5088
ESP: Extrasensory perception or effect of subjective probability?, 9733
Forensic neurotoxicology, 4833
Functional neuro-imaging and models of normal brain function, 15617
The future of forensic neuropsychology, 6179
Gender differences in neuropsychological functioning, 15627
How many music centres are in the brain?, 7014
Intracerebral evoked potentials in pitch perception reveal a function of asymmetry of human auditory cortex, 7018
Musical sound processing: EEG and MEG evidence, 7026
The neural processing of complex sounds, 7016
Neurobiology of harmony perception, 7027
Neuropsychological and neuroendocrine factors, 22664
The neuropsychological basis of intelligence revised: Some false starts and a clinical model, 3753
Neuropsychology in the courtroom, 6178
The neuropsychology of chronic drug abuse, 16511
A new approach to the cognitive neuroscience of melody, 7022
The organization of behavior: A neuropsychological theory, 638
Overview of forensic neuropsychology, 3746
Processing emotions induced by music, 6627
Psychological and neuropsychological aspects of vascular and mixed dementia, 1889
Spatial, temporal, and form binding effects in vision: The contribution from extinction, 23043
Synthesis: Psychological understanding and social skills, 7719
Theory of mind and social dysfunction: Psychotic solipsism versus autistic sociality, 6601
Theory of mind in autism and schizophrenia: A case of over-optimistic reverse engineering, 7811

nature nurture; gender; psychoanalytic interpretation; neuroscience; sex, 1302
neural circuits; mouth actions; nonconspecifics; lip-smacking; biting; speech reading; dog; monkey; human; brain, 12814
neural correlates; categorical representations; cortical areas; sensory processing; neural mechanisms; non-human primate brain; sensory inputs; motor output; stimulus-response associations, 15549
neural correlates; sequence learning; motor responses, 12808
neural decision processes; neural correlates; flexible neural behavior; stimulus encoding; behavioral reaction time; sensorimotor structures; neural chronometry; mental chronometry, 15572
neural population codes; population activity; Poisson spike statistics; average spike firing rate; neural computation; brain function; neuron behavior, 15675
neuroethics; historical trends; emerging trends; neuroimaging; functional magnetic resonance imaging; neurosciences, 21600
neuroscience; buddhism; biobehavioral sciences; brain; selective attention; sustained attention; emotions, 34040
neuroscience; psychoanalysts; psychoanalytic technique; patients, 2108
neurosciences; body; mind; psychoanalysis; dialectic, 599
obituary; Paul Janssen; death; psychiatry; clinical neuroscience, 18538
optical imaging; cognitive neuroscience; brain imaging, 6899
oxidative stress; fibrillar deposition; Alzheimer's disease; amyloid peptide; transgenic caenorhabditis elegans; neurodegenerative disorder; senile plaques; pathogenesis; neurofibrillary, 11245
Patricia Shoer Goldman-Rakic; obituary; neuroscience; working memory; prefrontal cortex, 35937
psychoactive drugs; addictive drugs; drug-environment interactions; neurobehavioral plasticity; relapse, 24799
psychoactive substances; social interaction; cerebral function; ontogenesis; addiction; neurosciences; genetics; pleasure, 35040
psychoanalysis; neuroscience; cognitive psychology, 32417
scientific thinking; broad domain; neuropsychology; neuroscience; comparative neuroscience; evolutionary approach; human subdomain; nonhuman subdomain, 3567
social interaction; comparative neuroscience; primates; humans, 34023
spike initiation; feeding synaptic control; motor neuron; sensory neuron; sensorimotor integration; sensory gating; feeding behavior; afferent transmission, 21578
Spinoza; affective neuroscience; emotions; ethical naturalism; cognitive science, 18822
transcranial magnetic stimulation; specific cortical areas; cognitive neuroscience; psychological models; cognitive functions; cognitive studies, 530
visual recognition; visual pathway; cognitive neurology; neural system; neuroimaging; ventral occipito-temporal regions, 15204
volition; neuroscience; mental events; thoughts; brain, 30892
Neurosciences [See Also Neuroanatomy, Neurobiology, Neurochemistry, Neurology, Neuropathology, Neuropsychology, Neuropsychiatry, Neuropsychology]—Books
The clinical science of neurologic rehabilitation (2nd ed.), 2493
The cognitive neuroscience of music, 7013
Disorders of brain and mind 2, 16847
Filling-in: From perceptual completion to cortical reorganization, 15606
The parallel brain: The cognitive neuroscience of the corpus callosum, 15607
The physiology of cognitive processes, 3738
Neurosciences [See Also Neuroanatomy, Neurobiology, Neurochemistry, Neurology, Neuropathology, Neuropsychology, Neuropsychiatry, Neuropsychology]—Chapters
The cognitive neuroscience of self-regulation, 12906
Dreaming and the brain: Toward a cognitive neuroscience of conscious states, 18629
L. S. Vygotsky and A. R. Luria: Foundations of neuropsychology, 3122
Processing emotions induced by music, 6627
Thinking makes it so: A social cognitive neuroscience approach to emotion regulation, 13509
Toward building a better brain: Neurobehavioral outcomes, mechanisms, and processes of environmental enrichment, 5948

Working memory, neuroscience, and language: Evidence from deaf and hard-of-hearing individuals, 23076

Neurosis [See Also Childhood Neurosis, Neurasthenic Neurosis]—Serials

depression; neurosis; psychoanalytic theory; psychosis; phobic-neurotic symptom; melancholia, 22474
 Dr. Thomas Freeman; psychoanalytic psychotherapy; consultant psychiatrist; obituary; psychosis, 8923
 hypnosis; psychogenic or neurotic excoarations; acne excoaration; behavior; acne lesions; treatment; pregnant woman, 35612
 influence of color; chromatic color; achromatic color; emotions; Holtzman Inkblot Technique; neurotic disorders; borderline inpatients; schizophrenics, 24258
 neurosis; mortality; older populations; community sample, 28139
 neuroticism; quality of life; service satisfaction; mental illness service; personality, 1552
 psychiatric disorders; opioid addicts; neurotic disorders; depression; detoxification, 1642
 psychoanalytic situation; time; transference neurosis; countertransference, 2099
 regressive transference; transference neurosis; short-term therapy; active interpretation, 5171
 sadness; excessive crying; dejection; hopelessness; lethargic behavior; psychopathology; suicidal ideation; depressive neurosis, 16460
 transference; transference neurosis; psychoanalysis; Freud; analysts, 35494
Neurosis [See Also Childhood Neurosis, Neurasthenic Neurosis]—Books
 The texture of treatment: On the matter of psychoanalytic technique, 26
Neurosurgery [See Surgeons]
Neurosurgery [See Also Commissurotomy, Hemispherectomy, Psychosurgery, Tractotomy, Vagotomy]—Serials
 ablative neurosurgery; mental disorder; Scotland; neurosurgical treatment; neurosurgical adverse effects; depression; obsessive-compulsive disorder, 10713
 anterior temporal lobectomy; veterans; comorbidity; postoperative seizure; quality of life; employment status; epilepsy; outcome, 11660
 cognitive performance; mesencephalic dopamine; cognitive functioning; motor symptoms; putamen; dopamine embryonic neurons; bilateral implants; Parkinson's disease; PD, 2321
 corpus callosum resection; line bisection performance; callosotomy; side effects; spatial attention; response bias; epilepsy, 2294
 donepezil; acetylcholinesterase; cholinergic neurotransmission; schizophrenia; male patient; frontal lobectomy, 2193
 epilepsy surgery; focal cortical dysplasia; magnetic resonance imaging; circumscribed lesionectomy, 14275
 epilepsy surgery; temporal lobe resection, 14276
 epilepsy; surgery; anterior temporal lobectomy; costs; benefits; patient perception; amygdalohippocampotomy; quality of life; treatment outcome, 14293
 Gilles de la Tourette's syndrome; side effects; neurosurgery; temporal lobectomy; epilepsy; epileptic seizure control; tics; obsessive-compulsive behavior; attention deficit disorder; paranoia, 2286
 hemiplegic patients; intractable epilepsy; motor area; transcranial magnetic stimulation; abductor pollicis brevis; subdural electrodes; surgical treatment; cerebral lesions, 3212
 idiopathic normal pressure hydrocephalus; neurological symptoms; aqueductal stenosis; headache; postural functions; cognitive functions; gait; wakefulness; urinary incontinence; neurosurgery, 8645
 intracarotid amytal procedure; temporal lobectomy; neurosurgery; amygdalohippocampotomy; male patients; temporal lobe epilepsy; cerebral language dominance; lateralization of seizure focus; memory, 2283
 intractable epilepsy; postoperative cognitive changes; early cognitive changes; late cognitive changes; partial seizures; temporal lobe surgery; quality of life; verbal memory; seizure control, 14292
 language comprehension; human brain; language disorders; sensory areas; lateralization; location; functional magnetic resonance imaging; fMRI; language stimulus; cortical processing, 3717
 Left anterior temporal lobectomy; functional neuroimaging; language deficits; fMRI; epilepsy patients, 16818
 linguistic deficits; left selective amygdalohippocampotomy; left-sided temporal lobe epilepsy; naming deficits, 26122
 Magnetoencephalography; MEG; peritumoral temporal epileptic focus; surgical resection; drug-resistant seizure patients; intracranial lesions, 5407
 memory function; presurgical evaluation; Wada test; temporal lobe structures; functional magnetic resonance; positron emission tomography; temporal lobe seizures; cerebral plasticity; neuroscience, 3210

neurosurgical treatment; psychiatric conditions; cognitive performance; movement disorders; dementia; depression; neuropsychology; outcome evaluation; research; neuropsychologist; neurosurgery, 14295
 nonconvulsive status epilepticus; cryptogenic partial-onset seizures; epilepsy surgery, 17188
 Parkinson's disease; controlled trials; systematic review; clinical trial; neurosurgery outcomes, 17197
 reconstructive neurosurgery; Parkinson's disease; best practice; recovery, 17189
 reward-related reversal learning; surgical excisions; orbitofrontal cortex; dorsolateral prefrontal cortex; humans; surgical lesions; visual discrimination; monetary reward, 19996
 spatial resolution requirements; functional magnetic resonance imaging; brain mapping; neurosurgical planning; neurosurgical navigation; brain tumor patients, 23413
 temporal lobe epilepsy; medically treated patients; surgically treated patients; mesial temporal sclerosis; psychopathology, 11635
 transient postoperative prosopagnosia; postsurgical complications; right hemisphere; epilepsy surgery; epilepsy; epileptic seizures; side effects; brain lesions; outcomes, 2312
 vagal nerve stimulation; VNS; antiepileptic drugs; refractory epileptic seizures; seizure frequency; epileptic surgery; epilepsy, 5444
 visual recognition; visual recall; right temporal-lobe excision; temporal lobectomy, 11665

Neurosyphilis—Serials

cerebral blood flow; emotional symptoms; cerebral cortex; neurosyphilis; photon emission; personality change, 14270

Neurotensin—Serials

neonatal amygdala lesions; neurotensin; brain; schizophrenia; rats, 21546
 neurotensin receptor; clozapine response; receptor gene, 14152
 neurotensin; caudate nucleus; substantia nigra; motor reactions; motor performance; rats; conditioned signals, 27941
 tolerance development; rats; hypothermic effects; anticonvulsant effects; neurotensin analog; blood-brain barrier, 12978
 tridecapeptide neurotensin; psychostimulant abuse treatment; neurotensin agonists; neuropeptides; pathophysiology; nicotine, 15798

Neurotic Depressive Reaction [See Major Depression]**Neuroticism—Serials**

adult offspring of alcoholics; AOAs; poor medical health; neuroticism-stability, 23095
 antipsychotic medication; paroxysmal perceptual alteration; oculogenic crisis; schizophrenia; mood disorders; neurotic disorders, 2231
 antisocial behavior; Five Factor Model of personality; neuroticism; agreeableness; conscientiousness; conduct problems; aggression; antisocial personality, 4703
 Archilles Complex; preoedipal trauma; rage; repetition; Freud; neurotic patients; oedipal stage of development; sadism; aggression; psychoanalytic treatment; Jeffrey Dahmer, 31628
 autobiographical memory; trauma; major depression; physical abuse; memory specificity; neuroticism, 25563
 cynical hostility; psychosocial vulnerability model; disease risk; life stress; trait anger; loneliness; irrational beliefs; neuroticism; negative affectivity, 25352
 depressive symptoms; Alzheimers disease; mood disturbances; neuroticism; cognitive impairment, 35285
 depressive symptoms; marital satisfaction; gender differences; neuroticism, 4225
 dispositional optimism; neuroticism; cardiovascular reactivity; female college students; psychological stress; anxiety, 34685
 extraversion; neuroticism; profiles; self-regulation; individual differences, 10607
 Five Factor Model; personality; career exploration; conscientiousness; extraversion; neuroticism; self-efficacy; career information seeking, 30513
 industrialized nations; national character; Internet usage; technology, 13497
 intergenerational perception; conscientiousness; neuroticism; Five Factor Personality Model; openness; introversion; agreeableness, 7682
 irritable bowel syndrome; anxiety sensitivity; neuroticism; worry; generalized anxiety disorder; visceral anxiety, 8130
 love; marriage; obsessional neurotic; misrecognition, 19557
 negative affect; positive affect; medically unexplained symptoms; neuroticism; alexithymia; primary care, 19845
 negative affectivity; neuroticism; fractional concentration; carbon dioxide pressure; hyperventilation, 8167
 neuroticism scale; Eysenck Personality Inventory; response bias; neuroticism; social desirability; test forms, 15029

neuroticism; alexithymia; medically unexplained symptoms; negative affect; positive affect; somatization, 26032
 neuroticism; alexithymia; somatization; personality traits; temporal stability; symptoms; anxiety; depression; positive affect; negative affect, 4851
 neuroticism; attentional control; anxiety disorders symptoms; childhood anxiety, 34916
 neuroticism; burnout; employment service case managers, 20927
 neuroticism; depressive symptoms; health behaviors; physical activity; older adults; spouse caregivers of dementia patients; caregiver stress; path model, 2458
 neuroticism; depressive temperament; dysfunctional regulation; hypothalamic-pituitary-adrenocortical system; risk factors; unipolar depression, 28677
 neuroticism; electroencephalography; EEG asymmetry; EEG variability; anxiety; negative affect; frontal asymmetry variability, 15664
 neuroticism; extraversion; self-assessed health; health-relevant cognition, 28522
 neuroticism; locus of control; depression; internality; powerful others; chance, 31559
 neuroticism; preattentive biases; attentional biases; threat; anxiety; in vitro fertilisation; intracytoplasmic sperm injection; females, 17201
 neuroticism; psychoticism; etiology, 1473
 neuroticism; self-criticism; posttraumatic stress disorder; traumatic stressor; adults; traumatic stressor event; statistical analysis, 16451
 nightmare frequency; nightmare distress; neuroticism; dreaming; stress, 10833
 personality disorder scales; personality disorder assessment; neuroticism; extraversion, 33569
 personality traits; intraindividual life-span approach; neuroticism; age-graded life events; extraversion, 7473
 personality traits; life satisfaction; extraversion; neuroticism; cheerfulness, 31599
 personality; affect; regional brain activity; extraversion; neuroticism; sex differences, 12881
 personality; environmental adversity; adult twins; neuroticism; stressful life events; interpersonal relationships; relationship quality, 7685
 personality; extraversion; neuroticism; positive affect; negative affect; attentional bias; emotional stimuli; autonomic arousal; fusiform gyrus, 13466
 psychiatric symptoms; personality traits; dissociative process; student population; neuroticism; phobic anxiety, 7802
 psychometric schizotypy; neuroticism; personality characteristics; extraversion; P50 suppression, 28752
 psychosocial functioning; parental neuroticism; family environment; parenting practices; major affective disorders; children functioning; bipolar disorder; major depression; psychosocial functioning, 19369
 psychotherapeutic action; comedy; neurotic isolation; laughter; transference; countertransference, 35488
 Qigong meditation; health benefits; personality; neuroticism, 28487
 reaction time; Eysenck's theory; neuroticism; occupational stress; workload; task performance, 10561
 Revised NEO Personality Inventory; anxiety; angry hostility; depression; self-consciousness; impulsiveness; vulnerability; neuroticism; substance dependent outpatients; self-partner agreement, 30398
 self image; neurotic personality; psychotic personality; borderline personality; psychiatric patients; treatment homes, 20605
 serotonin transporter; GABA(A) alpha 6; receptor variants; neuroticism; genotypes; polymorphism; depression, 13611
 sex differences; 5HTT gene; neuroticism; serotonin transporter gene; polymorphism; anxiety related personality traits; genetic effect, 31586
 sickness absence; organizational justice perceptions; hostility; neuroticism; personality; hospital employees, 8975
 situational factors; store business; customer demand; dispositional factors; extraversion; neuroticism; psychoticism; positive emotions, 9106
Neurotoxicity—Serials
 Alzheimer's disease; neurodegeneration; amyloid beta peptide; dorsal hippocampus; rat model; neurotoxicity; spatial memory, 12822
 cannabinoid receptor agonist; neurodegenerative disorders; neuroprotection; intrastriatal injection; Huntington disease; malonate induced striatal lesions; tetrahydrocannabinol; rat models, 15765
 cerebral cortex; hippocampus; apoptosis; homocysteic acid; rat pups; neurotoxic effect; clonic-tonic seizures, 15441
 CL α -calreticulin; oxidative neurotoxicity; neuropathogenesis; Alzheimer's disease; AD; brain disorders; neural loss; amyloid peptide; excitotoxins; reactive oxygen species; ROS, 5028

Volume 91 SUBJECT INDEX

Neurotoxicity—Serials

dietary selenium; dopamine: serotonin: neurotoxicity; MDMA; methylenedioxymethamphetamine; mice; rats; 5-hydroxytryptamine; neurons, 13070

dizocilpine receptor antagonist; neurotoxicity; retrosplenial cortex; gyrus cinguli; adenosine receptor agonists; blockade; protective effects; inhibitory effects; neurophysiological changes; rats, 18779

dorsal striatum; stimulus-response learning; neurotoxic lesions; dorsomedial striatum; dorsolateral striatum; discrimination task; rats, 21582

ecstasy; guinea pigs; MDMA; neurotoxicity; selective serotonin; neurotoxic effect; striatal dopamine; dopamine neurons; hyperthermic response; 3,4-methylenedioxymethamphetamine, 24845

ecstasy; MDMA; mRNA expression; serotonergic nerve terminals; serotonergic mechanism; hyperthermic response; rat brains; doses; 3,4-Methylenedioxymethamphetamine; neurotoxicity; 5-hydroxytryptamine, 24787

ecstasy; MDMA; neuronal inclusions; morphological changes; striatal cells; nigral cells; DNA damage; heat shock protein; 3,4-Methylenedioxymethamphetamine; mice, 24805

epilepsy; treatment; cannabinoid receptors; CB receptor paradox; mammals; endocannabinoid synthesis; anticonvulsant action; proconvulsant action; excitotoxic damage defense, 755

FK506; Tacrolimus; L-arginine; N-nitro-L-arginine methyl ester; L-NAME; pentyltetrazolol; kindling; mice; neuroprotective action; free radical toxicity; pretreatment; protective effect, 784

gemfibrozil; rat cortex; neurotoxicity; hypolipidemic effect; nuclear extracts; brain; oligonucleotide, 3705

human liver microsomes; peripheral metabolism; neurotoxic metabolite; alpha-methyl-dopamine; in vitro formation; glutathione reductase; methylenedioxymethamphetamine; methylenedioxymethamphetamine, 12989

humanin; neuroprotective peptides; Alzheimer disease; TRIM11; tripartite motif protein; neurodegeneration, 22981

lithium; colchicine-induced apoptosis; rat; cerebellar granule neurons; mood stabilizers; lithium; valproic acid; neurotoxicity, 27900

manganese; substantia nigra; dicumarol; DT-diaphorase inhibitor; dopamine oxidation; neurotoxicity; neurodegenerative effects; behavioral effects; motor activity; rearing behavior; substantia nigra, 12988

methamphetamine; body temperature; motor activity; peripheral immune challenge; mice; neurotoxicity; lipopolysaccharide; acute doses; behavioral effects; endotoxemia; lipopolysaccharide, 13074

methylenedioxymethamphetamine; MDMA; ecstasy; MDMA abuse; MDMA-induced neurotoxicity; animals; non-human primates; humans; developing fetus, 15772

methylenedioxymethamphetamine; behavior; neurochemistry; enantiomers; rhesus monkeys; monkey, 27879

neurotoxic; 3,4-Methylenedioxymethamphetamine; MDMA; neurotransmitters; paroxetine; synaptosomal uptake; vesicular uptake; rats, 697

neurotoxicity; HIV-infected patients; antiretroviral toxic neuropathy; viral suppression strategies; neuronal mitochondrial depolarization; FK806 immunophilin ligand; neuroprotective effect; rats, 3659

neurotrophic effects; neurotoxic action; zinc exposure; neonatal cortical neuron; rat; necrotic neuronal death; apoptotic neuronal death; zinc deficiency; chelatable zinc, 9824

noradrenergic pathways; Fos protein; spinal cord; neurotoxic destruction; cannabinoid antinociception; tonic nociception; pain behavior; catecholamine neurotoxin; spinal norepinephrine, 12839

oxygen radicals; brain; ammonia intoxication; rat; brain; rats, 7216

red wine micronutrients; protective agents; Alzheimer's disease; black grape skin; amyloid peptide; human umbilical vein endothelial cells, 15803

triadimefon; behavioral sensitization; neurotoxicity; pesticides, 3961

Neurotoxicity—Chapters
Forensic neurotoxicology, 4833

Neurotoxins [See Also Ibotenic Acid, Methylphenyltetrahydroxydipyrrole]—Serials
3-isobutyl-1-methylxanthine; cholera toxin; pertussis toxin; stress-induced antinociception; mouse; drug administration methods, 704

behavioral effects; subchronic toluene exposure; toluene-induced ototoxicity; behavioral disturbances; neurotoxicity; subchronic noise exposure; rats; locomotion; rearing; tyrosine; tryptophan, 24785

beta amyloid peptide; neurotoxic free radicals; Alzheimers disease; Cu-catalyzed oxidation; reactive oxygen species; pathogenesis; copper; methionine; oxidation mechanism, 8290

brain cholinergic deficiency; rats; estrogens; neurotoxin; animal locomotion, 27925

CBI cannabinoid receptors; excitotoxicity defense; mice; mutation; central nervous system neurons; hippocampus, 751

cognitive impairment; cognitive functioning; neurotoxins; MDMA; drug use patterns, 19663

developmental neurotoxicity; nuclear transcription factors; neurotoxic effects; forebrain neurons; neonatal period; cell damage; chlorpyrifos; toxicogenomics; brain development; c-fos; mRNA; p53, 3621

dopamine depletion; melatonin; deprenyl; mitochondrial damage; dopamine; parkinsons disease; PD; locomotor activity; oxidative damage; neurotoxin, 10009

homocysteine; neurotoxin; chronic alcoholism; brain atrophy, 18534

hypothalamus; hypothalamus; raphe nucleus; puberty onset; raphe nuclei; 5,6-dihydroxytryptamine; neurotransmitters; neuronal activity; serotonergic systems; ovulation; rats, 3684

paraquat; dopaminergic neural vulnerability; organotypic midbrain culture; paraquat toxicity; herbicide; Parkinsons disease; rat; midbrain; dopamine, 7255

perinatal exposure; environmental levels of PCBs; neurophysiological functions; neurotoxic effects; children; developing brain, 10153

severe dopaminergic neurotoxicity; methylenedioxymethamphetamine; ecstasy; recreational dose regimen; selective serotonin neurotoxin; nonhuman primates; squirrel monkeys; baboons; motor dysfunction, 13095

severe dopaminergic neurotoxicity; methylenedioxymethamphetamine; ecstasy; recreational dose regimen; selective serotonin neurotoxin; nonhuman primates; squirrel monkeys; baboons; motor dysfunction, 13060

severe dopaminergic neurotoxicity; methylenedioxymethamphetamine; ecstasy; recreational dose regimen; selective serotonin neurotoxin; nonhuman primates; squirrel monkeys; baboons; motor dysfunction, 771

severe dopaminergic neurotoxicity; methylenedioxymethamphetamine; ecstasy; recreational dose regimen; selective serotonin neurotoxin; nonhuman primates; squirrel monkeys; baboons; motor dysfunction, 13085

Neurotransmission—Serials
adrenergic transmission; conditional fear; mice; temporal massing; conditional stimulus; memory acquisition; temporal spacing; extinction, 21669

adrenergic transmission; conditional fear; mice; temporal massing; conditional stimulus; yohimbine; memory acquisition; temporal spacing; extinction; propranolol, 21427

agonist drug; flunitrazepam; zipsadone; receptor agonist; hydroxytryptamine (5-); serotonin; humans; rats, 24782

Alzheimer disease; transcranial magnetic stimulation study; glutamatergic neurotransmission; motor cortex excitability; cerebral cortex; ionotropic glutamate receptor; N-Methyl-D-Aspartate; NMDA, 16816

Alzheimer's disease; transcranial magnetic stimulation study; glutamatergic neurotransmission; peripheral nerve stimulation; motor cortex excitability; cholinergic connections; cerebral cortex, 16753

amphetamine; sensitization; dopaminergic neurotransmission; cholecystokinin; psychotic disorders; substance abuse; rat exploratory behavior; central nervous system; locomotor response, 27848

balanced inhibition; neural tuning; tone evoked responses; spike timing; auditory cortex; cortical receptive fields formation; neurons, 7009

brain function imaging; cerebral neurotransmission; regional cerebral energy metabolism; Parkinsons disease; neuroprotective drugs; aging, 6919

brain-derived neurotrophic factor; synaptic transmission; dendritic spine density; hippocampal neurons; pyramidal neurons; spine growth; Sprague-Dawley rats, 21529

Caenorhabditis elegans; neural circuits; sensory processing; neural development; electrophysiology; neural function; synaptic organization; presynaptic neurotransmitter release; postsynaptic response, 21500

catechol-o-methyltransferase genotype; dopamine regulation; executive cognition; prefrontal cortex; schizophrenia risk; neurotransmission; tyrosine hydroxylase; midbrain; psychosis; polymorphism, 15471

center-surround inhibition; neurons; sensory processing; olfactory bulb glomeruli; short axon cells; periglomerular cells; odors; mice, 6837

central dopaminergic neurotransmission; serotonergic neurotransmission; psychoanalytic explanations; neurobiological correlates; phenomenological approach; anhedonia; schizophrenia; treatment, 10794

chronic opioid antagonist treatment; mu-opioid receptors; receptor density; proteins; receptor trafficking; chronic naloxone; morphine analgesia; mice, 769

Neurotransmission—Serials

cortical noradrenergic neurotransmission; neophobia; impaired spatial memory; aged rats; memory tasks, 27721

corticotropin-releasing factor; gamma aminobutyric acid; paraventricular nucleus; hypothalamus; neuron activity; glutamate circuit control, 34003

delayed nonmatching-to-position; memory functions; visuospatial function; noradrenergic transmission; discrimination learning; adrafinil; modafinil; adrenergic agonists; age; dogs, 785

dendritic spines; synaptic connections; cerebral cortex; structure-stability-function; glutamate receptors; memory; cortical neuronal networks, 6918

depressive disorder; chronic pain; emotional symptoms; physical symptoms; serotonin; norepinephrine; antidepressants; neurodegeneration; neuroplasticity, 34758

dopamine receptor antagonist; rats; cocaine intake; dopamine neurotransmission; drug self-administration, 21804

dopamine receptor; antipsychotics; dopaminergic neurotransmission; schizophrenia, 32430

dopamine transmission; microdialysis; motivation; nucleus accumbens shell; reward; ethanol, 21540

dopamine transporter; TRODAT; drug-naive patients; schizophrenia; striatal dopaminergic system, 7874

dopamine; glutamatergic reticulospinal synaptic transmission; lampreys, 12888

dopaminergic neurotransmission; impaired social responses; group housing; isolation housing; stereotyped responses; perseverative patterns; dopamine transporter knockout mice; animal model, 9882

dopaminergic neurotransmission; opiates; somatic withdrawal symptoms; motivational withdrawal symptoms; rats; dopamine; nucleus accumbens; apomorphine; droperidol; flunitrazepam; naloxone; syndromes, 701

epidermal growth factor; neonatal rats; EGF receptor signaling; neurobehavioral effects; adult social development; cognitive development; motor impairment; sensorimotor gating; tyrosine hydroxylase, 12772

feather pecking control; serotonin; laying hens; 5-hydroxytryptamine neurotransmission; behavioral pathology; chick forebrain, 21492

fragile X syndrome; mental retardation; molecular genetics; neurobiology; synaptic plasticity, 35221

functional autapses; synaptic transmission; neurons; physiological role; cerebral cortex; neocortex; practical utility, 15478

galanin receptor-1; dorsal raphe nucleus; 5-HT neurons; serotonin transmission; species differences; rat; mouse, 12857

glutamatergic neurotransmission; familial bipolar disorder; glutamate receptor; mood disorders; ADAR1 gene; sequence analysis; genes; genetics, 28623

hippocampal acetylcholine; neurotransmission; cognitive processes; acetylcholine release; muscarinic receptor; impaired cognition; knockout mice; hippocampus, 12779

hippocampal neurons; tumor necrosis factor alpha; cytosolic calcium responses; rat; potassium chloride; AMPA; calcium channel; sleep, 6871

hippocampal serotonergic neurotransmission; corticotropin releasing hormone receptor type 1 antagonist NBI 30775; HPA axis activity; stress; corticosterone; behavior; mice, 10029

human neocortex; mouse neocortex; ChAT activity; acetylcholine release; choline acetyltransferase; neocortical slices; potassium depolarization; neurotransmission, 3711

hypolocomotor action; Diazepam; drug tolerance; rats; hippocampal synaptic plasticity; NMDA receptors, 766

hypothalamic paraventricular nucleus; glutamatergic neurotransmission; gene expression; stress response; anhedonia; corticotropin-releasing hormone; ventral tegmental area; NMDA; nucleus accumbens, 561

ligands; voltage sensitive calcium channel modulators; ions; neuronal membranes; neurotransmission; central nervous system; anticonvulsant effects, 34072

melatonin metabolites; hormone; spinal nociceptive transmission; eserin; spinal cord windup activity; melatonin degradation blockade; rats, 13043

memory patterns; functional role; oscillator neural networks model; temporal coding; statistical neurodynamics, 9274

mesolimbic dopamine transmission; rewarding effects; aversive motivational effects; nicotine; ventral tegmental area; neural substrate; sensitivity, 13028

mouse popping behavior; galantamine; phencyclidine; PCP; noncompetitive antagonist; neurotransmission; schizophreniaform psychosis; NMDA receptor, 6873

nervous system; genetics; environment; lifespan; brain; neurotransmission; psychiatric illness; nature nurture, 13568

neuronal synchronization; selective color processing; human brain; selective attention; gamma band responses; induced alpha band; event-related potentials; neuronal dynamics, 18593

- neuroreceptor imaging; stress; mood disorders; neurotransmitter receptors; neurotransmitters; serotonergic function; opioidergic function; dopaminergic function, 34830
- neurotransmission; olfactory information; olfactory cortex, 7005
- noradrenergic neurotransmission; nucleus tractus solitarius; agonist phenylephrine; neural processes; memory storage process; information encoding, 12867
- perforant path synaptic strength; hippocampus; early eyelid opening; synaptic transmission; neural development; spontaneous alternation; rats, 30845
- perirhinal cortex; cholinergic neurotransmission; glutamatergic neurotransmission; taste recognition memory; learned taste aversion; scopolamine; AP5; NBQX; NMDA; AMPA; receptor antagonists, 15750
- pharmacological approaches; neurobiological research; chronic alcohol intake; alcoholism, 11913
- post-synaptic GABA receptors; intermediate medial hyperstriatum ventrale; early learning; chicks; low-threshold NMDA system; coincidence detection, 34006
- presynaptic proteins; prefrontal cortex; schizophrenia; rats; abnormal prefrontal development; immunoreactivity; synapse-associated proteins, 13629
- pyramidal neurons; rats; prefrontal cortex; synaptic transmission; dopamine, 21843
- rapid temporal modulation; synchrony; cortical interneuron networks; neurons; visual cortex, 24119
- rate code; transmission; feedforward networks; excitatory-inhibitory balance; neurons; synaptic connections, 21627
- receptor desensitization; glutamate receptors; receptor occupancy; synaptic transmission, 21677
- reduced serotonin transporter-availability; obsessive-compulsive disorder; [123I]beta-CIT, 31824
- schizophrenia patients; steady-state response; neural synchronization; aberrant brain; evoked response differences; evoked response amplitude; event-related potentials; visual evoked potential, 19432
- serotonergic neurotransmission; pharmacological treatments; retention; rats; retrieval processes; passive avoidance; memory reactivation; serotonin 1A agonist 8-OH-DPAT, 13071
- serotonin receptor gene; linkage disequilibrium; attention deficit hyperactivity disorder; ADHD; dopaminergic neurotransmission; polymorphism, 13796
- social isolation; medial prefrontal cortex; dopaminergic neurotransmission; cholinergic neurotransmission; Sprague-Dawley rats; prepulse inhibition attenuation; motor activity, 12859
- synaptic facilitation; synaptic connections; synaptic plasticity; sensory cells; non-depressed synapses; depressed synapses; serotonin, 15489
- synaptic transmission correlates; mental ability; nerve conduction velocity; cognitive abilities; reaction time, 30860
- synaptic transmission; amygdala; interneurons; electrical microstimulation; cortical afferents; thalamic afferents; rats, 21702
- synaptic transmission; impulse propagation; hippocampal slice; cortical cultures; synaptic activity; nervous tissue; cell survival; nerve injury; pulsed radiofrequency; neuropathic pain, 15485
- tactile perception; cortical representation; bodily self; brain construction process; neural mechanisms; bodily sensation; brain centers; touch sensation; body posture; attribution, 15508
- ventrolateral preoptic nucleus neurons; rats; gamma aminobutyric acid; GABAergic transmission; noradrenaline; presynaptic modulation; mechanically dissociated neurons, 15543
- vitamin A deficiency; radial maze discrimination learning; relational memory; hippocampus; retinoid receptors; neurogranin; retinoids; memory deficit; adult mice; brain retinoid signalling, 3629
- whole-cell recordings; evoked synaptic transmission; olfactory bulb; rats; mitral cells; tuft cells, 21554
- Neurotransmitters [See Also Acetylcholine, Aspartic Acid, Catecholamines, Cholecystokinin, Endorphins, Gamma Aminobutyric Acid, Glutamic Acid, Glycine, Histamine, Neurokinins, Neurotensin, Serotonin, Substance P]—Serials**
- adenylate cyclase; cyclic AMP accumulation; inhibitory receptors; molecular signalling pathways; neuronal cell; cell sensitization; neuroadaptation; neurotransmitter; protein, 3657
- amino acid transmitters; valproate; pentylenetetrazol-kindling; rats; epilepsy; hippocampus, 34164
- antidepressants; neurotransmitter transporters; neurotransmitter receptors; norepinephrine; serotonin; dopamine, 5332
- anxiety-reducing effects; corticosterone levels; receptor antagonist; cognitive disorders; receptor mediated signalling; mice, 18710
- behavior alteration; striatal neurochemistry; stereotyped movement disorder; deer mouse model; neurotransmitters; neuromodulators; stereotyped behavior, 18601
- behavioral effects; selective serotonin reuptake inhibitors; norepinephrine reuptake inhibitors; neurotransmitter mechanisms; selective antidepressants; drug therapy, 20354
- biological basis; schizophrenia; positive symptoms; affective symptoms; neuronal circuits; neurotransmitters; novel treatment strategies, 16443
- biological psychiatry; 59th Annual Meeting of the Society of Biological Psychiatry; psychiatric disorders; brain; morphology; neurotransmitters, 22395
- borderline personality disorder; neurobiological correlates; neurotransmitter systems; serotonergic activity; impulsivity; affective instability; noradrenergic activity; cholinergic activity, 10861
- Caenorhabditis elegans; neural circuits; sensory processing; neural development; electrophysiology; neural function; synaptic organization; presynaptic neurotransmitter release; postsynaptic response, 21500
- Cajal-Retzius cells; transcription factors; neurotransmitters; pallidum neurons; reelin; interneurons; subpallial transcription factor; migrating interneurons; cortex; corticogenesis, 21595
- cerebrospinal fluid; signalling compounds; food deprivation; appetite score; fasting; neurotransmitters, 12929
- clozapine-induced glutamate reduction; glutamate transport; frontal cortex; GLAST; EAAC1; neurotransmitter; rats; immunoreactivity, 13037
- dehydroepiandrosterone; synaptosomal glutamate release; inhibitory avoidance; rodent central nervous system; neuronal excitability; neuronal plasticity, 18581
- depression; somatic symptoms; treatment; serotonergic neurotransmitter system; noradrenergic neurotransmitter system; serotonin; norepinephrine, 5277
- depressive illness; stressors; cytokines; antidepressant treatment; neurotransmitter; interleukin; immunotherapy, 7813
- dopaminergic neurotransmission; striatum; frontal cortex; hippocampus; trans isomers; linoleic acid; brain areas; fatty acid; rat brain, 3863
- drug dosages; food consumption; neurotransmitter levels; weight loss; tetrahydrocannabinol; cognitive function; mice, 27851
- dura vascular permeability; restraint stress; neurogenic inflammation; migraine headaches; nerve stimulation; trigeminal nerve; rat dura mast cell; stress-induced migraines; neurokinin-1 receptor, 6800
- elevated plus maze; sensitization; kainate; AMPA; NMDA; acetylcholine; amygdala; anxiety; receptors; mice; serotonin; receptor binding; GABA, 3734
- event-related brain potentials; pharmacological treatment; schizophrenia; brain structure; neurotransmitters; genetics; psychosis, 19444
- excitatory amino acids; glutamate; aspartate; mechanism of action; clinical profile; glycine agonists; glutamatergic neurotransmission; NMDA receptor; atypical antipsychotic drug; neurotransmitters, 7199
- GABA; glycine; neurotransmitters; neurons; thermal hyperalgesia; chronic constriction injury model; neuropathic pain; rats, 6971
- GABAergic interneurons; synaptic signaling; oligodendrocyte precursor cells; hippocampus; neurotransmitters, 15536
- hemispheric dominance; hypothalamic digoxin; neurotransmitter patterns; love; arranged marriage; affection, 15530
- hemispheric dominance; isoprenoid pathway; digoxin synthesis; neurotransmitter patterns; neoplasms; neurogenic disorders; Huntington's disease; trisomy 21; glioblastoma multiforme; lymphoma, 16609
- human sex differences; hypothalamus; aggressive behavior; suprachiasmatic nucleus; serotonin; schizophrenia; neurotransmitter system; sex hormones, 6834
- hypothalamus; hypothalamus; raphe nucleus; puberty onset; raphe nuclei; 5,6-dihydroxytryptamine; neurotransmitters; neuronal activity; serotonergic systems; ovulation; rats, 3684
- inhibitory synapses; neurotransmitter transporters; synapse density; hippocampal interneurons; GABA transporters, 21654
- interleukin-6-deficient mice; audiogenic seizures; neurotransmitter amino acid levels; brain areas; disorder susceptibility, 24667
- lithium; valproate; amino acid neurotransmitters; rats; aspartate; glutamate; taurine; gamma aminobutyric acid; alanine; bipolar disorder implications, 759
- memory formation; learning; metabotropic glutamate receptor agonists; ACPD; ABHx-D; neurotransmitters; chicks, 775
- neurotoxic; 3/4-Methylenedioxymethamphetamine; MDMA; neurotransmitters; paroxetine; synaptosomal uptake; vesicular uptake; rats, 697
- neurotransmitter changes; neuropsychiatric side effects; positive therapeutic effects; opioid receptor antagonists; neurobiological correlates; neuropsychiatric syndromes; interferon-alpha; treatment, 11554
- neurotransmitter; medial prefrontal cortex; psychostimulants; mesocorticolimbic dopamine system; drug addiction; behavioral sensitization, 15584
- neurotransmitter; neurochemical systems; cognitive processes; behavioral tasks; rat learning; rat memory; neurotransmitter systems, 15554
- neurotransmitters; wake-sleep stages; central neurocircuitry functioning; noradrenaline; adrenaline; dopamine; platelet serotonin; plasma serotonin; plasma tryptophan, 24757
- norepinephrine; effectiveness; antidepressants drugs; monoamine transporter; serotonin reuptake inhibitors; pharmacotherapy; efficacy, 20372
- opioid antagonists; ethanol consumption; endogenous opioid system; opioid neurotransmission; opioid peptides and receptors; alcoholism; b-endorphins; naloxone; naltrexone; genetics, 24618
- polypeptides; hyperpolarization; neurons; ascending pathways; neurotransmitters; brain activity, 21743
- receptor antagonists; neural receptors; glutamatergic neurotransmission; NMDA receptor; atypical antipsychotic drugs; atypical antipsychotic drugs; neurotransmitter systems, 7262
- serotonin depletion; brain serotonin; catecholamines; monoamine neurotransmitters; noradrenaline; dopamine; cognitive processes; attention; learning; memory, 21874
- serotonin transporter; monoamine neurotransmitter; monoaminergic transmission; altered rapid eye movement; pre-REMS power surge, 21776
- serotonin; gene expression; clock genes; suprachiasmatic nucleus; circadian rhythms; retinohypothalamic tract; glutamate; pituitary adenylate cyclase-activating polypeptide; rats, 21510
- stressful training changes; endogenous neurotransmitters; human plasma; homeostasis; stressor; dopamine, 34130
- synaptic plasticity; translation initiation; protein synthesis; mRNA; synaptic strength; signaling pathways; neurotransmitter & neurotrophin receptors, 34037
- tetralin; serotonin receptors; immobilization stress; lipopolysaccharides; lymphocytes; neurotransmitters, 15805
- triadimfon; behavioral sensitization; neurotoxicity; pesticides, 3961
- zuclopentixol; memory retrieval; rats; inhibitory avoidance; noradrenergic & serotonergic mechanisms; thioxanthene dopaminergic antagonist; acetylcholinesterase enzyme; hippocampus; neurotransmitters, 738
- Neutrality (Psychotherapeutic) [See Psychotherapeutic Neutrality]**
- Never Married—Serials**
- family court; divorce; fathers; paternity; primary caregiver; out-of-wedlock fathers; substance abuse, 3094
- family court; fatherhood; unmarried fathers; single parents; paternity; parenting, 3095
- marriage timing; union formation; never married men; cohabitation; working wives; employment; values; American men; late 20th century changes, 28255
- News Media [See Also Newspapers]—Serials**
- communist propaganda; positive appraisal; republic of china; liberal arts; news media; journalistic paradigms; media exemplars, 4072
- cruel intentions; television; aggression; media, 28802

- fundamentalist christians; network television; television news; reporting bias; content analysis, 18882
- gender differences; rational thinking; relative weight; frequency data; positive trends; negative trends; news reports, 4019
- knowledge structures; learning research; public affairs expertise; online news stories; in-text hyperlinks; World Wide Web, 13132
- local television news; news content; fear; crime; US residents; perceived risk; television viewing, 15895
- media skepticism; opinion perception; news media; social opinion; audience mistrust, 13458
- music melody; speech rate; audio news; personality; emotional response; news messages, 31578
- National Collegiate Athletic Association News; intercollegiate athletics; gender representation; female athletes; gender equality; media coverage, 24892

Volume 91 SUBJECT INDEX

News Media—Serials

network television news; crime reporting; crime statistics; public fear; public opinion; public perception; crime, 15893

new media; counter publicity; radical groups; alternative media; public sphere; counter-public sphere; society; political fragmentation; politics, 15885

news media; deregulation; democratization; freedom of the press, 15892

Oxycontin media frenzy; pain community; physicians; media responsibility; opioids; drug prescription, 5450

police corruption; media reporting; news coverage; scandals; political agenda; media agenda; police practices; New South Wales, 33450

political cynicism; issue evaluations; policy support; strategic television news coverage; political issue, 31085

political information; news media; scandal; journalists, 31096

political scandals; media; investigative journalism, 31095

potential impacts; news media; internet; world wide web; journalism; online publishing; multimedia, 15883

public health; content analysis; news; media advocates, 10118

scandal; investigative reporting; French journalism; social theories; politics, 31083

September 11; cognitive impacts; social impacts; emotional impacts; memory; reception context; flashbulb memory; group differences; news, 28398

sex and relationship education; teenage pregnancy; newspaper articles; media, 35681

signal detection analysis; audio redundancy effects; video redundancy effects; television news video; media memory; recognition memory; news stories, 33853

tailored broadcast news; broadcast news sources; program content; user modeling; personalcast; broadcast news understanding system, 34235

visual intensity; audiovisual redundancy; bad news; compelling messages; visual information; viewers recognition; delayed free recall, 31084

women's athletics; SportsCenter; female athletes; athletic participation; fan interest; inferior coverage, 33313

News Media [See Also Newspapers]—Books

Mixed media: Moral distinctions in advertising, public relations, and journalism, 869

News Media [See Also Newspapers]—Chapters

The megaphone effect: The international diffusion of cultural media via the USA, 15841

Strategies for successful interactions with the news media, 2606

Newsletters [Professional] [See Scientific Communication]

Newspapers—Serials

consumer behavior; dependent variables; theoretical explanation; newspaper readership; national sample; theoretical viewpoint; consumer research, 9173

corporate welfare; national interest; newspaper analysis; public subsidization; National Hockey League; ice hockey; political-economic impact; sociocultural impacts; Canadian government, 27138

fantasy themes; newspaper, 18888

foreign trade; cigarette exports; press coverage; trade policy; United States media, 18883

mammography screening; medical technologies; breast cancer, 8675

newspaper coverage; able-bodiedness; British media coverage; Paralympic games; Sydney; Paralympic athletes, 4075

newspaper reporting; social construction; social responses; public construction; homicide, 28888

newspaper reports; sex differences; research; biological factors; gender stereotypes, 31407

pragmatics; newspaper headlines; relevance optimization; relevance theory; news framing, 21989

psychosomatic in newspaper articles; meaning; connotation; reciprocal interaction; psychosomatic disorders; psychiatry; education of media, 29449

public relations; chief executive officers; organizational image; salience; positive valence; competency, 30171

sex and relationship education; teenage pregnancy; newspaper articles; media, 35681

social identity theory; women's roles; victimization; women representations; newspapers; religious literature, 10415

stereotypes; cognitive impairment; newspaper articles; senior moment; memory lapses; functional incompetence; ageist attribution, 34370

user requirements; educational game; interaction design; design process; design method; Kid Reporter method; User-Centered Design; children, 17615

violence portrayal; violent agents; group membership; media violence; disguised violence; non-US agents; law enforcement agents; US nationalism; newspaper photographs; imagery; group status, 15887

Niacin [See Nicotinic Acid]

Niacinamide [See Nicotinamide]

Nicotinamide—Serials

antidepressant effect; nicotinamide adenine dinucleotide; precursor nicotinamide; forced swim test; antidepressants; desipramine; fluoxetine; Wistar rats; beneficial effects, 13065

memory impairment; learning impairment; methyl-phenyl-tetrahydropyridine; nicotinamide; mice, 24857

Nicotine—Serials

abstinence rates; recalcitrance; cessation cognitive-behavioral smoking cessation treatments; placebo medication; smokers; pharmacotherapy; nicotine gum; nicotine patch; coping skills training, 5687

acetylcholine sources; nicotinic cholinergic receptors; turtle retina; nitric oxide signal-transduction pathway; cyclic guanosine monophosphate pathway; nicotine, 6788

adolescence; nicotine exposure; cholinergic systems; rats; cerebral cortex; midbrain; hippocampus; nicotinic cholinergic receptor binding; choline acetyltransferase; hemicholinium 3 binding, 7142

adolescent smokers; nicotine patch; bupropion; treatment efficacy, 32787

alcohol dependence; tobacco use; early experiences; never smokers; nicotine dependence, 31451

alcohol use disorders (AUD); tobacco dependence (TD); general population, 10435

alcohol; analgesia; conditioned place preference; ethanol; fetal alcohol syndrome; hyperalgesia; neonate; nicotine; withdrawal, 13067

amygdaloid norepinephrine; NE secretion; NE; rats; chronic nicotine self-administration; nicotine learning; amygdala, 6893

antidepressant action; nicotine; rats; fluoxetine; drug interactions, 24855

arterial nicotine plasma concentrations; cigarette smoking; abstinent smokers; cigarette craving, 34155

asthma management; perceived exposure to environmental tobacco smoke; patient education; patient self management; asthmatic children & their parents, 29039

behavioral vulnerability; neurochemical vulnerability; nicotine; psychoactive drug; addiction; mice, 24643

blind spot; nicotine replacement therapy; smoking cessation, 26735

body image; eating disorder variables; smoking severity; gender differences; nicotine dependence; depression; anxiety, 13408

Brief Smoking Consequences Questionnaire-Adult; smoking expectancy; smoking-nicotine dependence; validity; reliability; heavy smokers; light smokers; African American smokers; psychometric properties, 13400

bupropion; amphetamine; apomorphine; methamphetamine; nicotine; self-administration; rats, 10035

cell proliferation; nicotinic acetylcholine receptors; cognitive impairment; Alzheimer's disease; schizophrenia; hippocampus; heterozygous mice, 18758

chronic dermal nicotine; cognitive performance; attentional performance; age associated memory impairment; clinical symptoms, 17092

cigarette smoking; pregnancy; maternal body weight; newborn size; birth weight; birth mode; Caesarean section; nicotine, 17121

cigarette smoking; sucrose consumption; analgesic effects; mood; pain-relieving action; nicotine; gender differences, 27906

compulsive smoking; nicotine dependence; unidimensional construct; physical dependence; smoking behavior; Fagerstrom test; social problems; Rasch analysis, 10971

consumer demand; nicotine replacement therapy; prices; cigarettes, 5704

cotinine; cognitive action; neuroprotective action; nicotine; pharmacological half-life; protracted behavioral response; apomorphine-induced deficits; cholinergic agonist, 21814

cue exposure; cognitive performance; nicotine deprivation; urge to smoke; smoking-related cues, 4309

dementia; schizophrenia; nicotinic receptor expression; prefrontal cortex, 7752

depressive disorders; nicotine dependence; smoking; smoking cessation; comorbidity; smoking sustenance, 19669

depressive symptoms; inner city African American smokers; smoking cessation; nicotine replacement therapy; nicotine patch; smoking levels, 5675

DMXB; nicotinic receptor agonist; GTS-21; auditory gating; social isolation, 3952

dopamine D3 receptor ligands; nicotine conditioning; nicotine associated cues; environmental effects; nucleus accumbens, 13029

dopamine transporter; nicotinic receptors; negative symptoms; schizophrenia; rats; prefrontal cortex; dopaminergic activity; nicotine, 7174

EEG effects; tobacco withdrawal; denicotinized cigarettes; smoking behavior; reduced craving; plasma nicotine levels, 4315

endothelial vasodilatory function; cigarette smoking; smokers; forearm blood flow; human forearm; metacholine infusion; sodium nitroprusside, 3933

Nicotine—Serials

factor structure; Arabic test version; Self-Administered Nicotine-Dependence Scale, 24162

factor structure; Fagerstrom Test for Nicotine Dependence; polysubstance use, 4736

GABA receptor agonists; gamma-aminobutyric acid-B; baclofen; nicotine; self-administration; food-maintained responding; fixed ratio schedules; progressive ratio schedules; rats, 18782

Genetics; etiology; drug dependence; heritability; nicotine dependence; alcohol dependence; genes, 4744

glucose tablets; tobacco withdrawal symptoms; smoking cessation; abstinence; glucose; bupropion; withdrawal symptoms; nicotine replacement, 14485

health promotion dissemination; systems thinking; tobacco control, 11692

imipramine-induced antinociception; nicotine; cholinergic agents; mice; drug dosage, 13104

Internet; tobacco purchasing; underage youth; minors, 22076

lobeline; nicotinic ligand; antagonist; radial-arm maze; working memory performance; learning; rats, 743

locomotor activity; environmental enrichment; nicotine-induced hyperactivity; rats, 9993

locomotor activity; mutant mice; dopaminergic system; neuronal nicotinic acetylcholine receptor; nicotine; cocaine; dopamine; drug abuse, 21634

long-term development; behavioral teratogenicity; prenatal nicotine exposure; rats; neonatal development, 21917

major depression; nicotine dependence; cigarette smoking; New Zealand; young adults; daily smoking; social factors; family factors; behavioral factors; children; adolescents, 7742

memory deficits; nicotine; scopolamine; inhibitory processes; dementia; aging; retrieval-induced forgetting; cholinergic antagonist; cholinergic function; cholinergic agonist; memory deficits, 9983

mesolimbic dopamine transmission; rewarding effects; aversive motivational effects; nicotine; ventral tegmental area; neural substrate; sensitivity, 13028

mice; spatial learning; locomotor activity; nicotine; housing; aggressiveness; anxiety, 9765

morphine; naloxone; place aversion; nicotine; dopaminergic mechanism; withdrawal syndrome, 15724

mutational analysis; nicotinic acetylcholine receptor; alpha 4 subunit gene; attention deficit hyperactivity disorder; intronic polymorphism; nicotine agonists; nicotinic receptors, 13802

nasal spray; nicotine treatment; smoking cessation; preferences; gum; inhaler; tablet; craving; reinforcement; withdrawal, 35888

nicotine administration; positron emission tomography; emission tomography studies; amphetamine administration; bolus injections; acute nicotine, 21871

nicotine blocking agent; Accu Drop; cigarette tapering; smoking cessation; counseling; nicotine fading, 32770

nicotine chewing gum; handwriting movements; smokers; motor processes, 28374

nicotine dependence; adolescent smoking frequency; high school students; smoking onset, 11009

nicotine dependence; assessment; positive reinforcement; vulnerability, 31927

nicotine dependence; baseline smoking behavior; gender differences; combined nicotine therapy; smoking cessation; nicotine inhaler; nicotine patch; cessation outcomes, 5673

nicotine dependence; Heaviness Smoking Index; Fagerstrom Test for Nicotine Dependence; tobacco smoking behavior; cigarette smokers; short form, 30479

nicotine dependence; HIV risk behaviors; illicit drug users, 22681

nicotine dependence; metabolic changes; brain metabolic response; metabolic effects; hostility traits; smoking; brain imaging; addiction; attention; personality, 19657

nicotine dependence; tobacco smoking; dependence degree; lifetime amount of tobacco; years of smoking; age differences, 8014

nicotine deprivation; eye movements; smoking-related cues; attentional biases, 27881

nicotine dose; instructions; smoking; reinforcing effects; subjective effects; cigarette reward value; nicotine content; brand differences, 18783

nicotine effects; cognitive functioning; functional connectivity; schizophrenia; tobacco smoke; brain function, 28714

nicotine exposure; cholinergic systems; maternal smoking; pregnancy; prenatal exposure; brain development; nicotinic cholinergic receptors; rats, 24774

nicotine gum; antisaccade errors; schizophrenia; cognitive impairment; reaction times, 20347

nicotine gum; cigarette craving; smoking cessation, 22675

nicotine infusion; serum nicotine concentrations; peak arterial concentrations; nicotine self-administration; rats; nicotine replacement therapy, 10015

- nicotine inhibition; pulsatile gonadotropin-releasing hormone; gamma-aminobutyric acid; rats; embryonic olfactory placode, 27908
- nicotine patch therapy outcomes; heavy smokers; alcohol dependence history; high dose nicotine patch; dose conditions; nicotine abstinence; alcohol abstinence length; follow-up assessments, 13401
- nicotine patch; abstinence; smoking cessation; performance, 5678
- nicotine patch; nicotine nasal spray; smoking abstinence rates, 5679
- nicotine patches; genotype; nicotine replacement therapy; smokers; human sex differences, 26747
- nicotine preference; nicotine exposure; oral nicotine consumption; maternal nicotine exposure; adolescent smoking; smoking behavior; mice; periadolescent offspring; mouse model; risk factor, 3921
- nicotine replacement therapy; behavioral treatment; smoking reduction; later cessation, 5674
- nicotine replacement therapy; cigarette smoking reduction, 20634
- nicotine replacement therapy; plasma cotinine; exhaled carbon monoxide; transcutaneous partial oxygen tension; thiocyanate levels; cardiovascular risk markers; cigarette smoking, 5685
- nicotine replacement therapy; pregnancy; smoking; growth restriction; preterm birth; miscarriage; perinatal death; maternal blood pressure; heart rate, 26712
- nicotine replacement therapy; smoking cessation interventions; prolonged abstinence; effectiveness evaluation, 5698
- nicotine replacement therapy; smoking cessation; treatment efficacy; sex differences, 32760
- nicotine research; tobacco research; pregnant smokers; external rewards; behavioral change; nicotine replacement; fetal growth, 35880
- nicotine use; tobacco smoking; body weight; hookah use; young smokers; smoking cessation; nicotine patches; treatment withdrawal, 31439
- nicotine-alcohol interactions; attentional performance; operant visual signal detection task; dosages; female rats, 770
- nicotine/tar ratio; cigarette puffing behavior; nicotine yield; smoking conditions; tar yield; sensory evaluation; smoking behavior; sensory response; nicotine delivery, 10433
- nicotine; attention; choice serial reaction-time; nicotinic acetylcholine receptor; mice, 24858
- nicotine; behavioral sensitization; monoamine oxidases; translycypromine; pargyline, 3986
- nicotine; behavioural sensitisation; alcohol drinking; voluntary alcohol intake; rats; locomotor effects, 27872
- nicotine; body weight set point; rats; weight threshold, 3896
- nicotine; cocaine; caffeine; cigarette smoking; tobacco; transdermal nicotine maintenance; reinforcement; tolerance; intravenous administration, 25910
- nicotine; cognitive deficits; schizophrenia; physiological dysfunctions; tachyphylaxis, 28706
- nicotine; contextual fear conditioning; ethanol-induced deficits; learning; ethanol-nicotine coadministration; mice, 7189
- nicotine; elevated plus maze; locomotor activity; male and female rats; adolescent and adult rats; anxiolytic effects; anxiogenic effects, 12991
- nicotine; flash-evoked potentials; visual cortex; superior colliculus; rats, 27896
- nicotine; methyllycaine; N-methyl-D-aspartate; hippocampus; CA1 area; rats; synaptically evoked population spikes; kinases, 3891
- nicotine; Pavlovian appetitive conditioning; rats; visual cues; rewarding outcome; conditional stimulus; naloxone, 30996
- nicotine; respiratory quotient; energy expenditure; metabolic changes; body weight, 12932
- nicotine; self-administration; individual differences; animal sex differences; rats, 7169
- nicotine; self-administration; dependence; craving; cigarette smoking, 3964
- nicotine; target biting; resident-intruder; aggression; shock; timing, 15760
- nicotine; tobacco research; smoking; tobacco smoking, 4318
- nicotine; tobacco; cigarette smoking; dependence; satiation, 3965
- nicotinic acetylcholine receptors; sensory cortex; sensory information processing; systems level effects; cellular level effects; visual cortex; somatosensory cortex; auditory cortex, 15547
- nicotinic cholinergic synaptic mechanisms; ventral tegmental area; nicotine addiction; nicotine; mesolimbic dopaminergic system; midbrain dopamine neurons; synaptic plasticity, 15794
- nicotinic effects; memory function; ventral hippocampal NMDA receptors; systemic nicotine; NMDA antagonist; dizocilpine; rats, 13030
- nicotinic receptor activation; auditory cortical development; postnatal development; nicotinic acetylcholine receptors; glutamate synapses; rats, 602
- nicotinic receptor antagonist; acoustic startle reflex; dopaminergic mechanism; nicotine-ethanol interaction; mice, 744
- NMDA glutaminergic systems; amygdala; piriform cortex; nicotinic effects; memory function, 3940
- occipital cortex; tobacco smoking; arterial plasma; brain areas; plasma nicotine concentrations; regional cerebral blood flow; low-nicotine cigarettes, 13395
- operant responding; visual reinforcement; rats; nicotine; self-administration, 15742
- operant responding; visual reinforcement; rats; nicotine; self-administration, 15747
- operant responding; visual reinforcement; rats; nicotine; self-administration, 9981
- oral transmucosal nicotine; flavor preference; suppression; nicotine withdrawal symptoms; smoking abstinence, 5694
- pavlovian fear conditioning; aversive conditioning; inhibitory avoidance; nicotinic cholinergic neurotransmission; muscarinic cholinergic neurotransmission, 15590
- pentylentetrazol; convulsions; cerebrovascular integrity; chronic nicotine; seizures; blood-brain barrier; nicotine pretreatment; rats, 27949
- persistent cigarette smoking; health effects; tobacco use; risk factors, 35047
- pharmacotherapy; pregnant woman; smoking cessation; reproductive toxicity; fetal development; nicotine, 35865
- primary health care; tobacco dependence; educational strategies; practice based strategies; treatment effectiveness evaluation, 29769
- psychiatric disorders; nicotine dependence; daily smoking; persistence of smoking; smoking cessation, 10697
- quality of advice; general practitioners; smoking cessation; nicotine replacement therapy, 5677
- rats; nicotine exposure; conditioned reinforcement; intranasal amphetamine, 27929
- reinforcing value; nicotine withdrawal; carbohydrate snacks; female smokers; cigarette smoking, 3299
- schizophrenia; visual tracking; smooth pursuit eye movements; nicotine administration; leading saccades; smokers; nonsmokers, 10776
- self-efficacy; smoking; major depression; nicotine dependence; drug dependence; nicotine withdrawal; smoking cessation, 31446
- serial reaction time task; attentional effects; nicotine; motivational change; food preference; amphetamine; rats, 9954
- sex differences; oral nicotine consumption; drug dosages; mice; saccharin; neurochemical effects; behavioral effects, 24820
- smokers expectancies; nicotine replacement therapy; cigarettes; nicotine gum; nicotine patch; nicotine nasal spray; treatment outcome, 32784
- smokers; drug self-administration; pure nicotine; intravenous nicotine; nicotine gum; nicotine spray, 28370
- smoking behavior; nicotine intake; gender differences; socioeconomic deprivation; smoking addiction; Scotland; self-imposed restrictions; smokers; deprived areas, 16223
- smoking cessation; tobacco control; tobacco usage; tobacco industry; healthcare industry; smoke free policies, 26724
- smoking reduction; nicotine replacement therapy; brief advice; no-treatment condition; quit attempt; reduction counseling; motivational advice; brief advice; smoking cessation; quitting smoking, 29775
- smoking; anticholinergics; schizophrenia; nicotine, 22555
- smoking; nicotine dependence; resistant smokers; smoking cessation treatments, 25891
- Society for Research on Nicotine and Tobacco; research promotion; scientific advances; knowledge dissemination, 31453
- split tobacco; chewing tobacco; nicotine absorption; nicotine exposure; cotinine; biomarkers; tobacco juice swallowing, 13396
- strain-specificity; nicotine attenuation; phencyclidine; prepulse inhibition; mice; smoking; schizophrenia, 24624
- temporal course; information processing; smoking cues; startle modulation; smokers; nicotinic dependence, 28867
- tobacco dependence measurement; negative reinforcement; social learning, 31922
- tobacco dependence; mental illness; addiction; nicotinic receptors; attention-deficit hyperactivity disorder; anxiety disorders; smokers, 31683
- tobacco dependence; nicotine; smoking, 31917
- tobacco dependence; smoking need; adolescent perspectives; addiction; language patterns, 22682
- tobacco deprivation; alcohol cue reactivity; drinking patterns; young adults; psychophysiological reactions, 31441
- tobacco interventions; Aboriginal people; smoking cessation; nicotine replacement therapy; evidence-based approach, 29793
- tobacco smoking; college students; cognitive dissonance; health-risk manipulation; nicotine addiction; intervention; quit smoking, 32802
- Tourette syndrome; head twitch response; 1-(2,5-dimethoxy-4-iodophenyl)-2-aminopropane; DOI; nicotine; donepezil; acetylcholinesterase inhibitor; mecamylamine; animal model; mice, 7195
- trait anxiety; nicotine dependence; tobacco dependence; adolescents, 31443
- transdermal nicotine; cognitive deficits; motor deficits; Parkinson's disease, 11659
- Nicotine Withdrawal—Serials**
- anxiety sensitivity; smoking-related withdrawal symptoms; motivation to quit; nicotine withdrawal; panic; smoking cessation, 35897
- contingent payment model; smoking cessation; nicotine withdrawal; monetary incentives, 5686
- depressive symptomatology; postmenopausal women; HRT; transdermal hormone replacement therapy; mood states; cigarette abstinence; nicotine withdrawal; short-term smoking abstinence; smoking cessation, 5099
- environmental risk factors; smoking cessation; genetic risk factors; nicotine withdrawal; failed cessation; male twins, 5707
- nicotine blocking agent; Accu Drop; cigarette tapering; smoking cessation; counseling; nicotine fading, 32770
- nicotine dependence; nicotine self-administration; rats; nicotine access; mecamylamine; drug withdrawal; nicotinic antagonist, 27930
- nicotine gum; cigarette craving; smoking cessation, 22675
- nicotine withdrawal; adolescent smokers; psychopathology; withdrawal symptoms; nicotine dependence, 31456
- nicotine withdrawal; animal model; hypothalamic-pituitary-adrenal axis; stress; rats; depression; precipitants; smoking cessation; HPA axis, 6814
- oral transmucosal nicotine; flavor preference; suppression; nicotine withdrawal symptoms; smoking abstinence, 5694
- reinforcing value; nicotine withdrawal; carbohydrate snacks; female smokers; cigarette smoking, 3299
- residential smoking treatment; nicotine withdrawal; smoking cessation, 14475
- smoking withdrawal; smoking cessation; withdrawal; pharmacotherapy; nicotine patch; bupropion, 2519
- tobacco use patterns; teen smokers; tobacco related attitudes; adolescent patients; health promotion; primary care; pediatric care, 16017
- Nicotinic Acid—Serials**
- pellagra encephalopathy; B-Complex vitamin treatment; niacin; hospitalization; myoclonus; alcoholic patients; multiple vitamin therapy; nicotinic acid, 35609
- Nicotinic Acid Amide [See Nicotinamide]**
- Nicotinic Receptors [See Cholinergic Receptors]**
- Nitcating Membrane—Serials**
- cholesterol; classical conditioning; rabbit; nitcating membrane; learning; memory; beta amyloid, 6983
- overexpectation; response loss; sustained stimulus compounding; rabbits; nitcating response; conditioned stimuli, 33931
- rabbit nitcating membrane response; conditioning specific reflex modification; unconditioned stimulus intensity; classical conditioning, 482
- Night Terrors [See Sleep Disorders]**
- Nightmares—Serials**
- imagery rehearsal treatment; distressing dreams; psychological distress; sleep parameters; nightmare patients, 5195
- nightmare content; dream content; media influence; television viewing; computer game playing; television; nightmares; pleasant dreams; psychological well-being; Flemish adolescents, 15351
- nightmare disorder; posttraumatic stress disorder; hypnopompic hallucinations; posttraumatic nightmares; isolated sleep paralysis; rapid eye movement; mental experiences; breathing problems, 26039
- nightmare frequency; nightmare distress; neuroticism; dreaming; stress, 10833
- nightmare frequency; state factors; trait factors; theories; stress; emotional states; sleep quality; sleep behavior; individual differences, 451
- nightmares; dreamwork; adolescent male felons; verbal interventions; positive answers; case examples; verbal interventions; dreamwork benefits, 17016
- nightmares; insomnia; sleep-disordered breathing; fire evacuees; treatment seeking; posttraumatic sleep disturbance, 25721
- nightmares; sleep; sensory organ dysfunctions; elderly; sleep disturbances, 26018
- posttraumatic stress disorder; nocturnal awakenings; nightmare sufferers; periodic leg movements; sleep pathophysiology; rapid eye movements, 4511

Volume 91 SUBJECT INDEX

Nitric Oxide—Serials

Nitric Oxide—Serials

aging role; striatal nitric oxide synthase; synthase activity; tardive dyskinesia; haloperidol; striatal oxidative stress; co-morbid factors; vacuum chewing movements; rats, 3564

antidepressant-like effect; NMDA receptors; forced swimming test; L-arginine-nitric oxide pathway; zinc chloride; mice; animal model of depression, 773

arginine-nitric oxide pathway; bipolar affective disorder; psychiatric disorders; arginase; nitric oxide; manganese; nitrite levels; pathogenesis, 19410

autism; nitric oxide; interferons; cytokines; immunology; pathophysiology, 16539

aversion; flight; glutamate receptors; anxiety; AP7; SIN-1; NBQX; nitric oxide, 13045

cortical activation; nitric oxide; central pathways; sleep wake cycle; cortex; cholinergic basal forebrain, 21735

diclofenac; indomethacin; potassium channel blockers; peripheral antinociceptive effects; nitric oxide; cyclic guanosine monophosphate; atrial natriuretic peptide; rats, 762

dinucleotide repeat polymorphism; schizophrenia; neuronal nitric oxide synthase gene; NOS1; pathophysiology; central nervous system; genotype distribution; Han Chinese patients; susceptibility, 7884

Diphenyl diselenide; rat hippocampal slices; Oxygen-glucose deprivation; nitric oxide; synthase immunoreactivity; vitro brain ischemia, 3642

dose; time; 7-nitroindazole; picrotoxin-induced convulsions; memory formation; brain nitric oxide synthase activity; nitric oxide concentration; rats, 12743

ethanol tolerance; rapid tolerance; soluble guanylyl cyclase; ICV administration; ethanol injection; IP ethanol; drug administration; nitric oxide; dose dependent pathways; ICV block; drug tolerance, 10058

flight reactions; inferior colliculus; aversive reactions; neuronal nitric oxide synthase; NMDA receptor activation; rats; periaqueductal grey, 558

ghrelin; ghrelin-induced feeding; nitric oxide; gastric peptides, 7185

L-arginine; insulin resistance; lipid; glucose; metabolism; diabetic rats; lipid tolerance; plasma triglyceride; Nitric oxide; NO; insulin secretion; hypertension; resistance, 4864

major depression; nitric oxide; plasma concentrations; endothelial cell; asymmetric dimethylarginine concentrations, 25593

major depression; plasma nitric oxide synthase activity; nitric oxide metabolites; coronary heart disease; risk factors; major depressive disorder, 31727

neurodegenerative diseases; nitric oxide synthase activity; cognitive performance; apolipoprotein E-deficient mice; nitric oxide; hippocampal; aging, 3667

neuroleptic-induced catalepsy; nitric oxide donors; gender-related differences; albino mice; NO; dopaminergic transmission; isosorbide dinitrate; linsidomine; S-nitroso-N-acetylpenicillamine, 21897

neuronal nitric oxide synthase; cyclic guanosine monophosphate; cyclic monophosphothioate; central nervous system; colonic temperature; restraint stress induced fever; rats, 3704

neuronal nitric oxide synthase; haloperidol; rats; dopamine; basal ganglia; neuroleptic drugs; tardive dyskinesia; protein expression; calmodulin system; calcium/calmodulin kinase II; neostriatum, 7221

neuronal nitric oxide synthesis; L-arginine; pharmacokinetics; amino acid; pharmacodynamics, 7197

neuropathic pain; rats; noradrenergic activity; brainstem; cerebellum; sciatic nerve; nitric oxide; MPH; norepinephrine; pain threshold; agmatine; metabolite, 15787

neuropathic pain; thermal hyperalgesia; spinal nerve transection; nitric oxide production; diamino fluorescein-FM; JTC-801; mice; nociceptin/orphanin FQ; pain transmission, 21630

nitric oxide protein kinase G pathway; estrous behavior; progesterone; ring A-reduced metabolites; sexual behavior; estrogen-primed rats; lordosis; proceptivity, 15715

nitric oxide synthase inhibitor; anxiety-linked behavior; A-nitro-L-arginine methyl ester; murine exploratory behavior models, 707

nitric oxide synthase inhibitor; lipoprivic feeding; L-NAME; food intake; feeding behavior; locomotor activity; ICR mice, 3817

nitric oxide synthase inhibitor; morphine analgesia; morphine tolerance; morphine dependence; mice; L-Canavanine; nitro-L-arginine methyl ester; L-NAME, 15788

nitric oxide synthesis; neurons; striatum; postnatal development; prenatal development, 21646

nitric oxide; antinociception; antisense oligodeoxynucleotide; mice; neuronal nitric oxide synthase enzyme; sensitivity, 30986

nitric oxide; cyclic guanosine monophosphate pathway; clonidine; adrenoceptors; antinociceptive effect; endothelial cells; analgesic effect; rat; mice, 30968

nitric oxide; cyclic guanosine monophosphate; behavioral effects; phosphodiesterase inhibitor; soluble guanylyl cyclase; light-dark exploration test; mice, 21868

nitric oxide; induced panic attacks; pulmonary & systemic nitric oxide production; exhalation; nitric oxide metabolites; respiratory rate, 1525

nitric oxide; magnocellular neurons; paraventricular nucleus; supraoptic nucleus; cyclic GMP; mice, 12890

nitric oxide; morphine self-administration; acute administration; chronic administration; rats; L-arginine; NO synthase inhibitor; L-nitro-amino-methyl-ester, 13069

nitric oxide; mouse forced swimming test; serotonin release; potassium channel modulation; channel blockers, 18666

nitric oxide; paroxetine; cardiovascular risk factors; paroxetine discontinuation; antidepressants; major depression comorbidity; side effects, 7220

nitric oxide; serotonin; aggressive behavior; serotonin receptors, 3611

nitroindazole blocks; morphine-induced hyperactivity; place conditioning; conditioned place preference; mice; locomotor activity, 21870

pentylentetrazol induced kindling; cortical nitric oxide synthase; intracellular calcium; glutamate; free radicals; mice; nifedipine; taurine; seizures, 15432

spatial memory impairments; nitric oxide synthase; cerebral ischemia; hippocampus; apoptosis; arginine; microdialysis, 13039

vasoconstriction; cocaine; sodium salicylate; nitric oxide synthase; gene expression; brain; blood vessels; chicken eggs, 27924

Nitrogen—Serials

cerebrospinal fluid; schizophrenic patients; nitric oxide; nitrite; nitrate; neurological disorders, 25667

Diphenyl diselenide; rat hippocampal slices; Oxygen-glucose deprivation; nitric oxide; synthase immunoreactivity; vitro brain ischemia, 3642

long-term effects; physiological responses; nitrous oxide gas treatment; alcohol withdrawal syndrome, 20619

long-term effects; physiological responses; nitrous oxide gas treatment; alcohol withdrawal syndrome, 32771

long-term effects; physiological responses; nitrous oxide gas treatment; alcohol withdrawal syndrome, 20637

motor activity; striatal dopamine release; inert gas narcosis; locomotor; neurological syndrome; motor hyperactivity; rats; behavioural disturbance; nitrogen; argon, 7148

neuronal nitric oxide synthesis; superior colliculus; perinatal enucleation; rats, 34010

nitric oxide; serotonin; aggressive behavior; serotonin receptors, 3611

NMDA [See N-Methyl-D-Aspartate]

Nociception [See Pain Perception]

Nociceptors—Serials

agmatine; spinal antinociception; nociceptive discharge; parafascicular neuron; yohimbine; idazoxan; rat; electrophysiological model, 15653

attenuation; reinstatement prevention; nociceptin; orphanin Fq; ethanol; self-administration; alcohol-seeking behaviour; antialcohol-prefering rats, 18721

counterirritation phenomenon; diffuse noxious inhibitory controls; nociceptive reflex; neuropathic pain; allodynia; pain modulation; electrophysiology, 22913

diclofenac; indomethacin; potassium channel blockers; peripheral antinociceptive effects; nitric oxide; cyclic guanosine monophosphate; atrial natriuretic peptide; rats, 762

DPDPE-UK14304; mu opioid receptor; mice; nociceptive behavior; synergy, 7193

endocrine function; antisense oligonucleotides; nociceptin; orphanin FQ; behavioral changes; receptor ligands; ethanol locomotor activation; anxiety, 15730

endomorphin-2; deltorphin II; formalin-induced nociception; c-Fos; pain-induced behavior; immunoreactivity; spinal cord; opioid receptor; morphine, 15532

human brain; laser-evoked potential; thermoreceptors; nociceptors; event-related potential; deviant stimuli; involuntary attention shift, 9855

immunoreactive primary sensory neurons; lumbar intervertebral disc; rats; dorsal root ganglion neurons; pain perception, 6836

mechanoreceptors; myelinated nociceptors; substantia gelatinosa; neonatal hypersensitivity; skin sensory neurons, 12900

metabotropic glutamate receptors; spinal cord; chronic constriction injury; ionotropic glutamate; nociception; cold sensitivity; hypersensitivity; dihydroxyphenylglycine; hind paw lifting; male rats, 13009

neuronal excitability; trigeminal ganglion; capsaicin; rats; IA currents, 15537

nociceptin; conditioned place preference; conditioned place aversion; animal locomotion; mice; morphine; cocaine; naloxone, 18795

nociception; blink reflex; glyceryl trinitrate infusion; healthy volunteers; headache; placebo intravenous infusion, 21864

Nonconformity (Personality)—Serials

nociception; pain; pentobarbital; thalamic reticular nucleus; thalamus; urethane; ventroposterior lateral nucleus; anesthetized rats, 15708

pain; gravity stimulation; nociceptors; rats; nociceptive threshold; nociceptive withdrawal responses; withdrawal reflexes, 15717

peripheral opioid receptors; pain reduction; human pain models; cutaneous inflammatory hyperalgesia; muscle hyperalgesia; electrical stimulation; cold effects; muscle contractions; morphine, 21911

physical stimuli; vanilloid receptors; olvanil; antagonist capsazepine; rat behaviors; physical stimuli; anxiety-like behaviors; float time; rats, 13023

spinal cannabinoid receptors; chronic constriction sciatic nerve injury; neuropathic pain behavior; rats; peripheral nerve injury; hyperalgesia; cannabinoids, 6933

taste modulation; nociception; chronic stress; repeated stress; rats, 12934

Nocturnal Behavior (Animal) [See Animal Nocturnal Behavior]

Nocturnal Teeth Grinding—Serials

bruxism; relaxation; nocturnal alarm; nocturnal teeth grinding; biofeedback; electromyographic activity, 26449

Noise (Sound) [See Auditory Stimulation]

Noise Effects—Serials

amblyopia; noise; spatial vision; neural losses; amblyopes, 23052

apoptosis suppression; cochlea; sound conditioning; noise induced hearing loss; low level non damaging sound; acoustic trauma; cytoplasm; neuroprotective gene, 8346

background noise; song-induced genic activation; bird brain; brain structures; songbirds; acoustic signals; caudomedial neostriatum; conspecific song, 30882

behavioral despair; inescapable tones; forced swim; Wistar rats; animal model; depression, 18535

behavioral effects; subchronic toluene exposure; toluene-induced ototoxicity; behavioral disturbances; neurotoxicity; subchronic noise exposure; rats; locomotion; rearing; tyrosine; tryptophan, 24785

chronic noise exposure; ambient noise levels; residential noise; rural environments; memory; attention; childhood development, 921

cortisol awakening response; subjective sleep quality; night-time noise exposure; traffic noise, 3857

environmental noises; music; affective valence; physiological responses, 30921

hearing loss; hearing protection devices; racial ethnic diversity; young adults knowledge; noise induced hearing loss; noise exposure, 29196

irrelevant sound effect; spatial location; auditory stimuli; serial memory tasks, 30578

noise effects; noise sources; sound levels; long-term recall; recognition, 10186

noise stress; personal project stress; subjective health; somatic symptoms, 27195

prosodic difference; mothers' speech; toddlers; quiet & noisy environments; infant directed speech, 4111

psychoacoustic-masking model; speech-like stimuli perception; noise environments; speech-like stimuli discrimination, 9610

psychophysics; physiology; noisy linear observers; bubbles method; signal processing system; reverse correlation, 27439

psychophysics; physiology; noisy linear observers; bubbles method; signal processing system; reverse correlation, 27442

psychophysics; physiology; noisy linear observers; bubbles method; signal processing system; reverse correlation, 27443

pupils noise; annoyance reaction; school environments; stress, 17723

recognition performance robustness; speech recognition; speech detection; speech/non-speech detection; recognition systems; noisy environments; speech enhancement; wireless network; telephone network, 10090

speech intelligibility; noise-induced hearing loss; aviators; communications systems; technology; speech clarity; aviator helmets, 33753

speech perception; older listeners; high-frequency hearing loss; noisy conditions; acoustic environments, 7475

stochastic resonance; sensory information processing; perception, 27768

stochastic resonance; spinocortical somatosensory system; noise effects; evoked field potentials; tactile stimuli; local skin displacements; hindpaw; electrical processes; information capacity; Cats, 15660

Noise Levels (Work Areas)—Serials

chronic noise exposure; ambient noise levels; residential noise; rural environments; memory; attention; childhood development, 921

Nomenclature (Psychological) [See Psychological Terminology]

Nonconformity (Personality)—Serials

trait rebelliousness; selective exposure; adolescent rebelliousness; music genre; defiant music; traits, 804

Volume 91 SUBJECT INDEX

Noncontingent Reinforcement—Serials

Noncontingent Reinforcement—Serials

autism; automatic reinforcement; inappropriate vocalizations; noncontingent reinforcement; response cost, 18860

differential negative reinforcement; noncontingent escape; compliance; problem behavior; autism, 2050

escape extinction; food refusal; negative reinforcement; noncontingent reinforcement; pediatric feeding disorders; positive reinforcement, 19819

nicotine; discriminative stimulus effects; extinction; spontaneous recovery; response reinstatement; noncontingent reinforcement; discriminative control, 3492

noncontingent reinforcement; differential reinforcement; multiply controlled problem behavior, 8442

noncontingent shock; behavioral deficits; flexion duration; instrumental learning; spinalized rats; intraspatial modification; de novo protein synthesis; cycloheximide; protein synthesis inhibitor, 21892

Nondirective Therapy [See Client Centered Therapy]

Nonlinear Regression—Serials

dimensional complexity; human sleep EEG; spectral power; linear measures; self-similarity exponent; theta band; alpha band; sigma band; sleep stages, 21742

Nonmetallic Elements [See Chemical Elements]

Nonparametric Statistical Tests [See Also Chi Square Test]—Serials

item analysis; multiple choice test; option characteristic functions; nonparametric approaches, 30533

nonparametric item response theory; order-restricted inference; inequality constraints; Bayesian inference, 18065

nonparametric models; item response theory; dimensionality assessment, 9519

race model; nonparametric approach; null hypothesis testing; redundant signals effect, 6411

statistical testing; null distributions; inference; models; statistical analysis; parametric procedures; nonparametric procedures, 249

Nonprescription Drugs—Serials

side effects; over the counter medicine; European Commission recommendations; communicating risk; information leaflet; verbal risk descriptors; satisfaction judgments; interpretation; intention, 32533

Nonprofit Organizations—Serials

collaborations; institutional marketing; market development; internal organizational marketing; corporate alliances; nonprofit organizations; cause-related marketing; CRM, 14845

collaborative relationships; joint venture; corporate philanthropy; cross-sector alliances; nonprofit organizations; social alliances; related marketing, 14796

community leader perceptions; civic engagement; collective organizations; university interaction; leadership position; student assistance; experiential higher educational programs, 2687

community mobilization; credit; local nonprofits; social capital; community reinvestment act lending; urban development; collective action, 28196

corporate alliances; partner characteristics; corporate partners; alliance theory; marketing; partnership, 14785

government funding; nonprofit organization; political activity; state autonomy, 34413

hospice; health policy; end-of-life care; organizational restructuring; nonprofit hospices; demographic characteristics, 32722

marketing campaign; corporate sponsor; customer traits; cause-related marketing; nonprofit organization; strategic alliance; relationship management; sponsor product quality; customer, 14853

nonprofit organizations; nonprofit competition; charitable programs; fee-based; American Red Cross; competitive strategies, 20944

public relation; nongovernmental organization; public opinion; organizational performance; professional standard; professional ethics, 33216

substance use; civil society organizations; nongovernmental organizations; drug demand reduction, 35883

volunteer activity; lifestyle changes; social networks; volunteerism; volunteers; nongovernmental organizations; efficacy, 9223

Nonprojective Personality Measures [See Also Bannister Repertory Grid, Beck Depression Inventory, Bem Sex Role Inventory, Child Behavior Checklist, Children Manifest Anxiety Scale, Embedded Figures Testing, Eysenck Personality Inventory, Millon Clinical Multiaxial Inventory, Minnesota Multiphasic Personality Inventory, Myers Briggs Type Indicator, Psychological Screening Inventory, Rod and Frame Test, Sixteen Personality Factors Questionnaire, State Trait Anxiety Inventory, Zung Self Rating Depression Scale]—Serials

anxiety; State Anxiety Scale; primary school children; psychometric evaluation; test validity; test reliability, 30452

depression; Indian male adolescents; self-report instruments, 3183

typus melancholicus; endogenous depression; personality dimensions; nonendogenous depressive patients; Kasahara's Inventory for the Melancholic Type Personality, 27327

Nonrapid Eye Movement Sleep [See NREM Sleep]

NonREM Sleep [See NREM Sleep]

Nonsense Syllable Learning—Serials
basal ganglia; language generation; nonsense syllable; semantic category; frontal activity; word generation; phonological information; thalamic structures; anterior thalamic; generation tasks, 3615

Nonstandard English—Serials

dialects; syntax; sentence comprehension; generalization; interference; learning; construction novelty, 30673

Nontraditional Careers—Serials

masculinities; career choice; male nurses; non-traditional occupations; gender norms, 17838

Nontraditional Education [See Also Home Schooling]—Serials

adult school return; family; work life; weekend college; adult students; social life, 23814

career counseling; multicultural students; nontraditional college students; narrative approach; postmodernism; group counseling, 23944

charter schools; special needs; special education; disabled students; Individuals with Disabilities Education Act, 14688

college education; nontraditional college students; student perspectives; career goals, 23906

counseling; campus support services; adult learners; African American; Latino; individual and group counseling; program evaluation; peer support, 23945

introduction to special section; nontraditional students; counseling services, 23938

late studentship; academic aspiration; personal growth; higher education; sense of self; interpersonal relationships, 20791

social support resources; seeking counseling services; non-traditional students; reasons for reentering college, 23920

state funding; local educational opportunities; high school credentials; EQS Structural Equation Modeling, 32995

transenders; female; transgender students; blacks; race; sexuality; alternative school; identity, 28336

wellness; lifestyle; college students; traditional age; nontraditional-age students, 23909

wellness; undergraduate college students; demographic variables; traditional and nontraditional students, 23914

Nontraditional Education [See Also Home Schooling]—Chapters

Educational consequences of alternative school placements, 23081

Rendering students visible: Creative writing in an alternative school, 23848

Nonverbal Ability [See Also Artistic Ability, Mathematical Ability, Motor Skills, Spatial Ability]—Serials

ADHD; attention-deficit hyperactivity disorder; Universal Nonverbal Intelligence Test; memory; reasoning; successive processing tasks; planning tasks, 30388

culture; education; non-verbal neuropsychological measurements; clinical neuropsychology; visuospatial tests; cross-cultural differences; visuo-perceptual & visuo-constructural ability tests, 194

Naglieri Nonverbal Ability Test; Hispanic children; limited English proficiency; socioeconomic status; geographic region; standard scores, 12450

nonverbal ability; language impairment; genetic mediation; environmental mediation; comorbidity; twins; co-twin, 11129

verbal fluency; nonverbal fluency; Spanish-speaking children; executive functions; nonverbal fluency; verbal fluency; clinical developmental neuropsychology; age effects, 34285

Nonverbal Communication [See Also Body Language, Eye Contact, Facial Expressions, Gestures, Manual Communication]—Serials

appearing truthful; deception; interrogation; nonverbal communication; facial expression, 13448

deception; privacy; lying; secrecy; verbal dynamics; non-verbal dynamics, 16239

direct discussion; interpersonal warmth; nonverbal expression; integrative decision making; China, 10508

dissociative experiences; verbal disclosure; childhood sexual abuse; repressive coping; nonverbal communication, 1562

genetics; linguistics; human ancestors; language; clicking noises; modern humans; clicks; conversation; click language; click speakers; nonverbal utterances; click sounds; words, 18871

interpersonal sensitivity; nonverbal behavior; people's abilities; nonverbal cues; judgment accuracy; social communication; social relationships, 34608

interviewing skills; nonverbal interview behavior; verbal skills; verbal influence; job applicants; recruiter assessments; applicant gender, 27042

laughing audition; crying audition; amygdala insula; auditory cortex; non-verbal vocalizations; amygdala activation; behavioral responses; facial expressions; vocal expression; sound delivery, 15570

natural imitation; joint attention; social perception; nonverbal communication; eye fixation; pointing; cognitive processes; interspecies interaction; humans; monkeys, 508

near death experience; nonverbal adolescent; brain trauma; quadriplegia, 35278

nonverbal behavior; cleft lip; cleft palate; CLP; interpersonal communication; woman; patients, 16583

patient satisfaction; physician characteristics; standardized patients; physician nonverbal communication skills; house staff, 17540

pragmatics; P-tree structures; pragmatic cohesion; discourse analysis; spontaneous discourse; verbal communication; non-verbal communication; coherence; intentionality; cognitive content, 21971

referential communication; nonverbal reference; gestures; visual orienting; food; chimpanzees; observer; animal social behavior, 12750

relational meanings; nonverbal behavior; nonverbal matching; matching behavior; social meaning; messages, 4397

smiling; spontaneous facial expressions; facial configuration; movement patterns; facial movements; nonverbal communication; emotion expression; automatism; social environments, 9934

social interaction; memory effects; protagonists statements; nonverbal behaviors; communication; mental representations; behavior recognition, 27488

unconscious communication; psychoanalytic theories; transference; countertransference; coconstructed unconscious dialogue, 34743

unconscious communication; psychoanalytic theories; transference; countertransference; coconstructed unconscious dialogue, 34739

unconscious communication; psychoanalytic theories; transference; countertransference; coconstructed unconscious dialogue, 34747

unconscious communication; psychoanalytic theories; transference; countertransference; coconstructed unconscious dialogue, 34744

unconscious expressive cues; contextual meaning; brow tension; head shaking; subliminal smile, 10554

verbal communication; communication differences; non-verbal communication; college students, 22291

verbal cues; nonverbal cues; deceit; deception; lie detection; behavioral cues; reliable judgements; valid judgements; liars; truth tellers, 21351

Nonverbal Communication [See Also Body Language, Eye Contact, Facial Expressions, Gestures, Manual Communication]—Chapters

Functional behavior assessment of nonverbal behavior, 1746

Interaction manifestations in multi-player games, 3064

Nonverbal Learning—Serials
Aspergers syndrome; attention-deficit hyperactivity disorder; differential diagnosis; nonverbal learning disability, 28572

Neurofibromatosis Type 1; nonverbal learning disabilities; genetic characteristics; physical characteristics; diagnosis; cognitive profile; educational intervention, 28546

neurological soft signs; nonverbal memory performance; obsessive-compulsive disorder, 4663

student motivation; teacher nonverbal immediacy; cognitive learning; student attitudes; teacher behavior, 26935

Nonviolence—Serials

collective violence; nonviolent alternatives; nonviolent action; behavioral dynamics, 13280

peace education; peace educators; nonviolent culture; ethnic cleansing; peace-building strategies; schools, 8999

social psychology; People Power II; nonviolent protesting; Philippines, 10307

Nonviolence—Books

The psychology of peace: An introduction, 1053

Nootropic Drugs—Serials

T-588; tacrine; extracellular signal-regulated kinase; cognitive enhancer; in vivo phosphorylation; hippocampus; rats; memory, 3999

Noradrenaline [See Norepinephrine]

Norepinephrine—Serials

(+)-fenfluramine; (+)-norfenfluramine stereoisomers; serotonin transporters; norepinephrine; dopamine; rats; caudate preparations; nisoxetine, 3966

amitriptyline; dual action mechanisms; serotonin effects; serotonin toxicity; clomipramine; efficacy; norepinephrine reuptake; antidepressant action, 11490

amitriptyline; dual action mechanisms; serotonin effects; serotonin toxicity; clomipramine; efficacy; norepinephrine reuptake; antidepressant action, 11563

amygdaloid norepinephrine; NE secretion; NE; rats; chronic nicotine self-administration; nicotine learning; amygdala, 6893

Volume 91 SUBJECT INDEX

Norepinephrine—Serials

antidepressant treatment; 3-methoxy-4-hydroxyphenylglycol; plasma level; noradrenergic neurons; central noradrenergic activity; depression; psychomotor retardation, 35582

antidepressants; neurotransmitter transporters; neurotransmitter receptors; norepinephrine; serotonin; dopamine, 5332

antidepressants; pharmacologic mechanisms; side effects; serotonin; norepinephrine; dopamine neurotransmission, 5348

atomoxetine; attention deficit/hyperactivity disorder; presynaptic norepinephrine transporter; discontinuation; symptoms; adverse events, 11574

basal norepinephrine; depersonalization disorder; noradrenergic function, 1502

behavioral effects; selective serotonin reuptake inhibitors; norepinephrine reuptake inhibitors; neurotransmitter mechanisms; selective antidepressants; drug therapy, 20354

central amygdala; galanin; lateral bed nucleus; norepinephrine; stress, 15784

central monoamines; serotonin; noradrenaline; major depression; inhibitory receptors; antidepressant drugs, 20321

cortical noradrenergic neurotransmission; neophobia; impaired spatial memory; aged rats; memory tasks, 27721

depression; somatic symptoms; treatment; serotonergic neurotransmitter system; noradrenergic neurotransmitter system; serotonin; norepinephrine, 5277

discriminative stimulus properties; antidepressant agents; drug discrimination techniques; rats; selective serotonin reuptake inhibitor; citalopram; reboxetine; noradrenaline reuptake inhibitor, 712

dopamine transporter; norepinephrine; bupropion SR; depression; smoking cessation; positron emission tomography, 741

drinking; median preoptic nucleus; noradrenaline; hypovolemia; water intake; body fluids; rats, 3683

drug administration; monoamine levels; dihydroxyphenylacetic acid; dopaminergic receptors; ethanol treatment; male wistar rat; norepinephrine; dopamine; serotonin, 13091

extraneuronal monoamine transporter; normetanephrine; norepinephrine reuptake inhibitor antidepressant, 26427

gamma-hydroxybutyrate treatment; narcolepsy; locus coeruleus norepinephrine neurons; rats; spontaneous firing, 21744

human neuroblastoma SH-SY5Y cells; magnetic stimulation; noradrenaline; tyrosine hydroxylase; rTMS; antidepressant; cerebral cortex, 3972

imidazole receptor; adrenoceptor; hypothalamic-pituitary-adrenal axis; neuroendocrine response; stress, 21832

imidazole receptors; norepinephrine; rostral ventrolateral medulla; hypertension; hypertension; clonidine; rilmenidine; rats; ethanol, 10019

intraperitoneal administration; IP; blood concentration; behavioral effects; drinking behavior; feeding schedule; rats; epinephrine; norepinephrine; food e^{-} -induced oscillator; liver; catecholamines, 21877

L-DOPA; D-amphetamine; noradrenergic depletions; 6-hydroxydopamine; N-(2-chloroethyl)-N-ethyl-2-bromobenzyldiamine; rats; Parkinson's disease; animal model, 31010

lithium carbonate; noradrenergic responses; norepinephrine; idazoxan; alpha adrenoceptor antagonist; manic depressive illness; sympathetic responses, 18781

locomotion; vertebrate nervous system development; swimming; aquatic animals; neuron activity; noradrenaline; tadpoles, 15546

major depression; remission; selective serotonin reuptake inhibitors; noradrenergic antidepressant; antidepressant mechanisms, 23272

milnacipran; human monoamine uptake; transporter binding affinity; norepinephrine-serotonin reuptake inhibitors; dopamine transporters, 14193

milnacipran; pharmacology; norepinephrine reuptake inhibitor; serotonin reuptake inhibitor; antidepressants, 20380

mitogen-activated protein kinase; neurotrophic factor; antidepressant treatment; intracellular signaling; noradrenergic receptors; tyrosine kinase; epidermal growth factor, 3721

nanomolar affinity; cell lines; radioligand binding studies; serotonin receptors; novel antidepressant lipoperidone; dopamine; noradrenaline; agonist activity; antagonist activity; monoamine receptor, 734

neuropathic pain; rats; noradrenergic activity; brainstem; cerebellum; sciatic nerve; nitric oxide; MPH; norepinephrine; pain threshold; agmatine; metabolite, 15787

neurotransmitters; wake-sleep stages; central neurocircuitry functioning; noradrenaline; adrenaline; dopamine; platelet serotonin; plasma serotonin; plasma tryptophan, 24757

noradrenergic action; prefrontal cortex; memory consolidation; beta receptors; prefrontal region; prefrontal cortex; noradrenaline; long-term memory consolidation, 33942

noradrenergic drugs; levodopa-induced dyskinesia; Parkinson's disease; neurotransmitters; dyskinesia treatment; drug therapy, 11634

noradrenergic function; cognitive ability; schizophrenia; adrenergic receptors; guanfacine; norepinephrine reuptake inhibitors; atomoxetine; cognitive enhancers, 34867

noradrenergic pathways; Fos protein; spinal cord; neurotoxic destruction; cannabinoid antinociception; tonic nociception; pain behavior; catecholamine neurotoxin; spinal norepinephrine, 12839

noradrenergic system; alpha-2 adrenergic receptor; deficient mice; fear memory; sensitivity; genetic depletion, 3623

norepinephrine transporter gene; gene polymorphism; major depression, 25592

norepinephrine transporter; antidepressants; selective serotonin reuptake inhibitors; norepinephrine reuptake inhibitors; rats; desipramine; paroxetine; nisoxetine binding, 12974

norepinephrine turnover; white adipose tissue; brown adipose tissue; partial lipectomy; body fat; sympathetic nervous system; lipolysis; thermogenesis; Siberian hamsters, 24748

norepinephrine; peripheral vagal nerve stimulation; central nervous system; amygdala; cognitive processing; neural activity; limbic brain structures; memory; brain stimulation; rats, 12840

norepinephrine; serotonin reuptake inhibition; depression treatment; combined treatment; treatment efficacy; fluoxetine; desipramine, 14168

peripheral nerve; neuritis; hyperalgesia; norepinephrine; NE; rats; hind paw; immunoreactivity; intradermal injection; adrenergic sensitivity; cytokine tumor necrosis factor, 15726

reboxetine; norepinephrine selective reuptake pump inhibitor; antidepressant drugs; drug marketing; pharmacology; drug safety; clinical use; adverse effects, 14177

stress; noradrenergic modulation of GABAergic transmission; basolateral amygdala; norepinephrine; adrenoceptor antagonists; rats, 9959

sucrose sham feeding; accumbens norepinephrine; nucleus accumbens; sucrose ingestion; feeding behavior; dopamine; male rats, 30979

venlafaxine XR; norepinephrine reuptake inhibitor; premenstrual dysphoric disorder; chronic pelvic pain; physical symptoms; analgesic effects, 32546

ventrolateral preoptic nucleus neurons; rats; gamma aminobutyric acid; GABAergic transmission; noradrenaline; presynaptic modulation; mechanically dissociated neurons, 15543

Normal Distribution—Serials

Bayes estimators; Bayes risk; empirical Bayes estimators; longitudinal designs; mean squared error; multilevel analysis; ordinary least squares estimators; robustness; random coefficients, 236

Bayesian learning; missing data; independent component analysis; independent sources; gaussians, 9527

paired comparison data; parameter estimates; multivariate normal distribution; statistical software; Thurstonian paired comparison models; Monte Carlo Expectation-Maximization algorithms, 12542

sampling distribution; discrimination; false alarm rate; confidence levels, 30535

Normalization (Test) [See Test Standardization]

Norms (Social) [See Social Norms]

Norms (Statistical) [See Statistical Norms]

Norms (Test) [See Test Norms]

Nortriptyline—Serials

antidepressant medication; adverse drug reactions; poor metabolizers; antidepressant side effects; fluoxetine; nortriptyline; CYP2D6 genotype; major depression; antidepressants, 14182

lithium augmentation; nortriptyline; treatment resistant depression; prospective open trial, 20292

lithium augmentation; nortriptyline; treatment resistant depression; prospective open trial, 20369

major depression; thyroid hormones; fluoxetine; nortriptyline; treatment response, 14142

panic disorder; serotonin reuptake inhibitors; tricyclic antidepressants; heart rate variability; chaos; largest Lyapunov exponent; cardiovascular effects; paroxetine; nortriptyline, 8561

psychiatric comorbidity; predictor; nortriptyline; treatment-resistant major depressive disorder, 11540

respiratory panic disorder subtype; nortriptyline, 2198

Nose—Serials

allergic rhinitis; budesonide aqueous nasal spray; fluticasone propionate nasal spray; sensory attributes; patient preferences; starting dose, 8641

nose ringing; pigs; pasture damage; rooting behavior; animal welfare, 9780

Nouns—Serials

sex-related effects; forced unilateral nostril breathing; autonomic nervous system, 34102

Nouns—Serials

animacy information; syntax; language development; word meaning; syntactic cues, 22031

cerebral information transfer; word processing; short-time phases; cortex sites; transient neural networks; abstract processing; concrete noun processing, 3708

cerebral regions; verbs; nouns, 9807

children; first words; bilingual environments; English; Mandarin Chinese; verb production; noun production, 15965

collocations; advanced learners of English; German speaking students; verb noun collocations, 4053

conceptual distinction; count nouns; mass nouns; aggregates, 28007

dual coding theory of imagery; relational-distinctiveness processing theory; concrete & abstract words; free recall; cued recall; sentence frames; cues; adults, 433

event related potentials; grammar; semantics; online semantic & grammatical gender categorization; noun pairs; release vs hold, 7080

gender agreement; number agreement; grammar; Spanish language; nouns; first language speakers; adjectives, 21977

gender congruency effect; picture word interference; gender marked free-standing & bound morphemes; distraction; noun gender; naming; Croatian, 361

hemisphere differences; moderately imageable words; high image nouns; low image nouns; right visual field; left hemisphere, 6915

indefinite expressions; indefinite nouns; semantic domain; Japanese language, 13123

inferior prefrontal cortex; native French speakers; verbal working memory; semantic analysis; French nouns; event related potentials; physiological correlates, 3718

mass nouns; count nouns; grammatical distinction; language convention; cognitive individuation hypothesis; competing linguistic functions, 3380

mental lexicon; morphology; grammar; nouns, 27976

mental representation; verb-noun compounds; Italian; aphasia; neuropsychological methods; visual confrontation naming task, 29154

morphological family frequency; M350 inhibition; magnetoencephalographic response time; lexical processing; lexical frequency; facilitory effect; root-affix competition; family size; neural correlates, 15670

morphophonological factors; construction of subject-verb agreement; grammatical information; German noun phrases; Dutch noun phrases; ambiguity, 18863

naming; nouns; verbs; noun verb dissociation; grammatical deficits; language production, 20009

neural networks; synthetic brain imaging; verbs; nouns; linguistic abilities; language, 21555

neural processing; nouns; verbs; inflectional morphology; brain damage; neural substrates; language system; evoked potentials, 12926

noun phrase type; sentence complexity; self-paced reading; relative clauses; semantic characteristics, 24877

noun-noun compounds; relational priming; repetition priming; lexical decision; words, 27991

parsing; event related potentials; Spanish; sentence processing; ambiguous relative clauses; attachment resolution; noun phrases, 24659

perceptual complexity; object familiarity; form class cues; children interpretation; novel adjectives; count nouns, 24975

pleasant words; unpleasant words; free recall; healthy male volunteers; prefrontal dopaminergic mechanism; cortisol; recency; positivity bias; verbal memory, 10050

producing and understanding noun-noun compounds; language; Constraint theory; conceptual combination; word familiarity, 36505

productive vocabulary; noun learning; language development; noun acquisition; children, 31148

semantic context; memory; verbs; nouns, 33806

semantic gender assignment rules; German; nouns; vocabulary; language, 28017

semantic memory consolidation; word categories; medial temporal lobe brain activation; nouns; age differences; knowledge categories; elderly; senior citizens; young adults, 3787

semantic refractory access disorder; semantic organization; proper nouns; person names; brand names; conceptual knowledge, 19965

semantic relatedness; event-related potentials; semantic priming; noun processing; verb processing; word recognition; naming, 3785

shallow semantic processing; text processing; skilled readers; less skilled readers; noun phrases; mental representation, 24496

speech production; semantic form representations; planning scope; noun phrase production; short-term memory; memory deficits, 19979

Volume 91 SUBJECT INDEX

Nouns—Serials

verb noun acquisition; aphasia; naming; word classes; language differences; grammar; parts of speech, 13229
verb; noun; Italian; lexical processing; aphasia; words, 20024
written production; proper nouns; dates; aphasia; oral production; comprehension impairment, 26167
Novel Stimuli [See Stimulus Novelty]
Novelty Seeking [See Sensation Seeking]
Novocaine [See Procaine]
NREM Sleep—Serials
dimensional complexity; human sleep EEG; spectral power; linear measures; self-similarity exponent; theta band; alpha band; sigma band; sleep stages, 21742
EEG power spectra; sleep onset REM periods; sleep onset non rapid eye movement periods; NREM; dream appearance processes, 21745
EEG; thalamo-cortical sensory processing; sleeping human; slow wave sleep; brain reactivity; sensory stimuli; somatosensory evoked potentials, 15662
hexarelin; slow-wave sleep; cortisol; prolactin; leptin; tumor necrosis factor; ghrelin growth hormone; hormone stimulation, 27883
interleukin-6; rat sleep; cytokines tumor necrosis factor; TNF; interleukin-1; IL; antibodies; non-rapid eye movements sleep; sleep regulation; sleep modulation; neuroimmune, 3912
NREM delta power production; linear changes; exponential changes; daytime naps; baseline sleep; young adults; elderly; homeostasis; neuronal systems, 3770
sleep architecture; degree of handedness; college women; home sleep monitor, 21767
sleep architecture; slow wave activity; sleep spindles; sleep disordered breathing; sleep fragmentation; esophageal pressure monitoring; respiratory events; EEG, 16622
sleep patterns; female mice; different inbred strains; estrous cycle; body temperature; locomotion, 3452
sleep regulation; orexin; side effects; sleep disturbance; REM sleep; nonREM sleep; sleep quality; EEG sigma power, 10066
NREM Sleep—Chapters
Dreaming and NREM sleep are controlled by different brain mechanisms, 18632
A review of mentation in REM and NREM sleep: "Covert" REM sleep as a possible reconciliation of two opposing models, 18431
Nuclear Family—Serials
multigenerational transmission; nuclear family processes; Bowen theory; symptom development patterns, 28244
Nuclear Technology—Serials
control room; nuclear power plants; information processing behavior; safety; reliability; operator's performance; ecological interface; organizational structure; communication; human systems design, 6137
high-level nuclear waste; siting controversy decisions; siting decision making; policies, 36487
repression-sensitization; sensitizers; repressors; nuclear hazard; nuclear power plant; nuclear energy, 33380
Nuclear Technology—Chapters
Psychological effects of contamination: Radioactivity, industrial toxins, and bioterrorism, 1748
Responses of individuals and groups to consequences of technological disasters and radiation exposure, 1749
Nuclear War—Serials
psychosocial aspects; nuclear attacks; victim experiences; long-term effects; physical aspects; life experiences, 22162
psychosocial aspects; nuclear attacks; victims experiences; long-term effects; physical aspects; life experiences, 22147
Nucleic Acids [See Also Adenosine, Deoxyribonucleic Acid, Nucleotides, Ribonucleic Acid]—Serials
rat blood-brain barrier; forebrain astrocytes; microvascular endothelial cell; nucleoside efflux; adenosine permeation; metabolic inosine; vitro cell culture, 6962
Nucleotides [See Also Cyclic Adenosine Monophosphate]—Serials
antidepressant effects; nicotinamide adenine dinucleotide; precursor nicotinamide; forced swim test; antidepressants; desipramine; fluoxetine; Wistar rats; beneficial effects, 13065
corticotropin releasing hormone binding protein gene; major depression, 7818
schizophrenia; homegene Engrailed 2; genetic factors; cerebellum; dopaminergic neurons; CA repeat polymorphism; bi-nucleotide repeat polymorphism; brain patterning, 25633
schizophrenia; nucleotide polymorphisms, 19053
T102C single nucleotide polymorphism; 5HT2a receptor gene; schizophrenia; chromosome 13; whole-genome linkage scans; markers, 19416
Nucleus Accumbens—Serials
accumbens dopamine; food-seeking behavior; work output; rats; fixed-ratio reinforcement; effort, 30981

adenoreceptors; behavioral activation; medial preoptic area; motivational systems; nucleus accumbens; motor cortex; mouse brain, 30877
amphetamine induced dopamine release; morphine pretreatment; conditioned place preference; nucleus accumbens core; Wistar rats; long-term opiate effects; chronic infusion, 13011
amphetamine-induced locomotion; basolateral amygdala; nucleus accumbens; amphetamine; rats, 13098
amphetamine; conditioned place preference; learning; locomotion; nucleus accumbens; NPC 15437; protein kinase; place conditioning; reward, 9950
basolateral amygdala; nucleus accumbens; dopamine; stress response; medial prefrontal cortex, 21910
basolateral amygdala; ventral subiculum; dendritic spines; hippocampus; pyramidal cells; synaptic input; rats, 6890
beta-endorphin; nucleus accumbens; rats; alcohol; catecholamines; dopamine metabolites; norepinephrine; alcohol dosages; 3,4-dihydroxyphenylacetic acid; homovanillic acid, 10021
Brain lesions; medial prefrontal cortex; nucleus accumbens core; inhibitory control; rats; reaction times, 6797
brain-derived neurotrophic factor; appetitive behavior; ventral tegmental; nucleus accumbens; depression; rats, 3625
chronic injection treatments; interferon alpha; locomotor activity; latent inhibition; dopamine system; taste aversion; rats, 551
cocaine; basal dopamine uptake; nucleus accumbens; dopamine transporter expression; responsiveness; DAT protein expression; rats, 21819
cocaine; behavioral sensitization; drug self-administration; locomotor activity; dopamine; nucleus accumbens; mice, 12903
cocaine; rats; ketanserin; serotonin; serotonin antagonist; accumbens monoamines; locomotor behavior; dopamine; receptors, 18714
cocaine; self-administration; nucleus accumbens; 6-hydroxydopamine; brain lesions; dopamine, 15810
core regions; shell regions; nucleus accumbens; free-choice novelty; rats; appetitive behavior, 24718
D-amphetamine; medial prefrontal cortex; mesoaccumbens; dopamine; genotype-dependent sensitivity; locomotion; mice, 10054
dopamine efflux; nucleus accumbens; successive negative contrast; licking; sucrose consumption; rats, 30849
dopamine neurotransmission; behavioral sensitization; nucleus accumbens; cck antagonists; psychostimulant sensitization; prefrontal cortex, 15727
dopamine release; nucleus accumbens; cocaine-induced psychosis; serotonin; risperidone; open field behavior; rats; animal model, 700
dopamine transmission; microdialysis; motivation; nucleus accumbens shell; reward; ethanol, 21540
dopaminergic neurotransmission; opiates; somatic withdrawal symptoms; motivational withdrawal symptoms; rats; dopamine; nucleus accumbens; apomorphine; droperidol; flupentixol; naloxone; syndromes, 701
extracellular glutamate; cued food delivery; food consumption; dopamine; nucleus accumbens; food deprived rats; tone food pairing; predictive environmental cues, 6856
gene expression; cocaine treatment; reward pathways; cocaine addiction; drug abuse; mice; protein; nucleus accumbens, 6828
hippocampal-accumbens system; goal-oriented displacement behaviors; neuronal activity; rat learning; liquid reward; water-restricted rats, 9921
human striatum; nucleus accumbens; aromatic L-amino acid decarboxylase; D-neurons; L-dopa; neuropsychiatric functions; pharmacotherapy; dopamine; noradrenaline, 18751
immunoreactivity; nucleus accumbens shell; cocaine sensitization; rats; serotonin; dopamine, 18790
instrumental responses; reward magnitude; lidocaine inactivation; instrumental behavior; transient inactivation; rat nucleus accumbens; reaction time, 18741
intrapituitary administration; subcutaneous administration; dose-dependent increase; rat nucleus accumbens; haloperidol; striatum; accumbens, 21884
morphine; opioid receptors; dendrites; nucleus accumbens neurons; opiate drugs; receptor trafficking; methadone, 21590
morphological substrate; information processing; organizational characteristics; afferent projections; dogs; brain; caudate nucleus; nucleus accumbens; putamen, 27736
nefazodone; desipramine; antidepressants; animal model; depression; dopamine; serotonin; nucleus accumbens; Flinders Sensitive Line; rats; fast onset of action, 9982
nucleus accumbens neurons; ventral tegmental area activation; neonatal hippocampal lesion; adult prefrontal cortical lesions; postpubertal abnormal behavior; rats; model of schizophrenia, 9836
nucleus accumbens shell; maternal motivation; rats; maternal performance; maternal behavior; nucleus accumbens core; lesions; pup retrieval, 3668

Null Hypothesis Testing—Serials

nucleus accumbens; acoustic startle reflex; prepulse inhibition; entorhinal cortex lesions; dopaminergic transmission; rats, 34028
nucleus accumbens; dopamine D2 receptors; inflammatory pain; antinociception; pharmacological agonism; mesolimbic stimulation; feedback inhibition; quinpirole; sedation; motor coordination; rats, 13088
nucleus accumbens; ethanol; dopamine; alcohol-preferring alko alcohol rats; alcohol-avoiding alko non-alcohol rats; mesolimbic dopaminergic neurons; ventral tegmentum area, 21916
nucleus accumbens; lateral hypothalamic area; sexual behavior; rats; lesions; copulation; noncontact erection; female preference, 33984
nucleus accumbens; locomotor activity; conditioned place preference; dopamine receptor blockers; mesolimbic dopamine modulation; CART peptides; psychostimulants; cocaine, 15759
nucleus accumbens; muscarinic receptor; nicotinic acetylcholine receptor; rats; lever press learning; scopalamine; mecamylamine; appetitive learning; locomotor activity; motivation for food; sucrose, 30774
nucleus accumbens; opioid peptides; forebrain; reward related behavior; appetite; food intake; rats; high fat diet; brain network, 21512
nucleus accumbens; rats; lateral hypothalamus self-stimulus; brain stimulation; endorphin; brain reward processes, 15826
nucleus accumbens; tolerant rats; naive rats; chronic morphine administration; stimulus induced antinociception; antinociceptive effects; antagonist naltrindole; receptor antagonist; opioid withdrawal, 13075
place preference; nucleus accumbens; amphetamine; extracellular signal-regulated kinase antagonists; mitogen-activated protein kinases; conditioned place preference; rats, 30978
protein kinase C; nucleus accumbens; motor & spatial learning; long term memory; spatial memory, 18703
striatal cholinergic interneurons; nucleus accumbens; dorsal striatum; dopaminergic mesolimbic; neurological disorders; dopamine D2 receptors; dopamine localization, 3594
sucrose sham feeding; accumbens norepinephrine; nucleus accumbens; sucrose ingestion; feeding behavior; dopamine; male rats, 30979
thought disorder; nucleus accumbens; childhood schizophrenia, 19422
ventromedial prefrontal cortex; emotional information; cognitive information; cognitive-affective integration; nucleus accumbens; hippocampus; amygdala; neurocomputational model; decision making, 9896
Nucleus Basalis Magnocellularis—Serials
basal forebrain neurons; behavioral responses; cognitive processes; neuronal responses; task performance; reinforcement; rewards; learned significance; monkeys, 18625
nucleus basalis magnocellularis; avoidance retention; intracranial electrical stimulation; active avoidance learning; parafascicular nucleus; memory; rats, 646
nucleus basalis magnocellularis; behavioural impairment; lesions; allocentric navigation; pretraining; nonspatial experience; spatial learning; water maze task; rats; hippocampal scopalamine, 9868
p-chloroamphetamine; serotonin; memory enhancement; physostigmine; rats; NMDA-induced unilateral lesions; nucleus basalis; choline acetyltransferase, 13072
receptive field plasticity; auditory cortex; conditioning; memory; stimulus-stimulus learning; stimulus generalization; acetylcholine; auditory stimulation; tone; nucleus basalis, 634
Nudity—Serials
gender identity; protagonist; medieval literature; Parzival; clothing; masculinity; nudity, 21932
Null Hypothesis Testing—Serials
academic performance reward & recognition; faculty perception; incentive level; clinical practice volume; academic productivity; rank; administrative responsibility; department mission & activities, 23734
aggregation maps; social choice; topological properties; null preference, 6406
alcohol intoxication; heart rate response; reward-seeking behavior; personality profile; hopelessness; introversion; sensation seeking; impulsivity; anxiety sensitivity, 34121
alcohol myopia; cognitive impulsivity; alcohol intoxication; cues; decision making; rewards; delay discounting task; sobriety, 3954
analysis of variance; null hypothesis; t test; z test; statistical significance, 12526
brain reward; intracranial self-stimulation; repeated administration; cocaine; rats; thresholds; cocaine-predictive conditioned stimuli; conditioned facilitation, 737
brain stimulation; rewards; duration; stimulation strength; reward intensity; stimulation frequency; performance; rats, 625

cAMP-dependent protein kinase; cyclic adenosine monophosphate; conditioned place preference; conditioning; Wistar rats; reward related learning, 3872

combat veterans; posttraumatic stress disorder; attentional bias inhibition; Stroop task; threat; combat video; speech giving; stressor content; word content; color naming; theoretical explanations, 19520

confidence intervals; null hypothesis significance testing; graphically based data interpretation; statistical power, 252

contingency management interventions; rewards; tobacco smoking; smoking cessation; drug addiction; substance use, 23615

delay discounting; impulsivity; self-control; rewards, 3359

dopamine receptors; rewarding effect; hyperlocomotion; morphine; mice; dopaminergic pathway, 21883

effect sizes; null hypothesis significance testing; estimators; statistical analysis; experimenting psychologists, 259

emergent leadership; leaderless group discussion; evolutionary principles; intrasexually competitive situation; reward sensitivity; extroversion; personality; situational factors, 4445

exercise attitudes; health benefits perceptions; exercise rewards; physical performance level; vigorous exercisers; non-vigorous exercisers; older adults, 8663

external feedback; habenular complex; reward system; cingulate motor area; functional magnetic resonance imaging; positive feedback; negative feedback; performance monitoring, 21708

female tamarins; visual cues; primates; eutherian mammals; trichromatic colour vision; ripe fruits detection; cone opsin polymorphism; platyrrhines; chromatic distinction; dichromatic males, 6673

glucocorticoid receptor agonist; Pavlovian appetitive conditioning; outcome-specific associations; dexamethasone; Pavlovian associations; rewards; sensory information; motivation, 7281

hippocampus; event memory; odor reward associations; single training trial; rats, 21441

impulsive; temporal discounting; probability discounting; gambling & non-gambling college students; delayed rewards, 6094

impulsivity; delay discounting; decision-making; animal model; impulsive behavior; hyperbolic discounting, 3473

instrumental responses; reward magnitude; lidocaine inactivation; instrumental behaviour; transient inactivation; rat nucleus accumbens; reaction time, 18741

intraventricular insulin; leptin; conditioned place preference; high-fat diet; rats; food reward value; conditioned place preference, 21831

long term incentive plans; executive pay; company performance; remuneration packages; United Kingdom, 9112

loyalty program; value perception; brand loyalty; customer loyalty; reward schemes, 9198

management commitment; service quality; employee performance; training appraisal; empowerment; rewards, 9076

mathematics education research; effect size; confidence interval reporting; null hypothesis statistical significance testing, 21076

methylphenidate treatment; periadolescent development; preadolescent development; adult behavioral reactivity; emotional stimuli; rats; drug side effects, 7153

mild depression; response-contingent positive reinforcement; engagement in rewarding behaviors; pleasure; behavioral model of depression, 1252

modular or hierarchical reinforcement learning; modular reward; multiple model-based reinforcement learning architecture; MOSAIC non-linear control task; inter-module credit assignment, 9248

monkeys; long term retention; food array size selection; reverse-reward contingency; nonpreferred food; transposition; self control, 12730

negative contrast effect; goalbox placements; food rewards; preshift; rats, 24560

Null hypothesis; paranormal phenomena; skepticism; psi, 6632

operant responding; sucrose; rewards; ethanol; animal model; emotive states; rats; induction, 18465

p-value fallacy; null hypothesis tests; statistical analysis; likelihood ratios, 238

parsing reward; neurosciences; learning; affect; brain circuits; motivation, 6843

pattern simplicity; null distribution; concept learning; complexity, 33789

primate caudate; neural activity; reward-oriented behavior; caudate projection neurons; motor outputs; basal ganglia; saccade parameters, 21605

probability discounting; discounting function; delayed reward; choice behavior; impulsiveness; delay of gratification; probabilistic rewards, 1267

psychological distance; segmentation effect; reinforcement; terminal-link stimulus; response segments, 24565

quinpirole; maintenance phase; continuous reinforcement; reduced response rates; free-operant procedure; behavioral extinction; behavior-reward association; rats, 3924

race model; nonparametric approach; null hypothesis testing; redundant signals effect, 6411

rats; multiple delayed rewards; delay discounting; choice; lever press, 3484

receptor subtypes; CCK-B receptors; mesolimbic dopamine system; anxiety-related behaviors; cholecystokinin receptor; animal models; basolateral amygdala; reward-related behaviors, 21680

reward; neural activity; blood oxygen level; ventral striatum; orbital frontal cortex; children; adolescents, 15912

rufous hummingbirds; risk sensitive foraging decisions; reward distributions; twin threshold model; preference reversals, 3516

social work; student participants; reward expectations; cost expectations; post-work perceptions; social workers; social work students, 14594

statistical inference; psychology; null hypothesis significance testing; Memory and Cognition journal; Geoffrey Loftus; statistical practice reform, 30527

statistical test; null hypothesis; probability models; data generating process; Discrepancy Risk Model Selection Test, 14962

statistical testing; null distributions; inference; models; statistical analysis; parametric procedures; nonparametric procedures, 249

striatal dopamine release; unrewarded motor task; human volunteers; dopamine receptor ligand; raclopride, 3601

task interdependence; reward interdependence; helping behavior; effort; group performance, 4338

team effectiveness; cooperation; distributive justice; procedural justice; teams; rewards, 4381

test recommendations; student t test; null hypothesis tests; equivalence testing; group means, 9505

voucher-based reinforcement therapy; voucher programs; drug abusers; community donations; solicitation campaigns, 20620

Null Hypothesis Testing—Chapters
Give the null hypothesis a chance: Reasons to remain doubtful about the existence of psi, 9732
Self-signaling and self-control, 15320

Number Comprehension—Serials
dyscalculia; reading disability; children; working memory; numerical processing, 32023
learning; Japanese students; addition solution methods; classroom instruction, 26902
magnitude comprehension; numerosity; size; ratio; verbal counting knowledge; comparison; early childhood development; nonverbal numerical ability; perceptual characteristics, 10205

Number Processing and Calculation battery; counting abilities; number comprehension; numerical transcoding; arithmetic reasoning; conceptual knowledge; normative data, 6340

number representations; prelingually deaf participants; number parity; native signers; sign language, 20087

number words; childhood concepts; numerosity, 24976

number words; number acquisition; counting; rhythm; coordination; learn by rote, 939

numerosity; infants; numerical development; number discrimination; visual sets; representation of surface area, 31131

semantics; number word acquisition; linguistics; developmental perspectives; language development, 28077

social status; number representations; mental representations; semantic distance, 31525

Weber-Fechner law; neural correlate; neural basis; number neuron; mental number line; number representation, 15495

young deaf children; spatial task; temporal number task; number representation; mathematical learning; mathematical instruction, 29209

Number Systems—Serials
children skills; numeral writing; developmental maturity; writing skills, 36150

numerical diagrams; arithmetical activity; fourth-grade class; natural number concepts; semiotic signs; metaphor, 23888

string length; repetition; chunking; digit strings; number processing; data entry, 30715

Numbers (Numerals)—Serials
acalculia; aphasia; Gerstmann's syndrome; semantic dementia; verbal system of number words; non-symbolic numerosities, 5024

action; number representation; space representation; visuomotor adaptation; mental number bisection; unilateral neglect; visual goals, 26186

ADAPT; transcoding numbers; verbal to arabic numerals; memory retrieval; developmental data; mild retardation, 18003

aphasia; cerebral infarct; Arabic number writing; errors; semantic representation; syntactic comprehension; verbal number comprehension; transcoding; handwriting kinematics, 29143

brain-damaged patients; arabic numerals; kanji numerals; kana; semiological quality; phonological processing; Gerstmann's syndrome; Wernicke aphasia; neural mechanisms, 16832

counting strategies; developmental changes; developmental pattern; counting skill; adaptation; cognitive development, 13168

interval estimates; overconfidence; numerical estimates; correct answer accuracy, 12674

irrational decisions; cognitive-experiential self-theory; optimal response; cognition scale; low probability; numbers; ratio; judgment, 355

meaning; alphanumeric-color synaesthesia; digits; letters; colored ambiguous graphemes; stimulus context; color; photisms, 8345

memory training programs; number recall; self-generated encoding & retrieval strategies; mnemonics; remembering; cognitive support; verbal cues; older adults, 3386

mental representations; numbers; stimulus modality; event-related potentials; auditory stimulation; visual stimulus; mental addition, 18651

mixing costs; mixing benefits; naming task; words; pictures; sums; homogenization pattern; time criterion; pure blocks; mixed blocks, 3393

number magnitude; number parity; number representations; Linguistic Markedness of Response Codes; Spatial Numerical Association of Response Codes; reaction time; notational modulations, 27510

Number Processing and Calculation battery; counting abilities; number comprehension; numerical transcoding; arithmetic reasoning; conceptual knowledge; normative data, 6340

number processing; analogue equivalents; arithmetic sums; IQ-dependent, 12657

number processing; basal ganglia dysfunction; Fahr's disease; cognitive decline; frontal dysfunction, 22924

number processing; mental calculation; developmental dyscalculia; mathematics disorder; arithmetical performance; test validity; test standardization; Greek school-children, 33491

number processing; priming; stimulus onset asynchrony; naming task; response latencies; semantic distance; distance effects; processing times; arabic numbers; judgment task; number naming, 18350

number representations; prelingually deaf participants; number parity; native signers; sign language, 20087

number representations; priming effects; arabic digits; hemispheric differences; right hemisphere; left hemisphere; unmasked primes; masked primes; conscious priming; unconscious priming, 18604

number sense; mathematics program; learning development; cognitive development; Number Words; educational program evaluation, 23810

number skills; number books; number games; educational program effectiveness, 23837

number words; bilingualism; number translation; cognitive processing speed; semantic mediation; contextual association; Dutch; French, 33787

number words; childhood concepts; numerosity, 24976

number words; number acquisition; counting; rhythm; coordination; learn by rote, 939

numeration intervention program; program evaluation; basic numerical knowledge; conceptual knowledge; developmental dyscalculia, 5940

numerical diagrams; arithmetical activity; fourth-grade class; natural number concepts; semiotic signs; metaphor, 23888

numerical Stroop effect; alphabetic characters; matched digits, 33840

numerical surface form; operand parity; cognitive arithmetic; odd-even; addition; multiplication; parity comparison; digits; number words; strategies; retrieval, 9641

obligatory activation; covert attention; number symbols; visual field; spatial attention shifts; number perception, 15200

planning; naming; reading; complex numerals; conceptual preparation; response uncertainty; morphemes; phonemes, 18342

selective impairment; aphasic disorder recovery; reading number words; numeral reading; alphabetic material errors; lexical-semantic system, 22974

spatial organization; mental representation; ordinal sequences; Spatial Numerical Association of Response Codes, 18322

spatial thinking; high spatial low numerical scores; high numerical low spatial scores; standardized mathematics; United Kingdom; pupils' performance, 9013

synaesthetic color experiences; photisms; attention; visual search; digits; background color; alphanumeric-color synaesthete, 8351

two-digit numbers; compatibility effect; number comparison; number magnitude; mental number line; unit-decade-compatibility; decade decision; unit comparison decision; vertical perceptual arrangement, 24458

Numerical Ability [See Mathematical Ability]**Numerosity Perception—Serials**

acalculia; aphasia; Gerstmann's syndrome; semantic dementia; verbal system of number words; non-symbolic numerosities, 5024

adaptiveness; strategy choices; numerosity judgment; adults, 424

age differences; moving objects; spatial enumeration; multiple-object tracking; subitizing, 18301

bimanual parity judgments; saccadic responses; manual responses; SNARC effects; mental number line; systematic spatial numerical association of response code, 33728

chimpanzees; numerosness judgments; nonvisible sets; item addition; item removal, 12732

eye movement responses; healthy participants; movement amplitudes; response methods; number magnitude; manual response; spatial numerical association of response codes, 18280

long-term retention; Arabic numerals; differential numeral values; chimpanzees; computer monitor; magnitude estimation; magnitude representation; cognitive processes; discrete representation, 24556

food consumption; African American; Native American; food sources; nutrients, 19156

food reward; high-sugar foods; obesity; electronic esophagus; preference conditioning; homeostatic regulation; food preference; nutrient intake; energy balance; rat, 30935

frail elderly; nutritional status; drugs; drug-nutrition interaction; pharmacology, 29364

gender differences; nutrition therapy; medical students; nutrition education; attitudes; years of medical school; professional socialization, 12051

head circumference; intelligence; learning; nutritional status; brain development; intellectual quotient; nutrition; brain; socio-economic status; IQ, 22000

health profile; Ireland; socio demographic indicators; logistic regression model; marital status; educational status; employment; general medical services; GMS, 2338

healthy food consumption; young children; multicomponent nutrition education program; vegetable consumption; behavior change, 14703

implementation intentions; dietary fat intake reduction; low-fat diet; fat energy, 20496

infants & children; low-income; health; nutrition; childhood development; anemia; welfare program; Mexican Program for Education, Health, & Nutrition; PROGRESA; intervention; pregnancy; evaluation, 26541

instrument development; focus groups; vegetable behaviors; fruit intake; themes; transtheoretical model behavior change; older adults, 2347

interactive learning; congregate nutrition site; nutrition education; nutritional risk; behavior change; health behavior; learning; motivation; healthful eating behaviors, 8659

lifestyle; health; nutrition; food; marketing; advertising, 36460

lone mothers; nutrition; children feeding; food insecurity; diet; single mothers, 16173

low-nutrient-density foods; US children; lifestyle characteristics; food consumption; US adolescents, 13153

meat consumption; public health perspective; questionnaire study; social perspective; health psychology; health behaviour; meat production, 11690

mentoring program; food and nutritional sciences; professional schools; allied health fields; professional development; multicultural professionals, 17524

multiple health behavior change; single health behavior; physical activity; nutrition; randomized controlled trial; health benefits; adolescents, 20520

novel foods; food preference; nutrients; social influences; tufted capuchins, 6749

nursing-home residents; energy expenditure; micronutrients; water intake; food intake, 11859

nutrition education needs; education intervention; racial groups; older adults; strategies; nutrition messages, 8673

nutrition education program; adult learners; nutrition education; nutrition needs; nutrition desire; nutrition practices, 20510

nutrition education recommendation; nutrition education literature; nutrition education research quality; health care costs; older adults; nutrition benefits; life quality, 8672

nutrition education; mothers; mental illness; food skills program; occupational therapists; food selection; dietary practice, 20668

nutrition education; older adults; good health; nutrition, 20505

nutrition expertise; eating disorders; anorexia nervosa; bulimia nervosa; binge eating disorder; medical nutrition therapy; education; subclinical eating disorders; obesity; dieting, 32049

nutrition knowledge; cardiovascular disease risk; nutrition education; dietary behaviors; healthy nutrition practices; health beliefs, 8655

nutritional adequacy; prison; male prisoners; kitchen menu; vitamin content; food choices; young offenders, 4752
 nutritional intervention; sickle cell disease; appetite; parent perspectives; nutritional status; mealtime behaviors; eating problems, 26054
 nutritional practices; exercise behavior; exercise habits; Air Force men; group fitness treatment; positive diet adoption; body weight; body fat, 5511
 nutritional rehabilitation; anorexia nervosa; refeeding syndrome; malnourishment; medical complications, 35848
 nutritional status; risk factors; chronic disease; Down syndrome; urban adults, 19790
 nutritional supplements; mineral supplements; sports drinks; health educators; high protein milk supplements; perceived health benefits; potential risk; adolescents, 23458
 nutritional support; community; nutritional risk factor, 20512
 oral supplementation effect; catch up growth; picky eater behavior; growth faltering evidence; nutrition counseling; nutritional supplement, 5367
 parental nutrition knowledge; nutrient intake; atherosclerosis prevention project; health care; child nutrition; dietary habits; food purchase; child nutrition counselling, 5129
 Parkinson's disease; dietary iron; manganese intake; nutrient intake; food frequency habits; nutrient density technique; antioxidants, 16811
 physical activity; fat intake; middle school students; environmental interventions; nutrition interventions; low-fat foods; classroom health education; social marketing interventions, 5502
 professional postpartum support; infant feeding patterns; breastfeeding participants; women; infants; children; special supplemental nutrition program, 26522
 qualitative research; dietitians; language, 3274
 quality of life; nutritional risk; life satisfaction; at risk population; elderly, 23440
 recipe booklet; nutritional education; fruits consumption; vegetables consumption; low income household, 35662
 respiratory function; nutritional status; cognitive status; elderly; functional ability; mood disorders; activities of daily living, 8711
 risk perceptions; disease risk; consumer evaluations; restaurant menu items; nutrition information; health claim; consumers' attitudes; nutrition-related attitudes; source credibility judgments, 33341
 schizophrenia outpatients; general population; nutritional assessment; nutritional variables; nutrition; caloric intake; diet; 24-hour diet recall; schizophrenia; body mass index, 1503
 test reliability; test validity; Fruit and Vegetable Screening Measure for Adolescents; fruit consumption; vegetable consumption; nutrition, 27280
 total parenteral nutrition; central circadian clock; peripheral circadian clocks; rats; clock entrainment; suprachiasmatic nucleus; gene expression, 3569
 tryptophan; females; dieting; brain; serotonin; neuroendocrine responses; nutritional source; prolactin responses, 7147
 vegetable consumption; health interventions; audience response; didactic message presentations; nutrition information; message clarity; message believability; message usefulness perception, 8693
 WHO/FAO report; diet; nutrition; prevention of chronic disease; lifestyle; dietitians, 5473
Nutrition—Chapters
 Nutritional approaches, 16672
Nutritional Deficiencies [See Also Protein Deficiency Disorders, Starvation, Vitamin Deficiency Disorders]—Serials
 birth size; postnatal growth; females; educational achievement; child undernutrition, 23767
 celiac disease; illness behavior; patients; personality; treatment; dietary recommendation, 28992
 childhood obesity; young children; prevention measures; physical activity; medical challenge; medical professionals; health implications; metabolic disease; risk factors; nutrition; genetics, 16566
 dietary profile; activity profiles; ethnically diverse population; health behavior; diet; physical activity; poor nutrition; nutrition management; health promotion, 8677
 ghrelin; malnutrition; anorexia nervosa; short bowel syndrome; peptide hormone, 4523
 intellectual disability; mental disability; aetiology; risk factors; social deprivation; malnutrition, 35132
 mental disorders; disruptive behavior disorders; celiac disease patients; major depression, 28567
 nutrition; nutritional deficiency; low income; mothers; daughters; African American, 23455
 nutritional deficiencies; adolescent anorexia nervosa; refeeding; short-term weight recovery, 19807
 Parkinson's disease; dietary iron; manganese intake; nutrient intake; food frequency habits; nutrient density technique; antioxidants, 16811

prenatal undernutrition; emotional reactivity; cognitive flexibility; sheep, 30816
 psychotherapeutic interventions; medical-psychiatric treatment; eating disorders; protein-energy malnutrition; integrated treatment; crisis phase; pharmacological support; aloperidol; anorexia nervosa, 32208
 undernourishment; serotonergic receptors; rats; 5-hydroxytryptamine; 8-hydroxy-(2-N,N-dipropylamino)-tetralin; 8-OH-DPAT; cerebral cortex, 593
Nutritional Supplements [See Dietary Supplements]
Nymphomania [See Hypersexuality]
Nystagmus—Serials
 cortical lesions; vestibulo-ocular reflex; vestibular function; hemi-neglect; spatial representation deficits; occipito-temporo-parietal junction; vestibulo-ocular behaviour; nystagmus, 5077
 directional motion processing; cortical function; global processing; motion based segmentation; motion in complex tasks; optokinetic nystagmus; developmental disorders; dorsal stream vulnerability, 4096
 interocular motion; dichoptic moving stimuli; motion combination; optokinetic nystagmus; motion perception; monocular motions; eye movement, 12608
 migrainous vertigo; episodic positional vertigo; migraine; benign paroxysmal positional vertigo; positional nystagmus, 29036
 motor learning; translational vestibulo-ocular reflex; head motion; evoked eye movement; Hebbian learning; monkeys, 21442
 oculomotor disorders; downbeat nystagmus; upbeat nystagmus; seesaw nystagmus; periodic alternating nystagmus; acquired pendular nystagmus; saccadic oscillations, 29230
 order effects; caloric test; physiological adaptation; calibration drift, 30638
 spontaneous eye blinking; human infants; neuropharmacology; central dopamine system activity, 18907
 vestibulo-ocular reflex; eye-position dependence; torsional velocity; interaural translation; yaw-axis rotation; fovea; horizontal pursuit, 27474
 vision; motion processing; optokinetic nystagmus; motion coherence thresholds; infants; motion sensitivity, 6514
Obedience—Serials
 menstrual cycle; premenopausal women; dominance; submission; hostility; warmth; socioemotional traits; irregularity; social hierarchies; self reports, 7103
 organizational control; business organizations; interpersonal power; control mechanisms; obedience; indifference; democratic hybrids; moral obedience, 9114
 shame; social rank; rumination; depression; submissive behavior; social comparison, 19170
Obesity—Serials
 abdominal fat reduction; exercise induced weight loss; young obese men; body fat; fat free mass; fat mass, 23453
 acupuncture; obesity; weight management; weight loss; acupoint stimulation; auricular acupuncture, 17174
 acyl-estrone; pharmacological treatment; body lipids; food intake; body weight; obese rats; Wistar rats; Zucker rats; Goto-Kakizaki rats, 15773
 adiposity; treadmill walking; obese adolescents; lean adolescents; gait; energy cost, 21310
 African Americans; general population; television watching; obesity; television food portrayal; food commercials; African American television characters; African American television shows, 13140
 after school activities; athletic activities; adolescent obesity; inner city youth, 19810
 antipsychotic drugs; body mass index; chronic mental illness; direct-care staff; obesity; psychosis; schizophrenia, 32748
 antipsychotic drugs; obesity; diabetes; psychotic conditions management; second-generation antipsychotics; drug tolerance; dyslipidemia, 20272
 anxiety; depression; obesity, 13530
 at risk population; nutrition education; childhood obesity; nutrition program; health problem; dietary intake; toddlers; caregiver attitude; knowledge level; low income; rural environment, 23432
 atypical antipsychotic drugs; diabetes mellitus; hypertension; obesity; body weight; body mass index, 32476
 bariatric surgery; gastric banding; morbid obesity; therapy outcome; body image; new eating habits, postoperative complications; weight loss; quality of life; self esteem, 5427
 behavioral modification; parental involvement; family problem; teen obesity; teen weight loss program; body mass index; parent teen relation; obesity program, 14317
 bilateral posterior hypothalamic lesion; polysomnography; total sleep time; wakefulness; obese patient, 16594
 binge eating disorder; cognitive-behavioural therapy; management; obesity, 5201
 binge eating; melanocortin 4 receptor gene mutations; obesity; gene phenotype, 8085

bipolar disorder; obesity; pharmacotherapy; weight gain; mood disorders, 11509
 birthweight; intrauterine environment; adiposity; fat distribution; later life; body mass index; obesity, 7555
 bisexual women; overweight; obesity; exercise frequency; lesbian women; attitude differences; ethnicity; cohabitation, 8700
 body dissatisfaction; nonobese patients; bulimia nervosa; obese patients; binge eating disorder; drive for thinness; maturity fears; depression; comorbidity, 1729
 body fat; excess accumulation; dyslipidemia; hypertension; cardiovascular risk factor; obesity, 29003
 body mass index; asthma; Mexican adults; obesity; measured weight; measured height, 7798
 body uneasiness; body image; eating disorders; overweight; obesity; weight-loss treatment; Italian women, 13461
 body weight changes; risk factor; functional impairment; weight gain, 29527
 body weight loss; phentermine; fenfluramine; calorie diet; outpatient obesity center, 11822
 body weight; behavioral factors; overweight; obesity; Peruvian adults; social factors, 12937
 body-mind conflict; obesity; psychosis; psychic elaboration; analytic relationship; psychoanalysis, 2104
 c-reactive protein; cardiovascular disease; metabolic syndrome; obesity, 16636
 cardiac hypertrophy; diastolic function; obese men; patients, 7800
 cardiorespiratory fitness effects; obesity effects; cancer mortality; obesity; cardiorespiratory fitness; gender, 22876
 cardiovascular disease; abdominal fat; risk factor; normal-weight; sex differences, 29089
 cardiovascular morbidity; coronary heart disease; body mass index; overweight; obesity; Asian-ethnic groups, 8089
 child obesity; development; parental obesity; body weight; obesity prediction, 15911
 childhood obesity; activity level; television viewing; video game playing; gender differences, 15921
 childhood obesity; adolescence obesity; cardiovascular risk; hyperlipidemia; hyperinsulinemia; ethnic background; overweight children; risk factors; critical developmental periods; environment; weight, 13827
 childhood obesity; sedentary behavior; physical activity; dietary intake; demographics; anthropometrics; parental characteristics; military dependents; sedentary time, 10220
 childhood obesity; young children; prevention measures; physical activity; medical challenge; medical professionals; health implications; metabolic disease; risk factors; nutrition; genetics, 16566
 childhood overweight; Hong Kong children, 8087
 cognitive treatment; behavioral treatment; pediatric obesity; weight management; treatment effectiveness evaluation; treatment outcomes, 26242
 cross cultural analysis; nutrition transition; global obesity; emotional eating; physical eating; environmental eating; dieting frequency; eating disorders; national differences; cultural environment, 11109
 diabetes mellitus; impaired glucose regulation; obesity; ethnic group, 28966
 diet-induced obesity; genetic vulnerability; metabolic syndrome; signal transduction; biochemical changes; molecular aspects; C57BL/6J mouse; catecholamine signaling; adipose tissue, 24612
 diets; advertisements; weight stigma; before and after; obesity; stereotype, 13463
 eating behavior; physical activity; adolescence; adult health status; obesity, 32586
 eating disorder; psychopathology assessment; obese children; obese adolescents; binge eating; interview; self-report questionnaire, 24237
 eating disorders; body fat; psychopathology; overweight; adiposity, 11116
 eating; body image; body weight; obesity; African Americans; Hispanics; girls, 32059
 ecological momentary assessment; dietary temptation; dietary relapse; obesity; postmenopausal women; weight-loss intervention, 17100
 emotions; overweight women; normal-weight women; emotional state; eating; food energy content, 7101
 energy balance; plasma leptin concentration; fasting plasma; fat deposition; body fat mass; diet manipulation; insulin concentration; glucose concentration; fat mobilization, 15694
 energy metabolism; bardet-biedl syndrome; clinical management; obese control; patients, 8126
 erectile dysfunction; obese men; lifestyle changes; endothelial function; body weight; physical activity, 29516
 erectile dysfunction; obese men; lifestyle changes; endothelial function; body weight; physical activity, 29557
 ethnic-specific; body mass index; overweight; obesity; ethnic group; Asian, 8091

Volume 91 SUBJECT INDEX

Obesity—Serials

food intake; obesity; obesity management; weight management, 32048
 food reward; high-sugar foods; obesity; electronic esophagus; preference conditioning; homeostatic regulation; food preference; nutrient intake; energy balance; rat, 30935
 genetic research; appetitive behavior; obesity; nucleotide polymorphisms; murine molecular genetic techniques, 35145
 health behaviors; African Americans; health screenings; health problems; physical fitness program; Caucasian counterparts; community-based health; baseline assessment; Activities-for-Life program, 29547
 health programs; obesity prevention; adolescent girls; HIV risk reduction; African American women, 32613
 health-related quality of life; behavior modification; weight loss; obese outpatients; low energy diet; psychosocial problems, 13833
 health-related quality of life; obesity; dietary controls; exercise; mental health, 14327
 interdisciplinary approach; obesity; cognitive-behavioral nutritional therapy; physical exercise; body weight; relaxation; psychosocial difficulties, 23167
 isolated heart responsiveness; stimulation; exercise training; obesity; health benefits; heart function; systolic contractility, 21751
 lean families; overweight families; food consumption; energy content; fat content; supermarket shoppers; food purchased, 14840
 leptin; hormones; obesity; feeding; energy homeostasis; leptin receptors; neuroendocrine system; immune system; brain development; intracellular signal transduction; central neuronal circuitry, 24608
 leptin; topiramate; fat reduction; lean mice; obese mice; body composition; food intake; body weight, 13026
 lifestyle changes; obese adolescents; whole-body protein turnover; protein metabolism abnormality; cardiovascular risk factors; body mass index; fat mass; body weight; resting energy expenditure, 14310
 loss outcomes; weight management program; insurance reimbursement; short-term; weight control, 8676
 mental distress; obesity; body weight; Rorschach personality aspects; anxiety; major depression; body concern, 22803
 obese adolescents; body image; self esteem; worries; weight loss camp, 17265
 obese binge eaters; binge eating disorder prevalence; sleep qualities; psychopathological features; treatment-seeking obese patients, 16570
 obesity prevention programs; control conditions; eating patterns; school-based program; adolescent girls; body mass index; BMI; self-image; New Moves; satisfaction; behavioral change; intervention, 2345
 obesity treatment; obesity management; therapy choice; multiple interventions; obesity degree assessment; comorbid conditions; weight maintenance programs; rebound weight gain, 5135
 obesity; apnea severity; obstructive sleep apnea; upper airway anatomy; pharyngeal airway physiology; ventilatory control; airway collapse; lung capacity; volume changes, 4856
 obesity; Black adolescent girls; genetic factors; psychosocial factors; cultural factors; susceptibility; prevention, 32047
 obesity; children; adolescents; binge-eating disorder; BED; weight-loss treatment; objective bulimic episodes; bulimia, 4800
 obesity; depression, 16414
 obesity; depressive symptoms; elderly, 13541
 obesity; diabetes; hypertension; weight management; case study; weight loss; weight gain; Dexamfetamine; drug therapy, 32057
 obesity; environmental factors; lifestyle; smoking habits; body mass index; educational status; urbanisation, 28961
 obesity; government; health care policy; exercise; lifestyle, 32090
 obesity; health risks; time preference, 35144
 obesity; inflammation; transgenic mice; proteins; UPC2; UPC3, 15438
 obesity; metabolic syndrome; insulin resistance; C-reactive protein; adiponectin, 26006
 obesity; metabolic syndrome; insulin resistance; C-reactive protein; adiponectin; biological markers, 35143
 obesity; metabolic syndrome; insulin resistance; C-reactive protein; adiponectin; biological markers, 35138
 obesity; metabolic syndrome; insulin resistance; C-reactive protein; adiponectin; biological markers, 35136
 obesity; metabolic syndrome; insulin resistance; C-reactive protein; adiponectin; biological markers, 35137
 obesity; overweight; health risks; women; polycystic ovary syndrome; cardiovascular disease; endometrial cancer; postmenopausal breast cancer; diabetes, 22764
 obesity; overweight; policy factors; environmental factors; risk factors; workplace; community perceptions; ecological perspective, 16557

obesity; overweight; Taiwan; physical activity; alcohol consumption; aborigines; metabolic equivalent; MET, 4805
 obesity; physicians; knowledge; attitudes; medicine residents; medical consequences; obesity treatment, 8913
 obesity; risk factor; antipsychotic noncompliance; side effect; distress; schizophrenia, 11572
 obesity; risk factors; hypertension; glucose intolerance; diabetes mellitus; hyperlipidemia; metabolic syndrome; stress; pathogenesis; glucocorticoids, 35208
 obesity; verbal memory; postmenopausal women; Downs syndrome; cognition; aging; cognitive function; estrogen levels, 29025
 orexigen; hunger sensation; bariatric surgery; circadian rhythms; hunger; hyperorectic obesity; morbid obesity; hyperorexia, 5416
 overweight clinicians; patient attitudes; confidence in clinicians; clinician body mass, 14299
 overweight-related behaviors; Hispanic US immigrants; adolescent health; acculturation; diet; smoking; family income; maternal education, 11108
 parental history; coronary heart disease; risk factors; obesity; lifestyle; weight; height; demographic characteristics; discharged military personnel, 4514
 perospirone; obesity; diabetes mellitus; schizophrenia; blood sugar, 35553
 physical activity fitness; obesity; individual counseling intervention; workplace health; cholesterol, 5992
 physical activity; body fat; protective effect; Framingham Children's Study; FCS; activity monitoring; childhood obesity, 2344
 physical activity; obese women; food intake; acute coupling; serum leptin; appetite-satiety; obese women, 8696
 physical disability; muscular strength; obesity; body composition indexes; healthy elderly women, 29577
 physical fitness; physical activity; human females; obesity predisposition; parental characteristics, 29568
 physical readiness testing; test standards; body composition assessment; body mass index; obesity; naval personnel, 3231
 prevalence; correlates; obesity; severe and persistent mental illness, 10651
 prevalence; DSM-IV personality pathology; bulimia nervosa; binge eating disorder; obesity, 7772
 primary care physicians; binge eating treatment practices; obesity treatment practices; physician knowledge; treatment recommendations, 23650
 primary care practice; moderate weight; success rate; weight loss; Orlistat; clinical reality, 8631
 psychiatric aspects; obesity; childhood; adolescence; diagnosing; treating, 13831
 psychiatric aspects; obesity; childhood; adolescence; diagnosing; treating, 13845
 psychiatric disorders; obese children; obese adolescents; psychopathology; obesity severity; parents, 25497
 psychogenic nonepileptic seizures; obesity; epilepsy; somatoform disorders, 13870
 psychological distress; overweight individuals; mental health; psychological health; obese individuals; obesity, 8143
 psychopathological differences; morbidly obese; binge eating; bariatric surgery, 13835
 psychosocial functioning; psychiatric comorbidity; obesity surgery; quality of life; bariatric surgery, 8623
 public health problem; childhood obesity; total food consumption; Bogalusa Heart Study; eating patterns; overweight status; dietary recall; body mass index, 1734
 quality of life; psychosocial functioning; depression symptoms; construct validity; weight reduction; psychometric performance; psychosocial problems; responsiveness; obesity-related problems scale, 6301
 racial differences; glucagon-like peptide concentration; insulin dynamics; glucose tolerance test; obese subjects, 8093
 racial differences; insulin; secretion; obese adults; enteroinular axis; octreotide suppression; glucagon; peptide; somatostatin, 28965
 risperidone; steatohepatitis; excessive weight gain; paranoid psychosis, 5291
 schizophrenia-spectrum disorders; antipsychotic drugs; body mass index; obesity; comorbidity, 35537
 sedentary behavior reduction; pediatric obesity treatment; stimulus control; physical activity; eating behavior, 29454
 self efficacy; physical activity intervention; obese women; behavior change theory; health attitudes; cardiorespiratory fitness; health behavior, 11700
 self-help treatment; weight loss; body weight; cognitive behavior therapy; obesity, 23168
 serum basic fibroblast growth factor levels; Japanese men; overweight; exercise education; vascular endothelial growth factor; body mass index, 8691
 sibutramine; appetite; eating behavior; therapeutic outcome; obesity, 17030

Object Recognition—Serials

significant weight gain; antipsychotic medications; ziprasidone; psychosis, 35539
 sitting time; work patterns; overweight; obesity; Australian adults; body mass index; physical activity, 8661
 social ecological theory; type 2 diabetes prevention; disorder management; obesity, 26638
 social factors; obesity; health behaviors; body mass index; sociodemographic groups; energy expenditure; physical activity; alcohol consumption; diet; weight control, 4797
 sociodemographic correlates; behavioral correlates; psychological correlates; overweight; obesity; older women; urban African Americans, 32056
 socioeconomic gradient; body size; obesity; women; dietary restraint; hunger; psychological eating behaviour; disinhibition, 28946
 socioeconomic status; public health impact; adolescent depression; physical health, 10238
 tobacco; obesity; smoking; health risk factors; epidemics; public health; food industry, 35666
 treatment outcomes; obesity; weight change patterns, 28957
 voluntary exercise; cannabinoid CB1 receptor; CB1-receptor inverse agonist; body weight loss; obese mice; lean mice; AM251; CB1R inverse agonist; food intake; genetic models; obesity, 13106
 weight loss experience; behavioral treatment; weight control; obesity; thoughts; feelings, 20455
 weight loss intervention; body composition; obese adolescents; physical activity; diet, 29414
 weight loss maintenance; long-term weight loss; diet regimen, 29522
 weight loss; binge eating disorder; eating behavior; eating disorders, 22763
 weight loss; expectations; obese women; drug therapy; sibutramine; treatment information; clinical significance; malleability; body weight; attitude change, 2234
 weight loss; musculoskeletal pain; perceived disability; functional limitations; obese women; dieting, 28952
 weight reduction; health behaviours; eating behavior, 29572
 women's health; obesity; stigma; health outcomes; weight loss therapies; cultural & gender differences; obesity rates; economic costs; psychological costs; social costs; etiological theories, 1735
Obesity—Chapters
 Interventions in morbid obesity, 4811
Obesity (Attitudes Toward)—Serials
 beauty and thinness messages; children's media; young; body image concerns; desire for thinness; avoidance of obesity; body preferences and stereotypes, 28106
 culture; obesity stereotypes; self-esteem; social identity; overweight; body esteem; global self-esteem; thin ideal beliefs; personality; social interaction, 28479
 environmental factors; undue influence; gender differences; weight; self-evaluation; genetic factors; twins, 19820
 environmental factors; undue influence; gender differences; weight; self-evaluation; genetic factors; twins, 19822
 perceived weight controllability; attributions; prejudice; heavyweight women; personal beliefs; stigma; overweight, 29504
 physician attitudes survey; pediatric obesity; pediatric obesity treatment; primary care setting; referral approaches; children; adolescents; practice, 5742
Object Permanence—Serials
 children; object displacements; spinal muscular atrophy; object permanence, 1868
 infants; object representation; visual tracking; occluder, 10204
 object permanence; common marmosets; search behavior; visible displacements; invisible displacements, 12737
 object permanence; infancy; learning; innate contributions; training periods; nature nurture, 28085
 object permanence; infant cognition; agent-based model; robotics; simulation, 15980
 object permanence; twenty four hour delay; disappearance; memory; spatial understanding; object identity; different locale; infants, 24966
Object Recognition—Serials
 adaptive learning; target detection; novel imagery data; neural network; pattern recognition, 14891
 Alzheimer's disease; lexical processing; object recognition; spoken & written perception; word & non word production; language; reading; writing; speech, 8230
 artificial three-dimensional object; object recognition; cognitive development; cross-modal integration; intra-modal integration; multimodal object representation; configural object recognition; brain, 12667
 attention; neural selectivity; lateral occipital complex; neural mechanisms; object recognition, 15553
 attention; parallel allocation; saccade sequences; performance; saccade goals; attentional allocation; visual perception, 443
 attractiveness; perceived familiarity; pleasant stimuli; warm glow heuristic; positive valence; faces; recognition; positive affect; valenced words; subliminal perception, 7641

Volume 91 SUBJECT INDEX

Object Recognition—Serials

Object Recognition—Serials

automatic activation; stereotyped attitudes; prejudice; face perception; Blacks; Whites; object identification; weapons; sports; cross cultural differences, 10538
backward masking; attentional selection; visual perception; visual search; object substitution, 27470
basic-level categories; classification; right hemisphere; left hemisphere; hemispheric specialization; visual field; object identification, 3664
basic-level category discrimination; concepts; infancy; categorization; object examination task; cognitive development; familiarization, 924
Bayesian models; human visual system; pattern recognition; object perception; computer vision; natural image modelling; retinal image; visual cortex, 15209
bottlenosed dolphins; human directed gazing; human pointing; object choice; gaze cues; static gaze; dynamic gaze, 27628
bottom-up processing; infant development; cognitive development; category learning; visual recognition, 31146
category learning; shape representations; dimensional perception; shape dimensions; visual perception; cognitive processing; categorization; visual processing; visual differentiation, 3295
category membership; category coherence; object categories; causal knowledge; property induction, 12665
category-specific visual agnosia; lesion; semantic memory; connectionist model; object recognition; extra-lesional variables, 8209
change detection; change blindness; central object change; centrally attended objects; marginal objects; recognition memory; changed object recognition; motion pictures; representation failure, 12587
children; adults; artifacts; object naming; historical intuition, 10183
cognitive impairment; associative recognition; conscious recollection; item recognition memory; item familiarity; schizophrenia, 7855
color vision; Alzheimer's disorder; geriatric patients; object recognition; color cues; dementia; short-term memory; cognitive ability, 13930
computer based instruction; letter-sound correspondences; matching to sample; stimulus equivalence; children, 20812
correlated attributes; human infants; novel category exemplars, 18909
delay-dependent involvement; hippocampus; object recognition memory; rats; object exploration, 27740
dominance in binocular rivalry; attention; object-based attention; object-based selection; awareness; stimuli discrimination, 24367
electromagnetic fields; radial-arm maze; object recognition; rats; mobile phone; spatial memory; mobile communication microwaves; GSM 900-MHz; head-only exposure; spatial learning; performance, 3769
entorhinal cortex; retrosplenial cortex; brain lesions; habituation; reaction to change; spatial changes; non-spatial changes; object exploration; rats, 27771
episodic learning; category specific agnosia; object recognition; recall, 11233
executive processes; deceptive responding; behavioral responses; event-related brain potentials; truthful responses; recognition; perceived stimuli; remembered stimuli, 18333
face perception; non-face object perception; spatio-temporal event-related potential; other-face face; same-face face; Caucasian and Asian faces; brain; ERP map topography analysis, 3314
face recognition; spatial frequency similarity; classification; object recognition; spatial frequency overlap; stimulus variability, 33710
flash lag illusion; psychophysical experiments; motion perception; object recognition, 30602
foreground stimuli; background stimuli; brain responses; event-related potentials; recognition; memory; prior exposure; visual objects; landscape scenes; stimulus context; fMRI, 648
fusiform face area; face recognition; fusiform gyrus; neurons; object recognition, 18605
fusiform gyrus; face recognition; object recognition; schizotypal personality disorder, 4622
gesture knowledge; semantics; focal left hemisphere lesions; ideomotor apraxia; ideational apraxia; picture naming; word-picture matching; manipulable objects; non-manipulable objects; animals, 8297
hemispheric differences; object recognition; lateralized processing; visual stimuli; visual field, 34026
hemispheric performance; object-based attention; visual fields, 21709
hierarchical neural feedforward architectures; hierarchical models; learning; hierarchical network; feature detection; invariant object recognition, 3093
humans; lateral occipital complex; shape representation; perceived 3-D object; object shape; visual shape, 6928

individuation; objects; events; language; developmental changes; counting; spatio-temporal individuation strategy, 4117
infants; object representation; visual tracking; oculomotor, 10204
inferior temporal cortex; object recognition; shape changes; neuron; shape tuning; macaques, 21612
interhemispheric interaction; bilateral redundancy gain; bilateral stimulation; letter trigram recognition; performance; errors, 594
laterality effects; novel objects; object recognition; left hemisphere; recognition subsystem; semantic associations; right hemisphere; viewpoint dependent performance; semantic processing, 27722
looking time; support relations; impossible object relations; adequate support; inadequate support; object properties; support intuitions, 27609
magnocellular system; attention allocation; flanked-letter identification; luminance contrast, 30617
meaning; sound; nomic mapping; everyday listening; object size perception; sound frequency; ecological acoustics; symbolic mapping; music, 33739
mirror reflections; object picture; shape percept; shape constancy; two-dimensional picture; inherent picture ambiguities, 6494
neural correlates; implicit object identification; semantics; cortical activations, 27775
neural network; pattern recognition; genetic algorithm; network architecture; object orientation; multilayer neural-genetic algorithm; image processing, 14883
neural timing; visual implicit categorization; visual category-specific activations; categorization dynamics; visual perception, 3796
object concepts; objects parts; action; part-generation task, 12632
object file continuity; attentional blink magnitude; object identification; perceptual constancy, 33718
object identification; simultanagnosia; object characteristics; animate; inanimate; global shape; internal detail; segmentation cues; surface color; texture, 20042
object individuation; infancy; infants, 24958
object labels; conversations; young children; parent language; child expectations; word meanings; contexts, 31132
object locations; memory; object receipt; developmental amnesia; hippocampal damage; virtual reality; forced-choice recognition; spatial memory; familiarity; episodic recollection, 29135
object motion; vision; touch; visuotactile stimulation; tactile input, 33716
object permanence; twenty four hour delay; disappearance; memory; spatial understanding; object identity; different locale; infants, 24966
object processing; representation; levels of specificity; perirhinal cortex; object identification; domain level naming; basic level naming; anterior and posterior inferior temporal cortex; neurons, 18616
object recognition representation; spatial relation; planar rotation; animal recognition; nonanimal object recognition; hemispheric advantage; categorical spatial relation; coordinate spatial relation, 15285
object recognition; attention; memory; visual perception; object representation; infants; preschool children; novelty task; matching task; habituation task, 910
object recognition; decision making; cues; predictive validity, 24457
object recognition; mice; strain differences; memory, 9775
object recognition; neural network; image analysis; appearance-based 3-D object recognition; three-layer percepts; nonlinear principal component network; pose estimation, 14898
object recognition; visual perception; contextual processing; scene perception; neuropsychology, 33705
object recognition; visual stimuli shape; visual stimuli color; event related potential; selective attention, 18294
object representation; stimulus degradation; visuomotor priming; visual objects; visual input; motor activity, 27446
object segmentation; maximum neural network; gesture recognition; target objects; non-target objects; algorithm, 14897
object splits; object persistence; cohesion violation; vision; object representations, 24392
object structure; saccade planning; saccadic eye movements, 34117
object-based attention; configural prioritization; contextual prioritization; stimulus onset asynchrony, 27577
object-based connectedness; image-based connectedness; object pairs image; monocular & binocular depth cues; concavities; matching, 6508
ontogenetic forgetting; novel object-recognition task; performance; rats, 24553
perceptual deficits; visual associative agnosia; object recognition; face recognition, 19970

perirhinal cortex; feature ambiguity; lesions; impaired object recognition; rats, 9869
priming; object individuation; surface features; pattern information; color information; young infants; features priming; functional value information; object identity, 10216
puberty; adult; cannabinoid agonist; animal development; sensorimotor gating; recognition memory; progressive ratio operant behavior; locomotor activity; prepulse inhibition; haloperidol; rats, 778
pure agnosia; mirror stimuli discrimination; right inferior parietal lesion; object recognition, 22989
Random Image Structure Evolution; high-level visual perception; perceptual hysteresis; priming; neural substrates; object perception; agnosia; object recognition, 21290
recognition memory; object discrimination; cognitive function; memory deficit; novel object; muscarinic receptor antagonist; dose-dependent reduction; acute administration; object exploration, 10061
recognition memory; recall performance; intentional study; common objects, 21382
representational capacity; object-based attention; chunking; perceptual grouping; infants, 13173
selective activation; cognitive processing; letter recognition; letter processing; cortical regions; object recognition; fMRI, 15518
semantic category effect; emotional valence; picture naming; biological object; non biological object, 27975
semantic dementia; object decision; conceptual regularities; patients, 5055
semantic dementia; object usage; relearning; cognitive functions; rehabilitation program, 29754
semantic dementia; word recognition; object recognition; lexical decision; object decision; typicality; familiarity, 20045
semantic representations; perceptual representations of verbal statements; visual representations of objects; names; attribute norms; impairments of conceptual knowledge; computational model, 9722
sex differences; behavioral responses; object localization; object recognition; mice; spatial novelty; object novelty, 6652
shape information; behavioral asymmetries; cross-modal transfer; human newborns; visual format; perception; handedness; tactual format; shape recognition, 28091
spatial organization; three dimensional objects; visual search performance; visual object perception; processing; constituent parts, 33704
stimulus format; object recognition; event-related potentials; electrophysiological indices, 12921
supramodal representation; inferior temporal cortex; ventral premotor cortex; object recognition, 18558
surface cues effects; macaque inferior temporal cortical responses; objects recognition; surface information; color; texture; luminance; selective inferior temporal cortex neurons; rhesus monkeys, 3662
target-stimulus reminder; reminder cuing; object recognition; novel object; memory; rats, 3470
temporal lobe epilepsy; object processing; hippocampal function; visual memory; visual processing, 5076
temporal variation; visual completion; spatial limits; occlusion; time course; occluded objects, 3316
time-to-contact judgment; approaching objects; partial occlusion; reduced optical size; moving occluder; computer-generated object; optical expansion; time; motion perception; visual perception, 15196
vision; manipulation; humanoid robotics; object segmentation; epigenesis; brain, 17998
visual attention; invariant object recognition; neurodynamical cortical model; brain; feedback biasing; visual cortical areas; reciprocal feedback, 27724
visual categorization; inferior temporal cortex; stimulus features; feature representation; macaque monkeys; visual neurons, 12885
visual information; brain responses; neurons spiking; recognition; distal visual stimulus; visual integration, 21273
visual information; neural representation; classification objects; human visual system; generative models; ideal observer analysis; classification image techniques, 21287
visual memory; object memory; scene representation; natural scenes; long-term memory component; visual short-term memory; recency advantage; memory systems; target object; visual form, 21375
visual object processing; categorization experiments; perceptual categorization; object representation; infant categorization, 24989
visual object processing; semantic categories; ecological pictures, 27472
visual perception; object shape; visual control; perceptual judgements; grasping, 6498
visual perception; trajectory direction; binocular vision; motion-in-depth; depth perception, 30630

visual recognition; developmental agnosia; developmental processes; developmental prosopagnosia; object recognition; face recognition; place recognition, 1838

visual recognition; visual pathway; cognitive neurology; neural system; neuroimaging; ventral occipito-temporal regions, 15204

visual similarity; object recognition; surface characteristics; edge information; line drawings; greyscale drawings; naming; categorization; living things; nonliving things; agnosia, 6583

visual systems; Roelofs effect; single reference frame; cognitive judgments; object location; frame offset; sensorimotor responses; Roelofs illusion, 27451

visual word recognition; interhemispheric transfer; cerebral hemisphere; foveal vision; visual field; right brain; symmetry detection; left brain; object perception, 15194

word-referent link; ignorant speaker; knowledgeable speaker; novel word; word learning; toys; young children, 10207

working memory; visual field; visual perception; visual attention; symbolic control; attentional control; symbols; color; competition; object recognition, 315

young children; name innovations; novel artifacts; object function; object perceptual properties, 10187

Object Recognition—Chapters
The development of object segregation during the first year of life, 15995

Perceptual completion and memory, 15231

Object Relations—Serials
adolescent play; thinking; mind; clinical examples; social communication; emotional growth; adolescent psychotherapy; object relationship prototypes, 23121

Christian repentance; resurrection theology, 34454

cognitive analytic therapy; object relations theory; psychodynamic therapies; borderline personality; brief therapeutic, 5165

concurrent couple & individual therapy; dyadic relationship; intimate relations; internal object relationships; marriage; love-gratifying dyads, 35401

dissociative identity disorder; attachment theory; survival; attachment dilemmas; pivotal crisis; object relations; transference, 8358

elective mutism; object relations; child psychoanalytic psychotherapy; symbolism; speech, 5255

gender differences; dependency; separation; object relations; eating behavior; eating attitudes; eating disorder behavior, 16562

intrapsychic; HIV/AIDS patients; homelessness; substance abuse; applied theories; psychotherapeutic approaches; object relations, 32294

moral philosophy; psychoanalysis; British philosophy; object-relations theory, 34205

moral philosophy; psychoanalysis; British philosophy; object-relations theory, 34204

mother child attachment; attachment behavior; security blankets, 34507

narcissistic personality disorder; self identity; empathy; object relationships; latency-aged children; object representations; self-esteem regulation; impulse control; aggression control; assessment, 19579

object relations approach; psychotic transference; theoretical position; ego psychology; countertransference, 20247

object relations family therapy; Socio-Intrapsychic Model; assessment; treatment; symptomatic adult children; divorced parents; stepfamilies, 35395

object relations psychoanalysis; political theory; family cohesion; social-democratic welfare state; individual confidence; political contents; natural state; rights, 34742

object relations; assessment, 59

object relations; borderline personality disorders; depressive experiences; patients; personality organization; emptiness; anger; clinical observations, 19572

object relations; couple therapy; family therapy; psychoanalysis; unconscious processes; resistance; transference; marital interaction, 35419

organizational boundaries; organizational life; constituent parts; organizational structure; autistic-continguous mode of experience; object relations; psychoanalytic theory, 36368

personality organizations; psychiatric severity; object representations; self representations; aspects integration; neurotic personality; psychotic personality; borderline personality, 19568

relational representations; attended image priming; configural distortions; split images; ignored image priming; holistic representations; analytic representation; object recognition; visual attention, 15300

theoretical influences; psychoanalytic process; psychoanalysis; self psychology; object relations; transference, 20262

W.R.D. Fairbairn; Scottish history; world wars; Presbyterians; sexually puritanical parents; Fairbairn thinking; traumatic aspects, 33458

W.R.D. Fairbairn; Scottish history; world wars; Presbyterians; sexually puritanical parents; Fairbairn thinking; traumatic aspects, 33456

Winnicott; self; potential space; human nature; maternal functions; maturational stages; Erik Erikson, 31631

young children; play; object relations family therapy; family therapists; therapy sessions; communication, 35418

Object Relations—Chapters
Assessing patient capacities for therapy: Psychological-mindedness and quality of object relations, 2129

Objective Referenced Tests [See Criterion Referenced Tests]

Objectives [See Goals]

Objectives (Organizational) [See Organizational Objectives]

Objectivity—Serials
attention-deficit/hyperactivity disorder; objectivity; caricatured portrayal; own behavior; boys; mothers, 1693

bias; objectivity; divergent perceptions; self vs. others; self perception; social perception; dispositional inferences; intergroup conflict, 28426

culture; reductionism; social reality; intersubjectivity; inter-objectivity, 1077

objective structured clinical examinations; interrater reliability; examiner effects; objectivity; station reliability & validity; examiner experience; examiner involvement in station construction, 21202

psychoanalytic encounter; narcissistic patients; subjectivity; objectivity; triangular space, 10631

self-assessed cognitive dysfunction; objective performance; outpatients; schizophrenia; rehabilitation program; neuropsychological performance, 25666

Oblique Rotation—Serials
oblique factors; oblique components; independent clusters; factor analysis; component analysis; factor loadings; standard errors; oblique rotation; factor correlations, 15136

Obscenity—Serials
cognitive factors; affective reactions; facial expressions; facial muscles; obscene joke; funniness; rating; gender differences, 7656

Observation Methods—Serials
childhood loneliness; conversations; children; game-playing approach; subjective experiences; measurement, 4135

community treatment program; California Youth Authority; young adult offenders; political reasons; randomized field trials; juvenile offenders; institutional reasons; California justice, 17481

covariance matrix; diagnostic statistics; influential observations, 24331

direct observational methods; stereotypic behavior; autism; pervasive developmental disorder not otherwise specified; partial-interval recording; momentary time sampling; stereotypy, 18211

momentary time samples; continuous recording samples; on-task behavior; emotional disorders; behavioral disorders; elementary school students, 6437

parent-child observations; child custody evaluations; interactional dimensions; observation information; professional principles; client benefit, 14920

participant observation; autism; developmental disabilities; young children; occupational science; daily activities; child participant perceptions, 22742

prayer; politics; communal conflict; public events; women's prayer session; mass demonstrations; multifocal events; qualitative fieldwork; ethnographic model; on-site participant observation, 4364

research projects; community setting; social capital; community life; recruitment difficulties; deprived community; semi-insider position; participant assessment, 6458

self report; pain behavior; pain intensity; direct observation; method validity, 15186

social relations; relational spaces; complicity; ethnography; data analysis; youth subjects; ethnographer subject interaction, 9535

student engagement; interobserver reliability; observation instrument; educational research; student learning time; STROBE; health profession settings; validity, 15105

systematic direct observation; behavioral observation; generalizability theory; variance; interobserver agreement, 30493

Observational Learning—Serials
budgetary; Melospittacus undulatus; copying; virtual demonstrators, 9766

causal structure; intervention; observation; probabilistic data; learning paradigm; temporal cues; causal model, 24447

cerebellum; action representation; internal representation; observational learning; spatial information processing; imitation; explorative strategies; spatial learning, 9873

cognitive imitation; rhesus macaques; motor imitation, 30777

imitation; affordance learning; pigeons; Columba livia, 9762

motor facilitation; action observation; prehensile action; action execution; priming; neural systems; mirror neurons; object affordances, 6553

observational learning model; computer software training; skill acquisition; computer task performance, 9074

observational learning; developmental psychopathology; psychosocial determinants; attachment theory; caregiving environments; action interpretation; learning strategies; infants; mentalization, 15950

observational learning; ghost condition; imitation; emulation; young children, 31191

observational learning; knowledge; results frequency; physical practice; model performance, 27478

observational learning; shared book reading; alphabet knowledge; letters, 36154

observing responses; reinforcement rate; response-independent food; multiple-schedule stimuli; discriminative stimuli; primary reinforcement; resistance to change; pigeons, 12740

Observers—Serials
actor-observer differences; safety interventions; risky driving; young drivers, 31527

assessment understanding; Big Five; convergent validity; discriminant validity; measurement occasion; observer type, 27289

Balkan identity; outside observer; object of envy; alien culture, 7529

biological motion; observer perception; aging; recognition performances; kinetic figure discrimination; younger observers; older observers; biological motion perception, 15976

bystander behavior; identity; place; bystander intervention; social categories; helping; natural disasters; self-categorization theory, 25302

causal attributions; patients; non patients; myocardial infarction; actor observer differences, 32132

child language; speech ambiguity; language acquisition; linguistic categories; inter-observer reliability; fuzzy logic, 10215

communicative behaviors; unimodal communication; bimodal communication; focal condition; auditory behavior; visual domain; attention of observers, 18496

distant intentionality; staring; parapsychology; psychophysiological variables; electrodermal activity; direct mental interaction, 30954

grassland bird; species detection; terrestrial birds; bird observers; detection errors; recognition errors, 6432

health; sickness; observer ratings; observer-rated health; self-rated health; mortality; prognostication, 2266

information processing; lifeguards scanning; decision making, 6580

neuropsychological assessment; third party observer; negative impact; ethical issues, 30474

probability matching; accuracy maximization; optimal classifier; perceptual categorization, 18256

social phobia; observer perspective; cognitive model; impression formation; social performance; anxiety, 1225

virtual environment; apparent motion; experiences; stimuli; observer bias; depth, 30608

visual perception; curved surfaces; three dimensional distances, 18292

Observers—Chapters
Trained third-party presence during forensic neuropsychological evaluations, 3217

Obsessions—Serials
cognitive therapy; obsessive-compulsive disorder; obsessions, 35443

death anxiety; death obsession, 34809

disgust sensitivity; health anxiety; anxiety; obsessions; fear of death; fear of contamination; obsessiveness, 7951

ex-convict; obsessive artist; brain hemorrhage; personality change, 32150

gambling problems; gambling dependence; obsessive passion; cognitive states; affective states; harmonious passion, 35009

illness intrusions; obsessional intrusions; obsessive intrusive thought; worries; anxiety; thought disturbances; coping behavior, 24448

neutralization; obsessional problems; obsessive compulsive disorder, 7943

obsessions; neutral thoughts; obsession like thoughts; thought suppression; obsessive compulsive disorder, 24418

obsessive-compulsive disorder; intrusive thoughts; contamination fears; obsessions; cognitive-behavioural model; OCD; appraisal, 25740

obsessive-compulsive disorders; psychiatric disease; schizophrenia; clomipramine; selective serotonin reuptake inhibitors; obsessions; compulsive behavior; psychodynamics; therapeutic perspective, 29373

obsessive-compulsive symptoms; attention deficit; mild mental retardation; risperidone treatment; aggression; children; chronic tic disorder; adverse effects, 23238

Obsessions—Serials

orthorexia nervosa; diagnostic proceeding; prevalence; eating behavior; obsessive-compulsive personality; eating disorder; healthy eating behaviour pattern, 32052
private self-consciousness; need for cognition; locus of control; obsessive thinking; internal state awareness; self reflectiveness; Iran; US, 31570
psychometrics; Obsessive Beliefs Inventory; Interpretations of Intrusions Inventory; obsessive compulsive disorder; generalized anxiety disorder; test reliability, 24277
Transcendental Meditation; autonomic nervous system; compulsive behavior; obsessive thoughts; frontal lobes; prison inmates; rehabilitation, 8904
Obsessive Compulsive Disorder—Serials
academic performance; obsessive-compulsive features; college students, 22588
acute & long-term treatment; prevention of relapse; obsessive-compulsive disorder; paroxetine; safety; efficacy, 2172
anxiety disorder; diabetes; cognitive intervention; panic; chronic medical problems; safety behavior, 20174
anxiety disorders; pervasive developmental disorder; obsessive-compulsive disorder; hyperactivity disorder; basal ganglia pathology; hypersexuality; aggressiveness; neurotheological behaviors, 10688
anxiety symptoms; Japanese children; German children; separation anxiety; social phobia; obsessive compulsive disorder, 22579
attachment security; parental bonding; adults; obsessive-compulsive disorder; depressed out-patients, 28775
attention-deficit hyperactivity disorder; obsessive compulsive disorder; comorbidity; empirically derived taxonomy, 25458
autism; etiology; lay beliefs; obsessive-compulsive disorder; health knowledge; health beliefs, 10654
behavioral psychotherapy; pediatric autoimmune neuropsychiatric disorder; obsessive compulsive disorder; streptococcal infections; treatment effectiveness evaluation; PANDAS, 29275
brain serotonin transporter; obsessive-compulsive disorder; patients; transporter availability; central serotonergic system; pathophysiology, 7941
cerebral blood flow; obsessive compulsive disorder; behavior therapy; OCD patients; neuroimaging; obsessive-compulsive disorder; treatment-refractory patients, 2056
CHARGE Syndrome; challenging behaviors; autistic disorder; attention deficit hyperactivity disorder; obsessive-compulsive disorder; Tourette syndrome; deaf-blindness, 25466
Children's Yale-Brown Obsessive Compulsive Scale; item structure; outpatients, 6309
chromosomal abnormality; missing Y chromosome; Asperger syndrome; obsessive-compulsive disorder; electroconvulsive therapy; mental retardation; major depression; karyotype; mosaicism, 28551
clinical management; obsessive-compulsive-bipolar disorder; comorbidity, 28778
clopazine; obsessive-compulsive symptoms; schizophrenia patients; serotonin reuptake inhibitors, 23291
cognitive impairments; Cambridge Neuropsychological Test Automated Battery; neuropsychological performances; obsessive-compulsive disorder, 17044
cognitive impairments; Cambridge Neuropsychological Test Automated Battery; neuropsychological performances; obsessive-compulsive disorder, 17073
cognitive therapy; obsessive-compulsive disorder; obsessions, 35443
cognitive-behavioral family treatment; childhood obsessive compulsive disorder; individual therapy; group therapy; symptom severity; distress; parents; siblings; family functioning; accommodation, 11322
comorbidity; bipolar disorder; obsessive compulsive disorder; children; adolescents, 16384
comorbidity; schizophrenia; obsessive compulsive disorder; symptoms, 10718
comparative neuropsychological function; obsessive-compulsive disorder & symptoms; schizophrenia; orbitofrontal dysfunction function, 25689
compulsive behavior; symmetry; obsessive-compulsive disorder; psychometrics; test validity; self-report measurement, 30462
conditional associative learning; verbal stimuli; obsessive-compulsive disorder; anorexia nervosa; bulimia nervosa; neuropsychological functioning; functional neuroimaging; compulsive behavior; threat, 19274
contamination fear; obsessive-compulsive symptoms; behavioral avoidance tests; undergraduate students; disgust, 18142
declarative learning; motor procedural learning; subclinical obsessive-compulsive symptoms; executive functioning; spatial problem solving; cognitive procedural learning, 4662
depressive symptoms; major depressive disorder; anxiety symptoms; obsessive compulsive disorder; Hamilton Depression Rating Scale; dimensional structure, 18135

Volume 91 SUBJECT INDEX

dopaminergic system; obsessive-compulsive disorder; basal ganglia; dopamine D2 receptor binding, 25706
emotion recognition deficits; body dysmorphic disorder; obsessive compulsive disorder; facial expressions, 16378
emotional stroop interference; obsessive-compulsive disorder; depression; anxiety; mood congruency; attentional bias, 25730
episodic memory impairment; bipolar disorder; obsessive-compulsive disorder; memory strategies, 28590
escitalopram treatment; transvestic fetishism; serotonergic neurons; obsessive compulsive disorder, 35561
escitalopram; trichotillomania; impulse disorder; obsessive compulsive disorder; selective serotonin reuptake inhibitors, 32425
executive function; schizophrenia spectrum disorders; obsessive symptoms; compulsive symptoms; cognitive deficits; social function; negative symptoms; attention, 19472
executive functioning speed; executive functioning accuracy; obsessive compulsive disorder; frontostriatal circuitry; psychomotor speed, 21166
facial movements; obsessive-compulsive disorder; patients; motor function; kinematic analysis; emotional responses; humor; sertraline; drug therapy, 8529
genetic & environmental contributions; Child Behavior Checklist Obsessive-Compulsive Scale; obsessive compulsive behavior; twin samples; models; cross cultural differences, 31807
guilt; obsessive compulsive disorder; responsibility, 31812
health care seeking behavior; obsessive-compulsive disorder; predictors, 28757
heart rate variability; panic disorder; obsessive-compulsive disorder; autonomous nervous system, 13671
impulsivity; obsessive-compulsive disorder; anxiety disorders; panic disorder; social phobia; tics, 13674
inhibitory control; obsessive-compulsive disorder; cognitive disinhibition, 22582
limbic paroxysmal; frontotemporal paroxysmal rhythmic activity; magnetoencephalography; obsessive-compulsive disorder; diagnosis; magnetic resonance imaging; electrocardiograms; electrocorticograms, 19506
long term course; obsessive-compulsive disorder; juvenile disorders, 22593
magical thinking; obsessive compulsive disorder; magical ideation, 22578
magnetic resonance imaging; magnetic resonance imaging scans; obsessive-compulsive disorder; parahippocampal region; disgust inducing pictures; brain activation, 1539
major depression; obsessive-compulsive disorder; bilateral pulmonary emboli; coronary artery disease; catatonia; risk factor; hematological pathology; heparin; heparinoids, 28558
masculine gender role stress; coping behavior; human males; social fears; phobia; obsessive compulsive behavior, 19508
medial thalamic choline; pediatric patients; obsessive-compulsive disorder; major depression; pathogenesis, 7946
mindfulness-based treatment; obsessive-compulsive disorder; quality of life, 35243
musical hallucinations; psychotic outpatients; nonpsychotic outpatients; hearing abnormalities; obsessive-compulsive disorder, 20085
neural correlates; washing; checking; hoarding; symptoms; obsessive compulsive disorder, 31813
neural response patterns; emotive stimuli; symptom dimensions; obsessive-compulsive disorder; neurobiological markers; neural system abnormalities; emotion perception, 34919
neurochemical analyses; pediatric obsessive-compulsive disorder; cognitive-behavioral therapy; symptom severity, 5192
neurological abnormalities; schizophrenia; obsessive-compulsive disorder; pathophysiological overlap, 25523
neurological soft signs; nonverbal memory performance; obsessive-compulsive disorder, 4663
neuropsychological dysfunction; obsessive-compulsive disorder; frontal lobe; basal ganglia; cognitive impairment, 16455
neuropsychology; obsessive compulsive disorder; anorexia nervosa; decision making; cognitive impairment; restricting type; binge purge type, 35134
neutralization; obsessional problems; obsessive compulsive disorder, 7943
nonparaphilic sexual addictions; obsessive-compulsive disorder; repetitive sexual thoughts, 19630
obsessive compulsive disorder; body dysmorphic disorder; insight; global insight; symptom severity; adult outpatients, 10702
obsessive compulsive disorder; children; clinical profile; client characteristics, 34899
obsessive compulsive disorder; comorbid social phobia; diagnostic assessment; clinical treatment; depressive thought; group psychotherapy; cognitive behavioral treatment; medication approaches, 23104

Obsessive Compulsive Disorder—Serials

obsessive compulsive disorder; comorbidity based subgroups; psychiatric disorders; OCD spectrum disorders; psychopathologic classes; clinical characteristics; first-degree relatives, 22590
obsessive compulsive disorder; comorbidity based subgroups; psychiatric disorders; OCD spectrum disorders; psychopathologic classes; clinical characteristics; first-degree relatives, 22576
obsessive compulsive disorder; disease onset, 25694
obsessive compulsive disorder; emotional attachment; cognitive distortion; hoarding; object-affect fusion; cognitive behavioral theories, 7932
obsessive compulsive disorder; empirically supported treatments; panic disorder; social anxiety; cognitive-behavioral therapies; dissemination; practitioners, 34905
obsessive compulsive disorder; autoimmune mechanisms; children; adolescents; development; phenotypes, 13680
obsessive compulsive disorder; neurobiology; neuropathology; cognitive impairment; neuroimaging, 19507
obsessive compulsive disorder; OCD; Americans with Disabilities Act; ADA; invisible disability; working women; workplace anxiety; anxiety disorder; mental disorder; disability services, 1532
obsessive compulsive disorder; riluzole; major depressive disorder; treatment, 17037
obsessive compulsive disorder; serotonergic parameters; serotonin reuptake inhibitor treatment; clinical improvement, 11481
obsessive compulsive disorder; serotonin reuptake inhibitors; paroxetine; venlafaxine; drug dosages; antidepressants; drug efficacy; drug therapy; switch trial, 17039
obsessive compulsive disorder; symptom provocation; pharmacological treatment; individual differences; brain markers; anterior temporal cortex; reactivity; single photon emission computed tomography, 2170
obsessive compulsive disorder; symptoms; behavioral treatment outcome; family approaches; parental attachment; expressed emotions; family intervention, 20217
obsessive compulsive disorder; treatment outcome; initial presentation; naturalistic treatment; exposure; ritual prevention; outpatients; African Americans; Caribbean Americans; Caucasian Americans, 8439
obsessive compulsive scale; age & sex differences; undergraduate college students, 13678
obsessive personality disorder; contamination fear; disgust sensitivity; disgust elicitor; contagion; score prediction; measurement; contamination obsession; washing compulsion; disgust emotion scale, 16457
obsessive-compulsive checkers; confidence; non-anxious; panic disorder, 31796
obsessive-compulsive disorder subtypes; neuropsychological functioning, 31814
obsessive-compulsive disorder; anthropological perspectives; Balinese culture; symptoms, 1526
obsessive-compulsive disorder; attentional deficits; adaptive mechanism; inhibition of return; visual search, 10832
obsessive-compulsive disorder; axis-II disorders; personality disorders; comorbidity; anxiety; Turkish populations, 28582
obsessive-compulsive disorder; clinical heterogeneity; biological heterogeneity; monoamine oxidase; gene polymorphisms; gender differences; genetics, 19542
obsessive-compulsive disorder; cognitive-behavioral model; family perspective; family approaches; anxiety disorders; panic disorder, 20113
obsessive-compulsive disorder; cognitive-behavioral therapy; symptom presentation; therapeutic outcomes; patients; categorization; mental compulsions; treatment response; symptom categories, 2029
obsessive-compulsive disorder; comorbidity; personality disorder; clinical severity; anxiety disorders; outpatients, 25705
obsessive-compulsive disorder; comorbidity; social phobia; panic disorder; trichotillomania; skin picking; eating disorders, 7762
obsessive-compulsive disorder; digitizing tablet; handwriting; kinematic analysis; sertraline, 12621
obsessive-compulsive disorder; eicosapentaenoic acid; resistant depression; affective disorders; omega-3 fatty acids; treatment resistance, 20327
obsessive-compulsive disorder; epilepsy; surgery; comorbidity; mesial temporal lobe, 13540
obsessive-compulsive disorder; functional impairment; psychiatric illness; prognosis; comorbidity, 31825
obsessive-compulsive disorder; human female; anxiety disorder, 13681
obsessive-compulsive disorder; intrusive thoughts; contamination fears; obsessions; cognitive-behavioral model; OCD; appraisal, 25740
obsessive-compulsive disorder; memory biases; threat-relevant information; anxiety disorders; attention, 31820

- obsessive-compulsive disorder; neuropsychiatric disorder comorbidity, 25723
- obsessive-compulsive disorder; neuropsychological model; security motivation system; feeling of knowing; goal attainment; termination signal; neural underpinnings, 10836
- obsessive-compulsive disorder; obsessive-compulsive symptoms; depression symptoms; university students; beliefs, 25712
- obsessive-compulsive disorder; paroxetine; drug safety; drug efficacy; treatment effectiveness evaluation, 35541
- obsessive-compulsive disorder; paroxetine; stuttering, 5267
- obsessive-compulsive disorder; pathological gambling; dysfunctional cognitions; panic disorder, 12397
- obsessive-compulsive disorder; perseverative behaviour; uncertainty; memory, 31831
- obsessive-compulsive disorder; posttraumatic stress disorder; symptoms; comorbidity; treatment outcomes, 1517
- obsessive-compulsive disorder; procedural memory; frontotriangular abnormality; learning ability; declarative memory, 34923
- obsessive-compulsive disorder; selective attention; anxiety; Stroop Task; information processing, 7925
- obsessive-compulsive disorder; sudden onset; phenomenological features; collecting compulsions; comorbid depression; therapeutic response, 22504
- obsessive-compulsive disorder; symptom-based taxonomy; subgroup taxonomy, 25698
- obsessive-compulsive disorder; symptoms; dissociation, 25748
- obsessive-compulsive disorder; task switching; backward inhibition, 31817
- obsessive-compulsive disorder; thought action fusion; magical thinking; undergraduate sample, 25710

union management solutions; injury prevention; workplace injuries; older workers; safety strategies; cost-effectiveness; unions; management, 20897

work-related stress; workplace safety; working conditions; fatigue; shiftwork, 36413

workplace safety performance; conscientiousness; cognitive failure; workplace accidents; working conditions; safety behavior; individual differences, 2956

worksite cancer prevention programs; attrition; active vs passive recruitment strategies, 12248

worksite cancer prevention programs; attrition; active vs passive recruitment strategies, 12243

Occupational Safety—Books

The psychology of workplace safety, 2957

Occupational Safety—Chapters

Alcohol, drugs, and workplace safety outcomes: A view from a general model of employee substance use and productivity, 2959

Common themes and future directions, 2960

Contingent work and occupational safety, 2966

The effect of teamwork on safety processes and outcomes, 2968

Ensuring healthy working lives, 20445

Health implications of workplace diversity, 2889

High-performance work systems and occupational safety, 2969

Job insecurity: Exploring a new threat to employee safety, 2965

Labor unions and occupational safety: Conflict and cooperation, 2913

Occupational injuries: Setting the stage, 2958

Pay and benefits: The role of compensation systems in workplace safety, 2967

Returning to work after occupational injury, 2962

The role of leadership in safety, 2961

The role of training in promoting workplace safety and health, 2903

Safety climate and safety at work, 2964

Young workers' occupational safety, 2963

Occupational Status—Serials

internal occupation status; foodservice employees; personnel feelings; self-esteem; Air Force foodservice training; Air Force Personnel, 12247

job termination; disappointment; high-status workers; re-employment; outplacement; job losers; bystanders, 36344

occupational status; psychological dispositions; limitation perception, 9095

occupational stratification; life course; occupational standing; socioeconomic status; age advancement; racial differences; gender differences; demographic groups, 13289

posttraumatic stress disorder; demographic characteristics; functional status; veterans; symptomatology; primary care, 34914

Occupational Stress—Serials

alpha bias; beta bias; enhancement hypothesis; work/family conflict; gender differences; male-dominated structures; role conflict; well-being; work stress; family stress; work/family, 22244

Alzheimer's disease; nurses; caregiving; burnout risk; psychotogenic factors; nursing staff; psychological strengths; psychopathogenesis, 23726

American culture; work stress; cultural assumptions; values; beliefs; stress-related illnesses, 20934

balance abilities; postural balance; age differences; job physical demands; functional balance, 17899

Black middle class; mental health; work stress; survival strategies; African Americans; social rejection; token stress; work environment; social position, 19032

blood pressure; mood; work; leisure; overtime; job stress, 30194

blood pressure; socioeconomic status; occupational status; job strain; male workers; income level; educational level, 17896

book review introductions, 32222

Brazilian nurses; cardiovascular nurses; coping methods; stress sources; hospital settings; ways of coping; work conditions; job stress; organizational strategies, 35992

Brazilian scientific community; growing competition; stress; burnout; contributions to science; university level science students; science professors; post-doctoral fellows, 14634

burnout levels; professional life; private life; work conditions; state hospitals; education level; economic hardships; nurses, 8915

burnout symptoms; employee job conditions; personal resources; psychological health; employee rehabilitation intervention, 30186

burnout; dental research assistants; emotional exhaustion; personal accomplishment, 36010

burnout; intersubjectivity; psychoanalytical study; Lacanian perspective, 17850

burnout; job satisfaction; workplace counselors; dual client relationships; organizational knowledge; job challenge; role stressors, 20746

burnout; nursing personnel; work-related factors; psychiatric hospitals, 12039

burnout; physiological correlates; women; social support; job strain, 1767

business related tensions; business owning couples; emotionally focused therapy; family business conflict; work family life balance, 35456

business tensions; farm couples; profit; family business; priorities; family; wives; husbands, 30179

business trips; travel stress; stress management; coping strategies; business travelers; family; organization; cross cultural differences, 20938

call centers; optimism; job stress; job performance; job satisfaction; personal orientation; employee turnover; job absenteeism; work conflict, 24005

call centres; computer technology; occupational stress; employee attitudes; organizational structure; employee involvement; work teams; job satisfaction; organizational commitment, 24006

cardiovascular reactivity; blood pressure; hypertension; work stress, 32098

case writing; teacher change; case writing process; teachers; educational innovation; cases; power; integration of theory/practice, 33035

clinical psychologists; occupational stress; stress management; coping strategies; burnout; job satisfaction; intervention, 26836

compassion fatigue; burnout; clergy; religious leaders; September 11th terrorist attacks; volunteers, 7522

compassion fatigue; vicarious traumatization; secondary traumatic stress, 32949

construct validity; negative affectivity measures; job stressors, 18083

consultant psychiatrists; working patterns; staff retention; occupational pressure; working styles, 32952

coping; social support; psychological distress; job stress; life stress; police officers; stress management, 24139

cortisol awakening response; gender differences; socioeconomic status; work stress; happiness; sleep quality; health behavior; waking time, 15691

counselor education; assistant professors; job satisfaction; job stress; job connectedness, 32951

counselor stamina; mental health care environment; salutary perspective; health-promoting perspective; clinical practice; burnout prevention, 32953

customer aggression; emotion; anger; call center employees; emotional exhaustion; burnout; occupational stress; employee absence, 24001

daily life; spouses; working conditions; feelings; job stress, 30201

dementia patients; subcortical vascular dementia; self-protective behaviors; dementia patients; caregiving; caregivers burnout; nurses; long-distance caregiving; memory loss, 11294

depressive symptoms; social workers; professional consequences; depression; personal variables; occupational variables, 16416

dialectic; contradiction; double bind; employee reactions; organizational tension; correctional facilities; organizational contradiction, 33290

doctor-patient relationship; burnout syndrome; negative stress; medical care, 14595

effort-reward imbalance; work overcommitment; cortisol; blood pressure; biological correlates; work stress, 24769

emotional demands; quantitative demands; human service employees; Sweden; job control; social support; job demands; job burnout; moderating effects, 14774

emotional dissonance; emotional exhaustion; cabin attendants; depersonalization; human service burnout, 17842

emotional exhaustion; conscientiousness; job performance; call center customer service representatives; service quality; call volume, 30202

emotional exhaustion; positive orientation; active coping strategies; government employees; task complexity; resource levels, 9099

emotional intelligence; training; management performance; improved health; stress; managers, 6020

employees difficulties; stress; computer software; technology; employee options; work environment; employers; technostress; stress reduction, 36351

fairness perceptions; innovative behavior; public health organizations; stress reactions; distributive fairness; procedural fairness; burnout; anxiety, 20931

family-responsive interventions; perceived organizational support; perceived supervisor support; work-family conflict; psychological strain; managers, 11729

functional somatic syndromes; psychological distress; job stress; personality; work demands; job control; somatization; alexithymia; nurses, 5793

hardiness; supervisor support; group cohesion; job stress; job satisfaction predictors, 12295

hardiness; teacher stress; burnout; Hong Kong; Chinese prospective teachers; stress resilience; stress vulnerability; emotional exhaustion; personal accomplishment; depersonalization, 17591

home to work conflict; work qualities; emotional distress; anxiety; depression; sex differences; gender differences, 14773

incomplete recovery; need for recovery; work related fatigue; sickness absence; stressful work conditions; health problem development; truck drivers, 2915

information; self efficacy; adjustment; client engagement; job satisfaction; psychological well being; organizational change; government employees; stress, 9100

Israel; stress; Americans; burnout levels; threat; existential perspective; life meaning; meaningfulness; cross-cultural differences; teachers; nurses; managers; occupational groups comparison, 27084

job attitudes; job satisfaction; stress; organizational commitment; two-job holders, 12299

job burnout; stress; employee health; non-standard work; Canadian workers; psychosomatic health problems, 36337

job characteristics; correctional staff members; job stress; supervision; job variety; job autonomy; job satisfaction, 33283

job demands; job control; burnout dimensions; work self-determination; emotional exhaustion; personal accomplishment; depersonalization; Job Demand-Control model, 30183

job demands; job resources; burnout; job involvement; health problems; employee turnover, 24003

job perceptions; job attitudes; positive affect; negative affect; job satisfaction; organizational commitment; turnover intentions; job burnout, 2919

job satisfaction; occupational health; stress factors; management by objectives; MBO; management behaviour; teleworkers; task-related stressors; non task-related stressors; telework design, 17546

job satisfaction; role ambiguity; role conflict; role stress; work-family conflict; gender roles; work related role stress, 14763

job stress severity; emotional exhaustion; burnout symptoms; depersonalization; medical practitioners; South Africa, 12048

job stress; burnout; job satisfaction; intellectual disabilities, 32035

job stress; family stress; Chinese working women; blood pressure; psychosomatic symptoms; psychometric properties; test validity, 30516

job stress; health care workers; sickness absence; job demand-control-support model; decision latitude; absenteeism; social support, 12057

job stress; job performance; Chinese work values; organizational commitment, 20936

job stress; job specific stress; juvenile correctional officers; job related stressors; supervisors, 6213

The analysis of work in the 20th and 21st centuries, 5984

Contemporary employment in psychology and future trends, 2672

Work design: Learning from the past and mapping a new terrain, 5982

Ocular Accommodation—Serials

accommodation; age; presbyopic onset; monocular components; infrared optometer, 27465

accommodative function; ocular movement; accommodative amplitude; accommodative response; saccadic movements; eye movement; age group; optometric tests, 15959

human eye; retinal periphery; foveal region; blur detection; depth-of-focus; retinal periphery; peripheral vision, 33736

physical activity; gaze control; posture stabilization; elderly people; ageing; balance regulation; falling; sporting activities; vestibulospinal reflex; ocular movements, 3343

Ocular Dominance—Serials

acetylcholine; visual cortex; muscarinic receptor; nicotinic receptor; neuronal plasticity; ocular dominance, 566

dominance in binocular rivalry; attention; object-based attention; object-based selection; awareness; stimuli discrimination, 24367

eye movement responses; healthy participants; movement amplitudes; response methods; number magnitude; manual response; spatial numerical association of response codes, 18280

molecular basis; plasticity; visual cortex; visual cortical neurons; intercellular communication; cortical circuits, 6841

reverse lateralization; visual discriminative abilities; European starling; *Sturmus vulgaris*; monocular occlusion, 21703

Ocular Fixation [See Eye Fixation]

Oculomotor Nerve [See Cranial Nerves]

Oculomotor Response [See Eye Movements]

Odor Aversion Conditioning [See Aversion Conditioning]

Odor Discrimination—Serials

ambient scent; environmental psychology; retail environment; product quality; consumer emotion; consumer cognition; retail environment; spending behavior; approach behavior; avoidance behavior, 3014

aquatic organisms; odour intermittency; chemotaxis; orientation behavior; crayfish, 6714

behavioral responses; event timing; aversive conditioning; odor perception; avoidance conditioning; fruitfly, 33939

body odors; males; females; gray short-tailed opossums; intraspecific communication, 6753

Braconid wasps; hymenopteran parasitoids; complex odor bouquets; associative learning; odor perception; parasitoid host location, 15377

brain activation; odors; primary olfactory areas; elderly subjects; olfactory function; olfactory deficits; retronasal olfactory stimulation; olfactory projections; olfactory processing, 3609

classical conditioning procedure; bumble bees; olfactory processing; odorants; proboscis extension; linalool; phenylacetaldehyde; discriminative task, 27622

context-dependent olfactory learning; *Gryllus bimaculatus*; crickets; odor preference; conditioned stimulus; unconditioned stimulus; illumination; dark; light conditions, 24570

differential processing; retronasal stimulation; stimulus concentration; odor concentrations; suprathreshold odor; olfactory stimuli; intensity ratings, 18267

discriminability; odour perception; perceptual learning, 30585

ethanol ingestion; odor detection threshold; olfactory function; odor discrimination; odor memory, 15790

facial wiping; rat fetus; chemosensory stimulus; wiping response; lemon odor infusion, 21411

foraging behaviour; house mice; predator odours; predator habitat; *Mus domesticus*; predation cues, 21480

glass shape; wine aroma; perception of wine odors, 12580

intensity modulation; olfactory acuity; mice, 6646

item-response theory; outpatients; schizophrenia; standard error range; ability levels; moderate impairment detection; test; University of Pennsylvania Smell Identification Test; diagnostic utility, 19478

low level sensory stimuli; tactile stimulus; restlessness; motor activity; workload; odor; vigilance task, 33664

mammalian olfactory system; olfactory neurons; olfactory receptors; olfactory genes; olfactory protein; odor identity; olfactory bulb, 9856

maternal separation; postnatal stress; maternal novel odor exposure; standard rearing; mice; clean bedding; corticosterone, 21792

Odor Discrimination—Serials

mice; vomeronasal organ; major histocompatibility complex genes; immune function; discrimination of odor types; pheromones; lesions, 34118
MRI: olfactory function; odor threshold; odor discrimination; morphology; olfactory sulcus, 6481
musical activity patterns; olfactory discrimination; rats; odors; iso-intensive straight-chain aldehydes; neurophysiology, 7097
neural mechanisms; recognition of familiar individuals; outcome of brief aggressive encounters; brain regions; odor cues of familiar winner; male golden hamsters, 34039
novel odor; food discrimination; mammalian species; social influences; tufted capuchins; food preference; olfactory cues; familiar odor; cebus apella, 21456
odor perception; local inhibition; sensory systems; olfactory bulb; inhibitory processes, 33691
olfactory discrimination; odor discrimination; olfactory processing; dopamine receptors; reward associations; discrimination learning; rats; cortical evoked potentials, 12902
olfactory receptor cells; odorants; electrical signals; odor molecules; spike encoding; ciliary surface; receptor protein; action potentials, 7065
olfactory recognition; burrow olfactory signature; blue petals; odour cues, 24579
olfactory sensitivity; aliphatic esters; spider monkeys; ethyl acetate; n-octyl acetate; odorants, 7248
olfactory sensitivity; learning; cognition; young male Wistar rats; older rats; age; odor discrimination, 24569
olfactory system; null mutation; vomeronasal organ projection pathway; male odors; aromatase gene; neuronal Fos-immunoreactivity; amygdala; sensory neurons, 15442
olfactory threshold; glass sniff bottles; plastic squeeze bottles; phenyl ethyl alcohol odor; odor detection; presentation method, 33702
partner preference; receptive females; olfactory preference; feminine sexual behavior; testosterone propionate; estradiol benzoate; progesterone; noncopulating male rats, 3831
primer effects; conspecific odors; house mice; reproductive activities; reproductive organs; neuroendocrinological changes; testosterone; estrogen; prolactin; spermatogenesis; mice, 34110
rats; prelimbic-infralimbic areas; task switching; acquisition; reversal learning; odor discrimination; place discrimination; bupivacaine; performance; behavioral flexibility; task difficulty, 614
recognition memory; memory span; memory-impaired patients; hippocampal lesions; odor recognition; olfactory memory; amnesic patients; brain damage; animal models; rats, 6608
recognition memory; memory span; memory-impaired patients; hippocampal lesions; odor recognition; olfactory memory; amnesic patients; brain damage; animal models; rats, 15329
sensitive-period odor learning; olfactory bulb; odor preference acquisitions; olfactory neural changes; corticosterone levels; exogenous CORT; endogenous corticosterone; fear learning, 18669
smell identification deficits; olfaction; schizophrenia; Trail Making Test; cognitive function; cognitive processing speed, 34871
smell identification test; deficit schizophrenia; non-deficit schizophrenia; University of Pennsylvania Smell Identification Test, 144
speed; accuracy; olfactory perception; rats; odor discriminations, 7109
transitivity; flexibility; conjunctive representations; hippocampus; odor discrimination; rats; memory storage system; response, 18620
unifilar olfactory identification; antipsychotic-free patients; first-episode schizophrenia; olfactory deficits, 22565
urinary odors; superior cervical ganglionectomy; olfactory epithelium; sex steroids; habituation task; testosterone; gonadectomized mice, 609
vertebrate olfactory system; olfactory neurons; brain targets; molecular and functional maps; odorant receptors; olfactory map circuitry; mice, 7003

Odor Discrimination—Chapters
Aging and memory for odors, 4120
Odor-genes covariance and genetic relatedness assessments: Rethinking odor-based recognition mechanisms in rodents, 21526

Oedipal Complex—Serials
Archilles Complex; preadolescent trauma; rage; repetition; Freud; neurotic patients; oedipal stage of development; sadism; aggression; psychoanalytic treatment; Jeffrey Dahmer, 31628
children; gay & lesbian parents; oedipal development; triangulation; triadic object relationships; adult sexuality; sexual orientation; conscience; inclusion; immutability; psychosexual development, 13233

daughter; father; seduction; oedipal phase; mother; love; Sigmund Freud; psychoanalytic theory; father's active role; mother-daughter bond; Demeter-Persephone myth, 7729
essay writing anxiety; writing & presenting; uncontained aggression; sexualized aggression; oedipal issues; writing blocks; transitional space, 1291
female oedipal complex; aggression; competitive aggression; triangular conflicts; inhibition; object relationships; mothers; sexuality; mother-daughter relationships, 7727
Franklin's Tale; power relations; desire structure; Chaucer's tales; narratives; psychoanalytic theory; desire model; homosocial desire; oedipal resolution, 4013
interaction point; psyches; patients; analysts; mental activity; therapeutic process; psychoanalysis; oedipal conflict, 35486
oedipal fantasy; politics; war; America; family dynamics, 10410
oedipal issues; couples psychotherapy; couples; enactment; shame; collusion; psychotherapeutic processes; wipe out factor; therapists; cotherapists; conjoint therapy, 5227
Oedipus complex; developmental stage; sexual orientation; transitional phase; love object choice; romantic perfection; intimacy; emotional factors; erotic masochism; transference-countertransference, 34740
Oedipus complex; developmental stage; sexual orientation; transitional phase; love object choice; romantic perfection; intimacy; emotional factors; erotic masochism; transference-countertransference, 34741
Oedipus complex; family dynamics; Freud; childhood; father; theory development; personal experience, 13518
reality; punishment fantasies; internalization; depression; etiology; Oedipus complex; unconscious content; conflict resolution; self-representation, 28532
superego; censorship; ego; Oedipus complex, 25415
The Mirror Stage; theoretical evolution; reflexive recognition; experimental psychology; psychoanalysis; philosophy; theology, 31619

Offenders (Adult) [See Criminals]
Offenders (Juvenile) [See Juvenile Delinquency]
Office Environment [See Working Conditions]
Officers (Commissioned) [See Commissioned Officers]

Offspring [See Also Adult Offspring, Children of Alcoholics, Daughters, Interracial Offspring, Sons]—Serials
assisted reproductive technology; counseling services; children; disclosure issues; reproductive technology clinics, 26572
case management services; offspring; female drug users; case management program; program intensity; mothers, 8733
children; adults with severe mental illness; parent help seeking; service use behavior; mental health problems; epidemiology, 28588
Chinese immigrants; parental expectations; school performance; goal orientation; study habits; adolescent children; internal control beliefs; mastery learning experiences, 9012
clozapine; pregnancy; pregnant patients; developmental problems; psychotic patients; offspring, 17072
confidentiality issues; family secrets; family counseling; minor children; ethical issues; secret disclosure, 14097
dental abnormalities; children; fathers; substance use disorders; prevalence, 31919
depressed mothers; depressed children; treatment outcome; depression; maternal depression; social functioning; risk factors, 16946
divorce process; children's perception; parent's divorce; coping; risk factors; children's divorce stories, 22086
divorce; childhood development; psychosocial development; adolescent development; adult development; love; sexual intimacy; marriage; parenthood, 31368
early-onset depression; late-onset depression; behavioral characteristics; major depressive disorder; offspring; emotional characteristics; emotional problems; behavioral problems, 1441
emotional disclosure; writing task; psychological functioning; physical functioning; children of alcoholics, 10984
environmental effects; alcohol use disorders; genetic risk; genetics; twin study; offspring; risk factors, 10992
epileptic women; offspring; congenital malformations; pregnancies; maternal antiepileptic drugs; serum folate concentrations, 5010
genes; genetic standards; biological programming; marriage; divorce; reproduction; offspring; extramarital affairs, 31351
golden-headed lion tamarins; sexual maturity; sibling rearing; dominant female aggression; contraception; interbirth interval; cooperative rearing; socio-sexual interactions; Callitrichid primates, 6697
HIV-status; HIV/AIDS; injecting drug using parents; psychopathology; social functioning; depression; behavior problems, 19905

Olanzapine—Serials

intervention behavioral outcome; standard care; adolescent children; emotional distress; HIV parents; teenage parents; behavior problems; substance abuse; coping styles; adjustment, 16684
juvenile delinquency; Family Development Research Program; education; low income & low education families; human services resources; support; mothers; children, 34335
marital conflict; representations of family relationships; child perceptions; peer conflict strategies; aggression; parental behavior, 25013
materialist values; parental socialization; adult life; parent child relations; offspring; childhood development; personality development, 10234
maternal care; stress reactivity; offspring; GABA; gamma-aminobutyric acid; pup licking/grooming; arched backed-nursing; prefrontal cortex; amygdala; hippocampus; fear; rats, 7160
maternal depression; child adjustment; child distress; risk factors; emotional problems; behavioral problems; social capital; genetics; psychosocial factors, 31732
mating bias; offspring fitness; sexual selection; genetic quality; antagonistic genes; reproductive ability; *Alloponomobius socius*, 27647
mothers; schizophreniform psychoses; psychotic symptoms; schizophrenia; schizoaffective psychoses; affective psychoses; offspring morbidity; positive symptoms; negative symptoms, 19483
narrative identity; narrative accounts; genetic history; donor-assisted conception; parents' contribution; human rights, 10400
offspring sex; pregnancy outcome; gestation period; embryos; preterm births; unbalanced sex distribution; pre-eclampsia, 22007
parental separation; family transitions; extended families; non-resident parents; parent-children relationship; parent commitment; Irish children, 22073
parricide; battered child syndrome; killing; severe abuse; children; parents; murder; legal defense, 8039
paternal age; maternal age; risk factors; psychosis; offspring; cross cultural differences, 22536
progeny beliefs; religiosity; offspring, 4189
psychopathology; adolescent offspring; prevalence; incidence; bipolar parents, 13609
psychopathology; adolescent offspring; young adult offspring; parents; dysthymic disorder; major depressive disorder; at risk population, 19321
psychotic disorder; cumulative incidence; schizophrenia-spectrum disorder; Axis I disorders; offsprings, 34797
risk for cancer; parents; offspring with schizophrenia, 25626
salivary cortisol levels; adolescent offspring; bipolar disorder; HPA axis, 7823
schizophrenia; mental disorders; avoidant personality disorder; anxiety disorders; at risk population, 28600
social environment; social stress; hormones; female guinea pigs; autonomic & behavioral & limbic-brain systems; offspring; estrogen levels; adult behavior; pre & postnatal periods; masculinization, 455
sperm provision; sperm providers; ambivalence; narratives; donors; recipients; offspring; donor assisted conception, 32548
substance abuse; children; drugs; mothers; caregiver characteristics; risk factors; life experiences; development; school performance; life circumstances; health; alcohol, 10975
teen mothers; parenting; teen offspring; parenting support; parental responsiveness, 31251
temperament characteristics; bipolar offspring; children; adolescents; at risk populations, 4587

Offspring [See Also Adult Offspring, Children of Alcoholics, Daughters, Interracial Offspring, Sons]—Chapters
Maternal drug abuse versus other psychological disturbances: Risks and resilience among children, 4749
Offspring of Alcoholics [See Children of Alcoholics]

Olanzapine—Serials
adolescent patients; olanzapine; neuroleptic drug treatment; schizoaffective disorder; psychotic adolescents; olanzapine treatment; schizophrenia, 14139
animal model; antipsychotic drugs; weight gain; olanzapine; food consumption; gross motor activity; macronutrient choice; rats, 24779
antipsychotic drugs; bipolar disorder; acute psychotic; olanzapine, 14188
antipsychotic drugs; neurogenesis; forebrain; cell generation; neuropsychiatric disorders; olanzapine; haloperidol; prefrontal cortex; striatal complex, 27953
antipsychotic drugs; tardive dyskinesia; receptor affinity; antipsychotic treatment, 23219
antipsychotic medications; preventive strategies; healthy participants; olanzapine; sensory gating, 14133
aripiprazole; olanzapine; schizophrenia; negative symptoms; symptomatology; augmentation, 35524

Volume 91 SUBJECT INDEX

Olanzapine—Serials

bipolar affective disorder; erectile dysfunction; depressive phase; manic episode; olanzapine; lithium therapy, 26381
borderline personality disorder; olanzapine; drug therapy; flexible dosage, 17032
breast milk; olanzapine; breastfeeding; psychotic disorders, 11460
cancer pain management; advanced breast cancer; breast cancer patients; antipsychotic drug; flushing symptoms; sweating symptoms; olanzapine, 17211
childhood disintegrative disorder; pervasive developmental disorders; olanzapine treatment; neurobiochemical dysfunctions, 32449
childhood onset schizophrenia; olanzapine; school age children; assessment of negative and positive symptoms; weight gain, 2212
childhood-onset schizophrenia; olanzapine treatment; psychopathology scores; treatment refractory schizophrenia; side effects; weight gain, 1494
cognitive function; depression; symptom resolution; olanzapine; schizophrenia, 32474
cost analysis; schizoaffective disorder; shorter hospitalization; risperidone; olanzapine, 32431
cost analysis; schizoaffective disorder; shorter hospitalization; risperidone; olanzapine, 32478
diabetes mellitus; olanzapine; antipsychotics; clozapine; glucose dysregulation, 23207
drug dosages; olanzapine; neutropenia; drug side effects; drug therapy; bipolar disorder; major depression with psychotic features, 20319
EEG abnormalities; antipsychotics; quetiapine; olanzapine; haloperidol; schizophrenia; brief psychotic disorder; delusional disorder, 11459
elderly chronic psychotic patients; olanzapine; schizophrenia; schizoaffective disorder; neuroleptic treatment, 26337
elderly patients; schizoaffective disorder; negative symptoms; positive symptoms; olanzapine; risperidone; atypical antipsychotics; extrapyramidal symptoms; hospital inpatients, 5295
famotidine; olanzapine-induced weight gain; first-episode schizophrenia patients; placebo; weight gain, 29367
floxetine administration potentiates; olanzapine; locus coeruleus neuronal activity, 24848
floxetine; olanzapine; synergistic effects; fibroblast growth factor; rat brain, 24827
fluoxetine; mortality rate; geriatric patients; olanzapine; risperidone, 29361
haloperidol; olanzapine; ketamine; brain; regional 2-deoxyglucose uptake; rats, 3888
hyperglycemia; antipsychotics; olanzapine therapy; basic mood; haloperidol; promazine; hyperglycemic remittance; diabetes risk, 17043
hyperglycemia; olanzapine treatment; atypical antipsychotics; glucose; schizophrenic patients, 23271
insulin release; conventional antipsychotics; clozapine; olanzapine; atypical antipsychotics; isolated rat pancreatic islets, 18773
lordosis; neurosteroid; allopregnanolone; 5 α -pregnane-3 α -ol-20-one; sexual receptivity; estrogen; progesterone; psychosis, 3898
maintenance treatment; bipolar disorder; olanzapine; drug therapy; valproate; drug dosages, 32419
mania; hypomania; olanzapine; causal relationship; bipolar manic attacks, 29306
manic symptoms; bipolar disorder; olanzapine; drug therapy, 35584
neonatal dopamine loss; olanzapine treatment; phenylclidine; behavioral sensitization; rats, 24834
nerve growth factor; choline acetyltransferase expression; rat hippocampus; haloperidol; risperidone; olanzapine; spatial learning performance; cholinergic neurons; cognitive function; schizophrenia, 21890
neurocognitive performance; clinical changes; olanzapine; drug therapy; schizophrenia; cognitive ability, 8507
olanzapine distribution; P-glycoprotein tissues; controlling gene; brain access; dose requirements, 18813
olanzapine therapy; paranoid schizophrenia; pericardial effusion; clozapine treatment; flu-like symptoms; cardiac function; respiratory rate; heart rate; pleural effusion, 17153
olanzapine treatment; monosymptomatic hypochondriacal psychosis, 20367
olanzapine; agitation; schizophrenia; dose escalation; schizoaffective disorder, 11565
olanzapine; alcohol craving; DRD4 variable number of tandem repeats polymorphism; VNTR polymorphism; cue elicited craving; social drinking; social drinkers; priming; individual differences, 1156
olanzapine; behavioral disturbances; psychosis; Alzheimer disease, 20312
olanzapine; chronic pain; pain perception; pain control, 14265

olanzapine; clozapine; drug therapy; chronic schizophrenia; cognitive functioning; verbal learning; verbal memory; visual memory; attention; working memory; psychomotor speed, 5343
olanzapine; clozapine; stuttering; drug side effects; psychiatric disorders, 26341
olanzapine; fluoxetine; obsessive-compulsive disorder; antipsychotic drugs; serotonin reuptake inhibitor, 20390
olanzapine; fluphenazine; long term treatment; schizophrenia; schizoaffective disorder; safety; symptoms severity; extrapyramidal symptoms, 13624
olanzapine; haloperidol; quality of life; drug therapy; bipolar mania; acute mania, 11564
olanzapine; hypothermia; bipolar disorder; drug therapy; body temperature, 20283
olanzapine; insulin resistance; glucose metabolism; schizophrenic patients; weight gain, 11484
olanzapine; intellectual disability; self-injurious behavior; aggressive behavior; disruptive behavior; antipsychotic drugs, 5293
olanzapine; obsessive-compulsive symptoms; bipolar disorder; topiramate; compulsive mental acts, 35559
olanzapine; plasma concentration; drug dosage; co-medication; schizophrenic patients; antipsychotic drugs, 23217
olanzapine; risperidone; cognition; schizophrenic patients; cognitive functions, 29348
olanzapine; risperidone; cost evaluation; schizophrenia; drug therapy, 8487
olanzapine; schizophrenia; anxiety, 2189
polyuria; olanzapine overdose; prazepam; borderline personality disorder; diabetes insipidus, 32433
prepulse inhibition; acoustic startle reflex; schizophrenia; olanzapine; haloperidol, 2154
psychosis; drug therapy; risperidone; haloperidol; olanzapine; effect size; treatment outcomes; side effects; child psychiatry, 11558
psychosis; first episode; substance use disorder; alcohol; marijuana; olanzapine; haloperidol; schizoaffective disorder; schizophreniform disorder, 14146
pulmonary embolism; antipsychotic drugs; venous thromboembolism; olanzapine; psychosis; drug side effect, 35533
pyramidal cells; n-methyl-d-aspartate receptors; antipsychotic drugs; medial prefrontal cortex; NMDA; olanzapine; phenylclidine; clozapine; subchronic phenylclidine-induced functional hyperactivity, 13051
risperidone; olanzapine; atypical antipsychotics; psychiatric hospital; schizophrenia; treatment efficacy, 20269
risperidone; olanzapine; cognitive functioning; schizophrenia, 5288
risperidone; olanzapine; positive & negative symptoms; chronic schizophrenia; psychotic disorders; psychosis; older patients; efficacy, 2158
schizophrenia exacerbation; olanzapine; fluvoxamine; drug side effects; drug therapy; drug interactions; polypharmacy, 35515
schizophrenia patients; olanzapine; haloperidol; side effects; treatment-emergent adverse events; extrapyramidal signs; elderly, 20344
schizophrenia; agitation; antipsychotic; intramuscular; olanzapine; haloperidol, 17093
schizophrenia; drug therapy; amisulpride; olanzapine, 20363
schizophrenia; schizoaffective disorder; relapse prevention; olanzapine-treated patients; placebo-controlled trial; placebo-treated patients; double-blind maintenance, 8481
serum adiponectin concentration; treatment; olanzapine; risperidone; glucose metabolism; insulin sensitivity; adiposity; drug therapy, 35576
serum prolactin levels; higher doses; olanzapine; schizophrenia; schizoaffective disorder, 35542
serum prolactin levels; higher doses; olanzapine; schizophrenia; schizoaffective disorder, 35501
serum prolactin levels; higher doses; olanzapine; schizophrenia; schizoaffective disorder, 5298
social cognition; nonverbal communication; schizophrenia patients; olanzapine; treatment, 14159
stress; dopamine; rats; prefrontal cortex; chronic treatment; olanzapine; neuropsychiatric disorders; clozapine; antipsychotic drugs; haloperidol, 18729
tardive dyskinesia; neuroleptics; clozapine; olanzapine; aripiprazole; psychotic symptoms; schizoaffective disorder, 35532
tardive dystonia; atypical neuroleptics; olanzapine; schizophrenia, 23224
treatment efficacy; drug therapy; adjunctive valproate therapy; schizophrenia; hostility; olanzapine therapy, 17057
treatment-resistant schizophrenia; antipsychotic drug combinations; therapeutic option; side effects; drug doses; olanzapine; amisulpride, 17096
treatment-resistant schizophrenia; conventional antipsychotics; olanzapine treatment; double-blind fashion; treatment resistance; clozapine treatment; response criteria; higher doses, 8493

Olfactory Perception—Serials

treatment-resistant schizophrenia; olanzapine; clozapine; treatment-intolerant schizophrenia; side effects, 11469
trichotillomania; olanzapine; drug therapy, 23284
weight change; antipsychotic efficacy; weight loss; excessive weight gain; olanzapine; quetiapine; schizophrenia; schizoaffective disorder; bipolar disorder; major depression; psychosis, 32440
weight gain; long term treatment; olanzapine; outpatients; schizophrenia; schizoaffective disorder; drug therapy, 32441
Olfactory Bulb—Serials
accessory olfactory bulbs; olfactory bulb removal; maternal behavior; virgin rabbits, 24675
axonal projections; olfactory epithelium; olfactory bulb; glomeruli; expressed odorant receptor; gene-targeted mice; glomerular maturation; sensory input, 27808
center-surround inhibition; neurons; sensory processing; olfactory bulb glomeruli; short axon cells; periglomerular cells; odors; mice, 6837
chronic activity wheel running; imipramine; masculine copulatory behavior; olfactory bulbectomy; male rats, 34140
computational model; cholinergic suppression; acetylcholine; olfactory cortex; previously strengthened synapses; information storage process; learning process; self-organized representations, 590
crucian carp; teleost olfactory bulb; functional subdivision; chemical stimulation; neurons; skin extract; medial region; conspecifics, 15510
dopamine overflow; olfactory bulbectomy; rats; behavioral changes; physiological changes; neurochemical changes; depression; affective disorder; ventral striatal dopamine; norepinephrine, 21635
input & output stations; entorhinal cortex; superficial layers; deep layers; lateral division; medial division; hippocampus; subiculum; perirhinal cortex; anatomy; electrophysiology, 9888
male effect; sheep; goats; olfactory systems; luteinizing hormone; vomeronasal organ; anestrus females; sexually active males; synchronized ovulation; pheromonal cue; control of reproduction, 34104
muricidal behavior; locomotion; olfactory bulbectomized rats; glutamatergic function; amygdala; NMDA receptors, 18746
odor perception; local inhibition; sensory systems; olfactory bulb; inhibitory processes, 33691
odorant-evoked patterns; receptor neuron input; mouse olfactory bulb; intrinsic optical signals; spatial patterns, 15596
olfactory bulb; DC signal; olfactory perception; turtles, 12856
sensitive-period odor learning; olfactory bulb; odor preference acquisitions; olfactory neural changes; corticosterone levels; exogenous CORT; endogenous corticosterone; fear learning, 18669
tacrine; physostigmine; spatial working memory deficits; olfactory bulbectomized rats; acetylcholinesterase inhibiting compounds, 34156
urinary odors; superior cervical ganglionectomy; olfactory epithelium; sex steroids; habituation task; testosterone; gonadectomized mice, 609
vertebrate olfactory system; olfactory neurons; brain targets; molecular and functional maps; odorant receptors; olfactory map circuitry; mice, 7003
whole-cell recordings; odor evoked synaptic transmission; olfactory bulb; rats; mitral cells; tuft cells, 21554
Olfactory Evoked Potentials—Serials
circadian rhythm; desensitization; chemosensory event-related potentials; odorous & painful stimuli; adaptation; habituation, 7066
odorant-evoked patterns; receptor neuron input; mouse olfactory bulb; intrinsic optical signals; spatial patterns, 15596
Olfactory Impairment [See Anosmia]
Olfactory Nerve—Serials
D2 receptor; voltage gated calcium channel; quinpirole; nifedipine; olfactory neural receptors; rats, 15696
olfactory discrimination; brain injury severity; closed head injury; olfactory nerves; olfactory cortices; olfactory impairment, 13948
Olfactory Perception [See Also Odor Discrimination, Olfactory Thresholds]—Serials
acetylcholine; olfactory perceptual learning; olfactory system; neural plasticity; cholinergic modulation, 15603
behavioral responses; event timing; aversive conditioning; odor perception; avoidance conditioning; fruitfly, 33939
behavioural responses; *Drosophila melanogaster*; experimental procedures; olfactory perception; taste perception; chemosensory behaviour; genetics, 18445
center-surround inhibition; neurons; sensory processing; olfactory bulb glomeruli; short axon cells; periglomerular cells; odors; mice, 6837
classical conditioning procedure; bumble bees; olfactory processing; odorants; proboscis extension; linalool; phenylacetaldehyde; discriminative task, 27622

Volume 91 SUBJECT INDEX

Olfactory Perception—Serials

context-dependent olfactory learning; *Gryllus bimaculatus*; crickets; odor preference; conditioned stimulus; unconditioned stimulus; illumination; dark; light conditions, 24570

emotional stimuli; brain processes; brain regions; orbitofrontal cortex; neural organization; emotional odors; olfactory stimuli; amygdala; brain response; intensity; pleasantness, 3649

ethanol ingestion; odor detection threshold; olfactory function; odor discrimination; odor memory, 15790

facial expressions; perceptual representations; choice reaction time; emotions; odors; face perception; recognition; happy, 6623

flavor enhancement; snacks intake; pleasantness; food choices; elderly vs young eaters, 3309

hippocampus; event memory; odor reward associations; single training trial; rats, 21441

human sex steroid; androstadienone; autonomic nervous system; moods; olfaction; dose response; sniffing; gender differences, 34119

human sex-steroid; mood; memory; autonomic nervous system function; behavioral contexts; olfactory perception; androstadienone; estradiol; pheromones, 24784

intensity modulation; olfactory acuity; mice, 6646

lavender exposure; rosemary exposure; infants; depressed mothers; non depressed mothers; electroencephalographic activity; infants behavior; odor exposure, 15946

learning deficit; memory deficit; elevated TAU; mutations; mushroom body neurons; microtubule-binding protein accumulation; olfactory perception; *Drosophila*; behavioral plasticity, 24693

mammalian olfactory system; olfactory neurons; olfactory receptors; olfactory genes; olfactory protein; odor identity; olfactory bulb, 9856

maternal experience; olfactory recognition; newborn ewes; parturition; maternal behavior; sheep; lambs; suckling; visual cues; auditory cues, 506

medial amygdala; central amygdala; cat-odor exposure; unconditioned fear; olfactory function; locomotor activity; ibotenic acid lesions; odor-induced fear; cat odor, 18692

memory; olfactory perception; olfaction, 21718

MRI; olfactory function; odor threshold; odor discrimination; morphology; olfactory sulcus, 6481

multiple chemical sensitivity; psychological test performance; chemical exposure; annoyance; mucous membrane; smell intolerance; neurobehavioral performance, 13057

negative feedback regulation; olfactory system; olfactory neurons; olfactory receptors; olfactory genes; DNA region; olfactory bulb; mice, 9887

neurotransmission; olfactory information; olfactory cortex, 7005

non-allergic rhinitis symptoms; self reported prevalence; Stockholm; age; gender; olfactory sense; smoking, 11315

odor learning; oviposition; host location; *Leptopilina boulardi*; parasitism; retention; conditioned response; odor memory; olfactory plasticity, 12725

odor mixture perception; configural properties; elemental properties; binary mixtures; olfactory receptors; odors; rats; citronella; octanol; odor recognition, 456

odorant responsiveness; androstene; amyl acetate; affective impact; interpersonal relationships, 12583

odors; sounds; medically unexplained symptoms; Gulf war veterans, 25453

olfaction; odorant receptors; scents; sensory system; ligands; odors; fruitflies; chemical environment, 30919

olfactory ability; HIV infection; HIV-infected patients; symptomatic HIV; HIV/AIDS; olfactory deficits; AIDS dementia complex, 22870

olfactory ability; HIV infection; HIV-infected patients; symptomatic HIV; HIV/AIDS; olfactory deficits; AIDS dementia complex, 19907

olfactory bulb; DC signal; olfactory perception; turtles, 12856

olfactory cues; individual recognition; urine; lactating female; guinea pigs, 15044

olfactory discrimination; brain injury severity; closed head injury; olfactory nerves; olfactory cortices; olfactory impairment, 13948

olfactory discrimination; honeybees; patterning discriminations; negative patterning; positive patterning; olfactory conditioning; proboscis extension response; bilateral input; olfactory stimulation, 3479

olfactory discrimination; odor discrimination; olfactory processing; dopamine receptors; reward associations; discrimination learning; rats; cortical evoked potentials, 12902

olfactory function; apolipoprotein E; mice; lipids, 21650

olfactory identification; WAIS-R performance; deficit schizophrenia; nondiscrepant schizophrenia; University of Pennsylvania Smell Identification Test; schizophrenic patients, 24276

olfactory marker protein gene; behavioral phenotype; olfactory signal transduction; recombinant adenoviral vector; odorant threshold sensitivity; behavioral function; mice, 21513

olfactory receptor cells; odorants; electrical signals; odor molecules; spike encoding; ciliary surface; receptor protein; action potentials, 7065

olfactory recognition; burrow olfactory signature; blue pellets; odour cues, 24579

olfactory representations; antennal lobe; olfactory sensory neurons; odor responses; molecular genetics; *Drosophila*, 12898

olfactory sensitivity; learning; cognition; young male Wistar rats; older rats; age; odor discrimination, 24569

olfactory motor activity; imagery mimics; sensory stimuli; sensorimotor processes; nasal airflow; perception, 6547

positional information; winds role; pigeons; olfactory navigation; atmospheric trace gases, 18528

postnatal olfactory learning; sucking behavior; infant feeding; oral feeding; mothers; bottle feeding; antenatal olfactory learning, 28054

recognition memory; memory span; memory-impaired patients; hippocampal lesions; odor recognition; olfactory memory; amnesic patients; brain damage; animal models; rats, 15329

recognition memory; memory span; memory-impaired patients; hippocampal lesions; odor recognition; olfactory memory; amnesic patients; brain damage; animal models; rats, 6608

restrained eaters; unrestrained eaters; olfactory food cues; craving; food consumption; eating desire, 3843

selective impairment; fornix-transected rats; sham-operated rats; nonspatial memory; odor-guided task; relational memory; hippocampus, 9842

self-face recognition; visual priming; auditory priming; olfactory priming; brain processes; handedness; stimulation, 33672

sniff magnitude test; University of Pennsylvania Smell Identification Test; nonnative English speakers; children; olfactory function; cognitive abilities; linguistic abilities, 24185

sniffing behavior; Lemur catta; seasonality; sex; rank; olfactory monitoring; genitals, 21478

speed; accuracy; olfactory perception; rats; odor discriminations, 7109

stimulation protocol; odor-taste interactions; functional magnetic resonance imaging, 24373

The Steel Helmet Project; canine olfactory detection; chemical warfare agents; dichlorvos; military working dogs, 6656

unirhinal norms; University of Pennsylvania Smell Identification Test, 15068

urinary volatiles; chemosensory function; prosimian primate; olfactory sensitivity; physiological responses; aging; gray mouse lemur, 27827

verbal context; olfactory perception; olfactory stimulation; odor hedonic perception; natural odors; synthetic odors; source information; hedonic ratings; olfactory evaluations, 3308

vertebrate olfactory system; olfactory neurons; brain targets; molecular and functional maps; odorant receptors; olfactory map circuitry; mice, 7003

vomerolateral duct occlusion; odor perception; human pheromone detection; odor thresholds; androstene; olfactory function, 7215

vomerolateral organ; odorants; signalling; main olfactory epithelium; pheromones; mice; chemosensory functions, 9936

whole-cell recordings; odor evoked synaptic transmission; olfactory bulb; rats; mitral cells; tuft cells, 21554

Olfactory Stimulation—Serials

aquatic organisms; odour intermittency; chemotaxis; orientation behavior; crayfish, 6714

aromatherapy; cancer; research methodology; palliative care; psychological distress; cancer; aromatherapy massage, 15161

associative learning; *Drosophila melanogaster*; classical conditioning; memory; olfactory conditioning; visual learning; spatial learning; male courtship behavior, 18463

Braconid wasps; hymenopteran parasitoids; complex odor bouquets; associative learning; odor perception; parasitoid host location, 15377

brain activation; odors; primary olfactory areas; elderly subjects; olfactory function; olfactory deficits; retronasal olfactory stimulation; olfactory projections; olfactory processing, 3609

conditioning; residual emotionality effects; odor stimuli; predator stimuli; stress; emotion; emotional responses; animal behavior, 9743

crucian carp; teleost olfactory bulb; functional subdivision; chemical stimulation; neurons; skin extract; medial region; conspecifics, 15510

defensive behavior; rapid conditioning; cues; cat odor; rats, 12736

Online Therapy—Serials

differential processing; retronasal stimulation; stimulus concentration; odor concentrations; suprathreshold odor; olfactory stimuli; intensity ratings, 18267

facial expressions; perceptual representations; choice reaction time; emotions; odors; face perception; recognition; happy, 6623

green odor; plasma adrenocorticotrophic hormone; body temperature; stress; rats, 12939

Khmer refugees; panic attacks; odor; catastrophic cognitions; olfactory panic; psychiatric clinic; trauma, 31805

male Mongolian gerbils; newborn male pups; female pups; olfactory control; early parental behavior; pup litter size; sex differences; age differences; mating behavior; mating effort, 490

mucosal activity patterns; olfactory discrimination; rats; odors; iso-intensive straight-chain aldehydes; neurophysiology, 7097

odor-evoked memory; emotional potency; functional magnetic resonance imaging; cues; amygdala; hippocampus, 9939

odorant responsiveness; androstene; amyl acetate; affective impact; interpersonal relationships, 12583

olfactory discrimination; honeybees; patterning discriminations; negative patterning; positive patterning; olfactory conditioning; proboscis extension response; bilateral input; olfactory stimulation, 3479

stimulation protocol; odor-taste interactions; functional magnetic resonance imaging, 24373

trimethylthiazoline; estradiol; progesterone; amygdala; predator odor; stress-induced analgesia; pain sensitivity; ovarietomized rats, 796

verbal context; olfactory perception; olfactory stimulation; odor hedonic perception; natural odors; synthetic odors; source information; hedonic ratings; olfactory evaluations, 3308

visual stimuli; olfactory stimuli; alcohol drinking; beer; mood, 765

Olfactory Thresholds—Serials

differential processing; retronasal stimulation; stimulus concentration; odor concentrations; suprathreshold odor; olfactory stimuli; intensity ratings, 18267

ethanol ingestion; odor detection threshold; olfactory function; odor discrimination; odor memory, 15790

MRI; olfactory function; odor threshold; odor discrimination; morphology; olfactory sulcus, 6481

odorant responsiveness; androstene; amyl acetate; affective impact; interpersonal relationships, 12583

olfactory sensitivity; aliphatic esters; spider monkeys; ethyl acetate; n-octyl acetate; odorants, 7248

olfactory threshold; glass sniff bottles; plastic squeeze bottles; phenyl ethyl alcohol odor; odor detection; presentation method, 33702

sniffing; behavioral arousal; rats; dimethyl disulfide; olfactory threshold; sleeping pups; acetate acid, 18671

The Steel Helmet Project; canine olfactory detection; chemical warfare agents; dichlorvos; military working dogs, 6656

vomerolateral duct occlusion; odor perception; human pheromone detection; odor thresholds; androstene; olfactory function, 7215

Oligophrenia [See Mental Retardation]

Oligophrenia (Phenylpyruvic) [See Phenylketonuria]

Omission Training—Serials

reinforcement omission effect; frustration effect; nonreinforcement; surprising reinforcement; rats, 3491

Omnipotence—Serials

sexual misconduct; clergy; spirituality; sexuality; omnipotence; narcissism; Christianity; Catholicism, 25782

On the Job Training—Serials

posttraining transfer interventions; transfer enhancement; self-efficacy; transfer behavior; nurses; training needs, 35971

pre-registration house officer; general practice; target skills; training; General Medical Council; Trainees; PRHO; psychiatry; general practice, 8944

specific learning processes; managerial decision; intensive learning; decision outcomes; positive outcomes; learning process; managerial decision-making; organizational learning, 20922

On the Job Training—Chapters

Transfer of learning; Evaluating workplace transfer of training techniques, 2904

Online Databases [See Databases]

Online Searching [See Computer Searching]

Online Therapy—Serials

visual cues; rehabilitation counseling; computer-mediated tests; vocational test interpretation; video conferencing; session depth; online counseling, 35850

Asian American males; guidelines; online groups; race; culture; gender; class; sexuality, 5733

cognitive behavior therapy; therapists; computerized self help, 20173

cognitive impairments; traumatic brain injury; assistive technology for cognition intervention; web based interventions, 32486

depression; anxiety disorder; phobias; mental health problems; occupational impairment; interpersonal impairment; cognitive behaviour therapy, 20155

ethical challenges; telepsychiatry; professional ethics; professional liability; informed consent, 36019

ethical considerations; online therapy; potential strengths; face-to-face therapy; research; psychotherapy, 16937

health promotion; online HIV intervention; sexual risk; gays; men who have sex with men; chat-room based intervention; HIV prevention, 35704

Internet based treatment; insomnia, 11628

Internet-based treatment; telephone contact; recurrent headache; cognitive behavior; self help; dropout rates, 14083

internet; physician-consumer relationship; information quality; Alzheimers disease; multiple sclerosis; health information, 23517

male restrictive emotionality; online counseling; face to face counseling; male perceptions, 28503

military health care; telemedicine; military medicine; bandwidth; casualty treatment; communications technology, 8709

online psychosexual therapy; client anonymity; Internet sex therapy, 32273

program development; process evaluation; smoking cessation; web based program; college smokers; behavior change; intervention approaches; formative evaluation, 32768

psychosocial intervention; subjective patient's view; therapeutic alliance; shared decision making, 5668

telehealth; innovations theory; rural program; health care delivery; patient care; professional education; information sharing; health status; telehealth rural telemedicine program, 8726

universal prevention program; at-risk students; female high school students; on-line eating disorder prevention program; motivation, 11755

Onomatopoeia and Images Test [See Projective Personality Measures]

Onset (Disorders)—Serials

adolescent anxiety disorders; prediction; alcohol use; alcohol abuse; alcohol dependence; onset; course, 7774

adolescent development; depression; pituitary gland; magnetic resonance imaging; early onset, 19386

adolescent schizophrenia; first-episode schizophrenia; effectiveness; safety; tolerability; adolescent-onset schizophrenia, 2240

adolescent-onset schizophrenia; neuropsychological correlates; neuropsychological impairment; spatial working memory; cognitive function, 7882

adult ADHD; attention-deficit/hyperactivity disorder; treatment; symptoms; diagnosis; childhood onset, 19735

age of onset; DSM-IV syndromal and subsyndromal comorbidity; bipolar disorder; attention-deficit/hyperactivity disorder; ADHD; early adolescents, 4541

alcohol use pathways; marijuana use trajectories; substance use; early adolescence; young adult outcomes; early prediction; onset time; developmental subgrouping approach, 19659

Alzheimer disease; disorder onset; mutations; genes; genetic testing; presenilin, 32151

Alzheimer's disease; HMPAO SPECT cerebral perfusion patterns; early onset; late onset, 22960

Alzheimer's disease; life expectancy; genetic relationship; disease development; longevity, 32156

apolipoprotein E; Alzheimer's disease; age at onset; genetic risk factors; lifetime susceptibility, 26146

atypical depression; illness course; tricyclic antidepressant response; auditory perceptual asymmetry; brain laterality; age of onset, 22481

axis II comorbidity; early-onset panic disorders; panic disorder patients; psychiatric disorders; severe clinical symptoms; Japanese, 19318

behavioral symptoms; psychiatric symptoms; early-onset Alzheimer's disease; siblings; presenilin-1 gene; R269G mutation; cognitive decline, 32147

binge eating; age of onset; affective antecedents; affective consequences; anxiety; depression, 22759

bipolar affective disorder; disease course; disease onset, 4608

breakthrough depressive episodes; recurrent bipolar depression; major depression; differential diagnosis; symptomatology; treatment; drug therapy, 31743

cannabis abuse; nerve growth factor serum concentrations; schizophrenia onset; drug-naïve patients, 13537

caudate nuclei volume; bipolar patients; early onset; late onset; MRI; elderly, 19361

cerebral lateralization; normal cerebral volume asymmetries; early onset schizophrenia; adolescent patients, 10787

childhood bipolar disorder; Cambridge Neuropsychological Test Automated Battery; neuropsychological performance; pediatric onset; cognitive functioning; adult onset, 10740

childhood onset disorders; conduct disorder; attention deficit hyperactivity disorder; autistic disorders; adult psychopathic personality; violent crime; recidivism; forensic subjects, 11057

childhood onset schizophrenia; olanzapine; school age children; assessment of negative and positive symptoms; weight gain, 2212

childhood onset; gender differences; girls; boys; conduct disorder; single delayed onset pathway; childhood onset; risk profiles, 19617

childhood-onset schizophrenia; childhood schizophrenia; false positives; diagnosis, 31784

children; bipolar disorder; onset; prevalence; antidepressants; treatment; stimulants; depression; attention deficit hyperactivity disorder; US; Netherlands; genetic risk, 13608

chronic pain; posttraumatic headache; psychosocial factors; mind-body dualism; pain severity; pain onset; head injury; traumatic brain injury, 29021

clinical presentation; disease course; depression; childhood onset; adolescent onset; parental psychiatric history; major depressive disorder; psychopathology, 10734

cognitive impairment; progressive dementia; cognitive functioning; late-life depression; Apolipoprotein E; Alzheimer's disease; age of onset; at risk populations, 11234

course of cognitive functioning; onset of schizophrenia; academic examination scores; first episode; young males, 10774

daily smoking; psychiatric disorder onset; at risk population; mood disorders; panic disorder; agoraphobia; substance use; smoking cessation, 19297

delusions; schizophrenia; experiences; onset; psychosis, 14997

developmentally inspired preventive interventions; early-onset drug abuse; alcohol abuse; tobacco abuse; illegal drug use; early adolescence; risk behaviors, 29785

diagnosis; Asperger's syndrome; index episode of mania; adult male, 20318

diagnosis; Asperger's syndrome; index episode of mania; adult male, 20368

disability onset; household composition; elderly men; widowhood; living alone; family, 28152

duration of untreated psychosis; psychosocial treatment vs drug treatment delay; outcome; schizophrenia; antipsychotic medication, 1913

duration of untreated psychosis; schizophrenia; first episode patients; treatment response; premorbid social functioning, 16444

dysthymic disorder; late onset; major depression; early onset; elderly outpatients; clinical features; prognosis; etiology; comorbid disorders, 16395

early-onset bipolar disorder; child and adolescent psychiatry; indian children; lithium; thymoleptic; neuroleptics; treatment, 20381

early-onset depression; late-onset depression; behavioral characteristics; major depressive disorder; offspring; emotional characteristics; emotional problems; behavioral problems, 1441

eating disorder; suicide attempts; comorbid major depression; eating-disordered women; comorbid disorders; anxiety disorder; parasuicide, 19825

Edinburgh Postnatal Depression Scale; screening; postpartum onset; major depression; treatment guidelines; women, 22509

EEG foci localization; EEG patterns; Panayiotopoulos syndrome; benign occipital seizure susceptibility syndrome; age differences; spike foci, 16804

efficacy; controlled-release paroxetine; treatment; late-life depression; selective serotonin reuptake inhibitors; elderly patients, 2210

environmental factors; functional abnormalities; schizophrenia; psychosocial factors; cerebrospinal fluid; infectious disorder; viral infection; disorder onset; immunology; genetics; risk factor, 28678

environmental factors; functional abnormalities; schizophrenia; psychosocial factors; cerebrospinal fluid; infectious disorder; viral infection; disorder onset; immunology; genetics; risk factor, 19481

epilepsy surgery; focal epilepsy; disorder onset; seizures, 35619

epileptic seizure; onset onset detection; patient-specific detection method; electroencephalography, 35323

estrogen receptor beta gene; age of onset; Parkinsons disease; genetic variants; etiology, 32197

Familial Parkinsons disease; genetic factors; family history; dementia; disease onset; risk factors; familial aggregation; heredity, 22967

frontal brain; white matter integrity; adolescents; early onset schizophrenia, 28722

generalized social phobia; age of onset; selective serotonin reuptake inhibitors; sertraline; predictors of treatment response, 11568

genetic variability; central nervous system; amyloid peptide; amyloid; genetic association; single nucleotide polymorphism; Alzheimer's disease; onset age; cholesterol; beta amyloid peptides, 11308

genetics; adult onset; neuropsychiatric diseases; etiology; neurodegenerative disorders, 7788

gray matter; brain volume; schizophrenia; chronic illness; illness onset, 4655

hand preferences; assessment methods; scoring methods; schizophrenia; risk level; first episode, 19429

high risk; depression; childhood; family genetics; disorder onset, 13617

hippocampal sclerosis; neuronal loss; gliosis; hippocampus; Alzheimer's disease; dementia; epilepsy, 22956

hippocampal volume change; early-onset depression; late-onset depression; neuronal damage; white matter; structural change, 31746

Hospital Anxiety and Depression Scale; disorder onset; breast cancer; psychometrics; anxiety; depression, 27363

Huntington disease; CAG mutation; homozygotes; heterozygotes; onset age; symptom presentation; disease severity; disease progression, 22847

Huntington's disease; early onset; childhood; L-dopa; drug therapy, 8321

idiopathic generalised epilepsy; genetics; tonic clonic seizures; postictal electroencephalogram, 13974

illness modeling stages; first illness episodes; schizophrenia onset; prodromal stage; course model; early course; social course; course determinants; predictors; symptoms, 1475

irritability; dyscontrol; major depression; manic symptoms; parent ratings; bipolar children; disease progression; early onset, 4591

Korean patients; Alzheimer disease; caregiver; demographic factors; socioeconomic factors; cultural backgrounds; initial symptoms; cultural factors, 32161

late onset depression; late life depression; executive function, 7812

late-life depression; diabetes; epidemiology; diagnosis, 35222

late-onset epilepsy; major affective disorder; at risk populations; risk factors; osteoarthritis; diabetes, 4528

late-onset schizophrenia; neuroleptic-naïve schizophrenic patients; psychopathology; symptom profiles; early-onset schizophrenia; first-admission treatments; neuroleptic therapy, 23293

late-onset schizophrenia; parahippocampal gyri; gray matter; white matter, 4617

life events; difficulties; dilemmas; chronic fatigue syndrome; onset; stress, 8129

life events; early onset depression; causality; depressive disorder; threat; anxiety; symptoms; prediction, 7839

life events; social support; major depressive disorder; personality disorders; social relationships; comorbidity; alcoholism, 25572

major depressive disorder; rapid eye movement; sleep latency; onset, 25570

management; early-onset psychosis; early-onset schizophrenia; schizophrenia management; prognosis; genetics; structural brain changes, 28741

mood disorders; early Parkinsons disease; disease onset; antidepressants, 26153

mood disorders; unipolar major depressive disorder; family history; structural brain changes; outpatients; mood disorder; disease onset; risk factors; family history, 31722

neuropsychological functioning; late life depression; cognitive impairment; unipolar major depression; cognitive function, 31726

novel mutation; PSEN2 gene; autosomal dominant Alzheimer disease; early onset; family members, 8239

obsessive compulsive disorder; disease onset, 25694

obsessive-compulsive disorder; sudden onset; phenomenological features; collecting compulsions; comorbid depression; therapeutic response, 22504

obstetric complications; family history; psychiatric illness; age at first presentation; schizophrenia; social class of origin; dose-response relationship, 25644

onset age; illness duration; comorbidity; obsessive compulsive disorder; tic disorders; mood disorders; anxiety disorders; eating disorders; body dysmorphic disorder; etiology; trichotillomania, 16452

paediatric bipolar disorder; diagnosis; treatment, 4584

paranoid schizophrenia; psychiatric patients; gender difference; onset; age differences, 7895

personality differences; recidivism; offenders; early starters; later starters, 8038

pervasive developmental disorder; childhood-onset schizophrenia; comorbid disorder; phenotypic variant; adult-onset disorder; premorbid developmental abnormalities, 25491

post-infectious thalamic encephalitis; encephalitic syndrome; bilateral thalamic lesions; mycoplasma respiratory tract infection; amnesic syndrome; ataxia; acute onset; disease course, 29118

Volume 91 SUBJECT INDEX

Onset (Disorders)—Serials

prolactin levels; risperidone; first-episode schizophrenia, 20308
 prolonged seizure episodes; epileptic treatment; mortality risks; at-home treatment; seizure onset; epilepticus, 23400
 prolonged untreated illness; prodromal onset; prediction; outcome; first episode psychoses; schizophrenia; psychotic disorders, 19460
 psychiatric disorder; elderly population; prevalence; age of onset, 28616
 psychopathy; personality disorders; disruptive behaviors; childhood onset; neuropsychiatric disorders; antisocial personality disorder; neuropsychological abilities, 1554
 psychosocial interventions; early onset; bipolar spectrum disorder; disordered children, 26707
 psychosocial stress cascade; schizophrenia; etiology; onset; psychosis; stress-diathesis model; prodromal patients; hypothalamic-pituitary-adrenal axis; neural effects; cortisol; risk factors, 19434
 psychotic symptoms; disorder onset; pathways to care; first hospital admission, 20604
 rapid cycling; bipolar illness; age; gender; bipolar patients; nonrapid cycling; rapid cyclers; age of onset; duration of illness; demographics; current or lifetime history or rapid cycling, 22520
 schizophrenia; aging; elderly; late life onset; middle-age onset, 4632
 schizophrenia; cognitive performance; psychotic episode; cognitive impairment; onset; premorbid; psychiatric patients, 7861
 schizophrenia; elderly patients; late onset; antipsychotic treatments; intervention strategies; cognitive changes, 34886
 schizophrenia; motor abnormality; motor behavior; dyskinesia; age of first diagnosis; vulnerability; symptoms; demographic features; line drawing task; dyskinesia; extrapyramidal side effects, 28726
 schizophrenia; related disorders; taxonomy; risk; psychosis; prodrome; early detection; prevention; vulnerability; symptoms; onset; prediction; treatment strategies; costs; benefits, 19473
 self efficacy; neurocognition; coping responses; recent-onset schizophrenia; stressful life events, 28751
 semantic fluency; phonemic fluency; design fluency; early onset schizophrenia; verbal fluency; adolescents, 34883
 serum creatine kinase; leukocytosis; psychotic episodes; neuroleptic malignant syndrome development; risk; lactate dehydrogenase; serum glutamic oxaloacetic transaminase; white blood cell count, 7877
 severe personality disorder; developmental disorder; childhood development; adolescent development, 10866
 smoking initiation; lifetime psychopathology; family members; psychiatric disorders; biological parents; cigarette smoking; familial factors; drug use disorders; disorder onset, 4535
 total life events; attention-deficit hyperactivity disorder; early adolescent bipolar disorder phenotype; mania symptoms, 1355
 treatment delay; disorder onset; psychosis, 19485
 treatment-resistant schizophrenia; childhood onset schizophrenia; clozapine; lithium carbonate; neutropenia; agranulocytosis; white blood count; clozapine challenge; neutrophil count, 2224
 white matter lesions; executive function; late-onset depressive disorder; neuropsychological function; neuroradiology; vascular risk factors; drug therapy; antidepressants; treatment response, 17028
 young-onset Parkinson; mutations; Parkinsonism; parkin gene; Parkinson's disease, 22961

Onset (Disorders)—Chapters

Early intervention for young children with language impairments, 4832

Puberty and schizophrenia, 10815

Ontogeny [See Development]

Open Field Behavior (Animal) [See Animal Open Field Behavior]

Open Universities [See Nontraditional Education]

Openmindedness—Serials

elementary mathematics methods; classroom discourse; student resistance; student growth; pre-service teachers; openmindedness; verbal communication, 12031
 human evolution; epistemological beliefs; open-minded thinking; animal evolution; biological evolution; cognitive disposition; student understanding; knowledge level, 17742
 openness; intelligence; crystallized ability; self-reported intelligence, 19183
 police officer bias; psychological profiling merit; technique perception; belief degrees; non-police replication; author label, 30342

Openness to Experience—Serials

faking good; NEO PI-R; personality measures; conscientiousness; openness to experience; applicant selection; Big 5 measures, 24209

imagination cultivation; mind; poetry writing; story writing; patient attendance; physicians relationship improvement; inner world experience; physicians inward journey, 32520

openness to experience; boundaries in the mind; cultural conservative beliefs; economic conservative beliefs; conservatism; political party activists, 28304

openness to experience; gender differences, 4460

personality traits; intelligence; openness to experience; achievement need; creativity, 16290

subjective well-being; openness to experience; quality of life; pleasantness; self actualization; positive affect; negative affect, 34728

surfing; golf; socially acceptable risk-taking; sensation seeking; experience seeking; personality characteristics; experience openness; participation motives; risky sports, 14806

work group involvement; employee attitudes; group openness; group diversity; informational dissimilarity, 36000

writing performance; special education; discourse; writing traits; imaginativeness; persuasive communication, 20873

Operant Conditioning [See Also Avoidance Conditioning, Conditioned Emotional Responses, Conditioned Responses, Discrimination Learning, Escape Conditioning, Fading (Conditioning), Omission Training, Time Out]—Serials

acquired memory; operant conditioning; memory reactivation; reactivated memory; infants; reminding; retrieval difficulty; memory accessibility, 913

applied behavior analysis; behavior analysts; motivation; establishing operations; abolishing operations; motivating operations; behavior-analytic terminology, 2052

associative learning; *Drosophila melanogaster*; classical conditioning; memory; olfactory conditioning; visual learning; spatial learning; male courtship behavior, 18463

basolateral amygdala; instrumental conditioning; lesion effects; rats; brain lesions, 12805

behavior therapy; Pavlov; Pavlovian conditioning, 5213

cannabinoid receptors; antagonistic effects; rats; food-reinforced operant behavior; WIN 55,212-2; CP 55,940; Δ^9 -THC; SR141716A; cannabinoids; additive effects; inverse agonists, 18730

cognition; classical conditioning; operant conditioning; mental representations; cognitive involvement, 18336

consummatory behavior; operant behavior; licking; lever pressing; behavior change; low-valued substance; high-valued substance; food substance; sucrose; reinforcement schedules; rats, 3493

escape-avoidance learning; discriminative stimulus; instrumental learning; carry-over effects; avoidance behavior; ablation of telencephalon; spaced-trial training; goldfish, 3696

ethanol; acetaldehyde; acetate; high; operant schedule; low operant schedule, 9948

food-pellet reinforcement; sucrose reinforcement; temporal placement; rats; operant responding; three component multiple schedule, 21440

gray seal; *Halichoerus grypus*; pointing; directional cues; generalization; operant conditioning, 9773

human schedule performance; protocol analysis; silent dog methodology; verbal behavior; operant performance, 33844

in vitro conditioning; aplysia; operant conditioning; classical conditioning; neuronal processes; learning, 33918

increasing delay; pharmacological manipulations; dopaminergic mechanisms; delayed reinforcement; genetic contributions; choice behaviour; impulsive choice; impulsivity; operant conditioning, 9747

induction; food-pellet reinforcement; operant responding; rats; operant behavior, 33944

infant operant kicking procedure; computerized stimulus control; computerized measurement; kicking; mobile procedure; auditory reinforcers; visual reinforcers, 15963

infralimbic prefrontal cortex; rats; goal-directed responding; overtraining; muscimol; actions; habits; operant conditioning, 6794

instrumental conditioning; tactile stimulus; classical conditioning; unconditioned stimulus; learning; neuronal reactions; painful stimulus; mollusk, 9895

instrumental responses; reward magnitude; lidocaine inactivation; instrumental behaviour; transient inactivation; rat nucleus accumbens; reaction time, 18741

interresponse time shaping; multiple-schedule performance; reinforcement rate, 33915

learning-related changes; response patterns; prefrontal neurons; instrumental conditioning; cues; operant conditioning; neural plasticity; rats, 6685

morphine; naloxone; dose-effect functions; repeated treatment; drug potency; operant response suppression; withdrawal; opioid dependence; rats, 7251

motor cortex stimulation; food reinforcement; hindlimb movements; movement instrumentalization; dogs; operant movement, 15374

N-methyl-D-aspartate receptor antagonists; amygdala nucleus; posterior lateral striatum; instrumental learning; spontaneous motor behavior; dorsal striatum; feeding; neurophysiological processes, 30833

N-methyl-D-aspartate; metabotropic glutamate receptors; working memory; instrumental learning; motor behaviors; dopamine release; locomotion; stereotypy; rats, 27898

neonatal isolation; cocaine self-administration; food responding; rats; operant responding; gender differences, 30770

noncontingent shock; behavioral deficits; flexion duration; instrumental learning; spinalized rats; intrasprinal modification; de novo protein synthesis; cycloheximide; protein synthesis inhibitor, 21892

O. Lindsey; free-operant research; psychiatric inpatients; history of psychology; experimental analysis of human behavior, 8572

observing responses; reinforcement rate; response-independent food; multiple-schedule stimuli; discriminative stimuli; primary reinforcement; resistance to change; pigeons, 12740

operant conditioning procedures; vertical graph shifts; dose-response rate-relationships; drug abuse liability; drug reinforcement; tolerance-to sensitization paradigm change, 15723

operant conditioning procedures; vertical graph shifts; dose-response rate-relationships; drug abuse liability; drug reinforcement; tolerance-to sensitization paradigm change, 15800

operant conditioning procedures; vertical graph shifts; dose-response rate-relationships; drug abuse liability; drug reinforcement; tolerance-to sensitization paradigm change, 15793

operant conditioning procedures; vertical graph shifts; dose-response rate-relationships; drug abuse liability; drug reinforcement; tolerance-to sensitization paradigm change, 15763

operant conditioning procedures; vertical graph shifts; dose-response rate-relationships; drug abuse liability; drug reinforcement; tolerance-to sensitization paradigm change, 16255

operant conditioning procedures; vertical graph shifts; dose-response rate-relationships; drug abuse liability; drug reinforcement; tolerance-to sensitization paradigm change, 15827

operant conditioning; technology; computerized touch-screen system, 30559

operant psychology history; theory extension & application; behavior analysis; practical applications, 6226

operant responding; sucrose; rewards; ethanol; animal model; emotive states; rats; induction, 18465

operant responding; visual reinforcement; rats; nicotine; self-administration, 15742

operant responding; visual reinforcement; rats; nicotine; self-administration, 15747

operant responding; visual reinforcement; rats; nicotine; self-administration, 9981

operant; stimulus specificity; pigeons, 18457

orbitofrontal function; operantly conditioned responses; response extinction; preschool-age children; gender differences, 24911

partial reinforcement extinction effect; continuous reinforcement; unconditioned stimulus; conditioned response; conditioned stimulus; nonreinforced trials; reinforced groups; appetitive conditioning, 27616

Pavlovian conditioning; information approach; evolutionary integration; trends; information-seeking; operant conditioning; preexposure; sensory preconditioning; exposure learning, 33940

phenylcyclidine; schizophrenia; animal model; decreased reward function; negative symptomatology; consumptive behavior; sucrose; water deprivation; operant performance; food reward; rats, 7271

postnatal depression; mother infant interaction; Still-face perturbation; instrumental learning task; primiparous depressed women; infant performance; maternal responsiveness, 19400

prelimbic cortex; instrumental conditioning; brain lesions; rats; working memory, 6793

quinpirole; maintenance phase; continuous reinforcement; reduced response rates; free-operant procedure; behavioral extinction; behavior-reward association; rats, 3924

reinforcement; extinction; resurgence; recency of reinforcement; response recovery; variable time schedule; variable interval schedule; pigeons; key pecking, 3482

unit price; observing responses; drug cues; rats; ethanol consumption; reinforcement; ethanol stimulus; operant response; ethanol self-administration; response rates; extinction; ethanol availability, 15806

within session rates; within session changes; operant response rates; reinforcer magnitude; treatment conditions; baseline sessions; rats, 12729

Operation (Surgery) [See Surgery]

Ophidiophobia—Serials

preattentive bias; snake phobia; skin conductance responses; Stroop interference; masked words; stress conditions, 31836

Ophthalmology—Serials

healthcare needs; aging; baby boomers; geriatric ophthalmology, 29634

nearightedness; integrated vision therapy, 23387

Opiate Agonists [See Narcotic Agonists]

Opiate Antagonists [See Narcotic Antagonists]

Opiates [See Also Codeine, Endogenous Opiates, Fentanyl, Heroin, Morphine]—Serials

abstinence-oriented therapies; opiate addicts; maintenance treatment; opioid maintenance; opioid dependency; community follow-up; antagonists; assessment; mental problems, 26744

access to methadone maintenance treatment; opiate use; methadone clinics, 26714

acoustic startle; morphine; withdrawal; opiates; anxiety; elevated startle response, 13010

acute pain; chronic pain management; advanced cancer; opioid dosing; titration; analgesia, 14258

alcohol dependence syndrome; dependence disorders; DSM-IV diagnosis criteria; abuse disorders; cannabis; cocaine; opiates, 16505

amphetamine induced dopamine release; morphine pre-treatment; conditioned place preference; nucleus accumbens core; Wistar rats; long-term opiate effects; chronic infusion, 13011

anticonvulsant effect; maximal electroshock seizure; kappa opioid agonist; U50488H; gamma-aminobutyric acid; N-methyl-D-aspartate; mice, 749

anxiety; antinociception; delta9-THC; mice; delta9-tetrahydrocannabinol; cannabinoid & opioid receptors; naloxone; cannabinoid & opioid receptor antagonists, 790

axon terminals; endomorphin-2; mu-opioid receptor; dendrites; trigeminal dorsal horn; opioid peptides, 12800

buprenorphine consensus conference; overview; buprenorphine conference; office-based practice; buprenorphine implementation program; American psychiatry; opiates, 26728

buprenorphine maintenance; methadone maintenance program; opioid dependent patients; drug counseling; treatment retention; primary care settings, 29803

buprenorphine maintenance; opioid receptor availability; plasma concentrations; heroin dependence; withdrawal symptoms; hydromorphone; brain; antagonist blockade; norbuprenorphine, 8859

buprenorphine training; service models; drug abuse counseling; patient participation; change teams; community treatment protocols; rural practitioners; abuse counseling; health personnel attitudes, 20722

buprenorphine treatment; Australian community settings; Buprenorphine Implementation Trial; opioid dependence; methadone maintenance treatment, 26731

buprenorphine treatment; office-based treatment; opiate agonist treatment; psychiatrist characteristics; opiate addiction, 26746

buprenorphine; naltrexone; opioid detoxification; clinical trials; opioid dependence, 8863

buprenorphine; opioid dependence; methadone; heroin addicts; pharmacology; maintenance therapy, 32765

cancer pain; pain management; prescribing; opioid analgesics; legislation; Italy, 17152

carbamazepine; mianserin; opiate detoxification; treatment efficacy, 35896

care processes; office based treatment; opioid dependence; primary care; methadone maintenance, 26717

central nervous system; tachyphylaxis; regulators of G-protein signaling; interacting protein; opioid agonists; receptors; oligodeoxynucleotides; mouse, 24807

chronic noncancer pain; opioid therapy; long-term utility, 20494

conditioned place aversion; opioid dependence; opioid withdrawal; rats, 3867

construct validity; content validity; face validity; hospitalized cancer patients; test-retest reliability; consistency reliability; Pain Opioid Analgesics Beliefs Scale; Cancer; cancer pain, 3145

cyclazocine; hydromorphone; cocaine dependence; Kappa opioid agonists; neurobiological effects; behavioral effects, 21899

cyclazocine; hydromorphone; smoking behavior; polydrug users; cigarette smoking, 27932

depressive symptoms; opioid dependence; buprenorphine-induced hypomania, 29342

developmental disabilities; self injuring behavior; opiate agonist; naltrexone; hypothalamic-pituitary-adrenal axis, 5338

diabetic neuropathy; opioid treatment; pain intensity; controlled release oxycodone; neuropathic pain; pain management; drug safety; drug efficacy, 14264

dopaminergic neurotransmission; opiates; somatic withdrawal symptoms; motivational withdrawal symptoms; rats; dopamine; nucleus accumbens; apomorphine; droperidol; flupentixol; naloxone; syndromes, 701

DPDPE-UK14304; mu opioid receptor; mice; nociceptive behavior; synergy, 7193

endomorphin-2; deltorphin II; formalin-induced nociception; c-Fos; pain-induced behavior; immunoreactivity; spinal cord; opioid receptor; morphine, 15532

ethanol dependence; methionine enkephalin antisense; serum endomorphin; opiate ingestion; methionine enkephalin levels; opiate peptides; mice, 30959

health care providers; addictive disorders; physical dependence; addiction terminology; opioids; medical use; addiction related terms; nomenclature; treatment, 8380

health care providers; addictive disorders; physical dependence; addiction terminology; opioids; medical use; addiction related terms; nomenclature; treatment, 14053

health care providers; addictive disorders; physical dependence; addiction terminology; opioids; medical use; addiction related terms; nomenclature; treatment, 14036

hospitalized patients; painful conditions; pain relief; intramuscular injections; IM; opioids; morphine, 5448

housing conditions; isolation; conditioned place preference; environmental enrichment; antinociceptive effects; kappa opioids; diuresis; weaning rats, 786

in vivo electroporation; proopiomelanocortin; analgesia; formalin-injection pain model; rats; opioids; pharmacological agents, 7223

kappa opioids; sensitivity; rats; exercise wheels; behavior; spiradoline; antinociception; locomotor activity; conditioned place preference; diuresis, 13078

ketamine; cancer pain; opioid tolerance reversal; N-methyl-D-aspartate antagonist; analgesic effect; analgesia; pain control; pain relief; cancer patient, 5440

maintenance treatment; opium dependence; opium dependence; treatment completion; buprenorphine, 20617

medicine; drug control treaties; buprenorphine; opioid addiction; drug abuse potential, 29325

methadone maintenance treatment; opioid dependent patients; prescription opioid abuse, 29773

methadone maintenance; cocaine use; heroin; stress induced relapse; poly drug use; opiates; rats, 27912

Millon Clinical Multiaxial Inventory III; subtyping; predictive validity; concurrent validity; opioid dependency; naltrexone; relapse prevention; incentive vouchers; behavioral therapy, 30434

morphine; opioid receptors; dendrites; nucleus accumbens neurons; opiate drugs; receptor trafficking; methadone, 21590

naloxone-precipitated withdrawal; endomorphin; rats; opioid ligands; opiate dependence; withdrawal syndrome; peptides; analgesic effects; morphine, 15734

naloxone; appetitive sexual responses; opioids; male Japanese quail; copulatory responses, 34158

network therapy; opioid use; buprenorphine maintenance; family members; addiction treatment, 29786

neuropathic pain; opioid alkaloids; drug side effects; pain management; pain remedy; nerve injury pain, 14308

nociceptin; orphanin FQ; anxiety related behavior; neophobia; corticosterone; stress reactions; rats, 9987

nociceptive neurons; antinociception; pain; reticular formation; brain stem; neurokinin-1; GABA receptors; opioid receptors; rats, 21665

nucleus accumbens; opioid peptides; forebrain; reward related behavior; appetite; food intake; rats; high fat diet; brain network, 21512

nucleus accumbens; tolerant rats; naive rats; chronic morphine administration; stimulus induced antinociception; antinociceptive effects; antagonist naltrindole; receptor antagonist; opioid withdrawal, 13075

office-based treatment; opiate addiction; buprenorphine; naloxone; urine samples; opiate cravings, 11909

office-based treatment; opiate addiction; buprenorphine; naloxone; urine samples; opiate cravings, 11914

opiate addicts; buprenorphine; maintenance treatment; acceptance; efficacy; tolerability; drug use behavior, 29396

opiate addicts; rostral anterior cingulate; anterior cingulate cortex; false alarm error responses; impulsive behavior, 19660

opiate dependency; buprenorphine; drug therapy; correctional setting; inmates; pharmacological treatment, 32849

opiate detoxification; pregnancy; methadone withdrawal; opiate dependent women; drug rehabilitation, 19680

opiate detoxification; pregnancy; methadone withdrawal; opiate dependent women; drug rehabilitation; drug safety, 19688

opiate users; Western Australia; opiate prevalence; truncated Poisson; capture-recapture, 4729

opiate-dependent patients; treatment preferences; substance misuse facility; treatment options; opiate dependency, 29797

opiate analgesia; sex differences; pain stimulus, 15737

opiate antagonists; ethanol consumption; endogenous opioid system; opioid neurotransmission; opioid peptides and receptors; alcoholism; b-endorphins; naloxone; naltrexone; genetics, 24618

opiate dependence; tobacco use; ventilatory response; progressive hypercapnia; limited substance use; tobacco smokers; methadone-maintained smokers; hypoxia; carbon dioxide, 13741

opiate detoxification; opiate dependence treatment; buprenorphine-naloxone detoxification; community treatment providers; community-based treatment programs, 26709

opiate peptide; antagonist naltrindole; memory consolidation; analgesic effect; enhanced memory; spinach leaves; mice; rubiscolin-6, 3998

opiate receptor antagonist; naloxone; compound conditioning; association formation; fear; auditory conditioned stimuli; Pavlovian association formation; rats; contextual conditioned stimuli, 12866

opiate receptors; chronic naltrexone treatment; mice; opioid agonists; sensitivity; brain regions, 15767

opiate receptors; extinction; Pavlovian fear conditioning; rats; naloxone; conditioned stimulus; unconditioned stimulus, 7229

opiate receptors; regulator of G-protein signaling; antinociception; mice; R7 proteins; morphine, 7184

opiate substitution treatment; OST; minimal services treatment; MS patients; substitution treatment; program evaluation; illicit drug use; abstinence, 2497

opiate system; cannabinoid; antinociception; emotion like responses; pharmacological effects, 13033

opiate therapy patients; substance abuse; chronic pain; pain management, 29804

opiate therapy; chronic pain management; opiate abuse; opiate addiction; pain patients; patient addiction; methadone maintenance programs; drug abuse, 11016

opiate therapy; chronic pain; history; dose; toxicity, 8605

opiate withdrawal; acute opioid physical dependence; naloxone; administration schedules; withdrawal severity; opioid pretreatments; withdrawal severity; withdrawal symptoms; male subjects, 13731

opiate; oxycodone; subjective; abuse liability; subjective effects; psychomotor effects; physiological effects; non-drug-abusing volunteers, 10064

opioids; adverse drug events rate; ADEs; adult surgical patients; postoperative pain; length of stay; LOS; hospital costs; mortality; opioid-related ADE, 5445

opioids; cocaine; rats; reinforcement; food change runtime distribution; runway procedure; operant conditioning, 10056

opioids; reward-related feeding; food intake control; endogenous satiety; hedonic restriction; ingestive behavior, 30930

oral transmucosal abuse; transdermal fentanyl as pain management; chronic nonmalignant pain; drug abuse potential, 31935

oxycodone; discriminative stimulus; antinociceptive effects; abuse liability; opioid receptor agonist; physical dependence; positive reinforcer; withdrawal signs; monkeys; mice; rats, 30960

Oxycontin media frenzy; pain community; physicians; media responsibility; opioids; drug prescription, 5450

pain management; opioids, 20477

peripheral opioid receptors; pain reduction; human pain models; cutaneous inflammatory hyperalgesia; muscle hyperalgesia; electrical stimulation; cold effects; muscle contractions; morphine, 21911

peripheral opioids; bone cancer pain; analgesics; mice; morphine; thermal hyperalgesia, 15781

personality factors; functional polymorphism; opioid receptor gene; gene encoding, 27699

postherpetic neuralgia; tricyclic antidepressants; cognitive function; nortriptyline; desipramine; methadone; morphine; analgesic effect; opioids, 14278

pregnant women; opioid dependent; drug liaison midwife services; sociodemographic background; substance use; medical history; drug treatment; neonatal outcomes; maternal outcomes, 20659

psychiatric disorders; opioid addicts; neurotic disorders; depression; detoxification, 1642

quality of life; oral methadone; buprenorphine; opioid dependent patients, 17431

recovery; opioid addiction; Drug Abuse Treatment Outcome Studies; outpatient programs; methadone treatment, 14471

repeated prolonged stress effect; adrenocorticotrophic hormone; expression levels; mu opioid receptor; midbrain homogenates; mRNA expression; rat brain, 7278

septohippocampal cholinergic innervation; heroin; mice; neural grafting; neurobehavioral teratogenicity; prenatal exposure, 3997

Volume 91 SUBJECT INDEX

Opiates—Serials

sex differences; pain; hypothalamic-pituitary-adrenocortical responses; opioid blockade; adrenocortical; pain sensitivity; blood pressure; naltrexone, 18702
sleep deprivation; chronic pain; opioids; serotonin; pain, 18667
smoked marijuana; opioid analgesia; cannabis; opioid dose; chronic pain management; cannabinoids; pain modulation; inflammatory pain; neuropathic pain; opioid requirement, 17180
social learning; ethanol; preweanling rats; endogenous opioids, 18744
strain differences; Fischer rats; Lewis rats; sex differences; opioid receptor-mediated G-protein activation; rat brain, 3709
subjective effects; propoxyphene; psychomotor effects; physiological effects; non-drug-abusing volunteers; drug abuse liability, 27958
supplemental service utilization; methadone maintenance treatment program; sociodemographic factors; sociodemographic differences; male methadone maintenance; additional services; minorities; opioids, 20666
tetrahydrocannabinol; opioid receptor; brain regions, 21820
Tomoi Yanagita; addiction; opiate; drug dependency; rhesus monkeys, 32859
Opinion (Public) [See Public Opinion]
Opinion Attitude and Interest Survey [See Attitude Measures]
Opinion Change [See Attitude Change]
Opinion Questionnaires [See Attitude Measures]
Opinion Surveys [See Attitude Measures]
Opinions [See Attitudes]
Opioid Antagonists [See Narcotic Antagonists]
Opioids [See Opiates]
Opioids (Endogenous) [See Endogenous Opiates]

Opioid Derivatives [See Opiates]
Oppositional Defiant Disorder—Serials
behavioral contrast; generalization; reinforcement; oppositional behavior; mother child interactions; teacher child interactions, 18903
clonidine; psychostimulants; hyperactive children; aggression; oppositional defiant disorder; conduct disorder; attention deficit hyperactivity disorder, 20331
DSM-IV-TR; diagnostic utility; individual symptoms; prediction; ADHD subtypes; oppositional defiant disorder; ODD; parent ratings; teacher ratings, 4764
DSM-IV-TR; diagnostic utility; individual symptoms; prediction; ADHD subtypes; oppositional defiant disorder; ODD; parent ratings; teacher ratings, 4775
elementary school children; attention-deficit/hyperactivity problems; oppositional defiant; conduct problems; disruptive behavior problems; classroom intervention trial; developmental trajectories, 30067
executive functioning deficits; attention deficit hyperactivity disorder; autism; cognitive processes; oppositional defiant disorder; conduct disorder; comorbidity, 22728
external validators; comorbidity; oppositional defiant disorder; attention deficit/hyperactive disorder; Ukrainian children, 25791
family psychosocial characteristics; attention deficit hyperactivity disorder; conduct problems; oppositional defiant disorder, 19771
impulsivity; school-aged boys; attention deficit hyperactivity disorder; oppositional defiant disorder, 25938
intervention; oppositional defiant disorder; parent training; child training, 20200
Oppositional Defiant Behavior Inventory; test reliability; test reliability; oppositional defiant disorder; attention deficit/hyperactivity disorder; internal consistency; test validity; diagnosis, 30444
parent victimization; victimizing children; violence; temperament; behavior problems, 34328
parent-child interaction therapy; conduct problems; parent training programs; oppositional behavior; preschool children, 26305
parenting strategies; defiant behavior; behavioural problems; primary school aged children; self regulation, 34515
parents of young children with ADHD; attention deficit/hyperactivity disorder; comorbid disorders; oppositional defiant disorder; conduct disorder; parental psychopathology; substance abuse, 4504
solution focused family therapy; aggressive children; oppositional acting children; treatment integrity, 2066
therapist verbal behavior; Parent-Child Interaction Therapy; oppositional defiant disorder; families, 32342
Oppositional Defiant Disorder—Books
Conduct and oppositional defiant disorders: Epidemiology, risk factors, and treatment, 22654
Helping the noncompliant child: Family-based treatment for oppositional behavior (2nd ed.), 11443
Oppositional Defiant Disorder—Chapters
Classification and assessment, 22662
Course and outcomes, 22657
Epidemiology and comorbidity, 22659

Epilogue, 22660
Familial and genetic factors, 22665
Individual and psychosocial risk factors, 22655
Treatments for oppositional defiant disorder, 17000
Optic Nerve—Serials
attentional shifts; nucleus rotundus; avian species; optic tectum; tectofugal system; vision; nucleus subpretectalis; tectoretinal system; subpretectalis cells, 15369
optic nerve hypoplasia; preschool children; septo-optic nerve dysplasia; special education; team experiences; multidisciplinary approach, 12190
optic nerve pallor; optic atrophy; visual function; visual acuity; visual field; color vision; optic neuropathy, 23047
optical imaging; cognitive neuroscience; brain imaging, 6899
suprachiasmatic nucleus; median preoptic nucleus; rats; circadian clock; sleep wake states, 12824
visual evoked potential; magnetic resonance imaging; optic nerve; optic neuritis, 32201
Optic Tract—Serials
direction perception; self motion; postnatal development; perceptual processes; locomotor experience; optic flow patterns; spatial abilities; infant development, 13181
Optical Aids [See Also Contact Lenses]—Serials
institutionalised elderly people; binocular low vision; eye diseases; remediable visual disability; low-vision aids; disease prevalence, 29197
Optical Illusions [See Illusions (Perception)]
Optimism—Serials
anxiety; denial; self positivity bias; self-esteem; base-rate information; controllable events; optimists; pessimists; consumer purchases; risk perception, 9187
athletes disposition; optimism; pessimism; coping; goal attainment; sport competition; task-oriented coping; affective states; emotional adjustment, 33315
behavioral confirmation; correction processes; simulated job; optimism; pessimism; future-event expectancies; extremity; expectancy-confirming behavior; effortful correction processes, 19146
breast cancer; risk perception; optimism; cancer worry; positive expectancy; distress, 29071
call centers; optimism; job stress; job performance; job satisfaction; personal orientation; employee turnover; job absenteeism; work conflict, 24005
childhood adversities; parent-child relationships; dispositional optimism, 28482
childhood memories; repression; optimism; coping style; social judgment, 31587
cognitive process; project completion time estimation; optimistic predictions; future focus manipulation; individual differences; personality traits; task domains, 9640
cognitive strategies; mood; performance; defensive pessimists; strategic optimists, 31588
coping strategies; stress response; optimism; pessimism; controllability, 10593
Depressive Personality Disorder Inventory; quality of life; hopefulness; optimism, 30446
dispositional affect; work related outcomes; job performance; negative affectivity; positive affectivity; social service personnel, 9108
dispositional optimism-pessimism; attachment security; adult attachment dimensions; childhood family context, 22340
dispositional optimism; neuroticism; cardiovascular reactivity; female college students; psychological stress; anxiety, 34685
dispositional optimism; pessimism; gambling; expectations; losses, 10587
egocentrism; focalism; unrealistic optimism; unrealistic pessimism; life events; likelihood, 25368
egocentrism; unrealistic optimism; comparative optimism; comparative likelihood; judgment; event frequency; pessimism; egocentric-processes, 1237
emancipation; hope; optimism; empowerment; cognitive change; macro-structural change, 34407
gay men; HIV; high-risk sex; unrealistic optimism; motivation; cognition; gay males; homosexuals, 13891
health behavior; personality; religiosity; blacks; whites; optimism; racial differences; gender differences, 23459
health beliefs; optimism; health-related decisions; Health Belief Model; Asian, 26531
HIV; HIV optimism; high risk sexual behavior; gay men, 4917
HIV; HIV optimism; high risk sexual behavior; gay men, 4923
hope; optimism; disposition; measurement; discriminant validity; models, 24203
information & communications technology; pupil achievement; optimism; optimism-rhetoric, 5874
mental arithmetic; coping efforts; delayed-type hypersensitivity; academic optimism; cellular immunity; academic stress; positive moods; test response, 685
mindfulness stress reduction program; stress mindfulness; self-efficacy; optimism, 35587

Optometry—Serials

mother child relationship; adult children; schizophrenia; autism; Down syndrome; maternal well being; optimism; mediating role; relationship quality, 10657
nursing; avant-garde; humanities; optimism, 32637
online dates; relationships; online matchmaking; soul mate; online dating; illusory perceptions; compatibility, 31052
optimism; abstinence; self-efficacy; self-mastery; cognitive resources; recovering substance abusers; Oxford House model; twelve-step members, 17436
optimism; African-American college students; life event stress; academic stress; college student, 17722
optimism; African-American college students; life event stress; academic stress; college student, 5919
optimism; attributional retraining; test anxiety; academic achievement; voluntary course withdrawal; academic risk factor, 33137
optimism; coping styles; psychopathology; counseling outcomes; social support, 25353
optimism; coping; work resources; burnout; information service workers, 6030
optimism; decision making; postdecisional action phases; predecisional action phases; goal setting; implemental mindset; confidence; failure, 24464
optimism; job insecurity; stress appraisal; psychological well-being; teaching staff, 30177
optimism; pessimism; health outcomes; psychological health; physical health, 31582
optimism; realism; self-efficacy; cross-cultural comparisons, 25366
optimistic bias; perceived control; cigarette smokers; health risks; smoking cessation, 22271
personality traits; aggression; optimism; work drive; school absenteeism; agreeableness; conscientiousness; emotional stability; extraversion; openness, 34346
personality traits; life satisfaction; extraversion; neuroticism; cheerfulness, 31599
pessimism; optimism; emotional morbidity; breast cancer; surgery; patient characteristics; coping; illness beliefs; treatment decision making, 26510
pessimistic explanatory style; rate acceleration; increased anxiety; obtained scores; false feedback; basketball; anxiety; sports achievement, 2973
physical symptoms; low income; inner city; African American women; optimism; depressive symptoms; chronic illness; HIV, 26043
positive psychology; faith-based pathways; secular pathways; hope; optimism; age differences; middle-aged patients; older patients; cardiac surgery; distress; private prayer; sociodemographics, 23362
predictors of quality; adaptive functioning; goal directedness; active coping; optimism; regulatory focus; regulatory pride; neuroticism, 4452
quality of life; personality; optimism; goal adjustment; coping; well being; health; individual differences, 4470
religiosity; optimism; pessimism; African Americans; organizational religiosity; subjective religiosity; spirituality, 22180
revised life orientation test; filler items; social desirability; optimism; pessimism; bidimensionality; factor model, 18118
risk perception; risk acceptance; dispositional optimism; individual differences; decision making, 25384
role stressors; optimistic expectations; women's roles; caregiver; mother; wife; employee; stress, 31553
self-care behavior; health status; optimistic beliefs; physical functioning; ill patients; symptom report; diabetes; multiple sclerosis; optimism, 19846
self-efficacy beliefs; moderating effects; adolescents attitudes; psychological responses; social change; life satisfaction; optimism; educational success; German unification, 22091
stress; coping; confronting; abstract sexism; optimism; confronting discrimination, 25197
uncertainty orientation; individual differences; unrealistic optimism; uncertainty avoidance; individualism-collectivism, 28406
Optimism—Chapters
Dispositional optimism and recovery from coronary artery bypass surgery: The beneficial effects on physical and psychological well-being, 17128
Self-regulatory processes and responses to health threats: Effects of optimism on well-being, 1288
Optokinetic Nystagmus [See Nystagmus]
Optometry—Serials
accommodative function; ocular movement; accommodative amplitude; accommodative response; saccadic movements; eye movement; age group; optometric tests, 15959
examiner positions; heterophoria; cover test; objective alternating cover test; test results, 21266
optometric management; unilateral spatial inattention; visual neglect; stroke; traumatic brain injury; parietal cortex, 32563

- optometry; drug prescription; drug prescriptive authority; clinical psychology; drug therapy; professional group support; eye disease; drug treatment, 32893
- radiological weapons; chemical weapons; biological weapons; nuclear weapons; optometry implication; public health, 14369
- Oral Communication [See Also Code Switching, Oral Reading, Public Speaking, Self Talk, Singing, Speech Characteristics]—Serials**
- absolute pitch development; speech; tone language; music, 34268
- acoustic characteristics; speech perceptions; vowel production; simultaneous communication, 21972
- age differences; executive functioning; lifespan; verbalization; developmental functions; task preparation, 15964
- aging; language production; words; older adults; tip-of-the-tongue states; speech production; retrieval; model; linguistic representations; phonology; orthography, 13147
- aging; synthetic topic cues; intelligibility; dysarthric speech; augmentative and alternative communication, 20672
- aphasia; number of phonemes; number of syllables; syllabic complexity; spoken word production; analysis of errors; theories of word production, 29148
- aphasia; number of phonemes; number of syllables; syllabic complexity; word production; theories; analysis of errors; correct productions, 29159
- articulatory gestures; spatiotemporal organization; computational simulations; phrasal structure; speech production; phrase boundary; speech dynamics, 21956
- attention distribution; facial expression; spatial attention; auditory visual speech discourse; language processing; hcanlle capacity; intersensory processes, 24377
- attention focus; dialogue; pointing; gesture; target identification, 24870
- attention resources; visible speech encoding; adult age differences; auditory-visual language processing; facial features, 30642
- attention-deficit with hyperactivity disorder; hand gestures; teaching methods; scaffolding; speech, 33196
- auditory event-related potential; auditory vowel processing; young children; central speech sound encoding; central speech sound discrimination; mismatch negativity, 15941
- auditory stimuli; visual stimuli; temporal features; speech; talker identity, 27477
- automatic speech recognition software; speaking workload; task efficiency; speech production behaviors; spinal cord injury; syllables; dictation time; apnea frequency, 17424
- baby ears; recognition system; affective vocalizations; speech signal; simple acoustic measures; affective message; infant-directed speech; adult-directed speech, 4057
- basal ganglia; language generation; nonsense syllable; semantic category; frontal activity; word generation; phonological information; thalamic structures; anterior thalamic; generation tasks, 3615
- brainstem auditory circuitry; temporal patterns; echolocation sounds; speech processing; information processing; auditory midbrain; inferior colliculus, 9826
- Broca's area activation; inferior frontal gyrus; spoken language; sign language; cytoarchitectonic mapping; PET analysis; language production; bilinguals; complex movements, 3652
- caregivers; communicative participation; preschool children; language impairment; storybook reading, 19829
- cerebral dominance; gestures; handedness; hominids; language evolution; human evolution; speech; vocalization; natural selection, 15459
- cerebral palsy; augmentative and alternative communication; speech ability; vocabulary recognition; static vs dynamic display; children; adolescents, 26142
- classical RASTA filtering; efficiency; channel normalization; Markov models; vocabulary; continuous speech recognition; phase-corrected RASTA; acoustics, 4034

- coordination game; pragmatics; payoff; risk; relevance; speech; communication; behavioral game theory; pragmatic phenomena, 856
- cortical processing; temporal modulations; human speech; animal communication sounds; speech processing; auditory cortex, 9898
- couples; relationship quality; verbal inhibition; interaction; individual differences; disinhibition; men; women, 7626
- cross-modal matching; word recognition; temporal patterns; auditory displays; speech perception; visual displays; linguistics, 15254
- crossed apraxia; speech; right hemisphere lesion; words, 26119
- culturally responsive teaching; oral language comprehension, 29968
- depressed mothers; parent child communication; face perception; human sex differences; oral communication; speech perception, 13188
- developmental changes; event related potential; spoken word recognition; early school years, 28064
- disambiguation; non-text symbols; text-to-speech; TTS; Mandarin TTS systems; three layer classifier; oral expression; texts; decision tree; pattern table; natural language processing, 4063
- discreteness; interactivity; spoken word production; speech errors; nondisordered adults; brain damage, 16812
- discreteness; interactivity; spoken word production; speech errors; nondisordered adults; brain damage; aphasia; feedforward-only models, 16814
- discreteness; interactivity; spoken word production; speech errors; nondisordered adults; brain damage, 16813
- early reading skills; kindergarten; third grade; reading skill development; family literacy; oral language; emergent reading; intelligence; spelling, 26948
- elective mutism; object relations; child psychoanalytic psychotherapy; symbolism; speech, 5255
- emotional speech; automatic speech recognition; ASR; human-machine interaction; speech signal; emotional state; stress state, 6126
- emotional speech; human-computer interaction; database development; emotional speech databases; speech; emotion; scope; naturalness; context; descriptors, 6128
- emotional states; speech; emotion description; emotion-related biological changes; speech communication; rich descriptive system; emotion conceptualization, 4031
- emotional tone; speech; Parkinsons disease; basal ganglia dysfunction; emotional prosody, 20033
- emotional verbalization; health-related emotions; chronic pain patients; psychological adjustment; patient disclosure; interpersonal variables, 35187
- English as a second language; Koreans; Japanese; visual cues; context; talker's face; word position; articulatory gestures, 4041
- event related potentials; spoken language comprehension; sentence interpretation in discourse context; local and global meaning; word recognition; N400; ERP; consistency, 7083
- everyday talk; rhetorical criticism; racial stereotypes; public discourse; A. Simmons; integrationist & nationalist speaking; African Americans; oratorical influence; speaking ability; persuasion, 15868
- facial memory; verbal overshadowing; recognition criterion; verbalization; verbal description; identification performance; memory trace; implications for eyewitnesses, 24487
- fluency enhancement; adult stutterers; stuttering reduction; silent mouthing; linguistic equivalence; external speech; visual speech perception; speech signal; speech gestures; speech codes, 19833
- gender; pupils learning; educational achievement; discourse style; small group discussion, 23876
- gesture; speech; vocabulary explanations; English as a second language; teacher, 30001
- gestures; spatial working memory; speech production; spatial representations; lexical search, 33667
- grammatical gender preservation; semantics; word production; German words, 12679
- grammatical structure; turn-taking system; pitch accents; speech melody; boundary tones; task-oriented dialogues; syntax, 21957
- hallucinations; delusions; schizophrenia; external speech misattribution; externalising bias; cognitive self-monitoring, 28679
- hearing impaired; sign language; visual language processing; deaf; hearing disorders; cognition, 8349
- hearing loss; wide-dynamic-range compression; hearing impairment; audibility; linear amplification, 6259
- humor; interlocutor; interpretation; relevance theory, 7342
- Huntington disease; dysarthria; speech; phonation; oral motor performance; intelligibility; prosody, 16769
- imaging; functional MRI; evoked-response potential; speech perception; speech processing; psychophysics, 9618
- impoliteness; dynamic aspects; prosodic aspects; communicative strategies; face attack; social conflict; disharmony, 4323
- infants; vocal motor coordination; gestures; speech; gesture-speech system, 31108
- inflexibility; emotion in speech; speech development, 18894
- intelligibility; profound dysarthria; cerebral palsy; cues; strategies, 1853
- intensive voice treatment; Ataxic Dysarthria; woman; cerebellar dysfunction; speech intelligibility; communication; job related activity, 11127
- interlinguistic variation; second language speech act behavior; contextual variables; addressee status; addressee gender; English as second language, 28029
- intravenous tissue plasminogen activator; slurred speech; left hemiparesis; intraarterial t-PA; case management, 26124
- language skills; speech intelligibility; cochlear implantation; reading skills; early intervention, 23637
- language system; demographic trends; technology; international communication; written communication; spoken communication; multilingual, 18861
- large vocabulary continuous speech recognition; Korean language; merged morpheme; recognition unit; language model; pronunciation-dependent entries; Korean morphology; between-word phonology rule, 4048
- learning context; second language acquisition; oral fluency acquisition; study abroad context; learning Spanish; at home context; lexical access; college students; cognitive abilities, 29936
- lexical decision; coarticulatory cues; explicit speech segmentation; word stress; cross-modal fragment priming; auditory primes; speech fragment, 15257
- lexical decision; spoken word recognition; priming; recognition point, 9636
- lexical representations; sublexical representations; speech processing; spoken words; English; spoken word recognition; nonsense words; spoken word processing; language processing, 861
- lexical stress; stress priming; picture naming; speech production, 28015
- lexical-semantic retention; speech production; aphasia; phrasal planning; short-term memory; brain damage, 32172
- lognormal distribution; ataxic dysarthria; pause length; speech pauses; ataxic dysarthric speech; words; phonemes; stop consonants; speech analysis; spontaneous speech, 1741
- mental representation of gesture; hand-waving; visuospatial working memory; verbal working memory, 27447
- metalinguage; face concept; politeness concept; Chinese; English; Japanese, 4327
- mitigated directness; Honglou meng; directive speech acts; politeness; Chinese men; illocutionary transparency; individual speech; Chinese culture; language, 21973
- modern behavior; origins; autonomous speech; FOXP2 gene; language development; human evolution, 15854
- morphological errors; phonological errors; aphasic speech, 11281
- mother child interaction; contextual variability; conversation; speech patterns; maternal speech, 10113
- movement patterns; anterior tongue; functional independence; vertical displacements; swallowing, 15248
- multimodality; talker variability; noise; immediate serial recall; audiovisual speech; coding; working memory, 18401
- myths; symmetrical dichotomy; asymmetrical dichotomy; public relations; South Africa; oral communication, 10457
- Nepali requestive acts; Linguistic indirectness; politeness; speech acts; conversational goal; language use; sociocultural factors, 4059
- neural responses; speech sounds; central auditory system; evoked potentials, 9917
- novel sentences; dual process language model; speech; language behaviour; language creativity, 34229
- offline learning; autogenous speech; speech role; birdsong; speech learning; auditory responses; anterior forebrain pathway; song recognition; speech perception, 9864
- oral examinations; examination reliability; medical education; decision making skills; professional values; membership examination; oral component, 21198
- oral examinations; examination reliability; medical education; decision making skills; professional values; membership examination; oral component, 21201
- oral proficiency test; international teaching assistants; oral proficiency interview test; linguistic proficiency; teaching assistants; verbal behaviors, 14979
- Oral Trail Making Test; limitations; Trail Making Test; older patients, 15082

orofacial muscle activity; speech rate; speech intensity; jaw movement distance, 9614

orthognathic surgery; speech; breathing; acoustic nasalance; velopharyngeal function; nasal cross-sectional area; nasal patency; cleft palate; cleft lip; rhinomanometry; nose; maxilla; mandible, 5463

phonation offset; tracheoesophageal speech; laryngeal speakers, 24622

phonetics; phonology; speech production; cleft lip; cleft palate, 26041

phonological awareness skills; phonemic perception; speech; language skills; vocabulary skills; literacy; socioeconomic status, 10206

phonological awareness; spoken language; reading acquisition; learning to read, 10170

phonological encoding; time course; speech production planning; event related potentials; metrical encoding; syllabification; stress pattern; syllables; psycholinguistics; internal monitoring, 7073

phonological neighbourhoods effects; speech error rates; speech production; phonological processing, 28021

phonological priming; children; picture naming; stuttering; speech reaction time, 11123

phonological structure; neural substrate; speech sounds; brain mapping; brain regions; syllable; phoneme, 3800

phonological underspecification; mapping mechanisms; speech recognition lexicon; phonological awareness, 28027

politeness phenomena; Hindu sector; South African Indian English speaking community; speech acts; apologies; requests, 4322

prefrontal activation; intonation perception; emotion perception; Chinese language; prosodic stimuli; speech prosody; hemispheric differences; auditory discrimination, 3772

prosody modeling; soft templates; prosody generation model; text-to-speech systems; linguistic theories; articulatory model; multiple languages; speech acts; speech style; accent categories, 4047

pseudoword naming; Spanish; syllable frequency; speech production; word frequency, 27978

psychoanalytic communication; meaningful speech; curative speech; personal communication; analysis; transformation; self-discovery; analysis and hopes, 20252

punctuation marks; language; syntactic construction; lexical items; modern Hebrew; written mode; syntactic construction; morpho-syntactic integration, 847

reduced auditory effort activity; childhood selective mutism; speaking behavior; comorbidity, 26010

reflective verbalization; question-based reflection; design problem solving, 18368

reported speech; epideictic rhetoric; epideictic oratory; Native American powwow rhetoric; reported speech; analytic and formulaic modes; ceremonial messages; validity authority; liminality, 31075

schizophrenia patients; speech; communication disturbances; referential communication; nonschizophrenic siblings; reference failures, 32062

secondary language; word structure, 7336

semantic memory; verbal working memory; event-related brain potential; homographs; comprehension errors; lexical access; lexical selection; lexical integration; language, 24516

sensorimotor coupling; speech development; model; vocal production; motor mirror neurons, 21717

short emotional non-speech expression; affect bursts; emotional content; emotion recognition; emotional content; emotional meaning; voice quality; prosody; contextual association, 3342

shorthand; syntactic ellipsis; subsentential expression; speech acts; pragmatic determinants, 34218

simultaneous communication; speech production; speech perception; deaf; hearing impaired; speech development, 29207

single motor unit activity; electromyographic activity; consonant-vowel syllables; intraoral air pressure; velar movement; levator veli palatini; high pressure consonants; blowing tasks, 15870

single-word intelligibility; repaired cleft palate speakers; test construction; Cantonese speakers, 26074

slurred speech; left hemiparesis; stroke; right middle cerebral artery; malignant middle-cerebral-artery edema syndrome, 22916

social anxiety; speech stressor; autonomic reactivity; habituation; recovery, 7133

speaking; monitoring addressees; understanding, 9645

specific-word frequency effect; homophones; speech production; picture naming, 9704

speech anxiety; speech anxiety thoughts inventory; scale development; psychometric data; cognitions, 14998

speech content analysis software; feigned depression; lexical choices; transcript analysis; neutral stimulus, 33466

speech intelligibility; simultaneous communication; hearing impairment, 23053

speech patterns; early life; tritone paradox; tones; tone pitch classes; tone octave placement, 33743

speech processing; bats; animal behavior; animal neurophysiology; vocal learning; audio-motor integration; sound production; echolocation, 9832

speech production; implicit priming paradigm; word-form encoding; syllables; word formation, 10097

speech production; left anterior insula; motor cortex; speech production; articulation; phonation, 15227

speech representation; speech dominance; seizure focus; age of onset; handedness; laterality; sex, 5058

speech; emotion; Speech and Emotion Workshop; International Speech Communication Association; ISCA; speech communication, 4035

speech; language; The Waste Land; poetic structure; literary representation, 31045

speech; young infants; verbal signals, 24988

spoken language; initial learning; reading; writing; verbal deficit theory; phonemic awareness, 36168

statements; questions; verbal content; tone of voice; voice intensity; perceptions; politeness, 4049

structural equation model; auditory processing; reading success; Woodcock-Johnson Psycho-Educational Battery-Revised data norms; cognitive performance; oral language skills, 13164

sublexical information; morphological information; speech processing; phonemes; syllable boundary; speech segmentation; sequence monitoring, 28031

subthalamic nuclei stimulation; speech; Parkinson's disease, 5059

subthalamic nucleus stimulation; speech initiation hesitation; Parkinson's disease; frontal lobe, 8282

suicidal preoccupation; unresolved bereavement; bereaved widow; cotexting; therapist; story verbalization, 32359

syllable boundaries; speech production; phonological encoding; syllabification, 27997

syllable frequency; syllable structure; apraxia of speech, 11222

syllable magnitude; acoustic signals; articulatory signals; conversation; speech communication; jaw movement; time values; rhythmic organization; syllable timing; correction, 3341

syntactic comprehension; utterances; neural responses; posterior inferior front region; speaking; language production; caudal Broca's area, 21604

telephone communication; synthesized speech; dysarthric speech; speech types; telephone communication; speech intelligibility, 26182

temporal envelopes; auditory system; auditory neurons; speech, 9840

topical profiling; everyday talk; conversation topics; topical patterns; topical emergence & co-occurrence & inventories, 34225

triphones clustering; phoneme similarity estimation; multilingual acoustic modelling; multilingual speech recognisers; agglomerative clustering algorithm; multilingual triphones, 4043

virtual reality; computer-based simulation; immersion level; personalized speech; nonpersonalized speech; science learning; educational games; retention; problem solving, 14648

visual speech; amodal processing; priming; linguistic processing, 27460

vocal; emotion communication; emotional expression; emotional state; vocal emotion; voice; speech, 4055

voice inversion effect; speech; gender identification task, 24871

word recognition; listening preferences; lexical processing; spoken word; speech affect, 31184

word-of-mouth; social network; collaborative information filtering; Altered Vista; collaborative learning; web sites; preservice teachers; inservice teachers, 18852

writing disorders; dissociation; speech; writing; aphasia, 32139

writing; phonology; speaking; homophone usage, 34226

zoo visitors; exhibit viewing; zoo experience; oral interpretation; public animal training, 3012

Oral Communication [See Also Code Switching, Oral Reading, Public Speaking, Self Talk, Singing, Speech Characteristics]—Chapters

Development of spoken language by deaf children, 23059

Functional and structural imaging in the study of auditory language processes, 15645

Mirror neurons, vocal imitation, and the evolution of particulate speech, 4066

Presenting your research, 294

Oral Contraceptives—Serials

chronic pain; socio-demographic factors; primary health care; oral contraceptive; social class; prevalence, 29029

knowledge scores; oral contraceptives; communication about contraception; high school students; gender, 986

oral contraceptive; aggression; cortisol; serotonin; monkeys; heart rate; behavior; hypothalamic-pituitary-adrenal axis function; neurobiology, 7198

psychotic symptoms; antipsychotic treatment; progesterone treatment; oral contraceptives; menstrual cycle, 20382

Oral Reading—Serials

age of acquisition; French word reading; reading aloud, 27489

children; word decoding skill; lexical decision task; oral reading; second grade students; test validity; test reliability, 27288

curriculum-based reading measurement; oral reading fluency, 18182

decontextualized language strategies; low socioeconomic status; storybook reading; mothers; preschool age children, 34514

observational learning; shared book reading; alphabet knowledge; letters, 36154

peer-assisted instruction; small group teacher-directed instruction; first grade readers; phonemic segmentation; instructional methods; oral reading fluency; reading performance; general education, 17655

phonological processing; oral language abilities; fourth-grade poor readers; oral language skills; reading abilities; word attack; word recognition; comprehension; verbal working memory; naming, 13165

reader's emotions; poem interpretation; think-aloud group; verbalized thoughts; think-and-feel-aloud group; elaboration types; poetry meaning; poetic devices; poetry interpretation, 14643

reading comprehension; reading ability; silent reading; oral reading, 12151

reading fluency; prosodic reading; expressive reading; reading prosody; decoding speed; reading comprehension; oral reading; suprasegmental features; young readers; reading development, 13209

seriality; phonological encoding; object naming; reading; speaking; words, 33822

shared book reading; children's emergent literacy skills; parental discipline practices; physical punishment; nonverbal reasoning skills, 31378

short-term sentence recall; acoustic-sensory information; conceptual & phonological information; reading silently; reading aloud, 326

stress regularity; reading aloud; polysyllables; Italian words; stress patterns; stress consistency, 27977

synchronous speech; phonetics; visual information; extensive practice, 21959

teacher-pupil dialogue; guided reading sessions; interaction quality; literacy hour; reading comprehension; elementary school students; elementary school teachers, 2821

testing accommodations; read-aloud accommodation; reading achievement tests; teacher attitudes; student attitudes; actual effects; perceived consequences; disabled students; eighth-graders; teachers, 12203

topic control; shared storybook reading; mother-child interactions; language impairments; discourse, 4814

word spacing; letter spacing; reading books, 30042

Organ Donation [See Tissue Donation]

Organ of Corti [See Cochlea]

Organ Transplantation—Serials

bone marrow transplantation; hematopoietic stem cell transplantation; chronic myelogenous leukemia; pre-transplant predictors; survival, 35621

borderline personality disorder; psychiatric considerations; psychiatric consultations; psychosocial evaluation; liver transplantation; treatment compliance; suspected attempted drug overdose, 10918

Cancer Rehabilitation and Evaluation System short form; rehabilitation needs; high-dose chemotherapy; stem cell transplantation; disease course; treatment; quality of life, 9460

cardiac autonomic modulation; heart rate variability; physical health; mental health; major depressive disorder; heart transplant, 19275

citalopram; quality of life; lung transplant recipients; chronic obstructive pulmonary disease; mortality; anxiety; depression, 23298

cognitive processing; mothers; children undergoing bone marrow/stem cell transplantation; maternal adjustment; fear; intrusions; avoidance; distress; hospitalization; recovery, 16285

difficulties; support needs; renal transplantation; peer relationship issues; medical conditions; schools, 12097

eye clinic; cornea transplantation, 35625

illness intrusiveness; self concept; engulfment; bone marrow transplant patients, 4928

life decisions; middle school students; death decisions; health education; organ donation; tissue donation; family discussions, 35712

liver transplant recipients; alcohol dependency; deaths; liver grafting, 23364

maternal beliefs; child bone marrow transplantation; prior trauma; negative life events; life stress; self-worth; world view, 35648

organ transplant; brain-dead donors; doctors perspective, 29492

organ transplantation; cystic fibrosis; CF; medical interventions; risk perceptions; gene replacement therapy; donor characteristics; autosomal recessive genetic disease; donor organs; health, 17179

quality of life; peripheral blood stem cell transplantation; symptom severity; cancer, 17163

storytelling practice; dialogic management; transplant support group; individual identities; collective identities; chronically ill patients; identity construction, 26201

Organic Brain Syndromes [See Also Alzheimers Disease, Dementia]—Serials

bupropion; apathy management; depression; organic brain disease, 23227

Organic Therapies [See Physical Treatment Methods]

Organizational Behavior [See Also Employee Interaction, Organizational Effectiveness]—Serials

absorptive capacity; treatment techniques; innovative treatment; private treatment organizations; substance abuse; environmental scanning; workforce professionalism; satisfaction data, 20646

alliance formation; inter alliance rivalry; alliance competition; group dynamics; competitive engagements; firm specific variables, 6038

American Psychological Association; grants; contract activity, 29838

assisted living; consumer discourse; cultural construction; organizational strategies; consumer choice; consumer independence, 35733

assisted living; consumer discourse; cultural construction; organizational strategies; consumer choice; consumer independence, 35722

auditing cost; cost reimbursement; information manipulation; penalty rate; cost sharing procurement, 33300

behavioral agency theory; stock repurchase program; shareholders; business executives, 24022

behavioral changes; organizational culture; globalisation, 36370

behavioural concept; economic concepts; strategic management; risk management, 23981

boundaries; role conflict; work; family; communication network; symbolic interaction approach; organizations; boundary characteristics; organizational fields; virtual organization; social networks, 36397

business teams; business teams performance; team performance; connectivity; positivity; negativity; nonlinear dynamics model, 20950

business-to-business relationships; economic interaction; commitment; trust; continuity expectations; Marks & Spencer; suppliers; social construction, 6036

Chinese societies; managers; ethical ideology; peer reporting behavior, 24011

collectivistic values; individualistic values; group dynamics; productivity; China; goal interdependence, 24025

complex social identity; threat; organizational identity; work group transition; consulting psychologists, 36396

conflict management styles; traditional organisations, 30173

construct validation; organization socialization; scale development; newcomer, 230

contract choice; offshore contracting; software development; software outsourcing; project profits; software vendors; vendor characteristics; client characteristics; project characteristics, 14783

corporate citizenship practices; internal corporate culture; external corporate culture; customer loyalty; organizational commitment, 30215

corporate communication; organizational communication; management communication; project marketing; project strategy development, 9120

corporate entrepreneurship; organizational performance; organizational wealth creation, 27093

corporate intelligence; strategic marketing; competitors; transformational marketing, 30273

corporate reputation; social performance; organizational legitimacy; firm's performance; managerial implications; societal expectations; theoretical model; research implications; critical point, 17831

corporate responsiveness; social responsiveness; social responsibility; human resource management; Spanish saving bank sector; employee interests; organizational profitability; strategic value, 12255

cost-minimization; international transfer; multinationals; country-of-origin; centralization; decentralization; cross-national personnel policy; human resource management; human resource management, 17830

counterproductive work behavior; employees, 17859

coworkers; procedural justice inferences; accommodation; workplace; disabled employees, 20945

creativity fostering; technology; knowledge; business success; test development; factor structure; test validity; test reliability; questionnaires; high-tech organizations, 15115

decoupling task; relationship conflict; intragroup emotional processing; intragroup conflict processes; group members; negative emotionality; interactional norms, 33310

DEMO methodology; organisational modelling; knowledge information system; organisational infrastructure; organisational behaviour; business processes; norms, 6043

dialectic; contradiction; double bind; employee reactions; organizational tension; correctional facilities; organizational contradiction, 33290

direct employee participation; Europe; organizations; participation determinants, 23995

drug testing; work; illicit drugs; workplace issues, 2902

dues paying; theoretical explication; conceptual model; attribution; justice; impression management; equity, 30117

educational assessment; assessment activities; social context; principle of fitness-for-purpose, 27391

employability; psychosocial construct; career-related changes; economy; career identity; personal adaptability; social & human capital; reciprocal relationships; organizational behavior; jobs, 30209

employee risk preferences; organizational control; employee attitudes; pay for performance; behavioral outcomes, 30206

employer benefits; worker health insurance; standard economic theory; employment based health coverage, 12244

employment relations; health service; organizational analysis; word meaning; metaphor; salaries, 9056

environmental determinants; cost sharing; economic agents, 36357

ergonomics improvements; medium enterprises; implementation processes; small enterprises; organizational change; problem solving, 36384

exchange fairness; employee performance; organizational politics; procedural justice, 27094

executive coaching; deep interpersonal communication; coaching model; therapeutic intervention, 27019

executive coaching; white collar crimes; ethics; business demands, 2940

executive education; senior management; business organizations, 36317

experimental oligopolies; competition; Cournot markets; industry, 36379

fairness perceptions; assessment practices; procedural fairness; procedural justice; organizational staffing; test-taker reactions; human resource assessment, 12261

family-friendly benefits; social-cognitive perspective; working conditions; benefit use; benefit use intentions, 30233

female corporate managers; management experiences; good old boy network; glass ceiling; corporate climate, 27063

financial services industry; industrial insurance brokers; interorganizational networks, 36400

firm performance; human resources orientation; India, 17875

foreign expansion; service industries; human capital intensity; foreign entry mode; expatriate staffing decisions; separability, 23952

framework; multiple measures; decisions; decision reliability; decision validity; promotion decisions; high stakes testing; high-stake, 218

gender differences; perceived disciplinary fairness; employees; behaviour; disciplinary discussion, 36310

gender; underreporting of chargeable time; underreporter characteristics; public accountants, 17832

gendered rationality; sociological conceptions; philosophical conceptions; rationality; masculinity; organizational discourse, 36395

general management theory; Executive Behaviour; organization theory; scientific management tradition; top managers; practical rationalization issues, 6021

generic advertising; public good; inter-firm cooperation; adaptive aspirations; declining sales trends; competing stores, 12307

gifting practices; interorganizational relations; electronics components; moral economy; capitalist societies, 14779

global hyper-competitiveness; staffing marketing positions; human resource management; global managers; inter-organizational relationships, 24015

global political economy; Japanese banks; global managers; financial institutions; organizational culture; transnational social spaces; careers; expectations; internationalization, 17870

Greenpeace campaign; consumer behavior; consumer opinion; brand image; corporate power, 30258

grounded theory methodology; corporate environment; communist party; supervisory board; Chinese corporate environment, 30231

group discussion; performance; coworkers; perceptions; private; motivation; beliefs; collective reality; discussion behaviors; task competence, 2931

growing literature; market capitalism; cultural contexts; factor analysis; free market, 16111

hardiness; personality trait; organizational citizenship behavior; obedience; participation; loyalty; unionized employees, 7708

history; Synectics; creative problem solving techniques; creative processes; business needs; meeting models; group discussion, 17799

Volume 91 SUBJECT INDEX

Organizational Commitment—Serials

job perceptions; job attitudes; positive affect; negative affect; job satisfaction; organizational commitment; turnover intentions; job burnout, 2919

job satisfaction; leadership style; organizational commitment; organizational culture; Australian managers; Hong Kong managers, 27059

job status; job insecurity; organizational citizenship behavior; organizational commitment; organizational identification; job satisfaction; work values; teachers, 29944

job stress; job performance; Chinese work values; organizational commitment, 20936

military career role; reflected self-image; commitment; career self; career identity; actual self, 27085

nurses; managers; prior commitment; layoff survivors; coping; organizational downsizing; health symptoms; job satisfaction; intention to remain; job insecurity; burnout; job alienation, 9088

opportunity; careers; organizational commitment; attachment; job design; job enrichment; employee development mobility, 2918

organizational careers; institutional structuring; organizational capabilities; collective problem solving; authority sharing; employee commitment; corporate control, 2943

organizational citizenship behavior; professionalism; justice perceptions; nurses' attitudes; Israeli nurses, 29903

organizational citizenship; coworkers; fellow employee attitudes; supervisor abusiveness; satisfaction; employee attribution, 24004

organizational commitment; human values; cross-cultural comparisons; continuance commitment; affective commitment; Hungary; Italy; UK; US, 36376

organizational commitment; somatic complaints; health effects; workload; distress level; early retirement scheme; downsizing, 6026

organizational commitment; worker mobility; positive organizational scholarship; worker commitment, 20935

organizational cooperation; elderly protection; protective services; public welfare agencies; network structures; organizational roles, 32706

organizational justice; careerist orientation; downsizing, 36267

person-organization fit; organizational commitment; value congruence; job satisfaction; effect sizes, 9109

person-organization fit; socialization tactics; job satisfaction; organizational commitment; employee perceptions, 36329

policy implementation; agency personnel policies; organizational development; employee attitudes; organizational commitment, 33309

pro-political behavior; job satisfaction; affective commitment; politics perceptions; work environments; police officers, 9096

professional salespeople; sales performance; emotional intelligence; customer orientation; customer-oriented selling; organizational commitment; customer satisfaction, 27150

professional withdrawal cognitions; organizations with withdrawal cognitions; discriminant validity, 2925

psychological contracts; feature-oriented assessment; employees; human resources practices, 27108

psychological ownership; employees; organization ownership; employee attitudes; organizational citizenship behavior; ownership feelings; work attitudes; work behaviors, 27113

realistic job previews; continuance commitment; sales force performance; training perceptions, 14752

sales manager-salesperson relationships; trust-building processes; salesperson trust; sales manager; job satisfaction; relationalism; organizational commitment; turnover intention, 14765

self-sacrificial behavior; crisis situations; charismatic leaders; transformational leader; leadership theories; situational factors; leader behaviors; organization commitment; social perception, 31484

side-bet theory; three-component model; organizational commitment; high-sacrifice continuance commitment; turnover intention, 30119

social identity theory; perceived organizational support; organizational commitment, 9092

social interactions; working conditions; activity level; social stressors; job satisfaction, 30199

spatial boundaries; high commitment organizations; organizational boundaries; organizational life; social geography; spatial metaphor; culture management programme; control; physical environment, 36372

subgroup interests; reputations; organizational identification; cooperation; individual decisions; social dilemma; collective behavior, 30193

supervisor satisfaction; organizational commitment; organizational justice; role states; pay satisfaction; turnover intentions; supervisor satisfaction; withdrawal cognitions, 30180

union commitment measurement; methodological challenges; methodological problems; commitment scores; measurement invariance; invariance tests; statistical independence assumption, 30551

union commitment; informal union activity; activity participation; union participation; union activities; labor unions, 33222

work environment; workers; job satisfaction; employee commitment; workplace morale; absenteeism; intent to quit, 12317

Organizational Commitment—Chapters
High-performance work systems and occupational safety, 2969

Organizational Crises—Serials
crisis communication; consumer responses; organizational crisis; crisis severity; causal attribution; organizational responsibility, 36387

health crisis; soft drinks; marketing campaign; crisis management; organizational performance; consumer trust; consumer loyalty; Coca Cola; corporate image; global reputation; Belgium market, 9122

hotel business; Severe Acute Respiratory Syndrome; SARS; international travellers; hotel guests; hospitality & hotel industry; epidemic crisis, 12239

organizational apologetics; crisis response; eulogy; image repair; image maintenance; situational characteristics, 33302

organizational constraints; innovation; alliance formation; technological distance; local search; knowledge recombination; inventor mobility; geographic proximity; patent citation patterns, 2939

Organizational Culture [See Organizational Climate]

Organizational Development—Serials
academic research; group culture; organization development; group systems; telecommunications start-up organization; feedback; rewards; goals; consulting practice, 2936

education; school improvement; organizational development; organizational change, 17595

emotional intelligence; accountability; executive coaching; authority; executive performance & development; organizations; responsibility; interpersonal & informational & decisional roles, 2911

employee empowerment; organizational development; organizational change, 17772

employee wellness; organizational development; organizational change, 17865

executive coaching; white collar crimes; ethics; business demands, 2940

executive management; work environment; intercultural skills; organizational development, 2873

human resource development; workplace learning; organizational training; informal learning, 30145

human resource management; competitive advantage; high-involvement work practices; practice adoption, 17871

human resource management; multinational companies; globalization; HRM policies; R&D personnel management; national differences; internationalization; competitiveness; recruitment; mobility, 17788

international joint ventures; IJV; knowledge management; value creation, 23979

interorganizational partnerships; social network theory; police department; community development; inchoate hierarchies; organizations in development; unstructured cooperation, 30228

journal editorial; outstanding papers; special issue; review process; Eastern Academy of Management, 20110

knowledge-creation; knowledge management; economic development; management studies, 14776

leader development; development theories; development reinforcement; organizational culture; organizational success; development program; organizational development, 14761

organization development; thought leaders; pioneers, 17878

organization development; thought leaders; pioneers, 17879

organizational boundaries; organization theory; boundary properties; framework; virtual organization; boundary characteristics; composite boundaries, 36378

organizational change; fidelity sources; planned structure; re-engineering programs, 9123

organizational consultants; counterproductive aspects; accountability; coordinator of consultants; client system; lessons learned; consulting psychology; organizational change, 14739

organizational development; organizational functioning; organizational dynamics; natural sciences; OD interventions; complexity science, 2927

organizational strategy development; management information system; power; information system strategy; ISS, 6041

policy implementation; agency personnel policies; organizational development; employee attitudes; organizational commitment, 33309

Organizational Effectiveness—Serials

power; human relationships; organization development; organizational performance; organizational power; organizational effectiveness, 2930

project managers; organization development; organizational change; information technology; project management, 14724

psychanalytic perspective; transference; organizational consulting; counter-transference; consultation process, 4493

relational characteristics; ecological constraint; formal social group composition; homophily; entrepreneurs; founding team structure; isolation, 7621

research & development; ownership structure; R & D investments; United States; Japan, 24017

social capital; entrepreneurship; management development; organization emergence; organizational development, 27115

special issue: Eastern Academy of Management; outstanding papers; selection process; conference, 20914

specific knowledge; learning options; business issues; time; space; training methodologies; development methodologies; training; development; organizations; employee performance, 17815

strategic innovation; Internet; mobile communication; entrepreneurial strategies; new markets creation; success factors; strategy; paradoxical management; core competency, 12306

structurally similar knowing; double periphery; geographic periphery; hierarchical periphery; peripheral knowledge translation; customer interaction; expert knowledge; local knowledge, 30232

transformational leadership skills; organizational development; organizational change; South Africa, 17860

venture growth; entrepreneurial traits; skill; situationally specific motivation; chief executive officers, 33251

Organizational Development—Chapters
Creating and sustaining diversity and inclusion in organizations: Strategies and approaches, 2886

Distance learning in organizations: A review and assessment of future needs, 17889

Learning from experience in high-hazard organizations, 6056

The Metropolitan Police, London: A personal account, 18049

Organizational development and change, 6069

Organizational Effectiveness—Serials
account management; advertising agency-client relationships; advertising agencies; agency evaluation; relationship development; agency termination, 30275

acute-care hospitals; complexity absorption response; business-level strategy; organizational structure; analytical comprehensiveness; hospital performance, 29751

basic skills; business competitiveness; policy initiatives; economic performance; skill level; basic skills training; information technology skills; occupational skills, 20910

business performance; Diversity Research Network; gender diversity; race; diversity-performance relationships, 17861

environmental scanning; total quality management; business planning; medium-sized enterprises, 27066
 financial institutions: financial service; financial retail sector; empowerment; competitiveness; employee attitudes, 6028
 financial performance; marketing performance; employee turnover; intra-organizational change, 30274
 firm performance; human resources orientation; India, 17875
 firm performance; leadership; chief executive officer; shareholder value; compensation, 33228
 firm performance; social capital; Russian entrepreneurs; social embeddedness; positive impacts; structural embeddedness, 2924
 firm performance; team cohesion; firm managers; attribution, 36392
 Gallop organization; Ken Tucker; organizational performance; management systems, 30208
 goals; performance; marketing channels; manufacturer designed distribution system; marketing functions; market power; business circumstances; re-seller firms; environmental imperatives, 14844
 group diversity; cultural diversity; group performance; heterogeneous groups; group learning; organizational effectiveness, 36300
 health plan; quality of care information; voluntary reporting; health services; managed care organizations; plan specific performance; healthcare quality; women's health indicator; public access, 5582
 high reliability organizations; reliability seeking organizations; high hazard environments; intensity of innovation; flexibility; employee relations; training; financial performance; software firms, 2941
 hubris; Gestalt perspective; invulnerability; omnipotence; messianic; ignorance; groupthink; employee beliefs, 30200
 hubris; Gestalt perspective; invulnerability; omnipotence; messianic; ignorance; organizational development; groupthink; employee beliefs, 30190
 hubris; Gestalt perspective; invulnerability; omnipotence; messianic; ignorance; employee beliefs, 30189
 human resource management; human resource practices; multinational enterprises; firm performance; strategic human resource management, 23966
 human resource policies; human resource management; teamworking; United Kingdom public sector, 17793
 human resource practices; organizational commitment; business environment; human resource management; organizational effectiveness; organizational goal, 23959
 imputed costs; semiconductor equipment; supply chain; capital goods; order fulfillment; purchase order; shared forecasts; management decision making; economics, 14754
 industrial firms; India; market orientation; business performance; economic reform; competitive intensity; market dynamism; performance indicators; executives; marketing decisions, 9133
 information framing; corporate reputation; message source; information type; stakeholder attitude; performance information; numeric information; verbal information, 24021
 information technology; payoff; structural variables; firm-level; empirical research, 9125
 intangible resources; firm sustainability; firm profits; competitive advantage; Tobins q; performance differences, 33306
 intangible resources; international diversification; Spanish firms, 36367
 integrated manufacturing; company performance; empowerment; manufacturing technology; just in time inventory control; total quality management; manufacturing companies; job enrichment; employee skill, 33299
 inter-organizational cooperation; intra-organizational cooperation; agile manufacturing; competition; quality of production, 36407
 interorganizational learning; intraorganizational learning; organizational learning processes; organizational exploitation; organizational exploration, 12305
 interorganizational performance; opportunism; relational safeguards; goal congruence; trust; idiosyncratic investments; transaction costs, 14786
 interpersonal relationship; client-therapist relationship; emotional intelligence; servant-leadership; organizational performance; management organizations, 30224
 job analysis; human resource management; organizational performance; information system; strategic planning; top management; competitive advantage, 36292
 latent errors; organizational antecedents; adverse consequences; contextual features; investment bank collapse, 2937
 leadership research; leadership cultural-specific; leadership cultural-universals; international context; cross cultural context, 33220

leadership research; leadership cultural-specific; leadership cultural-universals; international context; cross cultural context, 33227
 leadership skills; team reflexivity; team performance; leadership development; training program; leadership learning, 33258
 leadership; managers; subordinate; organizational performance; authority delegation, 33271
 learning organization; organizational performance outcomes, 36406
 managerial characteristics; organizational performance; individual manager; attributes; abilities; upper level managers; organizational outcomes; financial success; employee morale, 33226
 managerial ethics; managerial work; business ethics; corporate managers, 23993
 managers' risk preferences; March-Shapira model; survival; aspiration levels; organization performance, 36259
 marketing communications; Web site capabilities; Internet sales performance; navigability; interactivity; multimedia design, 6117
 marketing strategy; manufacturing industry; senior managers; organizational strategies; operations strategy; technology strategy; organizational performance, 30252
 multi-party joint ventures; dyadic joint venture; JV effectiveness; management; relational investment; formal control, 2910
 multisource feedback; performance improvement; business improvement, 27110
 organization management, 12274
 organizational change; environmental structure; conscious awareness; organizational knowledge; change strategies, 9111
 organizational culture; human resource management practices; managers; competitive strategy; organizational performance, 36363
 organizational effectiveness; human resource management; managerial positions; management studies; HRM practices; women; job promotion, 24014
 organizational effectiveness; professional organizations; standard & routine & non-routine processes; quality control; errors; quality management; routinization; standardization; systems, 12308
 organizational performance; corporate culture; business companies; organizational processes, 30217
 organizational performance; organizational virtuousness; organizations; organizational sciences, 20941
 organizational script strategy; shared meta-scripts; continuous learning; mission briefing & debriefing protocols; cognitive demand; requisite variety; high reliability; armored brigade; Israel, 2944
 organizational success measures; financial measures; market measures; process measures; people measures; future measures; Balanced Scorecard, 17825
 organizational work; sexual therapy; child therapy; organizational effectiveness; Gestalt psychology, 29260
 outpatient substance treatment organizations; organizational efficiency; administrative burden; organizational productivity, 8866
 ownership structure; expropriation; business performance; group-affiliated companies, 24010
 ownership; organizational performance; CEO stock options, 23988
 performance management; performance appraisal; employee performance; human resource management; employee perceptions; organizational psychology; organizational performance, 36299
 power; human relationships; organization development; organizational performance; organizational power; organizational effectiveness, 2930

Volume 91 SUBJECT INDEX

Organizational Learning—Serials

professional practice; savvy learner; self managed learning; consciousness; managerial learning; self directed learning, 36248

service development; organisational learning; model testing; learning model, 36399

skill upgrading; informal training; skill acquisition strategy; Indian auto mechanic; developing countries, 30142

social capital; project team; knowledge integration; social bonding; social bridges, 30222

specific learning processes; managerial decision; intensive learning; decision outcomes; positive outcomes; learning process; managerial decision-making; organizational learning, 20922

structurally similar knowing; double periphery; geographic periphery; hierarchical periphery; peripheral knowledge translation; customer interaction; expert knowledge; local knowledge, 30232

student outcomes; school leadership; transactional leadership; broader understanding; academic achievement; leadership practices; research questions; academic outcomes; secondary schools, 17578

tacit skills; learning environments; workplace learning; knowledge; work performance; competences, 36251

workplace experience; workplace learning; design engineers; coping behavior; workers' perceptions; business organizations; collaboration, 30178

workplace learning; national competitiveness; education experience; learning technologies; workplace knowledge, 17802

workplace learning; organizational learning; local terrain; global terrain; clients; users, 36283

workplace learning; Taylorism; learning systems; mass production; total quality management, 36296

workplace teachers; workplace learning; novice-expert dichotomy; apprenticeship; expertise, 14740

Organizational Learning—Chapters

Brokering knowledge: Linking learning and innovation, 6060

Learning from direct and indirect experience in organizations. The effects of experience content, timing, and distribution, 2945

Learning from experience in high-hazard organizations, 6056

Organizational Merger—Serials

human resource development; organization merger; organization acquisition; business managers, 30175

integration; mergers; acquisitions; management tasks; monitoring integration, 17822

international joint ventures; IJV; knowledge management; value creation, 23979

mergers; acquisitions; firms' espoused values; postmerger performance; initial differences; shareholder value, 36364

metaphor; cross-border merger; social identity; cultural identity; common future image; us and them image, 6048

National Association of Student Personnel Administrators; American College Personnel Association; association consolidation, 20775

organizational consolidation; American protestant denominations; religious sector; schisms; organizational merger, 28201

organizational psychology; work psychology; business environment; technological advancement; corporate culture change; mergers; personnel selection, 36265

sequential divestiture; initial public offerings; merger; acquisition; private firms, 33301

target reputation; strategic objectives; acquisitions; target resources; resource deployment; acquirer satisfaction, 30227

Organizational Objectives—Serials

decision-making; project completion; safety; time; goal substitution; behavior fluidity, 14784

flexible work-time; employee autonomy; employee self-determination; employee-related benefits; company goals; work quality, 36410

goal setting; participation; organizational behavior; goal commitment; organizational goals; justice mediation, 36343

human resource practices; organizational commitment; business environment; human resource management; organizational effectiveness; organizational goal, 23959

information systems; IS; business goals; goal programming; investment strategies; optimization, 4025

innovation process; shared vision; innovation effectiveness; product and process innovation team dynamics, 20952

key account management; KAM; intraorganizational determinants; key account management effectiveness; key account managers; marketing; sales organization; top managers; selling effectiveness, 6022

learning networks; legitimacy; multinational subsidiaries; international relations; organizational strategies; institutional structures; power; knowledge, 17877

organizational goals; work experience; teamwork; call center; governmental management; employee commitment; employee autonomy; employee sociability, 9083

public communication; corporate behavior; discursive responsibilities; respect; commitment; exposure; strategic business goals; public discourse; civil society; corporate citizen; citizenship, 17829

team innovation; goal interdependence; team reflexivity; organizational competition, 36401

Organizational Objectives—Chapters

Management interventions, 6005

Organizational Performance [See Organizational Effectiveness]

Organizational Policy Making [See Policy Making]

Organizational Psychology [See Industrial and Organizational Psychology]

Organizational Structure—Serials

acute-care hospitals; complexity absorption response; business-level strategy; organizational structure; analytical comprehensiveness; hospital performance, 29751

award ceremony rituals; organizational field evolution; performance; conflicts; horizontal linkages; Grammy Awards, 36243

boundaries; role conflict; work; family; communication network; symbolic interaction approach; organizations; boundary characteristics; organizational fields; virtual organization; social networks, 36397

Catholic parish organizational structure; parish outcomes; canon law; pastoral care, 28221

Church of England; pioneer women priests; history of involvement; active agents of change; cultural factors; structural factors, 4256

control room; nuclear power plants; information processing behavior; safety; reliability; operator's performance; ecological interface; organizational structure; communication; human systems; design, 6137

ergonomics improvements; medium enterprises; implementation processes; small enterprises; organizational change; problem solving, 36384

evidence-based medicine; EBM; biomedical science; medical practice; family physicians; social organization; governance; research transfer initiative; informed; work practices, 2273

gender differences; higher education; bullying; organizational structure, 30065

human agency; organizational arrangements; organizational forms; human involvement; employment trends; labour trends; modernity; bureaucracy; modern humans; modular man; contingency; selectivity; work, 2951

implicit communication; organizational culture; organizational structures and systems; management practices; employee behavior, 27102

innovation implementation; bureaucratic job structuring; person-job integration; workplace; healthcare organizations; perceptions; incumbents; roles; performance; burnout, 20896

interorganizational partnerships; social network theory; police department; community development; inchoate hierarchies; organizations in development; unstructured cooperation, 30228

interorganizational performance; opportunism; relational safeguards; goal congruence; trust; idiosyncratic investments; transaction costs, 14786

interorganizational relationships; organizational behaviour; industrial marketing; supply networks; purchasing, 30211

lie; organizational socialization; occupational socialization; moral issue; organizational career; norms; information management, 36322

mergers; acquisitions; firms' espoused values; postmerger performance; initial differences; shareholder value, 36364

national culture; managing director; international production; multinational companies; employment, 23965

neurology; psychiatry; psychoanalysis; Mount Sinai Hospital; Department of Psychiatry, 30356

organizational structure; organic organisations; pay systems; incentives; human resource environment; employee skills, 33234

organizational boundaries; organization theory; boundary properties; framework; virtual organization; boundary characteristics; composite boundaries, 36378

organizational boundaries; organizational life; constituent parts; organizational structure; autistic-continguous mode of experience; object relations; psychoanalytic theory, 36368

organizational boundaries; structuration theory; negotiated order; strategic choice, 36377

organizational careers; institutional structuring; organizational capabilities; collective problem solving; authority sharing; employee commitment; corporate control, 2943

organizational change; research-action project; social system dynamics; researcher; change agents, 36382

organizational characteristics; health care environment; older adults; gerontological health section; American Public Health Association; social support services, 2387

organizational context; cognitive frameworks; gender differences; leaders, 17592

organizational culture; multinational organizational structure; organizational change process, 36404

organizational downsizing; firm deknowledge; restructuring; transition; firm behavior; contingent labour use; long term skill change; deskilling, 17864

organizational stability; organizational design; vertical hierarchy; incentive system; decision interaction; organizational structure; interdependencies; decomposition; managerial ability, 17873

organizational structure; organizational practices; workplace learning; multinational corporations; models, 14718

ownership structure; expropriation; business performance; group-affiliated companies, 24010

perceptions of team performance; gender; gender orientation of tasks; work teams, 33282

program attributes; structural attributes; demographic characteristics; protege satisfaction; mentoring programs; protege assignment; program assessment; race; gender, 30136

research & development; ownership structure; R & D investments; United States; Japan, 24017

spatial boundaries; high commitment organizations; organizational boundaries; organizational life; social geography; spatial metaphor; culture management programme; control; physical environment, 36372

staff supervision; residential care staff; organizational structure; residential settings; youth care workers; systems theory, 23581

structure; feminist theory; public relations; organizational influence; structural power; public relations; fender, 9132

sustainability networks; intersectoral collaboration; sustainability communication; soloists; effective communication; marketers, 14854

women managers; professional training; organizational structure; gender role; positive action training, 36306

women's management careers; governmental organizations; sex difference; government employment; gender inequality, 23983

Organizational Structure—Chapters

Brokering knowledge: Linking learning and innovation, 6060

Changing the rules? Human resources in the 21st century virtual organization, 17888

Class diversity in the workplace, 2882

Organizations [See Also Business Organizations, Foreign Organizations, Government Agencies, Health Maintenance Organizations, International Organizations, Labor Unions, Nonprofit Organizations, Professional Organizations, Religious Organizations]—Serials

accountability; responsibility; organization; societies; instrumental entities; ethical debate; dichotomy; instrumentality; work; hierarchical accountability systems, 6042

behavioral medicine research; cessation interventions; cessation guidelines; synergistic effects; care organizations, 11747

boundaries; role conflict; work; family; communication network; symbolic interaction approach; organizations; boundary characteristics; organizational fields; virtual organization; social networks, 36397

Chinas propaganda; structural transformations; human organization; media technology; International image management; government, 31328

community engagement; residents; violence prevention; Institute for Community Peace, 17346

community membership; social networks; self-help agencies; mental health, 8778

community organization; leadership; leaders; participatory leadership; organizations, 31510

community-based treatment organizations; Center for Substance Abuse Treatment Methamphetamine Treatment Project; substance abuse treatment, 20627

contemporary organizations; program attendance; wellness programs; program support; program characteristics; employee characteristics, 17267

corporate safety policies; policy execution; employee safety outcomes; supervisor safety support; employee safety control; job satisfaction, 27116

customer interaction; remote banking; technology; telephone banking; video-conferencing; operators; computer-based technologies; technology mediated communication, 2875

disability advocacy organizations; disabled persons; advocacy participation; disabilities, 16363

discursive construction; social practice; organizational communication; social interaction; organizations, 36371

diverse organization; undergraduate students; attitudes; social norms; racial identity; Asian Americans; Whites; diversity related behavioral goals, 9059

dynamic information flow; cooperative information sharing; team agents, 27198

Organizations—Serials

- emotional intelligence; matrix organization; interpersonal relations; employee competition; decision making; organizational change, 27111
- employability orientation: employee attitudes; career anchors; organizations, 36354
- employee recruiting: candidates; interview phase; organizations, 23967
- Epilepsy Foundation; epilepsy research; epilepsy organizations, 22997
- ethnic minority status; ethnic organizations; racial stereotype; socioeconomic status; upper middle class status; Asian American professionals; Indian Americans; Korean Americans, 10356

- selective serotonin reuptake inhibitors; sexual dysfunction; orgasm delay; psychiatric disorders; side effects; spontaneous remission, 26373
- The Aesthetics of Orgasm; sexuality; stage play, 7581
- Orientation (Perceptual) [See Perceptual Orientation]**
- Orientation (Spatial) [See Spatial Orientation (Perception)]**
- Orienting Reflex—Serials**
- cross-form conceptual priming; novelty P3; word-sound; sound-word; conceptual repetition, 9910
- integration of sensorimotor systems; inhibition mechanism; additive mechanism; optomotor reflex; sound-localizing robot; cricket behavior; algorithms; neural networks, 12389
- Orienting Responses—Serials**
- attention; orientation; perceptual representations; mental representations; spatial attention; neural systems; direct attention, 18258
- attentional networks; alerting; orienting; executive function, 21398
- counterpredictive cues; eyes; arrow orienting; cued target locations; gaze; predicted locations; gaze triggered attention; attentional effects; cued location; target gazing, 15202
- covert orienting; peripersonal space; extrapersonal space; responses; visual fields; spatial attention, 21280
- infant rats; positive geotaxis; geogravitational factors, 27641
- newborn humans; genetics; orienting responses; face learning; prenatal exposure; brain; visual area; face perception; internal patterns; environment; preferences; PGO waves; REM; HLISSOM model, 3088
- postnatal exposure; binge ethanol exposure; cardiac orienting response; rats; response habituation, 18750
- preconscious processes; smoking related cues; nicotine dependence; conscious awareness; attentional bias; evaluative bias; component process; visual orienting; cigarette smokers; stimulus valence, 19649

Volume 91 SUBJECT INDEX

Orienting Responses—Serials

recall memory; recognition memory; orienting response; web advertisements; pop-up window; animation; online users, 33849

spatial attention; eye movements; overt orienting; covert orienting; voluntary shifts, 9844

spatial location; working memory; selective spatial attention; event-related potentials; orienting attention; perceptual stimuli; neural processes, 6579

Orienting Responses—Chapters

Functional consequences of changes in callosal area in Tourette's syndrome and attention deficit/hyperactivity disorder, 16863

Originality [See Creativity]

Orphanages—Serials

institutionalization; child development; orphanages; adopted children, 10139

orphanage care; child care; youth care; professional training, 26647

Orphans—Serials

HIV; child mortality; child morbidity; orphanhood; African children; AIDS; HIV-negative mothers, 22861

orphan care; HIV epidemic; kinship ties; community-based interventions; patrilineal kinship; Kenya; AIDS; poverty; matrilineal kin; caretaker; children needs; disadvantaged children, 1119

orphan crisis; orphan prevalence; HIV prevalence; human immunodeficiency virus; HIV; households situation; education; mortality; sub-Saharan Africa; age patterns; societal responses, 16674

orphanhood; extended family; grandparents; caregiving households; well being; Acquired Immune Deficiency Syndrome; Thai children, 35228

orphans; Acquired Immune Deficiency Syndrome; migration experiences; successful migration; urban communities; rural communities; households, 35224

social behavior; emotional behavior; orphans; emotional deprivation; length of institutionalization; contact with family members; previous hospitalizations, 28125

Orthogonal Rotation—Serials

spatial arrangement; visual stimulus; inverted self-motion perception; foreground motion; orthogonal background; inverted vection; visual field; eye convergence, 30614

Orthography—Serials

acquired dysgraphia; reading; writing; Chinese language; logographic writing systems; Cantonese; stroke; right hemisphere, 1740

adults; brain activity; dyslexia; electrophysiology; event-related potential; orthographic processing; phonological processing; word reading, 4784

attention allocation; orthographic information; multiple word reading; eye movements, 12675

auditory lexical decision task; orthographic representations; letter-by-letter reading; orthographic information; phonological similarity; auditory lexical access; auditory presentation, 1711

categorization; vowel length; German; poor spellers; phonological distinction; orthography, 4108

cognitive representation; lexical access; letter font; letter size; graphemes; phonemes; perceived word center, 15199

compound characters; single characters; lexical decision; Chinese children; writing ability; Chinese writing system; delayed copy; copy task, 13210

deaf signers; Japanese; memory spans; word sequences; English; reading; remembering; orthography; logographs, 35340

development of orthography; Touo language; Touo speaking community; community leaders; linguistic obstacles; social obstacles; political obstacles, 13126

developmental differences; lexical processing; functional magnetic resonance imaging; neuroanatomy; orthography; phonology; semantics; audio & visual presentation, 358

developmental dyslexia; languages; English; orthographies, 1720

developmental-spelling research & theory; classroom practice; English spelling; teacher instruction; systematic instructional program; orthography; literacy achievement, 29991

dysgraphia; written errors; brain damage; phonology; orthography, 32167

event related brain potentials; morphological & homographic & orthographic semantic priming; lexical memory; words; stem morphemes; affixes, 24728

functional magnetic resonance imaging; native English speakers; superior temporal gyrus; inferior frontal gyrus; language functions; foreign language learning; lexical tone, 633

Hebrew; orthography; linguistics; letter processing; Arabic; hemispheric abilities; visual field, 9833

hemispheric activation patterns; cerebral hemispheres; lexical decision; phonological priming; orthographic priming; stimulus similarity; left visual field; right visual field, 9854

hyperlexic children; orthographic awareness; syntactic processing; working memory; phonemic awareness; academic achievement; oral language skill; word recognition; hyperlexia; orthographic processing, 28938

intensive reading remediation; word-level skills; explicit instruction; phonologic connections; orthographic connections; text-based reading; remedial reading programs; spelling, 36204

item recognition memory; study time; study repetition; semantic & orthographic similarity; category length; receiver operating characteristics; constancy-of-slopes generalization; dual process model, 418

larger sized sub-syllabic relationships; small-sized phoneme-grapheme relationships; spelling; orthographic units; orthographic redundancy, 24883

lexical orthographic processing; phonological processing; word recognition, 6589

literacy achievement; schooling years; spoken language; written language, 30041

literacy role; Native American language; Jicarilla Apache dictionary; language standardization; polysynthetic language; morphologically rich languages; lexicographers; orthography; language structure, 15849

magnetic resonance imaging; fMRI; Japanese Kana orthography; visual familiarity; words; phonological encoding; silent articulation; phonological lexical decision, 24682

meaning; pronunciation; decision-making; attention; graphic vs phonological vs semantic word relations; event related potentials; ERPs; Chinese words, 643

mental representation; radicals; Chinese characters; priming; low-frequency targets, 12635

monomorphemic words; semantics; orthography; priming, 28024

morphology; pronunciation; orthography; Basque words, 15874

neurobiology; adaptive learning; reading; training conditions; orthographic processing; phonological processing; semantic processing; learning ability; word learning; transfer effects; pseudowords, 27785

orthographic consistency; spelling development; orthography; English spelling model; core skills; alphabetic writing systems; letter knowledge; language; phonological awareness; cross-linguistic study, 15852

orthographic familiarity; initial eye fixation positions; reading; word beginnings, 12682

orthographic knowledge; literacy acquisition; literacy instruction; spelling performance; French first graders, 13192

orthographic learning; self-teaching; time course, 22043

orthographic neighborhood; visual word recognition; visual field; lexical decision; recognition processes; split foveal theory; left hemisphere; right hemisphere, 15211

orthographic neighbors; masked words; word primes; decision latencies, 27996

orthographic priming; lexical decision; letter position; neighborhood distribution, 30680

orthographic regularity; word beginnings; interword saccade amplitudes & landing positions; continuous reading, 12660

orthography; German language; words; nonwords; connectionist learning models; reading development; whole-word approach; English language; cross-language learning rate; nonword decoding accuracy, 15958

orthography; phonetics; grapheme to phoneme conversion mechanisms; reading; meaningful Italian words; meaningless Italian words; phonemics; phonetics, 18602

orthography; phonology; meaning; word recognition; words, 33780

orthography; verbal fluency performance; schizophrenia; non-alphabetical language, 25679

phonological influences; distinct cortical areas; connectionist models; behavioral studies; neural correlates; lexicality effect; occipital cortex; letter string length; reading; orthography, 635

phonological processing; second language reading; bilingual brain activity; native language; phonology; orthography, 3801

reading difficulties; poor readers; visual magnocellular system; orthographic abilities; visual attention; eye fixation on words; yellow filters; training eye fixation; reading performance; genetics, 4790

reading performance; numeral reading; number word reading; pseudoword reading; reading development; orthography, 4094

reduced word forms; word processing; suffix restoration effect; mental lexicon; phonology; orthography, 27999

serial rapid naming; reading acquisition; phonological activation and recording; letter sounds; orthographic knowledge; naming speed; training effects, 31139

syllable frequency; word recognition; visual word recognition; syllabic structure; polysyllabic words, 33783

text conventions; word separation; letter background separation; lower-case letters; visual appearance; words; verbal integration; word gestures; literacy instruction; grapheme word; language; phonics, 30011

training reading fluency; dysfluent readers; reading accuracy and speed; orthographic representations; training words; high-frequency onset clusters, 33194

transparent orthography; opaque orthography; shallow orthography; reading development; formal reading instruction; letter recognition; phonological awareness skills; first year reading instruction, 30043

visual input; orthographic knowledge; word reading; reading experience; low vision, 8338

word identification; cognitive processes; English as second language; semantic category judgment; phonology; orthography; alphabet; Korean; Chinese; writing system differences, 30694

word identification; cognitive processes; English as second language; semantic category judgment; phonology; orthography; alphabet; Korean; Chinese; writing system differences; script transfer, 30698

word meanings; reading; computational model; connectionist principles; visual processes; phonological processes; orthography; cooperative division of labor, 27501

word reading; primary school children; orthography; English readers; Swedish readers; word recognition; error patterns, 34277

word recognition; right visual field; case alternation; lexical decision; hemispheres; word length; orthographic neighbors; split fovea, 15198

word spacing; letter spacing; reading books, 30042

writing; phonology; speaking; homophone usage, 34226

Orthography—Books

Masked priming: The state of the art, 15267

Orthography—Chapters

Dissociating automatic orthographic and phonological codes in lexical access and lexical acquisition, 15272

Transposed-letter confusability effects in masked form priming, 15274

Orthopedically Handicapped [See Physical Disorders]

Orthopsychiatry—Serials

Inflicted traumatic brain injury (ITBI); shaken baby syndrome, 8274

World Health Organization; mental health journals; mental health research; curriculum development; mental health issues; mental health reform; developing countries, 20123

Osteopathic Medicine—Serials

self hypnosis; osteopathy; neurolinguistic programming; exhaustion; stress; anxiety; physical pain; performing arts; ballet dancer, 20427

Osteopathy [See Osteopathic Medicine]

Osteoporosis—Serials

anorexia nervosa; chronic psychiatric disorder; osteoporosis; cardiac arrhythmia; primary care provider; body weight restoration; refeeding complications, 16563

anorexia nervosa; risk factors; bone mass; osteoporosis, 26007

anticonvulsant drug; bone disease; treatment; bone remodeling; osteopenia; osteoporosis, 20465

behavioral intentions; middle-age women; osteoporosis prevention program, 8697

bone health; pediatric epilepsy; skeletal mineralization; osteoporosis, 20055

bone mass; antiepileptic drugs; osteoporosis; osteoporotic fractures; bone mineral density; fracture risk; osteopenia; treatment, 20466

decision making; general practitioners attitude; dual energy X-ray absorptiometer; diagnosis; osteoporosis; risk factors, 29657

depressive symptoms; bone mineral density; risk factors; older men, 25606

dual X-ray absorptiometry scans; osteoporosis screening; primary care; at risk populations; bone mineral density, 5509

epilepsy; bone health; antiepileptic drugs; osteopenia; osteoporosis; bone metabolism, 20481

major depressive episode; dysthymia; bone mineral density, 31673

schizophrenia; osteoporosis; antipsychotic-induced hyperprolactinaemia; lifestyle factors; risk factors, 35374

women smokers; cross-sectional data; health hazards; osteoporosis; women smoker perception; smoking-related health risks; cigarette smoking; smoking cessation, 16886

Otosclerosis [See Ear Disorders]

Out of Body Experiences—Serials

dissociation; Spectrum of Dissociation; wholeness; transcendence, 19306

out-of-body experiences; hypnotherapy; hypnagogic situations, 23142

Outcomes [Psychotherapeutic] [See Psychotherapeutic Outcomes]

Outcomes [Treatment] [See Treatment Outcomes]

Outgroup Ingroup [See Ingroup Outgroup]

Outpatient Commitment—Serials

assisted out patient treatment; mental patients; mental health treatment; coercion; law; involuntary psychiatric admission; Lanterman-Petris-Short act; California; Laura Law; legislative ambivalence, 6186
mandatory community treatment; ethics; mandatory outpatient treatment; ethical arguments; severe mental disorders; mental health service system; mental health patients, 5603
mentally ill people; caregiver strain; outpatient commitment, 35784
Outpatient Psychiatric Clinics [See Psychiatric Clinics]
Outpatient Treatment [See Also Outpatient Commitment]—Serials
anorexia nervosa; outpatient treatment; body weight; inpatient treatment, 35786
assisted ambulation; multiple disabilities; microswitch cluster, 25476
attention deficit hyperactivity; national trends; treatment; health insurance; outpatient treatment; sociodemographics; psychotherapy; pharmacotherapy, 26210
attention deficit hyperactivity; national trends; treatment; health insurance; outpatient treatment; sociodemographics; psychotherapy; pharmacotherapy; ethnic differences, 24145
borderline personality; psychotropic medication; outpatient psychiatry clinic; pharmacological intervention; symptoms; selective serotonin reuptake inhibitors; psychotherapy sessions, 5591
Child and Adolescent Services Assessment; parent reports; provider records; attention deficit hyperactivity disorder; ADHD; outpatient services; health services; medication regimen, 20561
children; adolescents; mental health services; psychiatry; outpatient appointments; demographic factors; attendance, 35785
client attitudes; Alcoholics Anonymous; medication usage; emotional problems; alcohol abuse; outpatient alcohol treatment; client perceptions, 32807
educational intervention; cancer pain management; ambulatory settings; nurse-administered intervention; intervention effectiveness; patient education strategies, 32571
health care utilization; migraine; demographics; health care delivery patterns; ambulatory settings; racial differences; gender differences, 14367
integrated mental health services delivery; community-based outpatient clinics; Veterans Administration; rural veterans, 14373
managed care; outpatient substance abuse treatment; drug treatment organizations, 20618
managed care; treatment outcome; children's psychiatric care; outpatient treatment, 11820
mandatory community treatment; ethics; mandatory outpatient treatment; ethical arguments; severe mental disorders; mental health service system; mental health patients, 5617
mental health program evaluation; intensive outpatient program; private practice setting; treatment effectiveness, 2433
mental illness; schizophrenia; health care costs; outpatient visits; hospital admission, 35753
missed appointments; outpatient schizophrenia program; severe mental illness; psychiatric outpatients; nonattendance, 35783
nursing home residents; health care services; logistic regression; claims data, 23570
outpatient program; substance-use disorders; retention; treatment outcome; length of stay; mixed-gender program; women-only program, 8876
outpatient substance abuse services; group counseling; individual counseling; treatment performance; performance measurement, 11930
outpatient substance treatment organizations; organizational efficiency; administrative burden; organizational productivity, 8866
outpatient treatment program; psychotherapeutic treatment; outpatient psychotherapy; mothers, 14408
outpatient treatment programs; client attitudes; clinician attitudes; 12-step groups; obstacles to participation; drug addiction, 8865
outpatient treatment; depression; children; adolescents, 11823
pathological gambling; gender; risk taking behavior; outpatient treatment program, 31884
personal safety; self-defense training; female veterans; outpatient mental health treatment; post-traumatic stress disorder; sexual trauma; physical trauma, 36545
physicians; HIV/STD testing; HIV/STD counseling; private settings; hospital outpatient departments; physician offices; ambulatory care, 17260
posttraumatic stress disorder; continuity of care; treatment quality; treatment outcome; female veterans; outpatient treatment, 26640

pretreatment attrition; patient dropout; outpatient clinic; anxiety disorders, 28772
psychiatric treatment; outpatient treatment; psychotherapy; outcome domains; treatment characteristics; mental disorders, 29621
psychotherapy outcome; client satisfaction; intensive outpatient program; private practice setting, 2021
relapse; marijuana dependency; outpatient treatment; substance abuse treatment; comorbidity; major depression; attention deficit hyperactivity disorder, 35895
substance abuse treatment; managed care; client characteristics; outpatient treatment; employed population, 11927
substance abuse; intensive outpatient treatment; program graduation; social outcomes; inpatient utilization; treatment completion; program dropouts; offset effects, 32811
therapists; outpatient treatment; alcoholism; substance use disorders; therapist rotation; therapeutic alliance, 20647
travel distance; outpatient drug treatment; client retention; treatment completion; length of stay, 11897
United States military service members; outpatient treatment; prevalence; severity; risk factors; health care; occupational functioning; mortality; behavioral problem; psychiatry research, 16381
women ambulatory medical care visits; outpatient departments; therapeutic drug; health care; antidepressants; estrogens; progestins; antiarrhythmics; peptic disorder drugs; medication trends, 8609
zero acceptance of pain; quality improvement project; cancer outpatients; pain assessment; pain management; pain related costs; pain interference; quality of life; cancer patients, 5589
Outpatient Treatment [See Also Outpatient Commitment]—Chapters
Cognitive-behavioral therapies, 16645
Effectiveness of nonresidential and specialty mental health services for children and adolescents in the "real world" 2434
Outpatients—Serials
adolescent outpatients; treatment outcomes; substance abuse treatment; engagement; navigation; ethnographic analysis, 11932
alzheimers disease; reliability; validity; Hellenic Neuropsychiatric Inventory; outpatients, 18095
antecedent events; behavioral noncompliance; outpatient clinic; task novelty; task preference, 32691
anxiety symptoms; healthcare utilization; outpatients; internal medical clinic, 4665
bipolar outpatients; actigraphy; sleep parameters; naturalistic setting, 25576
body weight loss; phentermine; fenfluramine; calorie diet; outpatient obesity center, 11822
borderline personality disorder; STEPPS group treatment program; cognitive-behavioral systems-based group treatment; Systems Training for Emotional Predictability and Problem Solving, 32334
borderline personality; psychotropic medication; outpatient psychiatry clinic; pharmacological intervention; symptoms; selective serotonin reuptake inhibitors; psychotherapy sessions, 5591
brief motivational treatment; problem drinkers; outpatients; client characteristics; service utilization; treatment outcomes, 5676
cancer patients; outpatient clinics; care efficiency; psychosocial problems; caregivers; psychosocial screening; screening instrument development, 30461
Children's Yale-Brown Obsessive Compulsive Scale; item structure; outpatients, 6309
clinical outcomes; major depression; public sector outpatients; long term outcome; remission; antidepressant medication, 29376
comorbid gambling; psychiatric outpatients; antisocial personality disorder; pathological gamblers; psychiatric outpatients; avoidant personality disorder; compulsive personality, 34764
dizziness; PRIME-MD Patient Health Questionnaire; anxiety; depression; prevalence; mood disorders; otorhinolaryngology outpatients, 161
drug consumption; drug costs; outpatient settings; prescription drugs; health effects; provincial drug coverage; Canadian seniors; provincial government drug plans, 17344
drug utilization; risperidone; outpatients; tertiary referral hospital; schizophrenia, 29356
health-related quality of life; schizophrenia; outpatients; health care, 28747
maladjustment; psychological states; outpatients; schizophrenia, 7914
medical outpatients; antidepressant drugs; attitudes, 20553
Minnesota Multiphasic Personality Inventory; psychological disorders; acute disorder; chronic disorder; infrequency scale, 21130
missed appointments; outpatient schizophrenia program; severe mental illness; psychiatric outpatients; nonattendance, 35783

obsessive-compulsive disorder; comorbidity; personality disorder; clinical severity; anxiety disorders; outpatients, 25705
outpatient pharmacy trends; veterans affairs; specialized mental health care, 29388
outpatient psychiatric diagnosis; diagnostic patterns; mental health problems; privately insured children; privately insured adolescents, 25515
outpatients; group psychotherapy; day treatment; personality disorders; treatment outcomes, 11393
parent ratings; child ratings; emotional problems; behavioral problems; outpatient clinical setting, 28118
participant retention; outpatient drug-free treatment; drug use; intake role induction session, 17432
patient satisfaction; physician; outpatients; Princess Margaret Hospital Patient Satisfaction with Doctor Questionnaire; test reliability, 20562
personality traits; group psychotherapy; psychiatric outpatients; predictors of response; clinical implications; neuroticism; supportive therapy, 11434
psychiatric disorders; medical outpatients; Pakistan, 31699
psychiatric outpatients; nonpsychotic hallucinations; outpatient mental health; cross cultural variation; psychotic illness; hallucinations; Latinos; Caribbean Latinos, 19309
psychosocial functioning; Independent Living Skills Survey; schizophrenia; mental illness; older outpatients, 28734
randomized controlled trials; community outpatient samples; psychotherapy; generalization; exclusion criteria; inclusion criteria; methodology, 2015
Schizophrenia Outpatient Health Outcomes Study; antipsychotic; schizophrenia; outpatient health; schizophrenia treatment; observational study, 23093
schizophrenia; sustained remission; community dwellers; older outpatients, 34857
Seasonal Pattern Assessment Questionnaire; psychological factor; non-seasonal depressed out-patients; test validity; test reliability; seasonal affective disorder, 24299
staffing needs; public sector; outpatient mental health services; demographic variables; workers productivity; mental health professionals, 32692
Outreach Programs—Serials
anorexia nervosa; outreach programs; eating disorders; hospital admissions, 35840
assertive outreach engagement; nursing, 32616
assertive outreach teams; London; groups; community care, 5755
assertive outreach teams; London; patient characteristics; assertive outreach services; UK, 5565
civil disobedience; establishment of medically supervised injecting center; MSIC; parliamentary inquiry; citizens; Roman Catholic nuns; public health practitioners; Australia, 2418
collaborative research; mental health service users; caregivers; researchers; outreach service; service evaluation, 24337
drug abuse treatment; treatment barriers; barrier reduction suggestions; alcohol abuse; drug abuse; injection drug users; outreach clients; outreach workers; health administrators, 20622
drug consumption facilities; differences; aspects needing improvement; staff; clients; Netherlands, 2419
epilepsy; stigma; awareness; educational campaign; Epilepsy Foundation; educational outreach; African-American community; Spanish-speaking community, 26166
EVA; first safe injection facility; underfunding; municipal support; services; at risk populations; overdose; HIV infection; violence; death; drug injectors; Spain, 2376
extent & profile of public injecting; consideration of supervised injection facility; injecting drug users; Canada, 2388
forensic patients; adjustment; quality of life; psychiatric disabilities; community outreach services; client satisfaction; social integration; problem behaviors; self-esteem; coping, 11831
healthy marriages; early intervention; youth outreach; youth development programs; ecological approach; high risk couples; adolescents; faith communities, 2448
homeless persons; community psychiatry education; medical students; outreach programs; mental illness, 35968
informed consent; postponed information; patient attitudes; clinical trials; outreach stroke care; treatment effectiveness evaluation, 30553
informed consent; postponed information; patient attitudes; clinical trials; outreach stroke care; treatment effectiveness evaluation, 30555
injection drug users; HIV prevention; risky behavior; HIV behavioral interventions; outreach programs, 35669
Medical Specialist Outreach Assistance programme; psychiatric services, 35729
outreach; homeless; mental illness; mental health services, 20542
Sydney Medically Supervised Injecting Center; client characteristics; predictors of frequent attendance; injection drug users; Australia, 2395

Volume 91 SUBJECT INDEX

Outreach Programs—Serials

Sydney Medically Supervised Injecting Center; public health issues; community level; clinical service model; integration with other harm reduction services; injecting drug users; Australia, 2414

UK700 trial; outcome generations; intensive case management; hospitalization; outreach programs, 8769

Outward Bound [See Wilderness Experience]

Ovariectomy—Serials

brain; estradiol; Estrodox; dose dependence; time dependence; cyclodextrin complex; copulatory behavior; castrated male; ovariectomized female; rats; blood luteinizing hormone, 18807

estradiol replacement; hippocampus; acetylcholine; place learning; spatial memory; ovariectomy; rats, 750

estrogen replacement; gracile nucleus neurons; visceral stimulation; nucleus neurons; estrous cycle; ovariectomy; hindquarter skin; pelvic viscera, 3607

estrogen; associative memory formation; ovariectomized females; rats; ovarian hormone; learning; short term estrogen replacement, 27913

estrogen; lordeosin-inhibiting action; ketanserin; receptor antagonist; ovariectomized rats; estradiol benzoate; progesterone, 24852

ovarian hormones; cognition; aged female rats; long-term ovariectomy; short-term ovariectomy; spatial performance; spatial memory; spatial cognition, 7152

ovarian hormones; cognition; progesterone supplementation; ovariectomy; hormone replacement therapy; spatial working memory; cognitive enhancing effects; aged female rats, 30961

prophylactic oophorectomy; ovarian cancer; increased risk; perceptions of risk; psychosocial correlates; sociodemographic factors, 14261

quantitative-polymerase chain reaction; adenosine receptor; estrogen receptor; ovariectomy; female rat brains, 15567

Ovaries—Serials

estrous cycle; water maze acquisition; water temperature; task stressfulness; plasma corticosterone; ovarian hormones; rats, 31003

follicle position; normal human ovary; definitive histogenesis; spatial position; cortex, 9810

ovarian cancer; social well-being; healthcare professionals; social concerns; social support; health care, 1813

polycystic ovary syndrome; antiepileptic drugs; epilepsy; bipolar disorder, 26211

symptom management; ovarian cancer patients; symptom experience; patient education; fertility changes; pre-diagnosis; post-diagnosis; The International Newsletter for Those Fighting Ovarian Cancer, 16695

Ovary Disorders [See Endocrine Sexual Disorders]

Over the Counter Drugs [See Nonprescription Drugs]

Overachievement (Academic) [See Academic Overachievement]

Overlearning—Serials

competitive endurance athletes; overtraining syndrome; sport stress, 27132

infralimbic prefrontal cortex; rats; goal-directed responding; overtraining; muscimol; actions; habits; operant conditioning, 6794

Overpopulation—Serials

behavior analysis; companion-animal overpopulation; societal problem; environmental contingencies; intervention programs; contributing factors, 33907

Overweight [See Obesity]

Ovulation—Serials

female mate choice; ovarian cycle synchrony; female mammals; cycle length variation; adaptation; rats, 30806

ovulation; sex skin swelling; female West African chimpanzees; perineal swelling; variability of timing; period of maximum swelling; maximum tumescence; probability; morphological cues, 655

plasma norepinephrine cyclicality; estradiol; follicular phase; progesterone; gonadotropins; ovulation; women; premenstrual syndrome, 26022

risk taking behavior; menstrual cycle; rape; ovulation; ovarian cycle; women; nonrisk behavior, 4444

Ownership—Serials

automotive industry; social approval; motor vehicle; automobile lease; automobile finance; motivational processes, 12342

business tensions; farm couples; profit; family business; priorities; family; wives; husbands, 30179

canine adoption; adoption process; animal shelters; human-canine relationship; abandoned animals; canine relinquishment; canine ownership; animal welfare, 6660

cognitive autonomy support; procedural autonomy support; organizational autonomy support; classroom behavior; student decision making & ownership; teachers, 26910

development anthropologists; anthropological sustainability; common property resources; innovation; livelihood identities; sustainable development; sustainable livelihoods; economic systems, 1082

economic growth; human resource management; ownership forms; state owned sector; centrally planned personnel administration, 36287

employee ownership; employee performance; organizational structure; worker-owner productivity, 36261

employees ownership; affective organizational commitment; employees' perceptions; company shares; profit sharing; financial participation; motivation, 6027

family businesses; ownership dispersion; debt; behavioral economics; governance, 23990

family-owned businesses; adjustment strategies; business development; family resources; family managers; business life cycle, 12280

gun ownership; crime; violence rates; suicide; measurement, 22702

gun possession; attitudes; Use; firearms; cultural differences, 19174

international diversification; institutional ownership; institutional investors; professional investment fund; board members; technological opportunity, 24024

older women; attachment; homes; possessions; widows; identity, 34392

ownership structure; expropriation; business performance; group-affiliated companies, 24010

ownership; organizational performance; CEO stock options, 23988

privacy; property; Internet; confidentiality; ownership; policy makers, 10093

property crime rates; burglary; theft; seasonality, 30320

psychological ownership; employees; organization ownership; employee attitudes; organizational citizenship behavior; ownership feelings; work attitudes; work behaviors, 27113

racial boundaries; socioeconomic mobility; migrant labor; citizenship; family formation; land ownership, 34403

research & development; ownership structure; R & D investments; United States; Japan, 24017

spatial claiming; place use; property ownership; teenagers; territorial place-making; public spaces; conflict between adult and teenage property claims, 31207

underage consumers; alcohol promotional clothing items; APCI; alcohol use; APCI ownership; APCI visibility, 16509

work environment structure; psychological ownership; control, 36347

Oxazepam—Serials

oxazepam; methamphetamine; conditioned place preference; rats, 24809

Oxidases [See Also Cytochrome Oxidase, Monoamine Oxidases]—Serials

Alzheimer's disease; oxidoreductase activity; antioxidant system; frontal cortex; oxidative stress; neuropathology; NAD(P)H:quinone oxidoreductase, 13996

cellular oxidative stress; synaptosomes; oxidative damage; rats; prostaglandins; aging; age differences; amyloid peptides, 12813

cytochrome c oxidase; platelet membrane fluidity; platelet mitochondria; vitamin E; Alzheimer's disease platelets, 13928

depressive symptoms; lipid peroxidation; female population; vitamins; carotenoids; oxidative tissue injuries, 19215

methylene blue; brain oxidative metabolism; memory retention; rats; brain cytochrome c oxidation; spatial memory, 12981

substantia nigra; oxidative damage; mitochondrial deoxyribonucleic acid; mutations; neurodegenerative diseases; frontal cortex; aging; DNA, 14001

Oxidopamine [See Hydroxydopamine (6-)]

Oxygen—Serials

blood oxygen level-dependent hemodynamic response; positive and negative voxels; healthy aging; visual regions; motor regions; functional magnetic resonance imaging; fMRI; elderly, 24609

brain function; neurophysiological correlates; cerebral blood flow; blood-oxygen level-dependent signals; functional neuroimaging; neural activity; afferent function, 21623

electrophysiology; human somatosensory cortex; somatosensory evoked potential; contralateral median nerve; electrical stimulation; blood oxygen level dependent, 7029

Pacific Islanders—Serials

hyperoxia; microdialysis perfusion; striatal monoamines; arterial vessel permeability; oxygen tension; monoamine metabolites; dialysate dopamine; anesthesia; surgical trauma, 9897

long-term effects; physiological responses; nitrous oxide gas treatment; alcohol withdrawal syndrome, 20637

long-term effects; physiological responses; nitrous oxide gas treatment; alcohol withdrawal syndrome, 32771

long-term effects; physiological responses; nitrous oxide gas treatment; alcohol withdrawal syndrome, 20619

nicotine replacement therapy; plasma cotinine; exhaled carbon monoxide; transcutaneous partial oxygen tension; thiocyanate levels; cardiovascular risk markers; cigarette smoking, 5685

oxygen radicals; brain; ammonia intoxication; rat brain; rats, 7216

oxygen sensation; social feeding; nematode; Caenorhabditis elegans; guanylate cyclase homologue; cyclic guanosine monophosphate; sensory transduction, 30762

reactive oxygen species; thioflavin s-positive amyloid plaques; Alzheimer's disease; neuronal damage; cognitive failure; free radicals; transgenic mice; multiphoton; in vivo imaging; oxidative stress, 15544

red blood cells; thiobarbituric acid-reactive substances; superoxide dismutase; catalase; adenosine deaminase; xanthine oxidase; oxidative stress; oxygen free radicals; autism; enzymes; erythrocytes, 32018

sudden infant death syndrome; normal birth weight; oxygen transfer capability; placenta; oxygen diffusive conductance, 28980

traumatic brain injury; brain tissue oxygen guided treatment; intracranial pressure/cerebral perfusion pressure management, 22977

Oxygenation—Serials

TITLES IN CLINICAL PSYCHOLOGY

HANDBOOK CLINICAL HEALTH PSYCHOLOGY

VOLUME 3
MODELS AND PERSPECTIVES
IN HEALTH PSYCHOLOGY

**Edited by Robert G. Frank,
Andrew Baum,
and Jan L. Wallander**

The third and final volume in this series highlights the development of psychology as a health science. A diverse group of leading researchers and clinicians detail the philosophical underpinnings on which the field is based identifying psychology's contribution to healthcare and public health. This volume highlights the development of psychology as a health science, identifies psychology's contribution to public health, and successfully integrates psychological theory to better understand the interface of health, psychology, disease, and behavior. Chapters encompass research perspectives, clinical issues, and public health and policy topics.

This practical sourcebook will be an invaluable reference for health psychologists and medical professionals. The three volumes are both comprehensive and specific as they relate to the entire field of health psychology. Topics in Volume 1 explore the role of behavior and psychology in a wide range of medical disorders, and use the ICD-9 diagnostic classification as a basis. Volume 2 examines how behavior affects the development, progression, and treatment of specific medical disorders. This set could be used as an encyclopedia, a manual, or a comprehensive text. It is meant to encompass a newly developing, rapidly expanding, scientifically validating, and clinically recognized area concerned with human health and health care delivery.

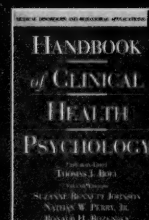

2004. 552 pages. Hardcover.

CONTENTS:

Introduction to the Series • Introduction to Volume 3: Models and Perspective in Health Psychology • I. Overview • The Development of Psychology as a Health Science • II. Research Perspectives • Biobehavioral Issues in Health and Behavior • Psychoneuroimmunology • Behavioral Aspects of Genetic Risk for Disease: Cancer Genetics as a Prototype for Complex Issues in Health Psychology • Personality Theory and Research in the Study of Health and Behavior • Psychosocial Models • How Integrative Behavioral Theory Can Improve Health Promotion and Disease Prevention • III. Clinical Issues • The Practice of Clinical Health Psychology: Professional Issues • Payment for Clinical Services: From Fundamentals to Practice Considerations • Complementary Health Care/Telehealth and Healthcare Psychology: Current Developments in Telecommunications, Regulatory Practices, and Research • IV. Public Health and Policy Perspectives Health Psychology - A Public Policy Perspective • Behavioral Epidemiology and Health Psychology • The Role of Behavioral Factors in Achieving National Health Outcomes • Interventions in Community Settings • Measuring Health Outcomes: Applications for Health Psychology

BEYOND SIGNIFICANCE TESTING

Reforming Data Analysis Methods in Behavioral Research

Rex B. Kline

ISBN: 1-59147-118-4

Item # 4316031

Member Price: \$39.95

List Price: \$49.95

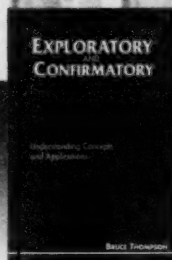

Practices of data analysis in psychology and related disciplines are changing. This is evident in the longstanding controversy about statistical tests in the behavioral sciences and the increasing number of journals requiring effect size information. *Beyond Significance Testing* offers integrative and clear presentations about the limitations of statistical tests and reviews alternative methods of data analysis, such as effect size estimation (at both the group and case levels) and interval estimation (i.e., confidence intervals).

Written in a clear and accessible style, the book is intended for applied researchers and students who may not have strong quantitative backgrounds. Readers will learn how to measure effect size on continuous or dichotomous outcomes in comparative studies with independent or dependent samples. They will also learn how to calculate and correctly interpret confidence intervals for effect sizes. Numerous research examples from a wide range of areas illustrate the application of these principles and how to estimate substantive significance instead of just statistical significance. Additional alternatives to statistical tests are also described, including meta-analysis, resampling techniques like bootstrapping, and Bayesian estimation.

2004. About 336 pages. Hardcover

CONTENTS: Introductory Concepts | Changing Times | Fundamental Concepts | What's Wrong with Statistical Tests—And Where We Go from Here | Size Estimation in Comparative Studies | Parametric Effect Size Indexes | Nonparametric Effect Size Indexes | Effect Size Estimation in One-Way Designs | Effect Size Estimation in Multifactor Designs | Other Alternatives to Statistical Tests | Replication and Meta-Analysis | Resampling and Bayesian Estimation

Behavior Genetics Principles Perspectives in Development, Personality, and Psychopathology

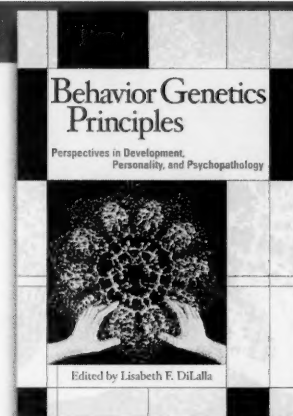

Edited by Lisabeth F. DiLalla

Behavior Genetics Principles presents work that addresses both historical and novel approaches to the study of genetic and environmental influences on behavior. Contributors to this volume use behavior genetics as a means for understanding the etiology of mental illness as well as normal development. They ask: what genes predispose a person to develop a specific personality trait? What about an inclination to a psychological disorder? How do environmental factors enhance or mute genetic factors? Do they regulate inherited individual differences in behavior and personality throughout a lifetime?

Behavior Genetics Principles explores the many connections between genes, personality, development, and psychopathology. It focuses on research influenced by Irving I. Gottesman, a pioneer in behavioral genetics research. As a mentor and a colleague, Gottesman has worked to examine the role of genes and environmental factors using both traditional and novel study designs and analytic methods. This stimulating volume, by colleagues who have helped shape the field of behavioral genetics, presents cutting edge work that carries on his legacy. This volume should interest researchers, practitioners, and students alike. **2004. About 296 pages. Hardcover.**

Concise Rules of APA Style

The *Concise Rules of APA Style* offers essential writing and formatting standards for students, teachers, researchers, and clinicians in the social and behavioral sciences. This easy-to-use pocket guide, compiled from the fifth edition of the *Publication Manual of the American Psychological Association*, provides complete guidance on the rules of style that are critical for clear communication.

Though the *APA Publication Manual* remains the best source for broad background information about scientific publishing—providing guidance on designing research, identifying the parts of a scholarly article, understanding the process of journal publication, and submitting articles for publication—the *Concise Rules* targets only those rules writers need for choosing the best words and format for their articles.

Available in a lightweight, spiral-bound format, the *Concise Rules* will be an invaluable reference tool. 2005. About 250 pages. Spiralbound.

IMPORTANT NEW RELEASES

Critical Thinking About Psychology Hidden Assumptions and Plausible Alternatives

Edited by Brent D. Slife, Jeffrey S. Reber, and Frank C. Richardson

Critical Thinking About Psychology covers six major psychology subdisciplines, ranging from clinical psychology to neuropsychology. In analyzing what is taken for granted, this

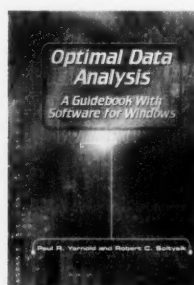

volume teaches critical thinking skills at the same time that it moves psychology in exciting new directions. Contributors critique unquestioned tenets of the field such as the dualism between mind and body, the truth of efficient causation, and the discrete unit known as the individual. 2005. About 296 pages. Hardcover.

Ethics in Plain English An Illustrative Casebook for Psychologists, Second Edition

Thomas F. Nagy

This practical and engaging resource shows psychologists how to apply the principles of APA's Ethics Code to the ethical dilemmas that they encounter in their daily lives. The chapters cover general principles of ethical decision making, as well as a broad range of issues relating to

professional competence, human relations, privacy and confidentiality, advertising and other public statements, record keeping and fees, education and training, research and publication, assessment, and therapy. This second edition has been wholly rewritten and updated to make it consistent with the newly revised 2002 standards of the APA Ethics Code. 2005. About 368 pages. Softcover.
